Cole Resigns As Culver Principal To Become Superintendent At Butler

The Board of School Trustees of Culver Community Schools has accepted the resignation of Principal Kenneth Cole, who requested such action in order that he might accept a new position. Mr. Cole April 1 will become superintendent of DeKalb Eastern Community Schools at Butler, Indiana.

Mr. Cole came to Culver as high school principal in the summer

KENNETH COLE

of 1960 and is completing his sixth year of service in that position. He came to Culver from Williamsport, Indiana, where he had served as principal for three years. Prior to his administrative years, Mr. Cole had served as a teacher of English and Physical Education and as head coach at Williamsport.

A graduate of Attica High School, Mr. Cole completed four years of military service during the period of 1942 to 1946. He received his degree of Bachelor of Science from Ball State University and in 1957 completed his work toward the Master of Arts degree at Indiana State University. He has taken additional graduate work at Purdue University since coming to Culver.

Principal Cole, in accepting the position at Butler, becomes the chief school administrator in a school corporation with an enrollment in excess of 1800 pupils. The school corporation operates six school buildings and under Mr. Cole's leadership will start planning at once for a new building for Grades 7-12. The area has a number of industries and a continuously increasing school enrollment, thus presenting an excellent opportunity for a new school administrator.

Though Mr. Cole will be leaving his present position at the end of March, his family will continue to reside in Culver until after the close of the present school term. Mr. and Mrs. Cole have a daughter, Sue, who is a freshman at Purdue University, and a son, Stephen, an eighth grade pupil at Culver.

Accepting Mr. Cole's resignation despite reluctance to lose his services in the local schools, the School Board recognized the opportunity for advancement for Mr. Cole in his new position. Efforts have been started to seek a successor for him at Culver. For the remainder of the present school term, adjustments will be made in the schedules of qualified personnel in order to handle the administrative duties at Culver High School.

FEDERAL TAX

Q — I changed jobs last year and now find myself driving about 30 miles a day to get back and forth to work. Can I deduct 10¢ a mile for this driving?

A — No. Commuting to and from work is a personal expense and not deductible.

Evolution Of Jazz To Be Presented At CMA Theater

Chuck Speas and the American Jazz Septet will present the "Evolution of Jazz" in two Culver Military Academy Concert-Theater Series performances on Tuesday, March 8.

The program in which the authentic sounds of jazz development will be recreated will be given in the Eugene C. Eppley Auditorium here. A 1 p.m. matinee is for 1,600 Marshall County public school children participating in Culver's Program for Education in the Performing Arts. An 8:15 p.m. performance is for the Academy's student body, faculty, and subscribers to the series.

Speas and his musicians will provide the essential historical background as part of his efforts to improve the image of jazz, which is regarded as America's major contribution to the musical arts. The program will cover jazz development from Dixieland to modern jazz.

As a well known drummer, Speas has worked with bandleaders Les Elgart, Ray McKinley, and Ralph Flanagan. In 1955, when he was only 19, he was percussionist with the Radio City Music Hall Orchestra under the direction of Raymond Paige. Last year he was featured soloist and percussionist with Paul Lavalle and the Band of America at the New York World's Fair.

Speas has recorded with the New York Philharmonic and the First Percussion Sextet and he presently holds the position of percussionist instructor at Teachers College, Columbia University. He is a graduate of Juilliard School of Music.

Fisherman — An Enigma

By George D. Knight

Of all strange things since the world began
The strangest thing is a fisherman;
Doesn't seem to care for another dish
All he wants to do is fish.
When the sun goes down and the wild winds beat
He'll stand all night on his frozen feet
And never know how his wet shoes squish,
If they will only let him fish.
He'll leave his wife or his children dear,
Or he'll drag the whole darned bunch out here
And dote and exclaim with keen relish
The joy of catching a slimey fish.

Miss Jane Ditmire Weds James Hartle In Sunday Ceremony

The altar of the Mount Hope Methodist Church formed the setting for the three o'clock Sunday afternoon wedding on Feb. 27 which united in marriage Miss Jane Ditmire and James Hartle.

Parents of the bridal couple are Mrs. Mildred Ditmire, 425 South Main Street, Culver, and the late Mr. Ditmire, and Charles Hartle, Route 1, Culver, and the late Mrs. Hartle.

Rev. Leon Stark, pastor of the church, officiated at the double-ring ceremony in the presence of the immediate families. Nuptial music was offered by Paul White.

For her wedding, the bride wore a navy blue dress with white hat and red accessories and a corsage of red carnations with white roses.

Mrs. Alvin Triplet of Culver, twin sister of the bride, was matron of honor and wore a black and white tweed suit with matching accessories. She wore a corsage of red and white carnations.

Richard Hartle, brother of the bridegroom, served as best man. Norman Ditmire, brother of the bride, ushered.

For her daughter's wedding, Mrs. Ditmire selected a red knit suit with black accessories and her corsage was fashioned of red and white carnations.

Approximately 80 guests attended the reception held immediately following the ceremony at the M & M Restaurant in Culver. The bride's colors of pink and white were carried out in the decorations.

After a wedding trip through the southern states, the newlyweds will be at home at 403 East Washington Street, Culver.

Guests attending the wedding were from South Bend, Letters Ford, Rochester, Lafayette, Warsaw, Elkhart, Culver, and the state of Michigan.

The new Mrs. Hartle is a 1960 graduate of Culver High School and is employed at the M & M Restaurant.

