FAMINE DEVASTATES PROVINCE OF SHANG-SI.

Thousands Have Died and Rice Relief Has Been Ordered Issued in Large Quantities-Chicago Woman's Jewels Vanish in San Francisco.

There has been great distress in the province of Shang-Si, China, owing to the famine and thousands have died. The court has ordered rice relief to be issued in large quantities. A report reached the foreign envoys that native Christians suffering from the famine were to be discriminated against and to be punished if they even begged for food. Mr. Conger, Sir Ernest M. Satow and M. Pichon, the United States, British and French ministers, protested to Prince Ching and Li Hung Chang against such discrimination, and the court issued an edict ordering all relief officials and Chinese soldiers to treat Christians exactly the same as others throughout the empire under penalty of decapitation. The foreign envoys consider this a most important decree if it is carried out.

CHICAGO MAN LOSES GEMS.

Jewels Vanish at the Same Time as Wife Becomes Insane.

Diamond earrings and jewels valued at thousands of dollars have not been found by S. R. Howell, of Chicago, husband of Henrietta E. Howell, and their disappearance about the time of Mrs. Howall's arrest for insanity in San Francisco, remains to be explained. Howell paid a visit to the receiving hospital and other places where he thought he might find a trace of the jewelry, but without result. When taken to the receiving hospital Mrs. Howell had four valuable diamond rings in a bag, containing eighteen diamonds and one turquoise; a gold watch orv. and fob, two gold chains and two gold stick pins. Mrs. Howell also had \$80.46 in cash, but no earrings. Several costly suits of stylish clothes have also mysteriously disappeared.

SLAYS ALLEGED RIVAL.

Michigan Man Shoots His Victim in a Detroit Saloon.

Max Ziltek, a farmer in Troy township, Mich., whose wife obtained a divorce from him two years ago, went to Detroit the other morning. After visiting several other saloons he walked into Kulineck's saloon and deliberately fired two bullets into the back of the neck of Charles Brooczki, shattering the spinal cord. His victim, who was playing ca the cause, but the ex-led. Jeaho lives just across the street from the saloon, says Brooczki is innocent. Ziltek's pistol missed fire three times, but he calmly tried the next chamber. The room was filled with people, who saw the tragedy. The murderer boarded a street car and gave himself up.

Nebraska Town Burns.

At Gothenburg, Neb., fire destroyed the livery barn of Amos P. Singer, together with twenty head of horses; Odecrant's block, containing a lodge hall and two small stores; Carlson Hardware Company's building, Stack's restaurant, and partly burned the building of the Carlson Mercantile Company. The loss is about \$25,000, half covered by insurance.

Five Die in a Freight Wreck.

A mistake caused by an engineer's sleeping at his post caused a freight collision in which five persons were killed and one was seriously injured on the Baltimore and Ohio Railroad between Petroleum and Volcano Junction, W. Va. The engineer mistook the first section of a passing train for the second and pulled out before his time.

Ferrell's Last Hope Gene.

Gov. Nash has sealed the fate of Rosslyn H. Ferrell and the latter will meet his death in the electrocution chair in the Ohio penitentiary March 1. The dangers which might result from lax justice in such a murder as that committed by Ferrell were pointed out and the Governor said he would not assume such responsibility.

Physician Kills Himself.

In the presence of his wife, Mabel, Dr. William Simpson, house physician at the Hotel Gerard, New York, shot and killed himself in his apartments. It is hinted that from letters left by the dead man he had contemplated suicide for some time in order that his wife might have his life insurance.

Fatal Fire in New York.

A quarter of a million dollars' worth of drugs and chemicals was destroyed by | March 8. fire at 126 and 128 William street, New York. The property was owned by Plant Bros. under the name of Lehn & Fink. Fireman Daniel O'Connell fell headlong from a roof to the rear yard and was killed.

Fatally Hurt by a Footpad.

Mrs. Maud Lewis, aged 23 years, was struck down by a footpad near her home in Kansas City. Her assailant escaped. She is the fourth woman seriously injured by highwaymen at night within a nonth.

Elopes with a Hired Man.

A secial sensation has been caused by he elopement of Ethel Wheatmore, aughter of a wealthy resident of Great Bend, Pa., and Swazey Gorton, her fathr's married hired man.

SMALLPOX IN MANY STATES.

Disease Widespread, but It Is Not Violent at Any Point.

