nothing to do but to struggle on as reason has little to do in governing a was met with indignation. promptly disillusioned as soon as I have spoken to "Miss Gray Eyes.".

> The very next evening my opportunity occurred; nor was I slow to seize it. I reached Wauxhall early, and took my place close by the table where the unknown ones were in the habit of sitting. Presently the man arrived was not coming—and then rebounded, for there should be no difficulty in tackling the man when by himself. I of good in it-"whatever I may prompretended to be earnestly reading a tomed seat. The band struck up a I should introduce myself when a voice

"Sir, when you have done with your paper may I glance at it for a moment?"

I started at being thus suddenly addressed, looked up and found the bent figure of the father of "Miss Gray Eyes" standing by me. Here was luck! should tackle him on the subject of I diplomatically offered the paper at our engagement. I went to Euston to see the old boy once, and before the evening was over stocks and shares, of odds and chances. When he rose to go I proffered him my arm. He glanced suspiciously at me his home I ventured timorously enough to ask after his usual companion, and No; she had stayed in on account of a headache.

> I was not slow in pressing my advantage. The next evening I boldly approached the Mortimers, and, grudgingly, the old man introduced me. Now, said I to myself, now for disillusionment. What self-deceivers we are, for disillusioned.

And I was not. Night after night I talked to Grace-I had heard her daily more devoted to this girl, of whose existence I knew nothing a duced at the Thespian, then, I might dare—what might I not dare?

One morning I went to the Botanical Garden, for Grace had said the evening before that she often spent an hour there at noon. A couple of small children came playing near where I sat. They began chattering to one another in French as they gathered up stones from the path and arranged them on the garden seat. I tried talking to the

familiar voice say: "Mr. Drummond, what are those

children doing?" I rose at once, to the disturbance of their playthings. "Good-morning, Miss Mortimer; this is an unexpected pleas-

She blushed at my remark, seeing, I and my evenings at Wauxhall. Gay supposed, with feminine sharpness, that with light, life and music, the popular I was merely there on the chance of resort exercised a great fascination meeting her. It is curious how soon acquaintance osity, I had asked Grace whether she would be my wife if my play were to made with the stammering diffidence Thus I reasoned with myself, but of one asking far more than his deserts,

"Mr. Drummond, if you wait until at all it would be because I cared for you, and not for a 'reasonable chance of a comfortable home."

"How can I ask the woman I love to share possible beggary?"

"How? In very much the same way as you would ask her to share possible dukedom."

"But, Grace, will you marry me?" "Jack"-for the first time my baptismal name seemed to have something ise, I cannot bind myself without my father's consent; for I promised my mother always to look after him, and I certainly cannot leave him against his wish, and, besides, my £100 a year -you did not know the princely income is mine!—is all he has to live on, so that if I marry—you see, Jack, I am going to use ifs now-I must leave that to

We agreed that Grace should excuse herself from accompanying her father to Wauxhall that evening, and I

It was difficult indeed. At first the that, far from leaving him to starve, Grace would let him use her income as long as he lived; and this partly mollified him. If she would lend him the capital instead he could double it in six weeks by a certain investment. hazarded the childish suggestion that if I secured the lottery prize I would lend him £500 to invest in that stock which he, with all a gambler's superstitious pertinacity, declared would restore his fortunes.

My imbecile reference to the lottery did what reason could not do.

"You have a ticket in the lottery? What is its number?"

"It is 0,058,310."

"What!" he exclaimed with feverish energy.

"What?"

I repeated the number.

"Why," he began murmuring to himself, "fifty-eight, just my age; thirtyone, the number of our house, and three naughts-there's luck in three."

We were now approaching his apartments, and I seemed no nearer gaining his consent, when, clutching me by the arm, he said:

"In my hands that ticket must be a lucky one. Give it to me and you marry Grace to-morrow."

The proposal was a shocking one—it seemed suspiciously like buying and selling; but there was little time to think, and I said, with barbarous promptitude, "I will."

On the last day of June Grace Marner became Mrs. Jack Drummond.

I called at the postoffice for letters on the evening before our simple wedding. There was a note from the great man of the Thespian, saying most flattering things of "Sobersides,

first prize, and at the very least as a and was startled at hearing a sweet, the Funny Man," and asking me to call, as he would like to put the piece in immediate rehearsal! I telegraphed that I would be in town in two days.

When we were speeding from Brussels I showed by newly-made wife the letter, and she said, with affected indignation:

"I am afraid that I have married a comfortable home after all!"

Two or three days after we reached

I wrote an answer-brief, but to the point.

"Dear Uncle Joe-The lottery ticket which you kindly gave me-how can I ever be grateful enough?—has brought me something better than a prize—it has given me a wife."

As for the fate of my comedy, every advertisement boarding in London informs you that it is "still running."-Lloyd's Weekly.

THE ISLAND OF SPITZBERGEN.

It Was Once Famous for Its Whale and Shark Fisheries.

Spitzbergen has been crossed at last! From Tromso, Sweden, came the intelligence recently that the expedition organized by Sir W. Martin Conway has accomplished the feat so frequently attempted by others in vain. For the first time the interior of this strange land mass has been explored, and the data secured will doubtless make a most interesting contribution to human knowledge. Spitzbergen has been best known hitherto in connection with Arctic explorations and its once prosperous fisheries.

The fisheries are still valuable. though not nearly so important as in former days. One marine animal sought by the pelagic hunters is the great northern shark. It is one of the largest of all sharks and is not dangerous to man. The liver of a single fullgrown specimen yields four or five barrels of oil. This oil is useful for several purposes, but it figures in commerce most conspicuously as a substltute for cod liver oil. Much of the cod liver oil now on the market is in reality obtained from shark's livers. Shark skin is employed to a considerable extent for leather, and a superior kind of sand paper is made from it.

In the seventeenth century a considerable town was created on the neighboring island of Amsterdam, where, on a broad plain, grew up the astonishing village of Smeerenberg. Here, within ten degrees of the North Pole, for a score of years prevailed an amount of comfort and prosperity that can scarcely be credited by the visitor of to-day in that desolate Arctic region. In the train of the whalers followed merchant vessels, loaded with wine, brandy, tobacco and edibles unknown in the fare of the hardy fishers. Shops were opened, drinking booths erected, wooden and even brick houses constructed for the laborers and whalemen. Bakeries were put up, and, as in Holland, the sound of the baker's horn, announcing hot, fresh bread for sale, drew crowds of eager purchasers. The Dutch frau was not deterred by the frigidity of the latitude from becoming a temporary resident of Smeerenberg. But the shore fisheries soon failed, and, the whalers being driven to the remote and open seas, this strange summer city fell into decadence and eventual ruin. Near the vanished town lie today the mortal remains of more than 1,000 stalwart fishermen.

From the Spitzbergen whale fishery Holland drew in a little over a century about \$90,000,000. The most recent attempt to colonize the island was in 1872, when Sweden and Norway proposed to take possession of the whole country; but Russia ebjected. In 1863 the Norwegian, Carlsen, accomplished for the first time the feat of circumnavigating Spitzbergen. One of the most interesting features of the main island is an ice sheet 3,000 feet thick, which flows toward the east and presents on the coast a precipitous wall insurmountable from the sea. Its sea front presents the broadest known glacier.

Great Icebergs.

Icebergs in the North Atlantic this season have been exceptionally numerous, especially near the southeastern extremity of Newfoundland. Incoming vessels at St. Johns, Newfoundland, report passing icebergs continuously. One field of ice passed was four miles wide and 21 miles long, and as many as 12 bergs were sighted at one time from one point. Several very lofty masses of ice are also reported. one being 800 feet high and more than 400 feet long, while another enormous mass, though smaller, was 400 feet high and 600 feet long. Icebergs o more than 1,000 feet above the sea surface have not infrequently been reported in the southern ocean, 1,500 feet being the greatest height recorded, but a berg 600 feet high in the North Atlantic is exceptional. When it is remembered that icebergs are submerged six-sevenths of their height one 600 feet high above the water surface represents a mass almost a mile bigh.

All unmolested through the world He walks erect and free; These words upon his coat he wears:

"It's hot enough for me!" -Atlanta Constitution.

"I suppose you have music at the hotel?" "No, but we have a band." Harper's Bazar.

Dr. Jalap-Let me see your tongue, please. Patient—Oh, doctor, no tongue can tell how bad I feel.—Boston Tran-

"Now, Johnnie, go and wash your face. Auntie will call this afternoon." "But what if she doesn't call?"-Brooklyn Life.

"Darling, you are the apple of my eye." "I don't see how that can be. A moment ago you said I was a peach." -New York Evening World.

