## LOCAL BREVITIES.

Otto Stahl made Plymouth a visit Monday.

Miss Elsie Walter made Plymouth friends a visit Tuesday.

D. A. Bradley and wife spent Sunday with friends at Plymouth.

W. S. Easterday and wife visited friends at Knox, Monday.

W. S. Easterday has just received a splendid line of new rockers.

Two fine cash registers have been placed into the Kreuzberger Park saloon.

Mrs. Mattie Robbins, of LaPorte, formerly of this city, died last Saturday. She was a sister of Mrs. Sidney Flagg.

Walter Knapp and friends from Danville, Illinois, Terre Haute and other cities, are at Long Point enjoying a few days fishing.

We received some very interesting items from Maxenkuckee this week from an unknown writer. We hope that he will continue the good work.

The Methodists will hold regular preaching services at the Reformed church next Sunday at 11 a. m. and 8 p. m. All are cordially invited to attend.

Walter W. Miller, of Chicago, who is connected with the Continental National Bank, is in town. He will spend two weeks with relatives.

The old Evangelical church has been torn down and the suitable lumber, timber, etc., have been hauled to Culver which will be used in the new church, which is now being rapidly pushed, and it is hoped that by the last of July it will be ready for occupancy.

Have you seen that new line of furniture at Easterday's, yet? He has all the latest novelties in furniture, and some very handsome bedroom sets. In a variety of chairs he cannot be excelled. Everything warranted first-class and prices reasonable.

The prospects for a good fruit season are very fine say leading horticulturalists. The long cold winter and late spring prevented the buds from premature development and there is no danger now, hardly from a late frost.

William Swigart unloaded a car load of furniture Tuesday, and conveyed it to the T. H. Wilson cottage. We understand that Mr. Wilson and family, who are from Logansport, will come to the lake next week for the summer.

It's time for excursions.

April went out like a hot tamale.

Aginaldo asks for two weeks in which to catch his breath.

The assessor is making his annual call on the people.

A wealthy Henry county man committed suicide because taxes were too high.

The Vandalia repair gang is in town making repairs upon the railroad grounds, R. R. Cottages, etc.

The LaFayette Journal very truthfully says: "The people must smash the trusts or the trusts will smash them."

The attorney general says that the powers of the township trustees as to poor relief are not affected by the county reform law.

The supreme court will be asked to decide if the law making it a criminal offense for employers to discharge or refuse to employ a man on account of his connection with a labor union, is constitutional.

Everybody is invited to attend the commencement exercises this Friday evening, but are respectfully requested to leave their children at home. The church will be crowded with people who can understand; hence the room should not be occupied by children. Com.

D. R. Avery has moved his furniture into the Kreuzberger restaurant building at the park and will probably have the same in running order this week or the first of next. He will run a first class restaurant and ice cream parlor.

Miss Ramona Slattery was five years old last Friday, and in honor of the occasion, she invited a number of her little friends to meet at her home and celebrate the event. Refreshments and ice cream were served, and the little "folk" enjoyed themselves immensely.

Rev. Skinner and wife, of Arcola, Illinois, were in town last week and the fore part of this week, visiting friends. Mrs. Reuben Kaley, who lives south of town, is mother to Mrs. Skinner. The Rev. gentleman was chaplain of the Fourth Illinois volunteers in the late Spanish-American war and his wife was a matron in the hospital, while their son was a private in the same company. Sunday Rev. Skinner gave a very interesting talk to the children of the Epworth League, concerning the children of Cuba and the natives in general.

Last Saturday the Sunday school convention which was held at the Reformed church, was well represented by delegates from every school in the township. The day and evening sessions were well attended, and the discussions were ably conducted, and afforded much valuable information relative to Sunday school work. The address of Mrs. Hume, of Plymouth, was especially appreciated, as it contained rare gems of thought and suggestions concerning the great work before the convention. All in all, it was a glorious meeting and will result in great good.

What is the reason that one night in the week cannot be utilized by the Culver City Columbian band giving a grand concert? Make this an especial event to call the people to our city. Those from this city, who attended the band concert at Argos last Tuesday evening, report that the town was crowded with country people. Argos has made this special feature a success, and as they have no better band than Culver, why should we not walk in front of the procession? It takes a "get up and dust" spirit to accomplish these things, hence "get a move on."

Everybody is busy.

We have had some fine rains.

Commencement exercises to night.

Numerous strangers in town this week.

