## Town Board Orders Traffic Violation Control

A study of traffic violations in Culver has revealed that locally we break many traffic laws that we would not think of breaking in Plymouth or South Bend.

For example, recently, warnings have been issued by the Town Marshal for double parking, wrong way parking, exceeding the posted speed limit, leaving a vehicle unattended with the motor running, and failure to stop at a stop street.

The Town Board acknowledges some of these errors as long time habits of small town good citizens but believes that it is no longer safe for such practices to prevail.

The Board has ordered that after a reasonable warning period that arrests be made for flagrant violation of traffic laws.

The Board has also announced the hiring of Mrs. Wayne Mattox as sewage disposal plant chemist. Mrs. Mattox is a graduate of Franklin College in Biochemistry and has worked as chief chemist for the Gary Department of Sanitation in an activated study type disposal plant.

## Performance In Pantomime At C.M.A. March 7

Frans Reynders, a Dutch-born actor, will present a performance in pantomime on March 7 as part of the 1967 Concert-Theater Series at Culver Military Academy.

Reynders will appear in two performances on that date. A 1 p.m. matinee will be for 1,600 Marshall County public school children participating in the Academy's Program for Education in the Performing Arts. The 8:15 p.m. performance is for the Academy's student body, faculty, and subscribers to the Concert-Theater Series.

One of a handful of mimes appearing on the legitimate stage today, Reynders exhibits an art in which the entire burden of expression is thrown on the expressiveness of the body and face without the use of colorful costumes and settings or the aid of spoken language. He has appeared throughout the U.S. and along with Marcel Marceau, who appeared at Culver in 1961, is considered one of the outstanding practitioners of his art today.

Reynders became interested in pantomime after World War II. He studied in Paris and toured Europe for two years before returning to his native Holland. There he enhanced his reputation as a performer, director, lighting technician, and costume designer and has continued to free-lance in these areas for theatre, motion pictures, and television in the U.S.

Since he has been in the United States, Reynders has perfected an impressive program of mime. His performance here may include, from his original repertory, such favorites as Counterpoint, Adam and Eve, Marionette, The Bird, Max at the Table, The Girl, Surgeon, Soldier, Samson and the Lion, and Glance with the Hand.

Early in 1960, Reynders joined with the Springfield, Mass., Symphony Orchestra to give a world premiere performance of mime and orchestra. Becoming "almost another instrument of the orchestra," as he expresses it, he mimed the part of Tili in the Richard Strauss tone-poem, "The Merry Pranks of Tili Eulenspiegel." Critics praised the production highly, and acknowledged that Frans Reynders "rose nobly to the

world's premiere challenge with a performance marked by agility, flexibility and wit."

In the spring of 1964, Reynders was featured in "An Essay on Doors" on the CBS-TV series, "One of a Kind." Television critic Jack Gould rated the performance as "superb."

His visit to this campus is one in a series Reynders is making to several colleges and universities in various parts of the nation. He has performed since 1959 under the auspices of the Arts Program of the Association of American Colleges. As an "extra dimension" of the Arts Program's visit plan, he will give an informal talk on "Principles of the Mime", or as an alternate will conduct a two-hour workshop on the technique of mime and mime improvisations.

DEAR RON,

From the male standpoint what exactly does the phrase, "I'll call you" mean? I went out with a guy and had a great time and he said he would call. Well, I've been waiting four weeks for him to call! What should I do?

WAITING

DEAR WAITING,

When a guy says he'll call he usually means one of two things:

(1) He is planning to do exactly as he says and call you, but in your case it's taking him a while to get around to it. Maybe there just hasn't been anything to ask you out to.

(2) Unfortunately an easy way for a guy to get out of a tight situation is by using these three words.

In either case don't just sit around waiting for him to call. Accept other dates and have a good time, maybe soon you'll get that "waited for" call.

Sincerely,

RON

DEAR RHONDA,

I have a problem which gets me into a lot of trouble. My interests in boys wanders from one boy to another. I'm never satisfied. At my school it's strictly taboo for an attitude like this, but I can't help myself.

HELP ME

FICKLE

DEAR FICKLE,

You're not as bad off as you think, it's not all that serious. It is quite normal for a girl to have wandering interests. It's fun to vary your dates and meet many different people but beware of other people's feelings. Don't be conceited or selfish. You may end up with no boyfriends and no girlfriends.

SINCERELY,

RHONDA

DEAR RON & RHONDA,

The class I'm in has a definite problem. All the guys think they are neater than the girls and to add to this the girls believe they are better than the guys! Actually neither group is better than the

Upon the filing of such petition the County Auditor will certify a copy thereof to the State Board of Tax Commissioners. The State Board of Tax Commissioners will hold a hearing thereon at a time and place to be fixed by said State Board of Tax Commissioners.

other. Is there any solution?

