It shows 3.483 divorces granted in the year, which was over ten percent of the number of marriage licenses issued in the same period. The county clerk issued 25,051 of these passports to bliss. There has been much complaint in recent years of the facility in which divorces are granted in Indiana, and particularly in Marion county, which leads with 585 divorces. Along the Ohio river the hill counties show the cleanest records. Two-thirds of the seperations were on the complaint of wives.

NEW MILITARY PARK

PLAN TO PRESERVE IMPORTANT BATTLEFIELDS.

Projectors Lay the Project Before the Secretary of War at Washington-Damage Suit as a Consequence of a Bank kobbery at Lima, Ohio,

The members of the Fredericksburg national park commission called on the Secretary of War at Washington to lay before him the plans of the commission for a memorial park which will include the battlefields of Fredericksburg, Chancellorsville, Tebb's Tavern and several other fields comprised in an area of twelve miles square on the south side of the Rappahannock. A bill is pending before Congress on this subject. The committee, headed by Gen. King and Gen. Ruggles, laid the plans before Secretary Root to give him a fuller idea of the feasibility of the undertaking and to secure, if possible, his indorsement of the plan before the next Congress. The Secretary of War, without binding himself to any positive action, promised to do what he could to further the wishes of the commission.

BANK ROBBERY CAUSES SUIT.

Action for Damages the Sequel to a Mysterious Crime at Lima, Ohio.

Another suit for damages, the outgrowth of the sensational and mysterious robbery of the American National Bank on last Christmas eve, when over \$18,000 was taken, was brought at Lima, Ohio, by Elijah Bowsher, janitor of the bank at the time, against N. L. Michaels, vice-president of the bank, for \$20,000. Bowsher claims the damages for injury to his reputation by Michaels declaring that he was the one who had the money and who robbed the bank. Bowsher bought a farm and paid part on it and Michael told a number of persons that he had no money to buy a farm with prior to the robbery. The basement of the bank, where Bowsher had his headquarters, was searched several times and detectives dogged his footsteps for months, but they could find nothing against him. Other suits will probably follow.

ROBBERS GET, \$50,000.

Package of Money Stolen from St.

Louis Street Railway Official. Robert R. Jennings, secretary of the Broadway Cable Car Company, was robbed of a package containing nearly \$50,-000 shortly after noon the other day while boarding a car at Washington avenue and Broadway, St. Louis. He had just drawn the money from the Boatman's Bank and was on his way to the office of the company. Two well-dressed men boarded the car just before he did, blocking the way. They jumped off while in front of the Union market. Mr. Jennings instantly discovered his loss, made an effort to follow the strangers, but they had disappeared.

Springfield, Ill., Man Murdered.

John Galt, proprietor of a dairy, was murdered in the rear of his home in West Capitol avenue at Springfield, Ill., by an inknown man, who made his escape immediately after the murder. Galt was shot twice with a revolver. After receiving the wounds he staggered into the house and fell dead. The murdered man had no known enemies and no cause for the murder can be found by the police.

Attempt to Rob a Falcon.

Two masked men entered Russell & Higbie's saloon at Deadwood, S. D., and attempted to rob the place. Mr. Russell grappled with one of the robbers, and a man who was in the place succeeded in getting out during the melee and giving the alarm. The robbers fled, having secured only \$8.

Indian Land Title Ruling.

The United States Supreme Court has decided that by the customs of the Chippewa tribe of Indians the eldest son of a chief succeeded to his father's title and to the possession of the property held by him. The decision, it is said, will control the possession of large tracts of land in the Northwest held by Indian titles.

GREAT RAILWAY DEAL ON.

First Step Toward the Amalgamation of Eastern Properties.

William Rockefeller has been elected a member of the executive committee of the New York Central Company at the meeting which authorized an issue of \$15,000,000 additional stock. The New York World says: "The election of Mr. Rockefeller to the executive council of the New York Central system is of farreaching importance, as it marks the surrender of the New York, New Haven and Hartford system to the New York Central. Mr. Rockefeller was elected a director in the New York Central a few weeks ago. He and his brother, John D. Rockefeller, have never heretofore commanded any influence in New York Central affairs, although they have for several years held a big block of its stock. But they have been important factors in the management of the New York, New Haven and Hartford system. William Rockefeller's election to the executive committee of the Central is, therefore, accepted as an indication that the union of the two systems will shortly follow. The next step in the deal will, it is believed by railway men, be the absorption of the Boston and Albany, the Boston and Maine, the Fitchburg and the Maine Central. The amalgamation of all these interests under the auspices of the Vanderbilts will end the war between the New England roads, which has continued for years."

RIVAL FLOCKS BESET PASTOR.

Two South Dakota Towns Quarrel for Possession of a Parsonage.

Rev. Mr. Norvell, a Methodist minister, is the central figure in a fight between Miller, S. D., and St. Lawrence over the attempted removal of the parsonage at the latter place which was recently purchased with funds raised by the women of his congregation at Miller. When Norvell and some of his flock went to St. Lawrence to haul the house away they met with the opposition of the people there, some of whom were members of his St. Lawrence flock. The outcome was the arrest of the parson. On a change of venue the case came up before Justice Butterfield, who dismissed the charge. Mr. Norvell has been rearrested on another warrant. A large number of Methodist women, accompanied by the sheriff and a gang of workmen, went to St. Lawrence after their parsonage building. A number of them were arrested, but the work went on. Senator King, Dr. Taylor and Mr. Loomis of St. Lawrence were arrested by Miller people for intimidating laborers. The women claim a victory.

MICHIGAN CENTRAL IN WRECK. Freight Train Crashes Into a Trolley

Car Near Detroit. As a rapid railway car, Detroit bound, from Mount Clemens, Mich., was crossing Beaufait street, Detroit, it was run into by a freight train. Conductor Tony Schneider of Mount Clemens was killed. There were twenty-five passengers on the car, the greater number of whom were injured, several severely. It is charged that the trolley car did not come to a dead stop before crossing the street car tracks, instead it simply slacked. The trolley was about two-thirds over the crossing when the freight train struck it. The trolley car was lifted high in the air and tossed aside. It fell with a crash and was smashed almost to splinters. The conductor was standing on the back platform at the time of the collision. The demolished car caught fire and there is but little left of it.