Hicks-My baby actually cried for the moon last evening. Wicks-That's nothing. One of those days she'll be wanting the earth.—Boston Transcript.

Ethel-Did you buy that secondhand bicycle of a friend? George-Well, I always considered him a friend till he sold me the "bike."-Leslie's Weekly.

Miss Gowanus-I envy the way you can talk to Mr. Caustique; he never sits on any of your remarks. Miss Gotham-No; I make them too pointed.—Judge.

"Why have Ashley and Miss Gushington broken off?" "He thought to compliment her by saying that she reminded him of his mother."-Cleveland Leader.

Little Elsie-Ain't those cows small, ma? Ma-Yes, dear. Elsie-I guess them's the kind that they gets condensed milk from, ain't they?-Philadelphia Record.

"Does your literary club disband in the summer, Miss Rose?" "No-we can't waste any time; and this year it is just lovely—we are learning to tell fortunes with cards."-Puck.

"Jack is so bashful that when he proposed to me the other night I had to assist him." "What did you say?" "Whenever he hesitated I would call out 'Play ball.' "-Chicago Record.

Miss Frostique—I always have had a dread that I should be married for my money. Miss Caustique-Why, dear, I should think that would be a matter of hope, not dread.—Truth.

There was a young lady of Crewe, Who wanted to catch the 2:02; Said the porter: "Don't hurry,

Or scurry, or flurry; It's a minute or 2 2 2 2!" -Boston Courier.

Henry Peck-Does your wife scold you for coming home late? Crabbe-Not a bit of it. Henry Peck-How do you manage it? Crabbe-I don't have any wife.—Philadelphia North Amer-

ican. "Above all," said the throat specialist, "the lady must talk as little as possible." "Doc," eagerly asked Mrs. Greymair's husband, "is there any hope of it becoming chronic?"-Cincinnati Enquirer.

"This blackberry pie isn't nearly as good as those mother used to make." "No; I told your mother this morning when she made it that you would be sure to find fault with it."—Chicago Record.

Teacher-Tommy, when was Rome built? Tommy-In the night. Teacher-How came you to make such a mistake? Tommy-You said yesterday Rome wasn't built in a day.-Brooklyn Life.

"I wouldn't be so donwncast," said the lady whose great heart went out in sympathy for Dismal Dawson. "How can a guy help bein' downcast," said Mr. Dawson, "when bout everybody he meets t'runs bim down?"-Indianapolis Journal.

A REMARKABLE CASE.

Mrs. Mary Noren, Wife of a Well-Known Farmer Near Valparaiso, Brought Back to Health and Strength by a Popular Romedy-Her Statement of the Cure.

From the Star, Valparaiso. Ind.

The attention of the Star baving been called to several cases of radical cures effected by Dr. Williams' Pink Pills for Pale People, it was determined to investigate some of the more notable of these cases, with a view to disseminating exact information on the subject and benefiting others who were suffering. Prominent among those who had experienced benefits from the use of this remedy was mentioned Mrs. Mary Noren, wife of John Noren, a prosperous farmer, living northeast of Valparaiso, Ind., and to her a reporter was accordingly dispatched.

Mrs. Noren was found busily engaged in household duties, but she found time to detail her experience, and was willing and even anxious that the benefits she had felt should be told for the benefit of those who

had suffered as she did. "I had been ill since girlhood with a complication of complaints," said Mrs. Noren, "never so much as to be confined long in bed, but I suffered intense misery. My chief trouble was with my stomach. I felt a constant gnawing pain that was at times almost distracting, and which had been diagnosed by different physicians as dyspepsia and sympathetic derangement dependent on the condition of the generative organs-I had pains in the back, sometimes so great as to make me unable to work, and frequent bilious attacks. I also suffered greatly from constipation, from which I never could find permanent relief. Then these symptoms were aggravated by rheumatic pains between the shoulder blades, which were most excruciating in dampor cold weather. After my marriage, about five years ago, and when my baby was born, the trouble seemed to increase, and I was frequently so sick that I could not do my household work. I tried different physicians and used numerous remedies, but all in vain. until one des last fall I happened to read of Dr. Williams' Pink Pills for Pale People. My husband got three boxes from Mr. C. D. Rushton, the druggist, and I began to use them. From the first I began to feel relief and before three boxes were gone I was nearly well. The constipation was cured and the other troubles were so much relieved that I felt better than I had felt for years. As I continued in the use of the pills I grew better and strong, my appetite was more natural, and my flesh increased until I am in the condition you see me now." Dr. Williams' Pink Pills contain, in a

condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia. partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effect of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness, either in male or female. Pink Pills are sold by all dealers, or will be sent postpaid on receipt of price, 50 cents a box or six boxes for \$2.50 (they are never sold in bulk or by the 100), by addressing Dr. Williams' Medicine Company, Schenectady, N. Y. State.

The largest ranch now running in the United States is situated in the State of Wyoming. The dimensions of this immense farm are of such mammoth proportions that figures of its area appear almost fabulous and beyond belief. An idea of its dimensions may be gained from the fact that the State of Rhode Island could be dropped into the middle of it, and yet leave a margin of some twenty miles all around it—and it is stocked with upwards of 200,000 animals of various kinds, including horses, cattle, sheep, goats, hogs and half-bred buffalo. The inventory shows that 400 horses, 20,000 cattle and over 150,000 sheep daily graze on its broad acres.

A WOMAN'S STORY.

It Should Be of Interest to Every Thinks ing Woman.

Women who reason well know that no male physician can understandingly treat the complaint known as "female diseases," for no man ever experienced them.

This, Lydia E. Pinkham tanght them

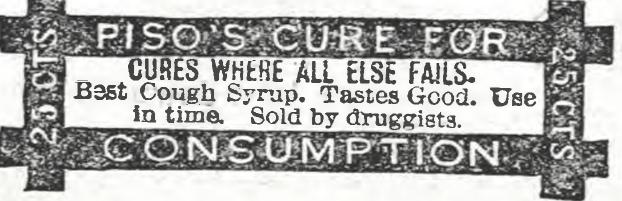

twenty years ago, when she discovered in her Vegetable Compound the only successful cure for all those ailments pecu liar to the sex. Many women have a fatal faith in

their physician, and not till they can suffer no longer, will they think and act for themselves.

The following testimony is straight to the point, and represents the experience of hundreds of thousands of now grateful women: "For six years I was a great sufferer from those internal weaknesses so prevalent among our sex. After having received treatment from four physicians of our city, and finding no relief whatever, I concluded to try Pinkham's Vegetable Compound, and it has proved a boon to me. It can truly be called a "Saviour of Women."-MRS. B. A. PERHAM, Waynesboro, Pa.

upon receipt of only 24 cents in postage stamps. This grand book is illustrated with sketches and portraits of the leading statesmen and orators. It discusses fully the gold and silver question and gives a complete history of currency and tariff legislation since the war. It is a library on current politics. Address

W. J. CARLETON, 10 Spruce St., New York.

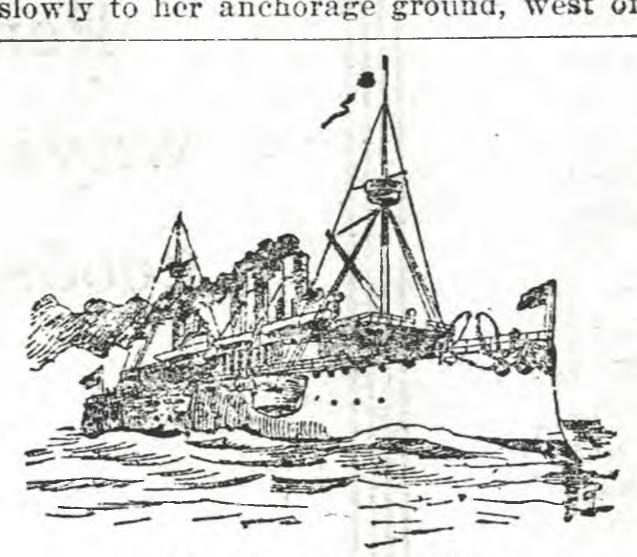

SHIP TEXAS AGROUND.

Big Battle Ship Went Broadside on Newport Beach.

The big battleship Texas, of the United States navy, went hard aground off Goat Island, near Newport, R. I. The leviathan, so formidable when in her element, was absolutely helpless and at the mercy of the wind. If a storm had arisen before she was released the chances are she all passed the sentence, not because would have been beaten to pieces. This magnificent bit of naval architecture, which cost the people of the United States something like \$3,000,000, was subject to the caprice of the weather until the tide came in, when tugs got her back into deep water.

