### BEET SUGAR MAKING.

REPORT ISSUED BY THE AGRI-CULTURAL DEPARTMENT.

Can Be Made for 4 Cents-Cheap Processes Are Decried-No Hope Is Held Out to Farmers of Establishing Home Factories.

Factory Costs \$250,000.

There is much information for those identified with sugar interests in a report just issued by the Agricultural Department on the sugar beet. In reviewing the cost of manufacture it says that in 113 factories reporting in Germany the mean net profit for each factory was \$32,240 for the last year. The price reported paid for beets is usually fictitious, the beet growers owning the factory and preferring to share in the general profits rather than to charge a high price for the beets. First-class beets rarely sell for less than \$5 a ton. The Western Beet Sugar Company of Watsonville, Cal., stated that in the season of 1888-89 the cost of manufacturing sugar from the beets amounted to \$80.80 per ton of sugar. The department holds now that with the best machinery and most economical processes beet sugar can be made in this country at a cost of from 3 to 4 cents per pound when the price of beets does not exceed \$5 a ton. From reliable data it is stated that in Europe the cost of erecting a factory with the most modern machinery of a capacity of at least 300 tons of beets per day is about \$200,000. In this country, owing to increased cost of transportation and the higher price of labor, the cost probably would be \$250,000. The report discountenances cheap manufacturing processes and holds out no reasonable hope to farmers of successfully establishing home beet sugar factories, but predicts that the cooperative factory methods practiced in Europe, in which beet growing farmers hold a part or majority of the stock, will eventually come into use here.

### W. J. BRYAN HURT.

Hotel Balcony from Which He Was Speaking Collapsed.

William Jennings Bryan was injured at St. Augustine, Fla., Thursday night by the fall of a section of a hotel piazza. The Democratic candidate for President was rendered unconscious, his face was badly cut, and his body bruised in several places, but his injuries are not regarded as very serious. Others in the wreck were not so fortunate ad Many were internaling injured, some nearly everybody suffered broker while Hundreds were packed into morpiazza, when, with a crackling, crashing noise, a section forty feet square fell to the ground twenty feet below. Panic seized the men and women, and for a while nobody seemed to know what to do. Then, as some of those who had fallen scrambled to their feet and called for aid for the other unfortunates, a general rescue movement was instituted. Mr. Bryan was discovered, and to the waiting thousands it was soon announced that he was unconscious. Mr. Bryan was taken to his room in the hotel as soon as the physicians finished their task, and retired immediately. Orders were given that he be not disturbed, and the physicians announced that the distinguished Nebraska man was not seriously hurt and would recover.

### CONSULS WANT THE BIG FEES.

Ask Repeal of Regulations Promulgated by Olney,

Considerable pressure is being brought to bear upon the President to secure a repeal of consular regulations promulgated by Secretary Olney last October, which in effect largely curtail the big fees which have been received by some consular officers. The order practically did away with the requirement in all cases of an oath to invoices by an exporter. The result was that many Consuls who were in the habit of dividing fat fees with British commissioners empowered to administer such oaths lost these returns. Now the applicants for the consular places have discovered that a large percentage of the returns of their prospective offices has been cut off by Secretary Olney's order, and so the places are less desirable. At one British port the Consul last year secured nearly \$8,000 in such fees, which he pocketed.

### FALLS VICTIM TO CANNIBALS.

### White Trader Killed in the New Heb-

Australian advices state that Mr. Duncan, a white trader, met a horrible death while trading with natives of New Hebrides. He was tied to a tree for three days, being kept alive and forcibly stuffed with food. He was then killed and eaten, the women joining in the cannibalistic feast, at which a great assemblage from the various groups of islands was present.

To Meet at Winena.

May 20 the General Assembly of the Presbyterian Church in the United States will be held on the grounds at Winona, Ind., near Warsaw. It will continue ten days, lasting over Sunday and closing at the end of the following week. This is the one hundred and ninth General Assembly and is one of three chief ecclesiastical gatherings held in the United States. Ex-President Benjamin Harrison probably will be made moderator of the assembly.

How to Grow Mushrooms.

Yielding to a demand that has been continuous for a long period, Secretary of Agriculture Wilson has had issued a bulletin on "How to Grow Mushrooms." The report goes into details as to caltivation and concludes that it is easy enough to grow mushrooms, but that the difficulty is in creating a greater demand for them.

GLOBE SAVINGS BANK CLOSES. SHE'S A

Chicago Concern Is Forced to Give Up the Struggle for Existence.

The Globe Savings Bank of Chicago suspended Monday morning. A notice on the doors announced that the bank was in the hands of the Chicago Title and Trust Company, assignee. It has been known in Chicago financial circles for some time past that the bank was having anything but smooth sailing. It was organized Dec. 24, 1890, and has therefore experienced but two good years in its existence. John P. Altgeld was its first vice-president at that time, but he resigned. For the last five years it has had a decidedly hard time, passing through two panies safely by availing itself of the time clause in the payment of savings accounts, which formed the bulk of the deposits. The bank has a capital stock of \$200,000, which is held in the ratio of three-fifths in the West and the balance in the East. Under the laws of the State the stockholders are liable for an additional amount equal to the face value of the stock held in their names. This practically makes a guarantee fund of \$400,000, provided it can be collected from the stockholders. The State Auditor at a recent examination of the bank's affairs ordered an assessment of 50 per cent on the stockholders, in order to raise a surplus, and notices of this assessment were sent out on the 18th of March. This becoming known, a run was started and the end hastened. The last statement to the Auditor showed \$313,000 savings and \$142,000 individual deposits. The suspension created no sensation, but there were a few angry depositors around the bank, who had made deposits just before noon on Saturday.

### STRIKE IS A BIG ONE.

Rich Gold Discoveries at Yuma, A. T.,

Cause Great Excitement. Col. George F. Payne, a well-known gold miner of California for more than a quarter of a century, who has just arrived in Pomona, Cal., from Arizona, says that Yuma is wild with excitement because of the two finds of marvelous rich gold ore. At the Pichaco mining district, twenty-five miles north of Yuma, on the California side of the Colorado river, are the Golden Dream and Noonday mines. For several weeks the men at those mines have been getting into rich ore and the owner has been offered as high as \$175,-000 for his mines. Thursday men in both mines, at almost the same hour, ran into ledges of ore that yield over \$6,000 to the ton. Four specimens from these ledges were found to run \$2,750 per ton. Twelve carelessly selected bits of rock assayed \$3,120 to the ton. The ledges in the Pichaco district are all very large. One ledge of low-grade ore there is sixty feet wide. No one can tell yet the dimensions of the ledge in which this rich ore has been found, but it is certainly a big one.

Proclamation from Governor.

Gov. Foster of Louisiana has issued a proclamation to the people calling attenthe fact that the levee system, although not yet entirely perfected, is the bulwark of the State's salvation. Behind them lies one of the most retale sections of America. Government and State aid has been extended, and the future depends upon the people. Trusted leaders are in charge of the work, and if the people help them properly, despite the fact that the flood apparently is the greatest ever known, all or most of the levees can be held, and the future will be bright because the system will be strengthened and completed, and the country will have confidence in Louisiana, her enterprise and her opportunities. The sentiment expressed took root before it was uttered, for all along the Mississippi Valley road between New Orleans and Baton Rouge mass meetings were held and volunteer forces organized to keep strict watch on the banks and to labor day and night to strengthen them, even where the danger is not apparent except in the river's steady climb to the top of the protecting earthworks. The warning of the weather bureau to abandon homes and seek safety in flight has been disregarded, and instead men, women and children, white and black, are piling on dirt and building revetments, seemingly fascinated with the struggle against the attacking monster. President McKinley telegraphed the Governors of the States in which the floods exist for information, and he earnestly inquired into the situation.

Oldest Member of the G. A. R.
One hundred years ago, in East Orsley,
England, was born William Harding, now
of Waseca, Minn., to-day the veteran of
three wars and the oldest member of the
G. A. R. in the United States. At the
age of 15 Harding participated in the war
of 1812. He fought under Gen. Taylor
in the Mexican war, and for that service
he is now drawing \$72 per month pension. When the civil war broke out he
enlisted, although 60 years of age, and
served throughout the war.

Southern City Scorched,

The Richardson Building, the largest in Chattanooga, Tenh., and one of the largest in the South, was totally destroyed by fire Saturday morning, and two persons lost their lives. Fire caught from the furnace in the basement and ran up the elevator shaft. The dead: Boyd Ewing, S. M. Patton. One hundred offices and four stores were in the building. The total loss amounts to about \$400,000, with insurance of about \$200,000.

### A Mixed Result.

City elections in Wisconsin show the Democratic vote was in the ascendant. St. Louis, Mo., remains Republican. The result in Michigan seemed to favor the Democrats, and in Illinois also heavy Democratic gains are reported. Many Kansas cities chose Democratic Mayors and Councils.

Two Dozen Big Guns.

The Bethlehem, Pa., Iron Company Monday made a shipment for the United States Government to Sandy Hook, N. J., of twenty-four cannons, loaded on twenty-four flat cars. The shipment was made up principally of eight and ten-inch guns. being finished complete,

Celebrate the Day on Bicycles.

