### Robert C. O'Blenis,

Attorney at Law and Notary Public. Also Deputy Prosecutor. Care in Pick Argos, Ind. erel block,

### not at all times meet their obligations. There are two sides to this question. For instance, a man may contract a debt knowing that others owe him, and who have promised to pay him upon a certain time. But, when the time comes for payment the man fails to meet his obligations, bence, the party of the first part is unable to meet his obligations. This method of doing business has caused a great deal of auguish, and in many instances has driven men almost to despair, who are really

honest, and intend to do what is right. The HERALD editor has men in nearly every section of the country who owe him one dollar or more. Now, if these men would promptly pay the editor, he could meet his bills, give a better paper and every-

thing would pass off pleasantly. But too many people think of everything certain cure for piles, eczema, cuts, scalds, else before they do the printer, tery.

which often puts him in the direst H. J. Meredith and wife, who are straights. The very facts of the case are, we want our delinquents to come to the front and pay up, or

we shall have to place the accounts in the hands of a collector with instructions to force the postal law for

all it is worth. Any sensible man knows it is a criminal offense to take

a paper out of the postoffice without

know it, they had better consult a

lawyer.

Nobbiest line of furnishings at Allman's Big Store, Plymouth, A large delegation of our citizens

attended the Sunday school convention at Plymouth this week. When you need a soothing and healing antidote application for any purpose, use the original DeWitt's Witch Hazel Salve, a

well known cure for piles and skin diseases. It heals sores without leaving a scar. T. E. Slattery. And now Swift and Armour of Chie go have a corner on eggs, and the price per dozen is expected to.

reach 30 cents. Services Grace Refermed Church, Dec. 16-Sunday school, 10 a. m. Preaching Zions, 10:30 a.m.; Culver, 7:30 p. m. C. E. Society, Saturday eve., 7:30 p. m.

Don't use any of the counterfeits of De-Witt's Witch Hazel Salve. Most of them are worthless or liable to cause injury. The original DeWitt's Witch Hazel Salve is a burns, scores and skin diseases. T. E. Slat-

now following one of the most honorable occupations in existence, viz., farming, were on our streets last week looking bale and hearty. "Jap" is a hustler and no doubt will reap the reward due his labors.

Help is needed at once when a person's life is in danger. A neglected cough or cold may soon become serious and should be stopped at once. One Minute Cough Cure quickly cures cout he and colds and the worst crass of croup, bronchitis, grippe and other paying for it, and if they do not throat and lung troubles. T. E. Slattery.

> One of the leading teachers here last week was heard to remark that the town of Culver should feel especially proud of their town clock He said he had been in a good many towns but had never before seen a town clock in a town the size of Culver. Then its being built by local talent was certainly something which the people should be proud of

Many of the residents of our quiet, Thus far we have had a very yet hustling little city, have been somewhat exercised in the last few days over the fact that a quiet, unassuming person has been seen roaming the streets with tablet and pencil in hand stopping in front of each house, making what seemed to some a sketch, to others notes of each and every home. The facts are, both conjectures are correct, from the fact, the one thus engaged is no less a person than the eminent sketch artist, Mr. H. S. Wyllie, who is preparing his drawings for a bird's eye view of Culver City and Lake Maxinkuckee, Prof. Wyllie has had years of experience, both in America and European countries. With the Prof. it is no guess work, but every item is from actual mathematical calculation. Allowing us to first class. be the critics we feel safe to say that his work is equal to any and second to none, from the fact a careful scrutiny of his work, both of life and site, demonstrates the truthful ness of our assertion. An accurate bird's eye view of Culver City and surroundings will be of incalculable value to all interested in the growth and prosperity of the "pride" of Indiana.

### Obitnary.

County Keersless Coff

Charles Francis Spangler, the deceased, was born in Newton county, 13th of December, 1874, died in Misbawaka, Ind., December 3rd, 1900, aged 25 years, 11 months and 21 days. When 7 years old he moved with his parents to Fulton county, Ind., and lived there 12 years; from there he moved with his parents to Culver, Ind. Two years ago last April be. with the rest of the family, went to Mishawaka to reside.

Eight years ago while in Fulton county, during a revival there, he was converted and united with the Trinity Reform church, continuing faithful in church and being secretary of Sunday school while living in that place.

There being being no church of that denomination in Mishawaka he had not been identified with any church. He was a very steady, home-loving young man, who spent his leisure hours largely at home, studying and reading good books and papers.

Last summer while building the family residence he fell, hurting himself considerabley, although it was not thought to be serious, but had not enjoyed health since, and last Saturday he was taken with sudden and extreme pain which terminated in death on Monday morning at 3 o'clock.

He was highly respected and beloved by all his acquaintances. He leaves to mourn his departure, of his near relatives, his father and mother, Adam and Elizabeth Spangler, three sisters, Misses Pearl, Madge and Jennie, and one brother, Harry. Thus suddenly one is taken in the morning of life; he will be missed by many but especially by the home of which he was a member.

The funeral services were held at the Baptist church at 2:30 Thursday afternoon, the Rev. B. P. Hewitt officiating.

At the city cemetery, while the choir sang "Asleep in Jesus" he was slowly and mournfully lowered to his resting place. beneath a bank of beautiful flowers, flowers which seemed like angel visitors whispering sweet tidings of that pure land where their bloom is fadeless.

After a long and painful illness with that dreadful disease consumption, Miss Margaret Gallagher died at the home of her sister, Mrs. Peter Keller, in this city, Monday evening, aged 20 years.

She was buried in St. Michael cemetary, Plymouth, Wednesday. She was born at Hamlet, Ind., and was the youngest child of Mr. and Mrs. Peter Gallagher, deceased.

She leaves to mourn their loss, four brothers and two sisters. The deceased was a very estimable young lady and leaves a large circle of friends.

If you wish to purchase a nice Christmas present for your girl, call and see that fine line of jewelry at Bradley's.

Quite a number of our citizens heard James Whitcomb Riley at Logansport last Friday evening, and were well pleased with the entertainment given by the "Hoosier Poet." Gov.-elect Durbin was also present.

A first class line of jewelry can be found at Bradley's, Warranted

Owing to the cases of diphtheria at the Richard Patsel residence, vest of town, the school board deemed it advisable to close the public schools, which took effect for an indefinite period, Monday. Thus far no new cases have been reported, and as the afflicted family reside outside the corporation, it is hoped by observing a strict quarantine, that it will not spread further.

D. A. Bradley has positively a dandy line of candy for the holiday trade. No trashy, trash, but excellent goods at reasonable prices.

### LONG PRISON TERM.

A CONVICT DIES AFTER MANY YEARS CONFINEMENT.

Convicted of Murdering His Wife, He Protests His Innocence with His Dying Breath-Officers and Toughs Have Desperate Fight and All Are Wounded

George Knight, whose prison service of forty-three years is a record unequaled, died at the State prison at Thomaston, Me., aged 83 years. He had been in poor health for several years, but had been buoyed up by the hope that he would be pardoned. A few days ago in a fit of despondency, he slashed his throat with a razor and gradually his life ebbed away, following the loss of blood and the shock to his system. On his death bed he was pressed to make a dying confession, but he continued to assert his innocence to the last and his final words were: "I have told all I have to tell. I never murdered my wife, never." Knight was convicted of the murder of his wife Oct. 6, 1856, in Poland. He was an industrious farmer and married the widow of his brother, she being 61 and he 40. The disparity of their ages was a source of domestic difference. One night during his absence she was found with her throat cut and he was convicted on circumstantial evidence, the strongest piece being the testimony of a girl that she saw the shadow of a man resembling Knight in the house that night. He was sentenced to be hanged, but the sentence was commuted to life imprisonment.

### LIFE STAKED ON DICE THROW.

Ohio Youths Are Forming a Suicide Club of New Character.

A "yearly die" game, in which the stakes are life or death, is the purpose of a suicide club which George Jackson and George Wallace, two well-known young men of Oxford, Ohio, declare they are organizing. The membership is to be thirteen, of whom they say they have already secured five. They expect to secure the others in time to have the first game on the opening day of the twentieth century. The plan is that on each New Year's the members shall assemble and shake dice to determine who shall die by his own hand within the twelve months following.

### FIERCE FIGHT IN OKLAHOMA.

Two Deputy Sheriffs Arrest Three Rowdies and All Are Wounded. T. Deputy Sheriff Jesse W. Morris and Special Deputy Alfred Acress attempted to arrest George Williams, Mart Williams and George Call, a half-breed Indian. A desperate fight ensued. Deputy Morris received a bullet through the right lung. Acress is shot through the right knee, the Indian has two bullet wounds in his body and one in his nose and cheek, while George Williams has wounds in the left leg and Mart Williams has one through both jaws. The outlaws are all under

Crime of a Wisconsin Boy.

