

## LOCAL PARAGRAPHS CURTAILED And Put in Good Form for the Benefit of the Herald's Numerous Readers.

Mrs. W. F. Wilhelm, of Burr Oak, is quite sick.

Dr. Wiseman was in Plymouth Monday on business.

Mrs. John Booth, of the Bay View hotel, is on the sick list.

For Sale—Cheap—Good cow, giving milk. Apply at this office.

Wm. York, formerly of Burr Oak, is now a resident of Culver City.

The 16 to 1 business is also making trouble at the summer resorts.

Mr. and Mrs. Lou Wohlgenouth, of Rochester, spent Sunday at Long Point.

W. W. Duff and wife, of Monterey, visited J. F. Eulitt and family Sunday.

The smiling face of Frank Hauk, of Walnut, was seen upon our streets Monday.

The Bay View Hotel has forty-five guests, who are registered for the season.

We noticed Fred Medbourn upon our streets this week looking pale and hearty.

The old veterans of this section were happy on Tuesday. It was pension day.

Mrs. J. W. Easterday and Mrs. Sheurman are convalescing from a severe illness.

Miss Blanche Barber and Miss Maud Hand visited friends near Argos Tuesday.

Miss Mary Coffin, of Laporte, is stopping at Highlandview cottage on Long Point.

Mrs. Kepler who lives north of Burr Oak, is very sick with typhoid fever and lung trouble.

A new cottage will be built upon the east side near "Hilarity Hill," by Indianapolis parties.

Capt. W. H. Armstrong, of Indianapolis, spent Sunday with Col. Martin at Maxenkuckee.

It would be a mighty good thing if some enterprising man would start a feed store at this place.

A New York farmer has discovered that the army worm is killed when it comes in contact with salt.

Mr. and Mrs. Enoch Myers and daughter are stopping at the Brackett cottage on the East Side.

Frank Pendleton, of Rochester, and Louis Darrah, of Noblesville, spent a few days at the lake.

Mr. Hayes' new residence on Scott street is about completed and will be one of the finest in the city.

W. H. Ingram and wife, of the Democrat-Journal, Winnamac, made this office a pleasant call Saturday.

Mr. Edward Culver and family, of St. Louis, will occupy a cottage at Culver Park for the next two weeks.

Nathaniel Gandy is slowly and surely improving, and at present there is great hopes of a permanent recovery.

Norm Voegli, of Bremen, is visiting with D. G. Walter and family, and also with the family of J. H. Koontz.

E. W. Johnson, Jr., of Long Point, is the crack fisherman of the lake, having landed 50 bass in the last month.

Miss Minnie Armstrong and Miss Maud Mackey, of Rochester, were the guests of Miss Flora Oyler Sunday and Monday.

Poison Ivy, insect bites, bruises, scalds, burns, are quickly cured by DeWitt's Witch Hazel Salve; the great pile cure. **CULVER CITY DRUG STORE.**

Mrs. Kochendorfer and son Fred, of Ohio, returned home Monday after spending several days at Acorn Heights, Long Point.

Prof. Father E. Diermger, of the St. Frances Seminary of Milwaukee, was in town Sunday and attended services with Father Thiele.

A. Garn, of Indianapolis, cousin of the Garn brothers, was in town Sunday visiting his relatives. This was his first visit for 15 years.

C. K. Plank and family and Mrs. Dr. Gould and daughter, of Rochester, and Master Fred Williams, of Nebraska, are stopping at Long Point.

Lightning struck the telephone wires at Hibbard during the late storm completely demolishing them, which "knocked out" the telephone business at this place for several days.

Mrs. Foster Grove, the agent's wife at Hibbard, was brought home from Ohio last Friday in a critical condition. She is afflicted with heart disease.

Many a day's work is lost by sick headache, caused by indigestion and stomach troubles. DeWitt's Little Early Risers are the most effective pill for overcoming such difficulties. **CULVER CITY DRUG STORE.**

W. F. Eulitt, of "The Tent" barber shop, who has been severely under the weather for a week past, has sufficiently recovered to attend to business again in as lively a manner as ever.

A man is mighty low when he will stop a paper because he does not like the editor, and then borrow or steal his neighbor's and read it. We have such specimens of humanity in this town.

Every business man should have letter heads and envelopes with his card printed upon them. The HERALD can furnish them at reasonable prices, and do the work in artistic style.

If you want 16 for 1, do not fail to call at Vanschoiack's and examine his new line of dry goods which has just arrived. He will give you a bargain on these goods and you can wager that they are first-class.

"Boys will be boys," but you can't afford to lose any of them. Be ready for the green apple season by having DeWitt's Colic & Cholera Cure in the house. **CULVER CITY DRUG STORE.**

Split! split!! split!!! The prohibitionists met and split, the Republicans met and split, and the democrats met and split wide open. Such actions in the various conventions prove one thing, and that is that the American voters propose to do their own thinking and voting as they please.

The government finds itself in the embarrassing predicament of being dependent upon a few New York bankers, to sustain and protect the \$100,000,000 gold reserve. The people of any government can not prosper when the government itself is dependent upon a few philanthropic money loaners.

The whole system is drained and undermined by indolent ulcers and open sores. DeWitt's Witch Hazel Salve speedily heals. It is the best pile cure known. **CULVER CITY DRUG STORE.**

Mrs. Samuel wise met with a serious accident Saturday evening. She was milking a cow, when another cow rushed at the one that was being milked, knocking the lady down, fracturing one of her ribs and otherwise injuring her. Dr. Rea was called who attended the case, and the injured party is resting as easy as could be expected.

## ROUNDER'S COLUMN.

What He Sees, Hears and Thinks About Matters and Things.

The Rounder notices with pleasure that the political stump speakers have not made their appearance yet in this vicinity. But then the people will vote as they like this year regardless of party.

The Rounder thinks that it would pay Dr. Wiseman a hundred per cent. to move his office up town somewhere on the central part of Main street. He's too far away for the average lazy man who needs his professional services.

The Rounder would suggest that Main street should receive a little attention by the way of a cleaning. The condition of the street is exceedingly frightful and causes no favorable remarks from strangers who visit the place, as stones and old rubbish are not very beautiful to look upon, and reflects but little credit upon the town.

