Academy Erects Ralph L. Smith

A plaque has been creeted at the Culver Woodcraft Camp in the Curver Wooderall Camp honor of Ralph L. Smith, Kansas City lumberman who operated businesses in the Portland, Ore. and Northern California areas.

Smith recently made a substaniia) gift to the Academy towards construction of the new \$350,000 Woodcraft Camp to house some 648 boys during Culver's summer program in July and August. The camp contains 58 cabins and three main buildings to be used by boys 9 1/2 through 13 years of age.

An advisory member of the board of directors of The Culver Educational Foundation, Smith operated firms in Portland, Coquille, and Klamath Falls, Ore., and in Cauby, Alturas, and Red-ding, Calif. His company merged in 1952 with Kimberly Clark Corporation and Smith has been retired since 1962. He was at Culver recently for the unveiling of the bas-relief portrait done by Academy artist-in-residence Warner Williams.

Proper use of the horn, says the Chicago Motor Club, is an important asset to safe driving. It is mistaken courtesy to refrain from using your horn at times when an audible warning would be appreciated by others, or could prevent a possible collision, flowever, blowing one's car horn unnecessarily is an unpleasant oc-

Dr. Longenecker CHS Alumni Speaks At C.M.A. Observance Set Commencement

Reassurance to the graduating yesterday in a Commencement day evening, June 8, in the Cul-Convocation address given by Dr. ver Community Building. The Herbert E. Longenecker, president of Tulane University, New 5. Orleans, La., to members and friends of the graduating class at Culver Military Academy, Speaking to a capacity audi-

ence that witnessed presentation vide music for dancing from of various academic honors to 9:30 p.m. to 12:30. The price the graduating class of 171. Dr. of tickets for the banquet and Longenecker spoke words of confidence for the graduate still in search of a profession or voca-

"There are times, of course, for any young man going to college when he is not quite sure what he wishes to be — that is in the sense of a chosen profession or vocational pursuit in life. If that is your happy state - re-lax. It is perfectly normal, and, in fact, quite in vogue in present educational circles."

Calling pressure to select a particular field a "trap," Dr. Longenecker added:

"Not so many years ago it was essentially an educational sin not to know what you wanted to be when you entered college . . . Today most collegiate programs offer considerable opportunity and latitude for an exploration of areas of interest before a decision has to be made."

Dr. Longenecker said he de-plored the idea that education is a matter of "filling up empty pots even though we sometimes go about it as if that were our no-tion." He compared the process of education to that of lighting fire; one than won't go out.

"Once a spark of learning is really kindled, I cannot conceive that it would ever fail to awaken interest in applying brain power to the various problems and op-portunities life presents . . . If you have chosen as a first step the further development of your general education in a liberal arts college or university setting, you will quickly find that the purpose is not the amassing of a large amount of information . Rather, it is the enlargement of mental capacity and agility that results from the acquisition, or-derly arrangement, reflection and recall of information.

With such enlargement of the intellectual horizons there comes ability to see things in proportion, as they really are. In other words, the powers of wisdom are developed.

Dr. Longenecker quoted Germun poet Goethe and said that sults of experiments conducted in what a student wishes to be needs to be considered in the light of

"As you grow in understanding and capability for reason and re- Catches 6 1/2 - Ib. sponsible responses to your own dreams for the future. I have Large Mouth Bass every confidence you will be prepared to champion the precious inheritance that has permitted you to grow and live in freedom."

The classes to be honored this year are those of 1913, 1938, 1953, and 1963.

Visit Purina Research Farm

C. M. Wamsley, Monterey; Gordon Taiclet, Monterey; and R. E. Rowland, President of the Ralston Purina Company, who are pictured above (left to right) in the Ralston Purina Company offices in St. Louis were among approximately 350 bankers from all over the United States who visited the Purina Research Farm at Gray Summit. Mo., last Monday, May 27, and spent the following day seeing the company's research laboratories and general office.

The bankers visited the Parina facilities to observe the latest techniques in the feeding and management of livestock and poultry, and to hear discussions of agricultural credit.

Thousands of farmers from all sections of the United States and many foreign countries visit the Purina farm each year to see relivestock and poultry feeding and management. The 778-acre farm such wisdom as he is able bring is devoted entirely to farm research projects.

There are big fish in Lake Maxinkuckee and it takes a woman to prove it. Mrs. Mary Jane McCool, of Lawrenceburg, lod., has the honor of catching the largest bass yet caught this sen-son, or at least, the largest reported to The Citizen office, Mrs. McCool caught a 61/2 pound large mouth bass Monday morning, nsing nighterawlers for bait. The prize catch was made south of the Public Access area.

Mrs, McCool was fishing with her little brother, Butch, when the big fish struck, Afraid she would lose the prize, she called for help from her husband, who was resting at their cottage. Between the three, the big boy was landed. Mr. and Mrs. Richard McCool attended the Commencement exercises of the Academy,

Elmer Steffen, **Noted Summer** Resident, Dies

ELMER A. STEFFEN

Elmer Andrew Steffen, former director of music for the Roman Catholic Archdiocese of Indianapolis and longtime leader in Indi-anapolis musical circles, died Monday, June 3, in St. Vincent's Hospital there. He was 72 years old and a well-known Lake Max-inkuckee stimmer regident of 78% inkuckee summer resident of 782 East Shore Drive.

East Shore Drive.

A lifelong resident of Indianapolis, Mr. Steffen, 3122 Sutherland Avenue, retired in 1955 as the archdioeesan director of music, a post be had held since 1937.

A short while later, he retired also as master director of SS. Peter and Paul Cathedral, where he was organizer and director of the Schola Cautorum and other

the Schola Cantorum and other singing groups.

Mr. Steffen, a strong supporter

of secular music activities, was co-founder with Dr. Fabien Se-vitzky of the Indianapolis Sym-phonic Choir and was its con-

ductor for many years.

He also was co-founder with
Perceval Owen of the Mendelssohn Choir, predecessor of the symphonic group. He also was conductor of that choir.

Mr. Steffen was founder of the Lilly Choral Ensemble and di-rector of the Matinee Musicale. He also had conducted choirs with the Cincinnati Symphony and other orchestras.

