**H. A. DEEDS,**  
DENTIST.  
From the office of F. M. Barlett Plymouth, Ind., will be at Lakeside Hotel, Culver City, each Monday. Remember the date. 20th.

The Ladies' Aid Society of the M. E. church will give a supper and sale on Thanksgiving eve. The public is invited.

Look out for the Peoples' market sign and then you will know when the new meat market is open.

Don't forget to look out for the Peoples' market sign, then you can tell when the new meat market is open.

We noticed the smiling countenance of B. F. McIlwain upon our streets. He looks hale and hearty.

The C. M. A. second team played a game of foot ball with the second team at Plymouth Monday. The Hawks in late this week owing to the fact that our printer went out of the office suddenly Tuesday morning on private business and has not been seen since.

Mike Boland is upon the sick list. Edwin J. Bradley is very ill with typhoid.

W. S. Esterday would like to know where that sidewalk is that the M. E. Society laid last week?

The 157th regiment will be mustered out at Indianapolis on Nov. 1, and the 158th on Nov. 4.

Hon. W. L. Taylor, candidate for attorney general, delivered a rattling speech on the republican side of the political issues, Thursday evening, to a fair audience, at the Coliseum. He is a clever speaker, and was listened to with marked attention.

While in Chicago during the jubilee exercises, the editor of this paper saw little bare-footed, poorly clad, half starved children huddled together on the streets, and represented vividly a picture of abject misery. Millions were spent in Chicago on this occasion to gratify pomp and pride, while the rich churches vied with each other in pompous display. The teachings of Christ is obscured.—N.Y.

It is rumored that National Guard is still connected with the best literary stable, this is not so. He has permanently retired from the business owing to ill health.

Thursday morning John Cranley, the hansom and sage of Culver, was engaged in one certain fisherman. He went for his bait and in attempting to land the same, it slipped over his long poor John beneath the cold and alien waters. His head was brought Wm. Kessler in the rescue who saved him from a watery grave. He is ready to do and do now for his prospector.

At 10:15 Friday evening, a fire started in the Kendall building at Plymouth, totally destroying the same and most of its contents. Two of the business rooms were occupied by W. M. Kendall, owner of the building, one with a stock of groceries and the other with books, stationery, and wall paper. J. A. Campbell, the jeweler, formerly of this place, also occupied a portion of this room. Less Sullivan's barber shop was in the third room, while the second story was used for offices. Dr. A. C. Home, dentist, and Wm. Loyal, pension agent, occupied rooms on the second floor, and lost about all their furniture and fixtures. Mr. Kendall carried \$5,500 insurance on building and stock. The others carried insurance ranging from one to three hundred dollars.

Schuyler Wernitz of the firm of Clemens & Wernitz, blacksmiths, has retired from the business and has moved to Plymouth.

Who will bring us some wood?

Our city schools are progressing fine.

A. A. Kuhn is working on the new school house at Rutland.

Prof. Wan, Matthews likes his position with the Vandelin R. R. Co., at St. Joseph, Mich., just immense.

Peter Keller has moved his barber shop into the building first door south of the Osborn block.

Hon. Samuel Parker at the Coliseum Saturday night. He will speak upon the political issues of the day.

Hon. W. L. Taylor and R. E. Ogilstone were callers at this office Thursday.

That Ft. Wayne foot ball team got accepted 35 to nothing by the academy team last Saturday, the fate of all the opposing teams so far this season. Next Saturday afternoon the academy team plays the DePau University team afternoon, and the contest will be a hot one from start to finish.

On Wednesday evening Nov. 2, without doubt, the grandest musical entertainment ever given in North-west Indiana will take place at Plymouth, and will be rendered by "E. A. Lefebvre Saxophone Virtuoso and The Cans Wampler Instrumental Quartet." Three of our readers who are fond of music, attended by masters who have appeared in all the principalities of Europe and America, will attend.

Anna Conant and Mr. Clemens, who have been living in the Daniel Zschel's house in the south part of town, have both left Culver, Con going to Plymouth and the other on a bona fide business.

If any of our readers are not subscribers of "Word and Works," published by Rev. J. E. Hinks of St. Louis, Mo., they are surely missing one of the really good things that they might just as well have as not. They are not only devoid of reading a high grade literary journal, but are deprived of his wonderful weather predictions, which in nine cases out of ten are true to the letter. No farmer should be without it, as it will keep him posted concerning the great storm periods, and warn him when to look out for his crops with an accuracy perfectly wonderful to a man not versed in the mysterious movements of heavenly planets. In fact no one should be without "Word and Works." A copy of this great paper can be seen at our office at any time.

We are pleased to announce that trustee Cranley has been able to secure the services of Prof. C. H. Grobe to take charge of the Hibbard school recently vacated by Professor Seaton. Mr. Grobe is one of Marshall County's best teachers. He will find an up to date school building there. In fact one of the very best in the county. Mr. Cranley will have another like it completed at Rutland soon. The brick work upon both buildings was done by D. A. Smith & Co., of Culver.

S. E. Kuhn is doing a bustling business photographing schools. He reports the schools in a flourishing condition.

Low horsebacking excursion rates from the Nickel Plate Road on Oct. 15th, Nov. 1st, 15th, Dec. 5th and 20th, offer an opportunity of visiting the west and gaining an idea of our country's greatness and resources.

A Happy Crowd.

