God and Country Scouting Award Presented To Gregory Dawson

GREGORY O. DAWSON was the proud recipient of the God and Country Scouting Award at Easter Sunday morning worship services at the Culver E.U.B. Church. Pictured here are Rev. Walter Chisholm congratulating Greg on his high Scouting attainment while his parents, Mr. and Mrs. Oren Dawson, take a proud back seat.

Presentation of the God and Country Award was made at Culver Emmanuel E.U.B. Church during Easter Sunday Worship Service to Life Scout Gregory O. Dawson. The service of presentation was conducted by the Pastor, Rev. Walter Chisholm. Gregory is the son of Mr. and Mrs. Oren Dawson, Route 2, Culver.

The God and Country Award is a church award authorized by the Boy Scouts of America through the National Protestant Committee on Scouting. The fulfillment of the requirements for this award represented a year and a half of active service on the part of the candidate, Gregory Dawson.

This is the second such presentation of this award within the week and the third this year in Culver to members of Troop 290.

Scoutmaster Carl F. Foust presented the candidate for the award. Assisting in the service were Boy Scouts Dean Smith, Phillip White, Perry White, Leon Sims, Tim Frain, and Ron Zink. Gregory presented pins to his parents and to his Scoutmaster, Carl F. Foust, and his Pastor, Reverend Chisholm.

Easter Egg Hunt Enjoyed By Over 300 Youngsters

The weatherman smiled with favor Saturday afternoon and provided sunny skies, a brisk breeze, and temperatures in the mid-50's for the April 13th event of the first annual Easter Egg Hunt held by the Culver Jaycees in the Culver Town Park.

Over 600 colored eggs were enthusiastically found by more than 300 children in attendance.

Prizes were awarded as follows: Gretchen Bleker and Paul Broeker each won a real live Easter rabbit; and Easter baskets were won by Craig Walker, Andy Ervin, Scott McKinzie, P. T. McKinnis, Brenda Reinholdt, and Janna McKee. Shiny new pennies were given to those who found numbered eggs.

The committee in charge of this event was headed by Carl F. Foust, with Verl Shaffer, Robert Kline, Roy Nicodemus, and Kenneth Miller Jr. as members.

The local Jaycee organization plans to make this Egg Hunt an annual affair, and hopes to make it even bigger and better next year.

Motorists in 1962 raced down the nation's highways to a new — and tragic — auto death record which for the first time exceeded 40,000 fatalities. The previous high was set in 1941 when 39,969 persons lost their lives on the highways.

Cum Laude Society National Meeting To Be Held At CMA

Two college administrators and an official of an Ohio trucking concern are among key speakers who will address 200 delegates attending the national meeting of the Cum Laude Society on Saturday, April 20, at Culver Military Academy.

Cum Laude, a national organization that recognizes academic achievement in the secondary school, is holding its nineteenth triennial at Culver Friday and Saturday. Important sessions open to the public Saturday will follow the general theme, "The Conquest of Inner Space."

Arthur G. Hughes, president of the Culver chapter of Cum Laude and chairman of the committee organizing the meeting, said students and teachers attending the conference will consider "The problems of intellectual inner space at a time when attention is being focused on conquering outer space. We will set forth the premise that unless we can solve our problems of inner space, we won't know what to do with outer space once it is conquered."

Opening statements on the general theme will be delivered by Dr. Mark Neville, director of teacher training at Indiana State College, Terre Haute, and Dr. Darrel F. Linder, a Lima, O., business executive.

Dr. Neville, a former headmaster of Chicago-Latin School with 40 years teaching experience, will represent education in the opening meeting at 9 a.m. Saturday. Dr. Neville has studied at the University of New Hampshire, Columbia University, and Cambridge University, England. He has taught in Ithaca, N.Y., New Brunswick, N.J., and at the Lincoln School of Teachers College of Columbia University, and he was headmaster at Chicago-Latin School for nine years before being named director of teacher training at Indiana State.

Dr. Linder is a native of Osceola County, Iowa. He holds degrees from Findlay (O.) College and Oberlin (O.) College, and he has attended the University of Chicago and Purdue University. Dr. Linder has spoken to more than 1700 audiences in America. In addition to his knowledge of business affairs, he is well informed on Near East Affairs. He has traveled extensively in Europe, Asia, and Africa. He is a Distinguished Award winner of the U.S. Junior Chamber of Commerce and was chosen "Outstanding Young Man of the Year" in 1951.

A positive approach to the problem of "inner space" will be made by Dr. Perry Gresham, president of Bethany (W. Va.) College when he delivers the closing address of the triennial at a 7 p.m. dinner meeting Saturday in the Culver Inn. Speaking on "The New Liberal Arts," Dr. Gresham will discuss the problem of overspecialization in education and how it has encouraged a climate more favorable for liberal arts.

The Bethany College president will point up what he says is "today's demand for cultured people who know something of many things rather than for narrow specialists who can perform only in a circumscribed sphere."

All formal speeches except Dr. Gresham's will be held in the Eugene C. Eppley Auditorium and are open to the public. At 8:15 p.m. Friday, the public also is invited to a special showing of the "World of Carl Sandburg," an Academy production of some of the works of the famous American author.

Steel Executive Confirms Business Magazine Story

Senator Vance Hartke (D-Ind.) has been told by a top-level U. S. Steel Corporation Executive that the big firm will spend a "large share" of its 1963 expansion and improvement funds in Indiana.

The magazine, Indiana Business and Industry, published here in Culver, recently said \$100-million will be spent by U. S. Steel for expansion and improvement in Indiana this year. This, according to the magazine, is about half of the \$100-million the company is spending on all its plants during 1963. U. S. Steel has six plants in Indiana. The Sunshine Circle of the W.S.W.S. of the Evangelical United Brethren Church met Tuesday afternoon at 1:30 p.m. in the Church Social Rooms.

Mrs. Ralph Condon, chairman, conducted the business meeting at which time it was decided to pay \$40 again this year for the support of a Japanese student minister in Japan.