Earl Mosher, 17 years old, assaulted and robbed Carl Grover, aged 72, near Galesville, Wis., leaving the old man for dead. The boy rode with Grover in his wagon a short distance, and then hit the farmer several times with a stone, fracturing his skull. He then threw him out and beat his head into a jelly and robbed him of about \$25. The boy was arrested and has confessed.

Acid Wrecks 'Phone System.

The Austin, Texas, telephone exchange was nearly wrecked by some one who reached the roof of the exchange building, and boring a hole into each of the fifteen cables entering the main exchange, poured liberal quantities of prussic acid on the wires, which incapacitated them and effectually stopped all business of the exchange.

France Planning for War.

France has passed the naval bill without any amendments, and thereby placed herself on record as of all nations in the world being the most active in the matter of immediate and immense armament. The program calls for the expenditure of \$150,000,000 and includes the building of 270 war vessels.

Lumberman Takes His Life. After being discharged from a Philadelphia hospital W. Charles Kneracter west directly to the Reese House and nitted suicide by taking poison. From s found in the man's clothes it was ed that he was the senior member of rm of Kaeracter & Waite of Brai-

Lumber Fire at Tower, Minu.

Tower, Minn., had a narrow escape 10,000,000 feet of lumber belonging to the Tower Lumber Company, causing a loss of \$130,000. The wind at first blew directly toward the town, carrying a storm of fire brands, but it shifted later, removing the danger.

Long Strike Is Ended.

The independent blowers, gatherers, cutters and flatteners in window glass workers' circles throughout the Indiana gas belt are preparing to seek work in any and all factories where they can find it, the long strike being ended.

Fatal Explosion in a Tunnel.

Gas that had accumulated in a new railroad tunnel exploded, killing four men and injuring six others. The tunnel is being built on the cut-off of the Union Pacific road between Aspen and Hilliard, Wyo.

VICTIM OF NEGRO CHILDREN.

Throw Stones and Brick Upon Little Rachael Brown and Crush Her.

With her skull crushed and her spine shattered, little Rachael Brown of Bridgeton, N. J., a beautiful white child, scarcely 7 years of age, was buried under a pile of rocks and bricks hurled at by Bertha and Anna Clark, Bertha Clark cried herself to sleep in the station house while her mother, with little Anna in her arms, camped out somewhere in the Clark is less than 9 years old, and Anna is two years younger. They live near the home of Rachael Brown, and were child before. Nobody knows how the trouble started, but when the crowd of negro children was driven off by passersby nearly a bushel of stones had been thrown upon the prostrate girl. She was taken to her home, and a physician pronounced her injuries fatal. Warrants were issued for the Clark children. When Officer Smith attempted to serve them he was set upon and terribly beaten by their mother. She finally caught up the younger girl and fled.

### FABULOUS FIND IN ALASKA.

Some \$34,000 in Gold Is Taken from

Ground Sixteen Feet Equare. The richest gold discovery since the Klondike was found is reported from Yellow river, a tributary of the Kushokwim, 300 miles from the Yukon. R. M. Morressy was shown \$34,000 brought from the new diggings by John Abenson and partner at St. Michael's. Abenson had just arrived, having hired Indians to help them pack their hold-out to Yukon. These men say the discovery was made by a bunch of twelve prospectors who went to Kushokwim in July from Holy Cross mission. Ten of them are wintering at the diggings. Morressy leaves Skaguay at once for the 2,100-mile trip over the Yellow river, intending to be the thirteenth man there. Abenson and partner are Swedes and went to St. Mi chael's primarily to secure citizenship papers, that they might hold claims. Their gold was taken from a piece of ground only sixteen feet square. They prospected Yellow river for three miles, finding prospects everywhere.

TO LAY A LONG PACIFIC CABLE.

New British Line to Run from Vanconver to Queensland. The Pacific Cable Company has accept

ed in behalf of the governments of Great Britain, New South Wales, Queensland and New Zealand the bid of the Telegraph Construction and Maintenance Company to make and lay cable from Vancouver to Queensland and New Zealand, via Fanning, Fiji and Norfolk Islands, for £1,795,000, the work to be finished at the end of 1902.

\$100,000 FISHED FROM RIVER.

Adams Express Company Recovers

Safe Lost in Train Wreck. Adams Express Company officials have recovered \$100,000 from the bed of the Ohio river, just below Beaver, Pa. A safe which contained the money had been given up for lost. It was the most valuable relic of the recent disaster to the Cleveland Express, which rolled into the water on the Cleveland and Pittsburg Railroad near Vanport.

Big Battleship Is Injured.

Orders have been issued in the Brook lyn navy yard to rush the work of cleaning the big dry dock No. 3, as the battleship Massachusetts, badly injured, was on the way to Brooklyn, and would have to be dry-docked immediately upon reaching there. Aside from the order none of the officers of the yard would talk about the accident to the battleship.

Pardoned by Pingres.

Gen. Will L. White, ex-quartermaster general of the State of Michigan, and Gen. Arthur F. Marsh, ex-inspector general, both convicted of complicity in the military clothing steal by which the State was defrauded of \$43,000, were pardoned by Gov. Pingree on condition that they each pay into the State a fine of \$1,000 ; year for five years.

Railway Magnute Is Killed.

Henry J. Hayden, vice-president of the New York Central and Hudson River Railroad, jumped or fell from the fourthstory window of his residence in New from destruction by a fire that destroyed York and was killed. He was a sufferer from nervousness and heart trouble.

> Charles W. Morgan Assigns. Charles W. Morgan, who did business

in New York and Philadelphia under the name of C. W. Morgan & Co., stock brokers, made an assignment for the benefit of his creditors to Bert Hanson, a lawyer.

Operators on Strike.

Every train between Galveston and Purcell on the Gulf, Colorado and Santa Fe was tied up the other day through the telegraph operators having gone on strike.

Warships on Secret Trips.

Admiral Kautz received orders to sail without delay to South America, and in accordance with these instructions both the Iowa and Philadelphia have left San Diego, Cal.

### LIFE LOST IN FIRE.

Several Others Injured in the Burning of the Mesker Iron Works.

One of the most destructive fires that ever visited Evansville, Ind., took place the other morning. As a result one life was lost, several persons were injured, and the large structural iron works of George L. Mesker & Co., on First street, and Loewenthal's commission house were totally destroyed, with a loss of \$105,000, while other buildings were damaged. The entire loss from the fire will reach \$110,000. The firemen killed and injured were caught by a falling brick wall. The fire is thought to have originated in the molding department of the iron works.

### NATURAL GAS IN MINNESOTA.

Discovery at Butterfield in That State Causes Excitement.

Natural gas has been discovered at Butterfield, Minn. The Chicago and Northwestern Railroad Company had a 350-foot tubular well there to supply the engines. Hitherto it has yielded nothing but water, but suddenly exhibited new symptoms. When a pump repairer lighted a match there was an explosion which wrecked the building. A stream of fire shot upward 100 feet and burned steadily until the opening was shut. There is great local excitement over the dis-

Four Months for a Killing. Owen Squire, 18 years old, convicted of manslaughter in the second degree for the killing of Lizzie Hiergesill, has been sentenced in Long Island City to only four months in the county jail. Many women from Richmond Hill pleaded for elemency, believing the boy's story that

Drops Can of Nitroglyccrin. Chas, Ford, while lifting a can of nitro glycerin from a wagon on the Gill farm, Wilson run, Ohio, accidentally dropped

the shooting was purely accidental.

the can and an explosion followed. A few minutes later pieces of his remains were picked up, scattered in all directions.

Merchant Kills Two Men.

Dr. Thompson of Williamsport, Pa., and his friend, Adam Bailey of Panther, W. Va., were shot and killed by James H. Chambers, a leading Panther merchant. The tragedy was the outcome of shot four men. a business transaction between Chambers and the doctor.

Long Lost Ring Pound in a Hog. George Smith killed a hog near Rochester, N. Y., and found a diamond ring in its stomach. The ring was lost years ago and Miss Mabel Smith, to whom it belonged, accused Bertha O'Brien of stealing it. Miss O'Brien disappeared from home and has not been heard from since.

Two Men Killed in Wreck,

An east-bound Northern Pacific overland passenger train was derailed at a siding half a mile east of Rocker, Mont, Two men were instantly killed. Engineer Nat Kellam was severely scalded and Fireman Ole Olson was slightly burned.

Fails for Three Millions. A. K. Housekeeper of Nurberth, Pa.

was discharged as a voluntary bankrupt in the United States District Court, with liabilities of \$2,891,093.43 and assets of ODD DISEASE KILLS CATTLE.

South Dakota Stockmen Puzzled by

a Mysterious Malady. All attempts on the part of the most experienced veterinarians in South Dakota to discover the cause of a peculiar and mysterious malady which is killing hundreds of cattle in various portions of cessful. During the past month or six Induspapolis-Cattle, shipping, \$3.00 to weeks cattle aggregating many thousands sult of being attacked by the mysterious ailment. Most of the losses result soon fields to cat the stalks after the cars have been picked. The general belief is that it is due to a greenish bug which was first noticed several years ago on the Missouri river bottom lands in Charles Mix County. Just before they die the cattle appear to become crazy and run about like wild animals. Barbed wire fences are not strong enough to stop them in their wild flight. Before death they bloat and after they fall to the ground bloody foam issues from their mouths and nostrils.

