CULVER, INDIANA, THURSDAY, JUNE 1, 1905.

LAKE MAXINKUCKEE.

Non-Partisan in Politics.

Appropriate Ceremonies by Grand Army Post and Relief Corps.

The memoriel services held at present at these meetings. the M. E. Church Tuesday forenoon were most impressive. The Henry Spyer Post G. A. R., Ladies Relief Corps, Marmont Lodge Knights of Pythias and the Culver Band participated. Rev. Streeter, resident pastor of the M. E. Church delivered the address. He deviated from the ordinary style of delivering a memorial oration and told his audience the story of a volunteer soldier. The incidents were taken from actual camp life and portrayed the trials and tribulations of an an intensely patriotic soldier. The Reverend was in full sympathy with his subject which enabled him to present it in a forceful and impressive manner. The Culver Band and Dr. Wiseman with a select choir furnished the music, instrumental and vocal, for the occasion. The procession in its line of march to the cemetry was led by the band and followed by the Marmont Lodge Knights of Pythias, Henry Spyer Post G. A. R., the Ladies Relief Corps and about twenty little girls dressed in white and a large and sympathetic throng of people. The graves were decorated with the flag of our country and beautiful wreaths of flowers placed in position by the fair hands of the girls. After the services at the cemetery the procession marched to the lake. The Ladies' Relief Corps took charge of the exercises and cast flowers upon the waters in honor and memory of the fallen heroes of the U.S. Navy.

Services at Poplar Grove.

Sunday afternoon the Henry ver, and in a body, went to Poplar Grove cemetery where they were met by the Maxinkuckee Band and a large concourse of people. An orgainzation was formed at the school house. The procession was led by the band and followed by the Post, Relief Corps and a large number of children dressed appropriately, wearing the colors, red, white and blue and carrying the wreaths of flowers intended to decorate the graves of the fallen heroes. The procession marched to the church, keeping time with the music by the band. W. A. Foster of Knox, delivered the address. He was full of his subject, and with overflowing eloquence appealed to trip. the patriotism of his hearers. Songs by the home choir, were well rendered and touched the hearts of the vast audience as only patriotic songs can. The placing of the wreaths was a solemn and impressive sight. The battle scarred veterans with feeble step marched from grave to grave, while children in their youthful innocence decorated the graves. It was the dawn and twlight of human endeavor and accomplishments, vieing with each other in doing honor to those who sacrificed their lives that their country might live and grow under one flag and one constitution. Childhood and old age, typical of the unknown future and the turbulous past, while the present is peaceful and prosperous. May the God of hosts be with us and give peace and prosperity to all nations and peoples.

June Meeting.

The Annual June Meeting of the Church of God will be held at the Antioch Church, located near the Michigan Road, 24 miles north of Argos, and 51 miles south of Plymouth, beginning at 8 p. m. June 8th, and continuing over the following Sunday. An elaborate

MEMORIAL DAY AT CULVER program has been prepared, and those who come to hear the exposition of the different Bible themes will not be disappointed. A cordial invitation is extended to be

Big Fire at Kewanna.

Kewnnna had a fire last Saturday night that threatened the destruction of the entire town. It was first discovered in Toner's elevator and rapidly spread to other nearby buildings. The loss is estimated at \$25,000 with about \$7,000 insurance. The losses are as follows: Toner's elevator \$10,000; Nittum & Ridemour's eleveator, \$10,000; Byer Bros.' Poultry ware room \$3,000; Vandalia depot,

Resolutions.

By Marmont Council No. 20

Knights and Ladies of Columbia WHERAS, Death has claimed our sister, Mrs. Martha Jane Johnson Spencer in the mist of her usefulness in the Council and to her

RESOLVED, That we as members of Marmont Conneil No. 26 Knights and Ladies of Columbia, express our deep sorrow for the void occasioned, and our high appreciation of her social attributes while a member of our Council.

RESOLVED, That we express to he bereaved husband and children our most profound sympathy in

their loss of wife and mother. RESOLVED, That a copy of these resolutions be sent to the bereaved family, one to the Culver Citizen, also that a copy be spread upon the records of the Council.

> URIAS MENSER. COMMITTEE HENRY ZECHIEL. J. H. KOONTZ.

Late Postal Ruling.

