IT LOOKS like UAA&ASIL is in business, at least for the nonce:

you may recall, we created Uncle Al's An-swering & Advisory Service, Inc., Ltd., of-fering answers and advice to readers nagged led by personal problems.

Presto! In came questions odd, tricky, teasing, challenging and, in a few cases, corny.

So let's unveil a few;

Dear Al: Settle a bet for us. Are all new-born cattle called calves — or just the females? And at what age does a calf be-come a cow or bull? Bob H., Cul-

(Answer: Purdue's helpful info service boys quizzed their top dairy experts and came up with tions are busy making preparations; At birth, all are called calves - either bull calves or heifer calves, At one year, a male be-comes a yearling bull — or steer, if castrated. He rates plain "bull" at "the peak of sexual productivity" - or roughly 136 years, A female calf becomes a heifer at sexual maturity, which varies from 4 1/2 months to a year. Techmically she isn't a full-fledged cow until she reaches her "peak of productivity" at age 5 to 6. However, most dairymen start filling heifers cows after their second calf.)

Dear Al: Will you please ex-plain how newspaper printers make all lines of type end up even. I typed a paragraph in tonight's paper and virtually all the lines varied in length. Miss Carol Welke, Michigan City.

(Answer: Linotype machines set most newspaper type, letter by letter, a line at a time. Even lines are achieved two ways. First, words are separated by "spacebands" which are taper-ed, like tiny wedges. When spacebands fail to wedge a line fully, operators insert "thin," "en" or "em" spaces between the letters of words. A thin space is half the size of an en space, which is half an em. The naked eye can discern the difference in spacing between words. Words spaced let--by-letter are harder to find because they're rarely necessary. Sa we'll ask the line man who sets these words to give you examples. Thin, en and em-spaced words look like this. like this . . . and like this . . . and Dear Al: When water boils,

where does the air come from to make the bubbles? Robert J:

Appleton, Peru. (Answer: The bubbles are steam, not air. At 212 degrees (Continued on Page 15)

Frank Krimmel **New Manager Of** The Culver Inn

Recently The Citizen got to know a really fine fellow -Frank Krimmel, new manager of The Culver Inn. He comes to Culver from his

native city of Erie, Pa., where he had been manager of the exclusive Eric Yacht Club.

Previously Mr. Krimmel was with the Stouffer Corporation, which now operates The Culver Inn for the Academy, in both Cleveland and Minneapolis. His son is with the same nationally known restaurant organization in the Philadelphia area.

Frank's attractive wife, Lucille, has now joined him here, A hearty community welcome to them both!

Winamac Woman **Driver Killed**

Mrs. Phyllis Shields, 27, a for-mer member of The Culver Citizen staff, and her daughter, Kim-berly, 3, are listed in "fair" condition in South Bend Osteopathic Hospital where they were taken following a tragic two-car crash at the intersection of State Road 10 and new Ind. 17 at 4 p.m. last Wednesday.

Mrs. Mildred Lawrence, 59, or Route 2, Winamac, died en route to the Starke Memorial Hospital Knox after suffering a basal skull fracture in the accident. She was a nurse at the hospital.

Mrs. Shields suffered several broken ribs, back injuries, and multiple cuts and bruises and her little daughter suffered severe head and facial cuts. They were transferred to the Osteopathic Hospital from the Culver Clinic. Woman Disregarded Stop Sign

Marshall County sheriff's dep-uties said Mrs. Lawrence was northbound on new Ind. 17 when she apparently didn't see the stop sign and continued through the intersection of Ind. 10. Deputies said she applied her brakes when she saw the eastbound Shields vehicle and skidded 12 feet before ramming the Shields car broad-

Investigating deputies said the Shields' small foreign car-was a total loss and damage to the Lawrence 1959 automobile was about \$1,000.