### BRAVE FLAGMAN IS KILLED.

William Krider, While Attempting to

Save a Woman, Is Run Over. While attempting to rescue Mrs. Soderstrom from being crushed beneath the wheels of a Pittsburg and Fort Wayne train at Thirty-third street, Chicago, shortly before noon the other day, William Krider, a flagman, was instantly killed. Mrs. Soderstrom attempted to cross the track while preoccupied. A passenger train was rapidly approaching from the north. The flagman shouted to the woman, warning her of her danger, but she did not appear to hear him. Krider then sprang forward and attempted to drag Mrs. Soderstrom from the track. He partially succeeded in his effort, but saved the woman's life only by the sacrifice of his own. His body was ground beneath the wheels of the locomotive, while Mrs. Soderstrom was thrown to one side by the engine. Her left wrist was broken, her head cut and some of her ribs broken. Krider was 50 years old.

### MANAGER STEALS \$50,000.

William M. Gates, New York Insurance Man, Escapes by Courtesy.

After having served for twenty-three years in the New York insurance firm of Frank & Du Bois, whose employ he entered as an errand boy, and after having been advanced until he had full charge of the office as manager, William M. Gates, it is asserted, confessed that he had long been robbing his employers and was involved in ruin. The full amount of his alleged stealings is not yet known, but it is believed be has taken \$50,000, perhaps more. He is now a fugitive through the courtesy of the men he is said to have robbed, who were reluctant to see him imprisoned and who offered him the opportunity of escape.

### BURN TEXAS MAN TO DEATH.

Fiends Soak His Clothes With Turpentine and Ignite Them.

John Baines, a former constable, was murdered in a most shocking manner at Dallas, Texas. The police found him running wildly in Elm street, all on fire. His eyes had been burned out, his clothing saturated with turpentine and ignited. He lived one hour, perfectly conscious. He made a dying statement to the State's Attorney, on the strength of which John Chapman and Ed. Faulkner, saloonkeepers, were arrested, charged with the murder.

Two Peaths Due to a Fight. At Tishomingo, I. T., Robert Patrick was shot dead by Samuel Keel while endeavoring to stop a quarrel between Keel and some neighbors. In a scuffle that followed Keel was shot through the shoulder and seriously wounded by Sim Tyson, who escaped. Patrick's father, who was 80 years old, upon hearing of his son's death, dropped dead.

Keeps Whole Town at Bay. Only the prompt arrival of Sheriff Byrnes and four deputies summoned from Columbus prevented additional bloodshed as a culminating tragedy to a series of shooting affrays which occurred at Platte Center, Neb. W. J. Gentleman, the wealthy stock man who caused the trouble, held the entire village at bay and

Hit at Standard Oil Trust,

The Nebraska Supreme Court hit, the Standard Oil Company a hard rap when it sustained the motion of the Attorney General ordering the company to produce its books and records for inspection. The court also declared it had jurisdiction to try the case.

Eagan Is Restored.

Brig. Gen. Charles P. Eagan, whose connection with the army beef scandals caused his s spension from the position of commissary general of subsistence on Feb. 9, 1899, was restored to duty, and immediately following was placed on the retired list.

France Absorbs Two Islands.

Consul Doty, at Tahiti, has informed the State Department that on the 15th of August last the Islands of Kumter and by France. These islands are of small | workers at present. commercial importance.

TERMS AGREED UPON.

UNDERSTANDING REACHED ON CHINESE OUESTION.

Compromise Is Made-Conferences Are to Begin Soon-Inability of Court to Inflict Death Penalty Recognized-Provisions Regarding Indemnity.

The acute phase of the crisis in the Chinese negotiations was passed Wednesday, when all the interested nations reached a harmonious agreement in regard to the demands to be made on the Chinese government, to which assent must be given before formal peace negotiations may begin. Instructions were sent to Minister Conger by Secretary Hay to sign the preliminary agreement, and it is now assured that the formal conferences between Li-Hung-Chang and Prince Ching, the Chinese plenipotentiaries, and the ministers of the powers will be initiated shortly.

Advices were received at the State Department from Mr. Conger that the ministers had modified the agreement in accordance with the instructions sent to their representatives by the respective governments. The agreement was necessarily a compromise, but on the whole it is satisfactory to the United States, the two main points of punishment and indemnity being arranged in conformity with the views of the President and Secretary of State. The State Department learned that an agreement such as that reached would be acceptable, if not wholly satisfactory, to the other powers, Compromise on Punishments.

The main question at issue was that of punishments. The ministers had adopted an article of the agreement which provided that twelve Chinese dignitaries should be executed for their complicity in the anti-foreign troubles. To this the United States objected on the ground that the Chinese imperial authorities or the powers were unable to inflict such severe sentences on the powerful officials named, chief of whom was Prince Tuan, the father of the heir apparent to the throne. Russia promptly came to the support of the United States in this contention, and all the other nations followed suit with the exception of Germany, which desired the most exemplary punishment inflicted on those who were directly responsible for the murder of Baron von Ketteler.

As a result of exchanges within the last week Germany, it is understood, has come around to this view that the Chinese government, which is charged by the powers with the infliction of the punishments, was unable to carry out capital sentences on the principal offenders. Guaranties, however, must be given that these men will be punished severely, and the powers must have evidence that the punishments have been carried out in good faith. carried out in

As to indemnity, the agreement contains a provision that the Chinese government shall acknowledge liability for 'ajuries to governments, corporations and persons, and agree to pay damages, actual and exemplary, to be fixed hereafter in such manner as the peace plenipotentiaries shall decide. The amounts to be paid are not fixed nor is any limit of indemnity named. This government and Russia favor the transfer of the indemnity question to the permanent court of arbitration at The Hague, of which ex-President Harrison, Chief Justice Fuller, Attorney General Griggs and Judge Gary of Delaware, formerly United States Senator, are the American members,

All the other demands heretofore adopted by the ministers are included in the agreement, with no material modifications. These embrace the proposals of France and Germany, the more radical being suggested from Berlin. While objecting to some of them, this government devoted its efforts mainly to securing modifications of the punishment and indemnity clauses, and was finally obliged to appeal to the powers over the heads. of the ministers in Pekin to bring about the adoption of less severe demands in these matters.

A new convent has just been dedicated for the Carmelite nuns at Thibodaux,

The Sunday schools of the Methodist denomination in the country have given nearly \$200,000 to foreign missions.

No less than 856,156 copies of the Bible or parts of it were circulated in China last year, a gain of 15 per cent over previous years.

The Rev. Fred W. C. Meyer of New Haven, Conn., has become pastor of the First German Baptist Church of Milwankee, Wis.

C. D. Kenny, a merchant of Baltimore, is to build a Catholic church in Elkridge, Md., to cost \$25,000, and to be a memorial to his brother.

The Rev. George L. Perin, pastor of the Every Day Universalist Church in Boston, has accepted the invitation of his denomination to endeavor to raise \$200,-000 for the cause of Universalism in America.

Dr. Edward Everett Hale, in spite of his years, continues to be active in the work of the Boston Associated Charities, and himself does much of the necessary personal investigation and visiting among the poor of the city.

There are many applications from clergymen and others who desire to fill the gaps made in the mission fields of China by the death of workers, but the mission-Kimatara, in the Pacific, were annexed ary societies are not sending out any new

### THE OLD VETERANS.

Wednesday Dec. 12, will long be rem-imbered by our citizens, as it was the day when the first Grand Army Post was mustered in Culver. Comrade Johnson of Plymouth mustered in the post at one o'clock p. m, after which the following officers were elected and installed by department Commander, David E. Beem of Indianapolis:

P. C., Ezra Blanchard. S. V. C., Jacob E. Myers. J. V. C., Samu I Osborn, O. D., Jason D. Rhodes. O. G., Nathanie Gandy. Chaptain, George Ulery, Surgeon, Dr. O. A. R-a. Q. M., Martin Hemminger. Adjt, Michael Baker. Sergeant Major, George Peeples.

Q. M. Sergeant, Walter Geiselman. CAMPFIRE.

In the evening K. of P. hall was well filled with citizens of Culver and vicinity to help the old veterans celebrate the event by participating in an old-fashioned campfire. By request, Department Commander, Beemer presided and opened the meeting by a description of "Pat's the heautiful and famous Lake Max-Cadet Ray S., who has been very inkuckee. After divine blessing had Plymouth made a few very approto the academy until after Christmas. | Smock, delivered a most excellent address which embodied sound advice to the members of the Henry Speyer Post. Very interesting campfire stories were told by comrades. The vocal music was furnished by Dr. Wiseman and was highly appreciated.