The bridegroom attended Aubeaubee High School, served three years in the U. S. Marines, and is employed at Moriarty Lumber Company, Argos.

SESQUICENTENNIAL SCRAPBOOK

By J. M. Guthrie
ASSISTANT DIRECTOR
Indiana Sesquicentennial Commission

"Take U. S. 40 And —"

go back about 120 years. What a change!!

"From morning until night there was a continual rumble of wheels, and, when the rush was the greatest, there was never a minute that wagons were not in sight, and as a rule one company of wagons was closely followed by another. . . .

"Many families occupied two or more of the big road wagons then in use, with household goods and their implements, while extra horses, colts, cattle, sheep and sometimes hogs were led or driven behind.

"Thus, when five or ten families were moving in company the procession of wagons, men, women, children and stock was quite lengthy and imposing.

"Now and then there would be an old-fashioned carriage set upon high wheels to go safely over the stumps and through streams. The older women and little children occupied these, and went bobbing up and down on the great leather springs which were then the fashion . . .

"With the tinkling of the bells, the rumbling of the wheels, the noise of the animals and the chatter of the people as they went forever forward, the little boy who had gone to the road from his lonesome home in the woods was captivated.

"But the greatest wonder and delight of all was the stagecoach, radiant in new paint and drawn by its four matched horses in their showy harness, and filled inside and on top with well-dressed people. I think yet that there has never been a more handsome turnout than one of those fine old stagecoaches drawn by a splendid team of matched horses. And driven by such drivers as used to handle the ribbons between Richmond and Indianapolis. Wo could hear the driver playing his bugle as he approached the little town, and it all seemed too grand and fine to be other than a dream."

Thus wrote Benjamin S. Parker, who as a little boy witnessed this fantastic emigration that went to and through Indiana as people toiled westward on the old National Road to find new homes in western America.

There was a time when the National Road was called the "Appian Way" of Indiana, as indeed it was. It was and is the great overland artery leading to the west.

"Speeds" in those days were 20 to 40 miles a day, depending on weather and road conditions. The vehicles which travelled the route varied in character about as much as today. They ranged from magnificent stage coaches down to push carts and wheelbarrows as the great tide of humanity swept westward to find new lands and settle. And there were many who simply walked the route, carrying everything they owned on their backs.

For some time after the road was started, there was little improvement beyond bridging larger streams and the cutting of a right-of-way. Stumps and roots, mud-holes and ruts were the order and wagons sank axle-deep in clay which clung to wheels and defied man and beast to pull on.

In spots there was corduroy where the road crossed swamps and there, wagons and carriages went bumping along in a bone-

breaking manner—.

In the fifties plank roads were introduced and were the wonder of the times and the delight of the traveling public but they existed only on parts of the National Road and soon rotted and proved useless. Gravel roads of later days came only after other attempts and ideas to improve conditions had failed.

The beginning of construction of the National Road in Indiana could well be 1827, when the first survey began. Surveyors' field notes stated,

"June 13, 1827. Commenced for the continuation of the location of the Cumberland Road at a stake 2'8" high on the line dividing the states of Ohio and Indiana, 1 chain and 5 links from a notched beech and 1 chain and 9 links from a notched poplar—"

First appropriation for opening the road in Indiana was made in 1829 and work started. Timber was cut for a width of 80 feet and stumps remaining in the center 30 feet were "rounded off" not to exceed 15" height. By 1834 the road extended across the state and most of the stumps had been grubbed. It became a busy thoroughfare and soon blacksmiths, wagon shops and taverns began to appear. Then followed general stores and post offices and many more.

In 1848 the federal government a prosperous town had its begun-work on the National Road and turned it over to the state. Indiana would have no part of it. Control went everywhere. The Central Plank Road Company took over in Hancock, Marion, Hendricks and Putnam Counties and operators put in toll gates and oak plank roadways.

In Wayne County it operated as a toll road for 40 years, controlled by the Wayne County Turnpike Company. A private company operated the route in Henry County for many years.

Next time you travel U. S. 40 think about the history this old road has witnessed!

Films Available At Culver Library During March

ADVENTURES OF A BABY FOX -14-b&w- A trip through the woods following the antics of a baby fox as he hunts for food and finds insect, flower, and bird life along the way. Accompanied by narration in verse and original music score. A refreshing film that will be enjoyed by children and adults alike because of the fine photography and originality. (Encyclopaedia Britannica)

THE AGE OF TURMOIL -20-b&w- This film presents incisive and amusing sketches of six teenage boys and girls, their problems, etc. (McGraw-Hill)

APPALACHIAN SPRING -21-c- The only full-length Martha Graham ballet on film. A folk tale set in the wilderness at the pioneer period of American history. Aaron Copland's music was the Pulitzer Prize winner in music in 1945. (Rembrandt)

ART IN THE WESTERN WORLD -30-c- Treasures from the National Gallery of Art in Washington are used to present the development of Western art, starting with the 13th century.

Includes the development of art in the United States. (Encyclopaedia Britannica)

AUTOMATION -84-b&w- Explores the many problems connected with the revolutionary development of automation, and shows automation at work in dozens of industries, ranging from aviation to baking. (McGraw-Hill)

BACKGROUND OF THE CIVIL WAR -20-c- Analyzes the differences between the North and the South which contributed to the Civil War. Discusses the election of Lincoln, the secession of the Southern States, and the attack on Fort Sumter. (Film Associates of California)

BEGINNINGS -30-b&w-s- Ralph Ulveling, Director of the Detroit Public Library and World Book contributor, was interviewed by Don Feddersen, formerly of Northwestern University, on the subject of libraries and librarianship. Valuable for recruiting or career programs. (Loaned by Extension Division, I.S.L.)