Mr. and Mrs. George Hackney of Chicago celebrated their golden wedding anniversary in Topeka, Kan., by taking a spin on their wheels.

SHE'S A GOOD SHIP.

IOWA'S TRIAL TRIP SPEED EX-

New War Monster Is Said to Excel the Indiana-Mr. Cleveland's Famous Forestry Order May Be Vacated-Pike's Peak Miners Suffocated.

New Ship Iowa.

The battleship Iowa passed the second mark in her official trial trip Wednesday, having made the first leg at the rate of sixteen and three-hundredths knots. The Iowa is officially known as "seagoing battleship No. 1." The contract for her construction was awarded Feb. 11, 1893, to the William Cramp & Sons' Ship and Engine Building Company of Philadelphia. The Iowa is larger than the Indiana in length, beam and other measurements, but the disposition of the battery is the same, except that she carries four 12-inch guns, where the Indiana carries four 13-inch, and six 6-inch guns, as against the Indiana's four 6-inch, and her secondary battery is 22 rapid-fire and machine guns, as against the 28 of similar caliber on the Indiana. In a word, while the Iowa is the larger ship of the two, her armor and armament are both lighter than those of the Indiana. The dimensions of the Iowa are: Length on the load water line, 360 feet; extreme breadth, 72 feet 2½ inches; displacement on normal draught, 11,300 tons. The contract speed was sixteen knots, with a premium of \$50,000 for each quarter knot in excess. Her water line protection is a belt of harveyized nickel steel with a maximum thickness of fourteen inches, tapering to six inches on the lower edge. With the stability due to her great beam she can fight with her whole battery in any weather. The lowa's full war complement is 512 officers, seamen and marines. The contract price of the boat was \$3,010,000. Her maximum coal carrying capacity is 3,000 tons, and gives her a cruising radius of about 16,000 knots at the most economical speed.

### BLISS AGAINST FORESTRY ORDER

Secretary in Favor of Vacating Cleveland's Proclamation.

A Washington dispatch says: Some additional light is thrown on the attitude of the administration on the forestry reservation question by the stenographic report of the conference of the national forestry commission with Secretary Bliss Monday. Chairman Sargent of the new commission and Gen. Abbott were particularly anxious that no action be taken pending the commission's report, to be submitted in May. Secretary Bliss expressed his ideas as follows: "Of course, it is impossible that these reservations go on as they are now. They work a hardship to the people. The people must get timber and develop on the old as well as the new claims. The people desire immediate relief in regard to various valuable industries. They seem to consider that they are withdrawn from all their business. If anything can be done to relieve them by the issuance of a proclamation it should be cone. They make rather a serious claim upon us, which is backed up by weighty influence, and it seems almost necessary to do something." Commissioner Herman said that if the special agents of the department could not patrol and protect the reservations properly the force could be increased, or the War Department could be called on to detail troops to assist them.

TO SAIL FOR INDIA WITH CORN.

Methodists Decide to Order Ship to

Start at Once. The Rev. R. G. Hobbs of Jacksonville, Ill., reported to the Methodist ministers in Chicago that the outlook was encouraging for three shiploads of corn for the India famine sufferers. There is enough on hand now to fill one ship. The Methodist committee had a conference with the Board of Trade committee, and it was decided to order the vessel now lying at San Francisco to sail at once. It was also reported that the English Government had agreed to furnish transportation for two shiploads of corn if American relief societies would gather together the grain. Congress has also appropriated two more ships, which will be ready on demand. Mr. Hobbs expects to go to India with the first shipload to see that the food is properly distributed, and to be on the ground when the other two ships arrive.

### SPAN FAILS UNDER CARS.

Approach to a Bridge at Pittsburg Collapses Under a Freight.

At Pittsburg, the wooden span of the north-end approach to the Ohio connecting railroad bridge collapsed Monday morning while a Fort Wayne freight train was crossing, and the engine and thirteen cars were precipitated to McClure avenue, fifty feet below. Fireman William Haggerty was killed instantly and Engineer William Graham so badly injured that he cannot recover. The engine was completely wrecked, and the cars, which were loaded with coal and iron, were entirely demolished. The loss will be very heavy.

Big Democratic Leaders to Meet. Former President Cleveland, John G. Carlisle, former Secretary of the Treasury, and William L. Wilson, former Post-

ury, and William L. Wilson, former Postmaster General, will be among the guests at the dinner to be given by the Reform Club at the Waldorf in New York. Between 500 and 600 leading Democrats will attend, and the affair is likely to make Democratic history.

Turk to Pay for Ravage.

President McKinley is contemplating sending John W. Foster to Turkey as special envoy with the rank of ambassador to secure from the sultan payment of the claims of American missionary societies whose property was destroyed during the Armenian difficulty.

Suffocated in a Mine.

slope of Pike's Peak, and two are dead.

Seven men were overcome by smoke and 28c to 30c; oa butter, creame slope of Pike's Peak, and two are dead.

FEAR PUBLIC SENTIMENT.

Spain Will Not Summarily Execute the Cuban General Rivera.

Havana dispatch: It has just trans-

pired that Rivera was captured in a hospital and not in battle, as the official reports alleged. Rivera had been wounded in a skirmish two days previous to his capture and when seized was receiving treatment in a Cuban hospital. He had with him his staff and 100 men. The attack on the hospital was made by 4,600 Spanish troops under Hernandez Velasco. Rivera, though wounded, endeavored to cut his way out, but fell, pierced by two more bullets. Acting Captain General Ahumada has received orders from Minister of War Azcarraga, at Madrid, not to try Gen. Ruis Rivera immediately by court martial. The Minister thinks that a summary court martial, followed by the shooting of Rivera and Baccaloa, would have a bad effect in Europe. The Spanish general, Velasco, has been instructed to offer Rivera a pardon on condition that he use his influence to induce Brigs. Ducaisse, Vidal, and Delgado, and other insurgent leaders in Pinar del Rio to surrender under the amnesty decree. Delgado said he would lay down his arms to save Rivera's life on condition that he himself and his immediate followers be paroled.

### LANDSLIDE AT CHICAGO.

Democrats Sweep Everything in Town and City Elections.

Carter H. Harrison, Dem......140,207

John M. Harlan, Ind...... 65,929 Nathaniel C. Sears, Rep..... 58,535 Washington Hesing, Ind...... 14,884 The above vote for Mayor shows the strength of the city Democratic ticket at Chicago Tuesday. It gave to each candidate upon it more than twice as many votes as the next highest man received, and the City Council was also captured. The township Democratic tickets were successful. The election was one of the most exciting, notwithstanding that it was so one-sided, that have ever been held in Chicago; and while Mr. Harrison's success was confidently predicted by his friends and pretty generally conceded by his opponents, no one in the city expected such a landslide all along the line.

Cotton Crop in Danger.

The prediction made that great disaster to the Mississippi delta would follow the breaking of the levee at a point on the east side of the river north of Helena, Ark., has been terribly realized. The break at Flower Lake, which occurred Monday morning, has rapidly grown from a dozen feet in length to a thousand. This crevasse is at the head of the delta and will cause an overflow of the northern tier of counties in Mississippi with the exception of a part of Tunica. The question that now confronts the planters is the duration of the flood. If the water is out of the delta by May 5 a crop of cotton may be grown, but cotton planted as late as May 10 has little chance of maturing before frost. There is still another danger. These crevasses must all be closed before the June rise or there will be a second overflow. The delta country produces and nually no less than half a million bales of cotton. Much suffering is reported from the overflowed regions. At a meeting of the Memphis relief committee it was decided to ask other cities for belp. Donations of meat, meal and money are preferable. All remittances should be made to Bun F. Price, treasurer of the citizens' relief committee. Memphis, Tenn.

Questions Its Constitutionality.

Judge Hubbard of South Bend, Ind., held that the new law by which prisoners over 20 years of age are sent to the reformatory for larceny is unconstitutional. The decision of Judge Hubbard caused General Superintendent Hert of the reformatory to defer the transfer until the Supreme Court takes up the decision of the lower court.

Fire in a Dayton Hotel.

At Dayton, Ohio, the Phillips House was partially destroyed by a fire which started in the laundry. The flames were confined to the west wing. Loss about \$15,000; fully insured.

### MARKET QUOTATIONS.

Ohicago—Cattle, common to prime, \$3.50 to \$5.50; hogs, shipping grades, \$3.00 to \$4.25; sheep, fair to choice, \$2.00 to \$5.50; wheat, No. 2 red, 64c to 66c; corn, No. 2, 22c to 24c; oass, No. 2, 16c to 17c; rye, No. 2, 30c to 31c; butter, choice creamery, 18c to 20c; eggs, fresh, 8c to 9c; potatoes, per bushel, 20c to 30c; broom corn, common growth to choice green hurl, \$20 to \$80 per ton.

Indianapolis—Cattle, shipping, \$3.00 to \$5.25; hogs, choice light, \$3.00 to \$4.25; sheep, common to choice, \$3.00 to \$4.50; wheat, No. 2, 87c to 89c; corn, No. 2 white, 25c to 26c; oats, No. 2 white, 21c to 23c.

