**Somehow or Other.**  
Life has a burden for every one's shoulder—None may escape from its trouble and care:  
Miss it in youth, and 'twill come when we are older,  
And fit us as close as garments we wear.  
Sorrow comes into our lives uninvited,  
Robbing our heart of its treasure of song;  
Lovers grow cold, and our friendships are slighted,  
Yet somehow or other we worry along.  
Every-day toil is an every-day blessing,  
Though poverty's cottage and crusts we may share:  
Weak is the back on which burdens are pressing,  
But stout is the heart that is strengthened by prayer.  
Somehow or other the pathway grows brighter  
Just when we mourn there is none to befriend;  
Hope in the heart makes the burden seem lighter,  
And somehow or other we get to the end.

Who said that we would not have ice? Why, we have it to burn.  
Farmers' Institute convened at Plymouth the forepart of this week.  
Bert Shepherd, of Kawanna, was calling upon friends in Culver Wednesday.

What's the matter with the M. E. church choir? It don't seem to materialize very extensively of late.  
Mrs. Samuel Buswell is upon the sick list, consequently her leige lord will have to run the baking establishment, and does it successfully.

Rev. Fraley preached an excellent sermon at the M. E. church upon the subject "Prayer" last Sunday evening.

Mr. and Mrs. John Osborn, of Logansport, have been visiting friends in this city the past three or four days.

Enoch Mow has been in Plymouth the past week superintending the care of a large number of horses which will be offered for sale at Plymouth soon.

Flora Keller and John Walley have just completed a trussel bridge across the outlet of Lake Maxenkuckee. Anyone desiring any work in this line should give the boys a call.

We hear that Chas. Hutchins, who is sojourning in North Dakota this winter, came near freezing to death recently while driving from one town to another, in fact did freeze some parts of his body. He writes that the thermometer registers 44 below zero in his section.

Remember that on next Sunday morning services will be held at the M. E. church. In the evening will be the inauguration of a series of meetings, and as a young lady evangelist of note is secured to assist in these services, great good may be accomplished.

We understand that the Ridiculous Club contemplates putting a play upon the boards in the near future. It is to be one of rare merit, and as the club has "good timber" there is no doubt but what our citizens will receive a rare treat in the comedy or dramatic line. "So mote it be."

Arrangements have been made by the Evangelical society of this section to build a new church at Culver, and for that purpose over 1,000 dollars have already been raised. Work will be commenced upon the same just as soon as the weather will permit. Our citizens when called upon should be liberal with donations of cash, as every church erected in a community tends to better the moral condition of the people. No one will deny that the church has been the great factor which brought America to its present exalted position among the civilized nations of the earth.

## ACADEMY LOCALS.

**What the Cadets Are Doing this Week.**

Cadet Capt. Middendorf is on leave for a few days.

Miss Bodine, of Paris, Mo., is visiting Captain and Mrs. Glascock at the "Loost."

Mrs. A. A. Sauerman, of Crown Point, Ind., is visiting her son, who is ill with the grip.

Capt. Greiner has been slightly indisposed, but we are glad to say that he is convalescing.

Mrs. J. C. Maclean, of Hancock, Mich., who has been visiting her son the past two weeks, left for her home in the northern Peninsula, Thursday.

One of the attractions in the coming minstrel performance, is said to be a very clever acrobatic exhibition by cadets Blow and "Little" Mc-Neeley.

Target practice has been omitted, and for the first time in two years, the sentinel on first post has been relieved owing to the very cold weather.

We understand that Cadet Capt. Grover is to be the orator of the day on February 22. His subject is the Spanish-American War. He is an excellent student and will undoubtedly handle his subject well.

The walls for escalating have been completed and the boys are improving wonderfully in this department of military instruction, as the participants are extremely delighted with the work.

Mr. and Mrs. Turpie, of North Platte, Nebraska, paid their son a visit a few days since. Mr. Turpie is one of the largest land owners in the west, as his farm contains in the neighborhood of 36,000 acres.

Dr. Bernard Bigsby of Detroit, delivered his charming lecture, "Dr. Arnold and Rugby" to the corps of cadets last Friday evening. He is a charming speaker and a great favorite with the boys and was very enthusiastically received.

Cadet Capt. Morris has resigned from the academy, an oculist forbidding him to use his eyes for a period of six or eight months. He was an excellent officer and will be greatly missed. There is considerable conjecture as to who will be his successor.

Dr. Chas. R. Henderson, professor of Sociology in the University of Chicago, preached to the cadets Sunday morning, his subject being "High Ideals," from the standpoint that the man of God may be perfect. The Dr. is a fluent speaker and was listened to with marked attention.