Smallpox in mild form is reported from many points in many States, but at no place is it considered really alarming, as far as can be ascertained. Many communities are afflicted with occasional cases of what is sometimes described as "Cuban itch," because it was first observed when the volunteers returned from the Spanish way. The disease is declared to be smallpox by physicians

at some of the places where it developed. Inquiries made through press correspondents all over the country show remarkably few fatalities from this disease. Precautionary measures are not neglected in the majority of States, and the health officers are doing an immense amount of vaccinating to anticipate any appearance of the disease.

The North and Northwest are having quite an extensive visitation of the mild type of disease, but the fatalities are not many. Places in Michigan which report cases are: Indian Village, 6; Saginaw, 3; Essexville, 6; Grand Rapids, 2; Detroit, 2; Holton, 3; and Manistee, 2. It is reported in Detroit that the official reports of the health department during one week reported 272 cases.

Minnesota estimates place the total cases in the State at about 300, nearly all mild. Those places from which cases are reported direct are: Stillwater, 8; Mankato, 20; St. Paul, 7; Duluth, 10; Minneapolis, 6. Most of the Minnesota cases are laid to the lumber camps to the north, and a few to supposed infection from returned soldiers.

Wisconsin has had quite a battle with the disease in mild form. The places where cases have been and are now quarantined are: Madison, 3; West Superior, 35; La Crosse, 5; Appleton, 1; Milton Junction, 1. Appleton has had quite a scare over the efforts of a physician to test his disbelief in the contagion the-

In Iowa the disease has spread over quite an area, but has not become partic ularly violent at any single point. Cases are reported at Hawarden, Davenport, Sioux City, Dubuque, Keokuk, Fort Dodge, Des Moines and Council Bluffs, the highest number reported being at Fort Dodge, where twenty cases are in quarantine.

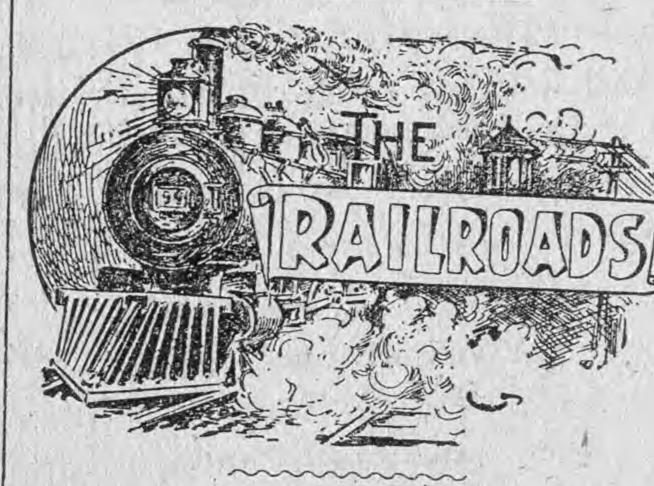

Aside from Chicago cases are reported in Illinois: At Cairo, 5; Peoria, 2; Quincy, 2; and Bloomington, 8.

Indiana is having several small outbreaks, the towns reporting cases being McCool, 4; Wheeling, 12; and Indianapo-

CiMissouri is quite a heavy sufferer, Kansas City leading with nearly 200 cases in the quarantine, and other towns reporting: St. Joseph, 50; Sedalia, 25; Springfield, 23; Joplin, 6; and St. Louis, 21.

Salt Lake City has 35 cases to take care of and Butte, Mont., 25. New York one out of seven of the members of the State has had 129 cases and 15 deaths so far. Pennsylvania has on hand about 30 cases, but only a few fatalities.

Western roads have agreed upon a rate to Washington for the inauguration of President McKinley. It will be in effect in all the territory east of the Western State lines of Colorado and Wyoming. The rate will be one fare plus \$2 for the round trip, except that from points from which the local one-way rate to any of the Eastern gateways, including Chicago, Peoria and St. Louis, is \$6 or less the rate will be a fare and a third for the round trip to such gateways, to be added to the rate tendered therefrom, provided that where the one-way rate to Chicago is \$2 or less 50 cents will be added for transfer charges. In divisions the amount in excess of one fare will accrue to the lines west of Chicago, Peoria and St. Louis. Tickets at these rates will be sold Feb. 28, March 1 and 2 in the territory east of Colorado and Wyoming and in those two States Feb. 27 and 28 and March 1, but the sale of tickets in all cases must be so regulated that holders will not reach the Eastern gateways earlier than March 1 or later than March 3. Returning, the tickets will be good leaving Washington up to and including

Illinois roads have agreed to the following rates for the G. A. R. encampment of the department of this State to be held in Peoria in May: A rate of a fare and a third for the round trip from all points in Illinois from which the local one way rate to Peoria is \$1.50 or less; a rate of \$2 for the round trip from places from which the local round-trip rate is \$2 or more than \$1.50, and a rate of one fare for the round trip from all other points in the State and from St.