The Shields, popular former residents of Culver, now live in Evanston, Ill., where Philip Shields is serving Northwestern University in its admissions de-partment. He was formerly music instructor at Culver High School. They had just arrived in Culver to spend a few weeks working on their home here.

It has been reported to The Citizen this morning that Kimberly Shields will probably be released from the hospital the end of this week and at that time Mrs. Shields will be transferred to an Evanston hospital where she will remain for an undetermined time.

Former Culver Resident, Dies

Mrs. Ruth McCullough Shilling. age 59, wife of Oliver C. Shilling, died Saturday afternoon at her home at Riverside, Calif., follow-

ing a long illness.

Mr. and Mrs. Shilling resided for many years in Culver where he owned and operated the Culver City Drug Store before they moved to California 15 years ago. Since moving to the West Coast, Mr. Shilling has engaged in the real estate business. He is a di-rector of The State Exchange Bank of Culver.

Their only child, John Richard, lost his life in Italy in 1945 during World War II.

Surviving with her husband, Oliver, is her mother, Mrs. Etta McCullough, of Riverside.

The body will arrive in Culver Wednesday evening and friends may call at the Easterday Funeral Home after 8 p.m. Wednesday. The body will be taken to the Methodist church at 1:30 p.m. Thursday where friends may call until time for the Christian Sci-

ence service which will be held there at 2:30 o'clock. John F. Roos of the Culver Military Academy faculty will read the service. Burial will be at the Culver Masonic Cemetery.

Best Wishes To Tommye Glaze In Pageant!

"Miss Plymouth" Chosen Thursday

Today and Thursday are big days in the promising and sparkting musical career of Culver's very own, Miss Tommye Lou Glaze, talented Indiana University coed, who is competing against 17 other fine Marshall County girls for the coveted title of "Miss Plymouth," which car-ries with it the honor of repre-senting this area in the "Miss Indiana" pageant at Michigan City on July 9.

The entire community is backing her 100% to bring home the bacon!

The colorful annual pageant, sponsored by the Plymouth Chamber of Commerce, takes place in Centennial Auditorium in the county sent at 8-p.m. on both June 15 and 16. Adult admission each evening is only 75 cents with children under 12 being charged 50 cents.

Pageant Parade Thursday Night The gifted daughter of Mrs. elen Glaze of 702 College Avenue will ride in a brand-new convertible, provided by Snyder Chevrolet Sales of Culver, in the big parade through the streets of Plymonth at 6:45 Thursday night.

LESTER C. SNYDER VISITS OLDMOBILE PLANT AT LANSING, MICHIGAN

Two chartered airplanes and a fleet of Oldsmobiles brought a countries, group of Oldsmobile dealers to Lansing, Michigan, recently from the Chicago area and from sections of Northern Indiana and Southern Michigan.

The "Rocket to Lansing" airlift was arranged to give more than 130 dealers and salesmen a firsthand look at Oldsmobile's main assembly plant operation, the company's forge plant, and the newly constructed 750,000 square foot warehouse.

Among those making the special visit to the home of America's oldest manufacturer of automobiles was L. C. Snyder of Snyder Chevrolet Sales, Oldsmobile dealership in Culver.

"Tipsy Rebellion" **Opening At The Playhouse Tuesday**

Michael McGuire And Bob Moak To Play Lead Roles

The Maxinkuckee Playhouse will be the center of theatrical interest in Northern Indiana this coming week when the pre-Broadway tryout of Jon Jory's new play, "Tipsy Rebellion," opens at the Culver Playhouse for its week's run.

Jon Jory is the son of T.V. and stage actor Victor Jory and the play has been given to the Play-house for its initial production since Jory will be at the Playhouse as playwright in residence

for this coming summer.

