Ladies, stick to your corsets as long as they stick to you. Lives are saved as well as destroyed by the wearing of the diabolical rib-crushing and stomach squeezing device. The other day a St. Louis lady was shot at four times by her husband, and every bullet struck her—struck the steel ribs of her stays, and were deflected, thus saving her life.

#### INDIANA WELL HONORED.

Has Furnished the Nation With Many Distinguished Statesmen.

One President, Benjamin Harrison and Two Vice-Presidents, Schuyler Colfax and Thomas A. Hendricks--In Addition to These Many Cabinet Officers and Two Speakers of the House.

Indiana has had one president, two vice-presidents and a number of cabinet officers.

Her first cabinet officer was Caleb B. Smith, of Indianapolis, appointed secretary of the interior by President Lincoln in 1861. Mr. Smith resigned in 1862 to accept the United States district judgeship. John P. Usher, of Terre Haute, succeeded Mr. Smith, serving till near the close of Johnson's administration in 1865.

Hugh McCulloch, of Fort Wayne, was appointed secretary of the treasury by President Lincoln in January, 1865; was reappointed by President Johnson, after Lincoln's murder, and was reappointed by President Arthur to succeed Gen. Walter Q. Gresham, who had resigned as secretary of the treasury to accept the judgeship of the United States circuit court of appeals.

James N. Tyner, of Wabash, was appointed postmaster general during the last year of President Grant's administration, having been promoted from the position of second assistant postmaster general.

Gen. Walter Q. Gresham, then a resident of Indianapolis, was appointed postmaster general by President Arthur in 1883, but was made secretary of the treasury in 1884, which he resigned to accept the judgeship of the United States court of appeals as above stated. During the official term of General Gresham in the cabinet he completely ignored and did not consult with Senator Harrison about appointments or any thing else.

Richard W. Thompson, of Terre Haute, who delighted to be called the "Ancient Mariner of the Wabash," was appointed secretary of the navy by President Hayes in 1877 and served until 1881, when he resigned to accept the American presidency of the Nicaragua canal at a salary of \$25,000 a year.

William H. Miller, of Indianapolis, was appointed attorney general by President Harrison in 1889, and served through Harrison's term. He was the warm personal friend and law partner of the president.

Gen. Walter Q. Gresham was appointed secretary of state by President Cleveland 1893, dying in office in 1895.

Indiana has had three speakers of the house of representatives, Hon. John C. Davis, of Terre Haute; Hon. Michael C. Kerr, of New Albany, and Hon. Schuyler Colfax, of South Bend. Jessie D. Bright was also president pro tem. of the senate from 1854 to 1857.

Schuyler Rhodes, the young man who carries the mail to and from Culver City and Maxenkuckee, met with a slight accident one day last week. It appears that when near the entrance to Culver Park, his horse stumbled, throwing the rider to the ground, bruising his right cheek and slightly discoloring one of his optics. The animal also had the misfortune of spraining one of its legs, which will lay him up for repairs for a short time.

The old lady was right when she said, the child might die if they waited for the doctor. She saved the little one's life with a few doses of One Minute Cough Cure. She had used it for croup before. Culver City Drug Store.

"Excuse me," observed the man in spectacles, "but I am a surgeon, and that is not where the liver is." "Never you mind where his liver is," retorted the other. "If it was in his big toe or his left ear DeWitt's Little Early Risers would reach it and shake it for him. On that you can bet your gig-laps." Culver City Drug Store.

#### Blood in the Air.

Sometime since a man living near Bass Lake, Stark county, desired some money and in order to get it, gave a chattel mortgage on a team of horses. Time passed on when the man who mortgaged the team disposed of it to other parties one day last week. This caused the man who held the mortgage to swear out a warrant for the man's arrest, and placed it in the hands of a local constable to serve. The constable, knowing the character of the man wanted, deputized a young man to go with him to assist in case resistance was offered, and the two repaired to the residence of the malefactor. When served with the warrant, the man signified his willingness to accompany the officer, but desired the privilege of going into an adjoining room in order to change his clothing. The man's wife also went in ostensibly for the purpose of consulting with her husband. In the meantime the constable waited for his man in the room where he served the warrant, while the deputized officer strolled out toward the barn, and happening to glance toward the house, saw the prisoner climbing out of the bedroom window, and when upon the ground make a bee-line for a piece of woods. The young deputy drew his revolver and gave chase, calling upon the man to halt, but said individual told him to go to that place described in the good book as being very hot, and kept right on going. Whereupon the deputy commenced to fire, the ball from a 33 calibre striking the man on top of the head, making an ugly scalp wound. The man then halted and at the muzzle of the revolver was driven back to the house. At this time relatives of the prisoner appeared upon the scene and a terrible battle waged for the mastery, the wife of the prisoner taking a hand, armed with a wicked looking knife. The officers were knocked down several times and badly beaten by the overwhelming forces and the prisoner escaped. The case has been compromised, however, the father of the prisoner paying all damages.

