## Babson Discusses More Ways To Invest Money

### Eventual Inflation Is Probably Ahead

By ROGER W. BABSON  
No. 1 U.S. Economist

Babson Park, Mass., Last week I discussed investing in common stocks and mentioned several of the most popular groups today, one or two of the most speculative, and some which should be good for the "long pull." To be safe, not more than one third of an investor's funds should be in common stocks today.

#### Preferred Stocks and Corporation Bonds

This week let me describe other securities to be purchased solely for income: preferred stocks will yield the most—nearly 5%. I prefer only the cumulative and "non-callable" preferreds. Best of these seem to be the preferred stocks of the Utilities—avoiding New York, Chicago, and other large cities which might be bombed. Of the Industrial preferreds United States Steel Corp. 7% Cum. Non-callable preferred should fit most investor requirements. It sells at over \$140 per share but yields nearly 5%.

Roger W. Babson

Following the preferreds we consider high-grade corporation bonds. These yield about 4½%. Avoid "collateral trust" or "subordinated" bonds, sticking to a mortgage bond except for large corporations such as the American Tel. & Tel. Co. which puts out debentures of the highest grade. This company has just issued \$300 million due in 32 years—yielding about 4½%. I would not hold them too long—as someday the federal government may take this company over. First-mortgage bonds of strong railroads are worthy of consideration. All State Bonds—not "revenue bonds"—should be good.

#### Municipal Bonds And Governments

I next rate Municipal Bonds especially for those investors in a high income bracket because interest thereon is non-taxable. Here again I say: "Avoid the large cities which might be bombed." I prefer the bonds of state capitals—cities usually located in the interior of the state. State capital cities seldom suffer from unemployment. Moreover, their income is largely derived from state taxation. State Revenue Turnpike Bonds are worthy of mention. Although these are non-taxable as to interest—yet their interest payments depend upon uncertain toll receipts.

We next come to "Governments." These will always be paid—principal and interest. The Federal Government is the only "corporation" which can print money in case of a severe depression. On the other hand, U.S. Government Bonds are taxable both to principal and interest. My favorites are the U.S. Savings Bonds Series E, on which the interest is paid when the bond is cashed at the end of 7 years and 9 months. Or the U.S. Savings Bonds Series H, on which the interest is paid by check twice a year. These Series H Bonds are issued to be cashed at the end of 10 years. Both Series E and Series H pay about 3½%.

#### Bank Accounts

I should also mention interest paid by Savings and Loan Banks, Commercial Banks, Mutual Savings Banks, and Mutual Funds. (Continued on Page 11)

## Culver Firemen Lauded For Their Fine Service

Again the Culver public has been reminded of the competence and loyalty of the Culver Volunteer Fire Department in their recent fight against the March 5 fire in the Amond Building at 110 South Main Street. Had not these public servants responded so quickly and executed their duties so efficiently the business section of our home town would probably today contain a block of blackened and charred rubble.

Frank and Eddie Amond, along with other businessmen threatened in the recent Monday night fire, and all other residents, praise these fine men that constantly contribute so much so generously to the security of our

## Don Davis Re-Elected To Head PTA

The Culver Union Township Parent Teachers Association met on Tuesday evening, March 13, in the High School Study Hall, at 7:45 p.m. Dr. Oscar Wesson gave the devotions.

Earl Dean Overmyer, vice-president, conducted the business meeting in the absence of the president, Don Davis. The chairman of the nominating committee, Mrs. Peter DeTroy, announced the following slate of officers for the coming year: President: Don Davis, Vice-President: Robert Osborn, Treasurer: Mrs. Frank McLane, and Secretary: Mrs. C. E. Bair. The slate of officers were unanimously elected.

Mr. Overmyer announced that the April 10 meeting will be devoted to the reorganization program. The committee appointed in February to study the consolidation has been and will be meeting with committees from the other schools involved and will be able to present a very interesting discussion on the pros and cons of the present plan.