The lesson entitled, "That They May Be Oaks," was presented by Mrs. John Wagner, who discussed the mission of the church towards the aging.

Miss Bess Easterday opened the devotions with a piano prelude following which Mrs. Wagner read two poems on, "Trees," and Mrs. Condon presented the

THE SCHOOLBELL

COMMUNITY HOME SCHOOL

PUBLISHED WEEKLY BY THE PRESS CLUB OF CULVER HIGH SCHOOL

Editorial

By Cheryl Dillon and Charlene Lucas

Another school year is rapidly coming to a close. As the end draws nearer, the various activities and organizations begin to "close shop," and the seniors become a part of the past as far as Culver High School is concerned. With this issue of the "Schoolbell" we, the 1962-63 co-editors, join the group of has-beens. Our year is finished as leaders of the Press Club.

As we are writing this final article for the paper, we can think back to that first night over six months ago when we, as greenhorns, were doing a similar task — writing our introductory editorial. The memory of that long ago night is as vivid as if it were yesterday; yet, how much has happened since that time! We have organized and edited 25 issues of the "Schoolbell," sent news articles and pictures to both the Plymouth Pilot-News and the South Bend Tribune, attended two training sessions for school news reporters, and tried to give our own staff members advice on improving their articles. These are the outward evidences of the year's accomplishments.

However, we would have considered the year a failure if these material gains were the only ones we could look back upon. We each expected the job as co-editors to bring us more than just knowledge in the area of journalism, and it has. Through working with 70 staff members we have learned to organize and lead more efficiently. Co-operation became a "must," not only between ourselves, but with the other students and the administration too. The task of editing was valuable in that we both encountered spelling and grammatical errors which caused us to become more acquainted with the dictionary and English handbook. These are just a few of the ways in which we have grown as a result of being the co-editors. Each of us personally gained more than we can possibly tell.

We feel that these few months as co-editors have been, on the whole, quite successful. The job had its ups and downs, but with each mistake came the realization that at least we would not be making that same one again. There are several people who helped to make this year's "Schoolbell" what it has been, and they deserve many thanks. First of all there is the staff. Without them and their interest there would be no school paper;

they are the foundation. Their hard work throughout the year made our job much easier. We would like to thank The Culver Press for its co-operation too. The service which they perform by printing the school news is valuable to the entire community, for everyone then has the opportunity to know more about the school and what the students are doing. Mr. Cole has also been helpful and cheerful in aiding with initiating new ideas, or just plain checking over things to make sure they were in accordance with the administration. He could have either made the year rough for us or helped us smooth over our mistakes, and he has surely done the latter. Now, we have Mr. Miller. As Press Club sponsor he "okays" all the articles which appear in the paper. However, this task is just a beginning. We could not possibly mention all the innumerable extras he has done during the year. Oftentimes, just the fact that he was so willing to take time from his busy schedule to help, gave us the encouragement to go ahead and do things ourselves. He never seemed to tire of hearing our complaints and problems even when we had already been in his office five times that same day. He certainly deserves more thanks than we can say.

Others, too, have helped us this year, and we appreciate the part that each did. We have enjoyed being the co-editors and know that through this experience we have learned and grown in many ways.

Rough Schedule For Track Men

By Charles Snyder

Coach Cox and his track team may seem to be having a little trouble getting started this year, but a look at who their opponents have been shows a rough schedule. They are looking forward to much improvement, however, and the experience gained will be useful in future meets. Tom Yocom is leading the team for points with a total of thirty-three. Bob White and Paul White are tied for second place with twenty-six points each. Paul Liette and Mike Cihak are following close behind with twenty-four and twenty-three and a half points respectively. The team traveled to Knox Thursday April 11, for a tri-way meet with Knox and Hamlet.

The Seniors: What's Their Future?

By Beverly Barshes and Bob Carter

The final departing day will soon be arriving when the seniors come to that so-called "fork in the road." This road represents the future of each individual student and what he will do with his life or how he will mold it. It must be a final stepping stone to his future career. There will be no turning back to his high school days or turning back for a second chance or even a glimpse of where he failed in his youth.

This year's senior class consists of 42 students, all of whom are looking forward to this departure from high school. Some have definite plans and others are uncertain, but all of them have high hopes of succeeding in whatever field they choose.

Twenty-two of these seniors will be going on to obtain a higher education in many leading colleges and universities. Some of these colleges and universities are Purdue, Indiana State, Ball State Teachers College, Vincennes University, Indiana University, Hanover, Indiana Central, Indiana Technological Institute in Fort Wayne, Rose Polytechnic Institute, and Elmhurst in Illinois. In these schools, our seniors will expand and enlarge their abilities, capacities, interests, and attitudes in such fields as mathematics, pharmacy, engineering, home economics, history, business, nursing, and science. Here is where our today's youths will become tomorrow's citizens and builders for the future.

Next, we have students who will be studying in the fields of medicine and nursing. In these schools, such as the Memorial School of Nursing in South Bend and the Gary Methodist Hospital School of Nursing, students hope and want to work hard in order to make valuable contributions in their chosen career.

Seventeen of this year's graduating class have taken National Scholastic Aptitude Tests and other tests, in order to help them achieve their specific goals. Many hope to receive scholarships from various funds and colleges which will help them take one more step in aiding them in their future plans. Some of the students have completed all their tests and fulfilled all their requirements and have already received their housing acceptance slips from their chosen colleges, while others still have a few requirements and tests to complete before they are definitely accepted.

Whether an individual becomes a professor, a housewife, a carpenter, a tool maker, or even a spaceman, we are sure the faculty and the student body of Culver

High School will miss these talented seniors, but we also will be anxious and proud to see what kind of a future these seniors will mold.

There will be others following in their footsteps, maybe some who are more outstanding, but this class will always be remembered and we all wish them the best of luck.

