Culver's Popular Beach and Bath House in the Early 1900's

PICTURED ABOVE is the popular beach and bath house as it appeared in the early 1900's. It was located on the shore line of Lake Maxinkuckee about 300 feet east of the present Beach Lodge. At one time the building was owned and operated by Arthur Morris, who also had a boat building operation in the

building. The building burned down in the late 1930's. As the picture shows, the beach was a popular place in those days.

The above picture was loaned to The Citizen by Everett Norris. Anyone having other pictures of historical interest is invited to bring them to The Citizen for publication.

Enrollments For 1964-1965 School Year

The enrollments for the opening of the 1964-1965 school term for Culver Community School show a total of 1188 pupils in Grades 1-12 for Aubbeenaubee and Culver Schools. The initial enrollments for these grades a year ago totaled 1175, thus indicating an increase of thirteen pupils. Though the Aubbeenaubee enrollment in Grades 1-12 decreased slightly, the addition of a kindergarten program at that school has increased the total enrollment there to 244 this fall. The total enrollment for Kindergarten to Grade 12 in the two schools is 1273.

Enrollments by grades at the two schools on Tuesday, September first, were as follows, with last year's opening enrollments shown in parentheses:

Aubbeenaubee School: Kindergarten, 19 (0); Grade One, 14 (24); Grade Two, 22 (11); Grade Three, 10 (22); Grade Four, 21 (17); Grade Five, 18 (17); Grade Six, 18 (24); Grade Seven, 27 (24); Grade Eight, 22 (16); Grade Nine, 15 (20); Grade Ten, 19 (23); Grade Eleven, 24 (13); Grade Twelve, 12 (18); Total, 244 (229).

Culver School: Kindergarten, 66 (62); Grade One, 72 (86); Grade Two, 86 (87); Grade Three, 87 (90); Grade Four, 87 (78); Grade Five, 80 (100); Grade Six, 102 (73); Grade Seven, 76 (87); Grade Eight, 84 (78); Grade Nine, 80 (64); Grade Ten, 63 (74); Grade Eleven, 75 (73); Grade Twelve, 71 (56); Total, 1029 (1008).

With the added Kindergarten program at Aubbeenaubee, the total enrollment for the corporation for Kindergarten through Grade 12 stands at 1273 as compared with last year's 1237. While the enrollment in Grades 9-12 at Culver increased by a total of 21 pupils, the total of 514 for Grades 1-6 remained exactly the same as it was a year ago for Culver Elementary School. The Culver enrollment for Grades 7-8 decreased by five, while Aubbeenaubee's enrollment for the two grades increased by nine.

The total high school enrollment for Grades 9-12 for the two schools this year stands at present at 362, an increase of 21 over the enrollment of 341 a year ago. The total for the two schools for Grades 1-6 has dropped from 629 to 617, while the combined total for Grades 7-8 is now 209. The total Kindergarten enrollment for the two schools is now 85.

HOSPITAL NOTES

Mrs. Gertrude Behmer returned Sunday to her home at 922 Lake Shore Drive, Culver, after being a patient at Parkview Hospital in Plymouth since Wednesday, Aug. 19, for observation and treatment.

Miss Esther O'Callaghan was dismissed Saturday from Parkview Hospital where she had been a patient since Monday, Aug. 24. She is reported recuperating satisfactorily at her home at 921 Baker St., Culver.

Diseased Raccoons Found In Culver

Chief of Police Don Mikesell issued this warning to the public this week in regard to diseased wild raccoons which have been coming into the city limits of Culver. The animals act sluggish and don't seem to be afraid of humans, which gives the idea to people and children especially that they are pets that have escaped from their owners.

Some of the animals have been destroyed and sent in to state authorities for examination. The reports state that in both cases the animals were diseased with hepatitis and distemper, two very contagious and serious diseases. So far none has been found with rabies, but if some child or person is bitten by one of these diseased animals and gets away, it means that every precaution must be taken with the person bitten. This means rabies shots, which is a very severe treatment.

Whenever one of these animals is seen call Chief Mikesell in order that it might be destroyed before it causes serious damage. Take steps to see that your children heed this warning.