The Rounder thinks that it is not all "gold" that "glitters." He has heard it remarked that the HERALD should give the saloons a roasting, as it is said that they openly violate the law. We have a law and why don't some of the temperance agitators enforce it? The HERALD might howl itself hoarse, and it would do no good. How many church members are there in town that would enter a complaint against a saloon? not one, and then when church members patronize the saloon, how can you expect to create a temperance sentiment in a community. "O, consistency, thou art a jewel."

The Rounder notices that the common council of Argos has passed a curfew ordinance which prohibits children under 15 years of age from being upon the streets after 9 o'clock at night unless accompanied by their parents or guardians; it also passed an ordinance placing the sale of cigarettes under a license of \$300. It would be a Godsend to this community if our council would do likewise. It would be the means of whipping out the cigarette nuisance in this vicinity; and on the other hand it would be the means of placing the children where they belong at an early hour, viz., at home.

"The summer girl isn't always such a trifling thing as she looks. She has a way of drifting around in resplendent costumes and of talking about nothing in particular and of idling through the hours with an absence of industry or ambition until the world in general gets to thinking of her as a very slight thing. But a woman is a woman even in a Paris costume, as was evidenced the other day, says the Logansport Chronicle. Miss Shipman, who was on a pleasure boat, dressed for a fete at one of the hotels, saw a child fall overboard from a row-boat. The little boy rose and sank, and nobody seemed at hand to go to his assistance. So this particular summer girl got up, handed her parasol to a friend, put her gloved hands together and took a neat dive into the water, caught the child and held it until assistance came. When she returned to the hotel she put her ruined finery in the rag-bag and put on some more after which she probably sat around and talked airy nothing as before."

Ex-Governor St. John, of Kansas, will address the citizens of Argos on the silver question on Monday, August 24, at 2 o'clock p. m. Those desiring to hear one of the most distinguished men of the age should be present. It is especially desired that all prohibitionists should meet in said city at 10 a. m. to consult relative to nominating a county ticket on said day.

## A New Aversion of Things.

Some of the Christian Endeavor people touched the heart of the country and showed their aversion to cant by having "a bicycle run for Christ" the other day. In Washington, Monday, an additional demonstration was made of the good taste and good sense of this modest society, which combines Christian zeal with sightseeing at reduced rates. A Mr. Mills, whose occupation is that of "an evangelist," that is, "Billy" Bryan on the religious stump, heated his poetic temperament to boiling point and "denounced the conduct of the Administration" in regard to the American massacres as "unpatriotic, uncivil, undemocratic, un-republican, un-American, un-Christian, unselfish, weak, barbaric and criminal in the eyes of the American people and of God and all men. After which mild and Christian remarks the thoughtful and intelligent Endeavorers gave six cheers, waved their flags, banners and mouths, and enjoyed themselves as heartily as if they were a Tillman or Altgeld mass meeting. If Christianity consists in bearing false witness, in malice, evil speaking, and uncharitableness, Evangelist Mills and those who applauded him approved themselves as good Christians; and if Christian Endeavor consists in endeavoring to be hysterical, foolish, mistaken and unjust, they are excellent specimens of it. Every American missionary and every American missionary's family in the interior of Turkey would have been butchered if the rash counsels urged upon the Administration had been followed; but it is no part of excursion-rate Christian Endeavor to bother about facts. Badges, emotion, and cheap railroad and hotel rates are its specialties, and they are supplied by its bosses.—Logansport Chronicle.

## D. B. Outing.

The D. B. Club, commonly known as the "Dough Bellies," will leave this city at 8 o'clock Monday morning, August 3rd, for a two-weeks' outing on the banks of the beautiful Lake Maxenkuckee, in Marshall county.

The club members intending to make this trip are the following young men: George Heylmann, Omar Lake, Louis Darrah, Fred A. Tucker, Fred A. Baker, Fred L. Baker, Chas. Shoemaker, Will Lebo, Fred Lucas, Griff Stephenson, Loring Scott, Chas. Johns, Theodore Decker and Ed. Clark, with Judge Gray as mascot and cook.

This jolly crowd of boys will spend their time at the diversions offered by fishing, rowing, reading and the pleasures offered them by the company of the other visitors, whose number is great, to be found at Maxenkuckee. Of course there are some pleasures of the camp life, especially in a jolly crowd of this kind, which are best not told. Music will be one of the features of the camp from their able musicians, which will necessitate a little dancing at the pavilion on the grounds. Of course, the pleasant company of the many "summer girls" who frequent Maxenkuckee will aid the boys in killing the monotony of camp life. Louis B. Darrah will play the part of advance agent, and left this morning. As he says, "I go to prepare a place for you." The boys will keep posted on the doing at home by the daily visit of the Ledger.

They will go by private car of half coach and half baggage via the L. E. & W. to Plymouth, and via the Vandalia to Marmont, Ind.

Their nightly meetings have aided them very much in the practice of telling fish stories.

Any and all callers will be heartily welcomed at camp. A good time and plenty to eat will be the main bill of fare.—Noblesville Daily Ledger.

At the Palmer house the following guests are registered: C. M. Williams, Mrs. B. F. Crab, Crawfordsville; Mrs. H. L. Thomas, Chicago; Miss Mabel Hallenbeck, Mrs. H. P. Bliss and family, Indianapolis. John Giebben, Terre Haute; Mr. and Mrs. Louis McDonald and Miss Kit McDonald, Plymouth; Mr. and Mrs. L. M. McDonald, Miss Kittie McDonald, and Miss Huston, of Chicago; Mrs. Wm. Whitney, of New York City.

## A BIG CROWD.

At the Lake Sunday—Fourteen Car Loads of Excursionists from Indianapolis.