PROPORTION OF THE DIFFERENT PURSUITS REPRESENTED.

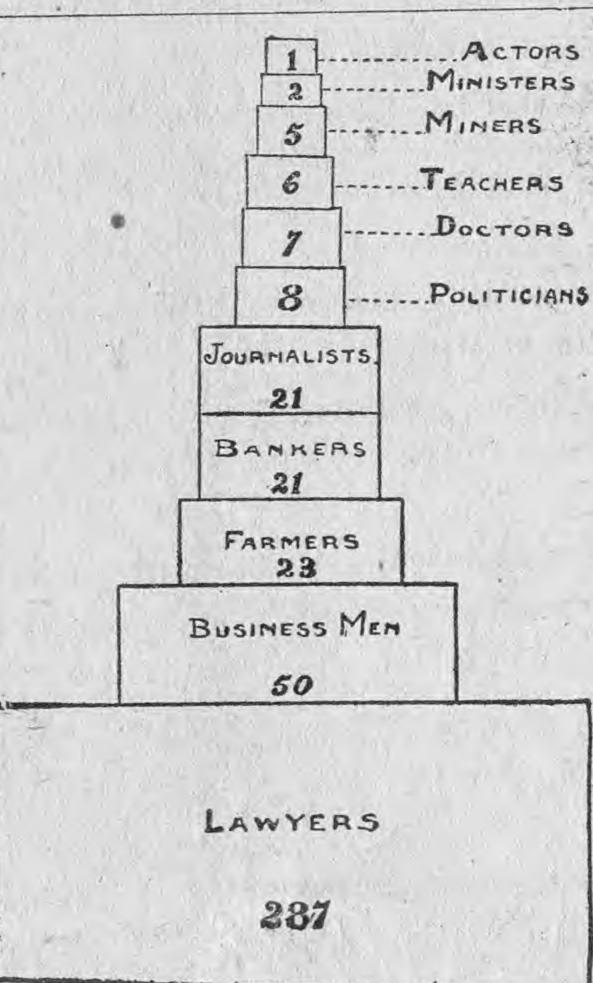

Lawyers Have a Lead-Business Men Come Second, Followed by Farmers, Bankers and Journalists, Politicians, Physicians, School Teachers, Etc.

Washington correspondence:

It takes all sorts of people to make a world, and it takes various kinds of men to make a Congress of the United States. At least it is so in theory, though as a result of observation one would be inclined to the belief that only one pursuit is represented. When it is known that of the next Congress 287 members are Unmistakable cases of smallpox have lawyers, the preponderance of the legal been reported and quarantined in the profession seems to account for the vol-States of Illinois, Iowa, Indiana, Wis- uminous pages of the Congressional Recconsin, Michigan, Minnesota, Montana, ord, wherein the speeches delivered or prepared by Representatives are publishorado, California, Utah, New York, ed. Somehow it seems that men who The have what is called in the vernacular Southern States, Louisiana, Alabama, the "infinite gift of gab" make the great-North Carolina and Georgia, report about est progress in public life, although the era of influential speech-making passed years ago. At any rate, lawyers have pretty nearly a monopoly of the seats in the House of Congress.

It seems odd, however, that of all the members of the House only eight are willing to acknowledge themselves politicians, or, in other words, wear their appropriate title. There are, of course, many politicians in Congress, but only eight that will admit that they have no other business-make politics a profes-

Next to the lawyers in numerical strength come the business men. There will be fifty of these in the next Congress, a small proportion when it is considered that running the government is a huge business enterprise requiring in its management business sagacity and judgment rather than legal talent. The busi-

ness men of the country apparently do not as a rule seek political honor, or if they do they have not the skill or time to manipulate political wires. As it is, only next House will be a business man. The class designated as business men include manufacturers, merchants, railroad men, ship owners, lumbermen, etc.