Bass Lake Property Owners Start Drive To Raise Pump Funds

Bass Lake Property Owners Association has started a fund raising campaign called "Pump Project," to buy a pump and install it in order to stabilize the water level of Bass Lake. For the past few months the water in the lake has dropped over 36 inches, leaving piers, cottages and boats high and dry on land. Bass Lake does not have any streams or creeks running into it, but depends on surface water to keep the lake level up. The association in contacting engineers and well drilling firms are assuming the only way to bring the water level up would be by a deep well pump.

The project will cost approximately \$15,000. The association is asking donations of \$25.00 each from all Bass Lake property owners and others who are interested in the project. At present, approximately \$7,500 has been raised.

The officers and directors of the property owners association are as follows: Michael Sharkozy, president; Howard Langlois, vice-president; Paul D. Sharp, treasurer; Charles H. Moore, secretary; G. McCormack, fire chief; Mr. Kallis and Mr. Bemenderfer, trustees; Directors are Ralph Moreland, Ken Nordstrom, Joe Rannels. Chairman of the fund raising committee is Jack Gray with J. B. Witttrup, co-chairman. Mr. Witttrup states that anyone wishing to donate to the project from the Culver area should get in touch with any of the above officers.

Thanks, Hubert

The vice-presidential nominee of the Democratic Party at the Democrat Convention delivered a wonderful tribute to the judgment of the Republican presidential nominee, Senator Barry Goldwater.

Senator Hubert Humphrey of Minnesota did not intend to praise Goldwater. But he certainly did. And he did it most effectively.

Humphrey went through a list of measures on which Goldwater cast "No" votes. His purpose was to show that Goldwater stood opposed to most of both Democrats and Republicans in the Senate on those measures. This is a very good and pertinent point. Let's now go down through the major items on Humphrey's list once more, omitting some less important ones for the sake of brevity. In doing so, we'll add a few clarifying comments of our own about the measures.

First on Humphrey's list was the nuclear test ban treaty. This treaty, which lacks inspection safeguards, puts a hamstring on United States nuclear weapons development, particularly in gathering new knowledge about the effects of high altitude explosions on electronic devices. This knowledge, which the Soviet Union is presumed to have obtained in its last series of tests, is vital to anti-missile defense. As Humphrey said, most Democrats and most Republicans in the Senate voted for this dangerous treaty, but not Goldwater!

Congress voted an \$11.5 billion tax cut, despite the fact that Federal expenditures were rising and the budget has been and remains badly out of balance. As Humphrey said, most Democrats and most Republicans voted for this unsound tax cut, but not Goldwater!

The Civil Rights Act was passed by Congress under heavy administration pressure, despite grave questions raised about the constitutionality of two of its major sections and despite serious doubts that it would effectively relieve the racial hostility and violence at which it is aimed. As Humphrey pointed out, most Democrats and most Republicans in the Senate voted for this highly controversial and questionable bill, but not Goldwater!

Most Democrats and most Republicans in the Senate voted for establishment of the U.S. Arms Control and Disarmament Agency, which contains the seeds of unilateral disarmament of America. But, as Humphrey said, not Goldwater!

Congress voted to pour more U.S. taxpayers' funds into the United Nations when it was in financial trouble largely because of its disastrous "peace-keeping" adventure in the Congo. The essential effect of this additional U.S. money was to help the U.N. gloss over its financial difficulties and postpone a showdown with the large group of nations which refuse to pay their share. As Humphrey noted, most Democrats and most Republicans in the Senate voted for this ill-advised measure, but not Goldwater!

The nation is indebted to Humphrey for pointing so clearly and dramatically to these proofs of the fact that the Republican presidential nominee is a man of principle who refuses to be stampeded onto the bandwagon for proposals of emotional popularity, a man who has the courage to stand by his convictions and the sound judgment to deal with the fundamentals of national issues. We hope lots of people were listening. — Indianapolis Star

To Our Nurses At Parkview Hospital
We're just a couple of Cardiacs
Whose tubes and casings blew
The stethoscope and cardiograms
Consigned our fate to you.
We growl and gripe about the tests
The pills and sleeping potion
And being waked at twelve and four
To suit some zany notion
The diet doesn't suit our tastes.
There's wrinkles in our bed
We want to read or take a nap
But get a shot instead.
But just the same, we think you're swell
And really do love you
We want to say you're all sweet-hearts
In room one hundred one and two

Author, Don Trone
Editor's Note: The above poem was written by Don Trone as a tribute to the nurses of Parkview Hospital, where he was confined for three weeks recently. The "we" alludes to Carl Duning, who shared the room with Mr. Trone. Both were heart patients at the hospital. We are happy to report both are doing very well. Mr. and Mrs. Duning are summer residents of Culver and are from Cincinnati, Ohio.