SENT TO JAIL FOR KISSING.

Yale Student and a Young Woman Arrested, but Appeal the Case.

Stephen O. Lawrence of New Haven, Conn., a Yale student, was sentenced to jail for fifteen days for kissing Miss May Carroll. She was out walking with young Lawrence and was kissed by him when in front of a Crown street cafe. She made no protest, but a vigilant policeman saw the act and immediately arrested the couple for disorderly conduct. In city court Judge Dow said he had decided to make an example of the prisoner, as recently he had a similar case in court and then stated he would send to jail the next culprits found kissing in the street. The student and girl appealed the case and furnished \$300 bonds.

Suicide Is Doubted.

There is a possibility that W. D. Manro, the Auburn, N. Y., man who leaped from the Washington avenue bridge at Minneapolis, may be still alive. A water-soaked meal ticket belonging to Manro was found on the river bank three-quarters of a mile below the point where he jumped in. It is difficult to explain this on any other theory than that Manro climbed out on the bank and dropped the ticket where it was found.

Joplin Mines to Resume Work. The zinc mines of the Joplin-Galena district, in Missouri, which had been shut down for three weeks by order of the Zinc Miners' Association, have resumed operations, the shut down having been declared off by the association. The cause of the shutdown was the refusal of the smelters to pay the association's schedule of prices for ore.

Oklahoma Wants Statehood.

Sidney Clarke, chairman, has issued a call for a meeting in Oklahoma City Nov. 17 of the Oklahoma statehood executive committee, "for the purpose of taking such action as may be deemed best to secure the passage of an enabling act by Congress providing for the admission of Oklahoma into the Union as a State."

STUDY CANAL ROUTES

AMERICAN PARTY INVESTIGAT-ING IN NICARAGUA.

Officers Are Working to Decrease Cost of Building the Isthmian Waterway -Standard Oil Company Buys Much Gas Land in Indiana.

The canal commission in Nicaragua is actively and successfully engaged in the work of straightening the proposed route and otherwise lessening the cost of constructing the waterway. It is estimated that the commission will decrease by several million dollars the amount mentioned by Admiral Walker in his recent report to Congress. Captain A. P. Davis of the commission has charge of the hydrographic division, which is to examine the five proposed routes across the Central American isthmus and report the result of their investigations to the Government of the United States. Captain Davis has under his command a number of engineers who are taking the measurement of streams of water that flow into the lakes along the course of the projected canal. He reports that there is a bountiful supply of water for canal purposes in Nicaragua. He will shortly start for Panama to study the water supply for the Panama, Darien and other routes.

PURCHASING GAS TERRITORY.

Standard Oil Company Buying Thonsands of Acres in Indiana.

The Standard Oil Company is buying up and leasing many thousands of acres of abandoned gas territory with the knowledge, satisfactory to itself, that with the exhaustion of natural gas the territory will be flooded with oil. Experts have decided that this is the secret of the advance in the price of oil recently. Both oil and gas men believe that it will not be long until Marion, Alexandria, Anderson and other gas belt cities are surrounded by oil wells. More wells are being drilled now than at any other time in the history of the Indiana oil belt.

STREET CAR COMPANY STOPPED.

Judge Orders All Track and Equipment of Wichita Road Removed,

Judge Dale of the District Court at Wichita, Kan., granted a permanent injunction restraining the Wichita Street Railway Company from operating its plant and ordering all the cars and track from the streets. The injunction was asked as a last resort by the Mayor and City Council to get a new system of street railway. A company with \$200, 000 capital was organized two months ago and given a franchise by the City Council to build a new line, but the old company refused to surrender the streets.

Must Restamp Mortgages.

In the United States District Court at Keokuk, Judge Woolson rendered a decision on the construction of the war revenue act. The decision was rendered in the case of the bank of Orion, Kan., against Jamison. The claim was made that the mortgage in question should be stamped at every change of ownership, whereas it carries only the first stamp, put on at the time it was executed. The court sustained this view.

Faithful in Face of Death,

A head-end collision occurred on the Baltimore and Ohio Railroad five miles east of Cambridge, Ohio, wrecking both engines and fourteen cars. Engineer W. A. Carney refused to leave his post and received injuries from which he died an hour later. The accident was caused by Engineer Carney's failure to take a siding as ordered.

NO PLACE FOR PROVISIONS.

Viking Has Room for Everything but Food for the Crew.

Somebody will have to answer for a remarkable discovery which has been made on the gunboat Viking. The Viking had been fitted out at the Norfolk navy yard for duty in Central American waters. Much money had been expended on the equipment of the ship. It was equipped with a rapid fire battery and was stocked with the usual supplies, such as fuel and the many other articles of a warship on a long cruise. It was placed in commission a few days ago and the detail of officers and selection of a crew was made. When it came to placing the provisions on board it was discovered that there was no place for such stores. No amount of figuring could re-arrange the material on board so as to accommodate the provisions for the crew. There was nothing to do but remove all the supplies, disarm the ship and put it out of commission. It is likely the Viking will be sold. It is of no use to the navy.

HEAVIEST YIELD OF CORN.

Reports Show the Crop for 1899 Ex-

ceeds All Previous Records. The annual crop review of the Omaha Bee show that the corn crop of 1899 exceeds the record of the best previous year by 14,217,240 bushels. Previous to 1899 the greatest corn crop was two years ago. The figures show that the crop of 1899 reaches the enormous figure of 244,-125,093 bushels. The average yield per acre is 34.5 bushels, and the quality of the crop is excellent except in very limited portions of the State, where hot weather in August damaged it somewhat. The crop is not only the largest, but taken as a whole is of as good quality as any ever raised in the State.

SAYS BULLOCK ROMANCES.

Confessions of Stillwater Convict Are Doubted by Former Guard.

A. L. King, a Kansas City gripman, who claims he was a guard in the Nebraska penitentiary at Lincoln seven years ago, declares the confessions of George Bullock, alias J. C. McBride, the Stillwater, Minn., convict, are romances. King declares that Bullock, while confined at Lincoln in 1892, made the same confessions, with the exception of the Osawatomie, Kan., crime, which was not committed till three years later, and at the time he was considered insane.

