Arsenic Found in the Well. The county coroner is investigating what seems to be a mysterious poisoning case. The 12-year-old child of Chris Eislin, living in Knight township, died. The doctor who was called at the last moment said death had resulted from poisoning. Arsenic was found in its stomach. The other afternoon the family of Eislin, seven in number, and the family of John Curry, five in number, were taken suddenly ill. They drank water from the same well and an examination of the water showed arsenic.

A woman is sick-some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds back something, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and this completely mystifies the doctor.

Is it a wonder, therefore, that the doctor fails to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician. This is the reason why hundreds of thousands of women are now in correspondence with Mrs. Pinkham, at Lynn, Mass. To her they can give every symptom, so that when she is ready to advise them she is in possession of more facts from her correspondence with the patient than the physician can possibly obtain through a personal interview.

Following we publish a letter from a woman showing the result of a correspondence with Mrs. Pinkham. All such letters are considered absolutely confidential by Mrs. Pinkham, and are never published in any way or manner without the consent in writing of the patient; but hundreds of women are so grateful for the health which Mrs. Pinkham and her medicine have been able to restore to them that they not only consent to publishing their letters, but write asking that this be done in order that other women who suffer may be benefited by their experience.

This will take 470,000 acres, and the Indians are each given another 160 acres, to be allotted in large bodies for pastures, in total another 470,000 acres. In addition the government pays to the Indians over \$2,000,000 for the remainder of the land. This gives to each Indian, man, woman and child, over one month of age, \$711. When the reservation finally is opened the Indian no longer will be the ward of the United States government. He will be forced to depend on his own exertions the same as any other resident of the country. The officials of the general land office expect that the lands will be opened to settlement about Aug. 1 of this year. By the terms of the act of Congress opening this vast region, six months from June 6 last are allowed in which to make al lotments, and the surplus lands must be opened within six months thereafter by proclamation of the President. The date has not yet been fixed, but there is little -doubt that the official proclamation will be issued in the near future. Two Bank Officials Take Their Lives. Together.

Charles Brown and E. L. Canby, president and cashier, respectively, of the First National Bank of Vancouver, which was closed Saturday by the order of the Comptroller of the Currency, committed suicide Friday night two miles from the city by shooting themselves with a revolver. Their bodies were found Sunday morning lying together in a small clump of bushes.

#### Vandals Ruin a Monument.

Vandals did serious damage to the Thomas A. Hendricks monument in the State House grounds in Indianapolis. One of the large granite ornaments, weighing about 100 pounds and surmounted by a heavy piece of bronze, was broken from its base and thrown to the ground, a bronze shield, crossed with a piece of bronze, representing a laurel leaf, was forced from its place high up on the monument and carried away, and the scales which the figure of justice held in her hand were stolen.

Miss Florence Harper, music teacher in the Goshen schools for several years, died of consumption.

Jury in the case of Chas. Rogers, Terre Haute, charged with the murder of Milburn Baty, stood seven to five for hanging.

William A. Taggart has been appointed postmaster at Art. A. B. Corbin, his predecessor, held the office for twentyfive years.

#### Mrs. Ella Rice, Chelsea, Wis., writes:

"DEAR MRS. PINKHAM :- For two years I was troubled with falling and inflammation of the womb. I suffered very much with bearing-down pains, headache, backache, and was not able to do anything. What I endured no one knows but those who have suffered as I did. I could hardly drag myself across the floor. I doctored with the physicians of this town for three months and grew worse instead of better. My husband and friends wished me to write to you, but I had no faith in patent medicines. At last I became so bad that I concluded to ask your advice. received an answer at once advising me to take your Vegetable Compound, and I did so. Before I had taken two bottles I felt better, and after I had taken five bottles there was no happier woman on earth, for I was well again. I know that your Vegetable Compound cured me, and I wish and advise every woman who suffers as I did to try Lydia E. Pinkham's Vegetable Compound. Believe me always grateful for the recovery of my health."-MRS. ELLA RICE, Chelsea, Wis.

They used the same weapon, and Canby evidently died first, as the revolver was found in Brown's hand. It is evident that Canby put the muzzle of the revolver into his mouth and then blew the top of his head off. Brown then took it and shot himself in exactly the same way, falling over Canby's body.

Rev. Stephen Stanton will go from Richmond to Singapore, where he has been chosen professor of mathematics in the Anglo-Chinese school.

Hartford City has more gas and cheaper rates than any other city in the world, it is said. Two more glass factories will be built this summer, making seven in all.