Last Saturday the Maxenkuckee Annual Outing Association arrived at Culver in a special Big Four palace car, and are now quartered at the Bohlen club house. The gentlemen are here for the purpose of enjoying a few days hunting, fishing and partaking of those refreshing outdoor exercises which to a city man are a rarity. The following is the personnel of the association:

Wm. F. Kuhn, President.  
Frank Ilgenbach, Vice President.  
L. P. Gossel, Secretary.  
Carl VonHahn, Treasurer.  
J. George Mueller, Surgeon.  
Peter Keller and Chas. Noergs, Commissary Department.

O. D. Buhlen and Joseph Schaaf, Transportation.

John Ilgenbach, Chaplain.  
Frank Mann, Chas. Kuhn and J. H. Kirkhoff, Entertainment Committee.

The association has added a new member in the person of Major Robert Keller, a born of the Spanish-American displacement, who hopes to recruit his shattered system by breathing the pure and exhilarating air of Lake Maxenkuckee. He was given the first and second degree of the association Saturday, and the third degree will be given during the week, the following gentlemen of Indianapolis being invited in witness the interesting ceremony: Wm. Kuhn, Julius Keller and Fred Hig.

The candidate for third degree knows his own heart's sympathy as an ardent fisherman.

The gentlemen are greatly interested in the Boating League and are champions of the state for the years of '97 and '98. They are progressive business men from the capital city and one and all are deeply interested in our beautiful resort, and have accomplished much in developing and beautifying the same.

Horace Mansfield, late of the Grand Hotel is chef for the association, and has a Delmonico reputation for preparing delicacies in the menu line.

The association is held in its praise of the treatment rendered at the hands of our residents and most tender, D. A. Welber.

In conclusion, we must say that no other lot of men inhabit this beautiful place, and when the other generations peruse the history of the association, compiled by its historian, Hon. Joseph Schaaf, they will be pleased to learn that the lot of their fore-fathers was cast in pleasant places.

Granville Hand, father to W. E. Hand, who lives upon the east side of the lake, met with a serious accident recently at St. Louis, Mo. He was trying to board a street car and was run over by a wagon, his hip and arm being broken. He is now visiting his daughter, Mrs. H. H. Culver. Being over 90 years old and quite feeble, his recovery is very doubtful.

Soothing, healing, cleansing, Dr. Witt's Witch Hazel Salve is the impenetrable enemy of sores, burns and wounds. It never fails to cure piles. You may rely upon it. For sale at Culver City drug store.

Lost, Strayed or Stolen.

A tramp printer, aged about 47 years, five feet eight inches high, weight about 150 lbs. and hair same as Hodge. Relatives can have his overcoat by calling at this office, providing hair and paying for this notice.

Ordinary poetry 5 cents per line. Local advertisements 5 cents per line. Display advertising rates made known on application.

Cards of thanks will be published at 25 cts per inch.

Mexican War Notes

According to General Scott's letters to Secretary of War Marcy, his small army at Puebla in midsummer, 51 years ago, was "suffering for clothing and supplies." The men "had not received a dollar since landing at Vera Cruz four months before."

At Puebla, in July, 1847, General Scott's commissary, Grayson, was \$200,000 in debt and purchasing supplies on credit at great disadvantages. He and the chief quartermaster, Irwin, were selling drafts and borrowing largely of the pay department to keep the army from starving to death.

Before Scott was well on his way to the City of Mexico he wrote to Marcy: "Our poverty, or the neglect of the disbursing department at home, have been made known to our shame in the papers of the Mexican capital."

Before Scott reached Vera Cruz, and when off Lobos in February, 1847, he asked General Brooke to direct the quartermaster at New Orleans to send him large supplies of clothing. General Brooke replied "The quartermaster has neither clothing or shoes. I am fearful that if they have not been sent out direct to you that you will be greatly disappointed."

With 1,017 sick in the hospital at Puebla, Scott had only 5,820 effective men. Pillow came and raised the effectiveness to 8,061, but there were 2,215 then in hospital. Scott said he hoped to advance with 9,500 men to meet 33,000 Mexican soldiers at their capital.

In December, 1847, Scott reported his force at the City of Mexico and Cuapalapa at 6,000 with 2,011 sick. He had not a sixth or perhaps an eighth part of the clothing needed by the army. His troops had received no cash.

Reaching Vera Cruz in clothing was sent by the City of Vera Cruz for Scott's army, until by there until September, when new troops "having left home insufficiently clad," used it. Late in December Scott informed the war department of that fact and stated: "The regiments that came with me must, therefore, remain naked or be supplied with very inferior garments made by ourselves of every color and at high prices."

Quartermaster General Jessup wrote to the secretary of war that he had left enough clothing at Vera Cruz for Scott's old corps, but made no provision for the volunteers. "They are well aware," said he, "that I had not a cent for that purpose."

AT THE PARTING OF THE WAYS.

[Indianapolis News]

The political speeches of this campaign are discussing questions of further-reaching scope than most of the domestic problems that heretofore have absorbed our attention. In all of them there is a dignity, a seriousness, a sense of large responsibility, of impending national greatness and duty, which give them an elevation and distinction new to our political oratory. It is recognized that we are standing at the parting of the ways, on the edge of a new era, with a larger sphere of duty and activity confronting us; that

Through the shadow of the globe we sweep into the younger day.

And there is no shrinking of doubt or despondency. There is a spirit of self-confidence, of manly power; a quiet determination to meet new duties and do them, to breast strange difficulties and overcome them.