True Bill Against Jester.

At Paris, Mo., Alexander Jester was indicted on a charge of murder in the first degree. His alleged victim was Gilbert Gates, brother of John W. Gates of Chicago, who disappeared twenty miles west of Paris in 1871 while in company with Jester.

BIG BATTLE BEGINS.

COMBINED BOER FORCES AT-TACK LADYSMITH.

White and Joubert Fight First Engagement - Results in Doubt-Jonbert Leads the English Into a Trap -Britons Admit Heavy Loss.

Gen. White, at the head of 12,000 British, and Gen. Joubert, commanding 16,000 Boers, measured arms in the vicinity of Ladysmith Monday, and the British claim the victory, but in the official reports, which are glaringly halfhearted, the English admit casualties of from 80 to 100. The Boer loss is said to be much larger. The two armies fought from daybreak to the middle of the afternoon, when both apparently took

a recess. Joubert began the fight about 5 o'clock Monday morning, firing several 100-pound shells in the direction of that part of the British force stationed near the railway station. Their ammunition was good and their aim excellent. Gen. White was

fully prepared and first ordered the artillery fire returned and then ordered out a large force of cavalry and infantry to advance upon the Boer positions. The British claim the Boers failed to stand their ground and retreated.

White's forces followed up the supposed advantage, but soon found themselves face to face with a large army of Boers, who were all well armed and full of fight. The fighting raged fiercely until shortly before noon, when White withdrew without having forced the Boers within their laagers, and with a loss which will undoubtedly prove heavy.

Boers ve neavy. The ...pers in the meantime kept up their artillery fire, and, besides playing havoc with the British troops, stampeded about forty mules used for transporting the heavy guns. The British were so busy using their small arms that they were unable to look after the mules, with

the result that six good cannor were lost. Charge Upon Big Guns.

It seems Gen. White's first purpose was to charge the positions of the Boer batteries and capture, if possible, the big guns, which played so important a part at Glencoe. The charge was considered successful at first, but upon their arrival at the point where the Boer guns had been located the British found them gone. How Joubert managed to remove the awkward, heavy weapons is a mystery to the British, as they are said to weigh fully four tons each with their carriages.

One London newspaper, trying to account for the British retirement, says

that presumably the Boers were driven back until they reached strong positions, which White naturally refused to attack. Gen. White reports the stampede happening during the night, as the result of battery fighting. But the newspaper accounts indicate the runaway occurred during the day's action.

TRAPPED BY A NOVEL.

A few moments later Mr. Portman, an entire stranger to me, was ushered pair of dreamy dark eyes upon me, he inquired, in a low, earnest tone:

"Mr. Cecil Lawrence, I believe?" "Yes. Be seated a moment, will you?" I replied, indicating a chair.

waited my leisure, his eyes fixed upon the crackling logs in the grate, and his chin resting upon his hands.

"What can I do for you, Mr .- Mr. Portman?" I asked, presently, putting down my pen and turning round upon my visitor.

"You are Mr. Cecil Lawrence, the author, are you not?" he returned. "Yes."

"The author of 'A Romance in Blue Dye'?" "Yes."

"Do you mind telling me how you came by the plot for that story?" he said, his dreamy eyes lighting up for an instant.

"I'm afraid I cannot give you any information upon that matter," I replied. "Authors do not generally communicate their methods of work and thought to strangers, and my time is at present so much occupied that, unless you really have some important less you really have son__, business with me I really-".

"I have important business with you!" he exclaimed, almost angrily. "Do you fancy that I have come down all the way from Lancashire to ask a mere slip of an author his methods of work?"

"From Lancashire?" I said, in surprise. "Indeed no; no sane man would, But please state your business."

"Will you answer my question?" he cried, rising impatiently and folding his hands behind his back. "How did you come by the facts in your story?"

"Since you attach such undue importance to the matter," I replied coldly, "I can only say that I owe some of the plot of my 'Romance in Blue Dye' to a newspaper paragraph I chanced upon some eighteen months ago."

"Can you show me this paragraph?" "Really, unless you can tell me in what way this matter is of so much importance to you, I fear I must decline to continue this interview, for, as I have already told you, I am exceedingly busy."

He looked at me steadily for a moment in silence, and the light came into his eyes again.

"My name is Portman-John Portman, of Portman & Stayle, dyers and cleaners. Rochdale," he said, in a peculiar tone I could not understand. "Do you understand?"

"No. I may be very dense, but don't understand in what way the statement of your identity proves the importance of your visit," I responded, becoming annoyed with him, his manners, and his tone.

"You don't eh?" he blurted out. "Well, Stayle, my late partner, was the man who was found in the vat of dye. You are a picturesque liar, you know!"

I started—not at the fellow's insult, but at the germ of an idea that was dawning upon me. This man, then, was the actual being whom I had created, as I thought, in the person of James Saxon, the murderer of his partner. I fully understood now how greatly this man, whose actual existence I had never suspected, must have been annoyed by my book; for, doubtless, persons who had read it and knew of the manner in which my visitor's unfortunate partner had met his death had commented upon the matter unpleasantly to my visitor.

"Do you understand me now?" my visitor demanded, seeing I was not

you know, so sit down and be civil,"

I shrugged my shoulders and returned to my chair, having the unpleasant sensation that he was "covering" me all the time.

When I had seated myself, he came and sat down at the other side of my table, laid his revolver in front of him, and began to bite his nails. I waited his pleasure silently, wondering what I could best do.

"It's like this!" he said, so suddenly that he startled me out of my thoughts. "I had a partner. That partner gets drowned at our works in a butt of purple-not blue, mind you-dye. You see see you, sir," said my landlady, looking the bare facts mentioned in the papers (this is what you say!) write a "Show him up, Mrs. Jennings," I re- story about it. You make me, John Saxon of your accursed book, murder my partner, and you bring me to justice, eh?"

"Yes, that's it," I replied, as easily into my room. He came forward-a as I could. "I offer you my sincerest man of large build, some 40 years of apologies for the unpleasantness it age, with a slight stoop-and, fixing a must have caused you; but I assure you, on my honor, I never dreamed that you really existed, or I should not have used such a plot."