CAST IRON -25-c-s- The structure and properties of cast iron and the methods used to produce this versatile metal in varying forms to meet the exacting needs of modern civilization, are depicted. (Loaned by U. C. Bureau of Mines)

CHICAGO-MIDLAND METROPOLIS -22-c- Until recently the physical and social structure of the city consisted of a concentrated commercial district — "The Loop," ringed by an industrial and slum belt. Today this structure is undergoing sweeping changes as the population is moving out to the fast-growing suburbs along with much industry and retail trade. (Encyclopaedia Britannica)

FACE OF THE SOUTH -29-c- Describes the different histories of the four Souths: the mountain area, the Piedmont, the Piney Woods, and the Plantation South. Describes the different problems of the different peoples of the South. (Natl. Council of Churches)

LITTLE DIOMEDE -16-c- This film shows how the Eskimo dwellers on Little Diomed, now separated by Soviet Russia's "Iron Curtain" from Big Diomed, carry on in their struggle for existence. Although they now have firearms, outboard motors and other modern implements, their activities are almost the same today as they were centuries ago. (Northern Films)

MAGIC HIGHWAY, U.S.A. -29-c- The story of the American road from the early days of dirt roads to the present day freeways, projecting what the future has to offer for the solution of today's traffic problems. (Walt Disney)

MARK TWAIN GIVES AN INTERVIEW -13 1/2-b&w- Hal Holbrook's classic impersonation of Mark Twain is recreated in this interview with the author of some of the most beloved and widely-read works in American literature. (Coronet)

NOVA SCOTIA BYWAYS -13-c-s- Brings a colorful sampling of the surprises awaiting the tourist of the by-ways — the Festival of Arts of Tatamogouche, an exhibition of riding, a haunted house,

prehistoric imprints along the seashore. (Loaned by CTFL)

SOVIET CHALLENGE -26-b&w- A documentary film report on two important phases of the industrial revolution in Russia from 1918 to date: the rapid development of heavy industry and the continuing struggle to develop and collectivize the nation's farmland. Considers the effects of the Communist plan on all phases of Russian life and examines the nature of the Soviet challenge to the free world. (Encyclopaedia Britannica)

SPACE SCIENTIST -11-b&w- Today's pioneers are preparing to explore outer space. Sigfried Hansen, research director of a major electronics corporation, is introduced as one of the pioneers. The scientist leaves his desk to give us a personal demonstration of new equipment which reproduces within the laboratory some of the conditions of outer space. We see actual experiments being performed in a high vacuum chamber, illustrating basic principles of physics. (Neubacher Productions)

TRANS-CANADA JOURNEY -29-c-s- On this journey you see Canada — the quiet charm of P. E. Island, the songs and dances of the Maritimes, Montreal's skyscrapers, the Canadian National Exhibition, Niagara, the Rockies, Vancouver. (Loaned by CTFL)

VILLAGE OF SPAIN -21-c- A social document of a Spanish village and the life of a family liv-

ing in it today. Gives a warm, intimate picture of a town's culture, family life, religion, and education, and contrasts the urban life of a neighboring city. (Churchill)

WE SHARE THIS LAND -14-c- Illustrates importance of maintaining wildlife on privately owned land. Methods of improving habitat, and attracting and supporting wildlife. (U. S. D. A. Office of Information)

WEST AFRICA-NIGERIA -22-c- This film attempts to show that West African countries face the difficult problem of creating unity out of great diversity of tribal, religious and economic traditions. It tries to reveal what Nigerians are doing — and have done — to overcome this diversity, and to achieve national unity. (Encyclopaedia Britannica)

WOODROW WILSON (Print No. 2) -26-b&w- Describes Wilson's career from law practice in Georgia to the presidency and his advocacy of the League of Nations. (McGraw)

PUBLISHED WEEKLY BY THE PRESS CLUB OF CULVER HIGH SCHOOL

I know you're all in a hurry to hear the latest gossip, so I won't waste anytime with a fantastic introduction.

Boy! The electricity in Steve B.'s house sure is poor. Just could not keep the lights on at your party, could you Steve?

Say coach, I hear you had a hard time keeping the boys on the basketball floor Monday, while practicing at Knox for the sectional. Seems they had a bunch of Knox girls watching them.

Hey Andy, since when did you start writing notes to girls. One word of advice: Don't let Mr. Lawson see the next one unless you want it to be read in front of the class, too.

Randy, when are you ever going to learn how to ice skate? Oh — you say it was your first time on skates. (And him living right near a big, beautiful lake.)

If anyone wants to know how snow tastes, just ask Susie T. Seems she got quite a taste after being knocked down on the ice.

If anyone sees a senior girl running outside the band building third period, it's just Diane D. MF. Fouts gets mad and sends her outside when she gives the altos their pitch when she's not supposed to.

Guess what! Only 13 more days until the seniors leave on their trip. We got some inside information that they just can't wait to leave.

Next time we go to Knox for a ballgame, let's not leave so early. We had to wait outside in the cold for 20 minutes before they'd let us in last time.