Two Concerts Are Planned

By Sharon McDonald

The spring program of the Junior Band is now completely planned. Featured on the program will be a flute trio and a trombone trio that won firsts at the recent district contest. The band will play marches, a descriptive selection titled, "Holiday in London," and also folk songs, and Spanish music. The highlight of the program will be a novelty entitled, "The Three Little Pigs." The concert is scheduled for Sunday, May 5, at 3 p.m. in the Community Building. The public is strongly urged to attend this concert which will be commemorating national music week.

The sixth grade band is anxiously awaiting their first public appearance, May 1. This will be in conjunction with the spring elementary music program.

The eighth grade general music classes have finished their work on the dances of the past. The boys as well as the girls learned much about the manners and graces which make up proper dancing.

Dinner guests of Mr. and Mrs. Elza Hawkins on Easter were Mr. and Mrs. Harry Hawkins and Kay of LaPorte; Mr. and Mrs. Robert Johansen and Mary Beth of South Bend; and Mr. and Mrs. Charles Ferrier and Tina.

Well, here we are once again in living black and white! The sunny weather we've been having lately reminds us that there are only 6 weeks "H SCHOOL IS OUT! There have been many "vigorous" activities going on "Inside the Teepee" lately.

President Kennedy's physical fitness program has been broadcasted throughout the country. The sound waves fell upon the ears of various Culver Braves and had an inspiring effect on them. These braves go by the names of Rick Ervin, Dennis Shock, Jim Boswell, and Dave Lemar. These brave souls journeyed by foot to the far-away village of South Bend. They left at 6:30 a.m. At 8:00 a.m., they were tremendously hungry, so they ate lunch near West High. Several hours later they spied a familiar sight. Was it a mirage? No — it was the Dairy Queen just outside Plymouth. Hungrily, they quickened their pace, but, alas, it hadn't opened for the day. They trudged onward through LaPaz and Lakeville. Completely exhausted from the day's "hike," they reached their destination at 5:30.

A couple C.H.S. maidens took advantage of the sunny weather last Saturday by bicycling to Monterey. Was physical fitness your real reason for the trip, Janet Rosebaum and Anita Yeazel?

Six of the Sophomore girls got a taste of how riotous Junior Play Practice might be. We heard that the girls had a little trouble transporting the Home Ec. furniture down to the gym. This was in preparation for a skit these girls gave at the Ideal Ladies Party. Speaking of the Ideal Ladies Party, how does it feel to be one eligible bachelor among 150 women, Paul White?

Tom Yocom's sports car fund has now increased to \$98.34 plus three washers. Tom is still urging everyone to donate to this

worthy cause.

Ar! Altman is now among the braves of C.H.S. who own their own "wheels." He can be seen driving a classy white Chevy around the reservation. Chug!

Crash! What was that loud noise I just heard? I don't know. It sounds like glass breaking! These are only a few of the expressions heard at Pam Fish's slumber party last Friday night. One of the girls happened to knock over a lamp. However, all the girls helped to clean up the debris.

While there was mass hysteria at the Fish residence, girls were also raising the roof two miles east of town at Donna Roger's party.

FOUND: One lady's purse in the boys' restroom. What?!? Linda Nelson, would you mind explaining this? Oh, I see. Tom Schmidt is the culprit. Well, we're sure he knows you didn't appreciate this sudden interest.

Many interesting posters can be seen decorating the walls of our beloved high school. They aren't Pep posters this time, but bulletins urging voters to elect certain nominees into class offices.

Coming up: One plug for the Saddle Club Dance April 19. The Neidlinger Band will supply the music for the evening.

Carolyn Snyder, we bet you've learned your lesson: never plan to stay for a meal at Kathy Easterday's house. Yes, we heard, Kathy tried to make you eat moldy bread.

We know that many of the braves and maidens are affected with Spring Fever. Laziness is one of the symptoms and the sophomore boys in an eighth period home room have run into a sympathetic teacher. Mr. Kepler favored having his feet propped up for improved circulation after his busy day of teaching. The boys followed suit. I'm afraid if any visitor walked into the home room, the impression he got would be startling!

Sophomore boys and Mr. Kepler aren't the only ones who have that tired, run-down feeling... we in the Teepee do, too. So, we yawningly bid you farewell till we see you again. Have fun! Ho... hum... ssszzzzzz.

Final Plans Made For Senior Trip

By Valerie Gunder and Peggy Herr

Seniors: Final plans are being made for the senior trip. All money should have been paid by now if the senior is expecting to go. The students, as well as their parents, have received detailed itineraries with explanations of all kinds about the places that will be visited.

Juniors: Preparations have been begun for the Junior-Senior Prom which will be held May 17. A class meeting was held to nominate officers for the coming school year. The nominations for next year's senior class are as follows: President, Paul White and Tom Yocom; Vice-president, Sam Lowry and Bob Carter; Secretary, Janet Beck and Sharon Norris; and Treasurer, Ann Waggoner and Pam Phelps.

Sophomores: The sophomore class is preparing for next year by nominating their officers. Candidates are as follows: President, Paul Llette and Jim Lewis; vice-president, Jim Weirick and Dave Lemar; Secretary, Susie Spencer and Peggy Herr; and Treasurer, Lonni Darocsi and Kay Thomas.

Freshmen: The freshmen have almost completed their fudge sales. They have nominated their class officers for the sophomore year, and those selected are campaigning with posters and the works. Candidates are President, Ron Babcock and Andy Lowry; Vice-president, Sheryl Fisher and Jim Easterday; Secretary, Barb

Mikesell and Martha Guise; and Treasurer, Judy Thews and Lois Newcomb.

Should Drivers' Tests Be Stricter?

By Jeanne Adams, Judy Price, Susie Tanner and Lonni Darocsi

There is always room for discussion on the subject of beginner and probationary licenses. Should these licenses be made harder for beginning drivers to obtain? We asked the student body for their opinion. Here are a few of the answers:

Bob Carter — I believe the test is too easy. I have never heard of a person failing a driver's test. It should be made harder so incompetent people would not get licenses.