The Texas left the North Atlantic squadron for the purpose of getting a supply of torpedoes. When she reached the harbor the tide was running out strongly and was at about half ebb. She steamed slowly to her anchorage ground, west of

BATTLE SHIP TEXAS.

the torpedo station, and dropped anchor in the usual place, a half-mile from shore. The order was given to stop the engines, but for some reason not explained the machinery continued to work, and the powerful twin screws dragged the anchor until the boat pushed her nose upon the sands.

When the boat finally came to a stand her bow stood about two feet higher than it should. Meanwhile the water continued to go out, rendering the great vessel more and more helpless. The tug Aquidneck came alongside in thirty minutes and began work, but it was soon discovered that the Texas was stranded.

CORN IS SAFE FROM FROSTS.

Conditions Generally Favorable for Harvesting the Crop.

Reports by States on the condition of crops show that the danger of frost has been generally passed. The general absence of rain in the Southern States has been very favorable for cotton picking, in which has been made rapid progress. The continued dry weather has impaired the outlook for top crop, which in many sections will be a complete failure. Continued cool and rainy weather has retarded the maturing of late corn in Iowa and Northern Missouri, and in North Dakota the crop was injured by frosts on the 9th and 10th. Cutting has progressed favorably, and husking and cribbing are in progress in Nebraska and Illinois. In the States of the central valleys the week has been especially favorable for plowing and seeding Reports by States follow:

Illinorhe workutting has been pushed rapidly week. The grain generally be finished thish of the crop will be safe to husk and crib within two weeks. Plowing and seeding in the dryer portions of the State have been much delayed, or entirely stopped, and rain is much needed, especially in southern counties. In the central section much uneasiness is felt in regard to seeding, owing to the great numbers of chinch bugs.

Iowa-The general condition of crops is very good. The bulk of the corn is practically safe from frost. For the complete ripening of the fall crop of corn from ten days to two weeks of dry weather is needed. More than the usual area of fall plowing will be covered, the conditions being very favorable.

Missouri-Corn is beyond injury by frost, and in some central and southern sections cutting is nearly completed. Potatoes will make an excellent crop. Pastures are in need of water.

Kansas-All corn, except some very late, is out of danger of frost. Haying has been retarded in some counties by rain, but the crop is fine and abundant.

Wisconsin-The rains of the past week have been well distributed and very beneficial, giving pastures a new start and putting the soil in good condition for fall seeding. Corn is nearly all out of danger from in the shock. Buckwheat is maturing rapidly. The crop is only fair.

Minnesota-Thrashing in progress, though delayed by local rains. Corn generally safe and much cut already. Plowing is going on,

but most of the ground is very dry. North Dakota—Thrashing progressing fairly well, being interrupted by rain last week. Wheat generally fair yield; some late sown wheat not yet ripe. Corn promises a good crop. Heavy frosts on 10th and 11th injured corn and killed vines and garden crops. Oats light crop, owing to rust. Other crops fair. South Dakota—Temperature averaged below normal, with light to heavy frost in localities Friday morning, but no material damage. Snowers scattered and mostly light. Most corn matured and the latest generally safe from injury by frosts.

Nebraska-All but the latest pleces of corn matured, with shucking commenced, with a large yield. Rains here placed ground in excellent condition for plowing and seeding. Some field, of fall-sown wheat up in good shape. No damaging frosts.

Indiana-Warm, dry weather. Buckwheat filling out well and safe from frost; corn most all cut; plowing done; seeding delayed by dry weather; wheat and rye coming up

Ohio-Corn ripened rapidly and is generally out of danger of frost-much of it in the shock. Crop is very fine and fully equal to previous estimates. Tobacco nearly all secured in good condition. Fall plowing well advanced, with some grain sown. All fruit abundant and winter apples about ready for

picking. Michigan-Corn cutting and fall seeding have progressed rapidly. Bean harvest nearly completed. Buckwheat maturing nicely, and some has been cut. Late potatoes a light yield. Heavy rains are delaying farm

News of Minor Note.

The leaders of the conspiracy against the Spanish Government in the province of Cavite, Philippine Islands, have been

Smith Culbertson, 80 years old, of Birmingham, Iowa, a prominent man in that town, committed suicide by jumping into a deep well. The cause was despondency and ill-health.

One of the first Americans to step ashore at New York from La Touraine from Havre was Mme. Demitri Callias, widow of the late P. T. Barnum and now married to Count Callias, an Italian nobleman of ancient lineage, but not wealthy.

Life Imprisonment.

In Brooklyn the other day Joseph Block, a Russian, 25 years old, who can neither read nor write, was sent to Sing Sing prison to spend the rest of his natural life at hard labor because, after once being convicted of petty larceny, a jury found him guilty of burglary in the first degree. Judge Aspinhe desired to inflict such a severe punishment on the defendant, but because the habitual criminal law made the imposition of the penalty mandatory on

Unusual attention was attracted to the case because this was the first sentence under the new law, and it was the first time that life imprisonment has been imposed for any crime less than murder in the second degree in New York State. Section 688 of the penal code provides as follows:

"A person who, after having been convicted within this State of a felony, or an attempt to commit a felony, or petty larceny, or, under the laws of any other State, government or country, of a crime which if committed within this State would be a felony, commits any crime within this State, is punishable, upon conviction of such second offense, as follows:

"If the subsequent crime is such that, upon a first conviction, the offender might be punished in the discretion of the court by imprisonment for life, he must be sentenced to State prison for

Under section 507 of the code burglary in the first degree must be punished by a sentence of not less than ten years and may be punished by life imprisonment. Therefore the judge had no discretion in the case and was compelled to send Block to prison for life.

Block stoutly denied his guilt and refused to plead guilty in the second degree and thus mitigate his punishment. The booty secured by the robbery was valued at less than \$50.

Indians Riding Wheels.

"The noble red man may yet be civilized by means of bicycles." said A. L. Bartlett, of Beatrice, Neb. "The Otoe tribe have steadily resisted all efforts to induce them to become citizens, and their numbers have dwindled until but few of them remain. In fact, there are few more Indians in Nebraska now than in New York and Indiana. A few days ago one of the chiefs of the Otoe tribe visited Beatrice and became much interested in bicycles. The owner thought it would be fun to let the old Indian learn to ride, and it was not long before the chief had mastered the art. Then he must have a wheel of his own, and not having any money he traded four ponies for one. He rode it to the reservation and next day half a dozen Indians came to town, bringing ponies to trade for bicycles. 'Ride faster. No feed,' they say, and when the bicycle manufacturers learn of this new field it is probable that they will reap a harvest, and the Indians will lay aside their primitive customs and join the L. A. W. in a body."-Washington Star.

A Singular Form of Monomania. There is a class of people, rational enough in other respects, who are certainly monomaniacs in dosing themselves. They are con-

stantly trying experiments upon their stomachs, their bowels, their livers and their kidneys with trashy nostrums. When these organs are really out of order, if they would only use Hostetter's Stomach Bitters, they would, if not hopelessly insane, perceive its superiority.

Mohammedan depositors in the postoffice savings 1 -ks are enriching the British Government, as their religion forbids them to receive interest. They frost, and about three-fourths of the crop is | insist on taking out 10 more than they have put in.

FEMININE BEAUTY.

After All, It Isn't be Quality That Brings Hn 114.

Men are forever talking about pretty women, as if their prettiness were the sole thing that could make the sex endurable. As their talk is not confined to age, race or condition, it might be supposed to be the voice of nature. though it is really the voice of misunderstanding. If men were only drawn would put it, most of us would live and die in celibacy; for, gallantry aside, feminine comeliness or good looks are the exception not the rule. All the talk about pretty women is meaningless and a sham. That men are drawn to women, as women are to men, is one of the first things that we learn from within. Old as time, the fact is always fresh to every generation. But that woman's particular appearance constitutes any part of the phenomenon is absurd. If she be not deformed or inachieve her incantation, whatever it be. Apart from any and all serious relation to her, the circumstances that or plump, blue-eyed or black, makes not a whit of difference to us. We like or dislike her independently of her looks. ning; but if we incline to her, we forget all about them, and cannot remember that we thought of them at first.

A woman, unless in her school days, mo e should we of pret y women, whose prettiness never counts after casual acquaintance is over. It is mere man and woman, outside of accidents of externality, that grow into friends, or lovers, or companions for life, as circumstances may direct, all under nature's invisible, inscrutable guidance.-San Francisco Argonaut.

PAVEMENTS OF COPK.