Speaking of ballgames, the senior girls all had pretty white and orange mums for the sectional.

While we're on the subject of seniors, there are just 35 more days until they graduate.

We would like to take this opportunity to congratulate Hans Van Schnook on his best predicting percentage in the area. He had 80% of his basketball predictions correct.

For everyone's info, Phil E. is a three-timer.

Speaking of Phil, it seems he can't find anything to do in studyhall but count the number of holes in one piece of tile in the ceiling. How many did you say you arrived at?? Buy next week's Citizen and find out how many holes there are in all the tiles in the entire studyhall.

Hey Cindy L., why don't you watch where you're going; it

might prevent a lot of pain in the future. She says she tripped over a chair and dislocated her jaw. That doesn't seem possible. But I guess, since we all know Cindy, anything's possible when she's around.

Seems as though I have exhausted my informative source. See you all next week with the latest gossip.

Answers Vary On Allowance Poll

By Elaine Kaiser

This week we asked the following question of a few students out of the CHS student body: Do you think a student in high school should get an allowance? Here are some of the answers we received:

Pam Fish — Yes. When one reaches high school it will only be a few years until he will be out on his own, and have to budget his time and money for himself. I definitely think we should learn to do this in high school, so he won't have such a hard time later on in life.

Diane Davis — By all means. This is an excellent way for a student to learn to budget his money. I think he should have to work for it though.

Sheryl Fisher — Yes, if you earn it. It will teach you responsibility and how to budget your spending.

Norm Johnson — Yes and No. The student shouldn't always rely on his parents, especially if he or she is a junior or senior. Kids at this age should be ambitious enough to want to earn their own money. But if you play basketball or some other sport, it's hard to get a job through the week; and sometimes even Saturday's are filled. But parents understand this and they generally are very good about allowances. I don't actually believe that you can have one set allowance because everyone's needs are different. The amount should be according to what the parents feel their boy or girl's needs are. One week it might be high, but the next week there might not be anything going on. It would probably equal out. A student should not try and live off his parents. Sooner or later he will have to get a job. Why not start now?

Beth Routsen — Parents should either give their kids money, or else give them an allowance and make them budget their money. There are a lot of things we need money for, and if we learn to budget our money now, it will be easier when we get out of school. Of course, if you have a job you shouldn't need money from your parents.

Joan Kosterman — I think that parent should give teenagers a lenient allowance to cover all of their expenses per week.

Terry Gentry — I think unless you have a job, your parents should give you an allowance. But if you have a job and money,

there is no reason why they should.

Linda Stone — I think it depends on whether he works or not. I think the parents should give them enough to cover all their expenses for the week if he doesn't work.

Loretta Berger — Yes, for two reasons. First — it is extremely hard to have a job after school and on Saturdays and still keep your grades up. Everyone needs some spending money! Second — you need to learn how to spend your money. If you're given money anytime you want it (rather than by a set allowance) you won't learn what to buy and what not to buy.

Linda McAllister — Parents should give kids an allowance until they get a job. 'Cause kids need money!

George Jewell — It really depends a lot on the individual use. If the student has a job and makes his own money, he should not get an allowance, because everybody has to learn the real value of money. On the other hand, if a student can't get a job because he is too active in sports or other activities I feel he should be allowed an allowance or mon-

ey for clothes or to go to the show.

Marsha Guise — I think it depends on if he works or not. If a student has no income at all he'd have to have some way of getting money.

Paul Hatten — I don't think the parents should give their kids an allowance as such. I think the teenagers should work for their money and put the biggest share of that in the bank and only withdraw it when necessary. But for the smaller things, like when the kids are short of money and they want to go to a dance or movie or something of that sort, I think that the parents should give them the money they need. Of course there are exceptions to the above few sentences, but on the whole, I think the parents should give their kids money only when they need it for something useful or that will keep them out of trouble.

Gary Davis — I say no. These other students are right. We're old enough and should earn our own spending money. If we don't learn this now, we'll be in a heck of a financial mess when we're adults.

Paula LaPlace — No, because today's teenagers are lazy and they should work for what they want. Most kids can just get money from their parents any time they want it.