St. Louis—Cattle, \$3.00 to \$5.50; hogs, \$3.00 to \$4.25; sheep, \$3.00 to \$5.00; wheat, No. 2, 89c to 92c; corn, No. 2 yellow, 20c to 22c; oats, No. 2 white, 17c to 19c; rye, No. 2, 31c to 32c.

WORK OF CONGRESS.

THE WEEK'S DOINGS IN SENATE AND HOUSE.

A Comprehensive Digest of the Proceedings in the Legislative Chambers at Washington-Matters that Concern the People.

Lawmakers at Labor.

The Senate Monday by unanimous vote adopted a resolution reciting the reports that Gen. Ruis Rivera, the Cuban commander, is about to be tried by drumhead court martial and shot, and expressing the judgment of the Senate that if these reports are true the President of the United States should protest to the Spanish Government against such a violation of the rules of civilized warfare. This resolution was not sent to the House of Representatives, but became effective as a measure of advice to the President by its adoption. After the disposal of the Cuban question the day was given to speeches, Mr. Elkins speaking for two hours on the development of the American merchant marine and Mr. Lindsay advocating the passage of the Torrey bankruptcy bill. A joint resolution was agreed to directing the Surgeon General of the Marine Hospital service to aid the Mississippi River flood sufferers by the distribution of tents, blankets, food and medicine under the epidemic fund of 1893, and to purchase further supplies under the present epidemic fund for distribu-

The Senate Tuesday was occupied by discussion of Cuban affairs and the bankruptcy bill. The President sent to the Senate the following nominations: Treasury-Alonzo J. Tyler of Tennessee, to be collector of internal revenue for the second district of Tennessee; Park Agnew of Virginia, to be collector of internal revenue for the sixth district of Virginia. Navy-Theodore Roosevelt of New York, to be assistant secretary of the navy; Captain A. S. Crowninshield, United States navy, to be chief of the bureau of navagation in the department of the navy: Rev. William G. Cassard of Maryland, to be chaplain in the navy. Postmaster-William Barrett Ridgely at Springfield,

The House acted promptly Wednesday on the President's message and adopted a joint resolution authorizing the Secretary of War to expend \$200,000 for the relief of the flood sufferers of the Mississippi Valley. Adjournment was taken until Saturday. Cuba and the flood sufferers divided attention in the Senate. The reading of the President's message urging Congressional relief for the devastated regions of the Mississippi River was followed by the passage of a joint resolution offered by Senator Jones of Arkansas, appropriating \$150,000, to be immediately available for the flood sufferers. It was passed by the unanimous vote of the Senate. The plans were changed, however, when the House resolution appropriating \$200,000 for the Mississippi River and Red River of the North was received. This was accepted in 'rtn of the former resolution and was a lieu of the former Mr. When the passed unanimously. Mr. Morgan of Alabama resumed his speech in support of the resolution on de-

claring that a state of war exists in Cuba. The Senate Thursday heard Mr. Morgan of Alabama for the third successive day on his resolution declaring that a state of war exists in Cuba. Mr. Nelson of Minnesota spoke for two hours on the bankruptcy bill, opposing the pending Torrey bill. Mr. Chandler offered a resolution, which was agreed to, as follows: "Resolved, That the Committee on Interstate Commerce be directed to investigate the payments made or agreed to be made by the interstate commerce commission for attorneys' fees, and also to inquire whether in any cases the attorneys of the commission have also been employed by railroad companies in similar cases, and further whether any additional authority from Congress is required for the employment of counsel in any pending proceedings which have been instituted by or on motion of the commission." The House gave no evidence of life.

### A LUCKY YOUNG MAN.

Charles U. Gordon, Chicago's New Postmaster.

The resignation of Washington Hesing, postmaster of Chicago, made a vacancy which President McKinley lost little time in filling. A young man got the plum. His name is Charles U. Gordon, and he is not yet 32 years of age. Since his 19th

CHARLES U. GORDON.

year he has been engaged in real estate business and has made money fast. He has been president of the Marquette Club, a social-political organization with a great influence in Republican affairs. In last fall's campaign he was a leader for Mc-Kinley.

Sparks from the Wires.

Richard Dudley of Erie, Pa., and Cincinnati, died in London.

Marshall Russell, Maria Snoden and Maggie Short were drowned at Allensville, Ky., while out boat riding on a pond.

### FLOOD VICTIMS AIDED

PRESIDENT M'KINLEY'S APPEAL IS HEEDED.

He Asks Congress to Act at Once in the Matter of Relief, and in a Very Brief Time \$200,000 Is Appropriated.

### Message from the President.

President McKinley appealed to Congress Wednesday for relief for Southern flood sufferers, and Congress was quick to respond. Here is the text of the mes-

Information which has recently come to me from the governors of Arkansas, Mississippi and Louisiana, and from prominent citizens of these States and Tennessee, warrants the conclusion that widespread distress, involving the destruction of a large amount of property and loss of human life, has resulted from the floods which have been submerging that section of the country. These are stated, on reliable authority, ever devastated the Mississippi Valley, the water being much higher than the highest stage it has reached before. From Marion, Ark., north of Memphis, to Greenville, Miss., a distance of more than 250 miles by river, it is reported there are now at least fifty towns and villages under water, and a ter-Memphis to 200 miles south, and from five to forty miles wide, is submerged. Hundreds growing crops, are included in the submerged territory. In this section alone there are from 50,000 to 60,000 people whose property has been destroyed and whose busihave been ruined, thousands of cattle have been drowned, and the inhabitants of cer-

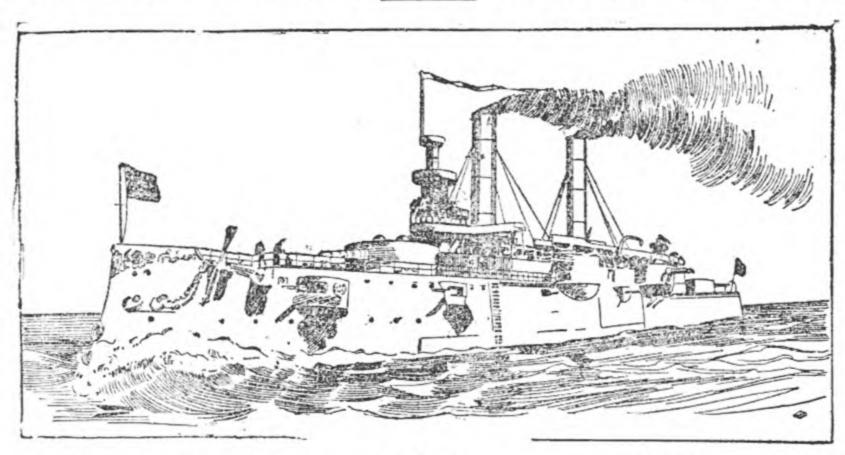

Confesses to the Murder of Charles L. Hastings at Jacksonville, Ill.

DRAPER DID THE DEED.

Charles L. Draper has made to his pastor, Rev. Dr. Morey, a complete confession of the murder of Charles L. Hastings in the abstract office of Judge Kirby at Jacksonville, Ill., March 31. He said that he had been in the employ of Judge Kirby for some time, when Hastings came back to the city without means and in despair over losing his property. Draper said he interceded for Hastings with Judge Kirby and secured him a position. They went to work together and from that time the trouble began. Draper claimed that he had shown Hastings every kindness only to be rebuffed. He would do a great amount of work preparing papers and Hastings would label them with his name and take the credit of preparing

The trouble culminated when Draper pressed Hastings for a reason why he was so cool and was answered with an oath that he wanted nothing more to do with him. An appeal to Judge Kirby had no to be the most destructive floods that have effect and Draper resigned and then began business for himself. In order to get through with his work he had to have access to the books he had helped to prepare. He had kept a key to the door, and decided to see if the combination on ritory extending from ten miles north of the vault door had been changed and found it had not. He went there night of thousands of acres of cultivated soil, with after night to take off the abstracts of titles. He was suspected and was shadowed by a detective for over a month, but he held off until the detective went off ness has been suspended. Growing crops duty and a day or two after made his last visit to the office. Hastings unextain areas threatened with starvation. As pectedly entered and Draper says at-

### BATTLESHIP IOWA IS THE QUEEN OF AMERICAN WAR VESSELS.

The battleship Iowa is the queen of the American navy. By her grand work Wednesday in her speed trial she proved herself to be the superior of the Indiand or Massachusetts. Incidentally she earned a premium of \$200,000 for her builders, William Cramp & Sons, of Philadelphia, by making an average of seventeen knots an hour over the regular Government course off the Massachusetts coast in the four hours' trial required by the Government under the contract. The Iowa just did it, and that was all. In fact, so narrow was the margin that all the reckoners had to carry out their figures to the fourth decimal point in order to make the speed for the whole course average seventeen knots an hour.

a great majority of the sufferers are small | tacked him, and during the struggle which farmers, they have been left entirely destitute and will be unprepared for work even after the floods have subsided.