Born to Mrs. Clyde Sanders, Tuesday evening, May 2, a girl.

B. A. Sinn, of Plymouth, was calling upon friends in Culver Wednesday.

We understand a change of time for running trains upon the Vandalia will occur Sunday.

H. H. Dibble, of Plymouth and Charles Sarber, of Argos, have been invoicing the stock of goods in Kloopper's Culver store this week.

Mrs. Edwards was in Chicago this week buying new millinery goods.

Arthur Castleman and wife moved to South Bend Wednesday. He will work for the City Ice Co.

Bruce McMillen, of Bruce Lake, was in town Wednesday. He will be engineer upon one of the steamers during the summer.

Mrs. Oliver Morris and Mrs. B. F. Medbourn left for Logansport Monday, where they will spend a week with Mrs. John Osborn.

The "Old Reliable" blacksmith, William Wilson, is now better prepared than ever to repair buggies, wagons, etc. He is always at his place of business, and is reliable.

Hayes & Son, Culver's famous livermen, have added a line of excellent buggies to their stock. If you desire something fine in the way of "rigs," give them a call.

Last Sunday evening a youngster came to the home of Joe Castleman and signified (no preventing providence) his intention of staying there until he is of age. He is the sixth child and has no brother.

A town is known by the aggressive methods of its business men. Take the newspapers of any town and then look through the advertising columns and you can tell to a certainty whether the place is a live or dead one. If it is filled with good, catchy, sensible advertising you'll find trade going there from all the country around.

One of the features of the State G. A. R. encampment at Terre Haute, will be a reunion of Gen. Wilder's brigade, the General himself attending. Arrangements will be completed for the dedication of the monument at Chickamauga.

Just as soon as the real estate men of Culver and vicinity come down off their "high horse" and ask a reasonable price for property, just so soon will they find buyers. No man is going to pay three or four times more than real estate or anything else is worth for the sake of getting it.

The Presbyterian Sabbath school, of Plymouth, have inaugurated a Cradle Roll. This includes all infants of twelve months and over who are too young to attend Sabbath school. They are enrolled as members of the school. At Christmas they are recognized in gifts and each Children's Day the Matron in charge reports accessions, and all things relating to her department. It is a commendable feature and worthy a trial by all Sabbath schools.

While the fish commissioners are howling around about illegal fishing, why don't they get a "move on" themselves and bring some of the lawbreakers to justice? A commissioner could take a little pains and catch "dead to rights" some of those fellows that spear fish at their leisure upon the southeast side of Lake Maxenkuckee. Bah! It is forcing a law that counts.

Sylvester Zechiel is now employed with Ed Hand.

Clint Bondurant, deputy sheriff, was out in the country serving papers Thursday morning.

The Ladies' Aid Society of the M. E. church hold an ice cream social at the residence of W. H. Matthew Saturday (to-morrow) evening.

The new officers of the Union township Sunday school association elected Saturday are: President, F. C. Baker; Vice-President, W. S. Welter; Secretary, and Treasurer, Edith Scheurman; Superintendent of Home Class, Jacob Myers.

### Quarterly Conference.

The quarterly meeting services of the M. E. society which were held at the Reformed church Sunday morning, were well attended. Rev. C. L. Harper, who conducted the services, preached a most excellent sermon, at the close of which a large number partook of the Lord's Supper. During the services he very touchingly appealed to the members of the M. E. flock, to "walk up to the captain's office and pay their preacher," who needed his money, and emphasized the matter by stating that no pastor could properly preach an intelligent sermon while wondering where his next meal was coming from. He told them that Rev. Fraley was a most excellent young man, and one who deserves the aid and sympathy of all the citizens of the community; at least they should not let his salary run delinquent. There is one man at least that fully sympathizes with Rev. Fraley, viz: the HERALD man. Preachers, doctors and newspaper men run hand in hand, so far as the public is concerned. The doctor is sought after when sickness comes, but after the patient is well the physician is forgotten. A preacher will devote his time, energies and talents towards bettering the moral condition of a community, and gaze into an empty pocket book while accomplishing his labor of love. The newspaper man is supposed to publish all the news, pat the public upon the back, overlook all sorts of hypocrisy, and donate space and in many instances the paper, and receives in return nothing but kicks. Verily, this is a queer world.

### Maxenkuckee Items.

Mr. Edwin B. Parker has contracted with Mr. Albert Bogardus to tear down the old part of the Bay View House and to construct two modern cottages out of the new part of the building.