GREAT INTERNATIONAL SHOW HELD IN CHICAGO.

Nothing in This Country to Compare with It-Many Lxhibits Pertaining to Breeders' Interests Shown-Progress Made in Last Century Displayed.

Thousands of live stock owners and funciers, together with others interested, have attended the big international live stock exhibition held at the stock yards in Chicago. The exposition has eclipsed fourfold anything of a similar character ever before held. There is no show held in this country with which the international live stock exposition can be compared, but in Great Britain the royal show at York, which held its sixty-hest annual event this year, is somewhat of a prototype of this, except that it has royally for its officers.

At the New York show this year there were, including live stock, poultry and farm products, 389 classes, while at the international there are upward of 600 classes on cattle, sheep, hogs and norses, to say nothing of the packing house and other side exhibits. Dairy cattle were shown at York, as were also all classes of horses, while the Chicago show only recognized beef cattle, the mutton breeds of sheep, swine and draft horses.

The exposition included great breeders' prize exhibition of cattle, horses, sheep and swine, a comprehensive edible meat show of a character never before attempted, a display of dressed meats and food products, showing the complete utilization of all parts of the animal used for food, and in addition those parts which enter other fields of commerce. Slaughter tests were made to determine the results of different methods of feeding used in preparing live stock for mar-

There were also feeding demonstrations under the guidance of the Department of Agriculture and the staffs of the agricultural experiment stations, intercollegiate animal judging contests, in order that the knowledge of live stock raising may be made more certain; a display of draft horses in breeding classes and in harness not in the nature of a full-dress parade, but demonstrating what there is in properly bred general utility horses. Transportation appliances of all kinds, both for live animals and meats.

In addition to this there were car loads of fat and range stock in the general yard, comprising cattle, sheep and hogs from nearly every State in the Union, All of the breeding associations of the United States and Canada and stock-

COMMISSIONER PECK'S REPORT.

Detailed Statement of Expenses at the Paris Exposition. Commissioner General Ferdinand W.

Peck reports the total expenditures incident to the Paris exposition, of which he is chairman, for the last year at \$939,465. His report for the year ending Nov. 15 was transmitted to Congress Tuesday and attracted considerable attention. Among the items quoted in the report are the following:

part man tone tone in ing.	
Experts' salaries	.\$145,605
For jury	. 53,748
Clerks' salaries	. 63,145
Salaries of general employes and la	1-
borers	49,965
Salaries of officers	18,500
Salaries of commissioners	. 20,591
Salaries to additional commissioner	19 516
Educates to additional commissioner	s 12,516
Flags and bunting	. 7.018
Stationery	4,444
Printing	. 5,443
Traveling expenses	. 52,530
Freight charges	. 19,578
Buildings and other constructions.	. 191,421

Signs and decorations	. 11,991
Furniture	. 11,813
Facades around exhibit department	s 38,990
Telegraph and cable	7,239
Showcase construction	29,683
Contingent expenses	
Cab and omnibus hire	6,519
Though and warmen allow become at	Tone Same

There are many other items of less importance or interest. Leading Democrats declare they will demand a congressional investigation of Commissioner Peck's accounts, and the Republican leaders say they have no objections to a searching inquiry.

### FISCAL YEAR ESTIMATES.

Secretary Gage Asks \$626,741,762 as 1902 Budget.

A grand total of \$626,741,762 will cover the government's expenses for the next fiscal year, according to the estimates of the Secretary of the Treasury. This estimate is for the year ending June 30, 1902. For the year ending June 30 1901, the estimate was \$631,081,995, but the amount appropriated was only \$586,. 655,363.

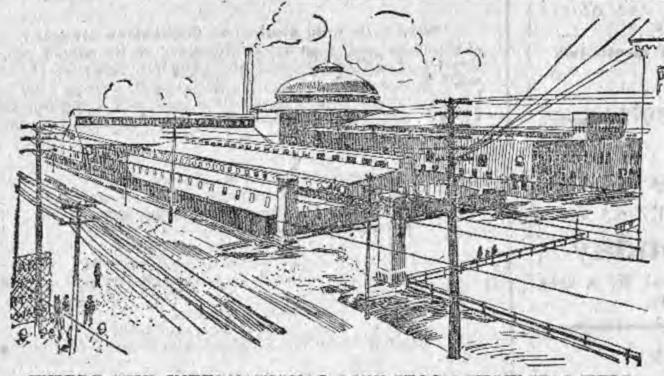

Secretary Gage recapitulates the estimated amounts for 1902 for various de-

partments as follows:
Legislative\$ 10,956,700.45
Executive 283,400.00
State Department 2,125,148.76
Treasury Department 158,869,136.43
War Department 176,658,345.75
Navy Department 88,913,248.76
Interior Department 170,799,705.09
Postoffice Department 6,295,877.00
Department of Agriculture 4,069,050,00
Department of Labor 177,980.00
Department of Justice 6,993,170.00
Grand total\$826,741,762.24

KLONDIKE OUTPUT \$9,000,000.

Season's Figure Reached Through Rcport of Canadian Royalties.

Maj. Wood, commanding the Canadian mounted police in the Yukon territory, who collects the royalties on gold, reports the collection this year on the Klondike men's associations representing the in- output as amounting to nearly \$900,000,

WHERE THE INTERNATIONAL LIVE STOCK SHOW WAS HELD.

terests combined in the exposition held about \$100,000 more than was received their annual meetings in Chicago during the time of the exposition.

Primarily the object of the international live stock exposition was to display the progress and improvement that has been made in the live stock world in the nineteenth century and to furnish an incentive for future upbuilding. The exposition was not founded as a moneymaking enterprise, but had its inception in the wishes of the numerous breeding associations which meet annually in Chicago, who held that Chicago, the leading live stock market on earth, would be the place and now the time to show what 100 years have done in that industry.

There were 1,400 breeding cattle, representing the best breeding establishments in the United States and Canada, with noted animals from England and Scotland. Blooded sheep to the number of 1,000 or more, 400 draft horses in breeding and harness classes and fancy swine in great numbers were shown. Dexter Park amphitheater and all of the numerous horse barns owned by the Union Stockyards Company were used for housing the animals, including a temporary structure for the sheep and hogs, erect ed at a cost of \$20,000. Sales of thoroughbred animals were held during the exposition. More than sixty judges were required to pass on the 300 classes of stock on which prizes were offered. Five hundred live stock men from all points bring them from Toronto. The agricultural departments of Mexico, South America, France and Germany were represented. It is estimated that more than 100,000 visitors attended the show.

This and That,

Damage by floods to California celery fields is placed at \$150,000.

Corsicana, Texas, bottling works burned. Loss \$25,000.

Wm. Goepper, Cincinnati, attempted to kill his wife, then killed himself.

Kutie Kramer, 16, Chicago, has been locked up. She has a mania for destroy-

ing window panes.

Mrs. Frances Milford, Middletown, N. Y., whom Nelson Skinner tried to murder by foreing carbolic acid down her throat. died. Skinner drank a quantity of acid reduced price or make some sort of a and died.

last year. Ten per cent of the gold mined is supposed to be paid to the government, which would indicate that the Klondike output for the season was only \$9,000,000, while the general estimate placed it at nearly \$20,000,000.

### できたるできたちがらがらにもなるかのだ Few-Line Interviews. だりだらにひだりだらだらだりだらだらだ

Senator Money of Mississippi: "If an attempt is made to reduce the congressional representation from the South, I, for one, will be willing to talk from the 3d day of December to noon on the 4th day of March. And it won't be wind, either. It will be a speech worth listening to. I have been preparing for this fight for some time."

Alleyne Ireland, in a lecture at the University of Chicago; "The Chinaman has an immense advantage over the white man, as he can go to the tropics and thrive there. He has the same climatic discipline as the English and German, but he alone has the physiological power to adapt himself to the cold of the north and the heat of the tropics. I think the tropical regions will ultimately be largely Chinese. China will not be divided up piecemeal because England and the United States object, and as the southern in Canada chartered a special train to provinces are sub-tropical, the Chinaman has the white man at a disadvantage."

> 0 -1-1 S. T. Thomas of Chicago: "One reason and a very good reason, too, why rubbers do not last longer is that so many of them are made-over rubbers. All the junk men in the country are doing a good business gathering up old, discarded rubbers from the streets and waste barrels and shipping them to the Eastern factories, where they are made over into "brand new" stock. Of course such stock does not wear like the genuinely new article, and so it happens that a good rubber will be mated with a rejuvenated article, and when the latter gives out after a week or ten days' wear, why the unfortunate purchaser gets after the innocent retail er and he has to put up a new pair at a compromise."

up consideration of the army reorganization bill on Wednesday, Messrs. Hull (Iowa), Grosvenor (Ohio) and Parker (N. J.) spoke in support of it, and Messrs. McCall (Mass.), Cochran (Mo.), Kleberg (Texas), McClellan (N. Y.), Shafroth (Colo.), Commings (N. Y.) and Cox (Tenn.) against it.

