Chevrolet introduces 1969.

Caprice. Match this, you other 69's!

There is no joy in the land of our competitors today.
But let us ask you this.
Should we have made Caprice shorter instead of
the longest Chevrolet ever built? Or adorned it with
flashy nicknacks to make it look less expensive?
Just because competition doesn't, should we not
have offered you washers to clean your headlights,

new variable-ratio power steering, liquid tire chain
you can apply to your rear wheels at the touch of a
button?

Should we have given you less power, instead of the
largest standard V8 in its field?

Some people think so.

Our competitors.

'69 Caprice Coupe

'69 Camaro SS Sport Coupe, plus RS equipment

Camaro. Who needs to say "announcing" or "new".
The Hugger.

And just look how it all hangs together. No ginger-
bread anywhere.

We've improved the interior, too. Quieted the ride.
Made the Astro Ventilation ventilate better.

The power range is very impressive.

Standard V8 is 210 hp. SS engines available up to
325 hp. For added SS appeal: sport striping; power
disc brakes; wide oval, road-hugging tires.

Your Chevrolet dealer offers this advice:

Go on, you other sportsters. Gnash your gears and
look tough.

Maybe it will help.

Your Decision Important

The political campaign is now gaining full momentum. It has been a month since the last of the two major parties held their convention and selected their standard-bearer for this 1968 presidential election. A so-called "third party" candidate, George Wallace, has been going strong for some time and it looks like it will be a whing-ding affair from now right through election day, 1968.

The year of a presidential election can be a strange one. The influence of three candidates that everyone knows will get support makes this one the first real topy turvy election in some time. Usually it is just the Republican and Democratic fighting it out with a couple of other also-runs on the ballot. This year, Nixon and Humphrey have a real challenger in Wallace in the presidential election.

There are probably very few that actually believe that Wallace can win an election this year, but there are very many that believe he can draw enough votes to really upset the apple cart for one of the two major candidates.

The much outdated electoral college system of actually making the decision on the president may be completely bypassed this year as making the final decision. Wallace could interrupt the electoral votes enough to shove this matter right back to the House for a decision to be made.

The year 1968 will go down to history possibly as a real turning point in our history. So much is now at stake through one reason or another that decisions made this year could definitely effect the future of our country. That makes the 1968 election year a very important one and in a presidential year, there are also many other offices to be held including of course the entire House of Representa-

tives. Often candidates tag along on the shirtilails of the presidential candidates due to lack of ballot splitting. The third party candidate could have a direct bearing on this.

The voters this year have an important task . . . select the man they feel is right and give him strong support. The issues at stake are most important and the candidates views and promises on these things must be considered. Law and order in the United States has become a very important issue . . . something very unusual for a presidential election. However, something must be done. Viet Nam is probably the one most important issue on everyone's mind also as the war that nobody will win continues taking many lives and millions of dollars.

One could go on and on. The farm problem, the rising taxes, the tremendous spending, the racial troubles, the strikes and other domestic problems that have direct effects on every one of us are all issues. The stand taken by the candidates must be considered.

Many are saying again this election that there is little to choose from in this election. Whether this is right or wrong in your mind, a decision still must be made and an important one it is.

It should be suggested that each and every eligible voter take this 1968 election as serious as any has ever been taken. Listen, read and study the issues at hand and give support to the "Man" who you honestly feel will take some favorable action on these issues. From the presidential election right on down to the county offices many important contests are to be held. You and your vote will have an important say in deciding this election. But first you must be ready to make this decision and now is the time to guide yourself along these lines.

CULVER COMMENTS

I'll take my hat off to the Culver Lions Club. Their donation of \$1,000 to the Band Uniform Fund was an act they can be proud of for a long time to come. The Lions Club has made many donations to worthy causes over the years but they are so quiet about it that many people in the community are not aware of the hard work these men do. If they won't "toot their own horn," we think someone should do it for them.

Ver's old barber shop has become the Republican Headquarters. In the interest of being bipartisan, we would be happy to mention the location of the Democratic Headquarters but can not find it. Local Democrats! Where is your headquarters?

Lately the newspapers have been full of some strange happenings. Take for instance the news story about the couple who were married AFTER they were killed in an accident. I don't see the point unless someone was taking advantage of a two-for-one lay-away plan. I've heard of grooms getting "bombed" at their wedding receptions but this is the first one I ever heard of that got embalmed.