Mr. Milton Shirk and Mr. Bronell have divided their interests in the Peru Club grounds. The old club house has been moved to the north end of the lot to make room for a new cottage which Mr. Bronell will build in time for the coming season.

Mr. Willis C. Vagen has sold lot No. 4, the corner lot in Sea Beach place, to John C. Capron, of Plymouth, who will construct a new cottage upon plans considered during the past winter.

The finest cottage, more like a palace is now being built by Mr. Milton Shirk, on his extensive grounds, near the Maxenkuckee piers. This cottage will be new in every detail, having all the modern improvements.

The cottagers on the east side hope that the Culver Academy are disposing of its sewerage in a manner that will not affect the water in the lake or the healthy atmosphere in this locality. This subject needs attention.

All the cottage owners will report at the lake this season, the first time for several years. The coming season is sure to be a lively one, un-equaled by any in the past.

SERVICE OF THE 160TH.

Brief Summary of the Regiment's History by the Chaplain.

The 160th Indiana regiment started into active service under discouraging conditions, but notwithstanding them, has had an experience that has been both pleasant and profitable.

'The call for troops was issued April 23, 1898, by the President, and on the 25th of the same month Gov. Mount issued the call for the troops to assemble at Indianapolis, and by the evening of the next day 4,000 men were encamped within the inclosure of the fair grounds.

It was to embark for Porto Rico and came very near making the trip. An exhausting stay at Newport News was ended by the command being ordered to Lexington, Ky. On Nov. 9 the regiment was ordered to Camp Canby, Columbus, Ga., and from thence to Matanzas, Cuba, from which place it was ordered to Savannah, Ga., for muster out, which occurred April 25, just one year from the time the call was issued.

Those who first came to Camp Mount will not soon forget the discouraging circumstances of these few weeks, not the least of which was the regiment turning over its equipment to other organizations, whose good fortune, as it seemed then, it was to move first. Without guns and with scarcely a whole pair of trousers in a company the regiment presenting a grotesque appearance when the anxiously looked for start was made for the South.

Up to the time of the disappointment at Newport News, in being ordered to Lexington, the soldiers hoped to see real war. But from that time the spirit of the men was broken and the desire to return home became more and more intense. The order to Cuba was somewhat of a relief and compensated for the long wait endured.

And now that it is over I venture to say, it is looked back to as one of the most delightful episodes in the history of the regiment, and by far the most talked about. It not only gave the Hoosier boys an opportunity of seeing foreign service, but that of knowing something of a country and people about which they knew but little and which are destined to become part of this republic.

The greatest care was taken throughout the campaign to maintain cleanliness, a healthful diet and in short everything which could contribute to the best interest of the regiment. It could not be otherwise than that some animosities should be engendered. This doubtless was sometimes the fault of the officers, whose duty it was to exact military discipline, but who did it in an offensive, unnecessarily severe manner, but more frequently it was due to that independence to which the men had been accustomed in home life.

Short State Items.

Frederick Ross, aged 65, former Mayor of Terre Haute, is dead. The anti-booze rule is being rigidly enforced on the Lake Shore road. Barnes hardware store, one of the oldest stores in Anderson, closed by the sheriff.

This Government will not permit Nicaragua to carry out its threat to confiscate the property of the Americans who refused to pay double duty on goods imported. It appears the Americans paid the duty in good faith to the insurrectionists, who were in revolt, and when the revolution was put down a second payment was demanded by the recognized Government.

There is renewed talk of an extra session in the fall. Nothing has developed of a definite nature, but members of Congress who have talked with the President say he seems impressed with the magnitude of the work before the next Congress. There must be provided Governments for Hawaii, Porto Rico and the Philippines; preparations must be made to turn Cuba over to the natives; the preliminary legislation on the Nicaragua Canal must be started; the war revenue act will need curtailment; and a currency plan is necessary to form the basis of the Republican platform for 1900.

Official objections to married men in the enlisted force of the army have been renewed by the War Department in an order sent out to recruiting officers and regimental and other commanding officers. There always has been a natural objection to this for the reason that the accommodations at military posts do not admit of many families. Another reason is found in the fact that men make better fighters and can be ordered here and there easier when they are free of family responsibilities.

