News in General.

D. A. Smith has a very sick boy. We want wood upon subscription! Mr. W. E. Hand visited St. Louis last week. M. E. Garn went to Plymouth last Saturday. Edward Houghton, of Plymouth, was in town Monday. Foster Groves, of Burr Oak, was in this city Monday evening. Contractor Curry Barnes spent Sunday at his home in Logansport. Chas. Pettis, who lives west of town, is very ill with the lung fever. Prof. I. S. Hahn drove to his home in Bremen last Saturday, returning on Monday. Born to Mr. and Mrs. Jerry Eskridge, a girl, last Friday night; weight unknown. Jacob Snyder, John Wood, Sid Flagg and Attorney Kirk, made Plymouth a visit Sunday. Rev. Green commenced protracted meetings at the East Washington church last Sunday evening. Plymouth has a business men's association which is active in advancing the interests of that city. Quite a number of our young people attended the revival meetings at Burr Oak last Saturday evening. Mrs. Jerome Eulitt, of Monterey, is visiting her parents, Mr. and Mrs. Dan Carr in this city, for a few days. Fred Carl, the popular engineer of the pumping station for the Vandalia R. R. at this place and City Clerk, is wrestling with the measles. Rev. Father Moench, of Plymouth, Rev. Father Kabelek, of North Judson and Rev. Father Guehoff, of Crown Point were the guests of Father Thiele, at Monterey, last week. Ten of the officers of the Military Academy and the same number of ladies took an old fashioned sleigh-ride to Plymouth Saturday evening. Liverymen Chas. Hayes conveyed the party to the hub with four of his excellent horses. An enjoyable time was reported.

Try D. A. Bradley for oysters. Who won that horse race last Sunday? Clyde Walter is now sporting a new cadet uniform. Mr. C. C. Beeber made Plymouth a visit last Friday. Jake Vanderweele, of Burr Oak, was in town Monday. Postmaster Wm. Truax, of Ora, made this city a business visit Monday.

The sudden thaw makes it look a little shaky for an abundant ice harvest.

A large number of fish are being caught by our scientific fishermen at present.

Rev. Barber and Henry Zechiel attended the Marshall county Sabbath school convention at Plymouth Tuesday.

The Fulton county Sabbath school convention was held at Rochester Thursday.

Miss Nannie Martin, of this city, went to Chicago last Monday, where she will remain on a visit for an indefinite period.

The Northern Indiana Teachers Association will hold their annual session at Kokomo, Ind., March 31 and April 1 and 2, 1898. Every teacher, superintendent, trustee and school board should make an effort to attend these meetings as they would be greatly benefitted thereby.

An exchange says: An Ohio man has just come to grief after marrying a 17th wife, without the others being divorced or even dying. He worked the preacher racket, but bit off too large a chunk when he married two girls in one locality within ten days. He is an off looking "critter" at that.

The town of Kewanna is all torn up over the disappearance last Wednesday, of Miss Cummings, daughter of the Universalist minister of that place, who also preaches at Victor Chapel near Star City. The girl had given birth to a child and successfully resisted every effort employed by her father to obtain from her the name of her betrayer. She took her babe with her.—Royal Centre Record.

We understand that immediately after the completion of the Culver Military Academy riding hall, work will be commenced upon the chapel, which is to be a magnificent edifice. The walls will be built of "nigger-head" stone, and the interior finished in grand and up-to-date style. We also understand that there will be a new annex erected to the main building which will be ready for cadets at the commencement of the 1899 term.

Liveryman Chas. Hayes was the champion fisherman on the lake Tuesday.

The boiler for the grist mill arrived Monday. Push a good thing along and let's have flour.

FARMERS ATTENTION! Now is your time to haul in your logs to the Culver City Saw Mill. Highest cash price paid.

John Boland, of Terre Haute, arrived in this city Tuesday evening, and will spend a few days visiting his brother, Mike Boland.

The Plymouth mandolin club, an organization that is not surpassed in the state give a dance on Feb. 14th. An invitation affair. It will be the social event of the season.

The Lakeside Hotel is at present doing a "laud office business," and under the management of that venerable gentleman Mr. W. H. J. Flagg, you can rest assured that everything is carried on in first class style.

Wm. Foss has moved his shoe repair shop into the building formerly occupied by John A. Campbell as a Jewelry Shop. Mr. Foss will be better prepared than ever to meet the wants of his patrons, and as he is doing first class work at the following exceedingly low prices, he is securing a large patronage: Gent's shoes half soled, 40 cents a pair, Ladies' shoes half soled 30 cents a pair.

At the State Capitol.

Indianapolis is undoubtedly one of the finest cities in the United States. It is just simply "a gem of the first water." Everything municipally speaking is carried on with clock-like precision. Its buildings will compare favorably with any other city in this country and outside of Detroit, Michigan, it takes the cake upon paved streets. The streets are wide and are kept very clean and neat. The fire protection system stands without a peer and the police protection is equaled by few cities. The inhabitants of Indianapolis are wide-awake, courteous and ever ready to show a stranger the beauties of the place. It has the best soldiers' monument in the world, beautiful parks and the State Capital which costs nearly three million dollars will ever stand as a monument to the energy and enterprise of the Hoosiers. While there, ye editor called upon happy Chas. Keifer, and found that gentleman and his aimable brother busy as bees at their jewelry establishment on Pennsylvania St. Charles sent his regards to all enquiring friends, and assures them that he will be a jolly visitor at the lake when the flowers bloom again. We also saw the Vajens and scores of other gentlemen who have interests at the lake and all express it as their opinion that the coming season will be a lively one. Mr. Vajen, who owns a beautiful cottage and grounds upon the east side of the lake, will in a short time start upon an extended tour through Europe.

Passed Over the River.

After a short and painful illness, Lola May, daughter of Mr. and Mrs. Joseph Medbourn, died Friday, Feb. 4th, at her home north-west of this city, aged six years, four months and 16 days. Funeral services were held at the Reformed church Sunday afternoon at two o'clock, Rev. Barber officiating. The remains were interred in Culver Cemetery. The bereaved parents have the heartfelt sympathy of a large circle of friends and relatives.

"Tis hard to break the tender cord,
When love has bound the heart
'Tis hard to speak the words,
Must we forever part.

Dear loved one, we have laid thee,
In the peaceful grave's embrace,
But thy memory will be cherished
Until we see thy heavenly face."

Secretary Wilson and the Sugar Industry. From the Louisiana Planter.

The appointment of Secretary Wilson to a cabinet position as head of the Department of Agriculture was hailed with delight by the sugar producers of the United States, his keen interest in the sugar industry while he was at the head of the Iowa State University leading us all to believe that in his new position he would do all that he could to promote the development of the American sugar industry.

After taking his position as a member of President McKinley's cabinet and at the head of the Department of Agriculture, Secretary Wilson immediately gave evidence of a continuing interest in the sugar industry, and seems to have made every effort to develop the beet sugar industry in those states where there was a promise of success. All that he did in this direction could not do other than meet our hearty commendation.

Now, however, we have another story to tell. It seems that Secretary Wilson has fallen under the blighting influences of the Hawaiian lobby in Washington, has yielded to the languorous influences that come from these distant tropic isles and longs for their annexation, for their union with our body politic. He has gone so far as to argue that the virgin soils on Hawaii are becoming rapidly exhausted from the non-use there of fertilizers. He seems to have forgotten that the Department of Agriculture, over which he is presiding with such distinguished ability in every other direction, devotes itself throughout its many experiment stations to directing and teaching the use of fertilizers in the United States for the purpose of improving and maintaining the fertility of the soils in these states, which have been impoverished by long cropping and lack of care. Secretary Wilson's argument concerning the exhaustion of Hawaiian soils is really without weight, because it would apply equally to any other agricultural country in the world.

Secretary Wilson argues that with the annexation of Hawaii, its present semi-slave system would vanish. If this were so, we may be assured that Hawaii planters would not be so willing to have their islands annexed to the American Union. If they can secure a sufficiently strong lobby in Washington to effect the annexation of Hawaii to the United States, they certainly expect in some similar manner to secure advantages in regard to their labor system which will enable them to practically continue it. Secretary Wilson said that indentured labor is in antagonism to the Constitution and laws of the Federal Union, but with these islands 2000 miles away, Federal laws and the Federal Constitution would have but little effect upon an active and able people who have been able to wrest the whole Hawaiian dominion from the many thousands of natives who claim it as their own.