DISTURBED

DEAR DISTURBED,

To us it sounds as though your class is very IMMATURE. When each group grows up enough to see the good points in others then the people in your class will be able to have dates, fun and good times together that is now lacking. There will be times when only the kids in your class can participate.

## Bits and Pieces

By May Kozlowski

We would like to congratulate all the people who worked so hard to make the Sunshine Sangralla Dance a success. It was a great dance!

Say Vickie Morrison, what was wrong with Denny's coat collar? Did you keep pulling it up so we couldn't see the rash on his neck?

It seems that a few Seniors are getting partial to cadets. Suzi and Jeanette, what's up??? Fun, Fun, Fun!

Now for the \$69,000 question . . . Is there anything between Anna and Armando??

Paul and Kerry, wasn't it a little cold to be running around the lake?? By the way, we hope you enjoyed the "refreshments".

Rex S. has figured out a way to get out of a crowd with a coke without spilling it on the floor. Just spill it on someone's shoulder and watch how everyone backs off.

Diane, what seems to be your problem? Who's going to karate chop you?? For more info contact Diane. Don't worry, the Seniors are behind you.

All the Senior girls have decided they would like to have orange tinted mums for the sectional, that is all except for Cathy S. She would like hers black. It seems that Cathy is partial to happy colors.

It seems Marlene really had a happy Valentine's Day. Red roses for a sweet lady.

The LaCrosse cheerleaders seemed to have made a big hit with a lot of our fearless Indians. Go, Go Get 'em!

CHS Band has acquired the greatest maraca player in the land. Shake it up Mr. Fouts.

Bob Clevenger, have you had your date with Kika yet? Come on Bob, let's go.

Since the other two persons who were supposed to help me with this article didn't, it is quite short. . . My apologies.

### THAT'S GOOD SERVICE!

One of the highest single hospital bills for one individual — \$425,000 — was recently revealed by a Kansas hospital. According to Modern Hospital, a McGraw-Hill publication, the sum was paid for a 19-year stay by a Kansas millionaire who died last spring at the age of 98.

He entered the hospital in 1946 for treatment of a shoulder injury and reportedly remained for 19 years because he was so pleased with the hospital's service.

## CAN YOU HEAR A

# Child's Heart?

THE CHURCH FOR ALL  
ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support his Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to be in church regularly and read your Bible daily.

That poor doctor! All he can hear is a thump-thumping in his stethoscope. But parents can hear more!

They can hear their child's heart in his excited voice . . . in his pounding feet . . . in his noisy play. And the sounds they hear are full of happiness, and hope, and promise.

In his prayers, too, parents can hear their child's heart . . . reaching confidently toward the Love and Power that grown men sometimes forget.

But hearing a child's prayers is only one little gesture in the tremendous responsibility of nurturing the spiritual development of a Christian heart.

Like the doctor's stethoscope it's a kind of routine checkup before we prescribe what the patient needs.

The heart of a child needs religious example in generous doses which only his parents can provide. And the heart of a child needs spiritual truth, of which his family's Church is the convenient, trusted dispensary.

## Films Available At Public Library During March

**ARE YOU POPULAR?** -10-c Examples of relations between teen-age boys and girls demonstrate that an individual is popular and welcome in any group where he is friendly, considerate and interested in other people. (Coronet)

**HIGHLIGHTS OF HIGHWAY SIXTEEN** -12-c-s This film takes you to place after place of interest and pleasure—to Hazelton, site of North America's largest collection of totem poles, to the Nechako River, source of hydro power for the huge aluminum development at Kitimat, to Merricktown Falls, to Prince Rupert, northern base of the Pacific fishing fleet. (Loaned by CTFI)

**HORSE FARM** -15-c Explains that not many years ago, most horses here were raised for work and were big, heavy animals. Now it is hard to find horses trained to pull anything. **INSTRUMENTS IN THE ORCHESTRA** -24-b&w- Dr. Malcolm Sargent explains the form of the fugue and the use of each instrument of the orchestra. Following a demonstration of the sounds of the wind, string, and percussion instruments, he conducts Benjamin Britten's "Variations and Fugue on a Theme by Purcell". (British Information Services)

Fishermen in hundreds of seacoast villages provide the nation's demand for fish. (Walt Disney)

# Indians Lose Sectional To Oregon-Davis

By STEVE BAIR

The Culver Indians finished the season by losing their opening game to the Oregon-Davis Bobcats, the eventual sectional champions, by a score of 66 to 58. The Indians started out slow-against the Bobcats and could not find the power to overcome a seven point deficit at the end of the first period. During the second stanza the tribe outscored the Cats one point to narrow the tip to six at half time. The third quarter brought disaster as the Bobcats out scored the Indians ten points to make the score 36 to 36 at the end of three periods. The fourth stanza brought a furious rally by the locals which

was not quite enough for victory.