Last Sunday for the first time this season, Culver City took on the appearance of a resort town, as perhaps there were between twelve to fourteen hundred people from this vicinity and abroad at the lake. Notwithstanding that on every Sunday previous for the past two months it has rained, it was a beautiful clear day Sunday and the lake shone resplendent in its crystal beauty and was greatly admired by hundreds who had never seen the lake before. Fourteen carloads of humanity came from the south over the Vandalia on the special, and four or five carloads from the south upon the regular train. Considering the vast crowd present, everything passed off pleasantly. The hotel and restaurant men were jubilant and the magnificent steamboats did an excellent business. It was indeed a picturesque sight to look out upon the lake and see the hundreds of row boats, yachts and naphtha launches flitting here and there like so many fairies in "dreamland." The gambler with his little shell game made his appearance, but was quickly given to understand by the marshal that if he attempted to do business he would suffer the consequences of violating the law, as "law and order shall prevail, and under no circumstances will gambling be permitted."

## Democratic Editors Meet.

The Democratic State Editorial Association met at Maxenkuckee lake Friday and Saturday, July 31 and August 1. On account of the washouts on the several railroads and other inconveniences which delayed the trains, the attendance was somewhat meagre.

The president, F. D. Haimbaugh of the Muncie Herald, delivered a very eloquent address which was received with marked satisfaction by those present.

J. W. Barnes of the Logansport Pharos, Daniel McDonald of the Plymouth Democrat, and N. G. Hunter of the Wabash Times, were appointed a committee on resolutions.

Louis Holtman for the committee reported a complete codification of the laws in relation to legal publications, which was ordered to be published in book form. It will be a valuable addition to the law libraries of the state.

There was reported, adopted and ordered printed and circulated a new constitution and by-laws.

Papers were read on the "Mechanical Department," "Editorial and News Department," "Business Management," "Advertising Agents," and "The National Editorial Association."

The meeting was free from politics, the Association having passed a resolution to that effect at its January meeting.

Mr. Hunter from the committee on resolutions made a report embracing the resolutions as passed and thanking the Vandalia railroad company through W. F. Brunner, Assistant General Passenger Agent, and others about the lake for courtesies extended, and then the Association adjourned to meet again at the call of the secretary.

Last Saturday morning the Dave Perrine's "New Show" arrived in Culver City, and the appearance of the concern led one to believe that it was no good. In the evening, promptly at 8 o'clock, the show commenced, and probably out of mere curiosity a large audience was present who were willing to be humbugged to the tune of a quarter. But to the astonishment of those in attendance from start to finish every actor proved himself to be a star of the "first water" and everyone pronounced it to be the best 25-cent show they ever attended. The trapeze performance was simply immense and the funny clowns kept the audience in an uproarious laughter most of the time, in fact Dave Perrine's show is all right, and we bespeak for it a liberal patronage wherever it exhibits.

A dance was held at Ivy Cliff Cottage, Long Point, Tuesday evening. Music was rendered by the orchestra of the "Dough Belly" club of Noblesville, Ind.

# VICTORIA TO RETIRE.

## BRITAIN'S QUEEN DESIRES TO END HER DAYS IN QUIET.

Rumors of a Transfer of the Crown Again Revived—Feels the Weight of Years—Condition of Her Majesty's Health Is Precarious.

Throne Will Go to Wales. The rumor that Queen Victoria intends to retire in favor of the Prince of Wales is again current in London, and it is added that court circles are greatly troubled regarding the condition of the queen's health. Such reports have frequently appeared in recent years, only to be semi-officially contradicted later. But it now seems that there may be some actual foundation for the statements made. It is added that her majesty has decided to spend her time in future at Balmoral or at Osborne, and that she will give the prince and princess of Wales the use of Buckingham palace and Windsor Castle. There is no doubt that the queen seems to feel greatly the weight of her years and bereavements, and her majesty is quoted as having repeatedly remarked during her last stay in London at Buckingham palace, upon the occasion of the recent

QUEEN VICTORIA.

marriage of Princess Maud of Wales to Prince Charles of Denmark: "This is my last visit to London."

### Reigned Nearly Sixty Years.

Queen Victoria first saw the light in Kensington palace May 24, 1819, and ascended the throne June 20, 1837. She is the only child of Edward, Duke of Kent, fourth son of George III., and of the Princess Louisa Victoria of Saxe-Coburg. Abraham Lincoln was then a 10-year-old boy, Gladstone ran about in pantalettes with frills to them and probably trundled a hoop, while Lord Salisbury had not as yet come into existence. The Duke of Wellington was fresh from his triumphs at Waterloo, and Daniel Webster was in the zenith of his fame.

Feb. 10, 1840, Victoria married her cousin, Prince Albert of Saxe-Coburg-Gotha, with whom she had long been deeply in love. It proved, as every one knows, a most happy union. During their twenty-one years of married life they were blessed with nine children—four sons and five daughters. George III. is the only English sovereign who has occupied the throne for a longer period than Queen Victoria. During the fifty-nine years of Queen Victoria's rule the population of the mother country has increased from something under twenty-six millions to close on forty-five millions, and that of the colonies has steadily grown from four millions to seventeen millions. As Empress of India her rule extends over nearly one and a half million square miles with a population of 275,000,000.

### Albert Edward Is 55.

Albert Edward, Prince of Wales and heir apparent to the throne of Great Britain and Ireland and the Empire of India, was born at Buckingham palace Nov. 9, 1841. He studied under private tutors for several years, passed one session of the University of Edinburgh, spent a year at Oxford, where he attended lectures, and for four years pursued his course at Cambridge. In 1860 he paid a visit to the United States and Canada, where he was

received with the distinction due to his rank. Albert Edward's titles are multitudinous. He is a K. C., a general of the army, colonel of hussars, Duke of Cornwall, Duke of Rothesay, Baron of Renfrew and Lord of the Isles of Scotland, Earl of Dublin and Carrick in Ireland, and enjoys the patronage of twenty-nine livings in the church as Duke of Cornwall. His marriage with Princess Alexandra of Denmark took place March 10, 1863. He was chosen president of St. Bartholomew's Hospital in 1867. At the close of the year 1871 he was seriously ill with typhoid fever, which was about the only dangerous sickness he ever experienced. The dignity which he esteems most highly was conferred upon him in 1874 by his election as grand master of Freemasons of England.

A cornered bicycle thief, who had within two days left two stolen wheels in a shop at Providence, R. I., pounced through a large plate glass window and shot two men who stood in his way of escape.