Sixteen members of the present United States Senate have served terms as Governor of their respective States. They are Bate of Tennessee, Berry of Arkansas, Culberson of Texas, Cullom of Illinois, Davis of Minnesota, Foraker of Ohio, Gear of Iowa, Hawley of Connecticut, McEbery of Louisiana, Nelson of Minnesota, Perkins of California, Procter of Vermont, Shoup of Idaho, Tillman of South Carolina, Warren of Wyoming and Wetmore of Rhode Island. The office of Senator, by the way, has increased vastly in importance since the time when DeWitt Clinton resigned a senatorship to become Mayor of New York City.

The great bull movement which has dominated Wall street for the last five months has been profitable for Uncle Sam. At two cents a share for revenue stamps the Government's receipts since the first of the year from this source have been at the rate of \$90,000 a week. On the present basis Uncle Sam will be richer by \$4,500,000 for the year 1899 as a result of the stamps sold in Wall street.

Preparations are being made by the Postoffice Department to send a large number of postage stamps to Manila. These stamps will be similar to those used in this country, but the word 'Philippines' will be stamped across the face of each, as was done with the stamps for telegrams and checks before the internal revenue stamps were printed.

Former Governor Lord of Oregon has declined the Persian mission. The reason for declining is that he wished to go to Peru, and cared nothing about Persia. President McKinley will not have any difficulty in securing some one to fill the vacancy in Persia, as there are thousands of applicants for positions in the diplomatic service. If the regular army of the United States should be increased to 100,000 men, the United States will still have fewer soldiers on a peace footing than any of the seven important nations of Europe. In time of peace Germany has 591,715 men; Russia, 761,400; France, 561,848; Italy, 208,060; Austria-Hungary, 279,120; Great Britain, 211,237, and Turkey, 237,400.

With the annexation of Porto Rico the United States acquired a town which is older by fifty-five years than St. Augustine, Fla., which was settled in 1545, and which all the historians tell us is the oldest town in the United States. The new oldest town is Caparra, Porto Rico, which was founded by Ponce de Leon in 1509.

The ancients believed that rheumatism was the work of a demon within a man. Anyone who has had an attack of sciatic or inflammatory rheumatism will agree that the infliction is demoniac enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balsm would cast out demons, but it will cure rheumatism and hundreds, bears testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its costs. For sale by T. E. Slattery, Druggist. 46t4

A class of five will graduate from the high school Friday night. Present conditions indicate that there will be quite an increase in the number in the high school next year.

Commencement to-night at Reform church. Parents should be present. Young children that will not understand the exercises should remain at home and make room for older persons.

It would be nice to have ladies remove their hats at the commencement exercises.

The Culver Public Schools closed last Friday with appropriate exercises in each of the rooms. A goodly number of patrons were present to witness the exercises. During this school year 177 pupils were enrolled and there was an average daily attendance of 137. Pupils neither absent nor tardy are: Effie Garu, Room B, Harry Medborn, Jessie Groves, Chester Cartwright, Clyde Wiseman, Room C, Carl Castleman and Wilford Medborn, Room D. There were eight pupils absent not over a day. The per cent of attendance for the year is, Room A, 97. Each of the rooms below the high school average nearly 94, making an average for entire school of 94 1/2. The school has a start of a nice library; but many more volumes are needed. Forty-four volumes were added to the library this year, making 250 now. Not a book has been lost in the two years since the library was started. A collection of stones also is found in the high school, as well as many relics from various parts of the world. Among the relics may be found, Spanish, bullets, dynamite shells, coins, cup, and even Spanish blood. Library will be open for registration, and return of books an hour each week announced definite later.

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. LYNCH, DORR, W. Va. This remedy is sold by T. E. Slattery, Druggist. 46t4

For a quick remedy and one that is perfectly safe for children let us recommend One Minute Cough Cure. It is excellent for croup, hoarseness, tickling in the throat and coughs. For sale at Culver City drug store. 1m

Slattery's drug store. 46t4m

A FOLLOWER OF MEASLES.—In many instances a persistent cough follows an attack of measles. In speaking of this Mr. Walter B. Beel, editor of the Elkin (N. C.) Times says: "Three weeks ago I had an attack of measles which left me with a bad cough. I took several doses of Chamberlain's Cough Remedy and the cough has entirely disappeared. I considered Chamberlain's medicines the best on the market." For sale by T. E. Slattery. 46t4

McNeely G. visited his parents at Evansville, Indiana, this week.

Several of the academy boys enjoyed a ride upon the silvery waters of Lake Maxenkuckee, Saturday evening on board the steamer Peerless.

Arrangements for commencement ball and entertainments are being systematically and carefully made. Nothing will be left undone to make it an enjoyable as well as a profitable event.