WONDERS BRIEFLY TOLD.

Previous to the recent one, the United States had had 16 wars. The average duration of each was nearly four years, but the last was continued only 114 days. Never so much in resorting to arms was accomplished in so short a time. Great armies were created, equipped, drilled and many thousands sent across seas to fight for humanity. The results are magnificent, with a very small loss of life, comparatively, to the Americans. Nearly 12,000,000 people have been freed from oppression, the Spanish flag and Spanish rule have been driven from many thousand square miles of territory, Spain's navy has been destroyed, her power has been paralyzed, and the nations of the world are wondering how it all could have been achieved in less than four months.

STATISTICS.

The secretary of agriculture, Mr. Wilson, has prepared a statement to show the beneficial effects of the Dingley tariff bill on farm products. The total agricultural exports for the fiscal year of 1897, he says, amounts to \$683,471,139, while for 1898 they aggregated \$854,627,929, an increase for the year of \$171,156,790. For the fiscal year of 1898 the total domestic exports were \$1,210,292,076, an increase of \$178,284,494 over those of the previous year.

The value of the three principal articles of imports in the agricultural line, coffee, sugar and wool, shows a wonderful decrease in 1898. In 1897, we paid \$81,544,384 for coffee; the following year, \$85,076,561. Last year we paid \$60,472,703 for sugar, which was \$39,193,478 less than what we paid in 1897. The amount of wool imported in 1897 was 350,852,026 pounds, as against 132,755,302 pounds in 1898, the decrease in value being \$36,459,499. The heavy decrease in these products, Secretary Wilson says, is owing to the heavy importations made before the Dingley bill was made a law.

The exports of domestic merchandise for the month of August were valued at \$84,580,475, an increase of \$3,755,425 over the month of August last year, when they amounted to \$80,825,050. For the eight months from Jan. 1 to Aug. 31 they reached \$773,645,726, an increase of \$126,948,396, the exports for the eight months of 1897 amounting to \$641,697,330.

For the eight months from Jan. 1 to Aug. 31 United States imports amounted to \$426,923,597, against \$345,325,777 for the same period last year. The imports for the month of August, 1898, amounted to \$43,468,194. For the eight to \$471,232,209. Aug. 31 they amounted

The manufacture of silk in the United States, in 1890 amounted to \$5,607,771 in value. Since 1890 the rate of increase has even accelerated, making it probable that the silk production of the United States today amounts to nearly or quite \$150,000,000 per annum in value. Meantime the importation of manufactured silks has fallen rapidly, that of 1890 being \$38,656,374 and that of 1898 only \$3,524,110.

THE DILEMMA THEY ARE IN

The army investigation at Washington is conducted by honorable men. They represent both the Democratic and Republican parties. No commission of similar character has ever been so thoroughly nonpartisan, and yet the newspapers that have industriously, and to the sacrifice of truth, abused the McKinley administration for its management of the war, question their honesty. It is a pitiful exhibition of the unjustness of accusers. Their accusations, at the very outset, proved false by such distinguished soldiers as Generals Wheeler, Lee, Boynton and others, they mildly place these men in the light of concealing truth. They now cry out call the newspaper correspondents and managing editors, the very men who are indirectly on trial for circulating exaggerated reports and who more or less have been moved to prepare false statements of war management in order to sell papers or satisfy personal likes and dislikes, since the stories of correspondents have been proved unreliable, what weight can be attached to their testimony under oath? If they tell the truth to save themselves from perjury, they must belie their newspaper reports; if they sustain their reports they place themselves in opposition to the manly, soldierly and lie demolishing testimony of Wheeler, Lee, Sternberg, Greene, Boynton and a long line of other honorable witnesses. Call the newspaper men by all means.

Constipation prevents the body from ridding itself of waste matter. De Witt's Little Early Risers will remove the trouble and cure it. Headache, Biliousness, Inactive Liver and clear the complexion. Small, sugar coated, don't gripe or cause nausea. For sale at Culver City drug store.

An Old Pioneer Passes Away.

Mrs. Esther Bulla-Vanschoiack was born near Richmond, Ind., July 16, 1820. Was married to Loudon E. Vanschoiack, March 27th, 1838, and died Oct. 18th, 1898. Moved to Marshall county, February, 1862. She was the mother of 12 children, eight of whom are living, who with her aged husband mourn their loss. She united with the Christian church in 1840, and has lived an exemplary life.

AN EXAMPLE FOR CARSTENSEN.

Major John O. Martin, chief surgeon of a brigade of the First corps, was as frisky in talking about the drinking water at Chickamauga, as Chaplain Carstensen was in his talk concerning the surgeons and hospitals there. What the major afterward wrote will apply to nearly all tales of camp horrors and suffering. His letter is a model of humble retraction and admission that he lied. Under date of July 16 to the assistant adjutant general at Camp Thomas, Major Martin wrote: "I desire, and do retract, each and every word spoken to General Boynton during a private conversation held in the Read House, Chattanooga, Tenn., on the evening of July 14, believing it best for myself and for the interests of the public service." "Believing it best for myself" is a very suggestive expression. Chaplain Carstensen and the other horror promoters are informed that there is no copyright on it.

Attention!

OWING to the Continued Increase of my Business in Plymouth

I WILL BE

Unable to Make a weekly visit to CULVER, as I have been doing, but to accommodate the people of Culver I have made arrangements with Mr. CON BONAKER to forward work to me by express to Plymouth, and I will attend to it promptly and forward to Mr. Bonaker at once.