Richard Hambrook, the high school music teacher, gave the program for the evening. He introduced Diane Davis, who accompanied Judy Thews in a flute solo; and Vicki Helber, a 5th grade student, played a trombone solo accompanied by her father, Wallace H. Helber. Sharon Norris, accompanied by her sister Eva, played a clarinet solo to conclude the musical part of the program. Mr. Hambrook then explained "How the Music Department Clicks" and gave a very interesting discussion of the various aspects of his work. A test such as is given the 5th grade students to determine their musical ability was given the audience and then Mr. Hambrook explained how it is used. The group was particularly interested in the fact that our students got 103 firsts, 102 seconds, and 25 thirds in the several contests they participated in this spring.

The meeting adjourned to the home economics room where coffee and cookies were served.

Sincere sympathy is extended to the Albert Smith family on the loss of their infant son and brother, also to the families of Mrs. Claude Rhodes, the former Mildred Lowry, who grew up in this community and was a faithful member of the congregation during those years.

Mr. and Mrs. Maurice Hagan and daughter were Thursday supper guests of Mr. and Mrs. Richard Hagan and family. Sunday guests in the Richard Hagan home were Mr. and Mrs. Walter

**National Farmers Organization Has La Crosse Meeting**

"American agriculture has become the most efficient industry in the world, but in spite of this efficiency the farmer is being penalized," commented Oren Lee Staley, president of the National Farmers Organization before a crowd of over 600 farmers at the La Crosse High School Monday night.  
 Continuing he said, "Not only must you produce efficiently, but you must also market efficiently because it doesn't matter how big your operation is, unless there is a profit, you cannot stay in business."

Staley, a farmer from Ray County, Mo., who has headed the NFO since 1956, made it clear that farmers have to decide for themselves how they want to solve this problem and the only way farmers can compete in an organized economy is to be able to go to the market place with equal or greater strength than those who buy their products.

In his closing remarks Staley said, "We are calling on the farmers of Indiana to join with us in our efforts to bring about justice at the market place for the American farmer."

"Some people are more even-tempered than others... they're mad all the time."

**1962 Rose Of The Year**

A new giant in the rose kingdom... a giant in size, fragrance, novelty and the luminescent Tahitian pink that inspired the name—South Seas—for this unusual hybrid tea, has been chosen the 1962 Rose of the Year.

The choice of a majority of 10,000 home gardeners... members of a national rose testing panel... South Seas will be introduced this spring by the Jackson & Perkins Company, of Newark, N. Y.

The well branched plant produces strong, upright canes that are excellent for cutting. Abundant foliage covers the plant well and the dark green leaves have an inbred resistance to disease.

South Seas is not only a

prodigious producer of blooms but it is especially tolerant of extreme temperatures — performing as well when the thermometer registers over 100 degrees as other roses do at 75 degrees.

To its coveted title of Rose of the Year, South Seas will add many blue ribbons for those who grow it for competition... and just plain adulation from those gardeners who want a prize winning beauty for their own home planting.

Drawing for attendance prizes which were donated by merchants in the area was held after the speaking and local farm wives served refreshments to round out

the evenings program.

The transient display advertising rate of The Citizen is only 7 cents per column inch.

## Mike Overmyer Heads 4-H Club

By John Behmer  
The Senior Boys' 4-H Club met Wednesday, March 14, in the Biology Room of Culver High School to elect officers. The officers are as follows: president, Mike Overmyer; vice-president, Paul White; secretary and treasurer, Linda Behmer; health and safety leader, Janice Neidlinger; song leader, Sheryl Fisher; recreation leader, Ronnie Babcock; and reporter, John Behmer.

After the elections the meeting was adjourned by Mike Overmyer.

The Sunshine Society held a meeting Tuesday, March 13. Betty Everett gave the creed, which was followed by the song, led by Martha McAllister. The meeting was then turned over to the juniors who gave a program on "Commercials." Linda Behmer

and Bonnie Parker started with a telephone commercial in which the Senior girls ended up holding a telephone line (a piece of string). Carmen Gretter and Pat Kline gave a skit on report cards. When Bonnie Good gave her speech on missionaries, the room was filled with laughter. Vickie Lutz, Jane Baker, and Brenda Baker did a commercial concerning Winston cigarettes. Sheryl Hohman and Janice Neidlinger were the M. C.'s for the program. The meeting was then closed by the Sunshine president, Lana Berger.

