Rockin' R Riders' July 31 Horse Show A Great Success

The Rockin' R Riders' Horse Show, which was held Sunday, July 31, at the George Franz farm southwest of Culver, proved a great success.

There were about 80 horses taking part in the six halter classes, and three horse races, with a very enthusiastic audience of an estimated 250 spectators.

The High Point Jack Pot went to Lyman Mongosa, Denver, Ind. Guy Webber of Dyer, Ind., won the Sportsman's Buckle.

Riders from various parts of Indiana and Illinois participated in the events.

The Rockin' R Riders are thankful that the various Culver merchants sponsored the show and hope to make this affair an annual event.

The donation of the use of his land by Mr. Franz gave site to the event. Fire Chief Dave Burns and Jay Snyder took out the fire truck and sprayed the arena, laying the dust and increasing the comfort of spectators and participants.

Keep in mind and plan to enjoy the Horse Show next year.

"Cern'ly I'm drunk," snapped the driver. "Whaddya think I am — a stunt driver?"

DEADLINE: 4 P.M. Tuesday of Each Week

Mrs. E. E. Zechiel

Returns From Western Trip

Mrs. E. E. Zechiel returned Tuesday from San Francisco, Calif., where she had spent several weeks with her daughter and her husband, Dr. and Mrs. M. B. Sulzberger who live on Nob Hill in San Francisco. Dr. Sulzberger is Technical Director of Research, Letterman General Hospital, U.S. Army and Mrs. Sulzberger is Executive Secretary, Institute for Dermatologic communications and Education, University of California Medical Center.

While in the West, Mrs. Zechiel visited her brother and his wife, Mr. and Mrs. J. Rex Mawhorter, who are very pleasantly situated in Lemon Grove, and Mr. and Mrs. John Harrell who find living in La Mesa a very happy experience. Lemon Grove and La Mesa are in the San Diego area.

Mr. Harrell is a supervisor of computer programming at Rohr Corporation at Chula Vista, which is one of the three big plants in the San Diego region. Mrs. Harrell will be remembered by her Culver friends as Martha Ann Mawhorter, a busy welfare worker. Now she is a busy mother taking care of two children of her own, Mary Ann aged 6 and Johnnie 2.

The Mawhorters, Harrells and Sulzbergers join in sending greetings to their Culver friends.

San Francisco is an unusually beautiful city. Its hills stretching away in every direction are dotted with beautiful homes, where the wind has plenty of room to play around and then pass on. The streets lined with charming white and pastel colored buildings give an early Franciscan atmosphere which is all too rapidly being replaced by tall skyscrapers of modern type buildings.

An illusion of Christmas Eve is sometimes created even in July, when the fog comes in under the Golden Gate. The bright lights of the city shining through the fog which is being wafted by the breeze give the appearance of fine drifting snow.

Mr. and Mrs. A. N. Butler and Mr. and Mrs. W. O. Osborn of East Shore Drive have as their houseguests this week Mr. and Mrs. Charles Michaels and children, Joy, Carol, David, Jimmy, and Frederick of Sacramento, Calif.

The pastor of a California church was shaking hands with members of the congregation as they left the service. He greeted a pretty Mexican lass who was not a regular member. "And where do you live?" he asked.

She gave him an appraising look, and said, "I already got a fella."

A young man went to a dance and met the most beautiful girl. He asked her to dance and she danced like a dream. Between dances he found she could converse intelligently on any subject. She was particularly interested in his favorite sports and hobbies. At the end of the dance he asked if he might see her home and she said that her Jaguar was parked right around the corner. At her apartment she asked him in for eggs, bacon and coffee because she just loved to cook.

She put the key in the lock and he, already figuring the cost of marriage, pushed open the door. And there lying in the middle of the floor was a dead horse. He stopped, agast.

"Well, all right," she said. "So I'm not neat."

"Do you think I should put more fire in my speeches?" asked the discouraged Toastmaster.

"Well, no," replied the kindly evaluator. "But you might try it the other way around."

A small-town merchant, while enjoying a convention in a large city, attended a strip-tease performance with some of the boys and the next day was obliged to go to an oculist for treatment.