On Thursday the House, after having had the army reorganization bill under consideration for two days, passed it by a vote of 166 to 133. A heated discussion was precipitated by an amendment offered by Representative Littlefield (Me.), and finally adopted, embodying the recommendations of the W. C. T. U. for the abolition of the canteen. The bill provides for a fighting force of 96,280 men. The fact that both Representatives Grosvenor and Dick of Ohio, who speech on the ship subsidy bill. are generally credited with being the monthpieces of the administration on the floor, made speeches indorsing the Littlefield amendment prohibiting the sale of liquors on military reservations and at military posts was accepted by a majority of the Republicans of the House as a direct intimation that the President wanted the canteen abolished, and consequently they voted almost solidly for the amendment. The bill passed is generally known as the Corbin-Hull bill and was the first measure to receive the indorsement of President McKinley. An effort is to be made to force it through the Senate before the Christmas holidays, se that the work of getting new men into the Philippines and the old volunteers home may be accomplished before July 1.

Butter won a victory over oleomargarine in the House of Representatives on Friday. The final vote stood 196 to 92 in favor of taxing the imitation produet 10 cents a pound. There was a long debate. Those who favored the Grout bill claimed the additional tax on colored oleomargarine was the only effective remedy for preventing fraud upon the public, while those who opposed it contended that fraud would be prevented by the substitute and that the real parpose of the Grout bill was to desiroy the oleomargarine industry. Those who participated in the debate were Messrs. Henry (Rep., Conn.), Grout (Rep., Vt.), Lamb (Dem., Va.), Davidson (Rep., Wis.) and Tawney (Rep., Minn.) in favor of the bill and Messrs. Wadsworth (Rep., N. Y.), Lorimer (Rep., Ill.), Bailey (Rep., Kan.), Grosvenor (Rep., O.), Williams (Dem., Miss.), Foster (Dem., Ill.) and Bailey (Dem., Tex.) against it. The bill as passed makes "all articles known as oleomargarine, butterine, imitation butter or imitation cheese transported into any State or territory for consumption or sale, subject to the police power of such State or territory," but prevents any State or territory "frem ferbidding the transportation or sale of such product when produced and sold free from coloration in imitation of butter." The bill increases the tax on oleomargarine colored in imitation of butter from 2 to 10 cents a pound and decreases the tax on oleomargarine uncolored from 2 cents to 1/2 cent, a pound. An amendment was added putting the bill into effect July 1, 1901.

Under a special order adopted at the last session the House devoted Saturday after 1 o'clock to paying tribute to the memory of the late Representative Alfred C. Harmer of Pennsylvania. When the House met a bill was passed to include cherries in the list of fruits from which brandy can be distilled under section 3,255 of the revised statutes, after which the House took a recess until the hour set for the culogies, when memorial addresses were made by Messrs. Bingham other day Secretary Gage paid a tribute two years a sailor, ten years a soldier, of Pennsylvania, Cummings of New York, Grosvenor of Ohio, Adams of Pennsylvania. McCleary of Minnesota, White of North Carolina, McAlcer of Pennsylvania, De Armond of Missouri, Otey of Virginia and De Morrell of

Pennsylvania. The first of the great supply bills-the legislative, executive and judicial appropriation bill-was passed by the House an Monday in record time. The bill carries \$24,496,308 and has 131 pages, but there was less than ten minutes' debate upon it. An amendment providing for twelve additional temporary clerks to dispose of the accumulated business in the office of the comptroller of the treasury was adopted. Mr. Bingham (Pa.), who was in charge of the measure, tendered his thanks to the House for the confidence shown in the appropriations committee. It required about three hours for the clerk to read the bill. No other business was transacted.

On Tuesday the Senate accepted credentials of Jonathan P. Dolliver of Iowa as successor to the late Senator Gear of Iowa. Passed bill appropriating \$250, 000 in aid of interstate exposition at Charleston, S. C., in 1901, and admitting exhibits thereat free of duty. By a vote of 38 to 20 decided to take up the ship subsidy bill as unfinished business, and Mr. Frye spoke at length in support of the measure.

The Senate on Wednesday passed bills permitting Captain B. H. McCalla and Commander W. C. Wise of the United States navy to accept decorations from the Emperor of Germany; also House bill providing for the celebration of the centennial anniversary of the establishment of the national capital in Washington. Listened to Mr. Pryc's closing

The Senate was in executive session for more than four hours on Thursday the entire time being devoted to the discussion by Senator Morgan of Alabama of the Hay-Pauncefote treaty for the abrogation of the portion of the Clayton-Bulwer treaty which relates to the Nicaragua canal. The Senate passed a bill providing for a bridge across the Mississippi river at Dubuque, Iowa, so that draw shall be 175 instead of 200 feet.

In the Senate on Friday resolutions were received from the Southern industrial convention, in session at New Orleans, La., urging the passage of the ship subsidy bill. The rest of the day was devoted to executive session until adjournment was taken until next Monday. During the progress of the executive session, in connection with the Hay Pauncefote trenty, an amendment was offered by Senator Teller striking out the treaty prohibition against the fortification of the Nicaragua canal when constructed. Mr. Teller contended that if the United States desired to build the canal it should proceed to do so without trying to secure the consent of Great Britain. He said the opinion of Sccretary Hay that the abrogation of the Clay ton-Bulwer treaty was necessary as a preceding performance was only the opinion of one man, and he quoted from public documents to show that former Secretaries of State had differed in their opinions in this respect. He also showed that in some instances there had been breaches of the Clayton-Bulwer treaty.

On Monday Charles A. Towne of Min nesota, recently candidate of the Popu list party for Vice-President, was sworn in as United States Senator to succeed the late Cushman K. Davis. A number of Federal appointments were confirmed, and the principal part of the day was spent in executive session on the Hay Pauncefote trenty.

United States Senator Stewart of Nevada has had his name enrolled on the Republican caucus list.

### STRIKE OF TELEGRAPHER

Bix Hundred Operators in the West Join the Battle.

Six hundred telegraph operators on the lines of the Atchison, Topeka and Santa Fe Railroad struck Saturday in sympathy with the operators on the Gulf, Colorado and Santa Fe Railroad, a branch of the Atchison system, who went out Thursday. The entire number of operators on the system is 1,200, of whom 900 are said to be union men. Of the 900 members of the union 300, it is stated, refused to strike, leaving the system with about one-half of its men at work. The officials of the road declare that under no circumstances will they yield to the strikers and that none of them will ever again be allowed to work for the company in any capacity. The operators on the main line of the Atchison system demanded some weeks ago an increase in pay and some changes in rules. The negotiations with the company had reached an acute state when the company conceded the demands of the men and the trouble was averted. The new order of things did not prevail on the Gulf, Colorado and Santa Fe and the operators there demanded an increase of pay and alterations in the rules, whereby men were compelled to act as telegraph operators and station agents also. The demand was refused and the men went out. Saturday night the men on the main system went out in sympathy.

### MR. WU ON RELIGIONS

Compares the Teachings of Christ and of Confucius.

"The world is coming to Confucius. One of the signs is the growth of agnosticism," said Wu Ting Fang, Chinese minister to the United States, before a large audience in Carnegie Hall in Net/ York Sunday.

The Chinese minister was talking on "The Teachings of Confucius." He said that his religion and the religion of Christians agreed on the golden rule, but that outside of that all the advantage was on the side of the faith of Confucius. Wu regarded Christianity as a religion which it is impossible to follow. He quoted the precept "Love your enemies,", as a proof, and commented on it, saying that it was advice impossible to follow. He linked Horace Greeley and Confucius in their attitude of practicability and said that he agreed with them in their intensely human view of life.

"The advocates of various religious want to make heaven a private park for their own adherents," he said. "I do not believe heaven will be exclusive. It is my faith that good men will go there irrespective of dogma."

More young men are studying medicine than are studying law and theology combined. More young men are studying theology and medicine in Illinois than in any other State, although New York leads in the number of law students. The census will show only the medical, law and other students in the professional schools. There is no record of the thousands who for economy or other reasons are reading law and medicine in the offices of active practitioners. There are 23,778 young men in the medical colleges of the United States; less than half as many-11,871-in the law schools, and only about one-third as many 8,261 in the theological seminaries. The four States having the largest number of professional students are Illinois, New York. Pennsylvania and Missouri, as follows:

Law. New York .... 978 5,455 3,881 3,150 2,999 Illinois .....1,177 Peunsylvania . 742 1,279  $\frac{2,505}{2,212}$ Missouri ..... 567

A movement has been started by citizers of Minnesota to make a national park at the sources of the Mississippi river. As the primeval forests in the borders of the United States are rapidly decreasing, owing to the operations of lumbermen, it is felt that it will not be long before the people will have no means of knowing how old America looked in its original state. The regions around the headwaters of the Mississippi now constitute about all of the original dense woodlands left. The place has another attraction in being the home of the Indians whom Longfellow rendered celebrated in his poem, "Hiawatha." These red men are living there in about the same way they did centuries ago. and while they are harmless, their wild ways are an interesting relic of the past.