Material for Streets That Possesses Many Advantages.

An article in the Boston Medical and Surgical Journal for October 24 on the subject of a cork pavement is attracting much attention at the north, and it is not unlikely to be followed by practical results in having such a pavement laid experimentally in different cities of the United States. Although the laying of such a pavement in this country would be an experiment, the paving in question has got a long way beyond the experimental stage, both in Australia, where it was first introduced, and in Great Britain. For quite a number of years miles of the strets in Melbourne and Sydney, and more recently many blocks both in London and Edinburgh, have been laid with this kind of pavement, and the results obtained in both parts of the world have given high satisfaction. In London and Edinburgh it has been laid mostly in the streets around the hospitals and churches, with an especial view to deaden the sound of traffic. and it has accomplished its object excellently well. Neither wood nor asphalt approaches cork paving in noisemay render it a strong rival to any of the kinds of material that are now used in paving our streets.

"This designation (cork pavements)," and Surgical Journal, "is perhaps a Plymouth, misnomer, for the material consists of granulated cork mixed with mineral asphalt and other cohesive ingredients compressed into large blocks. Strictly speaking, then, these bricks are formed of a mixture of which cork is the most characteristic and important element. The advantage alleged in behalf of this combination are cleanliness, noiselessness, durability, elasticity, freedom from slipperiness whether wet or dry, and moderate cost. Unlike wood, it is non-absorbent, and hence inodorous; it presents the minimum resistance to traction; it is elastic under passing loads, and thus does away with the vibration caused by heavy teaming, one of the most disagreeable features of our narrow, congested streets. The blocks are imbedden in tar and rest upon a concrete base six inshes thick."

Pazzled.

"Are you the proprietor of this restaurant?" said the man who had waited for his order until he became sleepy. "Yes, sir. What can I do for you?"

"You can give me some information. I want to know whether you have told the waiter to stay away so that you can bring in a bill for lodgings against

Five Were Hurt.

Five people were seriously injured at to an alarm.

MAIL THIEF CAUGHT.

Harry Laraway Captured While Taking Letters from a Pouch.

For fifteen months the Chicago postoffice has been deluged with complaints from banks and individuals that the Canadian mails have been tampered with and that thousands of letters have never reached their destination. Large and small remittances have been lost and the inconvenience and loss to the Chicago banks and their customers has been such that it had come to a point where the Canadian banks had to use other carrying channels and individuals were warned against using the mails in sending money. All this, it is loped, will stop now, owing Stuart of the Postoffice Department and J. J. Larmour, postoffice inspector, who Tuesday recorded one of the most important captures of their long service. Major Stuart received the following telegram at The storm of wind, hail and rain which | midnight Monday from Detroit, which is next to the closing chapter of the fifteen months' search: "Inspector James E. Stuman's name is Harry Laraway, a Canadian, who now lives in Detroit and is a depot porter at the Union depot. J. J. Larmour, Postoffice Inspector"

SPAIN GIVES IN.

American Filibusters Will Be Given a Fair Trial.

The Spanish Government has yielded to the demands of the United States for a trial by a civil court of the Competitor prisoners. Authentic information to this effect has reached the State Department unofficially, and the formal announcement is expected in the next mail from Minister Taylor, in Madrid. The Spansome time ago, but has delayed the formal announcement of its decision until after criticism from that body for making concessions to the United States. While expecting this decision, the authorities have become very impatient of late over the long delay on the part of the Spanish Ministry in complying with the demands for a fair trial of the Competitor prisoners, who have been in prison under a death sentence imposed by a drum-head courtmartial for nearly five months. Petitions have been pouring in on the State Departaction in behalf of these men. Despairing of favorable action on the request for a civil trial, some of these petitioners urged that an appeal be made to the Spanish Ministry for the pardon of the men.

\$3,000,000 Paid by Englishmen. The negotiations for the sale of the In New York harbor, without the necessity of elevator storage. The saving will be not only in high railroad freight charges, if the grain is brought to New York by rail, but on the old water route of elevator charges at Buffalo and slow Invincibles Threaten to Kill His haulage by mules through the canal with more elevator charges at New York. The use of electricity to run canalboats is but a part of the extensive plan to cheapen rates from the West to the East and then to Europe. It contemplates a direct sercan be unloaded into ocean steamers in the harbor without the necessity of storage. This was the plan that New York capitalists had in mind when they secured are to pay \$3,000,000 for. They did not get very far along before they met the allpowerful opposition of the New York Central Railroad Company and the allied trunk lines that monoplize the traffic into New York and have been steadily ruining the canal. A few figures tell the story. In 1885 the canal carried 69,000.000 bushels of wheat from Buffalo to New York; last year it carried only 14,000,000.

Republicans Win in Maine. Maine went Republican in Monday's Minneapolis .88 42 Kansas City .68 62 election by from 40,000 to 50,000 plurality, Indianapolis .74 52 Milwaukee .. 59 77 the largest in the history of the State. Detroit76 58 Columbus ...48 85 It proved a landslide far beyond the St. Paul72 69 Gr'd Rapids .46 88 claims or expectations of the party managers in the State. Llewellyn Powers is elected Governor, and Congressmen Reed, Dingley, Milliken and Boutelle are returned by largely increased pluralities over those of two years ago.

President on the Issues.

President Cleveland and Secretary Carlisle were invited to be present at Louisville, Saturday, at the notification of Palmer and Buckner of their nomination. Both the President and the Secretary were unable to attend, but each telegraphed his regrets, and assurance of their co-operation to further the interests of the nominees.

Big Smeiter Proposed.

Provided satisfactory arrangements can be made with the Canadian Pacific Railroad, a large ore smelter and refinery will be established at Vancouver, B. C., with a capital of at least \$1,000,000. W. R. Rust, of the Tacoma smelter, is the organizer of the project, which will have behind it American and British capital.

Minister Willis Makes Denial.

A Honolulu dispatch says: Minister At the pre-arranged collision which | Willis denies that President Cleveland took place at Crush, Tex., nine of the empowered him to negotiate with the Dole spectators were badly injured by falling | Government for either annexation or return to a monarchical form of government. He said the matter had never even been referred to at Washington.

Smokes Will Be High.

Havana advices say that El Tabaco's St. Louis by the overturning of a fire report about the coming tobacco crop is department truck, which was responding incorrect. Not more than 45,600 bales will be gathered, against 137,000 bales in

DEATH IN BLACK SEA.

TURKS DROWN SHIPLOADS OF ARMENIANS.

British Residents Telegraph to Lord Salisbury for Aid-Peculiar Predica ment of the Oakland, Cal., Postmaster-Obstacles to Atlantic Telephone

Die Like Rats.

The London Standard publishes a dispatch from Constantinople saying that the young Turk party is covering the city with placards inciting the people to de-, throne the Sultan. Serious trouble, it is added, is certain to occur within a week. Old Turkish troop ships are nightly deporting Armenians to the Black sea, where, it is believed, they are drowned. The British residents, at the instance of the British embassy, have telegraphed to should be elected to win over the vote of Lord Salisbury, stating that their lives and property are in danger. The French residents have taken similar action. British and French fleets are now near the questioned as to how long the forts along the Dardanelles could check the passage of the warships, and he replied that they could stop them for almost half an hour.

WILL NOT CUT HIS HAIR.

Carrier's Locks Threaten His Post-

master's Reason. Postmaster J. J. White, of Oakland, Cal, has been called upon to decide one of the weightiest questions so far submitted to him in his official capacity. He has searched through the postal laws, but has been unable to find a regulation to fit the case, and now he is seriously considering the propriety of submitting the matter to the department at Washington. question is whether Lyman P. Baare, a letter carrier, can be compelled to have his hair cut. Baare's wind beguiling locks have been the cause of numerous complaints from ladies and gentlemen who have come in contact with the eccentric young man. Being a pianist, Baare two years ago decided to let his hair grow, with the idea of emulating Paderewski. So conspicuous did Mr. Baare and his flowing locks become to the people of Oakland that the young man became involved in a street fight with a youth who whistled "Johnny Get Your Hair Cut" as the letter carrier passed by. In order to soothe the lacerated feelings of the public, Postmaster White placed Baare on the night shift. This move only made matters worse, for after scar ing a doctor and several women more complaints were lodged. Baare positively refused to have his locks shorn and Postmaster White is sitting up nights considering the situation.

TALK WILL BE HIGH.