"When I left the show last night," he told the oculist, "my eyes were red and swollen."

"After this," advised the oculist, "try blinking once or twice during the show. You won't miss much."

A couple of young boys walking into the dentist's office. One faced him boldly and said, "Doc, I want a tooth took out and I don't want no gas 'cause I'm in a hurry."

"I must say you're a brave boy," said the doc, "Which tooth is it?"

The little boy turned to his silent friend and said, "Show him your tooth, Albert."

A very shy gentleman took a friend along for a ride into the country and everytime he drove around a curve the friend slid against the driver. Finally, the friend commented, "These certainly are slippery seat covers," he said.

"Oh," smiled the shy young man. "I wax them for the girls."

Father looked up from his racing news and noticed the baby in the buggy. Turning to his wife he said, "Baby's nose is running again."

His wife snorted and snapped, "Don't you ever think of anything except horse racing?"

A passenger in a plane sat relaxed at a window observing the spectacle of the heavens. Suddenly, a parachutist appeared and drifted by. "Going to join me?" cried the parachutist.

"No, I'm very happy where I am."

"Just as you like" called the parachutist, "but I'm the pilot."

A man and wife were relaxing at home one evening. Suddenly the man spoke up turning from the window: "By gosh," he exclaimed, "there goes that woman Sam is so madly in love with!"

His wife dashed to the window. "Where?" she demanded.

"Right there," pointed out the husband. "The woman in the light coat."

"Oh, for Heaven's sake!" declared the woman to her husband. "That's Sam's own wife!"

"Certainly!" agreed the husband. "Never said it wasn't."

"Waiter," said the indignant customer, "what does this mean? Yesterday I was served for the same price with a portion of chicken twice the size of this."

"Yes, sir," answered the waiter. "Where did you sit, sir?"

"Over by the window."

"That accounts for it. We always give people who sit by the window large portions. It's an advertisement."

The latest one about Texas:

Wife: "Dear!"

Husband: "Yes?"

Wife: "Please get the car out and drive the kids to the backyard so they can play."

I hide myself among the trees. Dash out at maids with pretty knees.

'Cause this plight is my delight; For I'm a wolfish little breeze.

Two old maids were in an insane asylum for years always knitting and knitting. "Gee," signed Mayme one day, "I wish some tall, handsome man would wind his arms around me and squeeze me

until I gasp."

"Now you're talking sense," said Hattie. "You'll be out of here in a few days."

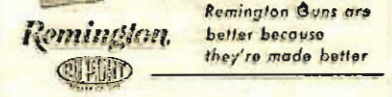

The rabid golfer was eating a late dinner and talking with his wife as she served him. "Junior was telling me that he caddied for you this afternoon," she informed him. Junior's father pondered a moment, then his expression cleared. "That explains it," he cried. "You know, I thought that I'd seen that boy somewhere before."

He will need to ask the doctor to fill out the bottom half of the form only if the receipted bills do not give the necessary basic facts about the services supplied and when and where they were furnished.

Under the payment-to-doctor method, the patient will fill in the top half of the "Request for Payment" form and give the form to the doctor. The doctor will fill in the bottom half of the form and send the form to the organization which will be handling medical insurance benefits in that area of the country.

If the payment to doctor method is used, the doctor agrees to accept the amount paid to him by the medical insurance program as 80 percent of his total bill, over and above the \$50 deductible amount -- that he will collect from the patient no more

than the remaining 20 percent, plus any part of the \$50 deductible still owing him.

Mr. Burke said that a sample form and a copy that the older person can use in making his first claim will be included in "Your Medicare Handbook," a detailed instruction book that was mailed in June to all persons entitled to hospital insurance and medical insurance benefits under the medical program.

Additional copies of the forms will also be available at physicians' offices and all social security offices, and at offices of the organizations in each area who have been selected to receive and pay bills under the medical insurance program.

Looking for an inexpensive gift for a friend, a tightwad entered a gift shop, but found everything too expensive.