The entire Mississippi Valley in Arkansas is flooded and communication with many points cut off. In Mississippi a like condition exists. The levees in Louisiana, with a single exception, have held, but the water is rising and the situation there is reported as being extremely critical.

Under such circumstances the citizens of these States look for the co-operation and support of the national government in relieving the pressing cases of destitution for food, clothing and shelter, which are beyoud the reach of local efforts. The authorities who have communicated with the Executive recognize that their first and most energetic duty is to provide, so far as possible, the means of caring for their own citizens, but nearly all of them agree in the ouinion that after their resources have been exhausted a sum aggregating at least \$150,-000, and possibly \$200,000, will be required

for immediate use. Precedents are not wanting that in such emergencies as this Congress has taken prompt, generous and intelligent action, involving the expenditure of considerable sums of money, with satisfactory results. In 1874 \$590,000 was appropriated, and in 1882 \$350,000 was also appropriated for relief in the same direction, besides large sums in other years.

The citizens' relief committee of Memphis, which has taken prompt action, has already cared for from 6,000 to 7,000 refugees from the flooded districts, and they re still arriving in that city in large numbers | for the rescue that comes so slowly. daily. Supplies and provisions have been sent to the various points in Arkansas and Mississippi by this committee, but the most that can be done by these efforts is to partly relieve the most acute cases of suffering. No action has yet been taken for the great

followed he drew a knife and inflicted the fatal stabs. Draper says he has retained Gov. Johnson of St. Louis, and he, with Col. Pat Dyer, will make a stubborn fight for the man's life.

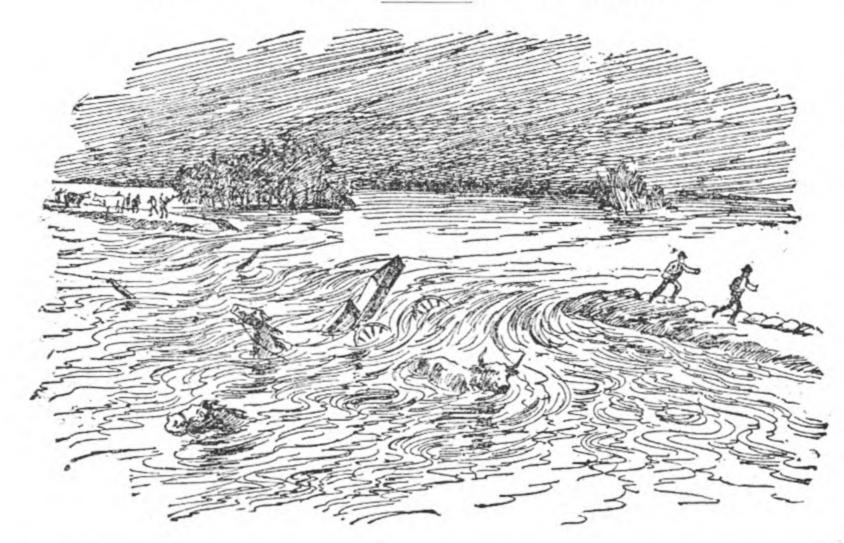

### STORY OF THE WATERS.

10,000 Equare Miles Flooded, and 200 Lives Lost.

Ten thousand square miles of flooded farm lands, 200 lives lost, and \$100,000,-000 worth of property destroyed. This is the record of the huge yellow monster that coils its length like the slow spreading tentacle of an octopus from the British line to the Mexican gulf. It is the record of the insatiate Mississippi. Seven States are wailing and wallowing and floundering in the muddy torrent, and thousands of people have gone sailing over their farms and into the flooded forests on logs, on rafts, on the roofs of their houses. On the small knolls that yet rise above the deluged lands in Arkansas, Mississippi, and Louisiana, little groups of half-starved men are gathered with their families and farm animals, waiting

And still the tide rises and swells and widens and sings its long song of death and disaster through the broken levees, and still the six-foot snows of Minnemajority of the inhabitants living in the in- | sota and the Dakotas melt and pour their

### BREAK IN THE LEVEE BELOW MENPHIS.

described.

Under these conditions, and having fully exerted themselves to the fullest extent, the local authorities have reluctantly confessed vasses are everywhere. Twenty thousand their inability to further cope with this dis-tressing situation unaided by relief from the Government.

representatives of the people should be promptly informed of the nature and extent people, and I have communicated these facts in the hope and belief that the legislative branch of the Government will promptties in the States named.

WILLIAM M'KINLEY. A resolution was at once passed by the House appropriating \$200,000 for the sufferers and, the Senate giving it speedy sanction, the resolution was carried to the signed it

terior, whose condition has already been | vast volume into the already unprecedented current. Levees from St. Louis to Vicksburg are broken and destroyed. Cremen have fought night and day, and are still fighting the roaring waters. In the It has, therefore, seemed to me that the backwoods and isolated lowlands of Arkansas and Mississippi thousands of poor of the suffering and needs of these stricken settlers have been deluged and are cut off from communication or rescue. Thousands of farm animals have been drownly re-enforce the work of the local authori- ed. Culverts and bridges have been washed away and railroad traffic impeded. Relief is slow and inadequate, and the end is not yet.

Amined Dowleh has been appointed president of the Persian Council of Min-White House, where the President gladly | isters of the Interior with extensive pow-

### INDIANA INCIDENTS.

OF EVENTS OF THE RECORD PAST WEEK.

Remarkable Experience of an Ander son Boy-Standard Company Makes Some Big Purchases-Ex-Gov. Porter Falls a Victim to Paresis.

Lives with a Bullet in His Brain. The remarkable case of Oliver Lever of Anderson, a 10-year-old boy, has brought several medical paper representatives to the city to investigate. A year ago the child found a revolver. It accidentally went off and the ball entered the right temple and lodged in the brain. He fell unconscious and brain matter oozed with the blood from the wound. Although doctors said he could not live over five or ten minutes, and was even then unconscious, the child is alive to-day. The wound healed and after lying in an unconscious state for two months the boy regained reason and faculties. The bullet is still in the brain, but he does not experience any consciousness of the fact now. There does not seem to be any mental deficiency as the result of the accident, and no disease, such as epilepsy, has grown out of it.

### Becomes a Mental Wreck.

Gov. Porter's condition is a hopeless one. For the last eighteen months he has been gradually succumbing to a form of paresis, and for twelve months he has been at Indianapolis under the care of attendants, being practically helpless. His condition is due to a breaking down of vital forces, the result of advanced age, he being in the 70's, and having led an exceedingly active life. Two years ago and more it was noticed that he was absent-minded. Throughout the past summer and fall he was frequently seen driving about in his carriage with his faithful colored servant handling the reins. For several months, however, his infirmity has closely confined him to his home, and even a few weeks ago, when his mansion caught fire, and he was removed across the street for safety while the fremen were quelling the flames, he was not cognizant of the trouble. Gov. Porter is 75 years old. The disease is similar to that which has carried off a number of bright minds of recent years, and while no immediate fatal result is anticipated, yet his enfeebled condition makes death possible at any time. He was once of national prominence and served as minister to Italy.

Another Big Oil Deal Consummated. Another big oil deal has just been consummated in the Indiana oil field. The Standard Oil Company has purchased the leases of the Big Sandy Oil Company of Indianapolis, operating in the Godfrey reserve, northeast of Hartford City. The lease includes the 300-acre tract of land recently purchased by John T. Brush, baseball magnate of Indianapolis and Cincinnati, for which he paid \$30,000. This gives the Standard 1,100 acres in the reserve, the most productive oil territory in the Indiana field. The report of the field for March shows that twenty-four new wells were drilled, with 2,100 barrels new production, and seventeen dry holes. The average daily production of these wells is thirty-five barrels. This is an increase over the month previous of three wells and 910 barrels produced. During the month thirteen wells were abandoned.

### All Over the State.

At Muncie, 8-year-old Mary McAllister was instantly killed by an electric street car, the motorman being her cousin, Walter Heyworth.

William Roller was found dead in a pasture near Dayton. There was a bullet wound in the forehead, and he is believed to have committed suicide.

At Lafayette, F. M. Bales was found dead in a storeroom. A paper containing what is thought to be morphine was found on the floor near the body. Bales had taken a dipsomania cure, but had returned to drink.

The Indiana Iron Company, which has been working very irregularly at Muncie for months, has put on a full force of 900 hands, who are working double turn, day and night. The same situation exists at the Midland Steel Works and the Ontario Silverware Works has increased its force.

Three Chicago boys, Billy Magary, Frank Murphy and John Brown, whose homes are on Archer avenue, were arrested at Fort Wayne on suspicion. When searched \$130 in gold was found in Magary's shoes, and Brown, when questioned by the officers, broke down and confessed. He said the three had held up a stranger in Bonfield street, Chicago, and secured \$160. They escaped the police and came on to Fort Wayne, having gotten rid of about \$30 of the money.

Three hundred and more investors in Dean & Co.'s "Get Rich Quick" company, which was levied upon by the sheriff in New York, gathered in the Indianapolis office Tuesday, only to find a placard posted: "Closed; agent gone to New York." It is estimated that during the few weeks of the company's operations fully \$300,-000 was forwarded to New York. 'The local agent was Miss M. E. Massey. She received a percentage of money collected. Her earnings, said to exceed \$7,000, were also invested with Dean & Co., sharing the fate of those who invested with her.