You certainly must have read of the psychiatrist in Australia who has convinced the kindergarten teachers in that country that fairy tales are not the sort of stuff for young ears. According to him "Little Red Riding Hood" is definitely a sexual symbol and can give the 3 to 5 year olds ideas they shouldn't have. Jack and the Beanstalk has got to go too. Do you really want your kids admiring this character who disobeyed his mother, became a thief when he stole the hen that laid the golden eggs, committed cold blooded murder when he ended the giant and finally as a finishing touch vandalized the bean stalk when he chopped it down? Oh well they're some who even contend that Whistler's mother was off her rocker.

CAMPAIGN COMMENTS - To debate or not to debate seems to be the main question lately. Humphrey wants to talk but Nixon hasn't said yes or no. Some people feel that Nixon is afraid he won't look as handsome as Hubert if he appears with him on TV, the general idea being that some women voters will vote for the one that "sends them" the most. Others think that Nixon fears once Humphrey gets started no one else will get a word in edgewise. And to further complicate matters Wallace thinks he should be included, but Humphrey worries that once the third party candidate gets started, he won't get a word in edgewise. Wallace should be more careful in what he says. If he should win and throws everything in the Potomac River as he has threatened to do, someone is bound to get him for pollution.

Have you heard the one about the skunk who didn't work? He was out of odor!

MAJOR POINTS AND MINOR, TOO

It's about time: We give some thought to Fire Prevention Week - and those simple steps which reduce the danger of fire in home, school or factory.

Set aside an evening and go through your house carefully, for instance, discarding junk that could be flammable, replacing worn electric cords, making sure no combustibles are stored near stove or furnace.

This is a good time, too, to review your insurance, says the Allstate Homeowners Service to make sure you have sufficient protection to bring replacement in case of fire or other disaster.

No Tailgating
It's your own life to save. So always give leeway in the home of the brave. And the land of the freeway.

—Robert Fitch, Wall St. Journal

Report From Nevada
Las Vegas: Your research department has been active surveying Las Vegas. I stayed at the Desert Inn, where Howard Hughes is supposed to have his penthouse apt. and no one, including the employes, has seen him. I could plainly see the penthouse apt., and all the drapes were pulled and not a door or window open. What a guy!

Show at the Desert Inn very good. Same for those at the Frontier and Riviera, where Merv Griffin and Arthur Treacher both got big ovations.

Someone said something about the Lido show at the Stardust being at a big bust, or maybe that was something about the gals who appear in the show. I guess that must be it.

Las Vegas is gay, glittering, exciting but it's a good thing there is air conditioning, for it gets hot - although there's no humidity - on the desert. If you're traveling in the Southwest, include Vegas in with Grand Canyon and the other natural wonders of this great area.

"Blow on the head with an axe. Contributory cause, another man's wife."

Culver Military Academy's Football Season Now Underway

Veteran coach Russell D. Oliver is assisted again this year by David L. Nelson and Colin W. Stetson, up from frosh-soph responsibilities. Former South Bend Adams coach Jerry Planutis heads the frosh-soph program, assisted by Jim deArmond who has worked with the team

in the past. Although Oliver is recovering from surgery, he has worked with his assistants in conditioning the team. "We have exceptionally fine spirit and condition and should do better as far as our personnel and record are concerned." Oliver enters his 29th season with a career record of 136-73-14.

Culver inherits experience in its line, but are now looking for more backfield speed during the pre-school workouts. They have four prospects each for the fullback and halfback slots.

Rich Rafes, a junior from Beaumont, Texas, gets the nod for the quarterback position, a substantial jump from third string quarterback and first string defensive work last year.

Co-captain Jon Hobson, Greentown, Ind., will be right tackle, and co-captain Roger Bird, Birmingham, Mich., will take left end. John Crimmins, Angola, Ind., who led the team in pass receptions last year as a junior, is tight end.

Promoted from the third string, Clyde Killian, Logansport, Ind., fills the center spot; Art Flache, Brownfield, Texas, will take left end; and Gene Harrison, Danbury, Conn., will be left tackle. Jeb Terry, Covington, Ga., has been moved from tackle to right guard, and Dave Westbrook, Chesterton, moved from right guard to left guard.