William Charles Harris, a soldier of Great Britain, and an American citizen, died at his home in Nevada, Story County. Iowa, a few days ago in his seventieth year. He was born at Bristol, Eng., At a meeting of treasury officials the Nov. 2, 1830, ran away to sea at 14, was to the late Internal Revenue Commis- five years an American plainsman and pioneer, and thirty-eight years a peaceful Iowa farmer. His most famous exploit was riding in the immortal charge of the Light Brigade at Balaclava, and although he passed unscathed from that trying ordleal, he was fourteen times wounded in battle, and carried in his head a silver quarter, which had replaced bits of skull broken by a bayonet.

Mr. and Mrs. Paul Reicke of California are in charge of a signal station on the brow of a lofty peak in the Sierra Nevada mountains, where they keep a sharp lookout, field glass in hand, for fires which might break out in the snowsheds that skirt the railroad through the It is positively denied that any rupture rocky wilds. If a small flame should pass unnoticed for an hour the whole chain of sheds might be consumed and the tracks endangered. The woman watches by day and her husband by night.

Go to Allman's Big Store for fine mufflers, neckwear, hosiery, cuffs, silk suspenders, gloves, etc., suitable for Christmas gifts. 22tf

Rev. U. Grant Houston preached an exc llent sermon in the Culver M. E. church last Sunday morning. His theme was, "The Crucifixion of Christ." Mr. Houston bas traveled extensively in the Holy Land, having made two trips to Palestine and also three tours in Europe.

No one can reasonably hope for good health unless his bowels move once each day. When this is not attended to, disorders of the stomach arise, billiousness, headache, dyspepsia and piles soon follow. If you wish to avoid these ailments keep your bowels regular by taking Chamberlain's Stomach and Liver Tablets when required, They are so easy to take and mild and gentle in effect. For sale by T. E. Slattery.

Two-seated carriage good as new for sale or trade at John Osborn's.

Prof. I. S. Hahn, delivered an excellent address at the Evangelical church, Sunday evening, and took for his subject, The Bible. He gave many clinching illustrations to prove that the "old book" was of divine origic, and said that although for ages certain factors had worked against its usefulne s, it still stood as a guide to these who read and believed its boly teachings. Voltaire, Ingersoll, and Payne have passed aray, and yet while they are only remembered as the greatest infidels of the age, the "Grand Old Book" is still guiding millions upon the road that leads to eternal life. The address was full of excellent thought and the professor received marked attention.

Oranges, Lemons and Bananas at John Osborn's.

Obituary.

John Thomas Clifton, fifth son of John A. Hauk has two children Nathan and Mary Clifton, was born in Union township, Marshall county, Indiana, May 23, 1853, and died in his home three quarters of a mile from the place of his birth, Dec. 6, 1900. He was united in marriage to Miss Ida Suider Aug. 25, 1878. They had no children. He leaves a wife, an aged mother, two brothers, five sisters and hosts of relatives and friends to mouru. His brother Charles, of Havelock, was with him life, except one year in Iowa, with his brother, Rev. C. W. Clifton. The high moral character he so nobly maintained throughout his life was shapened in a Methodist home. In 1890 he joined the Christian church with his wife. His life was above reproach-generous, kind, sympathetic. He purchased 60 acres with that energy that brings success, he paid for it, and was out of debt, a success any young man of good habits and perseverance may have.

About two years ago he was kicked in the back by a horse from which was a waisting away caused by inaction of the liver and kidneys. He was a great sufferer. His last words were, "Ida, over." He turned his ATTENTION!-Those desiring that eyes, as if to take one more look upwards and smiled as if he saw those on the other shore For he had said he "heard the sweetest

by their pastor, Rev. Lyttle, of Rochester, Ind., in Pcplar Grove church, and he was buried in the cemetery near by. The community has lost a valued friend, the rela tives a brother beloved, the wife an indulgent and affectionate husband and the mother, at the age of 82, leave all of her twelve children behind her, five having gone. We say "good by" to-night but so soon we will awaken to say "good morning in a better country.

### RECORD OF THE WEEK

INDIANA INCIDENTS TERSELY TOLD.

Expect to Make Money in Ginseng Culture-Country Shows Low Death Rate -Hermit's Will Is Found-Boxcar Murderer Must Hang.

A company of Muncie men wili soon embark in an entirely new business-that of raising ginseng for the market. The roots of this particular plant are in great demand for medicinal and other purposes, and the members of the Muncie company propose to go west and cultivate the plants. They report that they have been offered a hig tract of government land for the purpose and that the leading drug | product when produced and sold free markets have amuzed them by the prices offered for the roots. This will be the first organization of the kind in the State and the venture promises to be unusually profitable.

Death Rate High in Towns.

Secretary Hurty of the State Board of Health has prepared his annual report, which shows that the average death rate in Indiana for the year ended Sept. 30, 1900, was 14.09 per 1,000. The total number of deaths in the State in the twelve months was 35,458. The population of the cities and towns of the State is \$47,000 and the deaths in this class were 12,736, or 15.03 per 1,000. In the country districts the population is 1,069, 160 and the number of deaths 22,722, the death rate being 13.5 per 1,000.

Old Will Is Discovered.

A will made by Judge Horace P. Biddle, author and jurist as well as hermit, in 1882, has just been found by his favorate nicce and heir, Eva Peters Reynolds. At the time of his death, which was about a year ago, Mr. Biddle lived on an Island in the heart of Logansport. Since that time all search for the document has been in vain. The will does away with Logansport's chances of getting the 9,000 volume library and the remaining property will be contested for in the courts.

Murderer Sentenced to Hang.

In Terre Haute, on his plea of guilty, William Radeliffe was sentenced to be hanged Feb. 15, 1901, for the murder of | Virginia and the Rhode Island, are to be James Hogue in a box car of the Big Four road near that city. Daly, Radchire's accompace, was sentenced to forty | be unsheathed vessels, having the "quadyears in the penitcutiary. Radcliffe is | rilateral arrangement' of eight-inch turin a dying condition.

Boy Shot by His Father.

Amos Moore, a Martinsville carpenter, went hunting. His 7-year-old boy went out with him, and stopped in the weeds to tie his shoe. Just then a rubbit jumped up, and Moore fired, not seeing his son in range. The entire charge took effect in the boy's arm and legs, one shot plow ing the skull.

Child Drinks Fatal Potion.

John Fear, the 5-year old son of Lewis Fear of Marion, drank a quantity of concentrated lye, thinking it was water. The mother had placed the cup on a table and stopped out. When she returned the child was in the throes of death.

She died. John Koon, aged 69 years, of Evansville, while walking in his sleep fell from a second-story window and his neck was broken. Koon was worth \$50,000 and was an extensive land owner,

husband contemplated moving to town,

After being closed down eight months the South rolling mill in Terre Haute of the Republic Iron and Steel Company has resumed operations in all departments. The mill gives employment to 300 men.

At Lakeville Otto Robertson, a promiment St. Joseph County farmer, aged 30, tried to board a Vandalia freight train to ride to his home, slipped and fell so that his body was literally cut to pieces by the car wheels.

The Laruche window glass factory, a 10 per cent co-operative concern at Matthews, was destroyed by fire. The owners are mostly Hartford City workers. The loss is estimated at \$25,000, partially covered by insurance.

The two constitutional amendments which were voted on at the recent general election in this State, have failed to carry, according to an official declaration of Gov. Mount. The Indiana constitution provides that the amendments shall have received a majority of the votes of the electors of the State. Owing to ignorance and carelessness on the part of many voters they did not receive such a majority.

The Indiana Legislature, which assembles Jan. 10, will be called on by Gov. Mount to enact an anti-trust law. The Governor says that in his message to the General Assembly he would recommend the passage of a bill limiting the arbitrary power of combinations in trade which affect trade and labor.

OLEO BILL WINS OUT.

Grout Measure Taxing Colored Butterine Passed by a Decisive Vote.

The Grout oleo bill was passed by the House of Representatives by a vote of 198 to 92. The bill was fiercely contested and the vote surprised the advocates of colored butterine, who did not look for such a decisive defeat. Representative Lorimer's substitute bill, to prevent the sale of oleomargarine as butter, was defeated by 178 to 113. Several heated personal encounters between Mr. Lorimer and his opponents marked the course of the debate.

The bill as passed makes all articles known as oleomargarine, butterine, imitation butter or imitation cheese transported into any State or territory for consumption or sale subject to the police power of such State or territory, but prevents any State or territory from forbidding the transportation or sale of such from coloration in imitation of butter. The bill increases the tax on oleomargarine colored in imitation of butter from 2 to 10 cents a pound and decreases the tax on oleomargarine uncolored from 2 cents to 1/4 cent a pound.

