Plymouth Races.

Don't forget the Plymouth races will be held this year from August 31st, to Sept. 3rd, inclusive. The Plymouth people have always liberally patronized the fair at Culver, and it is to be hoped our people will this year do the same by them.

There will be four days of excellent racing, and plenty of amusement each day. Let us all turn out and help swell the crowd, thus showing to Plymouth that we are still their neighbors.

Cheap Excursion From Culver to St. Joseph, Mich., Next Sunday.

A train will leave Culver for St. Joseph, Mich., at 8:05 a. m. next Sunday Aug. 22. Fare for round trip \$1.00. LONG TO BE REMEMBERED

Excursion to Chicago Saturday Night Via Vandalia and Lake Michigan.

A number of our citizens visited Chicago last Sunday. They left this place Saturday night via Vandalia R. R. to St. Joseph, Mich., thence across the lake upon the steamer, City of Chicago. The following were so far as we have learned those that went from this city:

Mr. and Mrs. J. H. Meredith, Al. Keen, Miss Edith Rickenbaugh, John Campbell, William Hunt, Mrs. Edward and Mrs. Jas. Houghton, Mrs. Jacob Snyder, T. C. Holt, H. R. Ulery, banker John Osborn and wife, Miss Cora Geiselman and Mrs. Shoemaker.

The trip from St. Joseph to Chicago was very enjoyable and but few sea sick. The excursionists supposed they were to return to St. Joseph upon the steamer City of Chicago which was advertised to leave the city at 11:30 p. m. But when the excursionists reached the dock no boat was there. Consequently the crowd had to wait. About 12 o'clock the steamer City of Milwaukee made its appearance upon which the people made the return trip, leaving Chicago about 2 o'clock a. m. Monday morning. Upon the return trip the steamer encountered a terrible sea and nearly every passenger on board experienced sea sickness in its worst form.

This excursion will long be remembered owing to the fact that one of the happy number that took the steamer for Chicago did not return with the excursionists as they left the body of Joseph E. Deitrich, of Logansport, upon the bottom of Chicago river. The unfortunate man was among the number waiting for the boat, and sat down in the Graham & Morton warehouse and fell asleep. When the steamer pulled up to the wharf all was confusion in an instant and Mr. Deitrich being partially aroused walked out the building and off the dock into the river. It is said that the steamboat company could have saved the unfortunate man if it had made half an effort, but after a little bluster let the man drown with as much unconcern as it would a dog. The deceased was the trusted agent of the Maxenkuckee Ice Co., at Logansport and leaves a wife and two children. Mr. Samuel Medbourn, of this city, general manager of the company, was greatly shocked, and left for Logansport to look after the company's interests and to attend the funeral, the body being recovered and shipped to Logansport, arriving in said city Monday evening.

Home Again.

Jacob Speyer, who is manager of a large retail gents furnishing establishment belong to Rademacher & Maxwell, New York City, is in town visiting his brother Henry and other relatives. This is the first visit to the home of his boyhood in four years and the second in ten. He is just as jolly as of yore, when he picked sand burs off his pants and made love to the bonnie country lasses who called at his father's store to buy chewing gum and calico. A goodly sized book could be published concerning the "happy-go-lucky" episodes of his early life in Union township, which are now cherished as pleasant memories by him and his "chums" of former days. His friends are legion, as they can be numbered by the hundreds. He will leave this, his old home, feeling that Culver nee Marmont, has made progression far beyond, his expectation.

Sunday School Picnic.

Last Saturday between 400 or 500 men, women and children gathered at the fair grounds and held a union picnic which included all the Sabbath schools in the township. An excellent program was rendered, which was highly appreciated by those present. Several able addresses were made upon Sunday school work and the various schools furnished splendid vocal music. The Culver City band was present and in its usual effective style, rendered several appropriate selections. Hon. Jacob Myers, of Rutland, was Marshal of the day and filled the office with becoming dignity and with great credit to himself and constituency. All in all the affair will long be remembered as a feast to the soul on account of the many bright and progressive thoughts expressed relative to Sabbath school work.