## The Shadow Strikes Again

By Janet Beck  
I first met my victim in Mrs. Smith's English class. His voice could be heard reading the parts of Brutus and Casca from Shakespeare's play "The Tragedy of Julius Caesar." As the second period bell sounded, I found him studying hard in the library. He made his next stop at Miss Lindvall's geometry class where he listened to her explain a new theory. After geometry class my victim went to French class to take some dictation.

The next time I saw my victim, he was casually sneaking into the lunch line. After lunch, I lost him, but then I heard him playing his trombone in the band building. After band, it was back to study hall for him. Next, I heard him tapping away on a typewriter in Miss Shank's typing class. The last period of the day I found him playing tic-tac-toe in Mr. Kepler's home room.

Now that I have told you about my victim's day let me tell you something about him. He is about five foot, eight inches tall, with blue eyes and brown hair. His favorite sports are basketball and baseball. My victim also likes food, especially pecan pie. He is the president of the Sophomore class, and plays on the varsity basketball team. Yes, this week the shadow's victim was Sam Lowry. But beware for you may be the shadow's next victim.

Purdue University animal scientists say a mineral mixture should be available to beef cattle at all times. Two parts steamed bonemeal to one part iodized salt plus additional loose salt elsewhere provides an adequate source of minerals for cattle.

## Cage Players Receive Honors

By Dave Frain  
On Wednesday evening, March 14, Coaches Crosley, Cox, Moore and their wives, members of the Varsity and "B" teams, cheerleaders, and student managers, were guests at the annual basketball banquet given by the Lion's Club and the Burr Oak Church of God ladies.

The program was started by Mr. Donald Davis who introduced Coach Crosley and his wife. Coach Crosley then introduced all who had a part in the basketball season of 1961-1962. Various awards were given. The Underwood Most Valuable Player award was given to Tom Boswell by Floyd Annis and the 1914 Free Throw award was presented to Sam Lowry by Edgar Shaw. The awards for highest rebounding and field goal percentage were presented to Jim Carter by Coach Crosley. After the award presentations, a very fine talk was given by Mr. W. O. Osborn, a well known resident of Culver. Following Mr. Osborn's talk, he was presented, by the members of the Lion's Club, "the most faithful basketball fan" award.

## Senior Boy Reveals Self

By Betty Everett  
This week we are taking our cameras to a brick building on School Street called, you guessed it, C.H.S. As we enter the building we see the star for our main feature. Now we can begin our interview. Tell me sir, could you describe yourself to our viewers?

I am a Senior boy . . . my height is 5 foot, 11 inches . . . I weigh 3,200 ounces . . . have brown eyes . . . and wear a size 13 shoe. Some people think of me as "cuddly teddy bear."

My favorite foods are: fried steak . . . dill pickles . . . chocolate malts . . . and gum.

My likes are: popular music . . . girls (naturally, since I'm a boy) . . . helping teenagers with his or her problems . . . and being a Senior.

My greatest dislike is girls who smoke in public. It gives them a bad name.

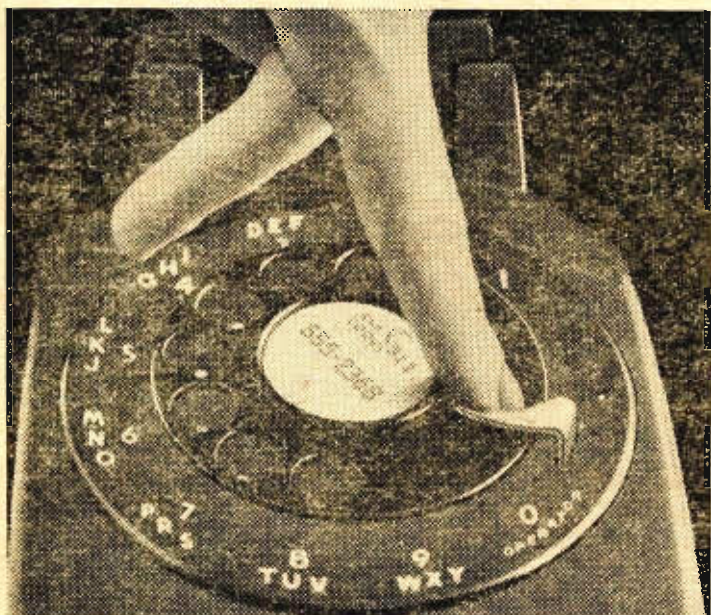

My pet peeves are: people who try to be someone they're not and people who brag continually.