George Jewell led the Indians with 21 points while Paul Hatten added 12 markers to the losers score. Everett Wallace took scoring honors with 26 tallies.

This year's Culver Indians finished with a dismal two and 18 record. The only high point of the season was the homecoming victory over Argos. This makes nine straight victories over the Dragons in my four years of high school.

Paul Hatten led the team with a 15.9 point per game average. George Jewell was not far behind with a 14.4 average. Stu Lowry, a junior, averaged 9.9 points per game. Hatten led the Indians in rebounding with 149 rebounds and in free throw percentage with 71%. Jewell led the team in assists with 47. The tribe had a 55 point per game offensive average and a 70 point per game defensive average.

Mrs. Jim Strycker and family in Plymouth and later in the day all visited Mr. and Mrs. Clifford Lahman at Akron.

The Frank Cowen families were Sunday guests in the Eldon Cowen home to celebrate current birthdays.

A tragic thing happened in this community Monday afternoon when the Everett Martin home and its contents burned to the ground. This is the former Everett Goodman home and known to old timers as the old Jim Hay place.

This church is sponsoring a Household and Commodity Shower for the family in the church basement Sunday evening March 5. An invitation is extended to all who desire to contribute and help the family get started again. It is suggested the shower consist of things for the kitchen, linens, bedding and unperishable foods and that no clothing be given. Money gifts will be received.

Should there be some who desire to contribute but cannot come in the evening the church will be open and someone at the church to receive the contributions.

Like all six-year-olds, Peter abhorred washing and came to the dinner table one evening with elbows black as pitch. Sent back to the bathroom for repairs, he dawdled there so long that his mother called "How are you coming, Peter? Elbows clean yet?" "Not clean," he called back triumphantly, "but I got them to match."

## Indiana Bell Telephone Announces \$66 Million Construction Program

Indiana Bell today announced a \$66 million construction program for 1967.

President Roy C. Echols said the company will be spending at the rate of \$1.25 million a week for the second year in a row to accommodate bustling growth in the demand for communications services.

As a measure of this growth, he estimated that Indiana Bell will install 329,000 telephones during the year for a net gain of 58,000.

"Our construction dollars will give us the plant we need to maintain, improve and expand communications facilities," Echols said. "We will be growing with Indiana while also contributing heavily to its economic well-being."

The telephone company's 1967 program includes \$38,518,000 for growth, \$12,661,000 for improvements and \$14,745,000 to maintain the current level of service.

Almost a third of the money will be invested in telephone instruments and associated gear and will pay for the labor to install it in the homes and offices of telephone users.

Other major expenditures will be for thousands of miles of new telephone cable and for switching and circuit equipment installed in Bell buildings to provide local and long distance service.

Equipment expansion projects are scheduled this year in 84 of the company's 149 equipment buildings, Echols said.

The company also will continue enlarging plant capacity to cut in

half the maximum number sharing telephone party lines.

The construction program includes the funds required in 1967 for these specific improvement completing this year and next:

- To introduce Direct Distance Dialing in Spencer and simplify DDD procedures in Kendallville.
- To expand local calling areas for telephone users in Acton, Carmel, Cumberland, Fairland, Fishers, Frankfort, Galena, Greenfield, Greenwood, Indianapolis, Jeffersonville, Lebanon, Mechanicsburg, Michigan City, Mooresville, New Palestine, Noblesville, Oaklandon, Sheridan, Vincennes, West Newton and Zionsville.

- To add outside cable and equipment in telephone buildings and thereby reduce the number of persons on multi-party lines in the Andrews, Buck Creek, Dale, Fairland, Lagro, Rockville, St. Phillip, Sheridan and Waveland exchanges.

- To introduce Touch-Tone service, featuring phones with push buttons instead of a dial, in Columbus, Kendallville and several more parts of Indianapolis.

- To enlarge urban service boundaries in several of the smaller exchanges.

- To add microwave facilities between Evansville and Jasper, Indianapolis and South Bend, South Bend and Michigan City, Michigan City and Hammond, Indianapolis and Lafayette, Evansville and Mont Vernon, South Bend and Frankfort and South Bend and Lafayette.