# THE WHOLE GANG OF CHICAGO ROBBERS NOW UNDER ARREST.

After five months of terror, caused by a series of the most daring robberies ever perpetrated in any city, Chicago now rests easily, for the perpetrators are in custody. For some time the police have had out their drag net and have arrested every suspicious character they have

found in the city limits. More than a hundred have been hauled into the cells, but it is now almost certain that only ten men have been implicated in the robberies. These ten are Red Sullivan and John Orme, the leaders of the gang who have become famous as "the long and the short men." Thomas McGowan, Michael Monahan, James Dempsey, Barney Hunt, Alfred alias "Sleepy" Burke, Joseph Gordon, Jesse Thames and John McLane. The police are still looking for Jesse Thames. The others are under arrest.

All of the prisoners are under 22 years of age, but are old in crime. Some of them were waifs and bootblacks who never knew a home; others are the vicious children of respected parents. It was while confined in the Pontiac reformatory last year that a criminal organization was formed among them, at the instigation of Orme, who is 21 years old. An oath bound each member of the society to the other by a pledge of death. Any one who betrayed another member of the society was to be put to death. If arrested and put on the witness stand and he told the truth there, he was to be shot in the court room. If he was put in a police sweat box and betrayed his comrades a bullet was to end his existence at the first opportunity. On the other hand, if one of them was captured and remained loyal, every effort was to be made for his re-

lease. Money was to be used and this failing, it was arranged that the others were to go into whatever court room their associate might be in with their pistols, stand off the bailiffs, shoot down the police who might resist them, and fly with the rescued one. In the event rescue in a court room was not favorable, they had another scheme for rescue. That was to follow the train on which their convicted associate would be, hold it up when it was in the country and take him off. That is the kind of young fellows the police department has been fighting against all spring and summer. Chief Badenoch says that in his lifetime and with the knowledge which he has of once famous Chicago criminals, he has never met with a more bloodthirsty or better organized band of thieves than the one which Orme put together.

In February the gang who had finished their terms at the reformatory began their depredations. Citizens were held up on their way home at night. In almost every instance assault followed the robbery and the victims in some cases were found unconscious in the streets. The thugs transferred their operations to the large stores and the depredations there have been alarming. More than a score of business places have been robbed and one murder has been committed. That more lives have not been sacrificed is due to the fact that the robbers have not met with resistance, for they were prepared at all times to shoot down whoever opposed them. Their method almost invariably was to enter a store, draw revolvers, get the drop on all present and then grab the money box and escape before the frightened proprietors, employes or customers could regain their senses sufficiently to act. Sometimes two men did the robbing, sometimes three, four or five, but in nearly every case a tall man and a short man took a leading part, and fully half the robberies were committed by these two without assistance. The tall man was very thin. The short man had a red face covered with blotches and pimples. For weeks the police seemed dumfounded. Almost in their sight the robbers operated as boldly as if no police officer existed.

The activity displayed by the gang was something surprising and the detectives never knew where they were going to operate next. One night they would do a job in the center of the city and a few hours later they would complete another ten miles away. This they kept up for weeks. Finally about two weeks ago Red Sullivan was captured while drunk and from him was obtained information which led to the arrest of the others. Orme, Dempsey and Monahan were the last to be arrested. They were captured in Detroit, where they had laid plans for similar work.

Orme, the leader, is a good dresser and would be taken for a student. There is nothing about him to suggest a criminal and on this account he succeeded so well. Orme generally walked into the stores first and the soft smile on his face would disarm suspicion until he got close to the person he intended to cover, when he would pull out the big revolver and shove it at the man, saying in a low voice: "Now be quiet or I will blow daylight through you."

Another blue book on Venezuela has been issued by the English foreign office.

# OVER FORTY DEAD.

## FLYING EXPRESS CUTS EXCURSION TRAIN IN TWO.

Awful Disaster Occurs at a Crossing Near Jersey City—Reading Express Catches a West Jersey Excursion Broadside—Sixty Are Injured.

Scores Are Killed. A flying express train on the Reading and Atlantic City Railroad crashed into a West Jersey Railroad excursion train at the crossing of the two roads Thursday night. At least forty people were killed outright and about sixty injured. Of the killed twelve were women, twenty-four men and four children. The crash was the most disastrous in the history of eastern railroad traffic.

The accident was the result of a collision between the 5:40 p. m. express train from Philadelphia over the Reading and Atlantic City Railroad and an excursion of Red Men from Bridgeton, N. J., and vicinity, returning from Atlantic City, over the West Jersey Railroad, at the crossing of the two roads a short distance out of Atlantic City.

At the second signal tower the tracks of the two roads cross diagonally. The Reading train was given the signal, but it either failed to work or the speed of the express was too great to be checked in time. It caught the excursion train broadside and plowed through it, literally cleaving it in twain. The engine of the Reading train was shattered to pieces. Every car was jammed to its fullest capacity.

As soon as the news reached Atlantic City the utmost consternation prevailed. Relief trains were dispatched to the scene, loaded with cots and bearing staffs of surgeons. As fast as the bodies were recovered they were carried into the local hospitals and undertakers' shops. A general fire alarm was sounded, and the department promptly responded and aided in the work of digging for the victims.

The worst fears were realized as the vigorous work of the relief gangs revealed the awful extent of the disaster. The first Reading relief train bore into the city twenty-seven mangled corpses, men, women and children. The next train, not an hour later, carried fifteen of the maimed and wounded, and two of these died soon after reaching the city.

### Hospitals Overtaxed.

As train after train was hurried to the scene of the wreck and came back with its ghastly load the sanitarium which does duty as the city hospital quickly found its capacity overtaxed. Meanwhile others of the dead and injured were being carried to the private hospital at Ocean and Pacific avenues.

Edward Farr, engineer of the Reading train, was killed outright, as was another road man who rode on the engine with him. This man saw the collision coming and leaped from the cab an instant before the crash. Almost at the same instant the engine cut its way through and caught him directly in its path. His body and that of Farr were found under a heap of debris, but the engineer lay in what remained of the cab and his right hand still grasped the throttle. He had been faithful unto death and met it at his post. The fireman on the train had leaped a few seconds before and escaped with trifling injuries.