MILLIONS OF BUSHELSTAND-ING IN THE FIELDS.

Rain and Snow in North Dakota and Manitoba Threatens to Destroy the Entire Unthrashed Crop—Northwest Farmers Are in Despair.

Reports from the wheat fields of North Dakota and Manitoba are of the most discouraging character. It has been either raining or snowing for nine days. In Manitoba only about 8,000,000 bushels of wheat of a crop of 26,000,000 bushels has been thrashed, and the balance, standing in stacks and shocks, is threatened with destruction.

The rain and snow throughout the Red river valley and North Dakota caught many of the farmers with their grain unthrashed, and the present prospect is that much of it will remain in the stack until spring. This is especially the case in the interior townships and localities at a distance from the railways and villages.

Samples of wheat brought to Minneapolis which had been exposed to the rain were so thoroughly bleached and swollen as to resemble the Washington and Oregon product. Such grain will have to be dried out and cleaned before its value can be determined.

The bad weather has very materially affected the general movement of the crop. Farmers are unable to come to market, and the elevator men cannot handle the crop expeditiously.

TORPEDO-BOAT KILLS SEVEN.

Trial Trip of the Davis Near Portland Results in Explosion. Seven men were killed by an explosion on the torpedo boat Davis, which was making her official trial trip on the Columbia river Thursday.

The Davis started from Walker's island to run two hours at a minimum speed of twenty-two knots. Everything went well until Skamokawa was reached. Suddenly an explosion occurred and the engine room was filled with boiling water and steam, enveloping the men at work in it.

The Davis was built by Wolff & Zwicker of Portland and this trip was to be the final one for acceptance by the Navy Department. The boiler was of tubular pattern and was designed to carry 250 pounds of steam pressure.

RUNNING DAY AND NIGHT.

Minneapolis Mills Break All Records in Making Flour.

The Minneapolis flour mills are engaged at present in breaking all previous records, and the wheels are whirling night and day, Sundays not excepted.

BLANCO WAS IN A PLOT.

Attended to Proclaim Spanish-American Republic in Cuba.