Miss Lillian Kommiski and Prof. Frank Lanear of Richmond have been rehired as members of the Wilmington College faculty to teach Greek and the natural sciences.

Emma Rader of Frankfort, aged 7 years, has brought suit for \$15,000 damages against the Lake Erie and Western Railroad for loss of a leg, due to an accident a few months ago whereby she was hurled from a depot platform under the train by being struck by a mail pouch thrown from the train. A feature of the complaint is that, regardless of her extreme youth, she claims the principal part of the damages because the injury and loss of limb will be a permanent damage and obstacle to any matrimonial expectations and prospects.

### DOGS MAKE GOOD SCOUTS. Sudden and Severe attacks of Neuralgia come to many of us, but however bad the case St. Jacobs Oil penetrates promptly and deeply, soothes and strengthens the nerves and brings a sure cure.

Captain M. F. Steele of the Sixth cavalry, after an experience of the contached to the army. Captain Steele claims in the Army and Navy Journal that dogs are the only scouts that can secure a small detachment against ambush on the trail through these tropical jungles. "The bush is so dense that flankers are out of the question and the trails are so crooked and over such rough terrain that the point, at one to two hundred yards, is out of sight of the main party. The insurgents lying in ambush usually, or often, let the point pass and open with a volley upon the wagons and main party of the escort. They open from apparently impenetrable jungle and at a range from thirty to 200 yards. They fire one or two volleys, then usually run away. Sometimes never a man of them can be seen and our men have simply to fire into the jungle and trust to luck." He urges that the animals, pointers by preference, or hounds, would need ittle training. Their instinct for hunting and sniffing in every hole and cor-

## They Should Be Attached to Every Corps in the Army. BANN GROSVENOR SAYS ditions of warfare in the Philippines, "Peruna Is an Excellent Spring Catarrh Remedy---I am as Well as Ever."

Hon. John Williams, County Commission er, of 517 West Second street, Duluth, Minn., says the following in regard to Peruna: "Asa remedy for catarrh I can cheerfully resommend Peruna. I know what it is to suffer from that terrible disease and I feel that it is my duty to speak a good word for the tonic that brought me immediate relief. Peruna cured me of a bad case of catarra. and I know it will cure any other sufferer from that disease."

Miss Mattie L. Guild, President Illinois-Young People's Christian Temperance-Union, in a recent letter from Chicago, Ill., says:

"I doubt if Peruna has a rival in all the remedies recommended to-day for catarrh of the system. A remedy that will cure catarrh of the stomach will cure the same condition of the mucons membrane anywhere. I have found it the best remedy I have ever tried for catarrh, and believing it worthy my endorsement I gladly accord it.

Mrs. Elmer Fleming, orator of Reservoir Council, No. 168, Northwestern Legion of Honor, of Minneapolis, Minn., writes from 2535 Polk street, N. E .:

"I have been troubled all my life with catarrh in my head. I took Peruna for about three months, and new think I am permanently cured. I believe that for

use. This officer possesses a dog named Done, and he asserts that up to date no detachment with which it has been out has fallen into an ambuscade. "He went with us last winter on Gen. Schwan's long southern campaign and lived for more than a month on scraps of hard bread and bacon. He covered six times as much ground every day as any man of the column and, as he was always chasing Filipino chickens and is the friend of every soldier in my battalion, I suspect some of them had chicken for supper some nights-in spite of all my orders to the contrary. Done, however, says he doesn't want to go on any more 'hikes' like that one. He says we got up too early in the morning and lay down too late at night for his health and that a month is too long for any good dog to live on scraps of bacon and hard bread. He doesn't volunteer any more if the preparations indicate that the detachment is going to be out many days. But for ordinary escort duty between stations he is, ready to go with any detachment. And it is on escort duty that dogs can be of best use. Of course, if a party is going out for the purpose of trying to surprise the insurgents the dogs should be tied up and left behind."

#### HON. DAN. A. GROSVENOR, OF THE FAMOUS OHIO FAMILY.

Hon. Dan. A. Grosvenor, Deputy Auditor for the War Department, in a letter written from Washington, D. C., says:

"Allow me to express my gratitude to you for the benefit derived from one bottle of Peruna. One week has brought wonderful changes and I am now as well as ever. Besides being one of the very best spring tonics it is an excellent catarrh remedy." Very respectfully. Dan. A. Grosvenor.

catarrh in all its forms Peruna is the medicine of the age. It cures when all other remedies fail. I can heartily recommend Peruna as a catarrh remedy."

The spring is the time to treat ca-

tarrh. Cold, wet winter weather often retards a cure of catarrh. If a course of Poruna is taken during the early spring months. the cure will be prompt and permanent. There can be no failures if Peruna is taken intelligently during the favorable weather of spring.