Considering how badly the "politicians" are treated in the distribution of political favors, the farmers have small reason to complain. They stand third on the list with twenty-three members to their credit, which shows that in sowing agitation of agrarianism they have reaped civic honors.

By a singular, and not altogether logical coincidence, the bankers and the journalists are tied for fourth placeeach mustering twenty-one members. This may or may not be taken as an indication that in popular esteem directors of finances and molders of public opinion stand on an equality. But there is a kind of compensating justice in the distinction conferred upon journalists. Journalists have made so many public men that it is no more than right that public men should be made of journalists. One of the most noted of the journalists in the House, a man who is really a journalist and not merely incidentally connected with the press, is the Hon. Amos Cummings of New York. The entire Maine delegation in the last Congress were journalists, and Senator Hale of the same State owns a newspaper.

A long distance behind the journalists and bankers come the eight politicians already referred to, but physicians to the number of seven press the politicians close for fifth place. The school teachers are only one point behind the doctors, and form a class of six members. Five miners make good their claim for seventh place, while two ministers are supposed to be enough to give the lump the necessary religious leaven.

At the bottom of the list a solitary actor appears upon the stage of action in the role of a Congressman. If "all the world's a stage, and men and women are but actors on it," the foregoing classifinoble ambition to "elevate the stage" upon which he will strut for a brief pe- Star.

Returning to the journalistic class it is remarkable how many men in public life, especially from New England, are or have been more or less intimately associated with the press. Of course in the diplomatic and consular service the number is legion; but a fair proportion of our national elective offices have been filled by men who have devoted considerable attention to journalism.

MEN IN CONGRESS. Flam so Glad you are well. Dear Sister."

This picture tells its own story of sisterly affection. The older girl, just budding into womanhood, has suffered greatly with those irregularities and menstrual difficulties which sap the life of so many young women.

Lydia E. Pinkham's Vegetable Compound can always be relied upon to restore health to women who thus suffer. It is a sovereign cure for the worst forms of female complaints,-that bearing-down feeling, weak back, falling and displacement of the womb, inflammation of the ovaries, and all troubles of the uterus or womb. It dissolves and expels tumors from the uterus in the early stage of development and checks any tendency to cancerous humors. It subdues excitability, nervous prostration, and tones up the entire female system.

Could anything prove more clearly the effleiency of Mrs. Pinkham's Medicine than the following strong statement of Grace Stansbury?

"DEAR MRS. PINKHAM:-I was a sufferer from female weakness for about a year and a half. I have tried doctors and patent medicines, but nothing helped me. I underwent the horrors of local treatment, but received no benefit. My ailment was pronounced ulceration of the womb. I suffered from intense pains in the womb and

ovaries, and the backache was dreadful. I had leucorrhœa in its worst form. Finallu, I grew so weak I had to keep my bed. Finally, I grew so hard as to almost cause sw. The pains were so endure the pains no lorse spasms. When I could My memory grew shonger, I was given morphine. My well. w short and I gave up all hope of getting well. Thus I dragged along. To please my sister I wrote to Mrs. Pinkham for advice. Her answer came, but meantime I was taken worse and was under the doctor's care for a while.

"After reading Mrs, Pinkham's letter, I concluded to try her medicine. After taking two bottles I felt much better; but after using six bottles I was cured. All of my friends think my cure almost miraculous. I thank you very much for your timely advice and wish you prosperity in your noble work, for surely it is a blessing to

Three Working Girls.

BY HELEN FORREST GRAVES.

"Tea is ready, girls," said Saba Thorn. "Tea!"

It was no luxurious repast of buttered toast, fragrant Oolong, hone and preserves; no comfortable repast of cold fowl, tongue, potted meats and biscuit hot from the oven.

When Saba Thorn called it "tea," she merely used a conventionalism. It was only a scanty meal of baker's bread, with a pat of cheap butter, a little smoked beef, which had been bought from the corner grocer's in a brown-paper cover, and some milk and water, blue and tasteless; for Saba and her two cousins found it necessary to economize very strictly indeed.

Saba worked for an upholsterer. All day long she stitched pillow-ticks and tufted mattresses in a dark room, where there was a prevailing smell of rancid geese-feathers.