My favorite subjects are: advanced math, English, chemistry and band. Band is the one period I look forward to the most.

My ambitions are: to go to Purdue and become an agricultural engineer and I hope to play in one of the bands there.

Oh, excuse me, it seems as though I forgot to identify myself. My name is Mike Overmyer.

If you plan to plant trees for reforestation or for windbreaks this spring order them now. Order blanks may be obtained from county agricultural extension offices or the department of forestry and conservation, Purdue University, Lafayette, Ind.

## THE CULVER PRESS, INC.

Citizen Bldg.

By Lucy Osborn and Tom Yocom  
"So let it snow, let it snow, let it snow!" That's a cute song, but enough's enough. The Culver Street Department has thought of a way to reduce the cost of the removal of snow. Turn it into ice cream and then turn Martha McAllister loose.

Tests? Did anyone mention tests? Oh no, not another one! It seems as if everyone has had his share of tests the last few weeks. After grade cards were issued, there were a few people who didn't look very happy. Better luck next time! By the way, congratulations to Dave Lamar on his recent victory in algebra.

Crawfordsville was almost mistaken for Culver last week end. Why? Well, Shari Yocom, Carol Overmyer, Mary Jane Guise, Charles Maul, Margo Overmyer, and Don Reed went to a fraternity dance at Wabash College. Of course, Carol was in a daze after she arrived and saw Gary Dillon.

As the old saying goes, truth is stranger than fiction. Don't believe it? Well, here are a few C.H.S. "believe it or not's."

1. Did you know that Beverly Barshes actually didn't eat for 24 hours? She went to the hospital Wednesday for some kind of tests and couldn't eat for a whole day.

2. Barbara Overmyer and Larry Linhart are back together again, if you don't believe it, ask them. They'll tell you.

3. We'll have a good basketball team next year. Strange? Not particularly, they are still practicing now, and will practice all they can.

4. They're making the candy wrappers bigger and the candy bars smaller (according to Thaddeus Overmyer's theory of quality and quantity).

5. Culver High has more people with more problems than any other high school in the whole world.

6. Culver High has the only physics teacher and noted electrician who can blow up telephones without ever trying. Right, Mr. Strukenborg?

7. Next fall Jim Jones will look like Steve Reeves, after being in Mr. Crosley's weight-training program.

8. Tom Schmidt can do the Mexican Hat Dance. If you want to find out more about it, come to the Saddle Club Dance, March 31.

9. There are only 27 days left until the Senior trip (as of Wednesday, March 14).

10. The Juniors should have a good crowd at the Ham Supper, they've been madly selling tickets for a week.

11. George Ogden and Jim Carter did a duet in boys' choir, only they didn't sing, did you George? Congratulations to all the boys on the basketball teams which were honored at the annual Basketball Banquet.

Since so many people have become discouraged after these last few hectic weeks, we decided we'd close with a bit of Miss Lindvall's philosophy. "That's life!"

The 1961 acreage for processing tomatoes in Indiana amounts to 28,000, report state-federal agricultural statisticians at Purdue University. This is an increase of six per cent from 1960 but is 19 per cent below average.

## Students Feel History Repeats

By Glenda Dawson & Donna Smith

Do you believe history repeats itself? This was the question we asked the students at C.H.S. this week, and here are some of the ideas the students had.

Lana Berger — Yes, you can see a little of it by observing other people, especially women and their style changes.

Joe Rosebaum — Yes, by just looking in a history book.

Jane Thomas — Yes, because no one learns the lesson of history.

Linda Kose — There are many ways in which history repeats itself. This can easily be seen in the study of our history from the beginning of time.

Mr. Lawson — Yes, not in definite concrete cycles, but rather in vast generalities, such as women's styles in clothes and hair-do's.

John Crum — Yes, same thing that Mr. Lawson said, but with a little authority.

Beverly Thomas — Yes, because people don't learn by their mistakes so naturally history is repeated.

Mr. Robinson — Definitely yes! We can trace repetitions from the very beginning of history to the present. And we can even say history repeats itself right here in Culver High School.