Pricing a glass vase that had been broken, he found he could buy it for almost nothing. He asked the store to send it, hoping his friend would think it had been broken in transit.

In due time he rec'd an acknowledgment: "Thanks for the vase," it read, "and it was so thoughtful of you to wrap each piece separately."

Medicare

A single, easy-to-fill-out form for older people and physicians to use in requesting payment under the medicare program was announced today by Mr. Chas. E. Burke, District Manager of the Social Security District Office in South Bend, Ind.

The "Request for Payment" form will be used for claims under the voluntary doctor bill insurance part of the medicare program, Mr. Burke said. Beginning July 1, people 65 and over who are enrolled for the voluntary insurance will get payment for 80 percent of their doctor bills and other medical expenses, after they have met the first \$50 of these expenses.

The one-page form was developed in close cooperation with representatives of the American Medical Association's Council on Medical Services, Mr. Burke said, and was discussed and recommended for adoption by the Health Insurance Benefits Advisory Council, a group appointed under the law to advise on administrative policies and regulations. Nine of the 16 members of the Advisory Council are physicians. It has also been approved by the Health Insurance Council, a body representing the health insurance industry.

There will be two ways to claim payment for doctor bills and other medical services covered under the medical insurance part of medicare, Mr. Burke said. The same form will be used for either method.

Under one method, the doctor will bill the patient, and after the patient has paid the bill, the patient will claim reimbursement. Under the other method, if the doctor and patient agree, the doctor will send in the claim and receive payment. This method of requesting payment can be used where all or part of a medical bill still remains to be paid.

Under the payment-to-patient method, the patient will fill in the top half of the form and attach the doctor's itemized receipted

CHARMING CHARLOTTE AMALIE is the Capital of St. Thomas, Virgin Islands, U.S.A. Its colorful harbor bustles with the activities of marketplace and waterfront. Centuries-old and thick-walled buildings wear the faded patina of time and sun. They provide a pleasant backdrop to view the blend of the bright sun and the sparkling turquoise seas.

WITHIN OLD WORLD COURTYARDS and warehouses are wonders to behold. The finest free port in this hemisphere, St. Thomas offers treasures imported from all over the world at bargain prices. U.S. Customs allows citizens to carry away \$200 per person worth of merchandise, duty free, including one gallon of whiskey each and unlimited cigarettes at low prices. Once described as "Bargains-by-the-Sea", St. Thomas is the market for watches, perfume, jewelry, china, glass, silver and silks.

OVERLOOKING THE TOWN, the Virgin Isle Hilton offers complete resort activities. Luxurious, air-conditioned rooms, olympic salt-water pool, curving terraces for dining and dancing under the stars. Branches of the smartest shops provide day and night shopping. There are tennis courts and turtle races. Entertainment nightly. One never need leave. The Virgin Isle Hilton is an excellent headquarters for those who wish wondrous sightseeing or partake of the watersports abundant in nearby waters.

REALTOR HONORED BY INTERNATIONAL GROUP

Helen W. Downs, 268 East Center St., Warsaw, of Downs Realtors has been admitted to membership in the International Real Estate Federation through its American Chapter, an affiliate of the National Association of Real Estate Boards, it was announced today by Newton C. Farr, Chicago, President.

The Downs are former Culver residents.

The organization lists among its objectives the promotion of high professional standards and good relations among individuals engaged in the calling of real estate in all nations and the encouragement of the private ownership of real property and understanding of its obligations.

The International Real Estate Federation was formed nearly 20 years ago, and today has members in most of the developed Free World countries. Headquartered in Paris, the IREF holds its congress (convention) in a different country each year. In 1963, the congress was held for the first time in the Western Hemisphere, in Chicago. In 1964, Tel Aviv was the scene. In 1965, Brussels, followed in 1966 by the meeting in Tokyo.

Members of the Chapter, through their participation in the annual congress, develop international friendships and valuable business contacts with colleagues in other countries, and exchange ideas on business methods and techniques.

The more than 700 members of the American Chapter receive a quarterly bulletin direct from the Federation's International headquarters office in Paris, printed in three languages — English, French and German, according to Helen Downs, which she will use in her local business activities as it contains items about current real estate developments in each of the member countries.