The managers of the academy are now making preparations to erect new barracks. We understand that the new building will contain sixty-six rooms and be erected where the gymnasium now stands, that building being moved to the north. The new building will be absolutely fire-proof and will be a magnificent structure. It will be built of brick, stone, steel and iron, and finished in hardwood, three stories-high and capable of holding sixty-four officers and cadets upon the second and third floors. The first floor will be occupied by large chemical and physical library, section rooms, rooms for the sick, cut off from the rest of the building, and quarters for trained nurses. The whole plant will be heated by steam and lighted by electricity. This is necessary in order to accommodate the increasing applications for admittance to the school, as a large number were refused admission for lack of room last year. It is a conceded fact that this school has attained a marvelous reputation during the past two years, on account of its efficient corps of teachers and up to date military discipline. The department of the boys in nearly every instance has been excellent, and their general average of scholarship has been very commendable. The officers and teachers truly deserve great praise for their efforts to advance the interests of the school.

Letter From North Dakota.

Cecil, North Dakota, April 30, 1899.

MR. EDITOR:—I ask the pleasure of space in your paper for a short letter to my friends to let them know where I am located. I am in Towner county, North Dakota, thirteen miles west of Cando, and eight miles south of Bisbee, on a farm of 480 acres of fertile prairie. I can stand in the door yard and see Cando and Bisbee, and of a clear morning I can see the Turtle Mountains, distant forty miles.

This part of the country is new, but thickly settled, mostly by Hoosiers. We were at church to-day and it seemed like attending church in Indiana. The house was pretty well crowded, there being 225 persons present, mostly from Indiana. The spring is wet and cold. Farmers are making slow progress with their seeding. They will not sow as large crops as intended. There will be a large acreage of oats and flax sowed, as it can be sowed later than wheat. I have forty acres sowed and sixty acres nearly ready to sow to wheat. The prairie begins to look green; the grass is about three inches high and the flowers are in bloom, and wild geese and ducks are plenty, and large droves of cranes roam o'er the prairies. Prairie chickens are abundant.

I have not seen many of the people that came here this spring. Jacob Snyder and wife made us a visit. They live twenty miles from us. Mr. Covert is living in Bisbee. Ted Holt is working not far from us. He gets twenty-five dollars per month. I suppose he knows what a jack rabbit is by this time.

This leaves us all well except my wife. She is very sick and has been confined to her bed for some time.

Yours truly,  
JAMES C. HOUGHTON.

The Preacher, the Dam and the Fish.

"You must be on your good behavior, this evening, George, for the minister is to take dinner with us," said a Hattsville lady to her worse half, as he got home from his office in the city last Thursday.

"What have you for dinner?" queried the husband.

"Well, I know he is fond of fish, so I bought quite a string of small river fish and several large ones from the dam."

"I am not much at doing the honors when we have a minister at the table," said George, "but I guess we can get through with it all right."

Half an hour later, they were seated at the table, and a blessing had been asked by the minister. A little nervously the head of the family began dishing out the vegetables, and turning to the guest said:

"Will you have some of the little river fish, or will you have some of the dam big fish?"

The warning kick under the table was unnecessary. He knew he had blundered, and cold beads of perspiration started out on his forehead.

"I mean," trying to repair the error, "will you have some of the dam river fish, or some of the big fish?"

Worse and more of it. His daughter slyly pulled his coat tail to bring him to his senses.

"That is, would you like some of the little river fish or some of the other dam fish?" The deep carnation spreading over the good lady's face did not mend matters a bit, and with a gasp he plunged in once more.

"Ahem! Which of the dam fish do you prefer, anyway?"—Ex.

Remembered.

J. E. Myers, living near Rutland, was the recipient of an acceptable gift from our home nursery at Twin Lakes, last week.

It consisted of apple, peach, pear, plum and cherry trees, besides small fruits, such as raspberries, blackberries, gooseberries and currants, also several shrubs, vines, roses, bulbs, evergreens. Patronizing home nurseries for plants, will be more adapted to the soil and climate and are always fresh when received, besides they can be replaced with but little trouble when necessary.

Why not adopt the plan of planting a few young trees every year or so. The young fruit is much better than that from the old decayed trees that so many orchards are full of, and is not much more convenient to have plenty of fruit at home, than to depend on our neighbors?

Bismark's Iron Nerve

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at T. E. Slattery's Drug Store. 4614