As a systemic catarrh remedy Peruna. eradicates catarrh from the system wherever it may be located. It cures catarrh of the stomach or bowels with the same certainty as catarrh of the head.

If you do not derive prompt and satisfactory results from the use of Peruna, writeat once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

The home of John Andigo, an Amish farmer, fifteen miles from Kendallville, Ind., was entered by three men, who secured \$8,000 after burning the old man's ears, nose and fingers with lighted matches. A 19-year-old daughter of Andigo was insulted, and when her father refused to give up his money as readily as demanded she was dragged to the floor by her hair by one of the robbers. The mother, who had witnessed the brutal act, told the robbers that if they would desist she would give up the money. She led the way to the cellar, where in an old cupboard the savings of years, \$6,-000, were found and handed over to the robbers.

ceded after inflicting damage estimated at between \$2,000,000 and \$3,000,000, and throwing out of employment 50,000 workingmen. While there have been greater floods there, there was never one that caused so much financial loss and discomfort. On the Fort Wayne the worst trouble was a snow blockade between Salem and Massillon, Ohio. This began Saturday morning and tied up the road in twenty-four hours. At 9 o'clock Sunday morning the track was cleared and trains began moving. The same trouble kept the Cleveland trains of the Pittsburg and Lake Erie late, five trains having been blockaded at Windom, near Leavittsburg, for twenty-five hours. This snowfall did not extend east of Newcastle, but at Youngstown, Ohio, it was two feet deep, and the drifting in the cuts north of that city were up to loco-

Big landslides occurred on the Pittsburg and Lake Erie, the Baltimore and Ohio at Soho, on the Panhandle, on the south side, the Bessemer at several points, and the Allegheny Valley near Franklin, Pa. The slide at Soho was 150 feet long, and it required fourteen hours' work to clear one track.

motive headlights.

At Skobo, between Monaca and Aliquippa, the Lake Erie received its most serious landslide. One hundred feet of the west-bound track was carried fifty feet down the steep bank, the whole face of the bank slipping down into the river. On the lines of the Pennsylvania and Baltimore and Ohio to Wheeling great damage is reported, and both lines were tied up for several hours. Five miles of the Pittsburg, Bessemer and Lake Erie tracks were either under water or mud. The submerged districts in Pittsburg and Allegheny are a scene of abject misery. Cellars and in some instances the first floors of stores and dwellings were covered with water. When the flood subsided it left behind a greasy, yellow scum two to three inches deep. The damage to furniture and buildings in Allegheny is estimated at about \$100,000. It will take two months of hot summer weather to thoroughly dry out these houses. In Pittsburg the loss to residences and stores and goods and the cost of cleaning up will amount to about \$250,000 A great deal of damage was caused by the storm in Cleveland, Cincinnati and other Ohio cities.

Effingham, Ill., April 22.-(Special.)-Uriah S. Andrick is now 67 years of age. Mr Andrick served through the whole of the Civil War. He was wounded, three times by ball and twice by bayonet.

When he entered the service of his country in 1861 he was hale and hearty, and weighed 198 pounds. Since the close of the war, however, Mr. Andrick has had very bad health.

For fifteen years he never lay down in bed for over an hour at a time. He had acute Kidney Trouble, which grew into Bright's Disease. His heart also troubled him very much.

On Oct. 18, 1900, he was weighed, and weighed only 102 pounds, being but a shadow of his former self. He commenced using Dodd's Kidney Pills on the 26th of last December, and on Feb. 20 was again weighed, and weighed 146 pounds He says:

"I have spent hundreds of dollars and received no benefit, until on the 26th of December last I purchased one box of Dodd's Kidney Pills. I am cured, and I am free from any pain. My heart's action is completely restored. I have not the slightest trace of the Bright's Disease, and I can sleep well all night. I was considered a hopeless case by everybody, but to-day I am a well man, thanks to Dodd's Kidney Pills.

"For the last sixteen years my wife has been in misery with bearing down pains, pains in the lower part of the abdomen and other serious ailments. When she saw what Dodd's Kidney Pills were doing for me she commenced to use them. She now feels like another woman, her pains have all disappeared and her general neuron is better than it has been for years. is better than "She is so taken up with Dodd's Kid-ney fills and what they have done for us that she has gone to Mr. Cornwell's drug store and bought them for some of her friends for fear that if they went themselves they might make a mistake and get something else." There is something very convincing in the honest, simple story of this old veteran and his wife. Dodd's Kidney Pills are the only Remedy that ever cured Bright's Disease, Diabetes or Dropsy. They never fail.