CHARLES BAKER COMPLETES STANDARD OIL TRAINING COURSE

Charles Baker, the new Standard Oil dealer at Main and Washington in Culver, received a diploma certifying his successful completion of a three week training course conducted by Standard Oil Division of American Oil Company.

At the training center, which is located in Indianapolis, Baker was schooled in all phases of service station operation, including maintenance of a clean, attractive station; product knowledge; salesmanship; money, manpower and material management. Actual driveway experience was also included in the course designed by Standard to enable him to provide his customers, from the very outset of his service station career, with friendly, efficient service.

Throughout his schooling he received a training allowance from the company.

Baker and his wife, Edna, are the parents of five children. The Baker family lives at 315 S. State Street in Culver.

The car raced around the corner, knocked over the policeman and four pedestrians, overturned a fruit stand, and came to stop against a telephone pole. A sweet young girl crawled out of the wreckage, threw her hat into the air, and shouted, "Wow! That's what I call a kiss!"

The teacher was explaining to the class that a number of sheep is called a flock and a number of quail is called a covey.

"Now," she said, "what is a number of camels called?"

A nine-year-old ad reader had a quick answer: "A carton."

CHOOSING HER WARDROBE WAS NO JOY FOR THE UNDERGRAD OF THE 1870'S. SINCE DECORUM DICTATED THAT IT WAS A POINT OF HONOR TO DRESS LIKE A LADY, CLARA COULD NOT BE BOUND IN A GRIPPING CORSET, HIGH NECK, TIGHTLY BUTTONED BODICE AND CUMBERSOME BUSTLE.

It seems that this boy showed up late for school. The teacher asked him for an explanation and he said, "Well, I guess you could say it's because pa sleeps in his shorts."

"What's that got to do with your being late?" the teacher snapped.

"It's like this, ma'am," the boy replied. "You see, last night we heard a noise in the chicken house. Pa jumped out of bed wearing his shorts and grabbed up his shotgun. He ran out to the chicken house, opened the door and pointed the gun inside. About that time our old dog, Rover, come up behind pa and sniffed pa's bare legs. Well, ma'am, we been cleaning chickens since 3 o'clock this morning."

It was a tough, close-fought game between two bitter inter-collegiate football rivals. The pressure got a little too much, a foul was made and the referee penalized the offending team ten yards. The captain bawled out the arbiter with a blistering tirade, finishing off with this rather succinct observation, "I think you stink."

The referee promptly added fifteen yards more to the penalty and called to the captain, "See how I smell from there."

The master of ceremonies at a dance approached a girl who was wearing a strapless evening dress.

"May I introduce Mr. Smith?" he said. "He's an authority on structural engineering and he wants to ask you something."

A henpecked weatherman was describing his wife to an old friend.

"She speaks 150 words a minute," he said "with gusts up to 180."

An old-timer is a man who remembers when the only problem about parking was to get the girl to agree to do it.

Home-coming husband to wife: "I took an aptitude test this afternoon. Thank God I own the company."

Social Security

Mr. Charles E. Burke, District Manager, announced today that the South Bend, Indiana, Social Security Office will move to their new location at 125 S. Lafayette Blvd., on Thursday, June 30. They will be open for business all day Friday, July 1, but the office will be closed on Saturday, July 2 and on Monday, July 4.

The South Bend office has been open until noon every Saturday to accommodate those people who are now approaching their 65th birthday and who are still working. The extra hours on Saturday give them an opportunity to file applications for their Hospital Insurance Benefits without taking time off from their work. It is important that people who are approaching their 65th birthday file their application for Hospital and Supplementary Insurance Benefits at least 3 months before

that birthday month in order to be eligible for hospital benefits when they reach their 65th birthday month. Failure to file an application before their 65th birthday month will cause a delay in their becoming eligible for hospital insurance and if they don't file within 3 months after their 65th birthday month, they will have to wait until the next enrollment period which begins on October 1, 1967 and ends December 31, 1967.