### Not Known Who Is to Blame.

The excursion train was made up of fifteen cars, the foremost of which was a baggage car. This and the next two coaches caught the full force of the crash and were utterly demolished. What remained of the third car was tumbled into a ditch at the roadside. The responsibility for the accident cannot now be fixed.

Charles C. Rynick, of Bridgeton, who was in the excursion party, was in one of the rear cars. "When we saw that a collision was unavoidable," he said, "the scene in our car was terrific. Women fainted and men rushed in mad panic for the door. But it came almost before we had time to think. One car was cut right in two and the lower portion of it lifted bodily from the track and tumbled over. The roof of one of the cars fell in a mass and everybody in that car was buried under it. It simply dropped on top of the people. I don't know who is to blame. When we were about two miles out from Atlantic City, N. J., we came to a stop out in the meadows and stayed there for several minutes, but I do not know why. I think there must have been fully eighty or 100 killed. The only person with me was my 6-year-old son, and he was not hurt."

Fourteen of the injured are reported to have died at the sanitarium.

Superintendent I. N. Swigard, of the Philadelphia and Reading Company, places the number of dead at thirty-seven and the injured at about the same number.

William Thurlow, the operator at the block tower situated at the crossing, has been placed under arrest by order of the coroner.

### Scene at the Fatal Place.

An Associated Press reporter was on one of the first relief trains sent out by the Pennsylvania Railroad. The train was in charge of a number of railroad officials and Prosecutor Perry of Atlantic City. It drew up in the darkness a few feet this side of the fatal point. Staggering in and out of ditches and stumbling over masses of broken timber, with only a few lanterns, the rescue gang set bravely to work. Axes and shovels were piled with the greatest vigor, and almost at every half a dozen strokes a mangled form was brought up and laid tenderly on the pallets. It was a terrible task, and the strongest of men turned aside, faint from the revelations of the workers.

A heap of blood-stained timbers, turned aside by one of the rescuers, brought to sight a woman's arm. It had been wrenched off at the shoulder.

Not five minutes later a chance blow from a pick revealed a hurran heart.

# SOL MAKES 'EM SIZZLE.

Intense Heat Is Recorded in Many Cities and Towns.

Reports received by telegraph from the principal cities and towns of the West and South bring tidings of unusually hot weather. Following is a sample of the temperature in various parts of the country Wednesday:

Little Rock, . . . 100 Jacksonville, Fla 96  
Dodge City . . . 100 Memphis . . . 96  
Indianapolis . . . 96 Atlanta . . . 94  
Cincinnati . . . 96 New Orleans . . . 92  
Kansas City . . . 96 Chicago . . . 92

If a line were run from Canada down through the western boundary of Nebraska to the Gulf of Mexico, to the east of it would lie that portion of the country where the mercury hovered all day in the 90's. The coolest spots were: Boston, 84; New York and Galveston, 88. In the morning the center of the hot wave was over Duluth. Last night it had sneaked to Lake Huron.

In Cincinnati many men were overcome by the heat. St. Louis reports thirty-four persons prostrated by heat, and many of them will probably die. Thirty-six horses fell dead on the streets, and scores of dogs were driven mad by the high temperature. The thermometer marked 98 degrees, and the suffering was increased by the humidity in the atmosphere. Two deaths were reported—Frederick Tousseint, a tailor in the Southern Hotel, and Richard Tassell, a laborer. Martin Taylor, a street cleaner in Cincinnati, died, and M. Kobald, a baker, is in a critical condition. A number of horses fell dead in the street. In Louisville the hot weather record for fifteen years was broken. The thermometer registered 98 degrees in the shade. Two laborers died from heat prostration.

In Illinois there was great suffering from the heat. In Quincy the hottest day of the year was registered, the mercury marking 100 degrees in the shade. There were numerous prostrations, but none of them serious. Thermometers on the streets in Chicago registered as high as 101 degrees at 6 o'clock in the evening, but the instrument in the tower of the Auditorium marked 92 as the highest. Many prostrations but no deaths were reported. Wabash, Ind., sweltered under 99 in the shade, and a shower did not help matters at all. In Topeka, Kan., they had winds, but the winds were like wafts from a blast furnace. Life there was a burden to man and beast, but the corn crop is safe.

### STORMS IN INDIANA.

Sad Devastation Is Caused—Houses Wrecked and Crops Ruined.

Tuesday afternoon the entire south part of Wells County, Indiana, was swept by a heavy hailstorm. Wednesday afternoon at the same hour a cyclone swooped down on territory only a few miles north, clearing everything before it. Orchards were destroyed and a barn belonging to Robert Gavin, one of the largest in the county, was blown down, burying cattle and horses in the debris. At Liberty Center, a number of residences were blown down and the Methodist Church was unroofed. A house at Petroleum was blown to pieces. The Clover Leaf railway between Bluffton and Liberty Center was covered with fallen trees. In the vicinity of Warsaw the loss of crops is dreadful and little will be saved. Corn, potatoes and unthrashed wheat and oats are ruined. Near Wabash the hailstones were of extraordinary size and badly punished stock exposed to the storm. The corn in many places was whipped to ribbons. There is yet a great deal of wheat in the shock, and all of it is molding or sprouting and practically worthless at Crawfordsville. The downpour was accompanied by terrific lightning and thunder, barns, trees and houses were struck without number, and many animals killed. A washout on the Vandalia threw an engine and five men into Walnut Fork creek. Two of the five were instantly killed and others injured.

### CAMPAIGN LITERATURE.

Headquarters of Both Parties Behind with Orders.

It was stated at the Democratic congressional campaign headquarters at Washington Wednesday that the entire force was buried under the demands made for literature to be used in the campaign. In reply to a question as to whether requests were for silver literature, the official in charge responded: "Entirely; we get no other requests." The committee is far behind its orders in the matter of documents and a larger force will be employed in the mailing and folding departments.