Telephone Cable. "A cable could be constructed for use in telephoning across the Atlantic," remarked F. A. Pickernell, chief engineer in charge of the long-distance telephone Telegraph and Telephone Company, "but all the ships of the British navy would round as a hogshead, and the financial resources of any three of the great powers would be taxed to their utmost to pay for it. And if it were laid the cost of using it would discount its utility. On land, if we possibly can, we avoid passing televice from Chicago and Duluth by the use | phone lines through a cable, because, for of steel canalboats after the type of the every mile of cable passed through the six that were built last year in Cleveland | length of the line is increased fifty miles. and made one trip to New York. With The cost of one minute's conversation the aid of floating elevators the canalboats | over such a submarine telephone system would be close to \$60."

APPLY THE TORCH.

Settlements Near Havana.

The Cuban band of Juan Delgado is reported to have burned the farms of Gatero, Chinchal and Tiraboque, on the canal, and seven settlements near Santiago de Los Vegas. The insurgents burned several farms at Guira Molena, in Havana province, because the owners refused to pay the taxes levied by the insurgents. Near Palos, in Matanzas, insurgents have burned the tobacco plantations of Herculano and Esperanza, causing a loss of \$400,000. In the last few days they have also burned a large amount of property near Puerto Principe.

Battleship on the Beach.

The big battleship Texas, of the United States navy, went hard aground Wednesday off Goat Island, near Newport, R. I The leviathan was absolutely helpless and at the mercy of the wind. If a storm lrad arisen before she was released the chances are she would have been beaten to pieces. This magnificent bit of naval architecture, which cost the people of the United States something like \$3,000,000. was subject to the caprice of the weather until the tide came in Thursday, when tugs hauled her back into deep water.

Canada Is Friendly to Spain. At behest of Spain a special official gazette was issued at Ottawa. Ont., pro-

claiming the foreign enlistment act providing that anyone who prepares any naval or military expedition to proceed against a friendly State, shall be liable to fine and imprisonment, and the vessel forfeited. Attacked by a Vicious Horse.

William Myers, a Lima, Ohio, horse-

man, was attacked by a vicious stallion, when two pet bulldogs came to his rescue, attacked the stallion, and compelled it to release its hold. The dogs drove the horse into a stall. The horse killed two men at Bellefontaine, Ohio.

Italy and Abyssinia Fettle.

Peace has been concluded by Italy with Abyssinia. Menelik demanded \$400,000, not as a ransom, but as compensation for maintaining prisoners. In exchange for the opening up of commercial relations, Russia supported these conditions.

ASSIGNED TO THE NORTHWEST. SCHOOLS MAY CLOSE. Senators Teller and Dubois Will Give

Aid to Bryan.

Senator Henry M. Teller, of Colorado, and Senator Fred Dubois, of Montana. the leaders of the silver bolt at the St. Louis Republican convention, are to stump Illinois, Indiana, Michigan and Minnesota. This plan was determined upon at a long conference held Saturday night with Chairman Richardson at the national silver headquarters. The itinerary has not yet been completed. The plan to have the bolting silver Republicans begin the first vigorous fighting in the north Middle States is considered the most important step in campaign preparations yet taken by the national campaign committee. It is a recognition by the silver leaders of the importance of these States in deciding the issue. "Teller and Dubois are the heaviest guns of the silver battery," said a well-known silver leader. "The very fact that they are Republicans makes it particularly fitting they the doubtful Republican States. They have a reputation for sincerity and will not be met with the feelings of animosity which would greet a Democrat before a Republican audience."

WARSHIPS READY TO ACT.

Ambassadors Weet at Constantinople to Plan for Safety.

The ambassadors of the powers held a meeting in Constantinople in order to lay out a plan for measures for the protection of the different embassies and the foreign population generally in the event of a renewal of disturbances The plan is understood to include the united action of the warships of all the powers, each ship being assigned a certain position and men are to be landed at a given signal to protect threatened points. The defense of the embassies will also, it is rumored, be considerably strengthened by an increase in the number of man now guarding them and by other precautions which will tend to make them capable of resisting attack for a considerable time.

Queer Family Fight. Through the filing of a suit in the Superior Court at San Francisco a story which would seem almost incredible came to light. The plaintiff is Mrs. Elizabeth Cavanaugh, an aged woman who owns considerable property, and she designates as the defendants her son Robert and her husband, Morris Cavanaugh. She charges them with having conspired to rob her and caused her to be held a prisoner for four long months in a local private insane asylum. Years ago Mrs. Cavanaugh took in washing. She saved her money and his father, she says, then took her forci-Sixty Dollars a Minute by Atlantic | bly from the house one night and conveyed her to an asylum.

Seeks Texas Fever Remedy.

Dr. J. Sidney Hunt, an eminent physician of Queensland, has been sent to this construction department of the American | country by the Queensland Government to investigate and find the remedy for Texas fever, as it is known in the southnot be able to carry it. It would be as big | ern part of the United States, which has broken out among the cattle on the big ranches in Northern Queensland.

Passengers Drop to Death.

A train on the Mad River and Arcata | Says He Is Not Going to Conduct a Road crashed through the Mad River bridge near Eureka, Cal. Six cars loaded with passengers dropped thirty feet into the water and four persons are known to have lost their lives. Ten others were seriously injured, and of this number it is feared at least four will die.

CHICAGO PUPILS ARE IN DEAD-LY PERIL.

Water Supply So Bad Disease Is. Threatened-Big Deal in Elevated Railroad Property-No War Has Been Declared in Telegraph Circles.

Sewage in Drinking Water.

Public schools of Chicago may be closed at any moment on the order of Commissioner of Health Kerr because the water supply afforded them by the Board of Education, without filters, is impure. Monday's rain of two and one-quarter inches carried out to the intake pipes of the various cribs of the city all of the filth of the sewers. This, later, has been brought back to the school children in the drinking water which is offered to them in the school buildings through faucets unprotected from the contamination of lake water as it is. The Grand Jury has been so seriously impressed by the apparent unconcern of the Board of Education. that it will investigate all criminal neglect. as to the character of the water supply now coming to citizens. Typhoid fever, scarlet fever, diphtheria and other diseases which quickly attack the children of the schools are now seriously prevalent in all parts of the city. Scarlet fever has been in the normal school district, within 100 feet of the rented store buildings provided by the Board of Education for the overflow from the school proper, for several days without the health department being informed or the proper placards placed on the flat in which the fever is, warning all others of contagion.

CHICAGO'S ALLEY L SOLD.

George Adams and Leslie Carter Are the Purchasers.

The Chicago and South Side Rapid. Transit Company, known to all World's. Fair visitors as the "Alley L" road, was. sold Wednesday morning by Perry Hull, acting on an order from the court. George E. Adams and Leslie Carter, representing the first mortgage bondholders, bid in theroad at \$4,090,100 and \$100,000 for 24 pieces of real estate. Before offering the road Mr. Hull stated that no bid would be considered unless a deposit of \$200,000. as a guaranty of good faith had previously been made. At this juncture Sidney C. Eastman, representing G. E. Jones and other stockholders, announced a formal protest against the sale of the road, invested it in the then Mission Sand and stated that suit would be brought in Wastes. When the city grew and her the appellate court if the sale was conproperty became valuable she was in com= | summated. The first thing offered was fortable circumstances. Then, to add to the railroad proper, the minimum bid her prosperity, she recently won quite a which would be considered being placed sum in a lottery. After this stroke of at \$4,000,000. Leslie Carter immediately good fortune her troubles began. Her stepped forward and offered \$4,000,100, husband refused to work and her son in- representing himself and George E. Adduced her to execute a deed of trus plac- ams. This was the only bid made, and the ing all her property in his hands. He and road was declared sold at that figure. Twenty-four pieces of real estate were then offered separately with no bidders. Then they were offered in groups, but no bids were made, and they were finally placed on the block as a whole. The property was bid in at \$100,000 by Mr. Carter for himself and Mr. Adams, theirs being the only offer. This completed the sale, and the large crowd quickly dispersed, one hour and a half having elapsed during the sale of over \$18,000,000 capitalized property.

MORGAN DENIES IT.

Fight Against the Western Union.

J. Pierpont Morgan says that there is no truth in a published story that he was to conduct a fight for the American Bell Telephone Company against the Western Union Telegraph Company. The best information obtainable was that negotiations were in progress for a renewal of the contract between the Bell and the Bernardo Ambrosoli, the proprietor of Western Union companies, which has as a gift the franchise that Englishmen | Cuban Insurgents Burn Farms and | the famous Italian restaurant at Boston, | been in existence for seventeen years and was assassinated by his clerk, Charles which expires in November next. When C. Bacigalupo, Saturday. Bacigalupo is the New York Telephone Company was recently organized the board of directors was constituted largely of representatives of the Bell and Western Union interests! The control of New York company is in Chicago—Cattle, common to prime, the hands of the Western Union, but it. operates under a license from the Bell company. A month ago the story was. printed that the control of the Bell company had been or was to be secured by to 16c; rye, No. 2, 30c to 31c; butter, the Western Union company. The story choice creamery, 14c to 16c; eggs, fresh, was denied, and it was said that the re-14c to 15c; potatoes, per bushel, 20c to lations between the Western Union and 35c; broom corn, common short to choice the Bell company were unchanged and were not likely to be changed.