If they wait until this enrollment period to file their application, their hospital benefits will not be available until July 1, 1968. There will also be a 10% increase in the amount of the premiums. Mr. Burke said that all of the people now approaching their 65th birthday should contact their local Social Security office at their new address at 125 S. Lafayette Blvd. as soon as possible.

OUTFIELDERS WALTZ

The Japanese have found a way to make baseball stadiums pay during the off-season months. A prefabricated ice rink that has a nylon canvas roof has been erected in the outfield of the Tokyo Stadium, reports Modern Plastics, McGraw-Hill publication. The sturdy rink has withstood winds of 45 mph, a snow load of at least six inches, and thousands of skaters.

LOOK MA, CAVITIES

It seems there are a lot of people who can't brush after every meal. Chemical Week, McGraw-Hill publication, reports that in 1964, Americans made 293.8 million trips to dentists, up from 247.2 million in 1958. About 38 per cent of the 1964 visits involved fillings, 13 per cent denture work. Somebody must be doing something wrong.

HEART LINE

Cardiac victims may soon have a simple wrist device that will be a heart line to expert medical attention, reports Electronics, McGraw-Hill publication. The pat-

ient simply connects two electrodes from wrist bracelets to a tiny transmitter that relays signals, by telephone, to the doctor's office. There the signals are changed into a pulse that is recorded on an electrocardiograph.

DEXTEROUS DIRIGIBLE DOES THE DEED

Russia has found a new use for dirigibles, reports Electrical World, McGraw-Hill publication. They plan to string power lines in Siberia and the Far North with the air ships. Dirigibles designed for the project fly at speeds up to 120 mph, and make vertical landings without the aid of a ground crew.

PLASTIC PIPES

Sinks may soon have a drain pipe and grease trap made of plastic, reports Modern Plastic, McGraw-Hill publication. The plastic drain system, made by a Swedish firm, reduces installation time to about two minutes, is far lighter than traditional cast iron systems, and will adjust to fit any sink installation problem encountered.

a whole lot. That's what they say at a Chicago company when they take a photograph. They have a camera that produces 8 x 12-foot negatives, reports American Machinist, McGraw-Hill publication. Probably the biggest copy camera ever, it is used for processing big blueprints and display photos.

OPERATION DUST BAG

Coal dust and charcoal helped to melt an ice gorge that had choked up the normal flow of water on the Mississippi River, reports Coal Age, McGraw-Hill publication. Engineers "seeded" the jam so that the carbon could absorb the sun's rays and help speed the natural melting process.

ELECTRONIC NURSE

A Japanese firm has developed an "electronic nurse" system, reports Modern Hospital, McGraw-Hill publication. It centrally monitors up to 12 patients' blood pressures, pulse rates, respirations and temperatures while allowing visual observation of the patients, at the central monitoring panel, by means of closed-circuit television.

THE STRENGTH OF A GIANT

You, too, can be a superman. All you need is a set of "mechanical muscles", reports Purchasing Week, McGraw-Hill publication. The idea behind these muscles, now being developed, in this: Make a machine in the shape of a hollow man; insert a man into the machine; the result is a superman, supermachine combination of brains and strength.

COFFEE BREAK A GO GO

Employees in one New Jersey company have their coffee with cream, sugar, and the watusi, according to Factory, McGraw-Hill publication. To the rhythm of clinking cups and a discotheque beat, employees do the frug, swim, monkey, et. al for 15 minutes on this new kind of coffee break. The company even brought in dance studio instructors to teach employees where the action was. They found out quickly -- it was the shortest training session on the books.

ORANGE JUICE, AC OR DC

A scientist has found that an electric shock treatment speeds fruit growth, reports International Management, McGraw-Hill publication. He puts a positive electrode into the trunk of the orange trees, a negative electrode into the cap branches. Zap, a little voltage. Voila, ripe fruit. And the "plugged in" trees don't seem to mind at all.

STREAMLINED CIGARETTES

The British are marketing a new slim-line cigarette pack that won't create a bulge in today's smaller handbags and the pockets of figure-hugging suits, reports Modern Packaging, McGraw-Hill publication. The slender flip-top

box holds 15 cigarettes rather than the conventional 20.