The Hot Springs of Arkansas.

It is announced that all three of the great hotels at this resort will be open this winter. The Arlington has never closed, the Park opened January 6th and the Eastman January 25th. In addition, there are fifty hotels and three hundred boarding houses giving accommodations at reasonable rates to all classes of people. This is the only health and pleasure resort under direct Government control. The curative properties of the hot waters are vouched for by the Surgeon-General of the United States. How to Prevent Pneumonia.

At this time of the year a cold is very easily contracted, and if let to run its course without the aid of some reliable cough medicine is liable to result in that dread disease, pneumonia. We know of no better remedy to cure a cough or cold than Chamberlain's Cough Remedy. We have used it quite extensively.—Oologah, Ind. Ter. CHIEF.

This is the only remedy that is known to be a certain preventive of pneumonia. Among the many thousands who have used it for colds and la grippe we have never yet learned of a single case having resulted in pneumonia. Persons who have weak lungs or have reason to fear an attack of pneumonia, should keep the remedy at hand. The 25 and 50 cent sizes for sale at Culver City Drug Store.

Horrible to Contemplate.

Wm. Sutherland, the assassin, who murdered Ed. Fetter just as sure as there is a heaven above, was only given 20 years by a non compos mentus jury at the close of his second trial for murder last week, and we understand that his attorneys are making strenuous efforts to procure a new trial. The verdict is an outrage upon justice and a dead blow to civilization and humanity. Circumstantial evidence indeed, well, it was evidence that showed conclusively that no one but Sutherland had any particular interest in Fetter's death. What does this verdict mean? It means that this fiend in an exceedingly short time if he serves his sentence in the pen will be turned loose upon society; which will never breathe easy while he is at liberty. We do not uphold mob law, but in this instance, we think that Starke county citizens would have saved themselves lots of expense, had they taken and strung him up to the first tree.

Their Fiftieth Wedding Anniversary.

Fifty years ago to day (Friday,) Mr. Wm. Osborn was united in marriage to Miss Louisa J. Owens, of Bartholma county, Ind., upon the farm now occupied by Watson Romig west of this city. During all these years of vicissitudes and trials, they have shared each other's joys and sorrows and have worked for each others interests. To day they are happy in the thought that their declining years can be spent in peace and comforts as they have a splendid home and plenty of this world's good. Another fact worthy of mention, is that they have lived within five miles of Culver ever since they became man and wife fifty years ago. They are still hale and hearty although they are past the three score and ten mile post.

Patriotic Training in the Public Schools.

The old soldiers of New York are endeavoring to awaken an interest in military instruction and patriotic teaching in the public schools of that state. Among the reasons cited in support of the movement are the following:

Moral Development.—That patriotic exercises improve the student morally, stimulate his integrity of character, impress him with the responsibility of coming citizenship, and elevate his ideas of manhood.

Intellectual Development.—The records of such schools as have given most attention to the matter of patriotic exercises show that the students of these organizations stand the highest in scholarship, and that under thorough discipline marked development in method, exactness, tenacity of purpose, and kindred qualities are conspicuous results.

Physical Development.—The "setting-up" drill is a blessing to any boy, be he a scholar in the public school or otherwise. It is a noticeable fact that on entering a schoolroom of boys who are under military training you find them sitting erect and most attentive and respectful. The pupil who is unaccustomed to this discipline, when asked to recite, half rises or stands in a stooping posture, supported by his desk, and in an inaudible tone responds to the call; whereas, with the boy under training, he rises quickly, stands erect, and in a prompt manner, with clear enunciation, gives his recitation.—Ex.

We are anxious to do a little good in this world and can think of no pleasanter or better way to do it than by recommending One Minute Cough Cure as a preventative of pneumonia, consumption and other serious lung troubles that follow neglected colds. Culver City Drug Store.

SPAIN LOSES DAILY.

IS UNSUCCESSFUL WITH BOTH MONEY AND ARMS.

Bianco's Army at a Standstill—Patriot Forces Have Driven Their Would-Be Pursuers to Shelter—Ohio Legislator Has a Remedy for Degeneracy.

Autonomy in Eclipse.
A dispatch from Havana says Gen. Blanco has returned from a trip to the eastern provinces which has failed to come up to the expectations raised in Madrid. The Sagasta ministry cannot longer delude itself with the false hope that the adherence of a few minor insurgent chiefs is evidence that the insurrection is disintegrating from within. It is the frank judgment of competent military judges that the Spanish troops in Cuba to-day are in worse condition than the insurgents, though both the strength and the resources of the latter may be exaggerated. Weyler failed in his campaign in Santiago. Blanco criticised Weyler, but he has done no better. In two months the sole achievement of his forces has been to rescue the survivors of the garrison of Guanna. That Gen. Luque should be driven into Holguin from one direction and Gen. Linares should seek refuge in the town from another direction indicates a fair degree of activity on the part of the insurgents in Santiago under the command of Calixto Garcia and Rabi. Gen. Blanco has had the extra ammunition for which he asked. Everything was done that the authorities could do for the soldiers. Nevertheless the sickness is very great. Gen. Blanco's time at Manzanillo and Santiago de Cuba was taken up with inspection of the hospitals. As the season advances the fevers will grow worse. The probability of a successful campaign in the island this year is now eliminated from the events which might help to bring the insurrection to an end and secure the acceptance of autonomy. It is not to be expected that Gen. Blanco will permit disappointment to be manifest in his actions. The implantation of autonomy will go forward so far as official proceedings can make it appear to do so.

TO RESTRICT MARRIAGE.

Ohio Legislator Introduces a Novel Measure in the House.

Representative Parker of Cuyahoga County introduced a bill in the Ohio Legislature which is meant to prescribe who may and who may not marry. The measure provides for a State board of three examiners and a board in each county. Men and women who apply for marriage licenses will be required to submit to physical and mental examinations by the boards of the counties in which they live. The presence of any transmissible disease or hereditary diathesis to mental or physical disease or defect, or any criminal history or bias, will bar an applicant from the right of marriage. A fee of \$5 a couple will be authorized, which will go to the examining board. In case persons are not satisfied with the findings of the county board they will have the right of appeal to the State board, but will have to pay a fee of \$25 to that board. Mr. Parker says that this plan alone will put a stop to the alarming increase of insanity, crime and degeneracy.

HELPED NURSE HIS VICTIMS.

Californian Charged with Poisoning His Brother and Sister.

Frank Bellew has been lodged in the county jail at Susan, Cal., charged with murdering his brother and sister by poison. Lewis and Susie Bellew lived together in a cottage in the outskirts of Elmira. When the victims were taken sick Frank was almost the first person to come to their house. He helped the nurses to make gruel, using water from the tea kettle in which he is alleged to have placed poison. The day before the crime Frank called on his brother-in-law, John W. Bird, a photographer, and complained that he had not received enough of the property of his parents, who had overlooked him in their will. He added: "Bird, I'm going to commit a terrible crime to-morrow. I'm going to commit a tragedy that will shock the whole community." After the crime Bird had reason to believe that Bellew intended to kill him, and made the statement which led to his arrest.

Burn a Negro.

W. C. Plumb, editor of a Corry, Pa., daily paper and candidate for Mayor at the last election, has been arrested, in company with Thomas Oliver, proprietor of the Phoenix Hotel, and William Keller, an all-round sport, charged with saturating the clothing of an inoffensive negro hotel porter with alcohol spirits and then setting fire to it. The negro's clothing was burned off his back and he was so badly injured by the flames that he has been confined to his bed under medical care. The man's sufferings have been terrible and he will bear the marks of the assault upon him as long as he lives.

Mine Owners Rebel.

A Duluth, Minn., special says that the independent mine owners of the Mesaba range have declared war against the exorbitant freight tariff on iron ore and open hostilities will be begun in a few days.

Charcoal Fumes Kill Four.

At Madoc, Ont., John Milligan, aged 21 years; Lee Milligan, 15, and Ethel Baker, 12, were fatally asphyxiated by the fumes from charcoal.