In the spered music field, Mr. Stellen pioneered in the revival of the Gregorian Chant and the promotion of correct liturgical masic.

For his service in the sacred music field, Mr. Steffen was made a Knight of St. Gregory by Pope Pius XII in 1929. The award, one of the highest in the Roman Catholic Church, is conferred on laymen who have made outstand-ing contibutions to the church in specific field.

Mr. Stellen wrote two major sacred music works, "Missa Eu-charista" and "Eure Sacordos," He also wrote numerous devotional motets which have been incorporated in hymnals throughout the country.

Among the awards he has rereived are the Caecilian Award and the Federation of Music Clubs Award.

Many years ago he was commissioned to edit the songs of Stephen Foster.

During World War I he was rited by the government for his music promotion at military installations.

Services will be held at \$:30 n.m. Thursday, June 6, in Flan-ner and Buchanan Fall Creek Mortuary and at 9 a.m. in St. Joan of Arc Catholic Church, Indianapolis. Private burial will be held in Holy Cross Cemetery there.

Survivers include his wife, Mrs. Margnerite M. Steffen; two daughters, Mrs. Suzanne M. Gerigner and Mrs. Pauline B. Shaver; a son, Andrew Steffen; a brother, Charles Steffen; and nine grandchildren, all of Indianap-

Helen Bauman To Head Christian Science Church

A return to "God-centered thinking" is the world's most urgent need, said the new Presi-dent of the Christian Science Church today.

Speaking before the Church's huge annual meeting throng in Boston, Mrs. Helen Wood Bauman warned that the scientific advances taking place in the world today are in danger of being misunderstood.

"Intense interest in technological skills and human inventions is again tending to divert thought from God," and neglecting "to give Him credit for a great re-lease of mental energy," she declared.

Instead of "indifference men should be finding Him as "the center and circumference of their being, the source and fulfillment of their honest aspirations."

"When God is fully understood as underlying all constructive de-velopments, when he is seen as sustaining all progress, "then will all men delight in turning to Him," declared the new church president president.

"All that is worth possessing, worth pursuing, worth expressing must be linked with the one cre-ator, the one center and circum-ference of being, with the God who demands our love."

The address was presented in The First Church of Christ, Scien-tist — known as The Mother Church — before several thousand members from all over the world.

They heard annual reports from many church departments indicating stronger religious ac-tivity and interest among young people.

The establishment of a Christian Science Society in Bangkok, Thailand, was cited as one of the latest additions to the church's

A2/c Donavon Osborn and A2/c Ronald Osborn arrived home last Wednesday from Lincoln Air Force Base in Nebraska for a 10day leave with their parents, Mr. and Mrs. Gerald Deboro, and family, and to attem the June 1 wedding of their brother, Paul.

Stanley Curtis Receives Honors Award

Stanley Evan Curtis, son of Mr. and Mrs. Forrest Curtis, Rt. 1. Culver, has received Purdue University's President's Honors Award in recognition of academic excellence for 1963.

Stanley's grade index for Spring Semester 1961-1962 and Fall Semester 1962-1963 was 6.00, the highest index granted to a student for academic excellence. His grade, in six subjects for the spring semester, 1963 was straight A's.

Stanley was honored, along with 236 other students, at a scholastic Honors Banquet held the Purdue Memorial Union

Stanley will be a senior next year at Purdue and is majoring in Animal Science. He took 19 hours of vork this last semester but still found time to work every evening in the laboratory to help finance his schooling.

Yacht Club News

By M. CLYNE

Summer may not be here officially, but it seemed like it as binoculars were adjusted while watching the first Tune-up race,

There were eight boats trying to tag the teasing wind which died and shifted and freshened throughout the race. Since most of the boats are not yet in the water, it was a good turn-out for the first race. Three new mem-bers from Rochester were very welcome contestants. The Carrs are sailing T-124, Jay Barger has T-52 while his father, Jim Barger, carries T-51 on his sail.

Jerome Zechiel and Ken Bateson battled for first place but Zechiel's T-21 sailed across the finish line just inches ahead of Bateson's T-25. Peter Trone ma-neuvered T-88 into third place followed by Rupert Esser's Tia Min (T-26).

Joyce and Don Speer were a little cautious, trying out their new boat, but we know these two stout-hearted sailors will be keen competitors all summer long.

Remember, 2 p.m. Sunday. June 7, is the time for the start of the second race in the Tune-up

By DAVID KELLY, Troop Scribe

"Soccer" was the pre-opening game of Troop 290 on June 3. The opening ceremony was conducted by the Beaver Patrol with 33 Boy Scouts in attendance. All our tents were set up by the Troop with the Green Bar sleeping in them over night. The meeting was closed with the Scout Benediction.

The Flaming Arrow Patrol won first place honors with their pio-neering model. The Beaver Potrol was second:

The Panther Patrol won patrol competition for the month of May

and held onto the honor bannes.

The annual spring Camp-o-Ree
will be held at Myers Lake Scout Reservation on Friday and Saturday, June 7 and 8. A'l Scouts that are going are to meet at the Methodist Church at 4 p.m. on Friday with a light pack and personal overnight gear. We will hike to Myers Lake. All money must be turned in to the Scoutmaster by 4 p.m. on Thursday.

All camp money and health exams must be turned in next

Monday!

Summer camp at Camp Tamarack will begin Sunday, June 16 and those attending will leave from the Methodist Church at 12 noon on that day. Those attending the canoe trip in Canada will leave Culver on Saturday, June

A Board of Review will be held next Monday. This will be your last chance to advance before the next Court of Honor, which is to be held on Monday, July 8.

Judge Osburn Heads Indiana Masons

JUDGE ARTHUR A. OSBURN

Judge Arthur A. Osburn of Marion has been installed Grand Master of Masons in Indiana at the conclusion of the annual meeting of the Grand Lodge F. & A.M., Freemasonry's governing body in the state.

Formerly prosecuting attorney for Grant County, Judge Osburn has been on the Superior Court bench since 1950. He is a past president and past lieutenant governor of Kiwanis, and the

second veteran of World War II to be named head of the Masonic fraternity in Indiana.