The man bought a cigar, and then left. Five minutes later he dashed back to the store. "That cigar," he shouted, "is simply awful."

"It's all very well for you to complain," said the storekeeper, "you've only got one. I've got hundreds of the darn things."

"I owe my success as a salesman," said the speaker addressing the gathering of young men being trained for this profession, "to the first seven words I invariably utter when a woman opens the door. Miss, may I speak to your mother?"

Wife: "William, how do you suppose those dozens of empty bottles got into the basement?"

William: "I haven't the remotest idea. I never bought an empty bottle in my life."

A bachelor is a sportsman who plays at the game of love and

manages to retain his amateur rating.

"Do you find advertising brings quick results?"
"Yes indeed. Why only the other day we advertised for a night watchman, and that very night the safe was robbed."

The fellow with the reputation for getting the most done generally has a habit of trusting the right people to do it for him.

The doctor bent over the operating table and said to his patient, "I'm going to be frank. Only four out of five persons recover from this operation. Before I proceed, is there anything you would like for me to do?"

"Yes," said the patient. "Help me on with my clothes and shoes."

A young man stared into the mirror one morning, and noting his bloodshot eyes resolved never to go into a bar again. "That television," he muttered, "is ruining my eyes."

First Father: "My son doesn't want to get married."

Second Father: "Wait until the wrong girl comes along . . ."

A Scotchman who had just got aboard the water wagon was asked by a friend: "If you were standing in a lake of whiskey up to your knees, wouldn't you bend over a wee bit?"

"No, sir," said Sandy righteously.

"But if it was up to your chin—real Scotch whiskey—wouldn't you even sip it?" his friend asked again.

Sandy gulped and replied: "Well, I'm not saying I would, d'ye mind, but I might make a wee ripple with me hand."

Two women were comparing notes about their husbands. "Pearl," said one "who do you reckon the laziest—your husband or mine?"

"I'm not guessin'," was the reply. "Things is bad enough without startin' no contest!"

An American engineer went to an Indian native state to modernize one of the maharajah's many palaces. He did a fine job and when the time came for the American to return home, the Indian prince sent for him.

"I'd like to show my appreciation of your work," the Indian said. "Just name your own gift. A team of elephants, perhaps? A diamond studded belt buckle?"

Anything you like!"

The engineer protested that he didn't feel entitled to any gift, but finally said he would accept three or four golf clubs if the rajah insisted. A few days later the potentate sent for him again.

"I have had my American agent get those four clubs for you," the rich ruler said. "Two are in California, one is in Florida and the fourth is in Westchester county. "But," he continued, "I must apologize. Only two of them have swimming pools!"

You know you've reached middle age when the fellow who tells you to slow down is a doctor, not a policeman.

Groom: "What has my Beloved been doing all day?"

Bride: "I filled the salt shaker."

Groom: "That took all day?"

Bride: "It certainly did—it isn't easy getting salt through those little holes."

In a traffic snarl one of the inevitable horn-tooters began blasting away. A man in a car along-

side looked over and politely inquired: "What else did you get for Christmas?"

The man rang the doorbell of a stranger's home and when the lady of the house opened the door, he said apologetically—"I'm sorry, I just ran over your cat and I'd like to replace it."

"Well get busy," she snapped. "There's a mouse in the pantry."

The small boy was looking at photographs of his parents' wedding in an album. His father described the ceremony and tried to explain its meaning.

"Oh!" the child exclaimed. "Is that when you got Mummy to come and work for us?"

He—But darling, haven't I always given you my pay on the first of the month?

She—Yes, but you never told me you were paid twice a month.

When the small boy came home Sunday morning with his pockets bulging with coins, his mother asked where he got it all. "At

Sunday School; they've got bowls of it there!"

Ole Slush says: "My favorite racing form is a girl late for work."

One of your wife's hairpins can make a lure weedless. Weave end into the eye of treble hook. Ends stick out and keep weeds away.