At the headquarters of the Republican congressional campaign committee there seems to be a larger force employed and already tons of documents are being sent out. Vice-Chairman Apsley says that the demand is for financial literature and tariff literature. The committee is now supplying a very large amount of tariff documents to every section of the country. The silver forces are making arrangements for temporary headquarters. These headquarters will be maintained until the Democratic national headquarters are permanently established and the silver headquarters will be established at the same place.

### WATSON SPEAKS OUT.

Will Not Resign His Place on the Populist Ticket.

Thomas Watson is out in a strong editorial in his paper stating his grounds for accepting the nomination for Vice-President from the Populist national convention. He refers to Mr. Sewall as an individual of standing, and a free-silver Democrat, but adopts the argument elaborated on at St. Louis, that the nomination of a Populist for second place was necessary to preserve the autonomy of the Populist organization, especially in the South. The editorial is accepted not only as a letter of acceptance, but also an official ultimatum that propositions of withdrawal will not be considered by Mr. Watson or the Populists, and that the case now rests with Mr. Sewall.

# TO HELP THE INSANE.

## NEW METHODS PREVAIL IN WISCONSIN.

Chronic Cases and Acute Cases Kept Apart—Doors Left Unlocked and Intelligence of Patients Appealed To—Regular School Maintained.

### Boon to the Afflicted.

What is known as the Wisconsin system of caring for the insane is attracting the attention of physicians, philanthropists and people engaged in the care of dependent classes throughout the country. The ordinary method of caring for the insane consists in building large establishments which contain from 500 to 2,500 inmates. It is very common in many

States to have asylums that hold 1,200 and 1,500 patients. In these great asylums the acute and chronic are mingled to a greater or less extent. It often happens that there are patients in these asylums who have been inmates for twenty years. It was formerly supposed that the mingling of the acute and chronic insane was beneficial from a psychological point of view. It is now not generally believed that the mingling of the acute and chronic insane benefits either class. It is not generally believed that locking up a man who has been insane for a short time only with one who has been insane a long time has any remedial influence upon either one. The Wisconsin idea is to abandon these mammoth institutions and to keep the chronic insane, the majority of whom are incurable, away from the more recent cases.

SUPT. GORDON.

Hospitals, Not Asylums, Needed. There are in Wisconsin twenty-two county asylums for the chronic insane, which are scattered throughout the State, and two State institutions for the treatment of the recent cases of insanity. One of these institutions, the Northern Hospital for the Insane, is located near Oshkosh. At this institution a number of modifications of former methods of treatment have recently been introduced, and a vigorous effort is being made to make this institution a genuine hospital, leaving out all asylum features, a true hospital being a curative institution and an asylum merely a house of refuge.

The diet of the patients has been materially changed from former times. Strong tea and coffee are no longer given, but in their place large quantities of milk are used. Patients are accorded a greater variety of vegetable diet and not so much meat as formerly. Every week there is a picnic, where good music is furnished, and dancing is indulged in. Refreshments are served after. The popular magazines of the day are more liberally supplied than heretofore. Bus rides are used to a large extent, and are supposed to have a helpful influence. The disposal of the sewage has been materially altered. Considerable attention has been

given to promoting the comfort of the employes. A separate dining room has been fitted for them, also a reception room for their especial benefit. Inunctions of oil and massage treatment have been introduced and form a prominent feature in the treatment of the insane. A very humane feature is the leaving of the doors of the patients unlocked at night, and the night force has been increased, so that the ancient method of locking a patient in his room for the night no longer obtains. In the old days the attendants shaved the patients in the wards. A barber shop has been opened up in the basement, where skillful tonsorial artists attend to the wants of the household.

A most recent departure is the introduction of a hospital school, where arithmetic, geography, writing, spelling and United States history are taught. Think of insane patients going to school, and apparently not only acquiring benefit from the commingling and the arousing of thought, but actually enjoying it. A professional teacher is employed, a regular program goes through with, and the results thus far obtained give assurance that this may form the basis of a revolution in insane hospital management. Each day, too, in the main dining room, which also constitutes the auditorium of the institution, literary and musical exercises are had, being participated in generally, or at least listened to by the patients. Dr. Gordon, who for years has made mental phenomena a study, believes that if he can divert the minds of his patients from the morbid, visionary and unreal images and subjects that now fill them the battle is won. Therefore, his whole struggle is along that line. It is only fair to him to say that he has accomplished wonders in his short incumbency. In all his efforts he is ably seconded by his wife, an estimable and handsome woman, whose natural kindness prompts her to many noble and alleviating acts among the fortunate unfortunates that the Wisconsin Northern Hospital shelters.

NORTHERN HOSPITAL FOR THE INSANE.

## WOMAN'S INFLUENCE.

The influence of women upon the civilization of the world, could never be measured.

Because of her, thrones have been established and destroyed. The flash of her eye, the touch of her hand, and we have the marvellous power of women, glorious in the possession of perfect physical health.

Lydia E. Pinkham, by her wonderful discovery of the "Vegetable Compound," has done much to place this great power in the hands of women.

She has lifted thousands and thousands out of the misery brought by displacement of the womb, and all the evils that follow diseases of the uterus.

The "Vegetable Compound" restores natural cheerfulness, destroys despondency, cures backache, strengthens the muscles, restores the womb to its normal condition, and you are changed from a physical wreck to the joy of your home and friends.

By the way—the leading druggists tell us that the demand for Lydia E. Pinkham's Vegetable Compound is simply beyond their power of understanding, and what is best of all, it does the work and cures where the best physicians utterly fail.

## Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co., only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

## Our I's and Other Eyes.

Our I's are just as strong as they were fifty years ago, when we have cause to use them. But we have less and less cause to praise ourselves, since others do the praising, and we are more than willing for you to see us through other eyes. This is how we look to S. F. Boyce, wholesale and retail druggist, Duluth, Minn., who after a quarter of a century of observation writes:

"I have sold Ayer's Sarsaparilla for more than 25 years, both at wholesale and retail, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. I believe Ayer's Sarsaparilla to be the best blood purifier that has been introduced to the general public." This, from a man who has sold thousands of dozens of Ayer's Sarsaparilla, is strong testimony. But it only echoes popular sentiment the world over, which has "Nothing but words of praise for Ayer's Sarsaparilla."