Her cousin, Helen, stood behind the counter of a milliner's shop on to help. the Bowery; and little Kate-the youngest of the three-was "packer" in a fancy store, and could do up more neat paper parcels in a given time than would be believed possible.

They were all three pallid and colorless, like plants that had grown in a cellar. They all three had a certain languor of manner, and spoke in low, suppressed voices.

They lived together in this one room with a little alcove running out of it, because it was the cheapest mode of existence, and because their scant earnings, clubbed together, could be laid out to better advantage than if expended singly. Moreover, to these poor, homeless girls, there was a home-

feeling in being together. "I don't feel hungry," said Helen, with a grimace.

"I am so tired of bread and butter!" sighed little Kate. "Oh, if I could only have some of the stewed grapes that mother used to make!"

"Oh, that reminds me," said Saba, taking a letter off the mantel. "I've heard from old Mrs. Pinkney. She wants us to buy a fashionable fall bonnet for her if we can get it for a dollar and a half; and to look out for a bargain for Louisa Jane's winter frock. She wants the very best quality, and she can't go higher than thirty-seven cents a yard. And she wishes to know if we are acquainted with anybody in the business who will dye cey's store. A Remedy for the Grippe.

Physicians recommend KEMP'S BAL-SAM as a remedy for patients afflicted with the grip, as it is especially adapted for the throat and lungs. Do not wait for the first symptoms of the disease, but get a bottle to-day and keep it on hand for use the moment it is needed. If neglected the grip has a tendency to bring on pneumonia. KEMP'S BALSAM prevents this by keeping the cough loose and the lungs free from inflammation. All druggists sell KEMP'S BALSAM at 25c and 50c.

INDIANA INCIDENTS. INDIANA LAWMAKERS

OF EVENTS OF THE PAST WEEK.

Shoots His Wife's Attorney-Grantham Enjoined from Blocking Midland Line -College Graduate an Expert Thief-Burglars Wounded in Round Grove.

Ellsworth R. Weir, a prominent attorney of Laporte, was shot and probably fatally wounded by Joseph W. Brill of Cleveland, Ohio, in the office of Dr. Geo. M. Dakin. Brill attempted to fire a second shot, but was prevented by Dr. Dakin. The wounded man was removed to his home, and Brill, who made no attempt to escape, was arrested by a deputy sheriff. Mrs. Brill, who is estranged from her hasband, engaged Weir as her attorney, and in that capacity he visited her at Cleveland. Brill came to Laporte and at once sent for Weir. He demanded that the attorney sign a confession that he had stolen Mrs. Brill's affections. Weir refused, and Brill drew a revolver and shot him.

Stops War on Railroad.

Judge John H. Baker of the United States Court in Indianapolis, granted an order restraining a further blockade of the Midland Railroad on the Grantham farm, in Montgomery County, where the movement of trains had been hindered for about a week. The tracks of the road have been torn up on the Grantham farm by Sheriff Canine, who acted under a writ of ejectment. Then some hotheaded young men from Ladoga blew up two bridges along the line. Grantham and a number of his friends, armed with shotguns and rifles, went to the edges of his farm, where the road enters and leaves, and held back the men sent by the company to repair the track. The mails have been carried around the Grantham farm by wagon.

College Man Turns Thief.

Frank Edmonds, a fine-appearing young man of Tere Haute, and a college graduate of last June, was sent to the prison on a plea of guilty to larceny. He confessed to twelve thefts and put the victims in the way of recovering their property. His scheme was to hire a steam with which to drive into the counstry and then, driving to another town forty or fifty miles away, he would sell the outfit. It is not known how many the robbed. He had a deposit in a Springfield, Ill., bank for several hundred dollars. Some of the Illinois authorities came here and begged the officials to let the Illinois law get at him.

Wounds Burglar at Work.

Edward Dolfin of Round Grove, probably fatally wounded one of three burglars with whom he engaged single-handed, and himself received a shot in the left arm. Dolfin and his wife were chloroformed in their house while the burglars ransacked it. The burglars then went to this store near by. Dolfin recovering consciousness, procured shotguns, and findfing the burglars at his store, opened fire, causing one to fall. Another fired at him, striking his arm. The third carried the wounded burglar to his horse, and they rode away, leaving a trail of blood.

Six Men Injured at a Fire.