Ohio Mayor Disappears.

Clem Becker, Mayor and a prominent merchant at Fort Jennings, Ohio, has disappeared.

Its Report on the Month's Business Briefly Summarized.

R. G. Dun & Co.'s weekly review of trade says: "The first month of the new year has brought rather more increase in business, but less improvement in prices, than was expected. With payments through clearing house 7.3 per cent larger than in 1892, and probably the largest ever known in any month; with railroad earnings 11.2 per cent larger than the best of past years, the fact that prices are very low only shows more clearly the increase in quantities of products sold. The settlement of wages on a 10 per cent advance April 1 for 200,000 coal miners of the central region, with other changes, will tend toward a larger demand for products of all kinds, though also toward some increase in cost of manufacture. Wheat has been conspicuous, rising 5 cents for the week, with 5½ cents for May options. Cotton has risen 1-16 cent, notwithstanding the strikes in Eastern mills and the official report of a decrease of 10.5 per cent in British exports of cotton goods last year. The woolen manufacture is doing well, fine worsted goods having opened at an advance of 20 per cent of last year. Sales at three of the chief markets have been 8,080,100 pounds, and for four weeks, 30,421,070, of which 21,367,720 were domestic, against 38,547,600 last year, of which 23,307,300 were domestic. Failures for the week have been 342 in the United States, against 331 last year, and 34 in Canada, against 57 last year."

RAPID-FIRE GUN BURSTS.

One Man Hurt by Explosion on the Sandy Hook Ground.

After standing a test of seventy-three rounds a five-inch rapid-fire Driggs-Schroeder gun burst at the Government proving grounds at Sandy Hook. Only one person was hurt, William H. Murray, a telegraph operator, who was at work in a temporary office some distance away from where the gun was undergoing the test. His leg was broken. Several pieces of the gun crashed through the roof and sides of the building and either fell to the floor or passed on out through the side of the building opposite to that through which they entered.

Grant that May Fail.

If the Nicaraguan Government should contract with a foreign syndicate for the construction of a railroad and steamship line across its territory, such action would, authorities say, be in violation of the terms of the concession granted to the Maritime Canal Company, and would probably be resented by the United States. Article five of the concession to the Maritime company provides that "the State binds itself not to make any subsequent concession for the opening of a canal between the two oceans during the term of the present concession (30 years), and also to abstain from granting a concession for a railroad, such as might compete with the canal for the transportation of merchandise, during the same period; but nothing in this article shall prevent the Government of Nicaragua from constructing, or permitting the construction, of such railways as it may deem advisable for commerce and internal traffic." Friends of the canal say the first portion of this article shows clearly that Nicaragua has not the right to make any such concession as is reported to have been made to the Atlas company. "The prospects for the building of the canal on the lines approved by the United States—that is to say, the canal commission—were never brighter than at present, and the construction of the long desired waterway is not far distant."

Insurance Company Victor.

The jury in the case in the Federal court at Lincoln, Neb., in which Mrs. George D. Stevens sued the Northwestern Mutual Insurance Company for the amount of a policy on her husband's life returned a verdict in favor of the defendant. George D. Stevens was a Crete banker, who disappeared six years ago. His wife believes him dead, but the insurance company maintains he is alive and the jury concurred with the defendant.

Kansas Prisoners Escape.

Charles Robinson, alias "Blackeye," who was charged with robbing banks and postoffices in Missouri, and who was recently captured at Fort Scott, Kan., broke jail with George W. Finche, under a life sentence for the murder of Frank Swafford, and six other prisoners. They assaulted the jailer and took his keys and gun. Robinson is accused of robbing banks at Hume and Richards, Mo., and the postoffice at Nevada.

Aerial Railway Is Completed.

Hugh C. Wallace, at Tacoma, Wash., president of the Chilcote Railroad and Transportation Company, has advised of the completion of the company's aerial railway over the Chilcote Pass to Lake Linderman. This marks a new era for Klondike travel, as the time between tidewater and the headwaters of the Yukon river is shortened from a month to one day, besides removing the peril and hardships.

Insurance Rate War.

St. Louis is soon to see a general rate war among the insurance companies doing business in the city. The Germania, one of the largest and most powerful companies, has decided to withdraw from the St. Louis board of underwriters and to reach out for business on its own hook. Associated with it will be the newly organized International Insurance Company of New York.

Due to Bad Water.

An epidemic of typhoid fever, pneumonia and intestinal troubles is raging in the Ohio valley, and its cause, so physicians claim, is the sudden rise of the river after the extreme dry period of last fall. In many places the effect of the bad water is very noticeable. There are scores of cases of typhoid fever and pneumonia.

Locomotive Explodes.

The locomotive of a Norfolk and Western train exploded near Welch, W. Va. Fireman Will Jackson, colored, was killed and Engineer O'Leary was so badly injured that he will die.

SHOW THEM OUR FLAG

WEST INDIES TO BE VISITED BY CRUISERS.

The Montgomery Will Call at Several of the Smaller Cuban Ports—The Brooklyn Goes to Other Islands—Insane Girl Attempts Suicide.

More Friendly Visits.

Encouraged by the excellent effect of the visit of the battleship Maine to Havana, the administration at Washington has determined to send another man-of-war upon a friendly visit to the smaller Cuban ports. The vessel selected is the cruiser Montgomery, which is now at Key West. In addition to this the armored cruiser Brooklyn, now at the Brooklyn navy yard, will leave in a few days for a cruise in the West Indies. She will not touch Cuba. Her itinerary requires her to first visit St. Thomas, thence go to Santa Cruz, Curacao, La Guayra and Aspinwall. Ports in Cuba will form only a feature in the itinerary of the Montgomery, as it is proposed to have her call at several other points in the West Indies. The Montgomery's mission, like that of the Maine to Havana, is purely friendly in character. In view of the peaceful aspect of the situation, as reported by Gen. Lee and Capt. Sigsbee, administration officials say that this is the best time for a United States warship to visit the smaller Cuban ports. The authorities believe that the beneficial results of the Maine's visit will be increased if a cruiser should display the American flag at other points of the island. Santiago de Cuba is the only point definitely selected for the Montgomery to touch. No significance is to be attached to the cruise of the Brooklyn. In explanation of her cruise it is stated that it is the desire of the authorities to display the American flag in Venezuelan and Colombian waters, hence the Brooklyn's orders.

WASHINGTON SUICIDE MANIA.

Treasury Clerk and His Daughter Try to End Their Lives.

The suicidal mania which has caused a number of attempts at self-destruction in Washington during the last several weeks developed two more cases in the persons of Walter Taylor, a clerk in the Treasury Department, and his pretty 20-year-old daughter Lucy. Miss Taylor has been in ill health for some time, and her illness assumed a suicidal form. She was with difficulty persuaded to retire to her room, and about 1 o'clock in the morning, after a violent struggle with her parents, who tried to hold her, she plunged through the window of her home and fell into a snowbank in the front yard. She then ran, terribly cut and bruised, through the streets, and after a half hour's search was found almost nude in a snowbank by a policeman. She was taken home, and it was then found that during her absence her father had hanged himself by a rope attached to the boiler of a stove. He was cut down and removed to the hospital unconscious.

POISONED A FAMILY.

Dates Drugged with Strychnine Sent to a Kentucky Belle.

An attempt is being made to solve a mysterious attempt to poison the family of J. W. Pritchard, at Union, Ky. A box of dates, into which strychnine had been injected, was sent to the family and several of the members ate of them. They were made deathly sick, but no serious trouble resulted. The dates came by mail. Inside was the card of W. G. Handley, a friend of the family. In the last month a local beau named Upton has been paying much attention and this is said to have aroused the jealousy of another of her admirers. This incident is being connected with the poisoning.

Gift for the Volunteers.

The Volunteers of America have received substantial encouragement in their work on the Pacific coast. A lady who wishes to conceal her identity has donated the organization an orange orchard of twenty acres, situated at Thermalito, near Oroville, in Butte County, Cal. Col. Sturgeon, who has been in San Francisco for months as the leader of the Volunteers, has the document making over the land, which is valued at \$10,000. Just what disposition will be made of it is unsettled.

Bank Is Out \$393,000.