Soothing, and not irritating, strengthening, and not weakening, small but effective—such are the qualities of DeWitt's Little Early Risers, the famous little pills. Culver City Drug Store.

#### Church Dedication.

On the evening of Dec. 13th, the Evangelical church at Rutland will be dedicated. Right Rev. Bishop Bowman, of Chicago, one of the distinguished divines of the country, will preach the dedicatory sermon. Also Elder Otz and Elder Martz will be present and assist in the services. The citizens of Rutland and vicinity are to be congratulated upon the efforts they have put forth to erect this handsome edifice, which will be the best finished and equipped country church in Marshall county. Rev. Martz will commence holding revival services in said church the Wednesday evening previous to the dedication. He is one of the most talented and eloquent pulpit orators in the state and will hold very interesting services. The citizens of Rutland and vicinity are highly gratified with their church and feel that a great work will be accomplished. The Sabbath school at Rutland is in a flourishing condition, and when transferred to the new church will be greatly increased in numbers. Everybody from far and near is especially invited to attend these services, especially the dedicatory services, as all present will be highly entertained. Remember the date.

Rev. Howard preached an interesting sermon on the Freedman's Aid Society last Sunday morning. His entire sermon was a review of what the M. E. Society had accomplished by the way of educational work. He also gave the Roman Catholic denomination an eulogy upon the grand work it had accomplished by the way of educating the masses. He also paid a tribute to several other denominations which had for its aim the building up of educational institutions. He spoke of the low down foreigners who came to this country and after being Americanized soon developed into first-class citizens. He made especial mention of the Swedes, Pollocks, Italians, etc., as individuals who came to this country in an awful ignorant condition. We take exceptions with the rev. gentleman so far as the Swedes are concerned. No Swede was ever landed upon the shores of America that was not educated, at least in the common branches taught in his native country. As a nation, Sweden is far in advance of most other countries so far as its educational institutions are concerned, and its laws are compulsory, and every child must attend school so many months in the year either at the government's expense or parents. Owing to this fact the Swedes who have landed in the United States, in a very short time rank as among its most progressive citizens. There are over 20,000 Swedes in Chicago, which represent a large share of the wealth of that great city. The natural inclination of the race is toward Christianity, and the children from their birth are solemnly taught to revere and respect the teachings of the Bible. We know whereof we speak, for eleven years of our life was spent where the Swedes were in the majority. Then you can take a retrospective view of our prisons, and you will rarely ever find a Swede incarcerated therein.

#### NOTICE.

The next meeting of the Board of Directors and Stockholders of the Maxenkuckee Agricultural Association will be held in Culver City next Saturday, Dec. 5th, at 1 o'clock p. m. sharp. A full attendance is especially desired.

During the past ten days several young men in this country have been killed or maimed for life while indulging in that inhuman and brutal game called foot-ball. In a recent interview, Gov. Matthews called it a most brutal game, and said that legislation should be enacted to suppress it entirely in Indiana or regulate some of its dangerous features. Prize fighting has no comparison to foot ball, as only now and then a slugger is killed off this mundane sphere. But in this blood game known as foot ball, hundreds of fine athletic young men are either killed or totally disabled every year. It reminds us a good deal of the "bull ring" in Mexico where brute force is arrayed against two legged brutes, whose only aim is to kill the other brute as soon as possible in order to receive the applause and commendations of a pack of blood-thirsty lunatics.

Six weeks ago I suffered with very severe cold; was almost unable to speak. My friends all advised me to consult a physician. Noticing Chamberlain's Cough Remedy advertised in the St. Paul Zeitung I procured a bottle, and after taking it a short while was entirely well. I now most heartily recommend this remedy to anyone suffering with a cold. Wm. Keil, 678 Selby ave., St. Paul, Minn. Culver City Drug Store. 1-feb

There is probably no order in the state of Indiana in a more flourishing condition than the above order of this city. Last fall the order finished a fine two-story brick structure with basement, the lower stories being occupied by Porter & Co., general merchants. The upper story is finished for the order, which occupies one of the finest halls in the state, and which is elaborately furnished with all the paraphernalia necessary for convenience and comfort. The lodge numbers nearly 100 members, all of whom are men of integrity and progression, consequently the order is constantly growing in membership.