 "Soul" is the subject of the Bible Lesson-Sermon to be read in all Christian Science churches this

Sunday.
 The Golden Text is from Deuteronomy -- "The Lord your God proveth you, to know whether ye love the Lord your God with all your heart and with all your soul."

Readings from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will include this explanation: "The Divine Being must be reflected by man, -- else man is not the image and likeness of the patient, tender, and true, the One 'altogether lovely;' but to understand God is the work of eternity, and demands absolute consecration of thought, energy, and desire."

SNOW WALK

What old timers call "the snow walk" is to push your toe into the snow every step you take. This insures a secure step off and you become less tired.

FINDING GOD IN NATURE

Down in Louisiana there's a spot which casts a spell of reverence upon my soul.

But what I have found along the bayou I have seen, too, in the awesome might of a granite peak, in the mystic wonder of a shadowy canyon. I have heard it in the restless symphony of the surf at night.

These, the shrines of nature, are God's hint of a spiritual meaning in life.

But, long ago, man responded to God's hint. The churches in which we worship and learn and serve — these are the workshops He inspired. Week by week, year by year, under the hand of the Master, lives are being fashioned to His blueprint . . . devoted to His purpose.

Yes, we can find God in nature! But the road of spiritual discovery only begins along the bayou. It goes on from there to our highest quest.

Years Ago This Week

AUGUST 8, 1956—

At 2:01 a.m. last Sunday, Aug. 5, another milestone in the history of telephone service in Culver was passed when Indiana Bell Telephone Company placed into use the ultra modern dial system and moved into its new quarter-of-a-million dollar building at the corner of Main Street and Lake Shore Drive. Of the 20 Culver telephone operators, 11 have chosen to retire; Mrs. Lillie Buswell, Mrs. Floyd Deck, and the Misses Doris Diltire, Carmen Edwards, Joan Powers, Marian Schipplock, Mary E. Schipplock, and Miriam Young have accepted positions with the South Bend exchange; and Mrs. John Wagner, who was honored last Thursday afternoon at a reception in the lounge of the new telephone building for her 39 years of faithful service, will retire on pension.

Both Pennsylvania passenger coaches and dining cars and Norfolk & Western cars used the Pennsylvania main line from Chicago to Plymouth and then were sent over the Vandalia in the traffic diversion because of a spectacular chemical tank car fire at Herbon which delayed traffic nearly 18 hours.

Kewanna Harvest Festival Has Many Added Attractions

The 1966 10th annual free Kewanna Harvest Festival opens Thursday, Aug. 25, at Kewanna, Ind., with one of the largest arrays of entertainment ever presented at this festival.

The midway of rides and chance stands is provided for by the Raymond C. Dixey Amusement Company of Gary.

The Kewanna Progressive Association will have a bingo stand running continuously during the festival.

Jerry Welch, one of the world's most famous musical clowns, will be on the midway at all times bringing mirth and laughter to all.

Joe, the little monkey with organ grinder and hurdy-gurdy will be on the midway of the festival also.

On the midway will be Navy exhibits, child evangelism tent, sponsored by interdenominational Protestant churches with Mrs. Roy Murdick in charge, and a large tent full of merchants and industrial exhibits. Also in buildings will be a museum, art and hobby show and flower show.

Eating stands on the midway will be conducted by the Welcome Neighbor Home Demonstration Club and the Kewanna High School seniors serving home made soups, cakes and pies. These eating stands have become a popular stopping place for hungry festival goers.

The free variety show this year will feature Joe Taylor and the Indiana Red Birds. This popular television and stage performing group have made a hit with audiences everywhere.

The festival drew over 9,000 people in three days last year.

It is sponsored by the business men of Kewanna and has grown each year.

Hear about the small planet that broke out of its orbit, went streaking thru space and danced around the Sun? Then, in a flicker of time, it dropped a few million light-rays and cut a caper on the Moon. At this point it's Mother Planet became aware of the upset conditions. "Junior," she called sharply. "What out of this world are you doing down there?"

Breathlessly, the small planet raced toward her. "Look, Mom," it shouted, "no gravities!"