"But you must have known! You must have seen!" he cried, leaning over He accepted the offer silently, and the table and hissing his words into my face.

> What would have happened if the meaning of his words had flashed, instead of dawning, slowly, upon me I cannot think-I never want to know. But, coming upon my worried brain slowly, the meaning did not make me start, and my visitor, who evidently realized he had spoken without thinking how he spoke, probably trusted I had missed his second sentence.

To help him to that belief I answered:

"How could I have known the unfortunate dyer had a partner? I realize my horrible mistake now, of course. I ought never to have written the book without first inquiring whether my plot would encroach too much upon actual facts."

He did not seem to hear me. He was staring over my shoulder, deep in thought, like a man who dreams his thoughts.

"Bah!" he said suddenly, with great passion. "How did you learn all you know, eh? You could not have guessed what no one else had suspected!"

"I fear I do not understand you," I said, with a smile.

"You lie! You know you lie! Do you think I have come here to be suckled on such prevarications? Do you think I brought this with me for any reason but to get from you an account of how you discovered the purple spot on my shirt, how you saw how it happened, as you must have done, though you don't say so in your accursed story? Can't you see, ingenious puppy, that I mean to know, and when know to send you where you cannot run down a man by novel writing, nor put the law upon him? It's your life or mine!"

"With all your threats,' I said, "you're a big bit of a fool, Mr. Portman, or else your mind is unhinged. The book was mainly written upon the merest conception of my own, suggested to me by a short paragraph. have already told you that. The manner in which my murderer, John Saxon, was brought to justice for his crime was pure fiction work. Now are you satisfied?"

"No!" he replied, throwing himself back in his chair. "What you say may be true; I don't know. A "PRIVILEGE" NO LONGER WANTED.

Curious Case of a Property Owner on the Thames.

A very curious and interesting case has been decided by the court of appeal. The present owner of Medmenham Abbey and of the land on the opposite bank of the Thames has been saddled with the responsibility of maintaining a ferry over the river, as the result of an action which was begun about a year ago. The question at issue was whether the ferry was an ancient one, and so attached to the manor that the lord could be compelled to maintain it. As everybody knows, no questions are more obscure than those of ferries, rights of way and commons, and we think that the present proprietor may be thankful even though he has lost his case, that the litigation has not been protracted for years and years. We recollect a case which arose out of an alleged ancient right to dig gravel, which—the case, not the right-began in 1849, and ran with varying fortunes for the next 46 years, to the great profit of the lawyers and damage to the gravel. Our system of real property is a fearful and wonderful thing, and it might happen to any of us to buy a piece of land and then find that the neighbors had rights of "piscary" in the pond, "turbary" in the lawn, and "pannage"—which is the right to feed hogs—in the plantations.

The curious thing about the Medmenham case is that the defendant was trying to divest himself of what had no doubt been regarded as a high privilege. There is probably no original grant of Medmenham Manor in existance, but there can hardly be any question that the ferry was attached to it, either when the grant was made or at some subsequent period, as an act of much favor to the owner. He was given the right to levy tolls, and we do not suppose it ever occurred to those who arranged that little matter that a day would come when Medmenham would have an owner who would be only too happy to abandon the tolls if he could get rid of the obligation to maintain the ferry.-London Globe.

The Governor and staff and a party of Grand Army men and other Union veterans recently made a journey that will find place in the future histories of the United States. The peaceful mission was the return of a Confederate battle flag captured from Terry's Texas Rangers at Coosaville, Ga., Oct. 13, 1863, by Wilder's brigade, commanded by Gen. A. O. Miller of Lebanon. The Seventeenth Indiana got possession of the flag and it was sent North to the Governor of Indiana. It has been in the State capitol since the war. The flag of Terry's Texas Rangers was made by the good women of Texas. It is still in good condition, though somewhat faded. The dimensions are three by two feet. The main part of the flag is blue silk. In the center is a white circle of satin, yellowed with years, and within this white circle is a red cross in which eleven stars are skillfully worked with yellow silk thread. Near the border of the white circle on one side are worked in blue silk thread the words: "God defend the right. Terry's Texas Rangers." On the other side of the flag, which is the same in all other respects, are the words: "Ducit amor patriae. Terry's Texas Rangers." Adjt. Wm. E. Doyleg of the Seventeenth In-

diana kept a diary of the work of that regiment. In the diary appears the following brief account of the capture of the flag: "Oct. 13: Moved on the enemy. Found him strongly posted on a creek near Coosaville. Our brigade charged dismounted, breaking the enemy's line; at the same time the brigade of Minty charged and took their artillery, killed and wounded about fifty in the trio of rebel brigades. Our regiment lost four killed and three wounded. Capt. Weiler following the enemy on the flank captured the flag of 'Terny's Texas Rangers.' Returned after 20 miles t to near Rome. Day's marchexas Rangers Thginated the of Terry's by petitioning the Indiana moven egislature for a return of the flag. State J. J. Weiler, a past commander of thaj Grand Army, joined in the request. The matter was presented to Gov. Mount, who approved of it after conferring with Gen. Miller. Senator Binkley of Richmond introduced the resolution in the Legislature which appropriated \$250 for the expenses of the return. In the party were the Governor and most of the members of his staff. Adjt. Gen. Gore was unable to go because of illness. The \$250 was turned over to Daniel Ryan, past department commander, who selected the following party: W. J. Hilligoss, Muncie; Daniel Ryan, Flat Rock; W. L. Dunlap, Franklin; Timothy E. Howard, South Bend; B. M. Hutchins, Columbus; H. C. Caylor, Noblesville; G. V. Menzies, North Vernon, and Senator Birkley of Richmond. The tattered battle flag was restored to the surviving remnant of the gallant Confederate band, the ceremonies taking place in the auditorium at the fair grounds at Dallas, Texas. Gov. Mount of Indiana and staff, Gov. Sayers of Texas and staff and a mounted escort of Capt. Pagett's rough riders formed in front of the City Hall and proceeded to the entrance of the grounds, where they were met by a delegation of ex-Confederates and members of the Grand Army of the Republic, who escorted them to the auditorium. The attention of the State has been called by a series of deaths to the fact that there are 1,100 mentally unsound persons in the jaks and poorhouses of Indiana, most of whom are rapidly passing into hopeless insanity because of the inability of the State to give them curative treatment. Each of the four State institutions is crowded to the doors. At present 3,916 patients are being cared for and the capacity of every room and ward is taxed to its utmost. The last Legislature made provisions for extensions of these institutions to accommodate 700 more patients, but it will be some time before they are completed. In the meantime, however, the situation is serious. Indiana claims the distinction of being the first Government, State or national, in the world to pledge care of the insane. She was the second to erect a government or State insane asylum, one of the Carolinas leading in this respect. Since 1843, when the Indiana asylum was erected, each Indiana Legislature has found it necessary to take up the question and in 1865 the State took more advanced grounds and adopted the 'policy that all of the insane, both curable and incurable, were wards of the State.