A sensation was stirred up in New York financial circles by the sudden resignation of Cashier William J. Quinlan Jr. of the Chemical National Bank and the publication of his confession that he had loaned \$393,000 on doubtful, if not worthless, security without the sanction of any of the bank's officers.

Holocaust at Gloversville, N. Y.

The Alvord House, a five-story brick structure, the largest hotel in Gloversville, N. Y., burned the other morning. The fire was discovered at 7 o'clock. Every room was occupied and many narrow escapes occurred. Five lives were lost. The loss to the property will reach \$100,000.

Tortured by Robbers.

Four masked men entered the residence of Miss Nancy Fix, south of Delaware, Ohio, commanded her to tell where she kept her money, and upon her refusing they bound and gagged her. Unable to stand the torture she disclosed the hiding place and the robbers secured \$1,200.

Great Wire Combine.

The American Steel and Wire Company—in other words, the consolidation of the entire American wire industry—seems to be an accomplished fact. One of the strongest indications in support of the conclusion is a sudden and marked stiffening in the price of wire and nails.

Election in Duluth.

Henry Truelson was re-elected Mayor of Duluth, Minn., over Elmer F. Mitchell, Republican, by a majority of about 1,200. He was nominated by the Populists and endorsed by the Democrats.

SAVES HIS PRISONER'S LIFE.

A Kansas Constable Prevents a Lynching by Being Quick-Witted.

A mob of fifty masked men were at the Memphis depot at Galena, Kan., when Constable Roe arrived from Columbus with Richard Ward, a negro who, without serious provocation, fatally stabbed Dennis Brown last week. The mob demanded that Ward be handed over to them, but the officer quickly drew his prisoner into the car and went on to the next station. It is believed that Ward has been returned to the county jail at Columbus. At the county jail it was insisted that Constable Roe had not returned from Galena with his negro prisoner, Ward. One report has it that when pressed by the mob Roe permitted the negro to run through the car and escape in the darkness. Another rumor in circulation is that the negro was caught and hanged to a railroad bridge between Columbus and Galena.

CRUELITIES OF MASKED MEN.

An Oklahoma Recluse Inhumanly Tortured Until He Gave Up Money.

Two masked men broke into the residence of Louis A. Stanwood, a recluse, near Harvey, Okla., and tortured him by sticking a knife into his limbs and burning up all the money he had, amounting to but a few dollars. They next visited the home of John Hensley and robbed him, stopped J. C. McGarlan on the road, robbed him of his money, and were going to a fourth place when scared off. Luther Weaver and Will Henderson, sons of prominent farmers, were arrested later, charged with the crime, which in that territory is punishable by imprisonment for life.

Several Lives Lost.

The St. John train on the Maine Central, known also as the Provincial Express, was wrecked in a cut at Arono Basin Mills and six cars, including the smoker, were thrown into the ditch. One of the passenger cars, in which were many persons, was almost entirely demolished. Two persons were killed and twenty-seven injured, several probably fatally. Two of the injured have died since the wreck and the condition of others is critical. At the time of the derailment, which was due to spreading rails, the train was running thirty-five miles an hour. The private car of President E. A. Wilson of the Maine Central Railroad, which was occupied by President and Mrs. Wilson and two ladies, was the only one which was not thrown into the ditch.

Race War Is Threatened.

A race war is imminent in Louoke County, Arkansas. The whites are preparing to drive all negroes out of the county and many of the blacks are arming themselves preparatory to making a stubborn resistance. Notices have been posted on nearly every negro cabin in the county notifying the occupants to vacate within a certain time or suffer the consequences.

Mohican to Visit Samoa.

The Samoan natives, having become accustomed to thinking lightly of the United States because outrages upon American subjects have not been quickly resented by the Government, are to be taught a wholesome respect for the Stars and Stripes. The man-of-war Mohican will be sent to the islands at once.

Tennessee Deadlock Broken.

The senatorial deadlock at Nashville, Tenn., ended in the re-election of Senator T. B. Turley, the present incumbent. The vote stood 46 for Turley to 44 for McMillin. Gov. Robert L. Taylor withdrew from the race.

Shipping Firms Burned Out.

The District of Columbia appropriation bill was before the House on Saturday, but the day was spent in political debate. The controverted question as to whether prosperity had arrived attracted the most attention and interest, and testimony pro and con was offered throughout the day. At times considerable acrimony was displayed, but as a rule the debate was good-natured, both sides seeming to recognize that it was merely a struggle to score political advantage. The Senate was not in session.

In the Senate on Monday two of the general appropriation bills, that for the army carrying \$23,243,492, and that for the legislative, judicial and executive departments, carrying \$21,658,520, were passed, the latter consisting of 121 pages, occupying the attention of the Senate during the greater part of the session. After a brief executive session the Senate adjourned. In the House all day was spent in debate on the Teller silver resolution. It was defeated by a vote of 132 to 182.

The feature of the short session of the Senate on Tuesday was a statement made by Mr. Clark (Rep., Wyo.), as a matter of personal privilege, concerning his vote in favor of the Teller resolution. He maintained that his vote was in no way inconsistent with his Republicanism, and declared he would not permit anybody to read him out of the party, as he was satisfied the masses of the party would not convict him of political heresy. The House devoted most of the session to the District of Columbia appropriation bill, but had not completed it at the time of adjournment. Some policies were injected into the debate just at the close, the feature of which was a bitter denunciation of W. A. Stone of Pennsylvania by Mr. Mahany (Rep., N. Y.), for the former's position in favor of the immigration bill. Mr. Stone did not see fit to reply. Before the district bill was taken up several bills and resolutions of minor importance were passed.

After three days spent on the District of Columbia appropriation bill, mostly in political discussion, the House passed the measure on Wednesday and then took up the bill to provide for fortifications and coast defenses. Several Democrats, notably Mr. McClellan of New York, criticized the measure because it cut down appropriations for these works below what has been appropriated in recent years. Beyond the reading of the agricultural appropriation bill and agreeing to the amendments proposed by the committee, the Senate transacted no business of importance in open session. The greater part of the afternoon was passed in executive session, the discussion being upon the Hawaiian annexation treaty.

Thursday in the House was spent ostensibly in considering the fortifications appropriation bill. In reality the major portion of the time was consumed in the discussion of political topics. The existence of prosperity in the country was again the main question of dispute. All attempts to increase the appropriations in the fortifications appropriation bill or to amend it in any respect were voted down. One of the features of Thursday's session of the Senate was a speech by Mr. Caffery of Louisiana in support of the resolution reported by the Committee on Privileges and Elections declaring that Henry W. Corbett is not entitled to a seat in the Senate from the State of Oregon. Mr. Corbett was appointed as Senator by the Governor of Oregon after the failure of the Legislature to elect a Senator to succeed Senator Mitchell. Mr. Caffery maintained that the Governor of a State had no authority to appoint to fill an original vacancy—a vacancy beginning with a new term—after the Legislature had had an opportunity to elect and had failed to do so. The agricultural appropriation bill was under consideration during the greater part of the afternoon and was finally passed. After a brief executive session the Senate adjourned.

Friday was private bill day in the House, but by systematic filibustering the private calendar containing the bills reported by the Committee on Claims was not reached, the whole day and evening being consumed in passing thirty-seven private pension bills favorably acted upon by the House at the session last Friday night. During the consideration of one of the bills an interesting discussion of the sale of the Kansas Pacific Road was precipitated by Mr. Fleming (Dem., of Georgia), who, with his Democratic colleagues, desired legislation to require the President to bid the full amount of the debt, principal and interest. Mr. Powers, chairman of the Pacific Railroad Committee, contended that the real purpose of the opposition was to compel the Government to take the road and operate it. He said he thought the administration, which had secured every dollar owing from the Union Pacific, could be safely trusted to protect the Government's interest at the sale of the Kansas Pacific. In the Senate no business of importance was transacted in the brief open session. After the executive session of three hours the Senate adjourned until Monday.

A Musical Mousetrap.

Acting upon the idea that mice are very sensitive to music a Belgian manufacturer has substituted a musical mousetrap for the common trap. Instead of baiting the apparatus with a bit of cheese or bread the inventor has hidden in a double bottom a small music box, which plays automatically various popular airs of the country. The mice, he insists, are drawn irresistibly toward the music box, and in order to hear better they step into the trap and find themselves prisoners.