Play By Jon Jory

Jon Jory's home is in California and he has spent his life in association with the biggest names in the movie and New York stage world. He is a member of the company known as "18 Actors" where he worked with such personages as Dana Andrews, Robert Preston and Victor Jory. At the University of Utah he has appeared in over 36 productions and he has worked with Don Ameche, Lloyd Nolan, Walter

Abel and many others, "Tipsy Rebellion" will be the first of two Jory scripts to receive their premier productions at the Playhouse this summer. The second which is currently being finished will be presented in August under the personal direction of the playwright. Elmo

direction of the playwright. Elmo
Lowe of the Cleveland Playhouse
calls "Tipsy Rebellion" one of
the most brilliant scripts to cross
his path in many seasons.

Moak — Everybody's Favorite
Michael McGuire, director at
the Playhouse this summer, will
appear in one of the leading
roles being co-featured with Bob
Moak, well known to Playhouse
andiences. The two portray two audiences. The two portray two quixotic rogues who abandon the orderly routine of their white collar lives in Ireland to lend their dubious talents to a South American revolution and the results are nothing short of uproarious.

The would-be rebellion sputters to a finish, but the tipse fighters leave a scarred path of befuddled wives, daughters, natives and missionaries in their wake. The buoyant spirit of the heroes carry them on to even more fantastic adventures. It is a comedy of the first rank. Mr. Jory is not of the Beat Generation school. He feels that he can best express his point of view by means of an extrava-

ganza of laughter.

Make Debut Appearances

Many new members of the
Playhouse resident company will make their debut appearances in the new comedy. Adale O'Brien currently playing the little role in "Kiss Me, Kate" will carry a lead-ing role along with McGuire and Moak. David Hager is designing the set and Richard Harrison will serve as technical assistant.

Opens Eleventh Playhouse Season

On Saturday night, June 11, the eleventh summer Maxinkuckee Playhouse got. under way. The opener this season was the entertaining musical comedy by Cole Porter, "Kiss Me,

Sparked by the two remarkable performances of David Canary and Adale O'Brien in the leading roles, the show romped through a fast paced two hours including some good comedy, flashing costumes and wonderful singing.

Certainly there is no doubt that David Canary is one of the most promising young singers in the business. His performance was professional in every respect whether you consider the heavy acting requirements or the five songs that he is called upon to deliver. Using a vibrant baritone voice with great skill and show-manship he completely captivated the opening night audience Deserving equal praise is Miss

Adale O'Brien, who sings the title role of Kate. Miss O'Brien has a long list of theatrical credits to her name and such experience certainly shows in her dynamic handling of the role. No one could have asked for a better matched pair in the heavy roles. Carrying most of the dancing

Opens Eleventh Playhouse Season

On Saturday night, June 11, the eleventh summer season of the Maxinkuckee Playhouse got under way. The opener this season was the entertaining musical comedy by Cole Porter, "Kiss Me,

Sparked by the two remarkable performances of David Canary and Adale O'Brien in the leading roles, the show romped through a fast paced two hours including some good comedy, flashing cos-tumes and wonderful singing.

Certainly there is no doubt that David Canary is one of the most promising young singers in the business. His performance was professional in every respect whether you consider the heavy acting requirements or the five songs that he is called upon to deliver. Using a vibrant baritone voice with great skill and showmanship he completely captivated

the opening night audience Deserving equal praise is Miss 'Adale O'Brien, who sings the title role of Kate. Miss O'Brien has a long list of theatrical credits to her name and such ex-perience certainly shows in her dynamic handling of the role. No one could have asked for a better

Ron Sommer, Jadeen Barbor, Paul Rutledge and Richard Har-rison, together with Michael Mc-Guire, supplied a supporting cast that kept the show moving at its fast pace. Miss Marni Toms served as accompanist for the production. Performances will be continued through Sunday night.

The unusual setting showing a

cut-away view of a theater stage and quick changes into dressing rooms, back stage areas, and phone booths deserves special mention. Paul Rutledge and David Harry bare mented another David Hager have opened another exciting season and the opening night audience displayed their great approval.