A Survey of Lake Maxenkuckee.

A survey of Lake Maxenkuckee is nearly completed under instruction of Dr. Carl Eigenmann, of the State University. The work being done by Prof. Drybread and two students of the same institution, very ably assisted by Dr. Scovell, of the Terre Haute High school, who has a cottage on Long Point and is now completing the work. Through the courtesy of Dr. Scovell the writer was allowed to inspect the maps etc. We were informed that the purpose of the survey was to find the condition and shape of the lake bottom. To do this the lake was crossed from east to west and from north to south, on lines 1-4 mile apart, and soundings were made at intervals of every 250 feet. In all 17 lines were run, and so far 450 soundings made. Dr. Scovell will make about 50 more soundings to complete the work.

On examining the memorandum of the soundings we find that along the shores there are a quite a number of sand bars and irregularities. Some places starting from the shore the depth would soon run to 35 ft. Then on going off would find but about 7 feet, then suddenly getting deeper.

In the center of the lake and about one mile each way, is a basin beginning with about 12 feet at the edges and running to about 60 feet toward the center. Located within this basin is a peculiar mound-shaped formation called the "Sugar Loaf." It is about 100 feet across, and comes to within 9 feet of the surface. It will be found to be at the crossing of lines running from Lake View Hotel and Lou Gardner's, and Shady Bluff to the south corner of the ice houses. A line running from the Indiana House to Long Point will also cross at the intersection of the other lines mentioned. About 500 ft. east and 200 feet south of the Sugar Loaf is the deepest place found, which is 85 feet this spot is near the crossing of a line running from the "Roost" to the Bosart road on the south and from between the ice houses to the Maxenkuckee road on the east. The writer has heard it asserted that fishermen have found places where there was a depth of 110 feet. Dr. Scovell would be pleased to accompany any one who can locate a point deeper than the one already found. Such a point of course is a possibility but it would be in the shape of a pocket, as they have made soundings close enough together to be sure there is no large basin deeper than 85 feet.

A map will be published together with description etc., in the publications of the Indiana Academy of Science, giving a full outline of the bottom of the lake. A short study of which we think would give one a better idea of the shape of the bed than could be gotten in a number of years fishing. We are under the impression that the publication of the Indiana Academy of Science are free to at least the students of the University and their friends. We will investigate the matter and make known through the columns of the HERALD how these maps may be procured.

Efforts are now being made to have the State Fish commissioner make and analysis of the water of the lake to ascertain what kinds of fish will do the best and then to furnish a large stock of the same. This is certainly a move in the right direction.

A CITIZEN.

Cause and Effect.

If man to his fellow, would be honest and true,
He must first be this with self.
Then surely as the night does follow the day,
The "I" would be so to "You."
So then, if all of the I's within the world were true,
And ever to self be so,
Then the "I's" and the "You's" would be certain and sure,
That justice would lead them through.
From the thing called "self," within the people to-day,
The passions, the greed for self,
All licentiousness flows and dishonesty grows,
And these are the bad I.—self.

THE CEDARS OF LEBANON.

Several Groups of the Famous Trees Are Still Standing.

In April St. Nicholas there is an article entitled, "Silk and Cedars," by Harry Fenn, the artist, describing a visit to the mountains of Lebanon.

Every boy and girl of the Christian world has heard and read, over and over again, of the "Cedars of Lebanon," but very few have any idea of the locality and surroundings of the famous grove.

There is every reason to suppose that in the time of King Solomon these scattered groves were part of an enormous unbroken forest, extending the entire length of the Lebanon range of mountains, about one hundred miles running nearly parallel with the Mediterranean shore from a little below Beirut.

The Lebanon—that is the "White"—does not derive its name from glittering snow-peaks, but from the white limestone cliffs of its summits.

From that day to this the people have been almost as reckless and wasteful of these noble giants of the mountains as our own people are of these cedars' first cousins, the redwood trees of the California coast-range.