Mr. Grout produced figures to show that oleomargarine cost less than 9 cents a pound and was worked off on the public by the retailer at from 18 to 30 cents a pound. He gave a practical illustration of the manner in which oleomargarine is sold by having brought into the House a boxful of packages of what looked like butter. Each was wrapped in brown wrapping paper. The packages were pass ed around, and after they had been examined Mr. Grout defied any one to tell whether they contained butter or aleomargarine. Then he turned up a corner of the wrapping paper which had been apparently carclessly folded down and displayed the printed sign "Oleomarga-

### WARSHIP BIDS OPEN.

Navy Department Has Estimates for Eleven New Vessels.

Bids have been opened at the Navy Department for the construction of five new battleships and six armored cruisers, aggregating a total displacement of 154,-000 tons, and comprising the largest consignment of material for the navy ever contracted for at a single bidding. Three of the five new battleships, the Pennsylvania, the New Jersey, the Georgia, the sheathed and coppered and will carry superimposed turrets; the other two are to

Each ship will carry four 12-inch guns. These are of the extraordinary length of forty calibers, or twenty feet in the bore, of the new type just turned out by the ordnance bureau, and superior in efficiency to any 12-inch gun in the world, and at least equal to the 13 inch guns which have marked the maximum caliber in the American navy. In the three sheathed vessels, a pair of S-inch guns will be mounted on the top of each of the 12-inch turrets. Four other 8-inch guns will be distributed in two turrets amidships on these two vessels.

The unsheathed vessels will have eight S-inch guns mounted in four independent turrets. Both classes of vessels, sheathed, and unsheathed, will have a broadside of twelve 6-inch rapid-fire guns on the main deck, besides twelve 14-pounders, twelve 2-pounders and a number of automatic guns, making the battery more formidable than any affoat as far as ability to concentrate fire and to throw weight of metal is concerned. In the matter of defensive power the battleships of both classes are unsurpassed.

### STRIKES THE CANTEEN.

House Embodies Prohibition Amendment in Military Bill.

The army bill passed the House embodying an amendment for the abolition of the army canteen. Representative Fitzgerald (Mass.) attempted to have the acres of oil land in Adams and Wells amendment broadened so as to prohibit the sale of intoxicating liquor upon government property, explaining that inasmuch as Congress was willing to deprive the soldiers of their beer the members should prove their unselfishness by prohibiting the sale of liquor at the capitol, but the motion was ruled out on a point of order.

The House divided almost on party lines. Representative McCall (Mass.), who is opposed to the administration on everything connected with expansion and colonial policy, was the only Republican who voted in the negative. Three Democrats-Representatives Clayton and Underhill (N. Y.) and Hall (Pa.)-broke away from party lines and voted with the Republicans in favor of the

Mr. Littlefield's substitute for the canteen provision of the bill reads:

"The sale of or dealing in beer, wine or any intoxicating liquors by any person in any post, exchange or canteen or army transport or upon any premises used for military purposes by the United States is hereby prohibited. The Secretary of War is bereby directed to carry the provisions of this section into full force and effect."

The amendment was adopted-159 to 51. Many members of the W. C. T. U. were in the gallery and loudly applauded the result.

Telegraphic Brevities. A Boston man shot a pure white deer in Aroostook County, Maine,

An aged woman was stoned in broad daylight on the streets of Rochester by a gang of toughs. Charges of unlawful dramatization of "The Little Minister" have been turned

into criminal proceedings at Chicago. Methodist ministers of Chicago passed a resolution requesting the President to recommend to Congress legislation to pre-

vent lynching. Sir Alfred Milner proclaimed that all the east coast ports of South Africa, between the tenth and fortieth parallels, were infected with bubonic plague.

New York-Business just now is influenced in a manner by the approach of the holidays. In retail lines there is greatly increased activity. Merchants generally report a highly satisfactory volume of holiday buying. Wholesale and manufacturing interests, on the other hand, are, in accordance with custom, devoting the present season largely to the work of stock taking and getting matters in shape for the first of the year. There is, therefore, little expansion to be noted in these lines. The volume of business is nothing in the nature of a boom. This feeling is in a measure reflected in the action of the stock markets. While the sales on the New York exchange continue fairly large, the movement of prices has become narrower, and the tendency this week has been in many cases to ease off. There is no longer the rush on the part of the public to load up with stocks. Money is working somewhat closer and bankers say the signs all paint to rather firm rates until after the disbursement of the interest and dividends due Jan. 1. These disbursements will be unusually heavy, and in preparing for them the banks may be compelled to temporarily withdraw considerable money from the open loan market.

Chicago-Grain markets were fairly firm and moderately active the present week, apparently feeling to a less degree than usual the approach of the holiday season. Speculators for a rise in wheat are encouraged by the reiteration of the reported serious damage to the wheat crop of Argentina, accompanied, as such advices were, by an estimate made by an Argentine journal of reputed conservative tendencies that the exportable surplus of this season's production would not be over 37,000,000 bushels, or about onehalf the quantity shipped abroad from the previous crop. A small reduction in the quantity of wheat in the domestic visible supply as the outcome of last week's receipts and shipments likewise aided in creating the improved tone of speculative sentiment. In the intervals between the receipt of news of an encouraging character the tendency was to return to the ever-present fact of the pres ent heavy supplies and the indication that they were in no immediate prospect of suffering a diminution sufficient to inspire apprehension concerning the future. Corn ruled strong because of a pointed reminder by the speculator under whose auspices the November short sellers were so badly punished that existing conditions were even more favorable than a month ago for a bold speculator to run another corner. There is virtually no old corn left, and the prevailing weather is against the sufficient curing of the new grain to make it pass inspection into the grade deliverable on speculative contracts. Such condition of the grain, however, cannot be of much longer continuance unless the weather should remain of a highly unfavorable character. The tendency of the market for hog products has been irregularly upward, the small stocks giving confidence to speculators, and some indi cation of lighter supplies of hogs in the near future likewise exercising a hardening effect upon prices.

### RATHBONE'S LAVISH EXPENSES.

Spent Money for "Any Old Thing" and Charge I It to Cuba's Account.

Senator Platt, Connecticut, chairman of the committee on relations with Cuba. has made public a statement from the auditing committee of the War Department showing the expenditures of E. G. Rathbone, late director of Cuban ports. The report covers 201 pages, and is a solid mass of figures. There is no comment. The committee makes disallow ances for sixteen months, the total being \$72,631. The disallowances include:

For a duchess carriage, \$850; set of harness, \$202: jipigapa hat for coachman, \$12; more harness, \$306; rent per month for coachman, stable, etc., \$110; coachman's boots, \$15; coachman's uniform, \$40; new tires for carriage, \$40; rain coat, \$26; bath tub, \$42; coachman's monthly laundry bill, from \$10 to \$20.

Many of the accounts credited to C. F. W. Neely were disallowed. Most payments made to him were for office furnishings, freight, advances in salaries, etc. Rathbone spent \$500 in one trip to the United States. Rathbone's residence seems to have been furnished at the cost of the government. Bills aggregating \$3,000 for household articles were found. There were bills for champagne, wine glasses, kitchen utensils, carpets, cloth, shirts, collars and cuffs.

The auditor recommended the disallowance of \$12,281 spent for repairs on the department building and also a deposit of \$12,000 erroneously credited to Rath-

### EIGHT DIE IN LAKE DISASTER. Ore Barge Charles Foster Plunges to

Bottom Off Eric, Pa. While a furious gale was sweeping Lake Eric early Sunday morning the ore barge Charles Foster, in tow of the Iron Duke, dived, nose first, to the bottom, ten miles off Erie, Pa., and eight persons were drowned. The Charles Foster was valued at \$19,000. There was no insurance. Capt. Bridges might have been ill in his bunk when the accident occurred. The last time he was seen by the crew of the Iron Duke was when they passed Sault Ste. Marie Thursday. There Ing. is from eighty to 100 feet of water where the wreck occurred, and there is little hope of locating the spot.

The loss of the Foster's crew runs the number of lives lost on the lakes this season up to 118. The previous total of 110 was already the largest for many seasons.

It Takes No Note of Time.

"On my return from Belchen I looked upon the beautiful villages of the Lewen valley," writes a traveler in Alsace, "and, being a tourist who likes to poke his nose into everything, I turned by chance into the church at Kirchberg. On coming out I took my watch to regulate it by the clock in the church tower. But there was no clock to be seen. I went to the village inn and there asked the time. But mine host could not oblige me.

"'You see,' he said, 'we have no use for clocks. In the morning we go by the smoke rising from the chimney at the parsonage up the hill. The parsonage people are very regular. We dine when dinner is ready. At 4 p. m. the whistle of the train coming from Massmunsted tells us that the time has come for another meal, and at night we know that it is time to go to bed when it is dark. On Sundays we go to church when the bell rings. Our parson is a very easy-going man; he doesn't mind beginning half an hour sooner or later.' "-Cincinnati Enquirer.