Race Train Wrecked.

A Chicago, Milwaukee and St. Paul wheat, No. 2, 57c to 59c; corn, No. 2 special race track passenger train dashed white, 20c to 22c; oats, No. 2 white, 19c | into a detached portion of a freight going in the same direction directly under a St. Louis—Cattle, \$3.50 to \$5.00; hogs, Chicago viaduct Thursday night. The \$3.00 to \$3.50; wheat, No. 2, 62c to 63c; result was a wreck, in which Engineer corn, No. 2 yellow, 19c to 20c; oats, James Moran was dangerously injured No. 2 white, 16c to 18c; rye, No. 2, 29c and Fireman Nat Moulton and five passengers were seriously hurt. Five loaded Cincinnati—Cattle, \$3.50 to \$4.75; hogs, | freight cars, a baggage car, a passenger

English Hop Crop Injured.

The unprecedented continuance of cold rains, which have now prevailed for that the crop would be only a third less' Toledo-Wheat, No. 2 red, 63c to 65c; than that of 1895, but now, what with. mold and wet rot, it is doubtful if even. half a crop will be saved.

> Indians Attack a Custom-House. The Mexican custom house at Las Palomas was raided by Mexicans, Tomachic Indians and three or four white men, about fifty in all, and four men were killed and several injured in the battle which

His Bread Free as the Gospel. A system of practical religion has been New York-Cattle, \$3.00 to \$5.25; hogs, started by Rev. D. V. Gwylin, of the \$3.00 to \$4.25; sheep, \$2.00 to \$3.50; MacDougal Street Baptist Church at wheat, No. 2 red, 70c to 71c; corn, No. 2, New York. Mr. Gwylin gives a loaf of 25c to 27c; oats, No. 2 white, 19c to 21c; bread to every unemployed man who atbutter, creamers, 12c to 17c; eggs, West- tends his Sunday morning services, and Sunday 200 unfortunates were present.

INDIANA INCIDENTS TERSELY TOLD.

Workmen at Valparaiso Find a Package of Mail Lost Thirty-six Years Ago-Land Owners Will Try to Reclaim Thousands of Acres of Swamp.

Lost Letters Come to Light.

After having been lost for thirty-six years and, in early days, been the cause of many complaints to the Postoffice Department, a package of ninety-four letters was found the other day at the old Michigan Central depot in Valparaiso, now being dismantled. The letters were yellowish with age and some of them on the point of dropping to pieces. They were discovered in a barrel under a lot of rubbish. When Porter Station was the principal town of that section the postoffice was in the depot and all mail was received there and sent to its destination overland. From all parts of the country had the letters come, addressed to individuals and firms in that locality. They have been turned over to Postoffice Inspector Letherman, and when possible will be forwarded to their destination. The others will be sent to the dead letter office at Washington.

Plan to Reclaim 600,000 Acres.

About 300 land-owners, representing the ownership of 600,000 acres in the Kankakee Valley, met at Hanna to elect directors and to discuss the best method of draining the valley. A committee was elected as follows: A. E. Stowell, Koutz; D. W. Place, South Bend; Chas. Holmes, Walkerton; James Long, La Crosse; Charles Donaldson, Hamlet; James Gilchrist, Walkerton; Edgar Shilling, Hamlet. This committee was empowered to employ an engineer to make preliminary surveys and refer the proposed route and probable cost to the land-owners, they in turn to petition the County Commissioners to appoint appraisers to assess benefits. The cheapest method will cost several hundred thousand dollars, but it will reclaim land which is now largely valueless for agricultural purposes.

All Over the State.

Near Rockport the body of a young man was found lying by the roadside. From letters in his pockets it is thought he is Edward J. Morris, of Louisville, Ky.

Mrs. Mortiff, an old resident of Ashley, attempted to end her life with poison, but | tory. As a crime, simply, it was so coolly | in their true names, was startling. for her burial.

man about 20 years old, was assaulted by three unknown men and beaten into insensibility. Frank Harris is under arrest, and the officers are after the others.

Mrs. Zella Kellams, who was charged with murdering her husband in April last by administering cantharides in his meals, was acquitted by a jury at Petersburg. The case was taken from Dubois County. At Logansport habeas corpus proceedings were begun by Charles I. Baldwin against his mother-in-law, Rebecca Holdie, for possession of his wife, who, he

alleges, is being kept from him in her mother's house. The couple were married in April, against the wishes of Mrs. Hollie. The mother-in-law is at present holding the fort.