Another new cadet was admitted to the school this week; a Mr. Miller from Canton, Ohio. The advent of this gentleman leaves room for only one more cadet, and that will be filled before the end of the week as there are several applications on file.

The classes are assuming a definite organization relative to the year of graduation. The members of the first class are usually known, but owing to the diversity in studies there has been some haziness as to who the second class men were. But recently, Capt. Glascock has dispelled this mist of uncertainty and the banner of the class of '00 or 1900 has now its definite adherents who hope to receive their diplomas one year from next June.

Challenges from Wabash College, DePauw University and University of Indiana, for base-ball games have been received. It is not often chronicled where great universities recognize academies as being in their class, but the remarkable and almost unprecedented work of our foot ball team last year is accountable for this recognition, for truly the pig-skin kickers taught all comers a lesson that made its lasting impression. As soon as the weather will permit active practice will commence. It is also hoped that a game will be arranged with the University of Michigan or the University of Illinois. There is pre-excellent material for a good team.

Preparations for the celebration of Feb. 22, are progressing rapidly. There is to be a minstrel performance on Monday and a dance on Tuesday evening. A declamatory contest is one of the attractions, and an athletic meet, one open to the smaller cadets and one to the larger. Lieutenant Floyd has in charge a competitive shoot at the indoor target, and Capt. Kiler is arranging for a game of indoor base-ball between the wings of the battalion. Cakes are offered for prizes, and the skill of the new cook is such, that many entries are expected.

EVERY WEEK.

One hundred good envelopes, with your return card printed upon the same, can be procured at this office for 50 cents.

Herman Seyferth has been having a pretty tough time at Fort Meade. He has had a relapse of the fever and part of the time was delirious, requiring two or three attendants to keep him in bed. At last reports he was improving slowly but suffering greatly from bed sores. As soon as he is able to leave the fort he will no doubt receive an honorable discharge. The war is over but many a poor fellow will never get over the effect of that miserable fever contracted in Cuba.

A story sent to the Indianapolis Sentinel from Washington claims the discovery of a new use for electricity that will surprise the world when it is made public, which is to be done in a few days, as soon as some patent affairs are completed. A New York lawyer of national reputation is said to have the matter in charge. In an interview with the Sentinel representative Sunday this lawyer made the modest claim that by the new discovery a current of something like a million volts can be passed through the human body, destroying all disease germs of every kind and causing no ill or unpleasant effect or sensation to the subject. He declared that the discovery will absolutely cure consumption and all other diseases. It sounds even more fishy than Nickum's light story.

The National Advertiser tells a story of an old bachelor who bought a pair of socks, and found attached to one of them a slip of paper with these words: "I am a young lady of 20 and would like to correspond with a bachelor, with a view to matrimony." Name and address were given. The bachelor wrote, and in a few days got this letter: "Mamma was married twenty years ago. The merchant you bought those socks from evidently did not advertise or he would have sold them long ago. Mamma handed me your letter, and said possibly I might suit you. I am 18 years old."

The great temperance drama, "Ten Nights in a Bar Room," was played by a home talent company at Poplar Grove church last Saturday evening, under the direction of that great dramatic critic Sol Cavender, of Rutland. The play was for the benefit of the church, and it is said that the company did exceedingly well.

The Maxenkuckee Lake Ice Co., has succeeded in filling all six of their houses with the finest of ice. They finished work at 4 p. m. Monday. S. E. Medbourn estimates that they have fully 15,000 car loads in the houses. We learn that after 9 a. m. Saturday, they will be ready to pay all wages due and many homes will thus be made happy.

Dr. Henderson, of Chicago University, made the C. M. A. an official visit Sunday. Dr. Henderson will be remembered as the Chaplain of Chicago University, and author of two well known works in Sociology, "Social Elements" and "The Social Spirit in America." The former is used by the Indiana Teachers' Reading Circle and the latter by the Chautauqua Literary and Scientific Circle.

The United States is commencing the introduction of her 19th century civilization into the Philippines with large consignments of lager beer. One agent for an American firm sold 5,000 barrels to the various saloons in Manila in one day. One regimental canteen took in \$1,700 in one day. A lot of soldiers under the influence of liquor will not inspire the natives with much respect for the United States. Nearly all the business houses on one street are saloons. Hundreds of gamblers and bad women are flocking there to civilize(?) the the Filipinos. We believe it is in the play called the "Black Flag," where one of the characters acts so diabolical, that a Jew exclaims that if that is the way Christians do, he is mighty glad that he is a "Sheeny." If things go on at Manila at their present rate, some good Filipino may soliloquize similarly.