Other officers elected were:
Clyde E. Flowers, Fort Wayne,
Deputy Grand Master; Don A.
Burton, Muncie, Senior Grand Warden, and Joseph L. Bridwell, Franklin, Junior Grand Warden. Two officers were re-elected: O. A. Tislow, Indianapolis, Grand Treasurer, and Dwight L. Smith.

Franklin, Grand Secretary.
The new Grand Master announced the appointment of Dr. Robert M. Selbel, Nashville physician, as Junior Grand Deacon, starting point in the Grand Lodge official line. Other appointments were: the Rev. Robert L. Hall, Michigan City, Grand Chaplain; Howard O. Hunter, Grand Lec-turer, and Robert P. Joyce, Grand Marshal, both of Indianapolis: John L. Bloxsome, Terre Haute, Senior Grand Beacon, and Wil-lam L. Fisher, Marion. Grand Steward and Tyler.

FAITHFUL SERVANT - AS he terminated his 43 year career as a raral nail carrier. Clyde O. Wright of Dunkirk, told The Dunkick News and Sun some recollec-tions of his service. He said that in making his appointed rounds. he had fought forest fires, summoned physicians for the ill along his route and occasionally had picked up grocery packages for his patrons. He began his career in 1919 and he said he wore out five horses before he got his first automobile in 1921. PURE MILK HOLDS MEETING IN CHICAGO

The hearing on Pure Milk Association's proposals to completely revise the Chicago Federal milk market order so as to improve dairy farmer income closed on Wednesday, this week, after five days of testimony in Chi-cago before Hearing Examiner John Curry of the U.S. Department of Agriculture.

One of the major proposals presented by PMA would change the regulations under which dairy plants qualify to ship milk to the Chicago market. This proposal is designed to improve the income of dairy farmers who provide a continuous supply of Class I (bottle) milk for the mar-

In testimony by A. L. McWilliams, general manager of PMA, and W. Harold Cope, assistant to McWilliams, it was shown that milk is being shipped into the Chicago market in increasing volume by dairy plants which are not a regular and dependable source of supply for the market's bottle milk requirements.

It was pointed out that these plants are at present able to qualify unlimited quantities of milk for the market and receive the benefit of higher prices for their producers of shipping in only a small volume, and that it only takes 14,000 pounds of 40 per cent cream to qualify a million pounds of 3.5 per cent milk.

Under PMA's proposals, quali-fication for participation in the fication for participation in the Chicago market pool would be on the basis of actual product pounds of milk, skim milk or cream delivered to the market. As another plant-qualifying requirement, PMA proposed that 30 per cent of the Grade A receipts of a plant shipping to the Chicago market must be distributed as Class I milk and that 10 per cent of such receipts must be distributed as packaged Class I

milk products in the marketing Other major amendments pro-

posed by PMA follow: Change the supply-demand adjuster in the order to increase producer prices. (At present this method of adjusting prices is re-ducing the Class I price to producers by 24 cents per hundredweight. The present supply-de-mand adjuster provides for an adjustment in the producer price

ranging from a reduction of 24 cents to an increase of 24 cents per hundredweight.) Revise the class-pricing system

so that there would be only two classes instead of three as at present. By this amendment, fluid cream (whipping cream, coffee cream, half and half, and sour cream) would be placed in Class I instead of Class II. Class I presently includes fluid milk, chocolate milk, butter milk and while milk bead in the man. skim milk. Milk used in the manufacture of ice crea mand cottage cheese would be placed in Class II with other manufactured products. The other manufactured products, now in Class III, are cheese, butter, condensed milk. and nonfat dry milk.

Limit the location credit to handlers, so that unnecessary transportation costs, such as for hauling milk to the market and back again to qualify as a pool plant, can not be charged to farmers.

Eliminate the base-excess plan for the order. (PMA and other dairy farmer cooperatives, across the nation are striving to establish a "Dairymen's Class I Base Plan" for Federal order markets as the best solution to the prob-lem of surplus milk production. Legislation to accomplish this is now in the Senate Agriculture Committee.)

To simplify dealers' accounting methods, it is proposed that these methods be changed from a butterfat basis to a skim milk and butterfat basis. This would neces-

sitate increasing the Class I price 6 cents per hundredweight to provide an adjustment for reclassifying cream and changing the price on milk used in making ice cream and cottage cheese.

Delete the Indiana portion of the marketing area (three townships in Lake County). At a hearing in South Bend, Ind., May 7-8. PMA proposed that these townships be included in the South Bend order.

Provide the pricing of unregulated, unpriced milk at the producer blend price. This method of pricing would overcome the ob-jections of the U.S. Supreme Court in its decision ruling out compensatory payments. This would price all milk, regardless of source, on the same basis as milk in the regulated market. It would insure the continued operational stability of the milk market order program for dairy farmers.

FARM TRACTOR FATALITIES ALARMING

Fatal farm tractor accidents have occurred in Indiana this spring at an alarming rate, notes F. R. Willsey, Purdue University farm safety specialist. At least six persons died in these mishaps in the first two weeks of May.

These persons were killed in

variety of mishaps, including falling from a tractor, hitting a bridge abutment and overturn-ing a tractor. All of these deaths point up the necessity for follow-

ing safety rules.
Willsey lists these precautions to be taken for the safe use of farm tractors:

Spread the wheels wide to re-

duce side tipping.

Keep all safety shields in place.

Reduce speed before making a turn or applying brakes.
Avoid excessive speed,

cially on rough ground or hill sides. Don't allow extra riders and

don't ask to be an extra rider. Keep children away from tractors and other equipment.

Pull only from the draw bar, which should be set at the lowest point when pulling heavy loads. Don't dismount while the trac-

tor is moving. Don't over rate your child as

a safe tractor operator.

Don't fuel your tractor while the engine is hot or running Forty-two Indiana fatal farm tractor accidents occur annuall on an average. Willsey says. A of these deaths resulted from violation of some safety operating

Freeze some rhubarb for winter use, suggest food specialists at Purdue University. Wash, trim and cut the stalks into 1½ to 2-inch pieces. Pack in a moistureproof container, being sure allow for head space, cover, labe and freeze.