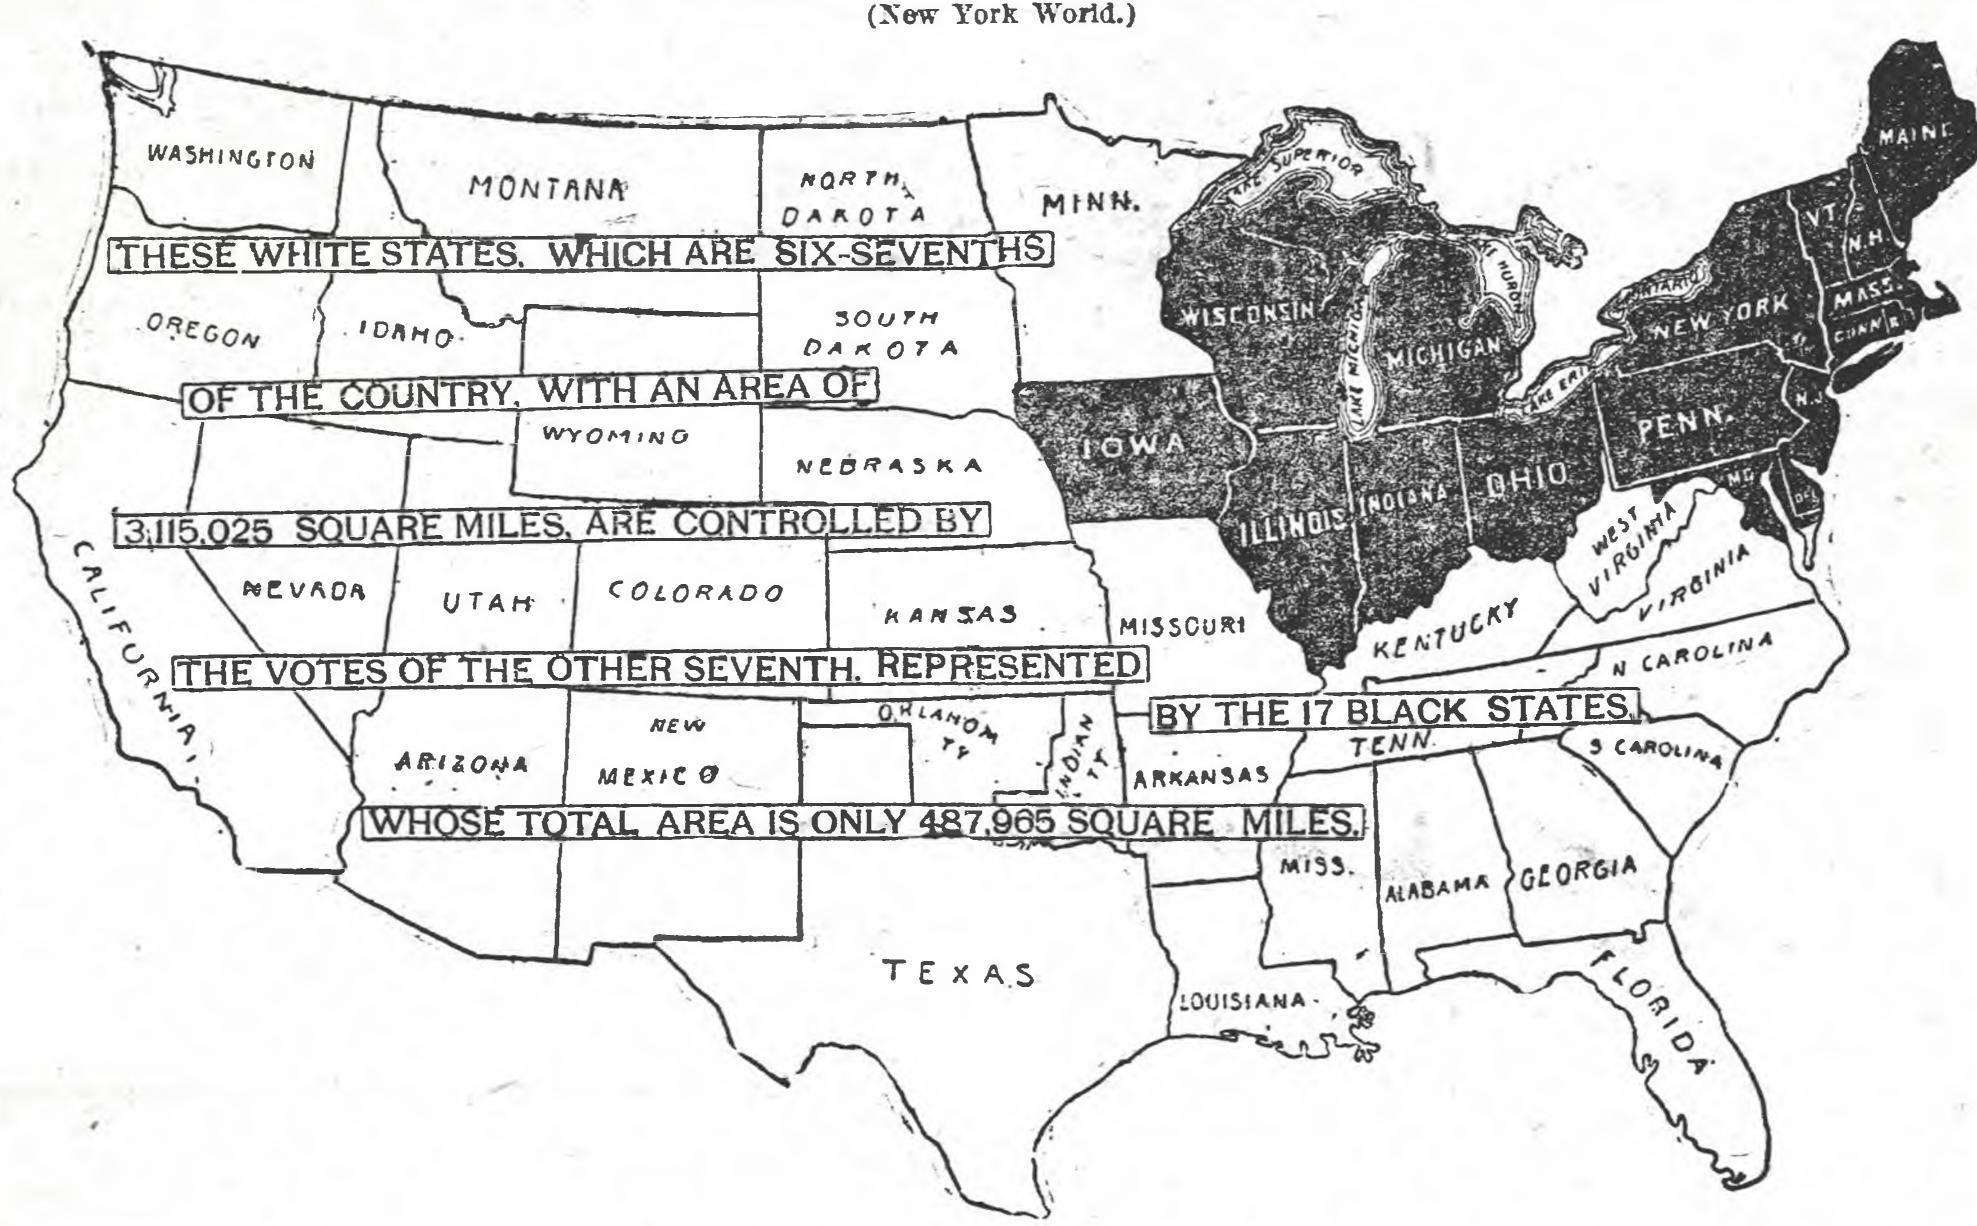

While passing through a large cornfield on his farm the other day, Thomas Ray discovered a neatly dug grave. An empty box, such as is used to place a coffin in, had been left on the up-turned earth at the side of the grave. The grave was dug in the middle of a large field and was completely hidden from view by the tall corn that surrounded it, and, but for the accidental visit of Mr. Ray, would not have been discovered. The find created a sensation and hundreds of people visited the spot. Mr. Ray and a neighbor kept watch over it, expecting that there might be some developments, but no one appeared in the vicinity. It is generally believed that a murder had been planned and that the victim was to have been interred in the grave.

Mathias Sether, a wealthy and respected citizen of Decatur, has been actually starving to death for the past two months. During that time little or no nourishment has entered his stomach and he has wasted away until he is a living skeleton. Skilled physicians have been consulted all over the country, but none of them is able to give him any relief or diagnose his case. Up to the time he besame afflicted with this terrible malady he had never been sick one day. Mr. Bether, fully realizing his condition and knowing that he has but a short time to live, has been making all arrangements for his funeral, and has gone about every detail as carefully as he would a business transaction. He had members of his family drive him to the cemetery, where he picked out a burial lot and gave directions toward the erecting of a monument and otherwise beautifying his last resting place. This completed, he returned to his home, which he never expects to leave except as a corpse.

The Secretary of the State Board of Health reports an awful condition of things in a district four miles from West Baden and French Lick Springs, growing out of neglect in treatment of malignant diphtheria. Altogether there have been seventy-five cases and twenty deaths. In one family visited by the Secretary two children lay dead, while close at hand were three children and the mother fatally ill with the same disease. In another family, while one child lay dying, five other children running around were so badly afflicted that they could not swallow. No attempt had been made at quarantining the infected houses, and attendant physicians were going from house to house without changing clothing. The Secretary has forwarded supplies of antitoxin and disinfectants, and has quarantined West Baden and French Lick Burke in Phoenix Park, Dublin, in 1882. Springs against the infected district. Throughout the district the people seemed unaware of the dangerous character of the epidemic, and whether or not it can be confined to its present limits is problematical

DANIEL W. JONES,

to give the demonstrations at English cen-

ters, especially London.

Arkansaw's Governor-Elect, Is Considered a Shrewd Politician.

Gov.-elect Jones is known throughout Arkansas as "Dan W." The Joneses are thick in Arkansas and the more prominent of them wear nick names so as to distinguish them from each other. "Dan W." was born in a little hamlet in Texas fifty-two years ago. He was the only son of a doctor who mapped out a medical career for him. "Dan W." preferred the law and tackled it early. He was also something of a fighter, and he distinguished himself in the Confederate ranks during the war. When peace was proclaimed he returned to his law books. In 1872 he moved from Texas to Washington, Ark., and entered into law partnership with Senator Jones, the present chairman of the Democratic national committee. There is no relationship between these two Joneses. In 1874 "Dan W." was Republican plurality at 50,000. It is the elected prosecuting attorney of Washington County and later Attorney General by the London Times against Charles of the State of Arkansas. After holding this office for two terms he moved to Little Rock, resumed his private law field for limitless speculation as to where practice and formed the partnership of "Dan W." Jones and McKay, which still

DANIEL W. JONES.

exists. He has the name of being one of the shrewdest politicians in the South. When fighting for the nomination for Governor he declared that he would bolt from the Democratic party if the Chicago convention should declare for a gold standard. On this issue he won the nomination. The Governor-elect has two daughters and three sons, and Mrs. "Dan W." is living.

taken to Mount Sinai Hospital in New York, suffering from a constant bleeding from the nose, and died three days later. Death was due, according to the certificate, to pernicious anaemia. This was the first case of the sort known to the records of the hospitals of that city.

Mrs. Delia Stewart Parnell denies that she has any knowledge of the identity of tion in the Phoenix Park crime. That he | the men who attacked her at Bordentown, was let go at that time is considered a N. J., in April of last year.

Republicans Make Tremendous Gains in Pine Tree State. Maine went Republican in Monday's election by from 40,000 to 50,00 plurality, the largest in the history of the State. It proved a kandslide far beyond the claims or expectations of the party managers in the State. Llewellyn Powers is elected Governor, and Congressmen Reed, Dingley, Milliken and Boutelle are returned by largely increased pluralities over those of two years ago. Indications are that the total Republican vote will reach 82,-112, a gain of 12,523 over two years ago. Mr. Reed's plurality will reach 10,000, the largest he has ever received. The returns Dingley for Congressman from the Sec-

LLEWELLN POWERS. Maine's Governor-Elect.

general estimate that the figures will be the largest ever given in Maine. Secretary Beane of the silver Democratic State committee concedes the election of the Republican ticket by over 40,000 plurality. He said: "I am satisfied Powers" majority will be over 40,000. It is much greater than 1 expected. I have nothing to say of the result."