A recent interpretation of the Speyer Post G. A. R. and Ladies postal laws and regulations by the Relief Corps met at their Hall, Cnl. postal department, with reference Dist. No. 6to rural carriers, has been issued. The department has decided that rural carriers cannot act as agents or solicitors, even while off duty within the delivery of the office from which their routes emanate. Neither can the carriers engage in any busines or occupation in which they would come in competion with private citizens, with the exception, probably of manual labor. The ruling is quite drastic and is not calculated to be accepted very graciously by the carriers. They of Union township and Culver cannot understand why they cannot eugage in whatever occupation they desire during the afternoon after they have completed their

Announce Your Guest. An exchange very truthfully says that it is only a very pretty courtesy that you can pay your guest by seeing that their names appear in the local paper when they visit you, Should they look over the local paper and find that nearly every other guest in town is mentioned, and that their names are left out, is it a wonder that they feel slighted? There is no guarntoo that the news paper will get your guests' names unless you make it a point to see that it gets to them. Pay this little courtesy to your friends, and see to it that we get their names when they are in the city.

At the birth of a Japanesse baby a tree is planted, which remains untouched until the marriage day of the child. Then the tree is cut, and a skilled cabinet-maker transforms the wood into furniture, which is highly prized.

"I'm sorry to have to do this," said Johnnie, as he spread the jam on the cat's face, "But I can't have no suspicion pointing its fingers at me."

THIRTY-NINE GIVEN DIPLOMAS LOCAL AND PERSONAL NOTES

cises at Assembly Auditorium.

Despite the fact that it had rained almost constantly the entire very hour of the schednled time for the exercises to begin, the joint com mencement of the Union township and Culver schools at the Assembly Auditorium last Thursday evening was witnessed by quite a large number of people. Music was furnished by by the Maxinkuckee band and Plymouth orchestra. After an invocation by Rev. S. E. Klopfenstein, the class was presented by Trustee F. M. Parker in a few well chosen words.

The address of the evening was Lebanon. Rev. Brown had for his subject "Uncle Sam," and presented it in a clear and entertaining manner. From the birth of urday and Monday. the republic he conducted his hearers through the formation period of our country's history up to the present time; the difficulties and hardships which confronted and were surmounted by those sturdy pioners, whose wisdom and indomitable courage laid the foundations for the mighty nation it is today. He closed by reciting 'My country 'tis of Thee."

County Supt. Geo. D. Marks, in a few brief but felicitious remarks. presented the class with their di

plomas. The following are the thirtynine young ladies and gentlemen

who graduated: Dier No. 1 -Ova Livinghousz Homer Albert Bay Diasmore Ray Diasmore Rassell Morber

W. C. T. U. Meeting.

The following is the program of the W. C. T. U. meeting to be held at the Reformed church, Sunday, June 4, at 4 o'clock;

Leader-Miss Duddleson. Subject-Franchise. Song.

Scripture Lesson and Prayer. Song.

"A Home Protection Weapon." Mrs. Howard.

"A Whole Humanity." - Mrs.

Young Ladies' Quartette. "Woman Sufferage and W. C l'. U,"-Mrs. Parker.

"Enforcement of Law." - Mrs. Charity Stahl. Roll Call Scripture Quotations.

Lost - A pocketbook between Stabl's store and John Sparks' residence. Return to John Sparks.

Common School Graduating Exer- Happenings of the Past Week in Culver and Vicinity.

Culver is a dogless town. E. W. Koontz spent Sunday in afternoon and evening up to the Fulton, Mich. E. A. Poor was at Plymouth on business Monday. The Vandalia railroad has chang-

ed time, see the time card. Miss Elsie Moore, of Kewanna

is a guest of Miss Esta Cromley, Mrs. Harry Saine is in Hoopeston, Ill., visiting her mother, who is quite ill.

Miss Edna Peeples entertained a number of her friends last Friday evening.

Urias Menser has the stone for delivered by Rev. L. E. Brown, of a foundation for his new residence on the ground.

D. B. Young and Grover Filar were at Pierceton on business Sat-

Wm. Porter and family spent the past week at his cottage on the east side of the lake.

Miss Myrtle and Mr. Floyd. Nearpass, of Mishawaka, visited friends in Culver a few days this

Born - To Maj. and Mrs. Matheson, a son, on May 29th. Mrs. Matheson is a daughter of Col. and Mrs. Fleet.

Mr. Wilbur W. Craig, of Macy frove to Culver last Saturday to visit his friend Miss Eva Menser.

Mr. Wilbur Craig and Miss Eva Menser spent Saturday afternoon

with Louise Working of Burr Oak Mr. Wilbur W. Craig, who has has been visiting Miss Eva Menser left Tuesday morning for his home.

Mr. and Mrs. O. Duddleson and daughter Lulu, of South Bend, visited relatives here a few days this week.

Mrs. Lucile Cord, of Crawfords. ville who has been employed by Mrs. E. E. Lord as a trimmer, re turned to her home Saturday.

Mr. and Mrs. E. N. Cromley, returned to their home at Indiana Harbor, Friday, after a visit of several weeks with relatives

Mr. S. C. Shilling has completed the grading and leveling of his yard. He has now one of the neatest and most pleasant homes in town.