Bill A'Fair, Atchison, Kan., and Tim Moore, Houston, Texas, lead the contest for the halfback vacancies, but three youngbloods are in the running. Drew Dobson, Culver, has come up from frosh-soph status, and he is competing with Mike Cohen, a new boy candidate from Decatur, Ill., and perhaps, fast Lee Couch, Findlay, Ohio, up from the intramural program.

Tom Stead, Flint, Mich., is an-

other candidate for fullback along with frosh-sopher Bruce Lanman, Munster, Ind., who played end last year. Other prospects for fullback play are Jack Curtis, Detroit, Mich., and Roscoe Howard, Petersburg, Va.

New boy candidate Ken Graham, a junior from Evansville, Ind., may help the Eagles at tackle with his 205 pounds, and new boy Chris Sheffler, Dugway, Utah, wants to contribute his experience at end. Tom Jones a reserve letter winner from Fort Wayne will handle kick offs and PATs, and former frosh-sopher Roger Steele, Salem, Va., will punt.

Culver will face three new teams on this season's eight-game schedule — New Prairie, a consolidation of New Carlisle and Rolling Prairie high schools; Bloomington University High School; and Nappanee High School.

Academy Sports

Girded with its first early training program and an experienced defensive squad, Culver Military Academy's soccer team opened its 13-game season on Saturday, Sept. 21 at 2 p.m. Bethany Christian in Goshen.

Returning Sept. 2, a squad of 17 players has begun to show the benefit of its pre school conditioning. The coaching staff, headed by John W. Chadwick, introduced the "circuit training" concept this fall. After determining their own calisthenics and weight lifting proficiency, players set their own stamina training goals.

This is the team's first early training session in six seasons of varsity play. The Eagles ran up a 10-2 season last year and face an expanded 13-game schedule this fall, including games with the Notre Dame and Indiana University junior varsities. Richard W. Lewis and Dr. Brian Wallis are assisting Chadwick.

Culver's entire defense has had at least one season of varsity experience, but the coaching staff is in a major rebuilding effort to replenish the supply of forwards. Only three forwards remain from a string of 14 on last year's squad.

Chadwick says that Culver will be difficult to score against because of its defense, but he adds that the Eagles' ability to score "depends on our ability to solve our forward problem."

Goalie Bob Larsen, East Point, Ga., is entering his third season with the varsity, and Fausto Moscose, Educador, who is considered the most gifted forward, is being tried as an inside forward instead of a wing forward to give more punch to the center.

Shadwick is also moving co-captain Win Roullac up to the forwards to increase the team's experience in that department, and new prospect Rudy Cecalik, Tokyo, Japan, adds experience in the wing position. Fullback Ric Hauer, Fowlerville, Mich., is the team's other co-captain.

Culver's probable starting line-up for the season opener with Bethany Christian places Larsen as goalkeeper; Hauer and Chuck Osmond, Cleveland, Ohio, as fullbacks; Dimitrij Mihovich, White Plains, N. Y., Keeffe Davis, West Point, Ind., and Steve McCaulless, Franklin, Pa., as halfbacks; and Roullac, Cecalik, Moscose, and Steve Brooks and Mitch Padnos, both of Holland, Mich., as forwards.

The Eagles' varsity soccer schedule is as follows:

1968 Varsity Soccer Schedule

Introducing the new Lincoln-Mercury cars. Three different cars you've never seen before for people who have never been in our showroom before.

New Marquis. The most dramatically styled car since the Continental Mark III.

You won't see a medium-priced car like this in any other showroom. Marquis has a dramatic elegance, a majestic beauty that only the creators of the Continental Mark III could make. With this styling and the surprising price, you have no excuse to settle for a dull little car,

New Marauder X-100. Now you don't have to sacrifice comfort if you want a sporty road car.

A full-size road car with more thrills per inch than anything that has ever been in our showroom. You get a choice of bench, Twin-Comfort, or bucket seats; styled aluminum wheels, a horn that blows by squeezing the steering wheel rim, a 429-cu. in., 4-barrel V-8 and rakish fender skirts—all standard.

New American Cougar with a continental accent.

Cougar owners will tell you how much fun they are to drive. That hasn't changed. But the looks have. Compare it to the foreign sports cars. Anything the Europeans can do we can do better. Cougar is now available as a convertible. And Cougar continues to be the best-equipped luxury sports car in its class. A big 351-cubic inch V-8 is standard. So are concealed headlamps, sequential rear turn signals and bucket seats.