Gov. Mount has appointed W. J. Vesey judge of the Superior Court at Fort Wayne to succeed the late Judge Dawson. There was an eager contest for the place between the friends of Mr. Vesey and of H. C. Hanna for the appointment.

Medicines?

From Sylvan Valley News, Brevard, N.C.) It may be a question whether the editor of a newspaper has the right to publicy recommend any of the various proprietary medicines which flood the market, yet as a preventative of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhœa Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicity on any medicine for a cure, but we do believe that f a bottle of Chamberlain's Diarrhœa Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in many cases the presence of a physician would not be woided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by T. E. Slatter, druggist.

It is hoped that the game Thanks giving Day, will be with some team that is capable of giving the second team something to do, but to find : team of this kind it will be necessary to get the first team of some of our cities.

As the first team had no game last Saturday a game was arranged with the Plymouth High School fire team and C. M. A's second team The game was played in a drizzlin rain, but this didn't prevent C. M A. from piling up 56 scores to thei opponent's nothing. It was very evident that Plymouth wasn't in it from the very start.

A fair example of the way the two teams, played is when Plymouth kicked off to Crawford and he tool it through for a touchdown without being touched by a Plymouth player It was a common occurrence to se a Culyer man make a touchdown after running almost the entire length of the field. From the way the sec ond team plays, we believe the could defeat or at least make it ver interesting for any of the teams the first team has played this year, for they certainly put up a better gamagainst the first eleven than any of them did.

WAR WITH THE BOERS

NEWS FROM THE FRONT IS GREATLY DIVERSIFIED.

Reports So Conflicting that It Is Difficult to Cutline the Situation with Any Degree of Precision-Gen. Symons Dies of Wounds.

The dispatches from South Africa have been so diversified and contrary that it has been difficult to outline the situation with any degree of precision. Three or four main facts, however, stand out prominently. Gen. Symon's fight at Glencoe was not anything like the decisive victory at first alleged, and Gen. Yule would in all probability have been annihilated or have met with the same fate as the captured huzzars if he had not retreated. Gen. White's "artillery duel" at Rietfontein was a very severe engagement, in which the rifle did great execution and in which success was also achieved at a distressing cost. The bombardment of Mafeking commenced Wednesday and the Boers got their hussar prisoners safely to Pretoria.

Altogether the campaign is being pushed by the Boers so strenuously and on such sound strategical lines that the situation of the British must in all probability give them cause for deep anxiety for some time to come. Apart from the

MARIBOCO STATION, BECHUANALAND.

fatigue, regiments like the Gordon Highlanders and Royal Rifles have been practically without officers since the fights, and 135 additional officers have been ordered to leave England as speedily as possible.

Outside of officialdom, and possibly even therein, London on Thursday was absolutely without definite news of importance from the vicinity of Ladysmith. It was believed that the forces of Gen. White and Gen. Yule were united, although even this was a matter of speculation. It was known that the Boer forces were near to Ladysmith.

The suppression of news has not only caused great indignation in Great Britain, but has created grave alarm for the future. As a consequence the British public is enraged at Lord Wolseley, and demands that all official dispatches be

given out verb Gen. Sir William Symons, the death commander at Glencoe, who was shot Boers there, was officially announced in the House of Commons Thursday.

HAS MANY WIVES.

That's the Charge Against a Chicago Candy Salesman.

The Chicago police claim they have discovered a bigamist beside whom the notorious Bates must figure as a matrimo-

a warrant sworn out by one of his many wives and was locked up under \$4,000 bonds.

Forty-two wives W. L. FARNSWORTH scattered through-

out the world, four of whom are in Chicago, was the confession alleged to have been made by Farnsworth. He also admitted that he was a man of many aliases. Some of them are Charles Bradford, A. J. Hittig, S. L. Thomas, Ald Kiefer and Bradshaw. "I cannot tell exactly how many women I have married," said he. "I know of eleven in Europe, four in China, three in Peru, one in England and over twenty in different parts of the world, but to save my soul I could not tell how many."

MICHAEL DAVITT QUITS.

Great Irish Leader Is Opposed to the Boer War.

The Irish pretest against the war on the Boers culminated in a sensational manner Wednesday, when Mr. Michael Davitt, the prominent Irish nationalist and republican, and member of parliament for Mayo, announced in the House of Commons that he would resign from that body Thursday. "If I were offered an Irish republic," said Mr. Davitt, "in exchange for one word in favor of this war, I would not utter it. I shall resign and ask the chancellor to release me from further attendance."

Before leaving, Mr. Davitt thanked his opponents for their toleration, but added: "I am convinced the House of Commons was never for right unless backed by force."

WARSHIPS TO PREPARE.

Orders to Get Ready Issued by the British Admiralty,

The British admiralty has ordered that all the cruisers which mobilized for the July maneuvers be prepared for active service at a moment's notice. As the Transvaal campaign itself does not call for warships, this action of the British admiralty is taken to indicate apprehension that there is ground for the rumor" that France and Russia may interfere in behalf of the Boers.

BRITISH CONTROL WAR NEWS.

Until It Has Been Censored.

If ever a country was bottled up, South Africa is. England has complete control of all news outlets, and she evidently has enough censors over there to choke off unfavorable news, and some relations of cable companies in New York say that they never knew of a place so completely cut off as the scene of the present hostilities, and the censorship that England is exercising is simply stunning. All news is not only censored at its start, but it is held up from one to four times en route, and finally is for the most part delivered through London. American, German and French newspapers and press associations have sent big corps of men to South Africa, but they get mighty little show, even with their messages that have been mangled by the censors. The English newspaper men get first call, and, as a result, London is the real news center of the war.