Babson Continues Discussion Of Inflation Hedges

Sound Investment Should Provide Protection

Babson Park, Mass. — A sound investment program should provide protection against inflation as well as deflation. Because real estate is so commonly associated with inflation protection, it might be well to lead off with a discussion of LAND TRUSTS.

companies have

several advan-

tages: (1) While some of

the older com-

panies origin-

Real Estate Trusts The better-quality land

ally garnered their land for agricultural purposes, in recent years the

Boger W. Babson discovery of minerals has introduced a "kickto companies of this type. (2) There is usually a basic source in the form of surface leases, water rights, etc. (3) These companies operate with little in the way of plant and equipment investments. (4) Their labor and other operating costs are at a minimum.

One of the largest domestic land trusts is Kern County Land Company. It owns nearly 2 mil-lion acres in California, New Mexico, and Arizona; and participates in development of oil and gas properties in Western Canada, Louisiana and Mississippi, and even Australia.

Another large land company is Texas Pacific Land Trust, owner of about 1,700,000 acres in Texas. In 1954 this company transferred to TXL Oil Corp. most of its oil, gas, and other mineral rights on its then producing property. It retained title to virtually all the surface land, a small perpetual royalty interest in 85,000 producing acres, and a 1/16th royally in future mineral pro-duction from 387,000 acres, Established Mining Companies

Mining issues provide another hedge against inflation. In a sense, mineral deposits are sort of underground bank deposits. Improved mining techniques, development of machinery capable of massive ore extraction, and new methods of upgrading ore quality help to offset effects of rising labor costs. Best investments are in companies with large ore reserves and undeveloped acreage.

The American Metal Climax Company has many attractive features. This company holds land in Africa, Mexico, Canada, and South America. Domestic properties are located in Colorado, New Mexico, and Michigan, American Metal Climax produces more than half the world's supply of molybdenum and owns the world's largest molybdenum mine. The company also has large invest-ments in African copper mines. It is a large custom smelter and seller of nonferrous metals. Other lines include a potash mine and refinery in New Mexico, plus oil and gas interests.

Copper Properties

The major copper mines also hold merit for investors interested in underground mineral deposits. Kennecott Copper is the world's largest copper mining company. Its Utah and Chile op-

19-8n

erations are exceptionally lowcost. Ore reserves of the company are substantial. Kennecott's investments include a 67% ownership of Quebec Iron & Titanium and a 13% interest in Kaiser Aluminum.

The world's second-largest copper producer is Anaconda. More than two-thirds of its copper is mined in Chile. In addition, it has mines in Montana and Nevada, and in Mexico. Anaconda is also a leading fabricator of copper. and processes uranium and aluminum. Operating costs of its foreign mines are low.

Second-largest domestic c o p-per producer is Phelps Dodge, which is a favorite of mine. Nearly all of its ore output, the bulk of which is mined in Arizona, is used by its fabricating plants. It has a 16% interest in Southern Peru Copper, and sizeable investments in Amerada Petroleum, American Metal Climax, and New Jersey Zinc. A very interesting article on Arizona appears in the March National Geographic.

Copper Range is an important copper producer in the Lake Su-perior region. Though it is medium sized and a relatively high cost producer, it is fully integrat-

ed from mines to market.

Turning to the base metals,
United States Smelting, Refining & Mining Company is a leading producer of lead, zinc, copper, silver, gold, and even coal. Most of its mining properties are in New Mexico and Utah. Company is increasing its emphasis on oil and gas development. It holds leases, royalty claims, and mineral options on acreage in various U.S. mountain and plains states, and in Western Canada.

J. E. Campbell Is To Represent Marine Institute

Jack E. Campbell of The Culver Boat Co., Cuiver, was elected to represent the Cuiver area on the Evaluation Board of Marine Testing Institute, Inc., it was announced recently by Harold B. Schneider, president of the Mamaroneck, N. Y. testing and research organization.

As a means of promoting more safety in boating as well as pro-viding more pleasure in this ever growing recreational activity, MTI endeavors to maintain highest standards in all products connected with the marine industry. Mr. Schneider reported that this was accomplished by assisting consumers in the selection of quality products, and providing manufacturers with technical assistance in product improvement and development programs.

Mr. Schneider also stated MTI was active in providing the industry with current market research information which is obtained through its unique 550 member board located in each boating area of the United States.

Of great interest to boatmen everywhere according to the MTI president, would be the results, soon to be announced, of two MTI testing projects. One project is a comparison between the merits of two substances currently used in life saving equipment. One substance is Kapoc which is imported from the Far East, and the other the new unicellular vinyl foam being manufactured in the United States by the Gentex Corp., of Carbondale, Pa., the B. F. Good-rich Co., and U. S. Rubber Company. A second project is an efficiency comparison between the inboard type of heat exchanger compared to the Keel Cooler type using a newly developed fluted

tubing invented by the Walter Machinery Company, of Jersey City, N. J.

According to Mr. Schneider MTI is affiliated with New York Testing Laboratories and with their combined facilities have completed more than 300,000 test programs for over 10,000 well known American companies and the United States Government.

Construction Of Glendale Dam To Start

Fishermen and waterfowl hunters of southwestern Indiana will soon be glad to learn that construction of the dam for Lake Glendale will soon be started.

Bids for construction of the dam for the 1,300-acre lake at Glendale State Fish and Game Area, Daviess County, Indiana, were opened on Tuesday, June 4, 1963, Interested contractors were furnished plans and speci-fications for this project by the Engineering Division of the Indiana Department of Conservation upon request.

Construction has been held up for some time due to difficulty in acquiring the land for the lake basin. However, condemnation proceedings have cleared the way for the beginning of con-struction. The lake will be built in two stages. It will be completed in 1964.

MLIVIU MUN I CYING Offered By Fish & Finalize Plans For Capital Credits For Year 1952

The board of directors of Marshall County REMC has authorized the payment of capital credits for the year 1952. The distribu-tion represents 21% of the electric service bills paid by REMC members during that year. More than 2,800 checks wil be issued. totaling \$52,180.28.