MERIT ALWAYS WINS.

The hard times of the past three or four years have been very destructive to all industrial affairs, and the railways have had an unusual amount of difficulty in making both ends meet. Roads that have, during this trying period, earned dividends while at the same time affording high class transportation facilities to their patrons, have, indeed, been fortunate. And such an event speaks well for the management of the roads.

The record of the Nickel Plate road during the recent period of industrial depression has indeed been remarkable, and it speaks most eloquently of the conservative judgment of the managers. For this road has made great and steady progress in the material improvement of its roadway and appliances, and in perfecting its equipment. The interests of the public have been in nowise neglected; in fact, the success of this road has inured to the benefit of the public as much, if not more, than to the stockholders. The condition of the road today shows this. Great and valuable improvements of a permanent character have been made in the shape of strengthening the roadway, bridges, and other accessories, and procuring new and improved safety appliances; new coaches have been added, elegant Wagner sleeping cars put on, new and powerful engines have been placed in service, and everything has been done to raise the standard of the road, to perfect its service, and to give it a leading place among the best roads in the country. The result has been obvious. The people have observed the progressive spirit of this road, have given it a liberal patronage, have enjoyed its excellent facilities, and that tells the whole story of a highly successful enterprise.

Among the most noteworthy improvements effected by the Nickel Plate route is the introduction of a first class dining service which has won the approval of the best class of patrons. Then the coaches have been illuminated by the brilliant Pintsch gas, heated by steam, and placed in the care of a colored porter. So the passengers have had the best that money can afford, at the lowest rates.

The through train service of the Nickel Plate, running in connection with the West Shore and Fitchburg railroads—over the great Hoosac Tunnel route, between New York, Boston and Chicago, ranks with the best in the country, and has become deservedly popular. Elegant new coaches and palatial Wagner buffet sleeping cars run through without change; the service is unexcelled, the time fast, the scenery most fascinating.

Located along the south shore of Lake Erie are many substantial and attractive summer resorts that are yearly growing in popularity, and this class of travel promises a continually increasing source of revenue to the Nickel Plate road. 32w3

HE WAS A STRANGER.

A Drunken Man Did Not Know Whether It Was the Sun or the Moon.

Since the big trot has been in progress at the Louisville Driving and Fair Association track the town has been a little fuller than usual of people, and, sad to relate, some at least of the people have been "a little fuller than usual." Two of the people were staggering down Green street late the other night, and one of them, seeing the electric light at the Jefferson street crossing, remarked:

"It's getting late. Just look how low the moon is."

"Why, you fool," responded his companion, "that's the sun."

This brought on a heated discussion that nearly resulted in a personal encounter, which was finally averted when one of the men pro-

posed to bet \$5 that he was right.

"Here's th' money," said he. "You hol' stakes."

"All right," said his companion. "I betcher. Here's my money. You hol' stakes. How're we goin' to settle it?"

It was finally determined to leave it to the first man who passed, and after waiting for a quarter of an hour, during which argument waxed hot and the participants became belligerent, finally another besotted individual came along claiming all sides of the road.

"Look here, m' friend," said one of the two, slapping him on the shoulder.

"All right," with a Fitzsimmons pose, came the reply, "if yer want to fight, sail in. I'm ready fer yer."

"You are mistaken," said the first speaker. "I beg your pardon. Didn't mean no harm. We had'er bet 'an' want you to settle it. Is that the sun or the moon?"

The stranger felt his importance, and gazed long and earnestly, shading his eyes with his hands.

"You'll have to excuse me, gents," he said; "I dunno."

Then he added apologetically. "Yer see I'm a stranger here myself."—Louisville Courier-Journal.

My Dreams of Old Maxinkuckee.

Mr. J. N. South is on the sick list.

Several of our citizens paid Plymouth a visit during the Sutherland trial.

Miss Ruth South visited with friends and relatives over Sunday.

Who said Clarke was not all O. K.

Mr. Ernest Benedict spent Sunday with Chester Bigley.

Rev. Nethercutt is now one of the professors at the Kewauna schools.

Protracted meetings at the M. P. meeting house will continue this week yet.

The I. O. O. F. and K. O. T. M. goats are earning their feed this winter, so they say.

Mr. ground hog saw his "shadder" the other day. He thought he would remain out o' sight for awhile.

A crowd of young people from Maxenkuckee and vicinity spent a pleasant time upon the ice Sunday afternoon.

The Knights of Maccabees are assisting in taking care of Mr. Lowrie Voreis, of Hibbard, who is wrestling with an attack of typhoid fever.

We understand that Messrs. Orlan Kline, George Loudon and Fred Moore commenced Monday on a job of sawing 120 cord of wood for Mr. T. J. Bigley.

Remember Rev. Nethercutt's appointments at the Christian tabernacle on the 20th.

Rev. Nethercutt addressed a large and distinguished audience on Saturday night, Sunday and Sunday night. He spoke Sunday on "The Christian's duty towards brotherly love." On Sunday night he took the opposite side of the question and explained "The way for the Christians to perform their duty towards brotherly love." The manner in which these sermons were handled by the reverend gentleman shows his knowledge in this line to be unsurpassed. For deepness of thought and simplicity of expression he is unexcelled.

The winter night was quite clear and rather sharp, and lingering twilight was changing its golden hues into darkness. The multitude of glittering stars seemed to shine brighter than usual, as they peered with gleaming eyes out of the ethereal sky, down upon them as they found their sleigh driving up the lane of Mr. Maurice Reynolds, amid a crowd of other sleighs from various neighborhoods. It was on Thursday eve.,

Feb. 3, that these young people assembled at the above-named residence to enjoy a good time. Supper was served from 10 to 12. Seventy-five young ladies and gentlemen partook of this bountiful repast (which was fit for kings) prepared at the hands of Mrs. Reynolds and ladies of the vicinity. After a pleasant time spent in plays and other amusements, the party bestowed many thanks upon the hostess, and the crowd of merry-makers left for their homes, hoping that some future time they might have the pleasure of enjoying a similar event.

We wonder how many times we have to mention the fact that persons sending communications to this office must, under all circumstances, give their proper name? This must be done in every instance to insure publication.

Just remember that the Lakeside Hotel is now under the control of that prince of landlords, W. H. J. Flagg, who is sole proprietor. His reputation as a first class manager is known far and near by the traveling public, hence he is already receiving a liberal patronage from that source. His culinary department is unexcelled and his beds are as good as the best.

Why not go to John Osborn's shoe store and fit your children with arctic overshoes while his great closing out sale lasts. They are going at cost. This is no humbug. Call and see.

With Wednesday evening's session of the best of the Marshall county Sunday school conventions came a close after a two days meeting. Three sessions were held each day, all of which were especially well attended considering the weather. Mr. John W. Parks, president of the county Sunday school organization, presided over the meetings and the numerous visitors and delegates took an active part in the program and in the discussions of live interest to Sunday school workers. Wednesday noon the visitors were entertained by the local committee at dinner spread in the dining room of the Presbyterian church.—Plymouth Democrat.

John Osborn is bound to close out his present stock of boots, shoes, rubbers, etc., at prices way down. Call on him for bargains.

We have on exhibition at our office a unique little horse-shoe, which was presented to us by that prince of blacksmiths, Wm. Wilson. The horse shoe is entirely handmade, and the workmanship shows great skill on the part of Mr. Wilson in that line. We will place the same over our office door and anyone wishing to examine this excellent piece of workmanship can do so by calling at this office.

How to Prevent Pneumonia.

At this time of the year a cold is very easily contracted, and if let to run its course without the aid of some reliable cough medicine is liable to result in that dread disease, pneumonia. We know of no better remedy to cure a cough or cold than Chamberlain's Cough Remedy. We have used it quite extensively.—Oologah, Ind. Ter. CHIEF.

This is the only remedy that is known to be a certain preventive of pneumonia. Among the many thousands who have used it for colds and la grippe we have never yet learned of a single case having resulted in pneumonia. Persons who have weak lungs or have reason to fear an attack of pneumonia, should keep the remedy at hand. The 25 and 50 cent sizes for sale at Culver City DrugStore.