Janet Parker — I think it's pretty easy. They need to make it harder. The way it is now, you can pass the test without very much studying or effort.

Valerie Gunder — No, I feel that the laws shouldn't be stricter, but they shouldn't decrease, either.

Joan Dillon — I think that laws which govern regularly licensed drivers are satisfactory for beginners.

Tom Yocom — I think that laws and tests should be tougher on the younger group and the older group, say from 60 up. This would do much to keep the young drivers who lack experience, the drivers who are in their second childhood, and those who are not fit physically, off the roads.

Greg Yapp — No. The laws shouldn't change, but I think there should be stricter laws for these people who drive for 10 or 15 years. They tend to become careless.

Barb Rosebaum — I feel that a person should know all the things about the subject, but everything can't be done by questions. Some must be learned by experience.

Mr. Crabb — I believe that laws for beginning drivers are strict enough. No matter how strict the laws are, it will still depend on the young person and his attitude toward driving.

Cindy Kemple — The present laws should just be enforced. They are strict enough now!

Barb Overmyer — No, not if the young person has taken Driver's Ed. I feel that it teaches them what they need to know, and the rest they have to learn for themselves.

Gloria Bean — No, they are strict enough now, as it is.

Linda Thurin — I think the laws are strict enough if they are enforced. However, if a beginner driver abuses the privileges given to him, he should not be allowed to have those privileges for awhile.

Larry White — If you have ever taken a driver's license test, you would have found it to be too easy. It really isn't a test; all you do is drive around the block.

Dick Knoerzer — Yes, I think they should raise the age limit.

Bob Alberta — No. They should be more lenient. I think when any driver over 16 is able to pass the exams, he should be given a license, not a beginner's permit.

As can be seen, the opinions are varied. The problem of the increased slaughter on our highways is a serious one without a doubt. The question of the value of stricter driver's tests and laws can be urged either way. What's your opinion? Possibly your Congressman would also like to know.

Easter Preparations Are Main Attraction

By Vickie Lyons and Sue Cole

The Easter Bunny is really spreading good cheer and inspiration this season. People of all ages have been participating in the preparations. Mrs. Barton's first graders designed Easter pictures. Gertrude Allen's second grade made Easter hats and hung them on a picket fence for display. They gave their mothers gundrop corsages, but they did not want to forget themselves so they had the pleasure of creating baskets and coloring eggs to keep for their own. The second graders in Miss Page's class were really proud of the Easter egg tree they made. It was an unusual and attractive display. Mrs. Carter's third grade made Easter baskets and decorated their room with them. Alice Keller said both she and the students in her fourth grade were looking forward to Easter vacation.

Several grade school youngsters have aged a year recently. In Mrs. Allen's class, second grader Geraldyn Wajtowicz was eight years old April 5. Mrs. Carter's third grade had three birthdays. Stephen King was nine years old and celebrated by treating the class with homemade cookies. Shirley Kreek treated her fellow classmates with homemade cupcakes and marshmallow rabbits

on her birthday. On the 9th of April, Debra Shidler was nine. David Schrimsher and Victor Triplet had birthdays in Mrs. Keller's class.

Mrs. McLane said a new girl, Joady Bradford, had recently entered the first grade. We hope you like school here, Joady.

All the second graders of Miss Page's class wished that Roger Hart, who is sick in Plymouth hospital, would hurry and get well.

Culver's grade pupils have really been working hard in their various studies, for another six weeks will soon be ending.

Mrs. Barton's class finished "Cherry Street" and are now reading "Our New Friends."

The second grade arithmetic in Miss Page's room is getting harder and harder. The students are learning the more difficult addition and subtraction combinations. The class is currently reading "Stories for Fun" in their book. Cindy McKee, Sylvia Williams, Sue Kreek, and Nancy Nicodemus all received perfect scores on the six weeks' test Friday.

A moth was the center of attraction in Mrs. Carter's class when Susan Albertson brought it to school to watch it hatch.

Ants seemed to be a major topic of discussion in Mr. Horban's class after they saw a show of slides featuring these tiny, but interesting insects. Two of the classmates, Barbara Baker and Shirli Christolm, built a coal garden for the class. Mary Wieringa and David Williams have perfect records in spelling so far this year.

In social studies, Mrs. Keller's class is studying the different means of communication.

FIRE DEPARTMENT calls should be made to Viking 2-2121.

EDITOR, The Citizen:

I picked strawberries to sell to pay for a year's subscription to the Marmont Herald in 1894. I have read constantly nearly every issue from that day to this and been a subscriber to The Culver Citizen for 60 years or more. I believe your records will prove this.

I knew Arthur B. Holt intimately, M. R. Robinson and Robert Rust as owners and publishers, and hope to meet the present owner some time in the month of May.

Mrs. Glen Snyder is my half-sister and Donald and Glen Osborn are nephews of mine.

The last time I was in Culver, in 1954 I believe, it was Clara Alleman, who chided me for not letting it be known I was in town. Well, that cannot be said of me this time, if the editor sees fit to publish this letter. The old adage says "The wheel that squeaks gets the grease."

I have squeaked and I hope to renew acquaintances of friends in and around Culver some time in May, after seeing Florida, New England and way points.

Thanking you for your indulgence, I am most sincerely yours,
WILLIAM J. SMITH

P.S. I have not taken up the fad of walking 50 miles a day, so I may need some help getting around

Just another squeak. W.J.S.

The opening ceremony was conducted by the Beaver Patrol. Steve Kelly demonstrated fitness exercises and the Troop worked on them. Patrol corners were held with advancement instruction being given. The closing games were "annihilation" and "dodge ball" and the meeting was dismissed with the Scout Benediction. The Troop welcomes Morris DeMarco into the Troop. Twenty-six Boy Scouts were present along with the Webelos as special guests of the Troop.

A Green Bar meeting will be held Thursday, April 18, 7:15 p.m., at the home of Terry Powers. Next month's activities and the Scout-O-Rama will be planned and discussed.

