For years the Plymouth citizens howled for a Sunday train which would convey them to Lake Maxinkuckee. This season the Vandalia railroad company put on a Sunday train from the north, and made the round trip from Plymouth 25 cents. Our city has no legal deputy marshals, so competent legal authority has decided. A man to be a legal deputy marshal must be appointed by the Common Council, must receive his certificate of election from the clerk, must give a bond to be fixed by said Council, and must take the specified oath.

It may be a little early to mention it, but why not celebrate the 4th at Culver next year. By gradually arranging matters, we can have one of the most attractive demonstrations ever witnessed in Marshall county.

Homer L. Nearpass is now local editor of this paper, and any favors shown him will be greatly appreciated.

Among Noted Men.

Hon. Richard W. Thompson of Terre Haute, who has just celebrated the ninety-fifth anniversary of his birth, is distinguished in many particulars, says Leslie's Weekly. Born on June 9, 1809, he is the last eminent survivor of that "year of great babies"—the year which produced Lincoln, Hamilton, Darwin, Tompkins, Oliver Wendell Holmes, Robert C. Winthrop, Gladstone, and many other illustrious men. He holds the "long-distance record" in office-holding among living Americans, having been elected to congress as far back as 1840. No other man now alive was in national office as early as that year. In 1834, or 65 years ago, he was elected to the house of representatives of Indiana, and his public life began at that time. He was active in politics at a still earlier date, however, for he took the stump for Clay in 1832. In every presidential canvass from that year onward, including that of 1896 he made speeches. With every president of the United States except Washington and the first Adams he has been personally acquainted, though of course, not all of them belonged to the party which he supported. "Dick" Thompson, as he is familiarly called, though born less than four months later than Lincoln and more than six months earlier than Gladstone, is expected to make a few speeches in the presidential canvass of 1900, and to be a delegate-at-large to the national convention of that year.

The Maxenkuckee Assembly will open on the evening of July 20th with "The Passion Play, Christ in Art," by Jno. L. Brandt, in his moving picture dramas, from the birth of Christ to his ascension. Twenty complete continuous scenes pass before the audience with perfect life motion, besides more than 100 beautiful colored transparencies, holding the audience spellbound with their sublime and impressive realism. Friday evening he will give panoramic scenes of Cuba, Porto Rico, Hawaii and the Philippines. It will only cost 50 cents to witness these beautiful scenes and hear twenty other lectures and entertainments. Everybody should attend.

Trustees Must Print Reports.

In answer to inquiries as to whether trustees' reports should be published this year or not, Attorney General Taylor advised State Superintendent of Education, Jones, that they should be published and Mr. Jones sent his instructions to that effect outover the state. It is clear that the law intended they should be published because a clause in the new law intending to repeal the old law of publication was stricken out, leaving it standing just as it was before the reform bill was passed. Further a summary is not a legal publication, the Courts have held, also, that the law requires an itemized report to be published. If this had been done for years a great saving to the people would have followed.—Ex.

The Maxinkuckee Assembly.

The editor of this paper has heard several people speak disparagingly of the Maxinkuckee Assembly which opens here on the 20th inst. Some of those that take particular pains to speak in strong terms against it are members of churches, who should at least have charity toward all and malice toward none, if they live up to the teachings of Christ.

This assembly is not a money making scheme, but is simply promulgated by men who desire to establish a literary institution in our midst which will not only be of lasting benefit, but for a very small sum give our old and young people an opportunity to listen to lectures from men of national reputation. Christ advocated no particular church, hence in our opinion earnest Christian work on the part of any religious organization should meet with the hearty approval and support of all religious people, irrespective of church or creed. The assembly will bring a great many bright people here and hundreds who will come for the express purpose of helping to support a worthy cause. Just think; for only 10 cents admission you can attend any of these meetings and have your soul filled with good things, told by men of eloquence and grand intellectual ability. Hence, lay aside prejudice and take in the great feast before you and you will never regret it.

Plain Talk.

MR. EDITOR.—Rev. Fraley of the M. E. Church, preached a temperance sermon at the Reformed church last Sunday evening, in which he reviewed the temperance question in general and the condition of things in Culver in particular. It seems to worry the young divine considerably as to where the blame lay in regard to saloons running wide open on Sunday, utterly disregarding law and decency. He said that the church is the only factor that can settle the temperance question. This may be so, but so long as church members walk to the polls and vote the same ticket that the saloon keeper does, and officials in the church who hold municipal offices, instruct the police to "close their eyes" and let drunkenness have full sway, so long will the present state of affairs exist. Yes, the church has a great duty to perform, but its first duty should be to teach its members to shun the saloon, and live according to the teachings of St. Paul, who said "Avoid all appearance of evil."

It is a noticeable fact that thus far this spring and summer, every person desiring to labor could find plenty to do right here in Culver and vicinity. The building of two churches and other improvements has furnished labor for a great many men and boys, while at Culver Park a large force of men have been constantly employed making improvements upon the grounds, assisting in moving buildings, etc. Aside from this, there have been a dozen or so new cottages erected upon the east side, and others remodelled and repaired, which has given employment to a large number of carpenters and common laborers. All in all the mechanics and laboring men in general have had no occasion to find fault on account of scarcity of work.

Some Early Items.

Among the papers of John B. Dickson, deceased many years ago, who was one of the earliest settlers in Union township in this county, was recently found some historical notes of the early settlement about Muk-sen-cuck-ee lake, which will be of some interest to the readers of this paper in that part of the county. His notes say: "William Thompson was the first preacher of the gospel in Union township. This was in 1836, and for several years later. In 1837 and 1838 Thomas McDonald taught the first school in the township, and the first in the county if I remember correctly. The school was in a log cabin owned by Vincent Brownlee in the orchard north of the present residence of Jeremia Moshler. The scholars who went to school there were Elias, H. B., Sophia and John B. Dickson; Noah S. Lawson, Joseph Hults, Martha McDonald, Mary Logan, Dickson Thompson, Sarah Brownlee, Wm. Brownlee, A. Thompson, Nancy Thompson, and possibly others."

All of the above "scholars" are dead, except Martha McDonald, now Mrs. Edward Thompson, of Lincoln, Nebraska; Dickson Thompson, residing in Plymouth; and possibly Sarah Brownlee—now Mrs. Sarah Bailey residing somewhere in Missouri. All were afterward married, raised children, grand-children and great-grand children and all except the three above named have passed away from this life and turned to dust. Such is life; and to this sad end must we all come at last.—Plymouth Democrat.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D.: "Was taken with a bad cold which settled on my lungs; a cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Trial bottles free at T. E. Slattery's drug store. Regular size 50c. and \$1.00. Guaranteed or price refunded.

The Newspaper.

Speaking of what a newspaper does for its community, the late Senator Davis, of Illinois, said: "Each year every local paper gives from \$500 to \$5,000 in free lines for the benefit of the community in which it is located. No other agency can or will do this. The editor in proportion to his means does more for his own town than any other man and with all fairness, man with man, he ought to be supported, not because you like or admire his writings, but a local newspaper is the best advertisement a community can have. It may not be crowded with great thoughts, but financially it is more of a benefit than both teacher and preacher. Today the editors of local papers do more work for less pay than any other man on earth. Patronize your home paper not as a 'charity' but as an investment."

IS IT RIGHT

For an Editor to Recommend Patent Medicines?

(From Sylvan Valley News, Brevard, N.C.) It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventative of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in many cases the presence of a physician would not be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by T. E. Slattery, druggist.