One of Two Ways.

The bladder was created for one purpose, namely, a receptacle for the urine, and such it is not liable to any form of disease except by one of two ways. The first is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. The womb, like the bladder, was created one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of the very close to the bladder, therefore any pressure or inconvenience manifested in kidneys, back, bladder or urinary passages often, by mistake, attributed to fem weakness or womb trouble of some kind. Error is easily made and may be as easily avoided. Find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, a great kidney and bladder remedy is so realized. If you need a medicine you should have the best. All druggists fifty cents a bottle. You may have a sample bottle and pamphlet, both sent free by mail. Mention the CULVER CITY HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this pamphlet guarantee the genuineness of this offer.

KILLED IN THE HOUSE

TELLER RESOLUTION MEETS WITH DEFEAT.

After a Lively Debate, Every Republican, with One Exception, Votes Against Measure—Result Is 182 to 132.

Vote Against Silver.

The National House of Representatives Monday buried the Teller resolution, declaring the bonds of the United States payable in silver, under an adverse majority of fifty votes. The Republicans were solidly arrayed in opposition, with two exceptions, Mr. Linney (N. C.), who voted with the Democrats and Populists, and Mr. White (N. C.), the only colored member of the House, who answered "present" when his name was called. The desertions from the Democratic side were Mr. McAleer (Pa.) and Mr. Elliott (S. C.). Both voted with the Republicans against the proposition. Speaker Reed, although it is not customary for him to vote, had his name called, and went on record in opposition to the resolution. The vote was reached after five hours of debate, under a special order adopted at the opening of the session. The limited time allowed for debate and the pressure of members for an opportunity to be heard was so great that the leaders on both sides were compelled to farm out the time by minutes. This detracted much from the continuity of the discussion, but it also in a measure intensified the interest in the galleries, which were crowded all day, and the combatants on the floor were cheered by their respective sympathizers. Many of the Senators from the other end of the Capitol were also present to listen to the arguments. The majority, under the leadership of Mr. Dingley, who made a carefully prepared speech sounding the keynote of the opposition, assumed the position that the last clause of the resolution was in reality a disguised declaration for the free coinage of silver, while the assaulting Democrats, under the direction of Mr. Bailey, maintained that the defeat of the resolution was another step in the direction of the establishment of the gold standard, to which they allege both the President and Secretary Gage had irrevocably committed the Republican party. The debate was at times fast and heated.

After the close of Mr. Dingley's speech Mr. Bailey was recognized for an hour. He first yielded twenty minutes to Mr. Wheeler (Dem., Ala.), a member of the Ways and Means Committee, who submitted an argument in support of the resolution. Before closing Mr. Wheeler yielded a minute each to half a dozen members on the Democratic side. Mr. Bland, to whom Mr. Bailey yielded ten minutes, said the course of the President and Secretary Gage in pressing the gold standard upon the country had driven the bimetalists to Congress to introduce and insist upon the passage of this resolution. Yet, said he, Mr. Dingley charged the minority with playing politics. Every Republican who voted against the resolution violated the St. Louis platform and voted against the coinage of silver in any form, free or unlimited. No one disputed the law, he said. No one denied it. Silver was a full legal tender. But every Republican vote against the resolution would declare that silver was not fit to pay the public debt with.

Mr. Hopkins (Rep., Ill.) said this resolution had clearly shown that the Senate was not a Republican body, but was controlled by the free silver element. Mr. Clayton (Dem., Ala.) asserted that the defeat of this resolution was dictated by the masters of the Republican party, who gathered at a New York banquet table the other night at \$100 a plate, which meant, at Alabama standards, that every man ate a bale of cotton and a couple of mules.

From Different Points of View. Mr. Grosvenor (Rep., O.), in opposition to the resolution, said that throughout all the changes and mutations of the money question in this country the Republican party had maintained its unvarying devotion to what was denominated "honest money."

Mr. Dolliver (Rep., Iowa) made a ten-minute speech. Mr. Maguire (Dem., Cal.) said he agreed with Mr. Dingley. Mr. Cannon (Rep., Ill.), whose record had been attacked during the debate, said, in speaking of his former votes for free coinage and for the Matthews resolution, that the difference between silver and gold then was but a few cents; it was now 50 cents. Mr. Hepburn (Rep., Iowa) in opposing the resolution, which he said was equivalent to a free coinage declaration, referred to ex-Gov. Boies' refusal to longer follow the standard of free silver.

Mr. Rhea (Dem., Ky.) created something of a sensation. In the course of his speech, while he was referring to the crime of 1873, he declared that if there was any hole in hades hotter than any other it would be reserved especially for John Sherman.

Mr. Bailey closed for the Democrats in a speech which stirred his followers to a high pitch of enthusiasm. Mr. Bailey, owing to the great pressure for time, had only four minutes in which to close the debate for his side. The resolution under consideration, he said, contained two propositions, one moral and the other legal. One asserts as a matter of law that the bonds of the United States are redeemable at the option of the Government in silver, and the other as a matter of morals that to restore to its coinage such silver coins as a legal tender in payment of the bonds, principal and interest, is not in violation of the public faith nor in derogation of the rights of the public creditors. He would not dwell, he said, on the legal aspect of the question. There was not a lawyer in the United States, nor in any other country, who would venture on his professional reputation to deny that the bonds could be paid in silver. That went without saying. The Republicans in this matter must justify themselves, if at all, upon the proposition that in their

consciences they believed that gold was the money of the contracts.

Mr. Henderson (Rep., Iowa), the one-legged veteran, and Mr. Dalzell (Rep., Pa.) closed the debate with five-minute speeches in opposition to the resolution. Mr. Henderson recalled the President's declaration in his New York speech. "His declaration," said Henderson, "means that the best money in the world shall be paid to the bondholder, the plowholder, the hodholder, the penholder, the pensionholder and all who toil and all who sweat."

Result of the Vote.

At 5 o'clock came the vote, which was followed with great interest, notwithstanding the defeat of the resolution was a foregone conclusion. The Speaker announced that the vote would be directly on the resolution, not on the adverse report. It was soon evident that party ranks were being held intact. After the roll call was completed the Speaker asked that his name be called, and on the call responded with a vigorous "No." He then announced the result—years, 132; nays, 182.

The third week of the great cotton mill strike in New England has closed, and it brings no change in the unfortunate situation. The storm center is still at New Bedford, with smaller strikes scattered throughout the other cities, and operatives in still other waiting to see the outcome of the New Bedford workers' fight before they take a hand at it themselves. Operators and mill owners are as determined as ever and declare that they will not yield. The manufacturers reiterate their declarations: That the market for cotton manufactures has not recovered from the business depression; that the opening of cotton mills in the South has seriously affected the market; that their properties no longer earn dividends commensurate with their investments; that their operatives are as well paid as any, and better paid than most of them; that a system of fines for inferior work is necessary to protect them against careless workmen; that the operatives could live comfortably under the new schedule if they were good managers.

The answer the operatives make is this: That the mill owners, having regularly declared dividends of from 5 to 16 per cent, do not need to reduce expenses; that mill spinners alone of all the operatives could avoid starvation under a schedule 10 per cent below present wages; that they have been unable to pay living expenses at the old wages; that their homes, rented from the companies, are desolate and unsanitary; that the employers now require them to weave large cuts of goods at the same price they formerly received for smaller ones; that the mill owners, by arbitrary fines, are able to regulate wages to suit themselves.

The operatives are full of courage to resist the reduction. Forty-nine German families have left town for Texas, where they have secured employment in the cotton mills, and many more Canadians are to return to their homes across the border, to remain until the close of the struggle. The manufacturers have made no signs toward starting up their mills, and no more is expected on their part for some time to come.

FIERCE HEAT IN AUSTRALIA.

Great Damage Done by Fires Caused by Spontaneous Combustion.

The steamer Warimoo, from Australia, brings news of appalling climatic conditions which have been prevailing in many sections of that country. The prostrations from heat were so numerous that the condition of affairs in large cities was alarming. In a great many instances work is out of the question and sleep impossible. Telegrams show that the same conditions prevail all over the colonies. The thermometer during the heat of the day averages about 124 in the shade, and in a long list of towns the lowest figure found was 110. In the sun it is 160, so it is impossible to work at midday. The heat has caused numerous fires from spontaneous combustion, and the houses are so baked during the day that in the worst sections the residents sleep in gardens and on roofs. The damage from fire is very great. It would appear from the press reports that the total damage will amount to millions of pounds. In Victoria colony 100,000 acres have been swept clear and an enormous acreage of crops destroyed. In other colonies houses and barns were burned.