All members of the Troop are to meet at the Methodist Church at 9 a.m. on Saturday, April 20, to help in an important conservation project. We will be finished and home by noon. Patrol leaders are to see that their patrol members are notified and that five buckets and five shovels are brought for the project for their patrol. Support this Troop project.

Morning Worship 10:30 a.m.
A Bible Lesson on the subject, "Doctrine of Atonement," will be read this Sunday at the First Church of Christ Scientist.
The Golden Text is from John (3:17): "God sent not his Son into the world to condemn the world; but that the world through him might be saved."

Related readings will include this passage: "Jesus' teaching and practice of Truth involved such a sacrifice as makes us admit its Principle to be Love" (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 26).

Thought about climbing any trees lately? The tree climbers seem to belong to a very young segment of the population.

Why do you suppose most of us have outgrown that compelling urge to climb a tree? It used to make every trunk a challenge, every limb a precarious perch.

Well, we've discovered other challenges. And we've had our fill of precarious perches. Eventually a man turns his zest for triumph to more constructive purposes.

But, have you observed that many people seem to climb above the tiresome every-day level of life? And, strangely, they appear more secure challenging the roof of existence than those who cling to its floor.

The youthful compulsion which once made us tree climbers reaches maturity on a spiritual plane. Our God-given zest for triumph finds fulfillment in the quest of religious Faith... the challenge of Christian living! Start climbing next Sunday... in church!

CARDS OF THANKS

We wish to take this opportunity to express our sincere thanks to the Argos, Leiters Ford, and Culver Fire Departments for their valiant efforts to save our home which was destroyed by fire on Tuesday, April 9. Our thanks and appreciation is also extended to those who helped to carry out furniture and personal belongings, and for the help rendered in moving to our present home. We especially want to thank those who gave clothing and furniture and donated money to the Francis Gibbons family. Our thanks go out, also, to those who worked so diligently in cleaning up the debris and to members of the Santa Anna W.S.C.S. for their thoughtful preparation and serving of the dinner to these workers.

Do not forget services each Sunday at 10 a.m. Attendance last Sunday was 88.

Funeral services for Mrs. Hazel Ullmer were held Saturday at 4 p.m. from the Pifer Funeral Home in Niles, Mich. Hazel was the oldest daughter of Mr. and Mrs. Charles Hartle and had been ill for several weeks. Surviving with her husband are three children.

Mr. and Mrs. Edgar Haney and sons of near Elkhart attended services at this place last Sunday.

Mr. and Mrs. Harold Davis and daughters of Lansing, Mich., spent the weekend with home folks.

Local friends and neighbors assisted at the Francis Gibbons farm last Saturday in clearing away the debris when their home was destroyed by fire on Tuesday, April 9.

Mrs. Guy Davis was the guest speaker Thursday afternoon for the Kewanna Woman's Society of Christian Service when they entertained the ladies of the Grace Methodist Church of Rochester and the ladies of the Gil-ead Church. A lovely dinner was

served the large group at the noon hour. This is a part of the visitation program sponsored by the South Bend District.

Local friends are invited to attend the miscellaneous shower to be given for Mr. and Mrs. Larry Carpenter next Sunday evening at 7:30 in the church fellowship rooms.

HERE'S AN IDEA

Oshibiri is not the latest in Oriental fare. But it can bring compliments from your dinner guests.

It's a Japanese custom of passing warm, damp fingertip towels after a meal — a welcome treat

after fried chicken, corn-on-the-cob, barbecued ribs or lobster.

Dampen the towels, roll and arrange neatly in a basket and place in your oven at 150 degrees. Check periodically before serving. They should be warm and damp — but not well done.

YES, we have ATRAZINE Weed Killer

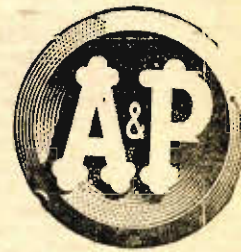

But order yours now while stocks are adequate. Remember—no grower should plant corn without it. Call us today.

Academy Sports

Culver Military Academy's golf team joins the busy spring sports schedule this week leaving the Eagle crew as the only one of five teams still to move into action for the 1963 season.

Coach Thomas Baker's linksmen face Logansport here Friday afternoon and then are host to Delphi and Merrillville in a triple match Saturday afternoon. Like other spring sports, the golf schedule has virtually been doubled.

Still to move into action is Coach Jack Anderson's crew, which is working towards its opener in the West Virginia Centennial Regatta April 27 at Parkersburg. The oarsmen will face top college freshman and high school crews in the Regatta.

In action last week, the baseball team split an opening doubleheader at Warsaw, the track team fell behind with a 1-2 record, and the tennis team won its second straight match.

For the baseball team, plagued by several losing seasons in succession, the split at Warsaw was something to be excited about. Coach Jim DeArmond's stickmen opened the twin-bill with a 3-2 defeat and then bounced back with a 6-3 victory in the five-inning nightcap. Top pitcher Phil Goetz suffered defeat in the first game when he gave up two runs on three singles in the fifth inning, but John Bartlett came back in the second game and, behind the heads-up hitting and baserunning of captain Dick Swennumson, registered Culver's first win of the season. The Eagles had a five-run third inning.

Coach Dave Burke's track squad lost two dual meets last week, one a 59-50 surprise by Gary Andean High School and the other a not-so-surprising 69-49 defeat by tough West Lafayette High School. Against Andean, the Academy led early in the meet and then fell behind through loss of several field events and both relays. The Eagles won only four first places against West Lafayette and again dropped the relay events. West Lafayette also won an experimental three-mile run, a rare event in Indiana high school track. West Lafayette's Bill Gibben took the three-mile run in 46:05.8 and Culver's Joe O'Flaherty trailed him by five seconds.

In tennis, Culver edged Fort Wayne Concordia High School, 4-3, the same score by which the Eagles won last year. The doubles team of Greg Moore and Gene Siskel supplied the clincher in the last match of the day with the score tied. Moore and Siskel defeated their opponents by scores of 6-2 and 6-4.