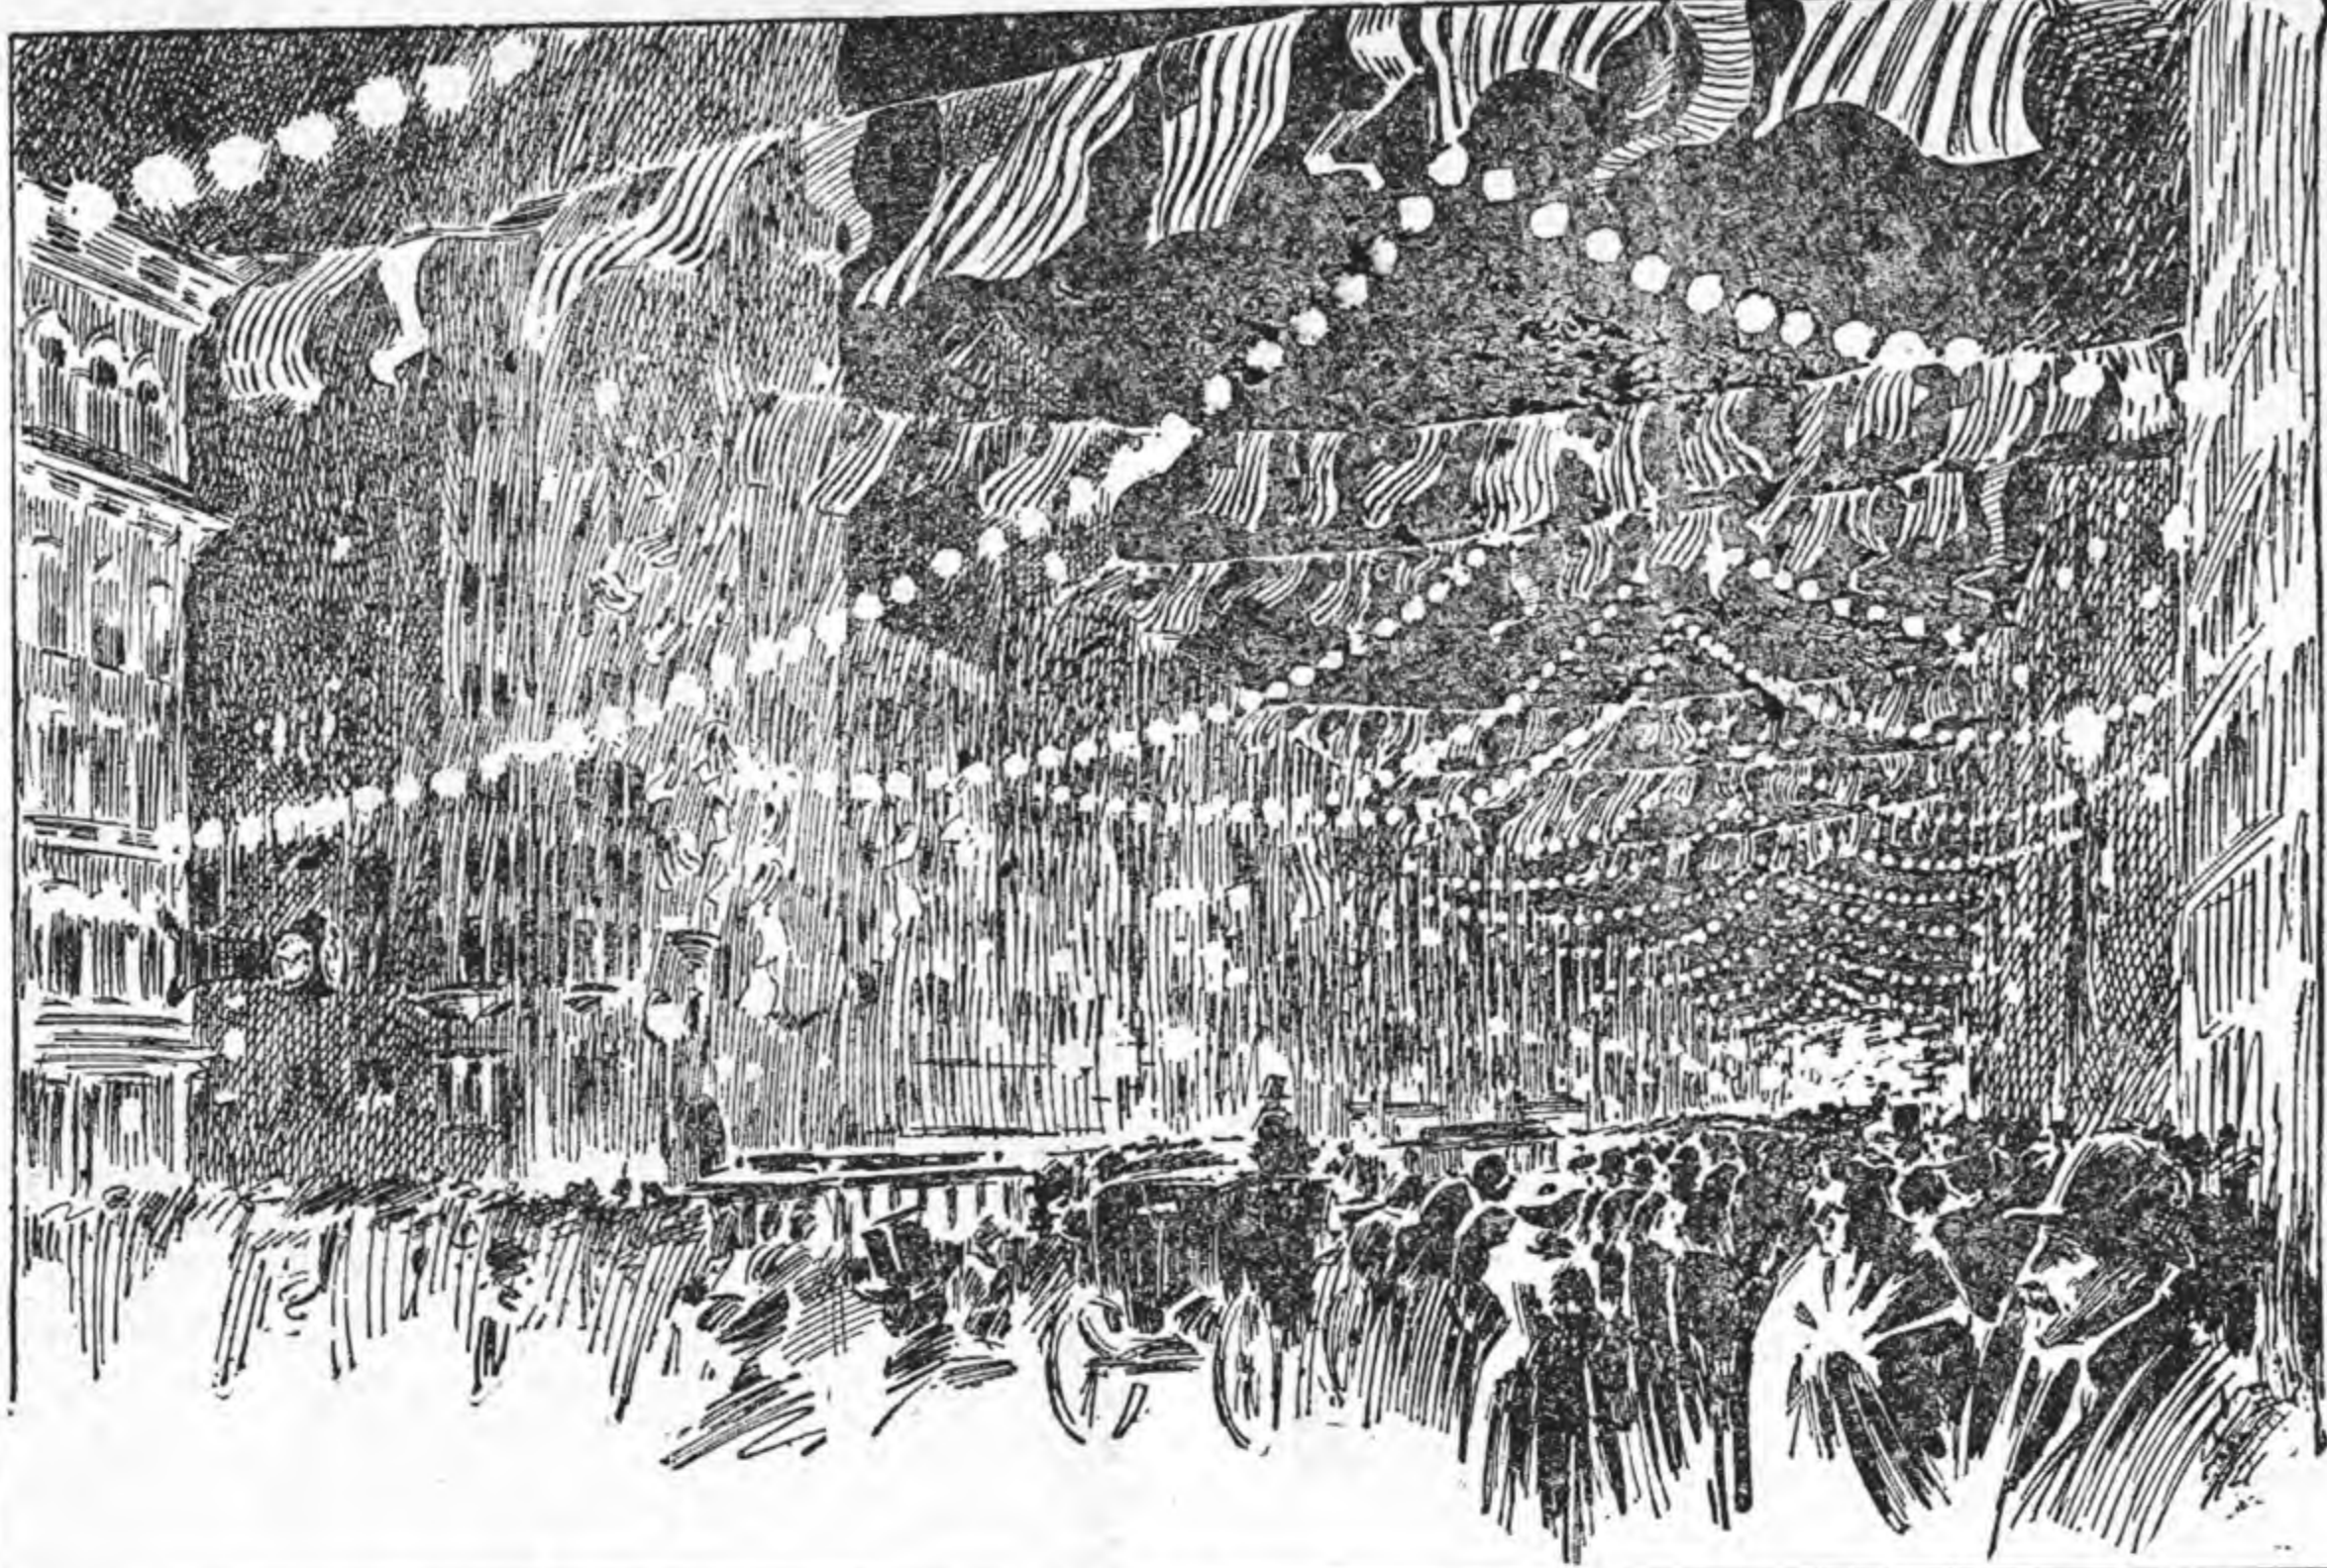

According to a private telegram received in Washington from Havana, Captain General Blanco, Gen. Pando and other prominent Spaniards had, at the time of the surrender of Santiago, organized a plot to proclaim a Spanish-American republic in Cuba.

Egyptian Geological Survey.

For more than a year now the Egyptian Government has been carrying on an important geological survey in the mountains along by the Red Sea and in the Sinai Peninsula. English geologists are engaged in the work, and their duty is to investigate the mineral possibilities of the country, report on matters of archaeological interest, draw maps, etc.

Compressed Air Motors.

Compressed air as a motive power is to be practically applied very soon in New York on a somewhat extensive scale. By the last of February some twenty-two cars will be put on the lines handling the West Twenty-third and East Thirty-fourth street ferry traffic, all propelled by this power.

CHICAGO'S PEACE PARADE.

Great Military and Civic Display a Climax to the Jubilee Festivities.

The crowning spectacular feature of the week's peace jubilee celebration in Chicago occurred Wednesday, when the great military and civil parade passed through the streets of the business section, and was reviewed from a stand in front of the Union League Club by the President, Gen. Miles, Shafter and Chaffee, Secretary of Agriculture Wilson, the Chinese and Korean ministers and other dignitaries.

The weather was very disagreeable, threatening rain at any moment, with a cutting wind from the lake, which chilled the sightseers not extra warmly clothed. But these things seemed to have no effect on the numbers and enthusiasm of the throngs which packed the sidewalks throughout the entire line of march, filled the numerous stands and every available point of view from the windows and roofs of tall buildings on either side.

At 9 o'clock in the morning the police hustled every vehicle off the streets, including the street cars, in the entire district between Van Buren street on the south and the river on the north, the lake on the east and the river on the west, and they were kept off till the parade was over.

BALL NETS A LARGE SUM.

Needy Soldiers Will Benefit from Chicago's Society Function.

Twenty-two thousand dollars was raised for the families of the soldiers and sailors who are in straitened circumstances as a result of the late war by the Chicago jubilee ball at the Auditorium. It was a brilliant and enthusiastic society function, graced by the presence of the President of the United States, army and navy heroes, and many other notables.

SKINNING HUMAN BODIES.