A SECRET PACT EXISTS.

Russia's Occupation of Port Arthur Is Explained.

It is supposed that Great Britain's withdrawal from Port Arthur and her ceasing to exert pressure for the opening of the port of Ta-Lien-Wan, which actions are regarded as incredible and suicidal to British interests and prestige, were owing to her disbelief in the existence of a secret treaty between Russia and China. The Chinese Government, however, quotes this treaty as the reason for Russia's presence at Port Arthur, and Russian dispatches to the tsung-li-yamen allege that the occupation of Port Arthur is in accordance with the treaty.

Assets \$3.30, Debts \$100,000.

The Odd Fellows' Mutual Aid Association voted to go out of business. Its assets amount to \$3.30, and its liabilities to \$100,000, consisting of unpaid death claims. The association was formed twenty-eight years ago by men prominently connected with the Odd Fellows, but it never had any official connection with the order.

RECORD OF THE WEEK

INDIANA INCIDENTS TERSELY TOLD.

Driven to Death by Malicious Rumors—One Man Killed by a Boiler Explosion—Convict Accidentally Breaks His Neck—Stabbed by a Companion.

Trouble Drove Him to Death.

W. A. Meyer, a hat dealer in Fort Wayne, hanged himself in the cellar of his store. His stock had been damaged by fire a few days before. The insurance adjusters called at the store and found it locked. They sent for Mrs. Meyer and she unlocked the store. She went down cellar and there found Meyer's body hanging by a rope from a gas pipe. Meyer was despondent over a report that certain persons believed that he had set fire to his store.

Big Boiler Explosion.

The Victor mine of the Parke County Coal Company, near Fountain, was the scene of a serious explosion. A mammoth boiler used at the mine exploded, killing George Markle, the engineer, outright. Two other men, whose names are unknown, were seriously injured. Markle's body was blown a distance of 100 feet and mutilated in a horrible manner.

Escaped from Sullivan Jail.

Daniel Peak, forger, and Charles Lancaster, attempted murderer, made their escape from the jail at Sullivan. They procured fine steel saws and sawed the hinges from the cell door and pried them open. They then sawed two of the iron bars from a window in the jail, from which they made their escape. Lancaster was caught in a barn near the city.

Accidental Death of a Convict.

"Doc" Hall, a convict from Martinsville, was found lying on the floor of his cell with his neck broken, at the Jeffersonville reformatory. He had complained of being ill and weak, and was excused from work. It is supposed that he attempted to rise from his cot, and, being so weak, fell and received the fatal injury.

Klondike Near La Porte.

A sensation has been caused by the finding of gold on the farm of John Jones, northeast of LaPorte. The metal was found in considerable quantities in drilling a well. Particles were assayed by local experts, and a sample has been sent to the State geologist at Indianapolis for an expert opinion.

Boy Stabbed in a Quarrel.

Willie Lindawood, aged 17, and Glenn Ralston, aged 18, of Crawfordsville, quarreled on their way home from a meeting of the Salvation army and Lindawood stabbed Ralston several times in the side, leaving his knife sticking in the flesh. The boy is badly injured.

Within Our Borders.

Peter Roth of Shelbyville died from injuries received in a fall.

At Elwood Emmett Limpus fell from a fifty-foot ladder and was killed.

Harry Warvel, aged 18, has mysteriously disappeared from North Judson.

Daniel Meltzer, a prominent Shelbyville farmer, died while at his breakfast table.

Robert Fisher, a farmer, aged 67 years, living near Greensburg, committed suicide.

The State Board of Agriculture fixed the third week in September as the time for holding the State fair.

At Fort Wayne, Thomas Mannix dropped dead. He had been connected with the mail service many years.

Near Pierceton, James Norris, a farmer, committed suicide in his barn, hacking his neck to strings with two razors.

At Princeton, Otto Anderson attempted to commit suicide by taking an overdose of chloroform. He and his young wife had quarreled.

Jas. Woods, a worker at the National tin plate plant at Anderson, was found dead in bed. It is thought that his heart was affected.

At Butler Andrew Casebeer, aged 92 years, was granted a divorce from his wife, Mary Jane Casebeer, who is a few years younger.

The truant officers of LaPorte County united in an appeal to the Board of County Commissioners for the establishment of a home for incorrigible school children.

The new residence of Elmer Ramie, in a suburb of Muncie, was destroyed by fire, causing a loss of \$1,500; fully insured. A natural gas jet caused the fire.

Some of the leading farmers of Peru are taking advantage of the oil boom that has been going on there for six months and are using the crude product to feed their herds of swine.

Oran Vin Russell, a well-known Elwood man, while intoxicated, swallowed a large dose of arsenic, unknown to anyone. He died in five hours. Russell leaves a young wife and two children.

At Terre Haute Mrs. William Stewart was fatally scalded while her husband was helping her carry a wash boiler filled with boiling water. A handle came off and the water poured over her.

Mrs. Jennie Fultze, a young married woman of Martinsville, swallowed two and a half grains of morphine with suicidal intent. A physician's prompt service has made it possible for her to live.

A stranger was discovered robbing rooms of students on College hill, Valparaiso. He was captured and gave his name as Frank Moore of New Orleans, but later it was learned that he was James Vanhyde of Ohio.

The Indiana Labor Commission effected a settlement for one year among the thousand workmen in the Elwood and Kokomo plate glass plants and the Pittsburg Glass Company. The works at Elwood have resumed operations.

Never Content.

Some people are never content with anything. They will not find exactly what they want even in heaven, if they know some one is there ahead of them. For instance, some are great sufferers from neuralgia. Friends have told them what is best and certain to cure them. Not content with what is said, they suffer on. Pain ravages and devastates the system, and leaves it a barren waste. St. Jacobs Oil has cured thousands. Just try it.

When men try to get more good than comes from well doing, they always get less.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

A PERFECT HOME SECURED AT LITTLE COST.

Ivan and Theodore St. Iriovski, formerly residents of Michigan, but now living in Alameda, Western Canada, before taking up their home there visited the country as delegates. They reported to the Government of the Dominion of Canada the result of their observations, and from this report extracts have been taken, which are published below:

"We have visited a number of most desirable locations, and are highly pleased with the country as a whole, it being beyond our highest expectations. We had here a prosperous and well-contented lot of people. They have comfortable homes, and their vast fields of wheat and other crops in addition to their herds of choice cattle, indicate prosperity in the full sense of the word. In conversation with the farmers throughout our trip we learned that the majority of them came here with very limited means, and some with no more than enough to bring them here, and they are now well-to-do. They all claim that this is the only country for a poor man, or one with little means, to get a start and make a home for himself and family. As you are aware, we were a little shaky and undecided before leaving Detroit, but have determined since that we, with our friends, will make this country our future home. It is far from being the wilderness we had pictured it to be; it is, instead, a land having all the facilities required by modern civilization, such as railroads, markets, stores, churches, schools, etc., in fact, an ideal home for those having the future welfare of themselves and families at heart."

The Messrs. St. Iriovski selected the Alameda district, but what they say of it applies in a general way to most other districts in that vast country. They speak of the fuel, which is to be had in great quantities, of the water that can be had by digging from ten to twenty feet, and of the good grazing land to be had almost everywhere. There is plenty of wood for building timber and for fuel, while coal is convenient, and sells at low prices at the mines. In driving through the country they passed many fine patches of wild raspberries, and say they can speak highly of their flavor, as they could not resist the temptation to stop and eat.

Having already transgressed on your valuable space, I shall defer further reference to Western Canada for another issue. An illustrated pamphlet recently issued by the Department of the Interior, Ottawa, Canada, giving a complete description of the country, will be forwarded free to all who write for it.

DEAR SIRS: I thought I would write a statement of my case, and how I was cured by your "5 DROPS," as I feel truly grateful to think that our Heavenly Father has endowed you with the knowledge to bring out such a wonderful medicine as your "5 DROPS."