\*Vickie Lutz — No! Everything is a lot different than it was 50 years ago.

Bonnie Good — Yes! Look at Germany in World War I and World War II. They tried both times, in about the same way, and they failed both times!

Betty Ricciardi — Yes, because people are so much the same no matter when they live, they tend to do the same things over again.

Joyce Odle — Yes, because people start fighting over the same things, only at different times.

Paul Hatten — Look in the history books and find out for yourself.

Margo Overmyer — No, I feel that saying history repeats itself is just a source for people to lean on when they can find no other excuse for an incident. What space flight are we repeating?

Does history repeat itself or not? We leave this problem up to you, the reader.

## Reporters Discuss Infinity's Meaning

By Larry Linhart and James Westcott

What does infinity mean to you? If you consider this question you probably will take a little time to come up with the answer. It's not a question that is asked every day; therefore you don't even consider the meaning of the word. Infinity is something that is endless and boundless. Science tells us that a good example of infinity is the universe. It has no limits or bounds set to a standard of measures. You can't measure the universe or proceed to consider the measurement of the universe unless acquainted with the word in itself. Who knows, we may be only one universe in a group of many.

If you asked a number of people what the word means to them, they would come up with a number of different examples and answers. They might say that time is infinite. If so, could you tell why? Could you proceed to explain why time is infinite

to an eight year old child? If so, you probably know or think that you know why time is infinite. Time isn't supposed to have bounds. There is a past, a present, and a future. What the future is we don't know and it's hopeless to try to know the future.

Now, stop and think. Do you realize that you are only a speck of sand on a beach beside the ocean? We seem important to ourselves, but in a thousand years people will say who was she, or he? Time will go on indefinitely after we have died.

Numbers. Doesn't it give a person a weird feeling to think that there is no definite end to numbers? They go on and on...

Don't forget, we can look at infinity as advantageous, because we hope there will never cease to be better civilizations, cures for diseases, and better standards of higher living.

## Reports Vary On Activities In Grade Rooms

By Gloria Baker and Vicki Lutz

Mrs. Melton's kindergarteners are quite excited because there are names fastened to the various articles in the room. Toni Anderson treated her classmates to treats the other day, and Robin Fitterling celebrated his birthday Wednesday.

Miss Herr's first grade class is very proud of the following students, because they are becoming independent readers: John Mellon, Carol Overmyer, Danny Andrews, Cindy McKee, and Nancy Blessing. Congratulations future graduates of Culver High School.

The following students in Mrs. Barton's room have completed their "Little White House" reader and their word list: Debra Cullice, Linda Curtis, Richard Sytma, Debra Baker, Mel Thomas, David Reichley, and Lou Shei.

Miss Page's second graders are working on some interesting experiments with the magnet and how it is used in our home and at work. They are also talking about the uses of electricity.

In Mrs. McLane's room the students have been talking and reading about the birds. Different children have looked up, in reference books, some interesting items about the unusual birds.

Check furnace filters to make sure they're not clogged, advise Purdue University agricultural engineers. ### "STRIKE HIM OUT!"

### The Crucial Ball Game

Almost any day now, the Administration's tax bill for 1963 "goes to bat" in the House of Representatives.

Here's the pitch:

The proponents of the legislation say it's planned to assure an increase in the economic growth of the U.S.A. — also, they say, it would cut down unemployment.

But American Industry — whose job it is to provide the growth and create jobs — insists that this is precisely what the bill will NOT do.

The country's best business minds report that this bill offers tax subsidies to those who follow Government wishes, and tax penalties for those who don't.

But here's the catch: The bill fails to provide any of the new capital necessary to finance growth or new jobs!!

What Industry strongly advocates is enactment of the Herlong-Baker tax rate reform bill which would lower personal and corporation income taxes to a maximum of 47 per cent by a series of five annual reductions.

OK, taxpayers — fire off that letter or telegram to your Representatives now — and let 'em know you want that Administration-backed tax bill put out NOW!

### SAVINGS BONDS REPORT

Paul Swearingen, Chairman of the Marshall County U. S. Savings Bonds Committee, has received a report revealing that the county's Savings Bonds Sales for February were \$66,401.00 compared with \$19,693.00 for the corresponding period of last year.