Excitement at San Francisco Over Doings of Medical Students.

San Francisco is somewhat excited over the revelations concerning the skinning of bodies at the Cooper Medical Institute, the medical department of the State University, and the dissecting room of the city and county hospital.

MIXED FLOUR AGAIN DEFINED.

Revenue Bureau Modifies Regulations of Manufacture.

The internal revenue bureau has issued a circular modifying the regulations governing the manufacture and sale of mixed flour. Under the new ruling wheat flour must be the principal constituent in the mixture.

DEWEY REMAINS ON GUARD.

Was Asked to Go to Paris, but Will Stay at Manila.

Secretary Long said that the reports that Admiral Dewey would return to the United States were erroneous, as the Navy Department had no such information. It has been suggested to Admiral Dewey several times that he go to Paris to advise the American peace commission on the situation in the Philippines, but he has adhered to his purpose to remain at Manila until the Philippine question has been settled or all danger of trouble there has passed.

NABS A BAD GANG.

Sheriff After a Desperate Battle, Captures Kansas Robbers.

After a desperate fight, lasting nearly three hours, Sheriff Mackey of Salina County, Kansas, and his posse of five deputies made the most important capture of bank robbers that has been made in years. The officers believe they have the gang that has been causing so much trouble all over the State, especially the western part, within the past two months.

Each party was partially sheltered by trees, and over 300 rounds of ammunition were used. The battle took place in the edge of the timber just out of Salina, where the robbers, who were mounted, had been to purchase feed and ammunition. Sheriff Mackey called to the robbers to halt, but they returned his request with a volley which felled the sheriff's horse.

NAVY IN NEED OF MORE MEN.

Department Wants to Re-Establish the Foreign Stations.

The Navy Department is hampered in its desire to re-establish the foreign naval stations by the limited number of full-term men in the service. The enlisted force now includes about 8,000 men, who enlisted for the war only, and it is necessary to keep them on the North Atlantic or home station on account of the probability that peace will soon be officially declared, and they will be entitled to their discharge papers.

BANK DOORS CLOSED.

German National of Pittsburg Goes Into Liquidation.

The German National Bank of Pittsburg has closed its doors. The directors, in a public statement, announce that the bank is solvent and that all depositors will be paid in full. The suspension of the bank can be traced directly to two causes—the carrying of too many securities of the Natalie Coal and Coke Company and heavy loans to Charles Burkdorf, until recently cashier, and Adolphus Grotzinger, the present president, on insufficient collateral.

WILL NOT FREE SPAIN.

America Recognizes Only Cuban Municipal Indebtedness.

The American peace commissioners have been instructed to recognize and give standing to Cuban municipal indebtedness. This is not an important matter from a financial standpoint, as the amount cannot be large, but it is peculiarly significant in view of the stand taken by the commissioners in regard to the so-called "Cuban debt." They rejected the Cuban debt proposition largely on the theory that the money represented by the bonds was not expended for the benefit of the people of the island, and, therefore, should not be a burden on the new Government.

STORM HAMPERS FARMERS.

Plowing and Thrashing Stopped by the Snow and Rain.

Reports from Dakotas say farming operations are much impeded by snow and rain. Reports from Minnesota had twenty consecutive hours of snow and rain. Thousands of acres of wheat and flax are still in shock, and the fields are so soft that machinery cannot be moved. It is too wet to plow, and less than 50 per cent of the plowing is done.

EPIDEMIC NEARS ITS END.

Back Bone of the Yellow Fever in Mississippi Broken.

The force of yellow fever in Mississippi is broken, and if the weather remains cool next week will mark the end of the epidemic. Small towns are discarding the shotgun and quarantine guards are looking for other work.

BRINGS \$3,750,000 IN GOLD.

The steamer Mariposa arrived in San Francisco from Australia and Honolulu. She brought 735,000 English sovereigns, equal to about \$3,750,000, the largest single shipment of specie which has yet been received from Australia.

AS USUAL.

Mr. Coal—"Going down?" Mr. Mercury—"Yep." Mr. Coal—"They 're going up."

NEBRASKA, IOWA AND OTHER STATES REPORT A SEVERE STORM.

One of the most extraordinary storms that ever disturbed the Western country prevailed Monday night. Though the mercury never passed the freezing limit the storm was accompanied by such a hurricane that in many respects it resembled a midwinter blizzard. Not in the memory of the oldest inhabitant of Nebraska has such a storm occurred so early in the season.

The snow was so heavy as to cut off all telegraphic communication with Chicago. North Platte showed a temperature of 34, with no precipitation. Dodge City, Kan., had 32 degrees, with a killing frost; Santa Fe had 34 degrees, a killing frost, and clear; Cheyenne, Denver and Pueblo each had 26 degrees, with clear weather, and Sioux City reported a forty-mile wind and cloudy weather.

The unexpected snowstorm hit the army posts in the Department of the Missouri very hard. With the volunteer soldiers equipped only with summer clothing, they were in no condition to meet the cold weather.

The coldest October shown in the record of twenty-eight years in the Omaha weather office was in 1873, when the mean temperature was 48. The lowest temperature recorded in the month during that period was 16 degrees on Oct. 25, 1887, and the heaviest snow for the month was four and one-half inches on Oct. 29, 1894.

PORTO RICO IS ADOPTED.

Formal Surrender Makes the Island Part of the United States.