Platt McDonald, formerly of Plymonth, but now residing in Mexico, is visiting his brother Daniel at his cottage at the south end of the lake.

Mr. E. C. Church of Culver and er. Don Phillips of Chicago are spending the week with L. C. Mills and family and F. S. Scott and wife .-Kewanna Herald,

ing were well attended and Mr. McConnehcy's sermon was highly appreciated by the old soldiers and the entire audience.

Poisoned meat was thrown in the rear of Daniel Easterday's residence Satureay night. The pitcher that was carried to the well for years was broken at last, so will this scoundrel be caught in the

Services Sunday at the Evangelical church will be as follows: Sunday-school at 10 a. m.; Y. P.

Mrs. David Swigart, who has been ill for some time, is still in very poor health.

Mr. and Mrs. Frank Easterday and son Vernie, Mr. and Mrs. John Osborn and daughter Pearl, Misses Minnie and Clara Shilling spent Sunday in Chicago.

Our merchants are doing an excellent business and people may be seen here who come a distance of ten or twelve miles to avail themselves of Culver's markets and save money by picking up bargains that are offered,

The rural telephone lines are being pushed to completion. Many of the farmers are availing themselves of the opportunity now of fered them and many more will subscribe as soon as they see the advantage that a telephone in the home offers to every one.

Art Castleman and Mr. Hines caught the largest string of fish Sunday, that has been caught at the lake this year. They had 97 fish that weighed about 60 pounds. They had all kinds and all sizes. There were a few bass, croppies, eattish with a large number of sun fish and perch.

Mrs. J. F. Weiss and daughter Edith left Wednesday for Naper ville, Ill., to attend the graduating exercises of her daughter Lillian. Miss Lillian Weiss has completed her studies in music and will graduate next week after which she will return to Culver and devote her time to teaching music.

A Northern Michigan editor wrote to a certain trade paper, asking: "What would you give a man who has taken my paper for seven years, never paying a cent for it, Haleyon Villa. and then writes me to stop it say. ing he never ordered it, anyway?" The answer was: "Depends upon his size. Such animals sell by the ect a cottage soon.

Culver should have a Fourth of town in the state that could offer Point. the attractions we can. A naval battle on a lake Maxinkuckee after dark, using fire works in the place of cannon balls, would be a sight never to be forgotton. Our people should get together and formulate a plan.

Press dispatches state that Togo has completely annihilated the Russians in a naval battle on the straits of Korea Sunday. There must be some mistake about the matter. We have a distinct rememberance of performing the last sad rites over Togo's lifeless form but a week or so ago. He was the first victim of Culver's dog poison-

Rev. Klopfenstein, in his sermon days at his cottage fishing and Sunday evening referred to the fact getting the cottage ready for the that the flag of our country does summer, returned to Terre Haute not float over our public school Saturday. The memorial services at the building. Why should we be pat-Evangelical church Sunday morn- riotic as long as we are inhuman? Why float the American flag over a building that ought to be condemned by the health officers, on account of its foul and disease laden inside and the dilapidated and ready to topple over condition of its walls and surroundings.

Either an inhuman brute or an Monday. idiot is at work in Culver. During the last two weeks no less than 13 dogs and about half as many cats have been poisoned. The method employed by the brute is to throw poisoned meat upon the doorsteps A. at 7 p. m.; Preaching at 8 p. m. or into the back yard where a dog You are cordially invited to attend is owned. No discrimination is these services.-C. McConnehey, shown, the harmless as well as the vicious are systematically Prof. Hahn has not been called killed. The lunatic is shrewd home to superintend the building enough to hide his identity otherof a new school house. Several wise he would be taken to an asyparties are willing to furnish the lum or be given a dose of his own money or erect the building and medicine. It is very dangerous rent it to the town, but the school work to throw poisoned meat into board is hesitating, why, no one public places, and a severe penalty is attached to the offense.

AROUND THE LAKE'S SHORES

Many of the Cottages Now Open for the Season.

Mrs. Maud B. Eddy, of Indianapolis, arrived at the lake Monday ond opened one of the Bay View cottages which she will conduct as a boarding house this summer.

Otto Duenweg, of Terre Haute, well known to lake visitors, received third prize in an amatuer contest managed by the Burr-McIntosh Monthly. His picture appears in the June number.

Everybody reads THE CITIZEN.

CULVER. INDIANA.

As long as peekaboo waists are in fashion, the bachelor maid statistics will stay down.

James II. Hyde possesses one of the finest stables in America and a pair almost as expensive.

Many persons who may not have heard of the whisky war will be surprised to learn that it is selli on.

Water, Lord Brassey the famous yachtsman declares, is his passionthough not perhaps as a beverage.