For the benefit of those who are not familiar with the capital credit plan, here is a simplified explanation. As a cooperative, we operate on the principle of providing service at cost to our customers. At the end of each year all funds accumulated in excess of operating costs are credited to the members in whose names electric service bills were issued. These amounts are called "capital credits"

It has been the policy of our directors to refund capital cred-its as soon as it is economically leasible to do so. The first re-fund was made in 1952, when the 1946 capital credits were paid. Since then capital credits for the years 1947, 1948, 1949, 1950 and 1951 have been distributed. Including the 1952 payment, a total amount of \$302,802.68 will have been refunded to our members.

The checks, mailed May 22, were sent to the last known address of members whose names electric service bills were issued in 1952. In cases where the members are deceased were issued to the designated ors.

SHORT CHANGED - A Hoosier justice of the peace, Vernon Bartle of Scottsburg, recently re-ceived a lesson in foreign ex-change, State Trooper Bob G. Young, formerly from Culver, brought a tourist from Toronto, Canada, into Bartle's court on a speeding charge. The Canadian pleaded guilty and was fined \$5 plus court costs of \$17.75. He said he was short of United States money and asked the justice if he would accept Canadian enr-rency. Bartle agreed and the tourist tendered a Canadian twenty dollar bill and three Canadian ones. Bartle gave him an Ameri-can quester in change. Bartle took the Canadian money to a Scottsburg bank which sent it on to a Louisville bank. In turn the Louisville bank forwarded it to a New York bank for exchange. After 10 days Bartle received a check for \$21.16 which turned out to be the equivalent of 23 Ca-nadian dollars. To keep the books straight Bartle made up the difference out of his own pocket. "Serves me right for not reading the financial pages." Bartle told The Scott County Journal,

BARGAIN DAY - The Paoli Republican recently received from Loma Andrew of French Lick, a tear sheet from a copy of The Republican published in 1895. It included a dollar day sale advertisement by a grocery store offering such \$1 bargains as 28 pounds of raisins, 20 cans of sardines, seven pounds of tea and 14 pounds of crackers, News items included stories about Congressional debate on the admission of the territories of Arizona and New Mexico to statehood.

RECEIVES DEGREE FROM INDIANA CENTRAL COLLEGE

Tou may be A Retailer Under **New Tax Law**

Application For Retail Certificate Must Be Made

This week nearly 100,000 persons, who may not know they are retailers under the new definition of the Revenue Department, are hereby asked to file their application for Registered Retail Merchant Certificate.

Broadly described, ANYONE who in the ordinary course of a regularly conducted business who sells ANY tangible personal property for use by the purchaser or consumer, is a retailer. This means that in addition to those normally identified as retailers, the following persons are also included: Wholesalers, manufacturers, public utilities, hotels and motels and other persons regularly renting for periods of less than thirty (30) days, govern-mental, charitable or educational organizations which perform private or proprietary selling activities and in addition, non-resident persons selling in Indiana must also apply on this form.

Most businesses will need to register as "Retail Merchants" in order for the Department to administer the new sales tax in an efficient manner. To simplify the reporting of tax collections, it was decided that one type of registration would apply to all businesses. Even if some businesses sell little or nothing at retail, they are required by law to issue exemption certificates on their purchases; therefore for example, if a manufacturer buys certain items he must give his supplier an exemption certificate. Some easy identification is necessary, so his Registered Retail Certificate number becomes this identifica-

Last week over 100,000 retailers, who currently bave a store license, received in the mail, their applications for Registered Retail Merchant Certificate. This week we wish to announce that persons who have not received their application and are required to file, may get their application and instruction sheets from their local bank. Members of the Indiana Bankers Association have generously offered their services in Memorial Day guests of Mr. making these forms available in and Mrs. Floyd Carrothers were

Revenue Form ST101A 5-63 250 M

GENERAL INFORMATION ON THE INDIANA SALES AND USE TAX LAW

MATURE OF SALES AND USE TAX

The new Indiana State Gross Retail Tax and Use Tax, hereafter referred to as the Sales Tax and Use Tax, te basically a 2% tax on retail sales. The new law adopts generally the same language, definitions and accounting procedures as are set forth in the Indiana Gross Income Tax Act, and places the burden of the tax on the purchaser,

As a general rule, the Sales Tax is levied by the state on the gross receipts which constitute selfiag at retain under the Gross Income Tax Act. The Sales Tax also applies to the furnishing of telephone, telegraph, electric, water and gas utility services and to the furnishing of transient lodging for periods of less than thirty days.

The Use Tax is levied by the state on each purchase delivered to the purchaser at a point outside this state for storage, use or other consumption in this state, or which is shipped or delivered from an out-of-state point to on Indiana pyrchaser.

PERSONS REQUIRED TO FILE AN APPLICATION FOR REGISTERED RETAIL MERCHANT BERTIFICATE

For the purpose of collecting the Sales Tax in transactions constituting selling at retail and for the issuen of exemption certificates in purchases exempt from the tax, the following are required to obtain a Registered Receil Merchant Certificate:

1. All individuals, firms, partnerships, corporations and associations selling at retail & Indiana as retail merchants. Generally defined, selling at retail as retail merchants means persons who in the ordinary course of a regularly conducted business sell any tangible personal property for use by

the purchaser. Wholespiers.

3. Manufacturers.

Public Utilities.

5. Hotels, motels and other persons regularly renting for periods of less than thirty (30) days.

Governmental, charitable or educational organizations which perform private or proprietary selling

INSTRUCTIONS FOR COMPLETING APPLICATION IMPORTANT: SUBMIT ONLY ONE APPLICATION FOR EACH LOCATION. RETAIN COPY FOR YOUR FILE.

Lines 1, 2, & 3. Self explanatory.

Use this line only if selling at retail begins ofter June 30, 1963. If individual - Enter nome of owner.

If partnership - Enter names of all partners in space provided. Self explanatory.

Use only ti change of awarship occurs after July 1, 1963, and indicate previous owner's registered ad retail merchant certificate number.

Line: 8. & 9. Self explanatory.

Your valid 1963 Store License number entered here will allow the Department to issue your Registered Retail Merchant Certificate without any additional remittance. If you do not presently hold a valid 1963 Store License, attach check or money order for \$3.50.

Any person required to obtain the Registered Retail Merchant Certificate or a Renewal Certificate, who fails to obtain the required certificate prior to selling at retail, shall be guilty of a misdomeanor and an conviction thereof shall be fined not less than \$100 or more than \$1,000.