It is most important that all drivers know their traffic signs, says the Chicago Motor Club. Good drivers should know what a traffic sign says even before they are close enough to read the lettering. You should be able to recognize the sign's meaning by its standard shape. For instance a stop sign is octagon-shaped; a yield-right-of-way sign is triangular; a hill warning is diamond-shaped; and a railroad crossing warning is round.

TWO CMA FACULTY MEMBERS PARTICIPATE IN RESEARCH AT RENSSELAER INSTITUTE

Frederick D. Lane and Donald L. Troyer, science teachers at Culver Military Academy, have spent much of this summer participating in research at Rensselaer Polytechnic Institute, Troy, N.Y., under a program sponsored by the National Science Foundation.

Both residents of Culver, they were two of 15 high school science teachers selected for the Research Participation Program for Teacher Training in Science. The program began July 6 and continued through Aug. 28.

The program, held at Rensselaer since 1960, provides practical experience in modern research techniques and uses of instruments, by working with experienced research personnel at Rensselaer.

While at the Institute, Lane has been working with Dr. R. L. Strong in the study of flash characteristic of high intensity flash lamps. Troyer has been working with Dr. W. H. Johnson in the study of muscle activity using the common mussel.

They also participated in an introduction to current fundamental research in several fields of science through a series of graduate seminars conducted by Rensselaer.

Huge Carp Caught On Spinning Tackle

We are not sure of the method or tactics used to bring in a record carp from his habitat in Lake Maxinkuckee, but on Saturday, Aug. 29, Emory Kinney, Pennsylvania station agent in Culver, landed a 28-pound carp with a 10-pound test spinning line. The carp measured 38 inches long and was hooked from the Kinney pier, located on the west edge of the Culver Towa Park, using a pork rind behind a spinner. It took about 20 minutes to land the big fish.

Marshall County Tax Rate Set At \$1.239

The 1965 tax rate for Marshall County of \$1.239 for each \$100 of assessed valuation is an increase of 20.9 cents over this year's rate of \$1.03, as announced by Glendyn Albright, county auditor. The \$1.239 rate is expected to raise \$925,760.51.

The \$1.239 levy consists of a general fund levy of 60.7 cents to raise \$455,521.72; a hospital bond levy of 6.9 cents to raise \$51,350.23; a welfare fund levy of 12.4 cents to raise \$92,282; a county wide school tax levy of 22.3 cents to raise \$165,958; a hospital operating fund levy of 7.2 cents to raise \$53,582.85; a health department levy tax of 4.4 cents to raise \$32,745.08; and a cumulative bridge fund levy of 10 cents to raise \$74,420.63.

Poor relief rates, which are set by the auditor's office, are as follows: Bourbon Twp., 3.2 cents; Center Twp., 2.1 cents; Poik Twp., 2.9 cents; Walnut Twp., 5.5 cents; and West Twp., 4 cents. The townships of Green, German, North, Tippecanoe, and Union will have no poor relief rate next year.

You Know A BOY?

Between the innocence of babyhood and the dignity of manhood we find a delightful creature called a boy. Boys come in assorted sizes, weights and colors, but all boys have the same creed: To enjoy every second of every day and to protest with noise (their only weapon) when their last minute is finished and the adult males pack them off to bed at night.

Boys are found everywhere — on top of, underneath, inside of, climbing on, swinging from, running around, or jumping to. Mothers love them, little girls hate them, older sisters and brothers tolerate them, adults ignore them, and heaven protects them. A boy is Truth with dirt on its face, Beauty with a cut on its finger, Wisdom with bubble gum in its hair, and Hope of the future with a frog in its pocket.