I was a great sufferer for about four years. I was taken sick with vomiting and dizziness, so I could not sit up a minute, so they had to carry me in where I fell. Then I employed one of our city doctors; he said I was all broken down, and that I would never be able to work again; then I kept getting worse, and I employed another, and he said about the same. After a while I got a little better, then I was taken with cramps and pains in my above, hands, knees and feet. The torture of the pains was so great that I had to walk the floor night and day. I employed another doctor, and when he would say that he could do no more for me, I would employ another and another till I had employed 14 different doctors, and had used every kind of patent medicine I could bear of. My teeth are all gone from the effect of the strong medicines. Some of the doctors said it was my kidneys, some said it was my liver and kidneys, and some called it Rheumatic Gout. My friends would say that I could not live a week. Two years ago my sister-in-law came from Nebraska to see me, and she said when she went away that she would never see me alive again. "Thank God she is here again to see me, and she had just one look at me, then she said: "What did you ever get to do you so much good?" for she says: "I expected two years ago every letter I got to hear you were dead." All I can say is, it was wonderful—"5 DROPS" did it all. When I was taken sick I weighed about 150 pounds—I ran down to about 75 pounds, and I could not feed myself and had to be nursed in bed. I now have taken your "5 DROPS" about three months, and can clean my own horse and harness it and drive it. People all look at me and say: "It is wonderful," for they thought my box was made for me. My cure is a great testimonial for your "5 DROPS." Now, if you want any more I can give it, and I can get testimonials from prominent men here that know just how I was.

"FIVE DROPS" has never been equaled.

"5 DROPS" taken but once a day is a dose of this great remedy and to enable all sufferers to make a trial of its wonderful curative properties, we will send out during the next thirty days, 100,000 sample bottles, 25c each, prepaid by mail. Even a sample bottle will convince you of its merit. Best and cheapest medicine on earth. Large bottles 50c each, 1.00 for 20 days' bottles for \$2.50. Not sold by druggists, only by us and our agents. Agents wanted in new territory. Write us to-day.

HAS CURED MORE THAN 1,000,000 PEOPLE.
FOR 30 DAYS YOU CAN TRY IT FOR 25 CTS.
GIVEN UP BY 14 DIFFERENT DOCTORS.

DEAR SIRS: I thought I would write a statement of my case, and how I was cured by your "5 DROPS," as I feel truly grateful to think that our Heavenly Father has endowed you with the knowledge to bring out such a wonderful medicine as your "5 DROPS."

I was a great sufferer for about four years. I was taken sick with vomiting and dizziness, so I could not sit up a minute, so they had to carry me in where I fell. Then I employed one of our city doctors; he said I was all broken down, and that I would never be able to work again; then I kept getting worse, and I employed another, and he said about the same. After a while I got a little better, then I was taken with cramps and pains in my above, hands, knees and feet. The torture of the pains was so great that I had to walk the floor night and day. I employed another doctor, and when he would say that he could do no more for me, I would employ another and another till I had employed 14 different doctors, and had used every kind of patent medicine I could bear of. My teeth are all gone from the effect of the strong medicines. Some of the doctors said it was my kidneys, some said it was my liver and kidneys, and some called it Rheumatic Gout. My friends would say that I could not live a week. Two years ago my sister-in-law came from Nebraska to see me, and she said when she went away that she would never see me alive again. "Thank God she is here again to see me, and she had just one look at me, then she said: "What did you ever get to do you so much good?" for she says: "I expected two years ago every letter I got to hear you were dead." All I can say is, it was wonderful—"5 DROPS" did it all. When I was taken sick I weighed about 150 pounds—I ran down to about 75 pounds, and I could not feed myself and had to be nursed in bed. I now have taken your "5 DROPS" about three months, and can clean my own horse and harness it and drive it. People all look at me and say: "It is wonderful," for they thought my box was made for me. My cure is a great testimonial for your "5 DROPS." Now, if you want any more I can give it, and I can get testimonials from prominent men here that know just how I was.

As a positive cure for Rheumatism, Sciatica, Neuralgia, Dyspepsia, Backache, Asthma, Hay Fever, Catarrh, Sleeplessness, Nervousness, Nervous and Neuralgic Headache, Heart Weakness, Toothache, Earache, Croup, Swelling, La Grippe, Malaria, Creeping Numbness, etc., etc.

"FIVE DROPS" has never been equaled.

"5 DROPS" taken but once a day is a dose of this great remedy and to enable all sufferers to make a trial of its wonderful curative properties, we will send out during the next thirty days, 100,000 sample bottles, 25c each, prepaid by mail. Even a sample bottle will convince you of its merit. Best and cheapest medicine on earth. Large bottles 50c each, 1.00 for 20 days' bottles for \$2.50. Not sold by druggists, only by us and our agents. Agents wanted in new territory. Write us to-day.

Domestic Heroines.

[NOTE FROM MRS. PINKHAM'S DIARY.]

THE real heroines of every day are in our homes.

Frequently, however, it is a mistaken and useless heroism.

Women seem to listen to every call of duty except the supreme one that tells them to guard their health.

As long as they can drag themselves around, women continue to work. They have been led to believe that suffering is necessary because they are women. What a mistake! For proof read this:

"I was so weak and nervous that I thought I could not live. I had falling of the womb and leucorrhœa, and thought I was going into consumption. I had dragging pains in my back, burning sensation down to my feet, and so many miserable feelings. I was not able to do my work. People said that I looked like a dead woman. Doctors tried to cure me but failed. I had given up when I heard of Lydia E. Pinkham's Vegetable Compound. I got a bottle. I did not have much faith in it but thought I would try it, and it made a new woman of me. I have been doing my work ever since for a large family. I wish I could get every lady in the land to try it, for it did for me what doctors could not do."—Mrs. SALLIE CRAIG, Baker's Landing, Pa.

If you are ill and need counsel you can secure advice from Mrs. Pinkham's vast experience without cost. Write to her at Lynn, Mass., and tell her the whole truth; you can talk freely to a woman.

The following is the experience of Mrs. Meier in her own words:

DEAR MRS. PINKHAM:—I feel it my duty to inform you of the benefit I have derived from the use of your medicine. I have suffered for two years, and have spent over one hundred dollars for doctors. There was not a week passed without my doctor being called to my bedside. He said I had falling of the womb, and that I must wear a rubber ring. I wore it six months, but I still had those terrible bearing-down pains, and pains in my back and side. Menstruations were so painful that I was compelled to take to my bed. I have taken four bottles of your medicine, and am cured of all those pains. I never felt better in my life than I do now. I would recommend it to all who suffer from female weakness or womb trouble. To all suffering women I would say, "Take Lydia E. Pinkham's Vegetable Compound. It will not only save dollars, but restore you to perfect health."—Mrs. C. E. MEIER, Jacksonboro, Ohio

Agents are traveling over Whitley and adjoining counties selling a new range stove, which they represent is superior to anything of the kind made. They convince the farmers that they are getting a cheap stove, when in reality they pay from 25 to 33% percent more than any home hardware store would charge. The agents take properly signed notes in payment and then sell them to paper-shavers.

The printer's "devil" belonging to the North Judson News has gone to Klondike to cool off. It has caused quite a bit of excitement at that place. The lad upon leaving home said that he was going skating. He did not return and a search was made for him. Telegrams were sent to various points and it was ascertained that a friend of his at Argos had also disappeared. A note was found which told their friends not to worry, they had only just gone to Klondike. The kids were seventeen years of age.

What pleasure is there in life with a headache, constipation and biliousness? Thousands experience them who could become perfectly healthy by using DeWitt's Little Early Risers, the famous little pills. Culver City Drug Store.

All teachers in our common schools are now required to pass an examination in music, barring those who teach in city schools where a regular musical instructor is employed. Every teacher who has a hold-over license will be compelled to run this gauntlet before they can be employed for the next year. The first of these examinations will be held in June.

A glib-tongued young man is traveling over the country selling a skillet by sample. He courteously solicits your order, and if you conclude to buy, he will tell you that it is entirely optional with him whether you pay in advance or not but providing you did the manufacturers would pay the freight. The skillets never arrive. Look out for him.