RON-RESIDENT PERSONS SELLING IN INDIANA MUST ATTACH TO THEIR APPLICATION A LIST OF: 1. The name and address of principal employees and agents and representatives of such retail mer-

- chant engaged in this state in the solicitation or negotiation of transactions constituting selling 2. The location of all distribution or sales houses or offices or other places of business of such retail merchant in this state.
- 3. Home office location.

Films Available This Month At **Culver Library**

The following 16 mm films are on deposit from the Indiana Library Film Circuit in the Culver library during the month of June. You are invited to reserve the films for showing to your organization, club, church group, etc. Information on these and other films which will be available in succeeding months may be obtained from the librarian.

"Birds, How We Identify Them" -11-c- Two boys, armed with field glasses and bird guide book, find and identify many different birds. They learn how to distinguish one bird from another: by appearance; the sounds they make; and their actions, both on the ground and in the air. Identifying characteristics of many of the more common birds are pointed out.

"Classic Scotland" -10-c- Depicts a Scotland of moving beauty. so steeped in history and legend that "classic" is the only word to describe it. It shows the romantic Scotland of Sir Walter Scott and Robert Burn, their homes, the cities, villages and beautiful contry about which they

wrote. (Av-Ed) "Dangerous Stranger" -10-b&w-Produced in cooperation with the Los Angeles Police Department. Designed to warn children of the dangers of associating with strangers who might try to befriend them in lonely alleys, movies, parks and automobiles, Addressed to children but also of interest to parents, teachers and child welfare workers. (Sid David

Productions) "Declaration of Independence-By The Colonists" -16-c- Presents this historic statement of democratic principles as it affected many people in many places, and the risks taken in the cause of liberty. (Encyclopaedia Britanni-

"Hidden Earth" -29-c- Shows how scientists try to learn about the interior of our planet, from earthquakes, explosions and study of the earth's heat. Discusses future possibilities of new tools and techniques to probe deeper into the hidden earth. (McGraw-Hill)

"High Wall" -32-b&w-Points out what prejudice is and how it is transmitted. (McGraw-Hill) -13 1/2 -b&w-s- (Loaned by lustry On Parade Series "Industry Film" -13 1/2-b&w-s- (Loaned by National Assoc. of Manufactur-

under water. It instructs the skin diver and the user of underwater breathing apparatus in the subject of underwater safety. (University of Southern Califor-

"Land of Bengal" -20-c-s- In this film we see the cultivation, shipment, processing and manufacture of India's jute into fabries, including burlap which is so useful to American agriculture. (Loaned by Farm Film Founda-

"Leather In The Making" -30b&w-s- This film narrates the fascinating process of leather tanning. It presents a tour of a modern tannery and shows the converting of rawhide into fine, finleather, clearly outlining each of the many steps in the complicated processing of leath-er. (Loaned by Swank's Incorporated)

"Life In Your Hands -22-c-s-This film shows that in military electronic manufacturing, the failure of two parts out of every 10,000 tested is a serious problem. Hughes Aircraft Company has developed a new approach to reliability. (Loaned by Hughes Aircraft Company)

"Lure Of The North" -13 1/2 -cs- Presents an adventurous story of fishing for the elusive muskie. The picture was photographed in the wilds of Canada. (Loaned by Canadian Film Board)

"Mark Twain's America" -54-b&w- Using 1,000 pictures from a collection of 3,500 period photographs and engravings — many of them never before seen pub-licly — this film recreates life of a great American literary figure and the age in which he lived. (McGraw-Hill)

"Our Changing Family Life" -22-b&w- Contrasts the closely integrated farm family life of 1880 with the family life of today. (McGraw-Hill)

"Secrets Of The Ice" -29-c-Shows the origin and growth of glaciers and ice sheets, how they are studied in many different locations and what they reveal about the past and the future. Appeals to all ages. (McGraw-

"This Is Hawaii" -14-c- Covers Hawaii industrially and socially through visits to schools, churches, factories, and tourist attractions. (Richard Cline)

"Turkey - Key To The Middle East" -20-b&w- Considers the position of Turkey in relation both to its own past and to the state of present-day world affairs and includes a short history of the important strategic country over the last thirty years. (British Information Services)

"Waters Of The Whiteshell" -27-c-s- Shows the enviable time the Jackson family from across 27-c- A film on how to stay alive the border had during their vaca-

tion in this southeastern section of Manitoba, Wonderful fishing for father Bill and son Willy, good swimming, sunning and water skiing for daughter Pam, and everything, including shopping in a modern shopping cennter, for mom. (Loaned by Canadian Film Board)

Tuesday, June 4-25; July 16; August 6-27; 9:00-9:30 Behmer's corner. Maxinkuckee Lake, Campbell's Landing, 9:45-10:45 a.m. Maxinkuckee, S. J. Rossa, 11:15 a.m.-12:15 p.m. Hibbard, 12:45-1:45 p.m. Rutland, 2-2:30

The Bookmobile staff will be on vacation Sept. 1-15, and will not be on the road during that period.

You are cordially invited to visit and borrow books from the Bookmobile at your nearest stop. Suitable books are available for

Youth Arrested For **Exceeding Posted Speed Limit**

Richard R. Ossanna, age 18, of Hopkins, Minn. was arrested for exceeding posted speed limits on East Shore Road, on Saturday evening, June 2, by Lake Patrol man, James Cox.

Mr. Ossanna appeared in Jesse Sims Justice of Peace Court where he pleaded guilty. His fine and costs came to \$18.75.

Family Day To Be Observed Sunday At Grace Church

Sunday, June 9, will be observed as a "family day" at Grace United Church of Christ in Culver. In honor of Children's Day, the entire family is urged to attend Church School at 9:30 and worship hour at 10:30 a.m. In the latter service, a children's choir will sing and the pastor's sermen entitled, "A Child's Wiswill be geared to young minds.

Members and friends are then invited to remain for a potluck noon-time meal in the church social room at 12:15. After dinner, at two o'clock, the children and teachers of the Vacation Bible School will present a short program as a concluding ceremony for this year's two-week session.

An offering received at this time will be used to defray school and craft expenses. The daily offerings which the children have brought to Bible School have been designated for the Marshall County ministry to migrant chil-

Make Children's Day a "family day" for you and your family!