Orange Free State are utterly and completely cut off, so far as land wires go. The only outlet has been through Durban, in Natal, on the east coast, and Cape Town on the west coast. Both these cities are in British territory. There was a land line from Pretoria to Lorenzo Marquez, which ran through Portuguese territory, but this has been interrupted either by actually cutting the wire or by diplomatic chicanery with Portu-

Portugal sympathizes with the Boers, but she has so much sea coast and is so near England that Johnny Bull has her bluffed to a standstill.

News from Glencoe, Ladysmith and other points in Natal can reach the outside world over the Durban and west coast line, or via Cape Town and the east coast. From Durban the cable runs 345 miles to Lorenzo Marquez (Delogoa Bay). Then it plunges again into the Indian ocean and emerges at Mosambique, 974 miles away, thence by cable to Zanzibar, 692 miles further, and finally to Aden, 1,920 miles further. All this by cable. At Aden the British censorship is supreme.

From Aden the news goes under the whole length of the Red Sea to Suez, 1,403 miles, thence on land wires along the Suez canal to Port Said, 92 miles, thence by cable to Alexandria, 154 miles. thence to Malta, 928 miles; to Gibraltar, 1,126 miles; to Lisbon, 390 miles; to Land's End, England, 899; then by land to London and from London to Dublin, thence to Waterville, Ireland. Then comes the long plunge over the commercial cable to Nova Scotia, 2,348 miles. Eight hundred and forty miles of cable

remains, and the news is at New York. British military censors have a whack at it at Durban, Aden, Suez, Alexandria, Gibraltar and London. Over the west coast route the start is

made at Cape Town, thence by cable to Mossamedes, 1,138 miles; to Benguela, 234; to Loand, 296; to Acera, 975 miles; to Sierra Leone, 1,020; to Bathhurst, 463. At Bathhurst the cable leaves the African coast and bobs up next at Santiago, a Diffush possession, near the Cape Verde Islands, 470; to St. Vincent, 204 miles; to Madeira, 1,169; to Lisbon, 632 thence to London, following the same route as news from the east coast.

mae only place in all this west coast route where a leak might occur is at St. Vincent, where there is a cable to Brazil. England has forbidden all code and cipher messages of any description to be sent to St. Vincent and her orders are being obeyed to the letter.

On all the east coast lines all cipher and code messages are forbidden, just as on the west coast, and nothing, even remotely relating to the war, can be sent by anybody without the English "O. K." at the various relay stations.

WAR NEWS IN BRIEF.

The British movements show vastly su-

perior strategy. Hundreds of refugees from the Rand

now crowd the coast towns. The best Boer policy is cavalry raids

and fortifications of the passes.

Cecil Rhodes is personally at the head of a band of rough riders. England is watching the movements of

France and Russia with eagle eyes. England is placing large orders for

army clothing with German manufactur-Gen. Yule's march from Glencoe was attended by several skirmishes with the

Gibraltar is being strengthened, and extra precautions are being taken in re-

gard to visitors. The Boers acknowledged they lost 100

killed and 300 taken prisoners in the battle of Elandslaagte. When it is noon in New York it is 7

o'clock in the evening of the same day in the Transvaal.

The British at Elandslaagte were commanded by Gen. French. Col. Hamilton had charge of the infantry.

According to late reports of the fight at Spytfontein the Boers were remarkably ineffective with their artillery.

The British Government has given authority for organizing a large supple-

mentary army medical staff in the Transvaal. It is estimated that not less than 11,-000 Boers are watching the passes in the

Drakonberg range from Oliver's Hook to Collins' Pass. The success of Gen. Symons at Dundee Hill and Gen. French at Elandslaagte were unexpected developments in

the campaign. There is the ominous possibility of a Dutch insurrection in Cape Colony. The farmers are said to be highly excited and

in a state of disloyalty. Both sides are anxious to keep the Basutos and Zulus out of the war. The spirit of humanity is strongly evinced in the policy of both war departments.

THANKSGIVING DAY IS SET.

Nothing Can Come from South Africa | The President Issues a Proclamation Naming Thursday, Nov. 30. President McKinley has issued the fol-

lowing Thanksgiving proclamation: A national custom dear to the hearts of the people calls for the setting apart of one day in each year as an occasion of special thanksgiving to Almighty God for the blessthe late lamented Blanco to send wild ings of the preceding year. This honored and woolly tales of victories won. The observance acquires with time a tenderer significance. It enriches domestic life. It summons under the family roof the absent

Abundant crops have rewarded the efforts of the husbandman. Increased comforts have come to the home. The national finances have been strengthened and public credit has been sustained and made firmer. In all branches of industry and trade there has been an unequaled degree of prosperity, while there has been a steady gain in the moral and educational growth of our national char-

Those engaged in maintaining the honor of the flag with such signal success have been in a large degree spared from disaster and In the first place, the Transvaal and disease. An honorable peace has been ratified with a foreign nation with which we were at war, and we are now on friendly relations with every power on earth. The trust which we have assumed for the benefit of the people of Cuba has been faith-

fully advanced. There is marked progress toward the restoration of healthy industrial conditions, and under wise sanitary regulations the island has enjoyed unusual exemption from the scourge of fever. The hurricane which swept over our new possession of Porto Rico, destroying the homes and property of the inhabitants, called forth the instant sympathy of the people of the United States, who were swift to respond with generous aid to the sufferers. While the insurrection still continues in the island of Luzon, business is resuming its activity, and confidence in the good purposes of the United States is being rapidly established throughout the archipelago.

For these reasons and countless others, I William McKinley, President of the United States, do hereby name Thursday, the 30th day of November next, as a day of general thanksgiving and prayer, to be observed as such by all our people on this continent and in our newly acquired islands, as well as by those who may be at sea or sojourning in foreign lands; and I advise that on this day religious exercises shall be conducted in the churches or meeting places of all denomina tions, in order that in the social features of the day its real significance may not be lost sight of, but fervent prayers may be offered to the most high for a continuance of the divine guidance without which man's efforts are vain and for divine consolation to those whose kindred and friends have sacrificed their lives for country.