The schedule Saturday finds three of four teams away. The single sports event here is the golf match.

School Board Holds Public Meeting On Salary Schedule

The Board of School Trustees of Culver Community Schools last week received bids for school bus bodies and bus chassis for three new busses. After comparing bids, the School Board awarded the contract for three sixty-six passenger bodies to Wheatley's, Incorporated, of Elkhart, Indiana, whose bid of \$3,170 per bus body was the lowest received. The busses will be furnished by Blue Bird Company of Fort Valley, Georgia.

The School Board also decided to purchase two International truck chassis from Nelson Equipment Company and one Chevrolet chassis from Gates-Calhoun, Incorporated.

After completing action on bus equipment, the School Board made plans for starting negotiations for employment of bus drivers on new contracts. For the ten school busses which are owned completely by the school corporation, persons interested in applying for positions as bus drivers may secure applications at the office of the Superintendent. The School Board will receive bids on routes involving driver-owned equipment until 7:30 p.m. on Tuesday, April 30, 1963. Specifications for these eight routes also will be available at the Superintendent's office. Contracts for equipment purchased prior to 1955 will be for one year only. For equipment which went into service in 1955 or later, the contracts will be for two years.

On Tuesday evening of this week the School Board gave chief attention to a teacher salary schedule for the 1963-64 term and to plans for the public meeting to be held at Culver Community Building at 7:30 p.m. on Tuesday, April 23rd. This meeting will enable the School Board to explain the plans for operation of the schools at Culver and Aubenaubee for the 1963-64 term. Data will be presented regarding anticipated enrollments, building utilization, and plans for the school program. It is hoped that the meeting will enable the patrons to become acquainted with the long-range plans which need to be made for the unified corporation.

Some time ago the Teacher Welfare Committee met with the

School Board to present a proposed salary schedule for the 1963-1964 term. In Tuesday evening's meeting, Mr. McLane presented copies of the new salary schedules which have been adopted by other school corporations in the area. After a lengthy discussion of different proposals, the School Board by majority vote approved a starting salary for beginning teachers with four years of training at \$4,800, with a maximum of \$6,000 for twelve years of experience. For the teacher with five years of training, the beginning salary was set at \$5,000, with a \$7,000 maximum for teachers with twenty years of experience. Since this scale is lower than others established in Marshall County, the Superintendent expressed the feeling that a problem will arise in securing additions or replacements for the teaching staff.

Shelton Kaiser, elementary principal, requested that May 22nd be designated as a day for next year's first graders from North Bend to visit school. In order to handle the group, it would be necessary to close the Kindergarten for the term on the afternoon of May 21st. The School Board approved these requests.

Area Residents Report Freak Storm Debris

Whether it's weather or not, Culver area residents have reported several unusual happenings that occurred as a result of last Wednesday evening's weather disturbance which took place shortly before 7 p.m.

Paul Ulery, whose farm lies just south of Burr Oak on both sides of State Road 17, reported he was standing by a shed when the unusual still was broken by high winds which literally dumped from the heavens a huge piece of metal. The 2x5 foot piece of corrugated steel roofing blew in from the southwest, flying over treetops and landing on a nearby fence.

King D. Hester, whose farm lies directly southwest of the Ulery farm, brought to The Citizen office a cancelled check which he found in his pasture field following the storm. The check was in perfect condition, and written by Alvin E. Palmer under date of Oct. 24, 1955, on the First Trust & Savings Bank of Kankakee, Ill., in the amount of \$15. The check listed Mr. Palmer's 1955 address as Route 3, Kankakee. Mr. Hester turned the check in to The State Exchange Bank and it was forwarded on its way to its owner.

Mr. and Mrs. Dale Davis reported that they were enroute Wednesday evening to their home located on West 20th B Road and, upon negotiating the last sharp curve as old State Road 17 leaves the Lake Maxinkuckee shoreline, they were forced to stop and remove a similar sheet of corrugated roofing from the roadway.

Several Burr Oak residents remarked that they viewed much debris in the air during this period of time Wednesday evening.

Is it possible that forces of Nature transported these objects from this storm-stricken Kankakee area?

Knox Tri-Kappas Sponsor Musical Stage Show

"Sound of Music" will be presented in the unique fashion created by Sullie Harand, under the auspices of the Zeta Eta chapter of the Kappa Kappa Kappa sorority at Knox, on the last Tuesday of April for the benefit of its Scholarship Fund.

This popular and heart-warming musical, with original music by Richard Rodgers and lyrics by Oscar Hammerstein, 2nd, was first produced with Mary Martin as the star. It is still being produced, professionally and by amateur companies, from coast to coast, but none quite like the presentation by Sullie Harand, nationally famous singing actress, as she weaves her magic spell at the Knox Theatre, April 30.

My Favorite Things, Do Re Mi, You Are Sixteen, and Climb Every Mountain are among the Rodgers and Hammerstein songs whistled across the country. These and others will be included by Sullie, who has been called by her audiences, "A Complete Cast of One."

The outstanding background music and accompaniment for the program will be provided by Martin Rubenstein, brilliant and versatile pianist appearing nightly at Chicago's top night spot. In addition he is well known to television audiences for his appearances on many TV shows including the popular "Playboy Penthouse."

The April meeting of the Home and Hobby Club was held at the home of Mrs. Cleo Ringle, Route 3, Argos. The meeting was opened with Easter devotions given by Mrs. Harold Hoskins followed by the members repeating the Home Demonstration Club creed.

The history of the song of the month, "On The Banks of the Wabash," was given by Mrs. Ringle following which it was sung by the group. Mrs. Ringle accompanied the singing on the Hammond electric organ and also entertained the group with several other selections on the organ.

Eleven members answered the roll call with an Easter menu or Easter suggestion. Six children and one guest, Mrs. Herbyn Maynard, were also present. The safety lesson, "The Driver's Prayer," was given by Mrs. Harry McPherron.