The funeral of Philip Snyder, who committed suicide, was held in Decatur. Owing to the unfortunate condition of the entire family, this death has attracted more attention than any that ever took place in the history of northern Indiana. Six children were born to William Snyder. All of them have become insane and the three sons have committed suicide. Two daughters are now in insane asylums and have been pronounced incurable. None of the children have shown any signs of insanity until after maturity, and up to that time were considered naturally bright and intelligent. None of the family now remain except the father, the mother of the demented children having died from grief several years ago. The father is not expected to live long, as his troubles are weighing heavily upon him.

### ALL WERE SOVEREIGNS.

The American Consul Recognized His Countrymen as of Royal Blood.

A foregin correspondent relates a amusing incident in connection with a recent state ball that was given by the Khedive of Egypt at Cairo.

Just before the ball chamberlains were sent around by the Khedive to say that, in view of the vast number of official personages and great European nobles staying in his capital-personages who could not be ignored-it would be necessary to restrict the invitations to personages of that category, and that no cards would be available for mere untitled visitors and tourists. American Consul General Penfield, however, at once wrote to the Khedive, saying that his country had nothing so commonplace as mere titles of nobility, that his compatriots were all "sovereigns, ranking with kings and queens, and that therefore he would like to have as many as possible asked, by reason of their sovereignty.

The Khedive, who, in spite of his obesity and bumptiousness, has a keep sense of humor, immediately gave or ders that the United States consul general should have all the invitations he wanted for American royalty, and the consequence was that the latter was represented at the state ball by no less than fifty well-groomed American sov ereigns-the largest non-official contingent of any one foreign country.

### How the Greeks Won Liberty.

To the American mind the hero of the Greek revolution was Marco Bozzaris, or Botsaris, the Macedonian, whose own country, or part of it, is still subject to Turkish rule. He was indeed a brave soldier, but Fitz-Greene Halleck, who sang his praises, was a better poet than reporter. He caught the spirit of the times and put it into thrilling verse, but the most notable soldier of that long war was really the Oliver Perry or Farragut of the period, Admiral Ka-Laris, whose fireboats blew to atoms the fleet of the Porte. The enemy was literally caught napping. Kanaris had with him only thirty-two men, and every one of them passed unharmed through the enemy's fleet, having first made fast their fireboat to the man-ofwar on which the Turkish admiral was serenely sleeping. George Kanaris really deserves the honors inadvertent ly bestowed upon the brave Macedo nian. The terror inspired by this naval exploit was an important factor in waking the great powers from their lethargy. They concluded at last tha the war between Greece and Turkey must stop, and in the fall of 1827 th combined warships of England, France and Russia very nearly annihilated what there was left of the Turkish fleet at Navarino. The next year the French troops cleared the Pelopomesus of Turks, and finally, in February, 1830. full recognition of Greece as a nation was secured, to the infinite relief of mankind, especially the more highly educated class, on both sides of the At lantic.

### Bats That Eat Fruit.

Fruit-eating bats eat fruit only, and are confined to Asia, the islands of the East Indian Archipelago being one of their principal habitats. They cover the trees in daytime in vast multitudes, looking like a large flock of crows.

In the mountains of Sweden, Norway and Lapland all vegetation would be destroyed by the Norway rats were it not for the white foxes, that make special game of the rodents.

WHEN bilious or costive, eat a Cascaret, candy cathartic, cure guaranteed, 10c, 25c.

The Wonderful Kava-Kava Shrub.

A New Botanical Discovery.-Of Special Interest to Sufferers from Diseases of the Kidneys or Bladder Rheumatism, etc.—A Blessing to Humanity.

### A Free Gift of Great Value to You.

Our readers will be glad to know that the new botanical discovery, Alkavis, from the wonderful Kava-Kava shrub has proved an assured cure for all dis-

eases caused by Uric acid in the blood, or by disordered action of the Kidneys or urinary organs. The Kava Kava Shrub, or as botanists call it. Piper Methysticum, grows on the banks of the Ganges river, East India,

THE KAVA-KAVA SHRUB and probably was (Piper Methysticum.) used for centuries by the natives before its extraordinary properties became known to civilization through Christian missionaries. In this respect it resembles the discovery of quinine from the peruvian bark, made known by the Indians to the early Jesuit missionaries in South America, and by them brought to civilized man. It is a wonderful discovery, with a record of 1200 hospital cures in 30 days. It acts directly upon the blood and kidneys, and is a true specific, just as quinine is in malaria. We have the strongest testimony of many ministers of the gospel, well-known doctors and business men cured by Alkavis, when all other remedies had failed.

In the New York Weekly World of Sept. 10th, the testimony of Rev. W. B. Moore. D. D., of Washington, D. C. was given, describing his years of suffering from Kidney disease and Rheumatism, and his rapid cure by Alkavis. Rev. Thomas Smith, the Methodist minister at Cobden, Illinois, passed nearly one hundred gravel stones after two weeks' use of Alkavis. Rev. John H. Watson, of Sunset, Texas, a minister of the gospel of thirty years' service, was struck down at his post of duty by Kidney disease. After hovering between life and death for two months, and all his doctors having failed, he took Alkavis, and was completely restored to health and strength, and is fulfilling his duties as minister of the gospel. Mr. R. C. Wood, a prominent attorney of Lowell, Indiana, was cured of Rheumatism, Kidney and Bladder disease of ten years standing, by Alkavis. Mr. Wood describes himself as being in constant misery, often compelled to rise ten times during the night on account of weakness of the bladder. He was treated by all his home physicians without the least benefit and finally completely cured in a few weeks by Alkavis. The testimony is undoubted and really wonderful. Mrs. James Young, of Kent, Ohio, writes that she had tried six doctors in vain, that she was about to give up in despair, when she found Alkavis and was promptly cured of kidney disease and restored to health. Many other ladies also testify to the wonderful curative powers of Alkavis in the various disorders peculiar to womanhood.

So far the Church Kidney Cure Company, No. 410 Fourth. Avenue, New York, are the only importers of this new remedy, and they are so anxious to prove its value that for the sake of introduction they will send a free treatment of Alkavis prepaid by mail to every reader of this paper who is a Sufferer from any form of Kidney or Bladder disorder, Bright's Disease, Rheumatism, Dropsy, Gravel, Pain in Back, Female Complaints, or other affliction due to improper action of the Kidneys or Urinary Organs. We advise all Suferers to send their names and address to the company, and receive the Alkavis free. It is sent to you entirely free, to prove its wonderful curative powers.

### A Kentucky Love Romance.

When Bettie Quick, who was receiving the attentions of Fred Bokamb and Henry Perkins, in Knott County, Kentucky, appeared to favor Perkins, Bokamb got a polecat and threw it into her lap, and trouble began. Perkins was in it. "Reports are meager" at Middlesborough, but Bokamb was mortally wounded.

### No-to-Bac for Fifty Cents.

Over 400,000 cured. Why not let No-To-Bac regulate or remove your desire for tobacco? Saves money, makes health and manhood. Cure guaran.eed. 50c and \$1, all gruggists.

Prudence and love are inconsistent; in proportion as the last increases the other decreases.

# Woman's Nerves.

Mrs. Platt Talks About Hysteria.

When a nerve or a set of nerves supplying any organ in the body with its due nutriment grows weak, that organ languishes. When the nerves become exhausted and

die, so to speak, the organ falls into decay. What is to be done? The answer is, do not allow the weakness to progress; stop the deteriorating process at once! Do you experience fits of depression, alter-

nating with restlessness? Are your spirits easily affected, so that one moment you laugh and the next fall into convulsive weeping? Again, do you feel something like a ball rising

in your throat and threatening to choke you, all the senses perverted, morbidly sensitive to light and sound, pain in ovary, and pain especially between the shoulders, sometimes loss of voice and nervous dyspepsia? If so, you are hysterical, your uterine nerves are at fault. You must do something to restore their tone.

Nothing is better for the purpose than Lydia E. Pinkham's Vegetable Compound; it will work a cure. If you do not understand your symptoms, write to Mrs. Pinkham, Lynn, Mass., and she will give you honest,

> expert advice, free of charge. MRS. LEVI F. PLATT, Womleysburg, Pa., had a terrible experience with the illness we have just described. Here is her own description of her sufferings:

"I thought I could not be so benefited by anything and keep it to myself. I had hysteria (caused by womb trouble) in its worst form. I was awfully nervous, low-spirited and melancholy, and everything imaginable.

"The moment I was alone I would cry from hour to hour; I did not care whether I lived or died. I told my husband I believed Lydia E. Pinkham's Vegetable Compound would do me good. I took it and am now well and strong, and getting stouter. I have more

color in my face than I have had for a year and a half. Please accept my thanks. I hope all who read this and who suffer from nervousness of this kind will do as I have done and be cured."

JUST PUNISHMENT METED OUT

Sutherlin Sent to the Penitentiary for Life.