The city of Bath, the home of Arthur Sewall, gave a plurality of 782 for Powers, which is the largest Republican plurality ever given there. Congressman Dingley gained 24 over his 1892 plurality in the same city. Augusta gives a Republican plurality of 957, the largest in the history of the city. More than onethird of the former Democratic vote went Republican. Portland's complete vote gives Powers a plurality of 1,937, a gain over 1892 of 1,451. Reed's plurality in Portland is 2,330. Powers has a plurality in Bangor of 811, a gain of 447 over 1892. Aroostook County gives the Republican ticket 4,000 plurality. Congressman Boutelle runs ahead of his ticket. All the towns in Androscoggin County

give Powers, 5,612; Frank, 2,294; Ladd, 184; Bateman, 352; Clifford, 32. This is a Republican increase over 1892 of 1,286. There were only a few local contests to arouse factional feuds, and order was preserved at the polls throughout the State without much difficulty. In all the strife and contention during the campaign the contest was remarkably free from personalities.

The Prohibitionists conducted their campaign on practically the same lines as in past years. In none of the congressional districts was there a close contest. All of the Democratic candidates Julius C. Gottlieb, 18 years old, was for Congress evidently believed that it was impossible to defeat the Republican nominees and their canvass was not very active. Mr. George E. Hughes, chairman of the Democratic State committee. says that before the campaign opened it was evident that it was absolutely impossible for the Democrats to carry the State. and it would have been the height of folly to have made the attempt. He declares, too, that the Republican managers worked night and day and spent thousands of dollars in campaigning.

TO KILL ALL CHRISTIANS

Report that Turks Are Planning a Wholesale Massacre.

A dispatch from Constantinople asserts that a wholesale massacre of Christians Is planned to occur there within a fortright, and that Armenians have been deported from there on board ships and have been drowned in batches. The Lon-Times, in an editorial discussing the utterances of Lord Rosebery and Henry Asquith on the Armenian question, says: "Lord Rosebury and Mr. Asquith have assumed a very grave responsibility. It is easy to conjure a whirlwind of national wrath. but it would baffle the strongest will and most sagacious judgment to direct the storm when it is raised. Are the agitators prepared to face a European war? If not, let them pause while there is yet time."

The official Turkish estimate of the number of victims of the massacres in Constantinople is 1.100. Other estimates run pretty much all the way upward from this figure. The official estimate is coupled with the allegation that many of those killed were in reality Turks, but that they were buried with the Armenians, and so their number went to swell the supposed number of Armenian victims. This is undoubtedly designed as an apology and explanation of the assertion contained in the note of the powers that the savage bands which murderously attacked the Armenians and pillaged their houses were not accidental gatherings of fanatical people or undirected mobs, but that there was every indication of special organization, and of its being known to, if not directed by, the authorities. In foreign circles the statements that Turks were killed along with the Armenians is denied.

The actual number of the victims of the disorders was certainly 5,000, and will probably reach 6,000. The military authorities state that three soldiers were killed and thirty were wounded. The Porte states that 170 Mussulmans were wounded. All Mussulmans who have yet been tried by the extraordinary tribunal appointed to pass judgment on those implicated in the recent massacre have been acquitted of the charge of complicity. The evidence against many of those was deemed by foreign residents conclusive, and the failure to held them adds to the conviction that the Porte has no intention of complying with the demand of the powers that the culprits shall be brought to punishment. In view of this failure to punish the authors of the outrages upon the Armenians, the state of terrorism among the Armenians continues unabated, and the exodus of these people goes on with no diminution.

CROWDS GREET BRYAN.

St. Louis Admirers Almost Crush Him While in Church.

When William J. Bryan came out of the Presbyterian Church in St. Louis which he attended Sunday he was greeted by a crowd of people who cheered him and shouted as loudly as did those who heard him speak Saturday night. As he entered the house of worship 1,000 people were vainly seeking admission. But the edifice was packed to its fullest capacity and hundreds were turned away. When the benediction was pronounced there was a crush around the pew occupied by the candidate. The jam became so violent in a short while that Mr. Bryan was almost crushed to the floor. A sergeant of police was called and he, aided by Col. J. J. Martin, whose pew he occupied, succeeded in conducting Mr. Bryan safely out of the church. About the church was a great multitude. Wholly forgetful of the Sabbath, they cheered him lustily. The police pulled him through the crowd from the church door to his carriage at the curb, but men held the horses and for several minutes he sat in the carriage shaking hands with the men and women who struggled to reach him. Col. Martin finally reached the carriage and got into it and the horses dashed away amid cheers.

GOLD MEN AT LOUISVILLE.

Senator Caffery Informs Gen. Palmer that He Is a Candidate.

Gold Democrats did honor to the nominees of their party for President and Vice President at the Auditorium, in Louisville, Ky., Saturday night. The occasion was the formal notification to the candidates of the action of the Indianapolis convention.

Senator Donelson Caffery made the speech notifying Gen. John M. Palmer, and Col. John R. Fellows tendered to Gen. S. B. Buckner the honor of second place on the national ticket. The speeches of these men, together with messages of sympathy from leaders of the movement who were unable to attend the notification ceremonies, drew forth repeated outbursts of cheering.

W. D. Bynum read the following message from President Cleveland:

"Buzzard's Bay, Mass., Sept. 10.—To the Hon. W. D. Bynum: I regret that I cannot accept your invitation to attend the notification meeting on Saturday evening. As a Democrat, devoted to the principles and integrity of my party, I should be delighted to be present on an occasion so significant, and to mingle with those who are determined that the voice of true democracy shall not be smothered and insist that its glorious standard shall be borne aloft as of old in faithful hands.

"GROVER CLEVELAND." Expressions of fealty to the gold wing of the party were read from Secretaries Carlisle, Francis and Lamont.

COCKRAN AT CHICAGO.

Eloquent New York Orator Addresses an Immense Audience.

Bourke Cockran, of New York, spoke at the Chicago Auditorium Saturday night, under the auspices of the "Honest Money League." The seating capacity of the hall is 5,500, and over 40,000 tickets of admission had been applied for. As it was out of the question for all of these people to hear Mr. Cockran, an overflow meeting was arranged for at Battery D. and this place was jammed to the doors.

Value of a College Training,

The oft-debated question as to the value of college training seems us to of college open hardly be an question at The fact set over against the college training is usually the manifest one that a great many forceful men have managed to make their own way and to accomplish great things without the curriculum of the college. These are persons of such great force that they could not be kept down even by great disadvantages. But such persons are rare outside colleges or within them. They might have been still more capable men by the aid of college training.

It is well known that many such persons have lamented their disadvantages. It would be difficult to show what harm a college training could have done them. But colleges, like many other institutions, are for the average person, and we cannot conceive but that the average person is always better for the help which the college course gives. While we find some persons who are conspicuous for their abilities and capacities who have not been regularly educated, the fact is the majority of people in high places are college men.-New York Ledger.

A Lively Young Duke. The duke of Orleans served for a time in the English army, but was compelled to give up his connection in consequence of his childish behavior. He played no end of senseless tricks while stationed at Aldershet, was most insubordinate as regarded discipline, was forever taking advantage of the immunity due to his royal rank and finally was compelled to leave the army for having cut the ropes anchoring a captive balloon in which Gen. Sir Evelyn Wood and a couple of other field officers were taking observations during \$1.00 per bushel is heard of no a sham battle. A strong wind was blowing and the balloon was carried up into the air and its occupants were unable to effect a descent until at a distance of some thirty miles from Aldershot. Sir Evelyn complained directly, not only to the duke of Cambrige but also the queen herself, who has never liked the young duke, and who immediately responded to Sir Evelyn's communica tion by intimating to the comte and comtess de Paris that she could no longer permit their son to continue his military training in her army.—Exchange.

Religion Not Invented. Whoever to-day will say that re-

ligion is invented writes himself down as out of rhyme and reason with the fuller science of the age. The science of comparative religions has made one thing clear, that religion, the universal phenomenon of humanity, found everywhere, at the belt of the equator, the eternal equinoxes, as well as in the arctic zones, that religion in the savage races as well as among the cultured peoples, owes its existence to a human need, deeply planted in the human beart.-Dr. Emil G. Hirsch.