The Marion Pulp Company's plant was damaged by fire to the amount of \$2,000. Chief Butler, Harry Polling, Fred Benmett, Thomas Hamilton and Burr Hamilton of the fire department were badly injured by the explosion of a boiler, as was also William Nessler, manager of the mill. The Wise hoop factory also suffered a loss of \$3,000 by fire.

The rules as reported by the Lieuten ant Governor to the Senate on Tuesday are the same as last year, except that a Senator will not be compelled to vote on a motion in which he is personally interested. The majority of the judiciary committee reported favorably on the bill to admit a culprit to bail pending an appea to the Supreme Court, except in cases of murder, manslaughter and treason. A minority report opposed it. The report of the committee on organization of courts was read in the House and adopted. The fees and salaries committee reported favorably on Jackway's bill amending the law fixing salaries of county commissioners, township assessors and trustees, and asked indefinite postponement of Manifold's measure to compensate certain circuit judges for expenses incurred outside their counties. The corporation committee as'ted the passage of Clarke's bill requiring express companies to deliver packages free inside corporation limits of towns of certain sizes. Roads committee was favorable to Kirkman's bill exempting Spanish-American war veterans from working on public roads, likewise that of Burrier preventing heavy hauling over roads at certain times. Horsfield's bill prohibiting desecration of the soldiers' monument was reported favorably. A large number of new bills were introduced.

The Senate committee that has been investigating the claim of P Vincennes University against the State made a report on Wednesday, finding that the State wrongfully appropriated the lands which Congress donated for the establishment of the old Vincennes Seminary; that the money for which the land was sold was given to the university at Bloomington; that the State afterward paid the Vincennes institution about \$60,000, but the property sold was then worth \$200,000. The committee then finds that the State is not under any further legal obligation to the university, but suggests a moral obligation which should receive attention. The House killed the bill providing for the listing of promissory notes and other money obligations with assessors, and making them uncollectable if not so listed. The bill providing pay for county councils on a per diem basis also was killed. The commission appointed to investigate the needs of the State institutions made a report, in which a large number of appropriations are recommended for repairs and new buildings. Among other things it is recommended that the deaf and blind institutions in Indianapolis be removed to some other place, where ground is not so valuable. A peculiar recommendation is that for money for the purchase of mirrors for the prisoners at the girls' reformatory, a luxury that they are now denied.

The Legislature on Thursday passed to engrossment a bill which will be of great interest to the people of northwestern Indiana. It was introduced by Senator Agnew and provides for a waterway from East Chicago on Lake Michigan to Calumet river, to be used as a ship canal. Senator Agnew says he has heard of no opposition to the bill, whihe provides that on petition of one-third of the affected property owners the circuit judge shall appoint three disinterested persons to assess benefits and damages to pay the cost of the waterway. Senator Agnew says if the measure becomes a law northwestern Indiana will have one of the greatest of inland harbors.

The Senate on Friday passed the bill providing for the infliction of the death penalty by electrocution. There were only two votes against the measure. A bill was introduced in the Senate which, if passed, will probably prevent the transportation of natural gas from Indiana territory to the city of Chicago. The present legal pressure at which natural gas may be piped is 300 pounds to the square inch. The bill provides that gas shall not be piped either within or outside the limits of the State at a pressure to exceed 200 pounds to the square inch and that no pumps or any kind of artificial appliances shall be used to increase the flow of gas from the wells or to force it through the pipes In the House A. L. Cooper was seated as member from Clinton County and A. W. Kidmore unseated. The former is a Republican, and the contest was decided by a strict party vote. Bills to establish a minimum wage scale of 15 cents an hour on public work, making void a contract by an employe surrendering the right to sue for damages for personal injuries, and requiring safety appliances for steam boilers were reported for passage in the House. The bill prepared by the fee and salary commission, providing salaries for State and county officers, was killed in the House, being the second measure of the commission to meet that fate.

The Senate committee on the judiciary reported favorably Monday on the bill making the taking of a prisoner from the sheriff and lynching him prima facie evidence of neglect of duty and at once vacating the office. The bill was amended so that the sheriff, before he can be reinstated, must show to the satisfaction of the Governor that he was not to blame. The same body amended the railroad subsidy bill so that no road can secure a subsidy in excess of \$4,000 per mile through the township voting the aid. The bill providing for a canal from Lake Michigan to the Calumet river was advanced to second reading. The House passed by a practically unanimous vote the bill to encourage the borrowing of the school fund, so much of which is now T. E. Phillips, Bloomington, has been unloaned. Taking Command.