**La Grippe Successfully Treated.**

"I have just recovered from the second attack of la grippe this year," says Mr. Jas. A. ones, publisher of the Leader, Mexia, Texas. In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting down." For sale by Culver City Drug Store. 2711m.

**Dangers of the Grip.**

The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for la grippe we have yet to learn of a single case having resulted in pneumonia which shows conclusively that this remedy is a certain preventive of that dangerous disease. It will cure la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by Culver City Drug Store. 3111m.

**Get in Somewhere.**

MR. EDITOR.—For years I have made church work a study, and although I really have accomplished but very little for the Master, I have the full and complete knowledge that he is my Savior, and this fact is the only beacon light that guides my faltering footsteps along the narrow way. Hence, I love the church and its people, and the fact so many are out of the church is one of those mysteries hard to solve; which reminds us of the following:

One Sunday morning as the people were returning from the churches, a seven year old boy with his grandma at the window stood watching. She was pointing out her friends, saying, that one is a Baptist, the other a Methodist etc. At last he said: "and where do you belong?" "No where" was the reply. "Well grandma," came the grave rebuke, mingled with advice. "If I were in your place, I'd get in somewhere." Many Culver people have no church home, indeed never darken the church door, unless at a funeral. Surely this is a serious mistake. The church is the noblest of all civilizing institutions. It is worthy of the best thought, love and service of every one. Parents should see to it that their children are brought up under the influence of a Christian church and Sunday school. The church has given a grand uplift to womanhood, and the women as a rule appreciate it. But the men hold aloof. They say, "Oh the church is all right for the women and children but I don't care about it. I'll stay home and take care of the baby and get dinner," and many such like excuses. The men need the church and the church needs the men.

Many men seem to feel it a sign of weakness to be a church attendant. But the opposite is the real truth. Postmaster Gen. Wannemaker said: "It will pay any man to be a regular church attendant." Some of the best and busiest business men of the country not only regularly attend, but are the most active workers. President McKinley is seldom from his place in God's house. Let everybody, "Get in Somewhere."—A CHURCH MEMBER.

Chapel Hall, at Valparaiso, is next to the largest hall in the state of Indiana, having a seating capacity of 2,500. Tomlinson Hall, at Indianapolis, being the only larger one, it having a seating capacity of 5,000. The opera house at Terre Haute, seats 2,200, being next to Chapel Hall.

These are dangerous times for the health. Croup, colds and throat troubles lead rapidly to Consumption. A bottle of One Minute Cough Cure used at the right time will preserve life, health and a large amount of money. Pleasant to take; children like it. Culver City Drug Store. 3111m

# Shoeing

the feet of our friends is the most pleasant business on earth if we fit them with shoes that give comfort—that "make the feet glad." Just the opposite is true if the shoes are poor in fit and quality. We've learned that there's only one way to success in the shoe business and that way is proved by the class of shoes you'll find at this progressive store.

Give us a chance to fit you, and we'll do it to the Queen's taste. We have taken no chances. Our shoes come from America's foremost foot fitters.

Still Fighting.

Aguinaldo, the Filipino chief is a fool. He fought the measly Spaniards for years with no show of success, and yet has the nerve to tackle the United States, which subdued Spain in less than four months.

O. K. Davis, who has been a correspondent for the New York Sun, and who is thoroughly conversant with the situation in all its phases says:

"The battle is due wholly to the failure of the administration to announce a policy regarding the Philippines," said Mr. Davis to a reporter for The Inter Ocean. "The hostility of Aguinaldo and his followers is due almost wholly to this fact."

Uncertainty Causes Trouble.

"It is not hostility to American rule that they feel so much, but a fear that the United States will withdraw and leave the Spaniards in possession of Manila. They simply will not endure such a proceeding, and much of their tenacity in holding their lines has been due to a determination that Spanish rule should not be restored in Manila."

"Aguinaldo and all his officers, and every commission appointed to confer with Americans on any subject whatever, impudently told the United States officers to tell them what their ultimate intention was."

Suspicious of Treachery.

"Their experience in trusting to the honor and good faith of the Western people, with whom they have come in contact, has not been so happy as it might be, and they cannot understand why it is that they are kept in the dark."

What Next.

It does seem as though the seedsman would stop somewhere, but here comes a work of art. Think of it, twenty four pages lithographed in colors, not gaudy chromos, but from lithographs in colors, upon an entirely new plan.

For La Grippe.

Thomas Whitfield & Co., 240 Wash. av., corner Jackson st., one of Chicago's oldest and most prominent druggists, recommends Chamberlain's Cough Remedy for la grippe, as it not only gives a prompt and complete relief, but also counteracts any tendency of la grippe to result in pneumonia.