The afternoon was spent discussing numerous items suggested by Purdue University for the study and crafts program for the year of 1964. Announcement was made of the May Day Coffee at the Church of the Brethren in Plymouth, and the contest entries of essays, poetry, and songs due Aug. 15.

Orders were taken for the plates commemorating the 50th anniversary of the founding of the Indiana Home Demonstration Clubs. After delicious refreshments were served by the hostess, the group adjourned to meet in May at the home of Mrs. Harold Hoskins.

85 Attend Hibbard Fellowship Meeting

A special fellowship meeting was enjoyed at the Hibbard Evangelical United Brethren Church Sunday evening, April 21, with 85 members and friends attending.

The meeting opened with a prelude by Mrs. Homer Albert after which the group sang, "Open My Eyes That I May See," led by Mrs. Irvin Overmyer.

Prayer was given by Mrs. Jack Quivey, followed by a musical reading, "If Jesus Came To Your House," by Mrs. Raymond Lowry, accompanied by Mrs. Albert.

The devotional period was in charge of Mrs. Jack Quivey and was based on the Beatitudes, and concluded with prayer by Mrs. Richard Behmer who then introduced the speakers of the evening, Mr. and Mrs. Clarence Van Der Kolk, of Plymouth.

Mr. and Mrs. Van Der Kolk have recently returned from Africa where they visited their daughter, Nancy, and her husband.

Mrs. Van Der Kolk gave a very interesting report of their trip after which her husband showed slide pictures of places of interest they visited and Mrs. Van Der Kolk made enlightening comments on the slides. Among the slides were several of their daughter, Nancy, a former Culver fifth-grade teacher, and her family. After several questions by members of the audience, the program closed with prayer by Mrs. L. K. McKinley, wife of the pastor of the church.

Everyone gathered in the social rooms of the church where refreshments were served during the fellowship hour by a committee of Mrs. Arnold Lowry, Mrs. Alfred Large, and Mrs. Vance Albert.

Academy Sports

At Culver Military Academy, where baseball victories haven't come easily in recent years, the Eagles are living it up in the throes of a 4-1 record.

After suffering through the early part of last year when the team lost seven straight to contribute to a winless streak of 25 games, Coach Jim DeArmond has the Culver stickmen hustling off to a good start. The latest achievements came Saturday when the Academy outgunned Howe Military School in a 14-10 and 3-0 double defeat at Howe.

While the baseball team was winning two, the tennis team knocked off its third straight opponent at Huntington, 6-1, and the golf team broke into the win column with a pair of victories over Merrillville, 12-3, and Delphi, 14½-½ in a triangular match over the Academy course. Friday the Eagle linksmen opened their season in a 6½-3½ loss to Logansport here.

In one other sports event, the Academy trackmen placed eighth in a field of 19 teams at the Fort Wayne North Side Relays. North Side swept most of the relays to win its own event easily, but Culver salvaged some glory in placing second in the two-mile relay. The Academy's time of 8:15.7 was three and eight-tenths of a second better than the old record, but North Side finished with a blazing 8:12.5.

Track Coach Dave Burke said the two-mile relay was the best race of the day with Culver's Bob Ancira, Hal Hanna, and Bob Lucken running even with North Side for the first three laps. To indicate the toughness of the event, Culver splits were 2:05.1, 2:05.6, and 2:04.7 for the first three laps. Then on the anchor leg, Cadet Tom Carpenter did a 2:00.3 — good enough by most standards — but not good enough to offset the 1:57.8 run by the North Side anchor man in the most outstanding performance of the meet.

After defeating North Caston 5-3 earlier last week to give the Academy a winning record in baseball for the first time in several years, the Eagles dished out a twin defeat to Howe. Top performer of the day for Culver was pitcher Bob Marsh, who dealt Howe only three hits while enroute to a 3-0 victory. Phil Goetz started the first game and lasted until the last inning when Coach DeArmond sent John Bartlett to the mound in relief.

Coach Ted Clarno's tennis team, developing better than expected, experienced little trouble with Huntington, losing only the opening singles match. Chris Candis, Greg Moore, Gene Siskel, and Guthrie Packard all won singles matches, and the doubles team of Siskel-Moore and Candis-Harold Paul took the final two matches.

In golf, Culver captain Bob Hightower took medalist honors in Saturday's triangular match with Delphi and Merrillville. Hightower shot a 37-38 — 75 and underclassman Skip Tucker was next with a 79.

Events this Saturday will send the crew into action for the first time in the West Virginia Centennial at Parkersburg. Greene Township will be here for two baseball games starting at 1:30 p.m., Griffith and Northfield will play at Culver in a triangular golf match at 1 p.m., the Culver tennis team will be at Logansport for a 10 a.m. match, at the track team will be at the Lime City Relays at Huntington.

I tried them both
and I know!
Believe me...a
GAS DRYER
is the one for you!

Ask homemakers who have tried both kinds...
they'll tell you a GAS Dryer is the only one
to buy...for three very good reasons...

FASTER

No other dryer can match the speed of a Gas Clothes Dryer. It's the one that will dry your clothes as fast as your automatic washer washes them.

BETTER

Because a Gas Dryer dries faster, it is better for drying woolens... especially blankets. Towels come out fluffier, too. Remember, speedy drying gives clothes longer life.

CHEAPER

You can dry your clothes for just about a penny a load with a Gas Clothes Dryer. This is only about one-fourth as much as it costs to operate other kinds of dryers.

Addresses National Cum Laude Society

The role of a liberal arts education as a "quest for wholeness and meaning," was summed up last Saturday night, April 20, in an address by Dr. Perry Gresham, president of Bethany (W. Va.) College, to 250 students and teachers attending a national meeting of the Cum Laude Society at Culver Military Academy.

Speaking to representatives of an organization dedicated to academic achievement in the secondary school, Dr. Gresham said:

"The liberal arts point to the stars beyond the klieg lights and the smokestacks. They are studies that educate the man. . . The whole affair of a liberal arts education can be summed up as a quest for wholeness and meaning to be derived by the discipline of man's intellectual, emotional, and social attitudes and activities.