Even when bent on showing appreciation, the manners of a crowd of heroworshipers may leave something to be desired; but if the hero of the occasion which has brought them together is a man accustomed to being obeyed the result may be a good story, like the one below, taken from Lippincott's Magazine.

It was at a Grand Army encampment in a Western city, and Gen. William Tecumseh Sherman was the guest of honor. No sooner, however, had he reached the rooms reserved for him in the hotel than there was a crowd at the

Some of the old soldiers were admitted, and many who were not old soleral made the best of things and undertook to shake hands with all. But this was not satisfactory to a few, who wanted to pass the time of day with the veteran, and incidentally to look him over as if he were a prize ox in a stock show.

Finally the crowd in front of him became so dense that it blocked the way. of others who were trying to get near him, and the whole line came to a standstill. Several persons tried to straighten the tangle, but without success. Then General Sherman took command.

"Salute and fall back!" he said in a tone impossible to disregard, at the same time extending his hand toward the gawking fellow nearest him, who took it rather sheepishly and speedily retired.

"Salute and fall back!" repeated the general.

In less than a minute the line was moving again, and the crowd rapidly melted away.

FIVE NATIONS ARE REPORTED IN REBELLION.

Towns in Indian Territory and Oklahoma Threatened-A Troop of the Eighth United States Cavalry Ordered to the Front by Gen. Miles.

Dispatches from South McAlester, Checotah, Eufala and other points in the Indian country indicate that the Snake band of the Creek Indian nation has succeeded in spreading rebellion throughout the Five Nations and that a general upbloods who are opposed to progressive government is to be feared.

ed for, as it is thought the one troop at Wetunpka will not be strong enough to cope with the Indians. It is estimated that 1,500 full-bloods are under arms. The whole country is excited and under arms. Whites and peaceable Indians are organizing for mutual protection. Iso lated squatters are fleeing to towns for greater safety.

Troops Or leved to the Front. Miles sent an order to Gen. Fitzhugh Lee, commanding the Department of the Missouri, at Omaha, directing him to take immediate action in suppressing the raid of the Snake band of outlaws in Indian Territory. He is instructed to send a troop of cavalry to Henrietta to act in conjunction with the United States marshal. Gen. Lee has sent Troop A of the Eighth cavalry from Fort Reno, Okla., to Muskogee, Indian Territory, to aid in suppressing the uprising of Creek outlaw bands. The Choctaws claim to have a strength of 2,500, and have adopted the same resolutions and tactics as the Creeks.

Indians Threaten Oklahoma. Oklahoma is also threatened with invasion by the Indians. This is the alarming tenor of advices received at Guthrie from the scene of the Indian uprising in the Creek Nation. Ghost dances are the order of the night, and to the terror inspired by the Indians is added the fear of outlaw bands which threaten to overrun the county and pillage, loot and ravish regardless of the merits o any controversy which may exist.

The insubordinate Snake band of Creek Indians living on the reservation east of Lincoln County threaten to invade Oklahoma. Gov. Barnes received a telephone message from Stroud stating the town was in danger of a raid from the outlaws and half-breeds of the Creek Nation, who would take advantage of the graph. disturbances among the Indians to raid several towns and rob banks.

EXTRA SESSION LIKELY.

Fifty-seventh Congress May Convene Pefore December.

A Washington correspondent declares that an extra session of Congress looms up as inevitable. The legislative hopper is overfilled with bills which must be passed during the remaining legislative days. Hitherto the champions of the shipping bill have disclaimed any desire to favor an extraordinary session. But they now proclaim openly that unless the ship subsidy bill is passed this session the President will be induced to convene the Fifty-seventh Assembly before the regular session in December. The ostensible excuse for this call will be to act upon the Cuban constitutional convention. It becomes evident that the Cuban delegates will be unable to present the framework of their independent government until after the life of the present Congress has expired. It is equally certain that Great Britain will fote treaty amendments until after ad- bill up with amendments to effect changes journment, and in view of the ironclad in the existing postal laws. The Old-Timers.

Sir William Muir, at the age of 81, is about to leave his position at the head of Edinburgh University. During the Indian mutiny he performed his first public service, when he was in charge of the intelligence department at Agra.