By later advices we learn that Wm. Sutherlin, who was charged with the crime of murdering Ed Fet ters has been declared guilty and his punishment fixed at ninety nine years in the Northern penitentiary at Michigan City. We have carefully followed the evidence in the case, and have given to our readers such portions as seemed to us to be of most importance. The evidence, while being circumstantial, formed one of the strongest chains we have ever heard or known. While we be lieve hanging is justifiable in the gase of such brutal and inhuman. crimes, yet we can console ourselves with the fact that this desperate and unfeeling criminal is to be removed from this community and placed where he can reflect upon the crime of which he was convicted. Our people can now rest safe from re ceiving harm at his bands His family deserves the aid and sympathy of all, that they may attain a noble position in society, as the wife and children should not be blamed for the crimes of the father. Martindale & Stevens, the attorneys for the defence, made a brainy and heroic battle for the liberty of their client, but the chain of evience was so strong, that even the pathetic appeal of a Martidale or new school house. the logical portrayal of law by a Stevens, could change the inevitable result.

### Election Notice.

Notice is hereby given to the elect, In Of Culver City, Marshall county-1897, at the public school nouse for the purpose of electing town trust- without serious injury. ees for the First and Second wards, and a town clerk, treasurer and marshal.

Witness my hand and official seal this 8th day of April, 1897.

F. L. CARL, Town Clerk.

### Writing Institute.

Artist Penman.

### Shocked Him Badly.

The following good story is told of the late Adam Black, the founder of the well known English publishing house:

One day shortly after Mr. Black commenced business as a bookseller a suspicious looking man came straithily into the shop and, leaning over the counter, whispered into his

"I've got some fine smuggled whisky which I'll let you have at a great bargain."

"No, no," said Mr. Black indignantly, "I want nothing of the kind, Go away."

The man, evidently not believing in the sincerity of this righteous outburst, leaned over the counter again and whispered:

"I'll tak' Bibles for it."-Scottish Nights.

### The Struggling Young Author.

"There is said to be nothing certain but death and the taxes," said the struggling young author, "but cuted. there is one other thing that I think might be classed in that list, and that is the return of manuscript submitted for publication. So, revised, the saying would run, 'Nothing certain but death, taxes and the return of manuscripts.' And my private opinion is that if Taxes and Return should ever scrap for the honor of second place on that revised list old Taxes would never know what hit him. '- New York Sun.

### Obituary.

On the morning of April 5th, Jol n Irwin left his home in the east part of the village of Rutland to make his usual daily trip to the postoffice and visit his daughter, Mrs. James R. Vinnedge. As he was about to enter the former place, he received a light stroke of paralysis. However, he rallied in a few minutes and started to go where some men were working back of his daughter's residence which adjoins the postoffice when he was felled to the ground with a second stroke. He was carried into the house and Dr. Lorning was sent for. He arrived shortly afternoon, and after a careful examination entertained little hopes of bis recovery. He lingered in great agony till Friday April 9th at 10:35 a. m., when his spirit took its flight to the God who gave it. He leaves two children, Henry Irwin, of Walkerton, grand children and three sisters to mourn his departure. After brief services at the house at 9 o'clock Sunday morning, the remains were taken to Center Church, North township, where the funeral was held, conducted by Rev. Hilterbrand in the presence of a large concourse for sale. First-class for seed or of people.

### HIBBARD FEEDINGS.

Many attended the S. S. Convention held at Rutland Sunday and report a good time.

Many persons took a trip to Twin Lake Friday evening to witness the closing exercises of the school. Evert Clifton and Erwin Werick furnished music for the occasion,

### A Telltale Nail.

Dr. John Donne, the femous Eng. lish divine and poet, who lived in the reign of James I, was a veritable Sherlock Holmes in bent of mind. writer in London Tit-Bits tells of one of his famous exploits:

He was walking in the churchyard the sexton cast up a moldering skull. The doctor idly took it up. and, in handling it, found a headless nail driven into it. This he managed to take out and conceal in his people on earth. To them have been handkerchief. It was evident to issued nearly 600,000 patents, or him that murder had been done. He more than one third of all the patents questioned the sexton, and learned issued in the world. No discovery that the skull was probably that of of modern years has been of greater a certain man who was the proprie- benefit to mankind than Chamtor of a brandy shop, and was a berlain's Colic, Cholera and Diarrdrunkard, being found dead in bed bee Remedy, or has done more to one morning, after a night in which relieve pain and suffering. Ask country the train happens to be agents for details. traversing.

### Again Honored.

Captain R. E. Burdick, of Troop A, O. N. G. Cleveland, has again received an invitation to accept with his troop the place of honor in parade on the occasion of the dedication of the Grant monument at New York, April 14. So highly satisfactory was Troop A,s appearance and efficiency on the occasion of the inauguration ceremonies in which that troop mounted on eighty black chargers acted as the president's body guard, that the president has extended another invitation for the troop to act in a similar capacity at the dedication ceremonies of the Grant monument.

The entire squad of black horses having been sold to the Culver Military Academy, of Culver, Ind., the troop could not accept the invitation. Colonel Fleet, superintendent of the school, however, kindly offered to loan the horses to Troop A, for Ind., Mrs. James R. Vinnedge, six the occasion, but the time was too short for a reshipping of the horses and other preparations .- Ex.

### CULVER MILITARY ACADEMY

is situated on Lake Maxenkuckee, Indiana, in a beautiful park of 80 acres containing campus, fine course for cavalry practice, track for bicycle and sprinting races awn tenuis and base ball grounds, gymnasium, (70x80 feet), six flowing artesian wells, etc. The lake is one of the most beautiful in the United States, covers an area of about 12 square miles, is wholly fed by springs, has a beautiful gently sloping beach, and is a most pleasant and popular summer resort, affording opportunity for all kinds of aquatic sports. The Academy and Dormitory building is complete in every particular, entirely new ABSOLUTELY FIRE PROOF, finished in hard wood, heated by steam lighted by electricity, has hot and cold water baths, lavatories, and all toilet conveniences. The course of study compares cadets for college, scientific schools, business, West Point or Annapolis. The Academy is under the supervision of a West Point graduate and ex-army officer of large Eperience in teaching, who will have direct control of the disciplineof the cadets.

For further information and catalogue address: Culver Military Academy, Marmont, Ind. Purple and gold and scarlet And white as the robes of a king, To the glory of love at Easter Their beautiful wealth they bring.

The grass that was brown and withered And cold on the sodden plain Has been kissed by the tender sunshine, Caressed by the crystal rain.

And its bright green lances quiver, Lo! twice ten millions strong, And the birds, with her nest among them, Flies up with a sudden song.

Reft from our side away: Who have wept in silent anguish O'er the cold and pulseless clay. Take heart in the Easter gladness, A parable all may read, For the Lord who cares for the flowers Cares well for our greater need.

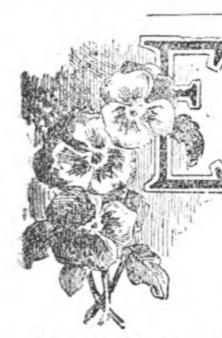

And we, who have seen our darlings

He knows of the loss and anguish, The grope of the stricken soul; He will bring again our dear ones, By his touch of life made whole. We shall need and know and love them

In the spring beyond the sea, That, after earth's dreary winter, Is coming to you and me.

Mrs. M. E. Sangster.

### THE EASTER LILY.

ASTER was but a fortnight off and two little girls, Lulu and Fanny, were watching with great interest mamma's calla, which at last was oudded. Every morning they came early to the windows, where a few house plants were struggling for existence, and although every

time they hoped to find a flower, and every time were so sadly disappointed, still the next morning found them at their post, hoping, in their childish faith, that some little blossom might be found for them.

All winter long they had watched the tiny leaflets unfolding, and these few plants had been carried back and forth, from one window to another, to catch every gleam of sunshine that strayed into the little room they called home. Every night these little loving hands had carefully covered the delicate leaves for protection from the chilling winds that would creen through the cracks and crevices, for old Boreas is a cold-hearted fellow, who shows little mercy for the poor, and worries his way into their chimney corners as if he were a welcome visitor.

But I don't think he had caught sight of this little bit of summer or he would have curled up the leaves with his cold fingers, and blown with his icy breath, until the tiny stalks became limp and lifeless, and the soil itself stiffened around the poor little roots. The little girls knew all this, and had covered their treasures so carefully at night, and cared for them so tenderlyaby day, that at last they were fily had budded, for all their labor-the

Long years ago-in fact, so many that It seemed to Lulu and Fanny a beautiful dream—there was a dear little home, where plants bloomed in the windows, and a warm fire gleamed in the grate; and in the springtime birds sang in the trees, and the lawn was covered with the greenest grass, where the bright spring flowers opened their eyes. And then, somehow, for the little girls could not tell how, all these beautiful things had faded away, only they and mamma were left, and mamma had to sew all the time, and sometimes she cried, too. Now these plants were all the garden they had; and only to think of It, the lily had budded; they were so hapmy; they must look oftener than before to

see if the flower were almost there. So the days crept by, and it seemed as if the lily would never unfold. To be sure, the winter was long and cold, and some days so dark and cloudy that the sun forgot to look into their windows, and some nights were so cold that the lily itself came near being chilled, so the bud was abot very strong.

er, for Easter was almost there.