When you are busy, a boy is an inconsiderate, bothersome, intruding jangle of noise. When you want him to make a good impression, his brain turns to jelly or else he becomes a savage, sadistic, jungle creature bent on destroying the world and himself with it.

A boy is a composite — he has the appetite of a horse, the digestion of a sword swallower, the energy of a pocket-size atomic bomb, the curiosity of a cat, the lungs of a dictator, the imagination of a Paul Bunyan, the shyness of a violet, the audacity of a steel trap, the enthusiasm of a firecracker, and when he makes something he has five thumbs on each hand.

He likes ice cream, knives, saws, Christmas, comic books, the boy across the street, woods, water (in its natural habitat), large animals, Dad, trains, Saturday mornings, and fire engines.

He is not much for Sunday School, company, school, books

without purses, music lessons, neckties, barbers, girls, overcoats, adults or bedtime.

Nobody else is so early to rise or so late to supper. Nobody else gets so much fun out of trees, dogs, and breezes. Nobody else can cram into one pocket a rusty knife, a half-eaten apple, three feet of string, an empty Bull Durham sack, two gumdrops, six cents, a sling shot, a chunk of unknown substance, and a genuine supersonic code ring with a secret compartment.

A boy is a magical creature — you can lock him out of your workshop, but you can't lock him out of your heart. You can get him out of your study, but you can't get him out of your mind. Might as well give up — he is your captor, your jailer, your boss, and your master — a freckled-face, pintsize, cat-chasing, bundle of noise. But when you come home at night with only shattered pieces of your hopes and dreams he can mend them like new with the two magic words — "Hi, Dad!" — By Allen Beck — Cast Iron Pipe News.

1965 WHEAT PROGRAM CONDITIONS ANNOUNCED

According to word we have received from the Marshall County Agricultural Stabilization and Conservation Committee, the Voluntary Wheat Program for the 1965 crop will operate generally about the same as the 1964-crop Program. Details of the Program have just recently been announced. While some program provisions have been modified for 1965, participating farmers will get about the same returns as from the 1964 Program. Some farmers using the new Program options can get greater returns.

Program benefits include a price-support loan of \$1.25 nationally, marketing certificates valued at 75 cents for the farm's domestic-use allocation and at 30 cents for the export wheat, and diversion payments amounting to half the county price-support rate on the normal production of the qualifying acres diverted to an approved conserving use.

Growers can get more detailed information about the program's provisions, including some new ones, from the County Office. The Program Sign-Up extends from August 24th to October 2, 1964.

The Chicago Motor Club reminds you that good visibility is essential to safe driving. Never drive even short distances if the windshield and windows of your car are not free of insects, road film, and other dirt accumulations. Remember, you have to see danger in order to avoid it.

Lloyd W. Holifield Jr., son of Mr. and Mrs. Lloyd W. Holifield, 197 North Terrace, Culver, is among 196 upperclassmen chosen to help guide Indiana University's incoming freshman class through Orientation Week Sept. 13-19.

The program, sponsored by the campus Y.M.C.A. and Y.W.C.A., utilizes "Y" members selected on the basis of interest, academic achievement, leadership ability, and personality.

Each student leader is assigned to a group of from 25 to 30 freshmen.

Changes Made In Controlled 1964 Deer Hunts

Two changes in the regulations to hunt on Camp Atterbury, Crane U. S. Naval Ammunition Depot and Jefferson Proving Ground will take place this year

according to word received from the Division of Fish and Game, Indiana Department of Conservation. It will be necessary for all applicants to first purchase their deer hunting license. All successful applicants will then be required to purchase a special permit which will authorize them to take a second deer. The license and permit will each cost \$5.50 It is hoped to have the deer licenses on sale shortly after Sept. 1.

The reason for these changes is an attempt to reduce the number of hunters who are drawn but do not appear for the hunt and to improve the quality of hunters who will apply. One of the purposes of the hunt is to reduce the herd size on the installations. Although our deer are generally in good condition, we are noting a reduction in the growth of individual animals in the areas of the military installations, which indicates that the herd is too large for the available food.