Captain Jonathan Norton of Lee, Mass., expired Dec. 12, aged 105 years. He died in the belief that some more fortunate person will fathom the mystery and bring about the fruition of his life's struggle-perpetual motion. Captain Norton wrote President McKinley informing him he was about to realize his dream and offered the machine to the government. He received a reply from the President to the effect that if the machine was a success he would interest himself in the matter.

On Wednesday the Senate resumed consideration of shipping bill. It was made the unfinished business of the Senate, thus restoring it to its privileged position. Mr. Vest attacked it in a speech lasting nearly three hours. Mr. Rawlins precipitated lively colloquy by charging deal had been entered into between Republican members of Utah Legislature and certain railroad interests and officials of the Mormon Church to secure election of Thomas L. Kearns to the Senate from that State. He aroused Mr. Hale and Mr. Chandler, who contended statements of Mr. Rawlins ought not to be made in Senate at this stage of proceedings in Utah, as Senate could not consider the question in any phase in advance of action. The House passed District of Columbia appropriation bill and entered upon consideration of naval appropriation bill. There was some discussion of extent to which navy was to be increased ultimately, in course of which Mr. Wheeler (Dem., Ky.) declared himself in favor of navy large enough to meet "all comers," and some criticism by Mr. Richardson, minority leader, of rapid growth of naval expenditures.

The Senate devoted Saturday to the Indian appropriation bill and made only fair progress. The chief feature of the debate was a sharp attack by Mr. Pettigrew on the Dawes commission, which he said was extravagant and was accomplishing little in the way of results. Announcement was made by him that he did not purpose to filibuster against any bill. The shipping bill was not taken up. The House spent the day in consideration of the naval appropriation bill, completing it with the exception of a single para-

The Senate made little progress with the Indian appropriation bill on Friday. Listened to a speech by Senator Depew in favor of the shipping subsidy bill. Passed a number of private pension bills. The House adopted the conference report on the army reorganization bill and seventy-seven private pension bills.

On Saturday the Senate discussed national irrigation, the text being an amendment to the Indian appropriation bill providing for surveys, looking to the construction of an irrigation dam and ditches for the watering of the reservation of the Pima and Maricopa Indians, at San Carlos on the Gila river, Arizona. Mr. Platt of Connecticut led the opposition, and was assisted by Mr. Quarles of Wisconsin. Mr. Stewart, Mr. Chandler and Mr. Thurston argued for the experiment. The report of the conference committee on the army reorganization bill was presented and Mr. Hawley announced that he would call it up on Monday. The House made good progress with the bill to revise and codify the postal laws. Only twenty-eight of the 221 pages remain to be disposed of. # Weary Women Get Strength and Vigor from Dr. Greene's Nervura.

HE had planned to go out with her husband, but her strength failed her.

Her nerves were excited all day, and when night came she just couldn't find the courage.

It is the old story of weakness and nervousness taking the pleasure out of life and filling it with discontent and suffering. It is not honest fatigue resulting from the daily task; it is weariness born of weakness and ill health.

The ideal strengthener for weak women is Dr. Greene's Nervura blood and nerve remedy. It builds them up in every way by toning up the blood and strengthening the nerves. Nothing else in the world can do Nervura's work. It seeks out the weak spots and strengthens them. It en-

cured woman, and such transformations are occurring in every community through the use of Dr. Greene's Nervura. If you are run-down and discouraged, here is the certain help.

MRS. OLIVER WILSON, of Northboro, Mass., says:

"I was suffering from nervousness, caused by female weakness and nervous prostration. I was so nervous and weak I could not go up a common pair of stairs without stopping to rest, and troubled to sleep at night. I took Dr. Greene's Nervura and have obtained my old elastic step around the house. After creeping around for two years, hardly able to do anything, it has proved a boon to me truly."

# Lord Bute's Wealth.

The Marquis of Bute is possibly more than any British peer the architect of his own fortune. It is estimated that his fortune, if converted into gold, would represent the weight of at least 80 tons of bullion, and would require for its transport the utmost strength of 50 teams horses. His income may safely be estimated at \$2,000 a day. Add to this 16 titles, besides dignities innumerable and five lordly houses, and it will readily be acknowledged that the Marquis has reason to think himself among the blessed of the earth. Cardiff has been to Lord Bute the source from which lucky millions have flowed.