At Sunday school the teacher had told the children that on that day Christ had risen from the dead, and how beautiful the Easter morn would become to them if Christ indeed had risen in their hearts, and she went on to tell how some Christians, during the forty days before Easter, would deny themselves some known pleasure and strive to consecrate themselves anew to Christ.

"My dear girls," she added, "are not we all willing to deny ourselves something for the sake of Christ? to give up some amusement, or habit, or treasure, that perhaps may be crowding us out of the kingdom?

"Is there not some object dear to us we are willing to give up for him? He gave his all for us-life, kingdom and heaven Itself; his precious blood was shed, that we through him might live; and what have we done for him? Is there not something we can lay upon the altar as a sacrifice, so we may be prepared to receive his love into our hearts?"

All the way home from Sunday school, Lalu and Fanny were talking about what they could do for Christ; and perhaps, because they did not quite understand what was meant, or else had so little to give, they were a long time wondering what they could give to Christ; at last Fanny said: "I know what it is-the lily, | mankind. The year is closed. Reflection we can give the lily to Christ; you know the teacher said it must be something we thought a great deal of, something dear to us, and I believe we care more for the Mily than anything else." "But how will we send the lily to him?" asked Lulu. "I don't know," said Fanny, "but I guess God will show us how." And now that its fugitive hours, opportunities, events the lily was to be given to God, they bestowed more care than ever upon it; each day the bud grew larger, and you could the unreturning past. begin to see a rim of white above the green.

four days till Easter, but in the meantime in its orbit and of the rains and dews at a malignant disease had settled over part | their appointed time. It brings vernal of the city, and little children were rapidly | sunshine, airs and odors. It is celebrated falling at its approach; each mother trem- by offerings of flowers, by gayety in atbled as she held her loved ones, for who tire, by festive display, by all the gaudy

AN EASTER ANTHEM.

wealth and comfort, and of poverty and clothed. want, until at last the shadow fell across the street and into the room where the Easter lily was.

Fanny lay there unconscious of the sadness and gloom that had settled upon their little home; sometimes in the delirium of fever she would talk about the lily-God's | the earliest era when man began to study lily, as they called it now. Each day the shadows deepened, so dark, so sad, and to-morrow was Easter.

All night mamma and Lulu watched the little sufferer, hoping for some word or look of recognition; morning was slowly dawning, Easter Sunday, when so many ages ago Christ had risen from the dead, and brought with him light and life to the waiting soul.

Away off in the distance you might catch the chime of the old cathedral bells | growth. as they rang in the joyous morn-perhaps some of the music reached Fanny's ears, for half opening her eyes she stretched her hand toward Lulu and whispered: "I will take the lily to him." Just them the sunshine burst into the room, Lulu turned to the window, and there unfolded in all its beauty was the lovely lily.

Long hours afterward, when the Sabbath bells were pealing their glad notes. However, the days were getting warm- and choral voices sang, "The Lord is risen indeed," the little child lay there so still, so beautiful, with the smile of heaven upon her lips, and holding in the waxen fingers her precious gift, the Easter lily.

### BEST OF THE YEAR.

The Easter Holiday Season and Its Delightful Associations.

ASTER is more delightful in its associations than any other holiday season of the year. It follows a period of conventional mourning. It is a revival from traditional depression and gloom. It opens the morning of hope and expectation. It reveals the unfolding buds of the year and of human faith and prom-

In these respects it differs in significance from the autumnal thanksgiving and later Christmas holidays. Autumnal holidays mark the end of the harvest, when all its fruits have been gathered and when gratitude is expressed for every gift of Providence to is the sole occupation of the mind.

Truths may be gathered from experience as fruit is gathered from the soil. But in the autumn every human sentiment is inspired by a knowledge that the best products of the year have been gathered, that its enjoyments are closed, that and lessons, that all which it contained for good or evil, have become an element of

Easter is the period of resurrection. It is an emblem of the revival which nature The days sped on, and there were only experiences with each return of the sun

knew how near the angel of death might outward semblance, in which the daybe; he hovered around the homes of spring of the heart and of the season is

> The Christianized Easter which the world celebrates is a higher inspiration of pagan philosophy, renewed, refined and etherealized by the influences which proceeded from the tragic events on Calvary and from their sublime conclusion. From the world around him and deify its manifestations the spring was sanctified as the period of the year when the vigor of nature's creative forces first was displayed. Every form of ancient mythology recognized the vernal equinox as the point of rejuvenation for the world of vegetable and animal life. Every wind of spring that blew and every wave that murmured were regarded as the source of new vital energies in production and

### Day of Great Joy.

The Easter of Rome transcends in pomp and splendor that of all other countries. The Pope is borne into the great gallery of St. Peter's, and gives his solemn benediction, "to Rome and the world."

with pistachio plums. The number of and life into the dead and desolate theoservices are devout and impressive. In Mexico it is the great festival of the monies of Eastertide.

prominent place, and the church services are unusually impressive. If the Americans had any special use for the festival in a worldly way they might designate it as the "feast of hats." The feminine portion of the community wear new hats, according to the ancient tradition that to be lucky all the year, something new must be worn on Easter Sunday.

### Outcome of Centuries.

The resume of Easter customs finds the central idea in the fact that they are the outcome of eighteen centuries of religious zeal, and the concentration of genius and enthusiasm in art, science, poetry and learning of every sort. Easter is a crystallization of the hope expressed in its solemn observances, deliverance from Poland feasts at this period on saffron death, founded on the story of the great cakes, roast pig and little lambs served Teacher of Nazareth, and carrying joy dishes cooked is enormous. Eggs form a ries that in the dark ages held the world part of all the pastimes. The religious in dominance. The festival of the soul is the highest and greatest of all the cere-

year. In the City of Mexico the population fill the streets and the parks, which resemble the most beautiful gardens. People passing each other in the streets throw flowers with their salutations. Bands discourse sweet music, and there is general abandonment to the delights of the festi-

In America the occasion is observed generally but quietly. Presents are exchanged, eggs and flowers are given a

SIGNS

Charity, that which is comprehended in the bestowing of money, food and the other necessaries of life, may be well enough in cases of the sick, aged and infirm, and in emergencies where men are hungry and cold, but a stalwart man accepting alms day after day is a pitiful spectacle, and one to be deplored by angels and men. Surely there is in this great country work enough to do and money enough with which to pay for it. Surely there are interested persons enough to see that such money and work are judiciously bestowed.

Baldness is often preceded or accompanied by grayness of the hair. To prevent both baldness and grayness, use Hall's Hair Renewer, an honest remedy.

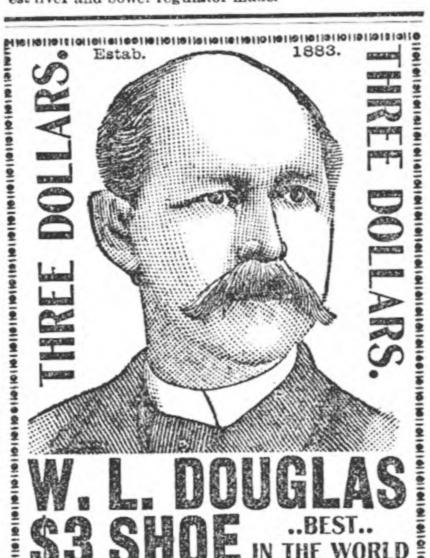

I never used so quick a cure as Piso's Cure for Consumption .- J. B. Palmer, Box 1171, Seattle, Wash., Nov. 25, 1895.

-ADDRESS-JONES OF BINGHAMTON,

Best Cough Syrup. Tastes Good. Us in time. Sold by druggists.

Those unsightly erup -

tions, painful boils, analoging pimples and other affections, which appear so generally at this season, make the use of that grand Spring Medicine, Hood's Sarsaparilla, a necessity.

The accumulated impurities in the blood cause very different symptoms with some people. The kidneys, liver and towels are overmatched in their efforts to relieve the clogged system. Dizzy headaches, bilious attacks, failure of appetite, coated tongue, lame back, indigestion and that tired feeling are some results.

From the same cause may also come scrofula, neuralgia, sciatia or rheumatism.

All these troubles and more may properly be called "Spring Humors," and just as there is one cause, a cure is found in just one remedy, and that is Hood's Sarsaparilla.

Hood's Sarsaparilla purifies the impure blood, enriches blood which is weak and thin, vitalizes blood which lacks vitality. Thus it reaches every part of the human system.

For your Spring Medicine-to prevent or cure Spring Humors, take

Sarsaparilla The best-in fact the One True Blood Purifier. Get only Hood's.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

gestion, complete absorption and healthful regularity.
For the cure of all disorders of the Stomach, Liver,
Bowels, Kidneys, Bladder, Nervous Diseases,

LOSS OF APPETITE, SICK HEADACHE, INDICESTION, BILIOUSNESS, TORPID LIVER, DYSPEPSIA.