STANDINGS IN THE GUEEN CONTEST

The sixth week of the Jaycee Queen Contest finds the standing of the ten young lady contestants as follows: Pamela Phelps, 1st; Charlene Lucas, 2nd; Martha Mc-Allister, 3rd; Patricia Kline, 4th; Johanna Hughes, 5th; Carmen Gretter, 6th; Phyllis Shaffer, 7th; Cheryl Dillon, 8th; Diana Brettman, 9th; and Judy Kimmel, 10th.

The contest will run up until the evening of the Jaycee Ball, on June 15, at the Culver Inn.

DELAYED DELIVERY -Koseiusko County woman, Mrs. Alfred Yarman of Silver Lake, recently received a postcard bear-ing a postmark which showed it had been pested eight years and eight months ago. The postcard was mailed to Mrs. Yarman by her father, Frank Shuffer, who died a year ago. It evidently had gone far astray as it was postmarked in Morocco, a Newton County town, but Mrs. Yarman said she recalls that at the time it was mailed her father was living in Plymouth, some 70 miles northeast of Morocco. There seems to be no answer to the long delay in delivery of the postcard,

THE HOWARD OBERLINS ENTER SHRIMP BUSINESS

Mr. and Mrs. Howard Oberlin returned to Culver recently after, spending the past six months in Fort Myers, Fla.

The Oberlins have entered the shrimp business with their daughter and son-in-law, Mr. and Mrs. J. Black, under the business name of, "Black and Oberlin Shrimp Co." Having bought two more shrimp boats they now have three the "Donna Lee." boats—the "Donna Lee. Haused after their daughter, the "Celeste Joan," and the "Ike."

In the winter they shrimp off of Key West and bring the shrimp into Fort Myers. Then for six months in the summer they go to Texas and shrimp the Texas coast and bring the shrimp into Freeport, Texas.

The Oberlins report that when they left Florida their boats were shrimping in the Tarpon Springs area where they were having

Store. true, no love is lovely, no life is

Scheduled from June 10 Life but the divine; no good is, but the good God bestows" ("Scithrough June 16, at 7:30 o'clock each evening, these meetings will feature the Rev. Fred Crown, pastor of the Hillcrest Baptist Church of Rochester, as special ence and Health with Key to the Scriptures" by Mary Baker Eddy, guest speaker.

Reverend Crown is a graduate

Indiana and is a member of the Council of Twelve of the Indiana

Fellowship of Regular Baptists.
There will be special music each night. The public is cordially invited to attend these meetings.

GRADUATES FROM MacMURRAY COLLEGE

Greta Anne Hughes, daughter of Mr. and Mrs. Arthur G. Hughes of Culver Military Academy, Cul-ver, received a Bachelor of Arts Degree in Speech from MacMurray College, Jacksonville, Ill., at its 112th commencement on Sunday, June 2.

In all, 134 students were awarded bachelors' degrees. Seventy-eight were students graduating from the 117-year-old Mac-Murray College for Women and 56 were from the College for Men, founded in 1955. In addi-tion, masters' degrees were granted to five women and four men.

Vice-president of the United States Lyndon B. Johnson presented the commencement address to an estimated audience of 3,000. He also was awarded an honorary doctor of laws degree.

MacMurray is a privately-conof Moody Bible Institute and has trolled liberal arts college with held pastorates in Illinois and an enrollment of 900 students.

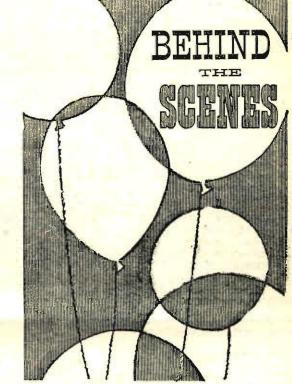

Bim is a clown—that is his business. He can always do the wrong thing at the right time.

But Bim is no fool, Out of the circus ring he always tries to do the right thing at the right time. Those winter Sundays in Florida, before the show goes on the road, you might sit next to Bim in church, and never know he is a clown.

And even though on the road, when Sunday is moving day, Bim gets out his old worn Bible and his teacher's guide, and with his own kids, and with all the other "show" kids gathered 'round him, there is Sunday School on the circus train.

You see, Bim is a Christian, living his faith through all the compli-cations of a strange occupation. He is not a mask-he is Bim. He is the Churchman of a circus train - the Sunday School teacher of show business. He knows when to put fun and frolic aside, and turn to the Truth ty which we live!

The Church invites you and your family to worship next Sunday and every Sunday.

I hereby wish to offer public gratitude to the hundreds who called, for the dozens of cards and floral offerings received; and the many kind words expressed in praising Clyde L. Shively for the good deeds done by him. I am sure he was motivated by his highest sense of honesty and fair play in all his dealings with his fellow men. He always gave more than he received and his confidence in people was seldom betrayed. He loved people, and their love was returned to me as I went through this Garden of Gethsemane, Many thanks to members of the Eastern Star, Masonic and 100F Lodges and those who participated in any way in the services.

(MRS.) GENEVIEVE SHIVELY

PRODUCTION RECORD

The eareer production of Registered Holstein cow in Indi-ana recently topped 150,000 pounds of milk in the official testing programs of The Holstein-Friesian Association of America.

Culver Dictator Eden Vel 284-8315 (VG) owned by John A. Newman and Sons of Culver, now has a lifetime record of 160,586 pounds of milk and 5,955 pounds of butterfat. Her production to date averages out at nearly 34 pounds of milk for every day since she reached two years of age — including days dry.

To date nearly 1.900 officially tested Registered Holsteins have topped the 150,000 pound mark - approximately six times the lifetime output of the average U. S. dairy cow.