KILLED IN FEUDS.

Hostile Factions Cause Reign of Terror in Clay County, Kentucky.

Five more men have been reported killed within the last four days by participants in the Baker-Griffin-Philpot feud, and terror reigns in Clay County, Kentucky. Judge Eversole fled from the county seat, fearing to hold court, and the Governor was asked to send troops to restore order.

Jim Bob Travis was killed Saturday at Hamlet postoffice. His body was found in a well. Four men shot to death from ambush is the record for Tuesday and Monday. Tom Whittemore was ambushed and shot through the head seven miles from Manchester Tuesday while he was on the way from Horse Creek to Manchester with Dan Parker, who is to be tried for killing one of the Turners. Parker, who is an old fighter, was also shot, but he threw himself on the ground and escaped with a few wounds. This is the twentieth time Parker has been ambushed by his enemies. Parker and

TYPICAL CLAY COUNTY HOME.

Whittemore were friends of the Philpots, and it is supposed they were ambushed by some of the Griffin faction.

One of the Philpot faction was ambushed and killed on House branch of Horse creek Tuesday as he was coming from the Pigeon Roost district to attend court. A clash between the Baker and White factions occurred on Sexton's creek, and it is reported that two men were killed.

Circuit Judge Eversole, who was to have opened court Monday at Manchester, came within two miles of town, and, when he heard the news, fled, fearing assassination, as he was in the old Perry County French-Eversole feud. The county bar held an election and appointed Carlo Lytle special judge. Both the Philpot and Griffin factions at Manchester are in small armies, heavily armed.

THREE MEN STARVE TO DEATH.

Perish Miserably in a Blizzard, with Belts Full of Gold Dust.

William Lafler, who has returned to Tacoma from Alaska, brings a tragic story of the deaths of N. C. Daily and two Frenchmen, names unknown, all of Boston, on the Bonanza river, in northern Alaska, last winter. The men had been searching for gold, but ran out of food and staryed to death during a terrible blizzard, though their belts were filled with gold dust. Daily and two Frenchmen got separated from Lafler and his partner during the blizzard, and wandered away almost without provisions and with only scanty clothing. When the storm moderated Lafler's party searched for their missing companions, and finally found their tent. The men's bones had been picked clean by wolves, though their belts and gold dust remained intact. One camp stove in the tent was found. The kettle was filled with the rawhide thongs

First-Class Sewing Machines for \$14.25.

For those who are accustomed to sending away from home for their goods it is of the greatest importance to know the character and reliability of the establishment selling goods to families from catalogues. The great emporium of the John M. Smyth Co., located at 150 to 166 West Madison street, Chicago, has been established for a third of a century, and has furnished over shalf a million homes in Chicago and vicinity alone. This firm enjoys the confidence of the public by its many years of fair dealing. It issues an immense illustrated catalogue that should be in every family, as it describes and gives the price of every article required for household use. A sample of the extraordinary values offered by this firm is shown in the illustration of the "Melba" sewing machine in another column of this paper for \$14.25. This is one of the best sewing machines ever offered to the public, and yet it is but a sample of the thousand and one useful articles illustrated and described in the beautiful catalogue of the John M. Smyth Company.

An Important Industry.

The Brockton, Mass., Times says that at the factory of the W. L. Douglas Shoe Company in that city the pay roll for the week ending Sept. 30, excluding superintendent, foremen, salesmen and all clerical help, showed the average earnings of the employes, large and small, to be \$15.54 per week. This was not an extraordinary week. It was the customary pay roll. The Douglas factory has been closed

but one week this year, and that for the usual summer stock taking, and it will be closed but three days the latter part of December. This would make but nine days out of the year that the factory is closed.

Owing to Increased business, another addition is to be made to the Douglas factory. It will be 100 feet long, 40 feet wide, and five stories high. This addition increases the capacity 25 per cent. The W. L. Douglas Shoe Company has the largest factory in the world, producing an advertised line \$3.50 and \$3.00

READ PROMINENT PHYSICIAN WHAT A Who has had 35 YEARS of active Practice of Medicine has to say.

I have never before in my 35 years of practice of medicine given my testimonial or recommendation to any patent medicine, but there is a remedy, the result of which has come under my own observation; for there is no Disease which has so baffled the medical skill of all ages as Rheumatism and to find a Reliable remedy for the same. At last we have found it in "5 Drops," manufactured by the Swanson Rheumatic Cure Company, Chicago, III. 'The "5 DROPS" has proven

itself wonderful for its curative power in Rheumatism, not as a Temporary Reliever only, but to give a Permanent Cure even in chronic cases. Sometime ago I had among others several Rheumatic cases under my treatment and prescribed for these patients the very best Remedies which I skillfully selected, but without desirable results. I then heard of "5 DROPS" and of its Wonderful cures, and prescribed it to a few patients, who found relief from its use within a few days. After that I prescribed it to a great number and to my surprise I will say that in the course of Two or Three Weeks after they had used "5 DROPS" and "5 Drop" Plasters they were Cured. Among these were a few who had, for a number of years, been suffering with Chronic Rheumatism, who had piloted themselves around on Crutches. They came to my office without Crutches and told me they were perfectly well. They give all the credit to "5 DROPS" and to "5 Drop" Plasters and this is their testimony to the Swanson Rheumatic Cure Company for their kindness and for the conscientions way in which they are placing their kindness and for the conscientious way in which they are placing these Wonderful Remedies among suffering humanity, which they told me to write to the Company as an acknowledgment. As I have seen the Curative Power of "5 DROPS" and "5 Drop"

Plasters, in a great many instances, I can Truly recommend them, and also that the firm is perfectly honest and reliable to deal with. C. A. DR. RADWAY & CO., NEW YORK:

Dear Sirs-I have been sick for nearly two years, and have been doctoring with some of the most expert doctors of the United States. I have been bathing and drinking hot water at the Hot Springs, Ark., but it seemed everything falled to do me good. After I saw your advertisement I thought I would try your pills, and have nearly used two boxes; been taking two at bedtime and one after breakfast, and they have done me more good than anything else I have ever used. My trouble has been with the liver. My skin and eyes were all yellow; I had sleepy, drowsy feelings; felt like a drunken man; pain right above the navel, like as if it was bile on top of the stomach. My bowels were costive. My mouth and tongue sore most of the time. Appetite fair, but food would not digest, but settle heavy on my stomach, and some few mouthfuls of food come up again. CORRECTING THE ARCTIC MAPS

Duke of Abruzzi Has Found Another

Blunder in Franz Josef Land.