PERFECT DIGESTION will be accomplished by taking Radway's Pills. By their ANII-BILIOUS properties they stimulate the liver in the secretion of the bile and its discharge through the bil ary ducts. These pills in doses of from two to four will quickly regulate the action of the liver and free the patient from these disorders. One or two of Radway's Pills, taken daily by those subject to bilious pains and torpidity of the liver, will keep the system regular and secure healthy digestion. Price, 25c per box. Sold by all druggists, or by mail. RADWAY & CO., 55 Elm Street, New York.

ENSIONS, PATENTS, CLAIMS. JOHN W. MORRIS, WASHINGTON, D. C. Late Principal Examiner U. S. Pension Bureau. 3 yrs. in last war, 15 adjudicating claims, atty. since

There are two kinds of sarsaparilla: The best - and the rest. The trouble is they look alike. And when the rest dress like the best who's to tell them apart? Well, "the tree is known by its fruit." That's an old test and a safe one. And the taller the tree the deeper the root. That's another test. What's the root, - the record of these sarsaparillas? The one with the deepest root is Ayer's. The one with the richest fruit; that, too, is Ayer's. Ayer's Sarsaparilla has a record of half a century of cures; a record of many medals and awards culminating in the medal of the Chicago World's Fair, which, admitting Ayer's Sarsaparilla as the best-shut its doors against the rest. That was greater honor than the medal, to be the only Sarsaparilla admitted as an exhibit at the World's Fair. If you want to get the best sarsaparilla of your druggist, here's an infallible rule: Ask for the best and you'll get Ayer's. Ask for Ayer's and you'll get the best.

IN SOUTH AFRICA.

Natives Gradually Returning to Their Kraals, and Quieting Down.

The pacification of Rhodesia is a lengthy business. In the Matoppos the settlement requires repeated big palavers between Lord Grey, Sir Richard Martin, Mr. Rhodes, and the Matabele chiefs, but the natives are gradually returning to their kraals and usual do-

BANKO, M'LIMO-ELECT.

mestic life. Elsewhere, however, the rebels are more disposed to fight than to submit. There are still five other important strongholds to capture in various parts of the country. The scarcity of supplies checks much of the rebel resistance, but also hampers the British movements.

Grit publishes this week a photograph of Langaba, the Chief Induna at Mangwe. He was one of the chiefs who joined the present revolt. He was

LANGABA AND DANIEL.

taken prisoner, and is now in Buluwayo. The young man standing at his side in the photograph is Daniel, who was secretary to Lobengula. He is in jail now, undergoing a long term of imprisonment for rebellion, Banko, a sketch of whom is also published in this issue, is half-brother to the late M'limo, the Matabele "god" or priest. He was chosen as the M'limo's successor when the latter was shot by Mr. Burnham, and is now a prisoner.

### Current Condensations.

Two members of a British chess club played a tournament to see which should be left free to woo a certain lady. Before the contest was decided she married a third man,

The best tea in Japan is raised in districts where snow often falls to the eaves of the houses. Many plants will hardy even in the Southern States. By the same rule some varieties of Japanese lilies will survive Vermont winters that are not hardy in Missouri.

The Germans have some educational ideas which might be borrowed with profit, and among these are wall maps of different species of pestiferous weeds which hang in the schoolroom, where the children can see them as long as they go to school. They are colored plates of weeds in all stages of growth, and also the way in which they scatter their seeds and progagate themFortune Seeking Emigrants.

Many a poor family that seeks the Western wilds in the hope of winning a fortune is preserved from that insidious foe of the emigrant and frontiersman-chills and feverby Hostetter's Stomach Bitters. So effectually does that incomparable medicinal defense fortify the system against the com-bined influence of a malarious atmosphere and miasma-tainted water, that protected by it the pioneer, the miner or the tourist provided with it may safely encounter the dan-

### Georgia's Big Fruit Crop.

The prospects for a fruit crop for the coming year in Georgia have never been brighter than at present, and the fruit growers are all very jubilant and say that unless the crop is injured by cold within the next three weeks there will be the largest fruit crop there has ever been.

### Standard of the World.

For nearly two score of years the Winchester has been the standard rifle of the world. It is found in all lands and it is always very highly thought of on account of its accuracy, strength and durability. There are over two million Winchester guns in use to-day, but the makers have yet to learn of any dissatisfaction with them. Such a recommendation as this should convince everybody of the exceptionally high quality of Winchester guns.
Winchester animunition is of as exactly
as high a standard and always gives entire satisfaction. When used in Winchester guns the results obtained cannot be equalled. Send to the Winchester Repeating Arms Co., New Haven, Ct., for a large illustrated catalogue free.

### A Partnership.

Life is a partnership with one another, in which the profits are in proportion to what is put in. There is no investment in this business that pays better than kindness.

### Shake Into Your Shoes

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting feet, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight-fitting or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. Try it to-day. Sold by all druggists and shoe stores. By mail for 25 cents, in stamps. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

### Too Late Sometimes.

"Truth crushed to earth will rise again," quoted the earnest man.

"True," replied Senator Sorghum, "but, in many cases, not until after the referee has counted ten."

### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

In the mountains of Sweden, Norway and Lapland all vegetation would be destroyed by the Norway rats were it not for the white foxes, that make special game of the rodents.

### Try Grain-O! Try Grain-O!

Ask your grocer to-day to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink without injury as well as the adult. All who try it like it. GRAIN-O has that rich seal brown of Mocha and Java, but it is made from pure grains, and the most delicate stomach receives it without distress. Onefourth of the price of coffee. 15c and 25c per package, sold by all grocers.

The Duke of Fife keeps twelve suits survive under such snow that are not going at the same time, and never! wears the same clothes twice in the same week.

### Free Sample of a Wonderful Kid-

ney Cure. Sufferers from kidney and rheumatic troubles are mailed free a sample of the renowned Kava-Kava Shrub, possessed of wonderful medicinal and curative qualities and grown in the East Indies, by addressing the Church Kidney Cure Co., 410 Fourth avenue, New York. An interesting account of this celebrated remedy, in another column of this paper, will pay the reader well to peruse.

### Languages of the World.

The least learned are aware that there are many languages in the world, but the actual number is probably beyond the dreams of ordinary people. The geographer Balbi enumerated 860 which are entitled to be considered us distinct languages, and 5,000 which may be regarded as dialects.

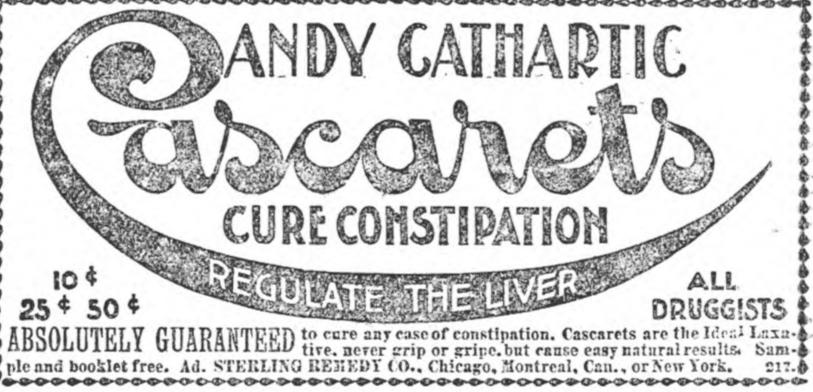

Adulguns, another writer on the subject, reckons up 3,064 languages and dialects existing. Even after ve have allowed either of these as the number of languages, we must acknowledge the existence of almost infinite minor diversities, for almost every province has a tongue more or less peculiar, and this we may well believe to be the case throughout the world at large. Of the 860 distinct languages enumerated by Balbi, 53 belong to Europe, 114 to Africa, 123 to Asia, 417 to America, and 117 to Oceanica-by which term he distinguishes the vast number of islands stretching between Hindu-

### The Man who is Raising a Big Crop -realizes that the harvest time is ahead.

Ideal farming comprehends not only the growing of the tallest grain—the most tons-to-the-acre of hay; the best farming—the farming that pays—must contemplate something more than this; for there is a harvest time, and just in proportion as a crop is saved successfully, speedily and economically, in just that proportion may be measured the season's profit or loss.

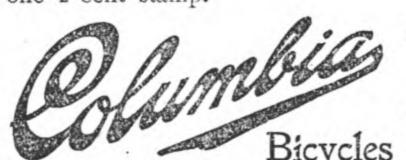

Harvesting Machines are the profit-bringing kind; they are built for long wear, hard work, light draft, and in short, to satisfy. There are other kinds that don't cost as much, but there's nothing cheaper than the best.

McCormick Harvesting Machine Company, Chicago, The Light-Running McCormick Open Elevator Harvester,

The Light-Running McCormick New 4 Steel Mower, The Light-Running McCormick Vertical Corn Binder and The Light-Running McCormick Daisy Reaper for sale everywhere.

### How To Find Out.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

### WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Rout, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys. Culver City, Ind., as follows: liver, bladder and every part of the urinary passages. It corrects inability to hold urine No. 14. Ex. Sun. for St. Joseph, 7.10 a. m. and scalding pain in passing it, or bad effect following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the hest.