"Knowledge he must have," Dr. Gresham said, "but it is the knowledge which can aid in the reconstruction of experience. . .

the cultured man who can make a life a well as a living."

Dr. Gresham's address "The New Liberal Arts" marked the end of a two-day meeting in which the Cum Laude Society, with headquarters in Boston, met west of the Hudson River for the first time. Student and teacher representatives heard speakers from education, business, and government discuss the overall theme "Conquest of Inner Space" in an era when attention is directed towards the conquest of outer space.

"Over-specialization in education has brought on a considerable reaction favorable to the liberal arts in a structured program for study," said Dr. Gresham. "The day's demand is for cultured people who know something of many things rather than for narrow specialists who can perform only in a circumscribed sphere. . . The 'general education' movement in America which aims to give every college graduate broad knowledge in all the most honored fields, as well as considerable competence in one field, is an indication of the ferment."

fields of study which he calls the "new" liberal arts. They are: Communication, science, social science, humanities, health, creative aesthetics, and religion. How these subjects shall be taught, he said, is a call to the resourcefulness of American colleges.

"That they shall be taught is crucial if we are to have a civilization worthy of survival. The value of civilization depends on the creative minority who honor the best of its diverse heritage and express this sense of interest in what is most precious by initiating the young into its meanings and mysteries. It is to this end that a truly liberal arts college is devoted.

"The hallmark of an educated man," Dr. Gresham concluded, "is his ability to distinguish between the significant and the trivial, between the beautiful and the ugly, between the good and the bad. Wise decisions are more desirable than multitudinous inert ideas. Understanding, judgment, taste, wisdom, and a sense of honor are the final goals of liberal learning."

Beware Of The Fly-By-Night Fixers

As surely as spring comes, so do the fly-by-night fixers. They descend upon an unsuspecting community with their ridiculously low prices, a flow of fast talk, using every means to get sympathy for their "pitch." When given a job, they do it in about half the time it should take, collect their money, and are gone. The unsuspecting victims feel very proud of themselves until the rains come. Then the truth becomes very evident.

In the past few weeks several towns have been visited by these "fast buck" guys. In most cases they have been told to move on before they could trap an unsuspecting victim.

To say they have a racket is putting it mildly. They come to your door, usually in work clothes, and ask to do a job for you. "Let us paint your roof, with either black roof paint or aluminum. Or let us spray paint your house or barn, or clean your septic tank." In all cases, the price quoted to you is far below that for which any reputable local merchant, could do the job. While this is going on, the man is fast talking you to gain your sympathy and any story he can think of is used.

So you let him do the job. He does it in a very short time, collects the money, and is gone. He leaves no address, the license plate on his car is an out-of-state license. You don't even know his name, and the name on the car or truck may be a fictitious one. In short, you know nothing about the men or their work.

Then the rains come. What a sad state of affairs. The paint used on your roof runs off in the down spout, the paint on the house disappears just as fast. The bargain you were so proud of has vanished with the first rain. You are out a sum of money with nothing to show for it except experience.

The materials, which you assumed were A-1, were nothing but watered-down paint, thinned with gasoline, water, or used motor oil. The first rain and it is gone. In some cases, where a price was not agreed upon, you may have been highly over charged to clean your septic tank. Cases have been known that if a contract was signed the contract was a claim to your property and you were stuck.

It pays to remember this -- the deal may sound good financially, but what about your home town merchants or established businesses that do the same work? Their prices are based upon the skill, and quality of product or workmanship and time it takes to do a good job. It is a fair price. After the job is completed, if you're not satisfied, they are where you can contact them and have an adjustment made.

It proves the old saying, you get just what you pay for. In the case of the fly-by-nighter, you don't even get that. So send them on their way without getting involved. You will be money ahead and so will the community.

A DEER FINDS LIFE ROUGH The Indiana Division of Fish and Game received a report from Palaski County that a 10 month old buck deer was killed by a car on U. S. 35 about five miles north of Winamac between the Tippecanoe State Park and the Winamac State Fish and Game Area. The accident occurred on March 9, 1963. An examination of the deer showed that during his short span of life, he had been hit by a .30 caliber bullet as well as a load of number 6 shot. Ammunition of this type is not permissible in Indiana for deer hunting.

Deer poaching has been a problem in Indiana for several years and violators have been difficult to apprehend, since the deer had to be in possession for an arrest to be made. The 1963 General Assembly aided the efforts of the Enforcement Division by enacting a law which makes it illegal to discharge a firearm on or along any public highway in the state. This will make it much easier to apprehend the poacher who shoots from his car.

BEER IS A NATURAL

As natural as the wholesome grains and tangy hops from which it is brewed, beer is Indiana's traditional beverage of moderation—light, sparkling, delicious.

And naturally, the Brewing Industry is proud of the good living it provides for so many folks in Indiana. Not only for employees of the Brewing Industry itself, but also for the farmers and other suppliers of beer's natural ingredients. In Indiana, beer belongs—enjoy it.

WILD TURKEY FOR INDIANA

The Division of Fish and Game of the Indiana Department of Conservation has entered into an agreement with the Missouri Division of Fish and Game to exchange 60 Indiana ruffed grouse for 15 Missouri wild turkey during 1963.

Wild turkey, which is a bird of large woodland areas, formerly inhabited much of Indiana, but disappeared as the forests were cleared. Land use has changed during the past 30 years and biologists now believe that there are some areas in southern Indiana which are capable of producing this large game bird.

Last year Indiana exchanged 20 grouse for 5 Missouri turkeys and released them in the Brown County State Park along with 3 which were trapped from the Crane Naval Ammunition Depot flock in Martin County.

Trapping wild turkeys, or getting them in exchange for wild-trapped ruffed grouse, is difficult and expensive. Experience in other states, however, has shown that wild turkey are far superior than game farm birds for starting new populations. If the introduced birds are not molested, Indiana should have several nice turkey flocks in the next five years.