Fellow citizens, some of our people have been quite alarmed for a few days an account of the despondent appearance manifested by one of our most respected citizens who is one of the most talented musicians in Culver City Band, known as John Buswell. Upon investigation we find the reasons slay of his worry and uneasiness was an account of the absence for only a few days of his amiable wife. But for John's consolation we would say we must bear tribulation in this life, as life is made better by sometimes passing through shadows, and on her return the appearance of his home will be made so much brighter that the valuation of his property will be doubted. A FRIEND.

The old way of delivering messages by post-boys compared with the modern telephone, illustrates the old tedious methods of "breaking" colds compared with their almost instantaneous cure by One Minute Cough Cure. Culver City Drug Store.

**WORK FOR CONGRESS.**

MANY BILLS AWAITING FINAL SETTLEMENT.

The Dingley Measure in the Hands of the Senate—Pacific Funding Legislation Likely to Be of Great Interest—Other Bills.

Washington, Nov. 30.—It is improbable that the house at the coming session of congress, which begins a week from today, will dispose of much of the proposed legislation which encumbers its calendars. Little is usually accomplished at the short session, beyond the passage of the regular supply bills.

The question of legislation for additional revenues for the government will depend on the senate, to which body the house sent the Dingley bill almost a year ago. If it should be impossible, or deemed inexpedient, to press that measure through the senate, there is a possibility that the proposal to increase the revenues by an additional tax on beer or the imposition of a duty on tea and coffee, may take tangible form, and, if so, such legislation must originate, under the constitution, in the lower branch of congress.

There are on the several calendars of the house 1,465 bills reported from the various committees, and the proportion which will pass at the coming session must be necessarily small.

The private bills number 1,190, but there are also 256 bills on the calendar on the state of the union and 99 public bills on the regular house calendar. Some of these are of very great public importance, and those interested will no doubt do all in their power to secure action upon them.

The powers lodged in the hands of the committee on rules, which give its members control of the house programme, will make that committee the practical arbiter of what shall be submitted to the house for its action. That committee is composed as at present constituted of the speaker, Mr. Henderson of Iowa, Mr. Dalzell of Pennsylvania and Mr. McMillen of Tennessee.

The bill, which in many respects is of most interest and which will press hardest for consideration is the Pacific railway funding bill. The bonds guaranteed by the government are payable early in the coming year, and either an extension or a foreclosure stares the roads in the face. The friends of the Nicaragua canal are also bending every energy to secure action on the bill reported by Mr. Doellittle, which provides for a guaranty by the United States of \$100,000,000 of bonds for the construction of the canal.

The Loud bill, to cure the abuses of the law relating to second-class mail matter, under which newspaper matter is transmitted at 1 cent a pound, and which has been the subject of much criticism of the postoffice department because of the advantage taken of the law in various ways for the transmission of books and pamphlets, will also be pressed, as will the Pickler service fusion bill, which occupies a favorable position on the calendar as a privileged report.

Among the other bills are the immigration bill, the Chickering bill, for ascertaining the feasibility and cost of a ship canal from the great lakes to the Hudson; several important public land bills, the bills for the admission of the territories, and many others of especial interest to particular localities. There are also several important measures in the senate which might come over to the house for consideration.

**Communicated.**

MR. EDITOR: Please allow me a small space in the columns of the HERALD relative to the applicants and patrons of the post office. We believe the great interest to be considered should be that which would promote the greatest interest of the patrons of the office, as the post office has been managed in a very careless and unsatisfactory manner here for many years, except the time that John Koontz was postmaster, when it was located in what was then known as the postoffice building, and where the patrons of the office were promptly waited upon, and did not have to wait in some general store where boots and shoes, hats, caps, men's and boys' clothing, dry goods and notions with a grocery department included, where from three to five clerks have been employed until some of the clerks or postmaster could be at liberty to wait upon a patron of the postoffice. The people have long since grown tired of the way the postoffice has been conducted in such a place, as 12 or 16 years is a long time for the people to be provoked in such a way of keeping the office. We understand there are three business men now who are applicants for the postoffice. We regard each of them to be gentlemen in every respect, but as patrons of the office, knowing the inconvenience we have experienced during all the time the postoffice has been kept in business houses, for the last 20 years, as patrons of the office, do you still want to continue the office to be kept in some business house or would you prefer the office to be kept in a separate room wholly disconnected with any business house, where the postmaster would be required to give the patrons of the office his undivided attention. If so, now is the time to have the interest of the patrons considered, as we fully believe that our Congressman Royce has the backbone to promote the interest of the people, but as a people if we want any change made relative to how the postoffice should be kept we should make expression to that effect to our congressman, who will unquestionably consider our rights and privileges. CITIZEN.