At noon Tuesday the United States flag was raised upon the captain general's palace at El Morro, San Juan, Porto Rico, and the final ceremony of the delivery of the island to the United States Government was performed. National salutes were fired by the American artillery, and there was a special musical celebration which was attended by all the insular officials and the foreign consuls.

It was originally intended to have the ceremonies in connection with the formal taking possession of an elaborate nature, but this plan was abandoned. Considering the enfeebled condition of the troops and the intense heat, it was decided to have no military review. The formal surrender therefore consisted simply of the lowering of the Spanish flag over the governor general's palace and the raising of the flag of the United States, while a salute of forty-four guns boomed in the harbor and martial music filled the city.

CURRENT COMMENT.

Since their pigtails are safe for some time to come the Chinese have ceased to squeal.—Pittsburg Post.

The emancipated Cubans are reported to be waiting with the utmost patience for the millennium to come to them.—Philadelphia Ledger.

Denmark's queen died of old age. If all the European monarchs could be sure of such a fate they would doubtless rest easier.—Boston Globe.

It ought to be understood at the start that the battleship Missouri is not to be christened with a bottle of St. Louis 30-cent champagne.—Kansas City Journal.

Whatever the facts about the Chinese Emperor and European clothes, the result shows what may happen in households when women begin to wear the breeches.—Philadelphia Times.

The slowness with which the facts regarding the death of the emperor of China come to light would indicate that the Kansas City police are working on the case.—Kansas City Journal.

Only about one-fourth of Canada's citizens voted on the prohibition question. It looks as if lining up to the bar of public opinion in this matter had no charms for them.—Philadelphia Times.

The announcement that our peace commissioners spent their time Sunday in Paris by going to meeting would rather seem to show that they haven't yet got quite acclimated.—Boston Herald.

Hobson's Latest Victory. Hobson has evened up matters. He sank the Merrimac, and now he has raised the Maria Teresa to the surface.—Kansas City Star.

Now that the Maria Teresa is on top of the water again, waving the Stars and Stripes, she may be expected to live down her past.—Chicago Record.

Lieut. Hobson's father will note with much satisfaction that the young man has imparted some of his good raising to the Maria Teresa.—Chicago Tribune.

Lieut. Hobson has shown that he has constructive, or conservative, as well as destructive ability by the recovery of the Infanta Maria Teresa.—Philadelphia Times.

China's Royal Puppet. Now that the Emperor of China has been martyred, it is easier to think of him as a true reformer.—St. Paul Pioneer Press.

Results in his case would go to show that the Emperor of China's drinking doesn't at all presuppose having a royal time.—Philadelphia Times.

TWIN LAKE ITEMS.

Next Monday is Halloween. Don't tell the boys.

John Nichols is erecting a new barn on his farm.

Gilford Kimmel contemplates moving to Sligo next Monday.

The Dunkards will hold their annual love-feast at their church the 28th inst.

The rains have a tendency to draw large crowds at the grocery store.

Mr. A. Seider shipped two of his famous hunting dogs to Akron, Ohio. They are of the Beagle hound variety.

Mrs. Mary Buchtel returned last Sunday from a few days visit in Chicago.

Overcome evil with good. Overcome your coughs and colds with One Minute cough cure. It is so good children cry for it. It cures croup, bronchitis, pneumonia, grippe and all throat and lung diseases. For sale at Culver City Drug store.

The sooner a cough or cold is cured without harm to the sufferer the better. Lingering colds are dangerous. Coughing cough is distressing. One Minute Cough Cure quickly cures it. Why suffer when such a cure is within reach. It is pleasant to taste. For sale at Culver City Drug store.

Messrs. Robert Smith and Elvin Thompson returned from Dakota last Saturday night where they have been employed during the summer.

When you ask for De Witt's Witch Hazel Salve don't accept a counterfeit or imitation. There are more cases of Piles being cured by this, than all others combined. For sale at Culver City drug store.

Chas. and Ernest Holem heard a political speech at Plymouth last Friday night.

Late to bed and early to rise, prepares a man for his home in the skies. But early to bed and Little Early Riser, the pill that makes life longer and better and wiser. For sale at Culver City drug store.

Miss Mary Seider is employed in Plymouth as servant girl for Mr. Cleveland.

Miss Lillie Frank has returned from a few week's visit in White Pigeon, Mich. On her return she was accompanied by her cousin, Miss Lulu Schmidt.

A Cough is not like a fever. It does not have to run a certain course. Cure it quickly and effectually with One Minute Cough Cure, the best remedy for all ages and the most severe cases. We recommend it because it is good. For sale at Culver City drug store.

Church began at the Trinity church last Sunday night to continue through the week. They will hold quarterly meeting Saturday and Sunday.

Talk about sports! Frank Holem of South Bend and Sidney Swigert of Michigan were out hunting one day last week and shot 17 ducks and shot them all on the wing but one. We consider that good for boys.

Morris Agler is grandpa. His daughter, Mrs. David Grossman of Rutland, gave birth to a son. This had a tendency to make Mr. Agler proud. He felt so elated, that he treated the boys at the grocery.

J. Excursion to Chicago via Nickel Plate Road, Thursday November 10th, via special train, arriving in Chicago 8:35 p. m. Rates extremely low. Five day return limit. 249w2  
Special Train Excursion to Chicago via the Nickel Plate Road, Thursday, Nov. 10th. Ask the agent for low excursion rates and time. 251w2

# The Finger Point to the hour when the same old Of Time