SEPTEMBER 3, 1914 —

Anthony J. Knapp died suddenly at his home; the Arlington Hotel, Friday morning just before noon. Services were held Sunday and burial was made in South Bend. Captain Knapp came here about 25 years ago and built the Arlington which burned a few years later. It was rebuilt on a much larger scale and, until about two years ago when it was closed as a public house, was a favorite summer resort.

Jesse Crabb, having sold his Ford to a man near Tyner, went to Chicago Monday with S. C. Shilling and bought a new one. The agency there is sending out 100 cars a day and cannot supply the demand. It took some strong talk to get one for Crabb. There were seven men in from North Dakota, each a buyer for a machine. They were able to get but one, and all rode back to North Dakota in that.

Joe Bergman has purchased the David Swigart residence for \$1,100.

Ed Bradley and J. W. Riggins caught 13 black bass and three red-eyes Monday in about two hours on the East Side of the Lake.

23d Psalm Up-To-Date

The Ford is my auto; I shall not want. It maketh me lie under it in the green pastures; it leadeth me into much trouble; it draweth on my purse. I go into the paths of debt for its sake. Yea, though I understand my Ford perfectly, I fear much evil, for the radius, rod, or the axle might break. It has a blow-out in the presence of my enemies. I anoint my tire with patches; the radiator boileth over. Surely this thing will not follow me all the days of my life, or I will dwell in

the house of poverty forever. Moral — Equip the Ford with a cuckoo clock. When the thing reaches 20 miles an hour the bird will come out and sing, "Nearer My God To Thee."

States and stages of human progress will be explored in the Bible Lesson on "Man" at all Christian Science churches this Sunday.

Bible selections will include the following from Romans (ch. 12): "Be not conformed to this world; but be ye transformed by the renewing of your mind, that ye may prove what is that

good, and acceptable, and perfect, will of God."
Readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include these lines (p. 296) "Progress is born of experience. It is the ripening of mortal matter through which the mortal dropped for the immortal. Either here or hereafter, suffering Science must destroy all illusions regarding life and mind, and generate material sense and the old man with his deeds must be put off."

Wake 'em up Gabriel!

There isn't much music coming out of that horn. But one thing's certain; this little fellow is making plenty of noise.

If it happens to be Sunday morning, when the family sleeps late, this sturdy musician isn't going to receive much praise. His lungs are strong, though, and he's going to sit there and toot that trumpet until Mom or Dad takes it away from him.

All of his playmates are at Sunday School, so you really can't blame him for trying to while away the idle hours. Unfortunately, his parents haven't got the Church-going habit, so this boy will probably grow up like them and sleep away the hours in which he could be getting spiritual nourishment.

You've got the right idea, Gabriel. Wake them up to their responsibility!

THE CHURCH FOR ALL • ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Motorboat Violations Fill Court Docket

Violations of the Indiana Motorboat Laws dominated the court action of Justice of Peace Michael Pitterling's Justice of Peace court the last few weeks. The arresting officer in the motorboat violations was Conservation Officer Julian G. Keiser.

Robert B. McConnell, Indianapolis, charged with violating Sec. 33 of Indiana Motorboat laws, which makes it a violation to ride on the bow deck of a moving motorboat. Total cost of fine and court costs, \$17.00.

Don F. Spencer, Columbus, Ind. charged with fishing without a license. Court costs \$16.00, \$5.00 conservation fee and fine \$10.00 totaling \$31.00.

Richard Kriner, Culver, charged with not having sufficient life jackets or cushions in boat. Fine and court costs totaling \$17.00.

Joel Leach, Markham, Ill. charged with riding on bow decking of motorboat. Fine and court costs totaling \$17.00.

AG'IN IT — A report that a round, flat hot dog shaped to fit a circular bun is being served at the New York World's Fair has aroused the ire of an Indiana editor, Robert Cloyd Jr., editor of The Lafayette Leader, is opposed to the innovation. Says Cloyd: "The hot dog has long been one of the most convenient sandwiches ever put together. It can be eaten from either end with ease. The hot dog is the only sandwich identifiable in total darkness without your first having taken a bite. There are strong suspicions that hot dogs are the only thing holding together what's left of major league baseball."