#### Notable Event.

Last Thanksgiving eve., William Kneoble, the genial manager of Kreuzberger Park pavilion and sample room, gave a feast to numerous friends fit for ye gods. Thirty-two guests sat down to the table and partook of a turkey supper, oysters, etc. All had a splendid time and voted that Delmonico in his palmiest days never produced a more elaborate bill of fare, nor one more appreciated.

The terms of the congressmen recently elected do not begin till March. The first regular session of the new congress will not convene till December, 1897. This is called the long session and usually lasts from five to six months. The second or short session begins in December, 1888, and lasts less than three months, ending March 4, 1899. The question of a special session being called shortly after the inauguration of President McKinley is still involved in doubt.

The old Thanksgiving Day was not forgotten by Mr. and Mrs. David Fetters, and on that occasion a number of their friends were invited to partake of a real old-fashioned Thanksgiving turkey dinner, which was gotten up by the hostess in an excellent manner. Those present were: Samuel Osborn and daughter; S. Williams and wife; Amos Osborn and family, Abram Hays and wife; P. J. Garn and wife; Mrs. Walter Geiselman and others. After dinner the party spent the balance of the afternoon in social converse.

#### EMBARCO ON ALL TOBACCO.

The Spanish Authorities in Cuba Pass More and Stricter Rules.

Havana, Nov. 30.—The intendant has dictated rules to the custom house employes designed to prevent the exportation of any kind of leaf tobacco from any port in the provinces of Matanzas, Santa Clara, Puerto Principe and Santiago de Cuba.

Prominent merchants of Pinar del Rio affirm that Gen. Maceo's situation is desperate. His forces, they say, are half naked and are compelled to wander continually without rest. They are badly nourished and many of the whites in his command have consumption. Maceo's encampments are said to be like hospitals. These merchants add that Gen. Weyler is expected to deal a mortal blow to the revolution in Pinar del Rio by the end of the year.

Several well known insurgent leaders have dynamited a military train running along the Trocha from Jucaro to Meron, in the western portion of Puerto Principe. Several cars were smashed and the insurgents then attacked an iron-plated car, in which were the train's escort of twenty-five men and officers, including a captain and an official of the railroad.

#### Prisoners Near a Fiery Death.

Wabash, Ind., Nov. 30.—The Wabash county jail burned at 11 o'clock Sunday night. The flames originated in the basement of the structure, and proceeded from the furnace up through the chimney shaft. The furnace is directly beneath the cell room, and, as the smoke filled the latter, the twelve prisoners set up wild yells, attracting the attention of Sheriff McKahon. It was some time before the prisoners could be released. The edifice was built fifteen years ago, at a cost of \$17,000. Insurance to the amount of \$1,200 is carried on the building and contents.

#### Russia's New Treaty.

London, Nov. 30.—The North China Daily News prints what is alleged to be the text of a new treaty between China and Russia. By the terms of the treaty Russia is to be allowed to build a railroad through Manchuria and is to be given for fifteen years the port of Kiaoshan, in the Province of Shan Tung, for a winter port. Russia is to fortify Port Arthur and Tallen-Wau, and, in case of war with other nations, is to have the use of these ports. Russia will furnish officers for the instruction of the Chinese army.

#### Troops to Go to Pensacola.

Pensacola, Fla., Nov. 30.—It is rumored in military circles that the troops of the First artillery, now stationed at various points on the gulf and Atlantic coasts, are to be concentrated here for practice with the modern heavy guns, which will soon be in position on Santa Rosa island. The selection of a site for another battery leaves no doubt in the minds of military men that Pensacola is to be heavily fortified as rapidly as possible. At least 1,000 men can be comfortably quartered at Fort Earrancas and the navy yard.

When you want your hair cut, remember you can have it done for the small sum of 15c at the "O. K." barber shop, Osborn block, and it is done all O. K., and the baths are all O. K., and when a man comes out of the O. K. bath rooms he feels O. K.

#### HOW TO PREVENT CROUP.

Some Reading That Will Prove Interesting to Young Mothers. How to Guard Against the Disease.

Croup is a terror to young mothers and to post them concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. Even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. Culver City Drug Store. 1 feb