There is a Maronite chapel in the grove, its patriarch claiming the sole right to the sacred trees; and, luckily the superstition with which the trees have been surrounded has been their salvation.

Septuagint of the Living.

My own observation, pursued for a number of years, prepares me to assert that in this country one person each week is buried alive.

Physicians are not partial to public utterances on the subject. The theme is too horrible for popularity. They hesitate to declare the facts, since the facts are rather injurious to themselves, as showing their inability, under certain conditions, to distinguish between life and death.

WOMEN'S CONFIDENCE.

Wives Who Help Their Husbands in a Display of Skill.

One of the most remarkable things to be experienced in real life is the wonderful confidence which is so often displayed by a woman in the man she loves, says the Philadelphia Times.

Chiquita, in Mexico, used to stand in the center of the bull-ring and face fearlessly the maddened animal, which was induced to charge upon her, her sole hope of escaping a horrible death depending upon the precision with which her husband should throw his never-failing lasso.

Who, for instance, in viewing the closing scene of a beautiful parol dance at the opening of the third act in a popular opera pauses to think of the extraordinary confidence in her husband's strength and agility which the woman must possess when she permits herself to be turned in the air like an animated cart-wheel.

It is interesting to know how this act originated. The husband describes it in his own words, as follows:

"I had been out to a dinner party after the performance one night and did not go to my room at the hotel until after 2 in the morning. My wife was in bed, but she had to get up to let me in, and we were chatting about the performance, when suddenly the idea for the turn wheel popped into my head.

THE THEME.

Bishop Walden opened the proceedings with a brief address in which he called attention to the fact that the theme for the discussion was "Christ for the world." Six of the brethren had been chosen to present the different thoughts. The committee had assigned to each of these speakers fifteen minutes if they choose to use that much time, which, as you will see, will occupy an hour and a half with the other exercises that will come in to vary it. The service this afternoon will probably be for two hours, so I think we will do well to make up our minds what the service will be as far as our time is concerned. The missionary legend is "This World for Christ," and we all know what that means—carrying out all His commands until every nation shall be brought under the influence of His Gospel and hearts in every land shall name His name as one mighty to save. We have before us here in this hall the motto of one of the Epworth Leagues, "All for Christ." That appeals to us in the spirit of consecration, just as the spirit of unanimity prevailed at that great sunrise prayer meeting this morning, when the body of the Metropolitan Church was filled with those who were moved with the spirit to wait before the Father for the coming and indwelling of the power of the blessed Spirit. But this afternoon we are to consider Christ in another relation, not the "world for Christ" but "Christ for the world," indicating, I suppose, as you will see by the discussions of the afternoon, that Christ does stand in the relation to everything that affects us as the Maker of this world. He made it for His people, to be subordinated to their uses, and it was in that spirit that the apostle could say "That all things work together for good to them that love God." "Christ for this world" must be the motto. It is love, it is truth, it is guiding with a saving power in all the relations into which we are brought.

Immediately after the afternoon session the Leaguers witnessed an exhibition by the Fireman's Brigade. Probably 15,000 delegates lined Yonge and Shuter streets when sharp at 5:30 o'clock an alarm was turned in from that corner. Just one minute and fifty seconds from the touching of the bottom the Bay street reel wheeled from Yonge to Shuter. At almost the same moment the hook and ladder waggons from Lombard street tore along Shuter from Church street, closely followed by one of the engines, while a reel came bowling up Victoria street and the Yonge street waggon pulled up at the alarm box. Then in rapid succession, so rapid that it was not possible to keep track of them, engines, reels, ladder waggons and chemicals from the down town stations arrived on the scene. Meanwhile the large extension ladder, the one which was run up, and just four minutes from the sounding of the alarm it was level with the roof of the immense Masse, Hall, and half a dozen firemen at intervals upon it stood ready to slide a hundred Leaguers from the roof to the ground if it had been necessary. Half a minute after the erection of the ladder the water tower stood ready to pour hundreds of thousands of gallons of water down the chimneys of the building or upon anything else in the neighborhood while half a dozen gleaming fire engines, the personification of reserved power, stood ready, with steam up, to force the water hundreds of feet above the building. Meanwhile, with clanging or musical gongs, as the case might be, the reels from the outlying stations took up positions in readiness for action. Three hearty cheers were given for the brigade and the Chief. The delegates were enthusiastic in their praise of the firemen's performance. The magnificent horses particularly won their admiration and they deserved it.