Indignant citizens of Gilboa, Ohio, took the punishment of a wife-beater into their own hands and wore out three buggy whips on Alex. Mc-Cullough is a farmer, living near Gilboa, and while intoxicated he administered a beating to his wife, who is a very delicate woman. On his next trip to the city he was taken in charge by a delegation of citizens, who took the farmer to the town hall, where he was tied up and soundly lashed.

#### Strike Is Averted.

The Chicago Great Western has conceded all the demands made by the International Machinists' Association, thus ending any possibility of a strike. The engagement of Miss Mary Conger Pierce to Lieut. Harold Hammond of the Ninth United States infantry, is the result of a romance growing out of the memorable siege of Pekin. Miss Pierce is a niece of United States Minister E. H. Conger, and for a number of years has been a member of his household. She was with the Congers during the siege and the boys of the Ninth were the first to bring relief to the little party of foreigners. No wonder that they were looked upon with special favor and rightfully regarded as the saviors of the helpless band. Miss Pierce is now on her way to this country with Minister Conger's family, and will soon become the bride of her soldier lover.

For once in three years he was happy, and he had been in that beatific state for two whole days. The rest of the cowboys of the outfit did not know what to make of it. Cayuse Ike said he had been "locoed," for Allyn had been nicknamed by the camp Sorrowful Jim, and to see him boyishly exuberant and in a gay humor was an unheard-of thing until the last day or so. Allyn had once made the mistake of considering life a very serious matter indeed, and then, after trying for a year to practice law and not getting anyone to practice upon, he had given it up in disgust and migrated to the home of opportunity in hope of getting rich.

During his idle hours Allyn had fallen in love, and he took that very seriously also. It went hard with him, for he had nothing on earth except a few bonds an old aunt had left him, and the revenue from them did not amount to \$300 a year. At the rate his practice was not increasing Methuselah would have been a youngster compared with Allyn if he waited for the revenue from his profession to enable him to marry. "Jim," she said, "you are acting very foolishly. What does it matter if you haven't any money? I don't want

#### LOGAN EQUESTRIAN STATUE IN WASHINGTON.

The bronze statue of John A. Logan, which was recently unveiled in Washington with impressive ceremonies, is a handsome addition to the monuments of the capital city and one of the most unique. It is the conception of Franklin Simmons, a distinguished sculptor, and is one of the finest memorials of the equestrian style that have ever been unveiled in this country. It is the only monument wholly of bronze to be found in America. Both pedestal and statue were made in Italy and, while on exhibition in Rome, was viewed with curiosity by thousands. Its beauty so impressed King Humbert that he knighted Mr. Simmons for his work.

money. I've got enough, or will have The pedestal is about twenty-five feet in height. On one side is a group representing Gen. Logan in consultation with the officers of his command. These are portraits of the leading generals of the Army of the Tennessee, namely: That would keep us very nicely, and Dodge, Hazen, Slocum, Leggett, Mower and Blair, and of Capt. Strong. On the opposite side of the pedestal Gen. Logan is represented as taking the oath of office as Senator of the United States before Vice-President Arthur. Grouped around are Senators Cullom, Evarts, Conkling, Morton, Miller, Voorhees and Thurman, of whom there are now living only Gen. Dodge and Senator Cullom. On the front of this beautiful pedestal is an ideal figure, about life-size, representing the "Defense of the Union," and on the other end a figure of the same size representing "Preservation of the Union." These allegorical figures are beautifully and appropriately draped and are stately and imposing. Surmounting the pedestal is the equestrian figure, which measures 141/2 feet in height. Gen. Logan is represented as riding along the line of battle, his sword unsheathed, and the horse moving forward at a gentle trot, slightly held in check. The general's appearance exhibits great force and energy, and the whole impression given by the statue is one of dignity, beauty and power.

colored man.

There are many believers in the virtues of the mysterious drug, and many try with the hope that they, like the "Eliza Green," in the famous rag-time song, will soon turn whiter. The firms manufacturing these preparations claim that their business is continually on the increase, and that their trade, which naturally was largely confined to the Southern States a year or six months ago, has now reached more remote quarters of the earth. The head of one firm stated that his preparation had recently been introduced in several sections of Africa, through the agency of certain missionaries in that country. The negroes buy these preparations freely and a customer once interested is seldom lost, but continues to purchase the mysterious medicine, believing firmly in the ultimate vindication of its virtues.