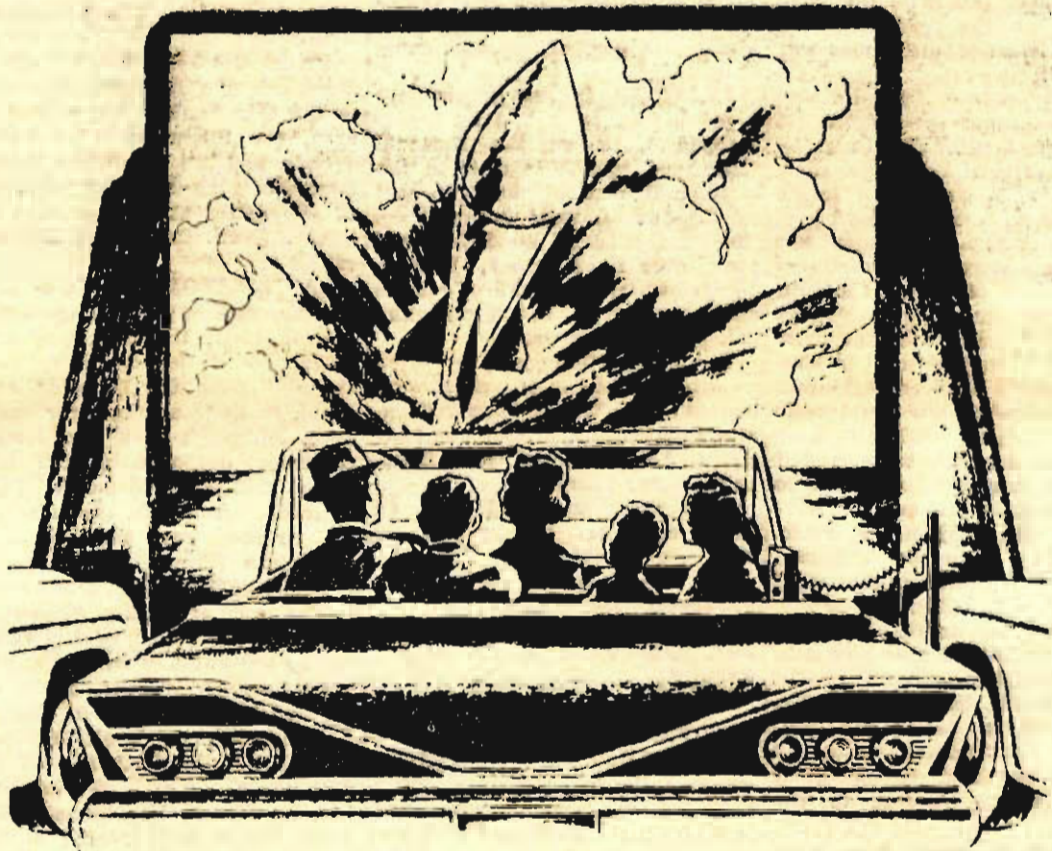

Marlene Morrison — I think it depends on the person. If the person has a job I don't think he should get an allowance. But I do think that if he runs short, his parents should give him some, so he won't have to take it out of the money he is trying to save, unless he makes a habit of running short. (That's a different story.) If the person doesn't have a job — yes, he should get an allowance.

"Missiles and Movies . . . thanks to free enterprise"

Whenever one of their satellites goes into orbit, Russian leaders brag about the strength of the Communist system.

But take a close look at the system, and you'll find it's lop-sided. It produces missiles, but its people can't afford good homes. Its satellites circle the earth, but the average Russian family has no automobile. The reason? All the resources of the country are directed at building a certain few products. Factories specialize in what the state tells them to . . . mostly products useful in war. There's little left over to fill the desires of the people.

Compare that with our free enterprise system. It produces missiles and satellites . . . and it leads the world in providing for its people. We

have modern highways throughout our country . . . not just in show-place cities. We have heavy emphasis on modern homes . . . and good things to go into them. We have thousands of different products whose purpose is a better life for all of us. That's real economic strength . . . and it hasn't been "planned" by government or anyone else! It "just happened" . . . because here, people are free to use their abilities. And they have an incentive to use them, too—the possibility of earning a profit.

Keep in mind the name of our system: "free enterprise." It's the key to our strength. Where people are free to be enterprising—and where there is an incentive for them to do so—that's where you'll find the most of the best.

JAYCEE RECOGNITION DAYS

The United States Jaycees — far flung organization of young business and professional men with active chapters in some 6,500 cities and towns — observe their anniversary this month.

Membership in the Jaycee chapters is restricted to young men between the ages of 21 and 35 and their activities are directed toward city and town improvement projects. Jaycee chapters in all parts of the country participate in sponsorship of local, state and national Junior Miss Contests. Girls from all over the country are selected to compete for the national title in the annual Junior Miss Pageant always held during the spring in Mobile, Alabama.

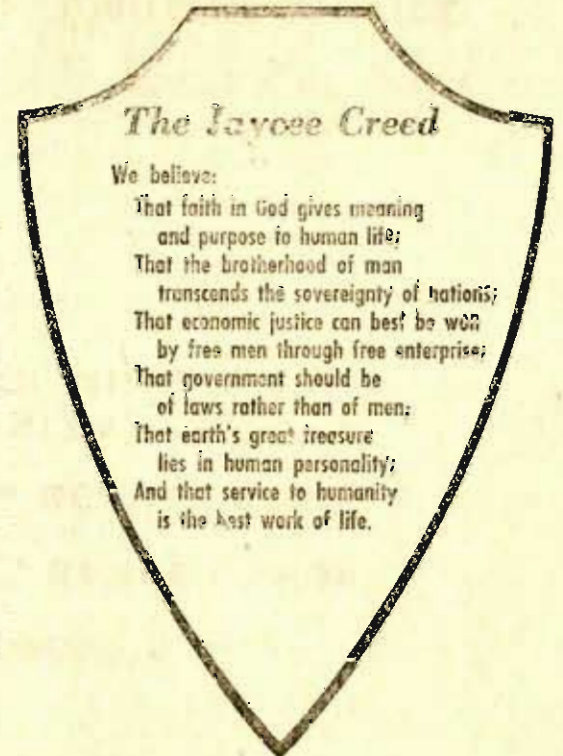

The United States Jaycees is the brand new

official name of the nationwide organization. "One can, of course, use the term 'United States Junior Chamber of Commerce' in an explanatory sense in connection with our organization," says Bill Goodwin, director of public relations and publications. Yet we have no affiliations with the United States Chamber of Commerce."