The state's sales for February were \$11,698,671 and \$11,927,714 for the same period of 1961 — a loss of 1.9 per cent. Thirty-eight of the state's ninety-two counties reported sales gains for the month when compared with February 1961.

Among the counties which reported noticeable sales increases over last February were: Clark, Delaware, Floyd, Greene, Hendricks, Henry, Howard, Jefferson, Monroe, Owen, Parke, and Vanderburgh.

### INDIVIDUAL CONSUMPTION

must increase by 40% if Americans are to consume the total production of American industry in the next ten years.

The healing power of scientific prayer will be brought out at Christian Science services Sunday.

Scriptural readings in the Lesson-Sermon entitled "Matter" will include an account of the healing by Christ Jesus of the lunatic boy, together with his reply to the disciples who asked him why they could not heal him (Matthew 17): "And Jesus said unto them, Because of your unbelief: for verily I say unto you, if ye have faith as a grain of mustard seed, ye shall say unto this mountain, Remove hence to yonder place; and it shall remove; and nothing shall be impossible unto you. Howbeit this kind goeth not out by prayer and fasting."  
Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include (p.1): "The prayer that reforms the sinner and heals the sick in an absolute faith that all things are possible to God, — a spiritual understanding of Him, an unselfed love."

**MORE AND MORE**—J. Robert Cooper, chairman of the board of the American Trucking Association recently told an Angola audience that by 1970 our population will be 31 million above today's level, and in the next decade the country will have an additional 14 million new jobs. Cooper cited these figures while describing the immense job facing the trucking industry in meeting tomorrow's transportation requirements.

## Babson's Forecast

(Continued from Page 1)

These pay 4% or more. An ideal investment portfolio, in my humble judgement, now consists of about one third in common stocks; one third in preferred stocks or corporation bonds; and one third in bank deposits or good short-term bonds which can readily at any time be turned into cash. This last I like to think of as "Liquid Funds" which can be used later for buying more common or preferred stocks, or for buying more bonds, or real estate—whenever any bargains occur in any of these possible investments. I like Kansas real estate acreage.

In closing, I must say a word regarding inflation. With President Kennedy spending federal money so freely it seems that eventual inflation is ahead of us. The present dollar worth 100 cents in 1940 is now worth under 50 cents. If we should get into a World War, it could go to 25 cents, or less. This means that preferred stocks - and all bonds having no maturity or a long fixed maturity - would sharply decline in price. The above are my conclusions after fifty years of studying investments.

# Academy Sports

Culver Military Academy athletic coaches continued to keep an eye on the weather today, hoping that by the end of spring vacation, April 2, sports teams will be able to move practices outside.

Working out in the gymnasium have been the baseball, crew and track organizations. Tennis and golf squads hope to see their first workouts after spring vacations, and the only team that has been under fire so far is Coach Dave Burke's track hopefuls, who have lost three indoor meets.

Latest defeats have been administered by Hobart, 68-41, and Fort Wayne South, 55 1/2-53 1/2. All of the losses came against strong clubs and Coach Burke feels his team will improve once it has the opportunity of working outside.

Hobart swept all three places in the mile, 880, and pole vault events to build an impressive point margin. Culver swept the two relay events. Against Fort Wayne South, Culver was ahead only once in the meet and that was when the eight-lap relay team won its race. But the Fort Wayne squad won the final event of the meet, the 12-lap relay, to clinch a three-point decision.

In other Academy sports, Coach Elmer White took five of his fencers to the Midwest Boys' championship meet at Chicago. Culver's Paul Watts got to the finals and finished third behind fencers from Chicago and the University of Illinois. Don Levinson missed the finals by only one point, while Joe O'Flaherty, Tom Van Zandt and Greg White all reached the semi-finals. The event is to be an annual affair sponsored by the Amateur Fencers League of America.

Culver will have representatives in the Charles Goren North American Rubber Bridge Tourney this year. Two pairs of the local unit have won places in the semi-final playoff, March 21, in Fort Wayne.

The 32 high scores in the Fort Wayne area will begin the elimination on Wednesday and the two finalists will play pre-dealt hands on Thursday night to win the right to compete in the Championship match in Chicago, where the winners will play Mr. Goren and other championship players for the Television audiences.