SAFETY EDUCATION URGED AS CHILDREN RETURN TO SCHOOL

Indianapolis, Ind. — As some 46 million American children return to school, the Indiana trucking industry, as part of its continuing safety program, is placing emphasis during September on the problem of child safety.

In remarks directed to parents of school age children an industry official said here today the drive against the appalling number of traffic casualties among children must be headed by intensive safety education and training in the home.

J. E. Nichols, general manager of the Indiana Motor Truck Association, said, "In 1962 traffic accidents killed 5,100 children under 15 and injured 230,000 more. This is a shameful waste of children's lives."

He pointed out that schools are making a big contribution to child safety, but the program must be carried further. He said it is up to every parent to apply discipline in the home.

"Parents have the prime responsibility for their children's safety in traffic. Long before a child reaches school age he has been out in traffic with his par-

ents and the kind of safety training they have given him will greatly affect his traffic attitude," the trucking official warned.

In conclusion, he urged parents to teach their children to play in safe places and to cooperate fully with police and school officials by obeying safety rules.

Motorists should be extra careful during the first few weeks of the new school year, cautions the Chicago Motor Club. Many youngsters will be making their first venture into school life and may let the excitement cause them to forget their safety habits. Drive slowly in school zones and give the youngsters a chance to grow up and learn.

Baseball Indians Tie With Aubbee In Opening Game

By EARL MISHLER

Culver's baseball Indians opened their fall season last Thursday evening by battling Aubbee's Braves to a 0-0 tie in a rain-shortened contest on the local diamond. The game was called in the top of the sixth.

Culver's Paul Liette and Aubbee's Terry Engle both allowed only two singles. Liette fanned six and walked one, while Engle struck out four and passed one.

The Tribe twice sent a runner as far as third but, continuing their dismal batting slump, they failed to push one across.

Andy and Stu Lowry got Culver's hits, while Liette was touched for singles by Carr and Lancaster.

The remaining pre-County schedule is as yet embryonic, as Coach Gene Crosley has been forced to search far and wide for games. Schools turning to soccer and football in the fall are making competition scarce. Possible future opponents for the Tribe are Caston and Mentone, but no dates have been arranged as yet. Box score:

Yacht Club News

By PEG CLYNE

"All things come to him who waits" — and the enduring MYC skippers finally got the perfect weekend for sailing. Both Saturday and Sunday found the sailors meeting the challenge of a beautifully constant breeze under a bright sun in a clear blue sky.

The Beckers and Jerome Zechel battled for first place in Saturday's race, with the Beckers coming across the line first.

Rope burns and bruises were forgotten as the MYC members gathered at the Suverkrups for

a delightful cocktail party. The refreshments and the company were so good that many guests lingered on the patio and the velvety lawn long after the red sun disappeared.

Sunday was the Bliss Trophy race and the last regatta race of the year. Mrs. Bliss was on the Judge's boat and saw the closest race of the season from the very best vantage point. Joyce Speer got off to a beautiful start and kept the lead until the last buoy was rounded. Jerome Zechel maneuvered into first place, but there were a number of boats right at the stern of T-21 as it heeled all the way to the finish line. Bob Hollowell in T-9 was

second. Eleven boats crossed the Skylark race. Julie Hollowell finish line in the first seven minutes. Eighteen boats finished the race.

The official wind-up of the 1964 season will be held at the Yacht Club dinner at The Culver Inn next Saturday at 6:30 p.m. Members and their guests should make their reservations early.

JUNIOR FLEET NEWS

The brisk wind on Saturday morning made the Junior races a little more exciting than usual.

Charles Ray finished first in the Sailfish race, but his boat hit the buoy and he was disqualified. So Jeff Michels is officially first and Tom Kneisly came in second.

Fritz Muehlhausen sailed a good race and came in first in the

Skylark race. Julie Hollowell was second, Stevie Speer, third. Craig Suverkrup was fourth, but his boat hit the buoy and he was disqualified, so Joan Schilling got fourth place and Greg Schmoil was fifth.

There were many new skippers in the Junior Fleet this year. We will be looking forward to their races and activities in 1965 and know that this year's experiences will make next year's races even more fun.

COUNTY NOMENCLATURE