When Mr. Jackson went to Franz Josef Land, a few years ago, he tore the map that Payer had made of the archipelago quite to pieces, for he found it extremely inaccurate. The map Jackson made would hardly be recognized as a chart of the same region that Payer had tried to delineate. The old story of explorer after explorer correcting one another's blunders is again illustrated, if it is true that the Duke of the Abruzzi has now found an important mistake in the map Jackson made.

This Italian prince, who is in quest of ery which never fails to cure afflictions of the stomach. The Bitters strengthens the north pole by way of Franz Josef Land, reached the islands last summer, and, according to a letter received from his party, he has established the fact that Cape Flora is really ten geographical miles east of the position assigned to it on Jackson's map. Cape Flora was Jackson's headquarters for three years, and there is an element of humor in the circumstance if, while he was exposing the many shortcomings of Explorer Payer, he was blundering himself and even assigning the wrong position to his own camp.

The scientific observations of the Ital ian explorer should have a high degree of merit, for he has very competent assistants, and his equipment of instruments, as well as other supplies, is undoubtedly the best that was ever taken into the Arctic regions. The total expenses of the expedition are expected to reach \$500,000, of which the King of Italy has contributed a fourth. Some details of the Duke's equipment are quite unique. He distributed his baggage among 1,500 boxes, each weighing about fifty-five pounds, and easily port able, if necessary, upon a man's back. He divided the boxes into four classes: Provisions, clothing and equipment; tools and scientific instruments, and, lastly, articles that are useful, but not indispensable. Each class has its special color, and each box is numbered according to the class and nature of its contents. The provisions, consisting of rice, sea biscuit, preserved meats, etc., have been so divided that each box contains five different kinds of food, in order that the fare may in no case be reduced to one article of food. The inside of each chest is lined with tin, and soldered to keep out water and dampness. The boxes containing the clothing are of bright green, those holding the scientific instruments are red, and yellow boxes hold the useful, but not indispensable articles, which include games and musical instruments.

Chronic Nasal Catarrh poisons every breath that is drawn into the lungs. There is procurable from any druggist the remedy for Its cure. A small quantity of Ely's Cream Balm placed into the nostrils spreads over an inflamed and angry surface, relieves immediately the painful inflammation, cleanses, heals and cures. Drying inhalants, fumes, smokes and snuffs simply develop dry catarrh; they dry up the secretions which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, use Ely's Cream Balm. It is reliable and will cure catarrh, cold in the head and hay fever easily and pleasantly. All Aruggists sell it at 50 cents or it will be mailed by Ely Brothers, 56 Warren St., N.Y.

Illiteracy in Europe.

Among the general population, illiteracy is most prevalent in the Slavic States of Russia, Servia, and Roumania, the Latin races in Italy, Spain, and Belgium, being also very backward in education, while in the purely Teutonic States the percentage of illiterates is merely nominal. In Switzerland it is 2.5 per cent., in the whole German Empire only 1 per cent., and in Sweden, Denmark, Bavaria, Baden, and Wurtemburg there is practically no one who cannot read and write.

Tells Its Own Story.

In a pretty Wisconsin town not far from Milwaukee there is a "spite fence" which tells its own story to all the world. It is a high and tight board affair, and cuts off a view across a number of beautiful lawns. The man who lives on one side of it evidently feared that the fence would bring down on his head the condemnation of his neighbors. Not wishing to be unjustly blamed, he has, therefore, painted on his side of the fence, in letters that can be read a block away, these words:

"He built-this fence. I didn't do it!" The man on the other side also had no idea of letting a false impression get out. Accordingly he has painted on the other side of the high barrier:

"I had to do it."

HE very word "operation" strikes terror to a woman's soul. Nearly always these operations become necessary

through neglect.

If the menses are very painful, or too frequent and excessive, get the right advice at once and stop taking chances. It will cost you nothing for advice if you write to Mrs. Pinkham at Lynn, Mass., for it, and if you let the trouble run along it will surely cost you a great deal of pain and may mean an operation.

WOMEN AVOID **OPERATIONS**

MISS SARAH J. GRAHAM, Sheridanville, Pa., writes: "DEAR

MRS. PINKHAM:-I had suffered for several years with female troubles and doctored until I was discouraged. I felt wretched and tired of living. I had dis-

ease of kidneys, bladder trouble, dropsy and bloating, had womb trouble and a large tumor had formed; in fact all my organs were out of fix.

"Seeing a woman's letter praising your remedies, I wrote to her and she begged of me to try it, telling me all that it had done for her. I bought six bottles of Lydia E. Pinkham's Vegetable Compound and now cannot express my gratitude to you. The tumor began to come away in pieces and I got better all the time. I believe now that I am entirely cured.

"My doctors could not believe it at first, as they all had told me that my case was a hopeless one, and no human power could do me any good. They were astounded. If I can say anything that can help other women, I shall be glad to."

It is not safe to wait until the last moment. Head off trouble Don't be satisfied without Mrs

His Life Was Sayed.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhoid fever, that ran into pneumonia My lungs became hardened. I was so weak I couldn't set up in bed. Nothing helped me. I expected to soon die of consumption; when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong, I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular sizes 50 cents and \$1.00. Trial bottles free at T. E. Slattery's drug store; every bottle guaranteed.

A WONDERFUL CURE

Of diarrhoea. A porminent Virginia editor had almost given up, but was brought back to perfect health by Chamberlain's Colic, Cholera and Diarrhoca Remedy. Read his editorial.

From the Times, Hillstille, Va.-I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic. Cholera and Diarrhoea Remedy and some also testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man today and feel as well as I ever did in my life .- O. R. Moore. Sold by T. E. Slattery, druggist.