### HER HEART WAS TOUCHED.

A Scuth Dakota Mother and Her Little Girl Expresses Their Gratitude in an Open Letter. Folsom, Custer Co., South Dakota,

Dec. 10.-(Special.)-Mrs. H. D. Hyde has given for publication a letter expressing her unbounded gratitude to Dodd's Kidney Pills for the double cure of herself and little daughter.

Mrs. Hyde has been troubled with pains in her heart for over three years, and for a long time her little girl suffered from weak kidneys. The grateful lady does not seem able to find words strong enough to express her gratitude. She has written the following:

I cannot say too much in praise of Dodd's Kidney Pills. They are the greatest kidney and heart medicine I ever used. I had been troubled for over three years with a severe pain in my heart, which entirely disappeared after I had taken a few doses of Dodd's Kidney Pills. I also gave them to my little girl, whose kidneys had been weak. and she commenced to improve from the very first dose. Dodd's Kidney Pills are certainly a wonderful medicine. I would be pleased to have this, my statement, published, as I feel it my duty to let others know just what the Pills will do for them.

MRS, H. D. HYDE. Dodd's Kidney Pills always cure, 50c a box. All dealers.

The Truth at Last. "Oh, doctor, is it very dangerous to

wallow cement?"

"Very dangerous, indeed." "And gutta-percha, doctor?"

"Very serious."

### JAGE MAKES REPORT.

### Secretary Presents an Exhaustive Financial Statement.

Secretary of the Treasury Lyman J. Gage on Tuesday submitted to Congress his annual report. The report shows that the revenues of the government from all sources for the year ended June 30, 1900, were \$669,595,431.18. The principal items in this total are from internal revenue, \$295,327,926.76; from customs, \$223,164,871.16, and from the postal service, \$102,354,579.29.

Expenditures for the same period aggregated \$590,068,371, including \$140,-877,316 for pensions, \$134,774,767.78 for the military establishment, including rivers and harbors, forts, arsenals, sea coast defenses and the war in the Philippines; \$55,953,077.72 for naval establishment, and \$98,542,411.37 for the civil establishment. Interest on public debt was \$40, 160,333,270. This leaves a surplus of \$79,527,060.18.

Referring to the working of the new gold standard law, the report says:

"Promptly on the passage of the act of March 14, 1900, there were transferred to the divisions of issue and redemption the records and accounts relating to the issue and redemption of the government notes and certificates. Up to Oct, 1 the total redemptions in gold from the new reserve fund of \$150,000,000 were \$22,-530.854 in United States notes and \$3,-594,708 in treasury notes. The sums drawn from the reserve have been daily restored from the gold in the general fund. Exclusive of that reserve, the assets and liabilities of the new divisions were \$723,062,179 on June 30, and \$740, 965,679 on Nov. 1,

"Comparison of the state of the treasury shows an increase of \$24,887,093,39 in the available cash balance, exclusive of the reserve of \$150,000,000 for the year. The cash actually in the vaults of the treasury, as distinguished from the deposits in banks and other assets not consisting of money, increased by \$6,621,minutes. No boiling: no baking! Add 398.14. The most notable increase was water and set to cool. Flavors:—Lemon, in the smaller denominations of paper currency, which are in demand for moving the crops. Of these, the treasury held \$14,062,172 more than last year. The excess of assets over current liabilities was, on June 30, \$49,723,017.60 in 1899, and \$50,327,501.76 in 1900."

Secretary Gage reports a saving of \$7, 000,000 annually in interest under the bond refunding provision of the money act. The total amount refunded was \$352,083,450. The bonds outstanding Nov. 15, 1900, admitted to the privilege of refunding were \$487,066,490.

The coinage executed during the fiscal year was: Gold, \$107,937,110; silver dollars, \$18,244,984; subsidiary silver, \$12, 876,849.15; minor, \$2,243,017.21; total, \$141,301,960.36. This was exclusive of 50,000 Lafayette souvenir silver dollars. At the time of this report the gold reserve in the treasury was \$242,000,000. On the country's foreign commerce the

report says: "Four great facts characterize the foreign commerce of the fiscal year 1900: First, it exceeded that of any preceding year, and for the first time the grand total of imports and exports passed the \$2,000,000,000 mark; second, manufacturers' materials formed a larger proportion of the exports than ever before; third, manufactured goods formed a large proportion of the exports than ever before; fourth, exports were larger than ever before, and were more widely distributed than in any preceding year.

"The total exports of the year were valued at \$1,394,483,082, of which \$1,-370,763,571 were of domestic production. Of this vast sum manufactures formed 31.65 per cent, against 28.21 per cent in 1899, 23.14 per cent in 1895, and 17.87 per cent in 1890. The total exportation of manufactures during the year 1900 was \$433,851,756, against \$339,592,146 in 1899, an increase of nearly \$100,000,-000, or about 28 per cent."

### REPORT OF SECRETARY ROOT.

### Wants 60,000 Men to Speedily Restore Order in the Philippines.

The annual report of Secretary Root, made public Monday, is interesting, owing to the vast number of subjects considered. He details the trend of events in the Philippines, Cuba, Porto Rico, China and Alaska, showing the great activity of American soldiers in these new spheres of usefulness.

Especial importance attaches to his recommendations with regard to the Philippines. He wants 60,000 soldiers for the immediate future in the islands, in order that the 400 posts may be sufficiently garrisoned. In a few months native soldiers can be depended upon to police the isrands at much less cost, but American soldiers are needed to stamp out the rebellions Tagalogs.

He also recommends the coinage of a special dollar, of the same weight and fineness as the Mexican dollar, for use in the Philippines. This is necessary because of the fluctuating price of Mexican dollars. He also suggests that an insular dollar be coined, and which the United States will undertake to redeem in gold at 50 cents. The Secretary of the Treasury inclines to the latter course.

With reference to Cuba, Secretary Root finds much gratification in the improved conditions. He dwells upon the eagerness of the natives to gain an education and the facilities that are being provided; the abolition of filthy prisons, of disease-breeding pens for the insane and helpless invalids, all of which have been wiped out,

Highly complimentary reference is made to the work of United States soldiers and civilians in Porto Rico, China and Alaska.

The annual report of Attorney General Griggs is chiefly confined to statistics on departmental work. The trust issue is not mentioned. He urges that Congress increase the appropriation for a new building for the department and asks that the time limit on construction be widened; owing to the rise in the price of building material.

### NARROW ESCAPE. A GRATEFUL WOMAN.

MRS. F. J. LYNCH, GRAND RAPIDS, MICH.

Mrs. F. J. Lynch, 324 South Division street, Grand Rapids, Mich., writes: The Peruna Medicine Company, Columbus, Ohio:

Gentlemen - " I earnestly recommend Peruna : o any suffering women as it cures quickly. I had a most persistent cough, which nothing seemed to cure. Two bottles of Peruna did more for me than all the doctors seemed to do. In a couple of weeks I found myself in excellent health, and have been enjoying it ever since. Hence I look on Peruna as a true friend of women."

### REV. HENRY LANGFORD. Rev. Henry Langford, the eminent Baptist divine, of Weston, W. Va., has just estaped atter nervous and physical prostration. He is pastor of four churches. "For ten years," he said, "I have been nervous and growing worse all these years. During the last four or five years I became so nervous I could scarcely sign my name so it could be read. I was so nervous that I could not read my own sermon notes after they had been laid aside "I was unable to hold my bead steady in the pulpit, nor could I hold or handle my

tration by Dr. Greene's Mervura Blood

and Nerve Remedy.

books and papers without embarrassment, owing to the trembling and weakness of my hands and arms. I was so nervous that I could scarcely feed myself. In fact, my nervous system was wrecked.

"I tried many remedies recommended by physicians, but found no permanent relief.

"One day I was in the store of R. S. Ogden, at Sardis, W. Va., and he said to me:

"You take two bottles of Dr. Greene's Nervura blood and nerve remedy, and if you say it don't help you, you need not pay for it.'

"I took two bottles of this medicine and found so much relief that I bought two more bottles, and now I am wonderfully improved in health and in strength. Dr. Greene's Nervura blood and nerve remedy did it. I can heartly and truthfully recommend it to the sick. Too much cannot be said in praise of this splendid medicine. I say this for the good of other sufferers from nervous and prostrating diseases who can be cured by this remedy. For myself, I am thankful to God that I found Dr. Greene's Nervura blood and nerve remedy, and for what it has done for me."

### DR. GREENE'S OFFER OF FREE ADVICE.

Dr. Greene, Nervura's discoverer, will give his counsel free to all who write or call upon him at his office, 35 West 14th Street, New York City. His advice is from his great skill and experience and will shorten the road to health. Thousands come to him and write to him constantly. Do not put off getting the right advice, if you are ill.