Children's Free **Photos Published** In The Citizen

A pictorial feature for our newspaper to be called "Tomor-row's Citizens" is now being plan-ned. Our goal is to feature a picture of each child in our circulation area. We have arranged to have pictures made of your children at no charge to you. Specialists in children's photography, the Westvale Studios, will at The New Culver Hotel, on Friday, July 1, and will be ready to welcome you from 10 a.m. to

6 p.m. Be assured that although as many as 12 poses may be made of your child to get just the ef-fect desired, you will be under no obligation whatsoever to buy pictures. If you should want some however, they may be ordered from the studio.

The more of our children represented, the better. So be sure to remember the date and place.

Culver Military Academy is the site of one of six American Na-tional Red Cross Small Craft Schools. The Culver school is now in session. Classes in canoeing, boating,

sailing, and water safety began June 13 and will continue until Thursday, June 23. The Red cross has staffed the school with 14 faculty members for the 84 students, who came from some 30 states in the Eastern and Midwestern areas.

Students include instructors from Red Cross, YMCA, YWCA, Boy Scout, Girl Scout, and private camps. Head of the school is Clyde McDonald Jr. from the Red Cross staff in Alexandria, Va. Men at the school are staying

in the tents of the Culver Summer Woodcraft Camp, and women are staying in an Academy dormitory.

It is the second year the Acadmy is being host to the Red Cross school. The enrollment for the large as the 1959 enrollment.

Mr. and Mrs. Allen Crabb, after spending the weekend with their parents, Mr. and Mrs. Merl Crabb, returned to their home in Maywood, III. Monday, Debbie and Vicki Crabb, who had been visiting their grandparents since Wednesday, returned home with their parents.

"Is the Universe, Including Man, Evolved by Atomic Force?" is the subject of the Lesson-Sermon to be read at Christian Sci-ence services this Sunday. John's account of the healing

by Christ Jesus of the man who "was blind from his birth" (ch. 9) will be included in the Bible readings.

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following will be (539:27-30): "The divine origin of Jesus gave him more than human power to expound the facts of creation, and demonstrate the one Mind which makes and governs man and the universe."

The Golden Text is from Nehemiah (9:6): "Thou, even thou, art Lord alone; thou hast made heaven, the heaven of heavens, with all their host, the earth, and all things that are therein, the seas, and all that is therein, and thou preservest them all; and the host of heaven worshippeth thee.

boys and girls are hard at work

\$400 scholarships are top prizes for participants offered by the nation's forest industries.

Announcement that this year's Indiana 4-H forestry winner will be eligible to compete was made jointly this week by Harold B. Taylor, state leader, 4-H Club Work, Purdue University, and Burton F. Swain, III, chairman of the Indiana Forest Industries Committee. The program is conducted by the Purdue Agricultural Extension Service.

Last year's Indiana winner was Clyde L. Mason, Connersville. Clyde won a trip to the 4-H Con-gress, offered by American Forest Products Industries.
A Popular Project

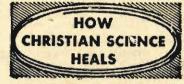

"Forestry has become a very popular 4-H project in both this state and the nation," Taylor said.

"Our boys and girls, like most average citizens, have just begun to realize the vast importance of our timber resources and the terrific potential of growing timber as a crop." Indiana ranks second in the nation in 4-H forestry enrollment.

"Hoosier At Large"

(Continued from Page 1) water vaporizes, i.e., changes changes from liquid to gas.)

Dear Al: Which came first, the chicken or the egg? Horace N. Buggy, Bass Lake. (Answer: That whiskery pos-

830,697.00 er isn't really debatable. Can 650,470.69 anyone scriously argue that pro-080,641.09 creation preceded creation? Methinks Horace just makes yolks with us!)

> Dear Al: In a geology book 1 read that "man has been on earth about 175,000 years." It prompt-ed a friend to say, "You'd almost have to be an athiest to belive that."

He pointed out that theologians and the Bible say that God created Adam and Eye about 4,000 years before Christ's birth — or just under 6,000 years ago.