Any doubt about it? Send for the "Curebook." It kills doubts and cures doubters. Address: J. C. Ayer Co., Lowell, Mass.

## ITS FACE RESEMBLES A MAN'S.

The Dugong Is the Funniest Fish Afloat.

The dugong is certainly the queerest animal that ever came out of the sea.

This dugong was captured by a British man-of-war, near Aden, in the Red Sea. When the animal was cut open a young one was found inside her. The measurements of the mother dugong are: Length, 8 feet; greatest breadth, 1 foot 10 inches; longest finger, 7 inches; breadth of head, 10 inches; length of head, 12 inches; greatest breadth of tail, 10 inches. The child is 2 feet 6 inches in length, 6 inches in breadth and its tail at the greatest breadth measures 10 inches.

The resemblance of the dugong to a human being is very striking, but very grotesque. The animal seen here looks

MOST CURIOUS FISH IN THE OCEAN.

like an immensely fat old man, with unnaturally short arms and wearing trousers that conceal all of his legs, but his feet.

This dugong has a round head, bald at the top, with side whiskers, and clearly marked nose, mouth, and ears. Her hands are of enormous size, especially the fingers. One may note that the length of the longest finger measures seven inches. It would be unpleasant to have such a finger put into any one. The fingers are used for the purpose of scratching up the mud. They are somewhat human in form. She has no arms to speak of.

The skin of the dugong is a whitish green in color, and is sprinkled with coarse hairs. The color of the dugong, as well as its form, gives ground for the supposition that it is the mermaid of mythology.

## ANOTHER GOOD MOVE.

The Illinois Central Adds a New Fast Day Train to Its Chicago-St. Louis Service, the Diamond Special Continuing as Before.

Beginning Aug. 1 the Illinois Central will add a new solid fast vestibule day train to its Chicago-St. Louis service, which will make the run between the two cities in eight and a half hours. It will be known as the "Daylight Special," and will leave Chicago at 10:35 a. m., arriving at St. Louis at 7:04 p. m.; returning, leaving St. Louis at 8:32 a. m. and arriving at Chicago at 5 p. m. It will carry a free reclining chair car and an elegant Pullman combination parlor and buffet car. This in addition to the regular night train, the Diamond Special, with its free reclining chair car, its elegant Pullman full compartment sleeping car and Pullman combination sleeping car containing buffet, state rooms and open sections, which will continue to leave Chicago at 9 p. m., arriving at St. Louis 7:24 a. m.; returning, leaving St. Louis at 9:10 p. m., and arriving at Chicago at 7:35 a. m.

These trains will, in every sense, be solid through trains of the Illinois Central Railroad for the entire distance between Chicago and St. Louis, but they will both run via a new route from Pana to St. Louis, i. e., over the tracks of the Big Four Route, the line between Chicago and Pana being over the Illinois Central via Clinton—regular route of the Diamond Special. Trains make regular stops in both directions in Chicago at 22d street, 30th street, Hyde Park and 63d street stations, for the accommodation of patrons to or from the Kenwood, Hyde Park, Pullman or South Chicago districts of the city.

### Summer Resorts on the Monon.

The summer resorts on the Monon Route are more than usually popular this year. West Baden and French Lick Springs, in Orange County, are overflowing with visitors, and the hotels have all they can do. Paoli, the county seat, has opened a rival sanitarium, which is well patronized. The waters of the various springs differ materially in their constituents, and are successfully prescribed for a great variety of maladies. The woods in the neighborhood abound in game and all the streams teem with fish, some of them having been stocked by the government fish commission. All indications point to West Baden (and the neighboring springs) as the great sanitarium and popular summer resort of the West.

Cedar Lake, forty miles from Chicago, is a favorite picnic and outing spot, where the Monon has a fine wooded park of nearly 400 acres. The fishing is first-rate.

The South is destined to be, and is rapidly becoming, the garden of the United States. Here life is easier to live, the rigorous winters do not eat up the fruits of the toil of summer, nor are the summers so trying as many Northern people have supposed. "I used to live only half the year," said a Northern farmer recently settled in the South, "and I used to work all the time then. Now I work half the time and live all the year through."

Homeseekers' excursion tickets will be sold over the Monon Route to nearly all points in the South at the rate of one first-class fare (one way); tickets good returning on any Tuesday or Friday within thirty-one days from date of sale. Liberal stop-overs are allowed. These excursions start (and tickets are sold) Aug. 17, 18 and 31; Sept. 1, 14, 15; Oct. 5, 6, 19 and 20. Call on Frank J. Reed, agent of the Monon Route, for further information.

### A National Holiday.

The only holiday that exists in the United States by statutory enactment is Labor Day, which, during the second session of the Fifty-third Congress, was made a holiday in the District of Columbia. Congress has frequently recognized the existence of others, but with this exception, has made no statutory enactment on the subject. On Washington's birthday and on Decoration Day Congress invariably adjourns, "out of respect to the illustrious dead," but not even the Fourth of July is recognized on our national statutes as a holiday. Nearly all the States, however, have, through their legislative bodies, recognized the various common holidays as legal.

Wednesday the Democrats of the 13th district met at Knox, Starke county, for the purpose of nominating a man for congress. The convention was called to order at one o'clock and Hon. John B. Stoll, of the South Bend Times was made permanent chairman, and was escorted to his seat by a committee. When he appeared before the convention he was enthusiastically cheered, and made one of the best short speeches we have heard this year concerning Democracy in politics and the silver question. Resolutions were framed and read which endorsed the Chicago platform and pledged the support of the 13th district to Bryan and Sewell. After the reading of the resolutions, the balloting for the candidates commenced. The first ballot revealed that Killison was the strongest man at the convention, and the second nominated him amid the cheers of the entire convention. Valentine Zimmerman was there, one of the defunct candidates and in a half hour's harangue revealed the fact that he was a "big chump" and the convention congratulated itself upon his defeat. Judge Burson, another candidate, made a neat five minutes' talk wherein he commended the convention upon its able choice and pledged his support. The winner, Hon. Chas. Killison, was not present, but we believe the Democrats of the 13th could have made no better choice. Killison is well known in this state and especially in Marshall county. His ability to cope with the many tangled up questions connected with the monetary system of our government is unquestioned. He is one the very brightest men of our county, and one of its leading attorneys. If he is elected he will make a record in the halls of congress.