Our local Jaycees during the years, have contributed to the town of Culver with various projects. In the past year they conducted a Community Survey; Outdoor Christmas Decoration Contest; Christmas Party for Children; Twelfth Night Christmas Tree Burning; Beach Extension and Improvement; Petition for School Swimming Pool; Oral Polio Vaccine; Gifts for Mental Pa-

tients at Westville; Installed new sign for Marshall-Starke Development Center; Spray Unit for Art Department at State Prison; Helped send 3 Boy Scouts to National Jamboree; Sock Hop for Teens; Easter Egg Hunt; Helped with local Blood Bank; Sponsor Little League; Take Little League to Chicago for Ball Game; Purchased Sesquicentennial Flag for High School; Helped Sponsor Exchange Students; Promoted New Industry to Culver; Bosses' Night and Distinguished Service Award Banquet; Plus many other Jaycee functions not mentioned.

Any young man in the area wishing to join the local chapter can receive information from any of the members.

The Jaycee Creed

We believe:

- That faith in God gives meaning and purpose to human life;
- That the brotherhood of man transcends the sovereignty of nations;
- That economic justice can best be won by free men through free enterprise;
- That government should be of laws rather than of men;
- That earth's great treasure lies in human personality;
- And that service to humanity is the best work of life.

American Canoe Championship To Be Held At CMA

Athletes of the North American canoe and Kayak teams will head for Culver Military Academy after the world championships in East Berlin next August. The presence of top American canoeists at Culver next summer was assured Sunday when the American Canoe Association selected the Academy as the site of the North American championships Aug. 26-28. Meeting in New York, the association also selected Kalman Blaho, recently appointed to direct the canoeing program at Culver, as coach of the American teams.

Ray Dodge, of Niles, Mich., former commodore of the association, said after the meeting: "For the first time in history, the United States has a great canoe coach in Blaho. All of us feel that he will bring our country into a stronger position in canoeing and kayaking at the international level where it is regarded as a major sport."

The North American championships will bring to Culver the three top canoeists in seven different classifications from both the U.S. and Canada. In addition, Dodge said, it is hoped that Mexico will send a team to Culver. The North American competition on Lake Maxinkuckee will involve a flat water race course of 500 meters for women and 1,000 meters for men. Additionally, there may be a 10,000 meter race.

The North American championships here will follow immediately after the world championships in East Berlin. The Academy also will sponsor for the third straight year a 40-mile canoe race down the Tippecanoe River on April 16-17. The race will be under the direction of Academy history instructor William Garrison, who originated the race, and Blaho.

Selection of Culver as the site of the North American championships is part of a new program being developed here by Blaho in all phases of canoeing with special emphasis on flat-water racing.

THE MORTON DOWNS ANNOUNCE OPENING OF REAL ESTATE OFFICE

Mort and Helen Downs, formerly of Culver and Rochester, have recently opened their own Real Estate office at 208 E. Center St., Warsaw, and are again opening a Culver office with Mrs. Mary Belle Kemple, 212 W. Jefferson St., as their Culver sales representative. Mrs. Kemple, the former Mary Belle Osborn, is a native of Culver.

Mrs. Downs, state president of the Women's Council of the National Association of Real Estate Boards, recently attended the National Inaugural Real Estate Convention in Washington, D.C.

You can place a Card of Thanks in The Citizen for \$1.50.

Union Township Farm Bureau Meeting Held In Lions Den

The first meeting of 1966 was held in the Lions Den Saturday night by the Union Township Farm Bureau. It opened with a chili supper with approximately 45 people attending.

Mrs. Paul Ulrey had a Pet and Hobby class for the children.

Chairman Lawrence White opened the meeting with some remarks on reapportionment and announced there would be four meetings held by Union Township Farm Bureau in 1966.

Group singing was led by Mrs. Charles Clifton and thoughts on "The Promises of God" were given by Rev. Routson of Burr Oak.

Mrs. Rochelle Good and Mrs. Betty Reinhold sang a sacred song. They were accompanied by Mrs. Margaret Good who also played for Miss Andrea Siple who sang "How Great Thou Art." Miss Siple also played dinner music while the people were eating.

Features of the evening were talks by Miss Maria Cristina Alessi and Ruben Prauss, both of Buenos Aires, who told of Argentina. They showed slides and answered questions from the audience.

Because of time, reports from the women who had attended the Women's Conference in Indianapolis Feb. 20-22 were not given but will be given later. There also was not time to install the 1966 officers who are as follows: Chairman, Lawrence White; vice-chairman, Norman Ringer; woman's leader, Mrs. Ferris Zechiel; assistant woman's leader, Mrs. Wayne Kline; secretary-treasurer, Mrs. Homer Albert; Pet and Hobby leader, Mrs. Paul Ulrey; and song leader, Mrs. Charles Clifton.

The meeting was closed by Mrs. Zechiel who announced the next meeting will be on April 2 in the Lions Den. This will be the annual amateur contest. A supper of chic-

ken and noodles, rolls and coffee will be furnished by the Farm Bureau on that night with members bringing salads or desserts. Supper will be at 6:30 p.m. All members please try to attend and all friends are welcome to enjoy the evening with the Farm Bureau.

The absolute equality of all men in the sight of God is the theme of this week's Lesson-Sermon on the subject "Man," to be read in all Christian Science churches on Sunday. Bible references include Paul's interpretation of this fundamental spiritual premise: "For ye are all the children of God by faith in Christ Jesus . . . There is neither Jew nor Greek, there is neither bond nor free, there is neither male or female: for ye are all one in Christ Jesus" (Galatians).