My questions: What is the most 34,266,124.13 popular theory on this subject? And do most scientists believe a Supreme Power governs all things? W. R. Degenais, Gary.

(Answer: Sorry, sir — but these are matters more of faith than fact. Here we must shun religious riddles which each individual must resolve in his own mind and heart.)

Dear Al: I'm an old hand typesetter and often wonder it there are any papers left that still set reading matter by hand. Occa-sionally I get a wistful urge to set a stick of type by hand again. Mrs. Joe Evans, LaPorte. (Answer: Mrs. Evans can sat-

isfy that wistful urge by driving a scant 20 miles to Wanatah. There venerable Billy Hunt still hand-sets part of his weekly Mirror's reading matter. A nice genial guy, Billy would doubtless let an old hand-setter assemble a stick or two.)

Dear Al: Is there any advantage in placing a roll of toilet pa-per on the spindle so that it will unroll forward or backward? Ardent Reader, Monterey.

(Answer: Any joker who submits such an unsigned question is a nasty columnist's patsy. So let's be nasty and answer with a question; Does your carlous preoccupations with johns also cause you to write on lavatory walls? If so, see your psychiatrist. You're beyond Uncle AI's help. For those who aren't UAA&ASH, will continue as long as questions come.

DEKALB CROP WEATHER

REPORTING SERVICE

Corn planting proceeded very rapidly in the first week of June and was over 96% planted on June 7th, according to DeKalb's crop reporters. Areas which were lagging most in finishing up were in northeast and southeast lows, southwest Minnesota, and southwestern Illinois. Some entire fields and low, wet spots in other fields probably would not get planted in these preas.

An indication of the seriousness of the situation in northeast Iowa was that volunteer corps of town businessmen from New Hampion and Independence were out helping farmers get their planting done.

Subsoil moisture in Iowa was setting new records for saturation, A figure of 8 to 10 inches of water in the top five feet of soil is considered abundant, but eastern Iowa locations were nearly double that amount. Tipton showed 17 inches; Marshalltown, 16.9; Cedar Rapids, 16.2; and Burlington, 15.8 inches.

Speculation by agronomists in Iowa was that corn could be safe-ly planted up to June 15th, in lows; until June in central lows; and June 25th. in southern Iowa. The greatest corn state was in the greatest dither in years because of excessive moisture and late planting problems, Iowa, almost always in first place in corn production, might again lose its crown to Illinois as it did a few years ago. This would follow the loss of its position as top egg producing state, which occurred last year. California and Pennsylvania now lead in that enterprise

Farm operations are getting THE CITIZEN larger and more commercialized 160 aere farm is no longer considered to be an adequate unit. A recent gigantic project is a proposal to build a scientific plant for the production of meat type and disease free hogs in southwestern Iowa. A production of 50,000 hogs per year is planned. Another trend is larger machinery. A farmer at Homer, Illinois in in the country, on a farm, it Champaign County has an 8 row knows how to think,

OUT WHERE THE COUNTRY CAN TEAR A TRUCK TO PIECES-

Chevy middleweights get $\frac{1}{3}$ more work done in a day!

Where they used to deliver 2,300 gallons of liquefied petroleum gas in other tracks, Petrolane Gas Service of Long Beach, California, can now deliver 3,500 gallons a day! That's 7 days a week usually. over back trails and up into high rock country with maximum GVW loads. And with Chevy's Torsion-Spring Ride paving every foot of the way! "You don't get any more jolting on washboard roads than you do in a passenger car, or any sidesway on curves," says driver Bernie Stone. "I used to take some rough roads at from 5 to 8 miles an hour. Now I can go 30 over them." Petrolane has over 200 Chevrolets hauling for them.

If you think we're excited about Chery's independent front surpension, you ought to talk to the truck owners who are profiting by it. They'll tell you Cheuy's torsionspring design is the hottest thing to but the industry since trucks began. Drive one-that's the proof, short and sweet.