A few months ago there were but two firms in this city manufacturing a hair straightener. They met with generous success; their business was seen to in crease, and others, seeing their chance, been in a degree rewarded. The whitening and straightening preparation is now being sold in large quantities in Cuba and Porto Rico. A few days ago a considerable shipment was made by express to Cape Town.

power on the mere ground that steam or electricity or some new and unusual motive power is used to propel them. The fact that they interfere with the drivers of animals makes no difference.

The Supreme Court has so held. Judge Monks, who delivered the opinion of the court, said that the highways and streets are not for the exclusive use of vehicles propelled by animal power, nor are travelers confined to the use of such power and to ordinary carriages on highways. The use of any new and improved means of locomotion must be deemed to have been contemplated when the highways and streets weer laid out or dedicated, he said, whenever the general benefit requires it and such new means of locomotion cannot be excluded therefrom.

#### SEEKING BURIED TREASURE.

Farmer Is Turning Up the Soil of 160 Acres in Hope of Finding Gold. Alvin Trayler, a farmer living a few miles from Petersburg, has begun the task of turning up the soil of a 160-acre tract of land to a depth of three feet, and now has about twenty men employed for the purpose. He is convinced that a treasure of \$20 gold pieces is hidden there, and other attempts to find it havembarked in the compoundng and have ing failed, he is going over the whole tract. Many years ago Carl Schuman, a Mississippi river gambler, purchased the tract and paid for it in \$20 gold pieces. Among the articles that he brought over from Evansville was a heavy chest bound with iron, and believed to contain gold. He lived alone much of the time. What surplus corn, wheat and other farm products he raised were sold to the neighbors, and it was believed he was thus adding always to his hidden wealth. Trayler is confident that the search will be rewarded by finding the chest of gold.

#### COMPANY EDUCATES BOYS.

Lake Shore Railway Establishes a School at Elkhart.

The Lake Shore and Michigan Southern Railroad has established a school for apprentice boys at the big shops at Elkhart. All the boys are compelled to attend sessions. The company pays all expenses. The courses of study are of purely technical character, being such as are particularly applied by machinists and mechanics. The school sessions are held at night. C. A. Tousley, head draughtsman for the company, is chief instructor. Some of the most prominent railroad officials in the country for a long time have advocated the establishment of schools for boys and men in the employ of railroads, and several companies have taken steps in the matter.

#### BAD MONEY PLENTEOUS.

#### Counterfeit Bills and Coins Are Flooding Northern Indiana.

"Yes, gladly, and we would be happy, too. You would manage somehow. But now my self-respect will not allow me." So it was that he went to make his fortune and at the same time peace with his unduly-active conscience. To his utter disgust, he found, after a year's prospecting, that gold mines were not at all plentiful, and that every foot of the mountains had been pros- pected over time and again. A year in Mexico assured him that the business of finding silver mines lying around loose had also played out long ago, and	Small wonder was it, then, that when he received a letter from her he felt that his voluntary exile was broken. "Nell, dear, if I could afford it you know I would be delighted to take you." "Well, you can afford it." "I tell you I cannot." "I know better—you can. Why, just look at these," and she handed him a bundle of books and papers. He picked up the first one and read the inside page: "First National Bank, in account with James M. Allyn. De- posited May 1, \$35,000; May 9, \$12,000; May 12, \$12.000." "What does this mean, Nell?" he asked wonderinkly as he looked at an- other book and read: "Received May 9, bonds, mortgages, stocks and securi- ties duly transferred and assigned to James M. Allyn, and aggregating \$130,- 000, and more particularly described as follows: 'The Trust and Safe De- posit Company.'" · Nell was hugely enjoying the situation. She seated	Good Story on Senator Jones. They are telling this story in Wash- ington about Senator Jones of Arkan- sas, chairman of the Democratic Na- tional Committee, who is a member of the Humane Society, and wears a badge that entitles him to investigate the condition of any animal that ap- pears to be ill treated. One day as he came down from the Capitol, he in- spected a team that was standing by the curb. "Here, you!" shounted the driver, "what are you doing there feeling about that horse's neck?" "I'm an officer of the Humane Socie- ty," replied Senator Jones, mildly, "and I want to see if this collar fits this horse." "Well," snarled the driver, "if that collar don't fit that horse any better than your collar fits you, you just run along and get a cop and have me ar- rested."	<ul> <li>obliged to warn business men of spurious money in circulation, the is of which is rapidly increasing.</li> <li>FATHER-IN-LAW MUST PAY.</li> <li>Margaret Winklebleck Wins Sentional Suit at Logansport.</li> <li>Margaret Winklebleck was given judgment at Logansport for \$1,01-against her father-in-law, W.