Parallel references from the denomination's textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include this statement: "Through spiritual sense you can discern the heart of divinity, and thus begin to comprehend in Science the generic term man."

...and FORGIVENESS

Sin is a disagreeable word that millions shun. It casts a shadow of separation. It raises chill thoughts of an impenetrable and eternal barrier between humanity and God . . .

Forgiveness on the other hand is a warm and inspiring word. It promises that life's slate can be wiped clean. It brings us close to God — and to one another.

An Execution on a Friday centuries ago . . . an Empty Tomb in the dawn of the first Easter Day . . . a Faith that has gripped human souls for all the generations since — these are forever entwined with the stark realization of man's sin and the blessed assurance of God's forgiveness.

That is why, when we think deeply of the meaning of these words — of their implication in our own lives — we find ourselves at the very heart of the Christian religion.

And it is why these soul-stirring weeks at the threshold of Christ's suffering have long been the time for such searching thought!

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

W. C. Tombaugh Candidate For Fulton Judge

Wendell C. Tombaugh today announced his candidacy for the office of Judge of the Fulton Circuit a vacancy on the Republican Ticket.

Six years ago he was named to fill a vacancy on the Republican Ticket for the same office, coming within 235 votes of the incumbent, Judge Frederick Rakestraw who has since been named by Governor Branigin to the Indiana Supreme Court.

He attended the Akron and Culver public schools, graduating from Rochester High School in 1932. From 1925 to 1929 his father, Jesse L. Tombaugh, was Supt. of the Culver Public Schools, following Deane Walker and preceding Floyd Amis. Upon graduation from Indiana University School of Business Administration and the Indiana Law School, he was admitted to practice before the Indiana Supreme Court in 1940.

He engaged in the general practice of law in Rochester until 1943 when he became a Special Agent of the Federal Bureau of Investigation. After serving in that capacity for nearly two years he served in the U. S. Navy teaching radar operation until his discharge in 1946.

Returning to Rochester, he entered business where he remained until the latter part of 1963 when he re-entered the general practice of law here.

He was admitted to practice before the United States Supreme Court on October 23, 1963 and is a member of the Indiana State Bar Association, American Trial Lawyers Association, Indiana Trial Lawyers Association, and the Fulton County Bar Association, being a Past Secretary-Treasurer of the latter.

He is a former Fulton County Chairman of Young Republican Club; former Second District Chairman Young Republican Club; has served as delegate to two Republican State Conventions; and was named as Alternate Presidential Elector for the Second District in 1964.

He has been Fulton County Attorney, and in 1962 he was elected to a four year term on the Rochester Township Advisory Board.

He is a member of Sigma Nu college fraternity; Society of Former Special Agents of the FBI; a member and Past Commander of the LeRoy Shelton American Legion Post in Rochester; a member of the Rochester Chamber of Commerce; a charter member of the Fulton County Toastmasters Club; a charter member and Past Vice President of the Fulton County Historical Society; a Director, and for the past two years Legislative Chairman, of the Mental Health Association in Fulton County.

He is married to the former Jean Cragun of Chicago and they reside in Rochester at 1025 Jack-

son Blvd. They are the parents of a son, John, who has just completed two years service in the United States Army, receiving his discharge this month from Fort Lewis, Washington, as Specialist Fourth Class.

Mr. and Mrs. Tombaugh are members of the Presbyterian Church in Rochester.

Men's and Masons' Night Observed By O.E.S.

Emily Jane Culver Chapter No. 484, Order of Eastern Star, met Tuesday, March 1 for their regular stated meeting in Masonic Hall.

The meeting was opened in short form under the direction of the worthy matron, Mrs. Dale Heizer.

It was announced that Advance Night will be held March 15, practice for the installation of the new officers will be held March 24 at 7:30 p.m. and public installation will be held Saturday, March 26 at 8:00 p.m.

After the closing the honored guests were honored with a short program after which everyone retired to the clubrooms where refreshments were served by Harold Fitterling, Harold Hatten, Arthur Hatten, and Roy Price to the 40 members and guests present.

INTEREST ON SAVINGS BONDS INCREASED TO 4.15 PERCENT

United States Savings Bonds are now a more attractive investment than ever before, Harold Rose, Chairman of the Marshall County Savings Bonds Committee, said today, in commenting on the increase in interest on Series E and H Bonds to 4.15 per cent.

Mr. Rose pointed out that the new rate applies from December 1, 1965 to all Savings Bonds, old and new.

"That means," he said, "that between 30 and 40 million Americans who now hold more than 49 billion dollars worth of Series E and H Bonds will automatically increase their earnings."

"Now, more than ever, it is both practical and patriotic to buy and hold U. S. Savings Bonds."

Under the new rate, announced by President Johnson, Series E Bonds will return \$100 for each \$75 invested after a maturity period of seven years. The rate increase in the case of H Bonds, which are bought at face value, will be reflected by larger semi-annual interest payments.

"Considering the indestructibility feature of Savings Bonds and the absolute guarantee of principal and interest, this is the finest Savings Bonds package ever offered," Mr. Rose concluded.

The Chicago Motor Club cautions drivers that railroad tracks can be dangerous in icy weather. Speeding over frozen tracks can throw your car into a skid. Always slow down before you reach the crossing. Do not stop on the tracks or shift gears while going over them.