Friday evening—Topic, "The world for Christ," the theme was on missionary work; being on various subjects. We attended at Metropolitan church. Addresses by, Rev. E. H. Demart, Toronto. Rev. S. L. Rader, Jacksonville, Fla. Rev. W. F. McDowell, Denver, Col. Rev. G. W. Briggs, Owensboro, Ky. Rev. J. W. Hamilton, Cincinnati, Ohio. The audience was very large at the meetings especially at the Metropolitan church, before eight o'clock the church was packed to its utmost capacity, but still hundreds poured into the grounds, and vainly sought admission. After a short time a few started for the north side of the lawn, where a few speakers gathered and an open air meeting was held, within a few minutes about 500 had gathered and Rev. Dr. Payne was chosen chairman he called on Rev. Simpson Johnson, of Manchester, Eng., to speak, he spoke on Methodism in England, where workers had to fight among the masses in the big center of population, he said the League was not as popular in England as in this country. Afterwards Rev. Ricker Rev. Dubois spoke, Saturday was rally day. Sunrise prayer meeting was held as usual, cyclists going to Rosedale park. The forenoon sessions commencing at 9:30. The addresses were on various subjects.

In the afternoon, an open prayer meeting was held on the exhibition grounds, programme was as follows: Grand Lacrosse match, (Canadian national game), from 1:30 until 4 o'clock. The Epworth League committee presented 13 medals to the "Neisons," the winners. Then followed a procession of the nations, as the flags of each nation was carried by the band of Royal Grenadiers, and 48th Highlanders playing the national airs of the countries, when playing the U. S. air, "My Country 'tis of Thee," the people heartily joined in singing, and the Canadians, playing "God bless our Queen," the pipes of the 48th dressed in Highland costumes, played Highland airs on the bag-pipes, after which a patriotic meeting was held, three addresses were delivered, one for England, one for United States and one for Canada. The crowd was very large, the grand stand seating 14,000 was filled, the chorus class consisting of about 1000 was seated on chairs in front of grand stand. Subject for evening meeting was "Temperance and Civic Righteousness."

Fourth day, Sunday July 18th, very enthusiastic prayer meeting was held at the churches, cyclists did not go to the park. Resolutions were passed at the different

not to ride on the street cars on Sunday, as the League is fighting against the street cars running on Sunday. At 11:00 a. m. services at all the churches, at 3:00 p. m. love feast services at the Metropolitan church and Carlton St. church. Junior League rally at Massey Hall, program was as follows: Chairman, Mrs. Mary C. Foster, New York City. Devotions, scripture lesson, Psalm 139, 1-12, Matt. 10, 23-27, John 14, 23-27. Prayer, Address by S. T. Bartlett. Address by Mrs. Perry E. Powell. Address by Chas. O. Jones. Consecration, closing prayer, benediction. The Junior League children were present filling the first three rows of chairs across Massey Hall, the first two addresses were directed to the children. Rev. Bartlett explained his theme very nicely with candles. The last speaker spoke of the influence and good of Junior League. Regular services were held at all the churches at seven and 8:30 o'clock. Farewell services were held at Metropolitan church, chairman was Rev. J. F. Berry, editor of Epworth Herald. The meeting was full of enthusiasm and was kept up until 11:00.

We left on Monday morning on the seven o'clock boat for Niagara, the crowd at the dock was immense, but we were fortunate to leave on first boat. Spent the day at Niagara, the scenery is lovely, words cannot express its grandeur. Left Niagara at 5:00 p. m. for Buffalo where we changed cars bound for home leaving Buffalo at 12:25 a. m. arriving at Hibbard at 1:30 p. m. MISS EDITH RICKENBAUGH.