James A. Leek, arc light trimmer for the Citizens' Electric Light and Power company of Terre Haute, and brother of Albert Leek, of this city, met with a horrible death Tuesday, July 28th. The light on the corner of Fourth and Sycamore streets went out, and Leek, who had charge of that district, drove up to repair it. He let the lamp down and remedied the difficulty. The light being all right he took the crank he had with him and proceeded to raise the lamp. No sooner had he touched the iron than the shock came. Death did not come instantly for a cry escaped him and he was heard to say "My God, save me, pull me loose." Scarcely had the words escaped when he fell back lifeless. The remains were taken to Lacon, Ill., his former home, for interment.

The voting population of the United States in 1856 was 4,000,000; at the last presidential election it was 12,000,000; at the next presidential election it will probably be in excess of 13,000,000. These figures show the rapid growth in population. And they also suggest that more and more stringent provisions should be made to protect the purity of the ballot box. Thirteen million men marching to the polls to express their sentiments is a sight worthy of this Republic.

It is reasonable to conclude that one of the great factors in bringing on panicky times, has been due to the clash between capital and labor during the past few years. The capitalist is slow to invest his money in a business in which he is compelled to employ labor, realizing that labor unions have it within their power to dictate prices for services rendered and to compel the reinstatement of those men whom he may see fit to discharge. The capitalists are therefore looking for investments in government, state and municipal bonds, and it is this class largely, who are pleased to see our government in the humiliating predicament of being compelled to issue bonds, at the option, and at times suitable to the convenience of a few millionaires.

One thing is certain, if the town board does not at once take measures to drain off some of the water holes standing inside the corporation there will be an epidemic of diseases which will be dreadful and most disastrous. The water between Bradley's restaurant and the log cabin barber shop, if left where it is at present, will in a short time become very offensive and contagious, and the ditch running past the Harris residence to the lake should be tiled and filled up, as the water is already very stagnant and dangerous. This may cost something but may and will save sickness, and perhaps death.

This is a peculiar world. One is struggling for justice and another is fleeing from it. One man is saving to build a house and another is trying to sell his for less than cost to get rid of it. One man is spending all the money he can make in taking his girl to the theater and buying her flowers, with the hope of making her his wife, while his neighbor is spending what gold he has in getting a divorce. One man escapes all the diseases that flesh is heir to and gets killed on the railroad. Another escapes a scratch and dies with the whooping cough. One man stands off his creditors and goes traveling, while another pays his debts and stays at home.

Disapproval of the action of the Chicago convention has had some influence in the market the past week, but a far more important factor has been the feeling that the financial future is still uncertain. This acute attack of doubt, coming at a time when business is for other reasons seriously depressed, has made the week unusually gloomy in speculative circles. The average price of sixty active railroad stocks has declined from \$47.22 to \$44.79 per share, and the average of Trust stocks from \$47.30 to \$44.48 per share. The operations of speculators caused nearly all the decline, but they would not have been able to depress prices in this fashion had there not been a prevailing sense of distrust.

And Put in Good Form for the Benefit of the Herald's Numerous Readers.

Read Meredith's new ad. in this issue.

Mr. Wm. Dillon, of Fulton county, was in town on business Thursday.

There will be preaching at the M. E. church next Sunday evening.

Good No. 1 Timothy hay, mowed without a drop of rain, for sale at \$12 per ton, delivered anywhere around the lake. D. A. SNYDER.

The Plymouth Independent everlastingly scored "saintly" Brooks of the Republican recently, and in a column article told a whole lot of truth.

Rev. Burton, formerly pastor of the M. E. church at this place, now of Hamlet, is upon the sick list and has not been able to preach for several weeks.

Don't trifle away time when you have cholera morbus or diarrhoea. Fight them in the beginning with DeWitt's Colic and Cholera Cure. You don't have to wait for results, they are instantaneous, and it leaves the bowels in healthy condition. CULVER CITY DRUG STORE.

Great damage has been done to the wheat and oats in stack and shock by the repeated rains of the past few weeks. In some instances the wheat has sprouted in the shock, and oats has been so thoroughly soaked as to render it absolutely worthless. The crop was none too good to begin with, and this further loss will entail hardship upon the farmers that they are hardly able to bear.

Judge and Mrs. Capron, and Mr. and Mrs. John Capron opened their summer cottage on Long Point on the rippling Maxenkuckee last Saturday. It is a two-story frame building, and occupies a beautiful spot in a cosy oak grove near the Arlington hotel. We envy them the cool and refreshing breezes that fan their favored cheeks these "dog days."—Plymouth Democrat.

Early Thursday morning five or six young brainless "fops" passed through Main street. One flourished what looked very much like a whiskey bottle. Each one had stuck between his teeth one of the brain-reducing cigarettes. Their manners were extremely boisterous, leading one to think they had indulged very freely in drinking the article called "tangle-foot." And yet, these fellows are classed as members of the "swell" society. Bah!

Plymouth Fair Association have made every preparation for an extraordinary exhibition this season and will undoubtedly excel all former efforts. Its race program is immense, and as large purses have been offered some of the best horses in the country will be present. Plymouth citizens have always been exceedingly liberal in patronizing the Maxenkuckee fair, hence we should return the compliment. In this way we can always have the best of feeling existing between the two societies, which is right and proper.

For the past few days "old Sol" has poured a red heat upon humanity, the thermometer ranging from 95 to 105 in the shade, and sweltering men and women have vainly wished they were alongside an iceberg or could be fanned by the breeze of a small-sized cyclone. Thursday was awful until about two o'clock when dark and threatening clouds appeared upon the horizon, and suddenly the wind blew a gale and it rained in torrents. Several trees were blown down and shattered in this place and the wind-mill at the pickle salting works blown down. On the east side of the lake trees were also blown down and boats of every description were torn from their moorings by the wind which was by far the strongest "zephyr" we have had this season.