Culver Public Library Offers Unlimited Help

The Culver Public Library feels a responsibility to be a center of information for Culver. More important than the pleasure public is the reference service it offers for those who seek knowledge — adults and students alike.

It is not uncommon for a patron to come into the library with a question and then, if he can't find the answer immediately himself, be too embarrassed to "bother the librarian" with it.

Librarians recognize that no question is unimportant or insignificant to the person looking for an answer. More than merely performing the bare essentials expected of them, librarians take pride in solving the often difficult problems of people who come seeking help. No patron need ever be afraid that he is "bothering" the librarian. Service is the librarian's most important commodity.

It may be that the library does not have all the answers a patron is looking for. The librarian is happy to direct the patron to where the answers may be found, or may request the information from the Indiana State Library or a special library.

Interlibrary loan is one of the most remarkable examples of cooperation developed by any profession. No library — not even the largest — can hope to have all the materials it will need at one time or another. Through interlibrary loan, any library can make available to its readers a far larger number of books than it could ever afford to acquire.

In helping patrons find the answers to their questions, librarians guard against giving information which should come from a professional person, such as medical or legal advice.

People automatically think of dictionaries, almanacs and encyclopedias when they consider reference materials. Many persons aren't aware of the variety of reference items the library has available. Biographical dictionaries, special indexes to periodicals, magazines, films, pictures, maps and reference books in special subject areas are all part of the reference picture.

The Culver Public Library has materials which furnish the information most frequently requested on a wide range of topics in this community. In cases where

the answers to questions are not available locally, the librarian is happy to assist in a further search and wants always to insure a satisfied public, for this is the public's library.

Mrs. Lulu Altum and Leo Medbourn of Logansport were Sunday dinner guests of the former's brother and sister-in-law, Mr. and Mrs. Leo Warren, and attended the funeral services for Mrs. Clara Mikesell in the afternoon.

Mrs. Myrtle Crabb has returned to her Culver home after an extended visit with her granddaughter, Mrs. Ralph Pedersen, Mr. Pedersen, and family at New Orleans, La.

Sunday dinner guests of Mrs. Trula McKee were Mr. and Mrs. Vern McKee and daughters, Cindy and Jana, and friend, Sherry Scott. In the afternoon and evening, the group was guests of Mr. and Mrs. Eugene Thomas and children, Mrs. Don Bruce, and Denise McKee.

PLEGGED TO FRATERNITY

David Wayne Lemar, son of Mr. and Mrs. George Lemar, Jr., 202 Climax St., Culver, was recently pledged to Theta Chi social fraternity at Ball State University, Muncie.

Indians Finish Season; Knox Wins Sectional

By BOB SHIRRELL

Last week at the Knox Sectional, the Culver Indians finished their 1965-66 basketball season. In sectional play on Wednesday night the tribe got past the Monterey Flyers 68-64. But in second-round play on Friday night the Indians fell to the Knox Redskins by a score of 64-58.

The Knox team went on to defeat the Rochester Zebras on Saturday afternoon and the Winamac Indians on Saturday night to win the Sectional crown.

The Culver squad's final record for this season is 13 wins and nine losses.

The game on Friday night was the last one for several of the tribe's most valuable members who will be graduating in May. They are: Ron Babcock, Mike Eustis, Jim Jackson, Mark Kosterman, Bruce Lindvall, Andy Lowry, Mark Lowry, and Randy Wakefield. Next year's team will sorely miss these fine players.

Indians Defeat Monterey

On Wednesday night, Feb. 23, the Culver Indians defeated the Monterey Flyers, 68-64, in a game plagued with playing errors.

In the first quarter neither team played well; both teams showed bad passes and faulty defensive work. Randy Wakefield kept the Indians moving by putting in eight points and the quarter ended 19-18 Monterey.

In the second quarter, after a rash of stolen passes, the Flyers really let loose and ran away to a 36-29 lead which they held at halftime.

led by Bruce Lindvall, stormed in the third quarter the Indians, back and took the lead with 3:40 remaining in the third quarter.

The rest of the game was a back and forth affair right down to the wire with the Indians coming out on top, 68-64.

High scorer for the Culver squad was Bruce Lindvall who added 22 points to the winning total. He was followed by Randy Wakefield and Andy Lowry who got 16 and 12 points respectively. The Indians as a team, hit 51 per cent of their field shots and 59 per cent of their free throws.

Steve Pugh led the Monterey Flyers by putting in 21 points. The Flyers hit 48 per cent of their field shots and 63 per cent of their foul shots.

Indians Lose To Knox

Last Friday night the Culver Indians lost to the Knox Redskins

by a score of 64-58 in second-round Sectional action.

The story of this game is simply that the Indians didn't quite match scoring with the Redskins, although they came awfully close.

The Indians fell only one basket behind in the total scoring. The Knox team hit a fabulous 55 per cent of their shots and got 27 baskets, but the Indians almost matched that by hitting 41 per cent and taking more shots. The tribe came up with 26 baskets.

What really hurt the Culver quintet though was their low foul shot percentage. The Indians hit six shots out of 14 — 43 per cent, while the Redskins hit 10 shots out of 16 — 63 per cent. This four-point difference turned out to be important.

Seniors Andy Lowry and Bruce Lindvall led the Culver scoring by putting in 21 and 19 points respectively.

Larry Richie and Jerry Johnson led the Knox squad by adding 20 and 18 points, respectively, to the Knox total.