Looking Ahead

By DR. GEORGE S. BENSON President National Education Program Scarcy, Arkansas FREE THE RAILROADS

Once in a while governmental action shows some signs of support for the private enterprise system. Certain action from the Administration along with other development show promise of re-lief for the harassed American railroads. This transportation system has been the victim of over-regulation and over-protection for too many years. Rail-roads in other lands have been forced into nationalization, thus making an ill patient sicker. Private industry may yet keep our railroads strong and competitive
— if the government will adopt

the right policies and laws. An example of the sort of hand-icap the railroads have had to endure is found in a recent experience of the Southern Railway. This railroad developed a revolutionary aluminum hopper car in which it could haul grain quite economically. But the Interstate Commerce Commission, established by Congress in 1887 to proteet the public from "robber bar-ons," having also later gotten power to protect minimum rates, had to give his approval. Under this kind of price control, the Southern asked if it could pass on thousands of dollars of savings to it customer on account of the big 70-ton hopper car. It Takes Time

The answer was finally "yes," but it was slow in coming. More than a year and a half later, after consumers along its lines had lost \$50 million because of the delay, the Southern gots its approval from the ICC's rate division. But it then required a Supreme Court decision to allow the new rates, reduced as much as 60 per cent, to take effect while the whole Commission takes more time to decide whether the new rates are, in fact, legal.

The perennial "featherbedding"

issue now shows promise of being resolved very soon, following long years of study by White House fact-finding commissions. At last, it seems, the nation agrees that these is no justice in forcing the railroads to employ 40,000 unneeded men at a cost of \$600 million yearly, although there is much sympathy for those employees who will have to be dismissed eventually. The changes are being bitterly fought by the unious, despite a Supreme Court decision upholding the right of railroads to end obsolete work

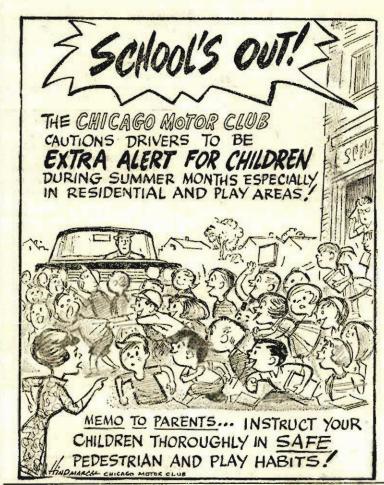

Red-tape Malady

It seems obvious that if the railroads are to survive and provide the service the nation needs, they should have some freedom of action. Instead they are fettered with red-tage that entangles them with innumerable regulatory bodlese and agencies of the govern-ment Almost any effort the railroads make to meet their own problems comes into conflict with masses of rules set up to regulate tentrol them. They have not

by given to the r Community on. Marshall oration. time, that the Board runtees of said school will meet at the office P.M. on Tuesday, June 11, 1963, for the purpose of considering a tablish a cumulative building fund for the erection of a new school building and additions to the present school buildings. The Board of School Trustees also will consider the torying of an additional tax at the rate of 76 cents on each \$100 of taxable property in said school corneration for the purpose of raising such cumulative building fund, said tax to be first levied in 1963, payable in 1964 and each year thereafter for a total of five years, all as provided by Chapter 57 of the Acts of the General Assembly of the State of Indiana for 1945 and as amended by Chapter 248 of the Acts of 1947 and other acts amendatory thereto. Taxpayers appearing at such

meeting will have a right to be heard thereon before said pro-posal is submitted to the State Board of Tax Commissioners for

approvall CEDRIC WHITE JUDD STINCHCOMB DONALD TAYLOR EUGENE BENEDICT WERNIE BOWEN BOARD OF SCHOOL TRUTERES

free to make usable decisions about their own problems.

One route that the railroads have been trying to take is that of mergers. Some of the very largest, such as the New York Central and the Pennsylvania, and the Union Pacific and the Rock Island, are talking mergers that they think would result in stronger organizations. Here again, the ICC is snail-slow in acting upon these requests. The nation does not need to fear mon-opoly dangers from these mergers, if the government will allow

other forms of transportation, without subsidy to any of them.

Reforms Overdue

President Kennedy, with his Transportation Messages and various study commission and boards, has helped initiate reforms long overdue. As it now stands, the unions and railroad management have until June 12 to work out agreements. The Administration has sponsored two bills in the present Congress. One of these would give the railroads new freedom from minimum rate controls on bulk commodities, and the the railroads to compete with other is meant to encourage more

the transportation industry,

Enemies of the railroads cluding other transportation interests and some federal agencies are unwisely fighting with the unions to make life difficult for the railroads on a variety of fronts. This nation needs a strong rail transport network, freed from restrictions and able to compete on more even terms with trucks and barges and planes. The railroads deserve liberation, and it is up to the unions and the federal agencies to show responsibility equal to their power.

CHS Indians Win Opening Game Of Baseball Season

By EARL MISHLER

new baseball season has arrived but Sam Lowry is still pitching for Culver High School — and how! The senior right-hander opened the Indians' summer season with a brilliant 10-0 no-hit, no-run game last Friday at Richland Center.

Relying almost entirely on fast balls, Lowry fanned 12 Wildcat batters, walked none, and was denied a perfect game by a sixth inning error.

Lowry, in his fourth season of outstanding hurling for CHS, got

all the runs he needed in the first inning when Culver tallied three unearned runs. But just for insurance, Indian batters came to the plate in the third as Culver registered seven runs off loser Kip Kistler. Senior catcher Paul White, who has caught nearly every one of Sam's many, many pitches, tallied three runs with a double.

The Indians open defense of their Marshall County summer championship Thursday against Argos on the local diamond starting at 6:00. Monday's game at Bremen was cancelled.

Coon Clubs Chosen To Hold Wild

0 thern Indiana Coon Hunters As0 sociation of Bremen; the Ace from the northern part of the 1 Coon Club of Indianapolis, and state; the Manchester Conservation Club 0 of Sunman.

The Ace Coon Club will hold their special field trial hunt on August 10; the Manchester Con-servation Club on August 17, and the Northern Indiana Coon Hunters Association is scheduled for August 24.

To Hold Wild Coon Hunts

Results of the out-of-season field trial hunts will be studied by biologists of the Division of Fish and Game to determine if the population of raccoon and other game species would be harmed by hunts at this time of year, whether there is great interest among coon hunters for program of the Division of Fish and the feasibility by Dr. C. Levlie Kanatzar, dean hunts on behalf of the research program of the Division of Fish and Game of the Indiana Department of Conservation.

The three successful applicants for the special field trials were drawn by lot. They are the Nor-