"Our liquor bill," says the Atlanta Constitution, "Is \$1,000,000,000 per annum." Why not try the water wagon?

Dr. S. Weir Mitchell says that cats bring terror into many lives. To be exact, cats are the terrors of nine lives.

Carnegie has given Great Britain a diplodocus, and the scientists are hunting for its parasite already, before it spreads. A Chicago man advertises that he

would like to marry an amiable German lady. Perhaps he wants to learn German. Some of this year's shirt waists are

so absolutely stunning that dentists' assistants are wearing them to save laughing gas. New York lawyers have the habit of

chewing gum in court. Probably to rest their voices and still keep their jaws in practice. An English paper says that Ameri-

cans make the best husbands, but it will have hard work convincing Pittsburg heiresses that ils statement is

"The brass band as it exists," says a London paper, "Is merely in its infancy." Possibly the London editor has never heard any but little German bands.

Says the New York Herald, "We drank 1,494,191,325 gallons of beer last year." If any one of our German editors can match that record let him speak up.

"There is good and there is bad on the stage," says Bishop Potter. He cautiously refrains, however, from causing a rush to the bad by telling where it is.

The prominent New York politician who is putting in a burglar alarm at his home apparently fears that some midnight marauder may not recognize

The article in a contemporary headed "How to Fit a Waist" must be intended exclusively for feminine readers. The young men, as a rule, do not need instruction.

Women's stockings must match all shades in their summer suits this year to be correct. Those who can't afford to keep up with the styles will have to be particularly careful.

Tong Pao Tung, a Massachusetts school boy, was run over by two wheels of a big touring car, but got up and smilingly walked away. You can't keep the Chinese gown.

Nature never makes any mistakes, of course, but Maryland people wonder why the oyster was not provided with a more adequate means of defense against the starfish.

An Indiana tramp was fined \$37 for having one cigaretto paper in his possession. Why didn't he plead that the offending paper was but a tissue slip fallen from between his calling cards?

In Reno, Nev., a sotter dog is caring for a brood of motherless chickens. This isn't as strange as it might appear. Poultry yard records show that a good setter almost always makes a good mother.

The assertion made at the monthly meeting of the Chicago dressmakers' club that every woman in the country will have hoopskirts on before fall is manifestly erroneous. There's Dr. Mary Walker.

The marksman at the New York Hippodrome who shoots the buttons off his wife's dress would appear far more wenderful to some of the audience were he able by a shot to hook up the dress in the back.

It is reported that King Leopold thinks of getting married again. That Is not half as remarkable, however. as the fact that there are several young princesses in Europe who are willing to have him come around,

Whether Bernard Shaw wrote some of his most famous plays on an empty stomach or not, doesn't seem to be of enough importance to justify the dispute among the critics. In any case, most dramatists will continue to prefer paper.

The lomon pie of commerce, according to the pure food commissioner of Chleago, contains no eggs, no butter, and but precious little fruit juice of any kind. Whether this discovery will restrain the pio habit is much to be doubted.-Rochester Herald.

THE GULVER CITIZEN. JEW SOCIALISTS

Destroy Haunts of Vice Kept by Members of Same Religious Faith.

RUIN HOMES OF DISORDERLY

Mob Thow Costly Furniture Into the Streets, Where Waiting Crowds Take Up the Work of Destruction-Patrols Look On.

Warsaw cable: For twenty-four hours rioting on an almost unprece dented scale went on in Warsaw, with the result that at least eight persont have been killed and over 100 wound ed and that almost every disorderly house in the city has been wiped out of existence. Mobs attacked thuse resorts Wednesday night and kept wrecking furniture till 1 o'clock. At dawn Thursday morning they resumed the attacks, fighting the owners and occupants of the houses.

The disorders arose from an attempt of the Jewish socialist organization, called the Bund, to purge the Hebrew district of Warsaw of all disreputable persons. The Bundites, with the view of expelling their undesirable coreligionists, commenced to wreck disorderly houses, cafes and other resorts.

Smash Houses With Axes. The damage to property has been considerable. There has been no pillaging, but the destruction of the furniture in the various houses has been absolute.

The mobs, armed with axes. smashed the doors and windows and brought the furniture out on the streets, where the rioters broke it into small pieces. The owners of the furniture, in attempting to defend their belongings, were attacked, beaten and even killed. Knives and revolvers were used freely and many persons were terribly injured.

Late at night the Cossacks fired on the crowds at two points, wounding four persons, in the first effort of the authorities to stop the rioting. During Thursday patrols occasionally appeared, but they regarded the procoedings merely as spectators.

Stories of the Cause. The character of the disturbances is unprecedented. The whole affair is a conflict between the respectable Jewish socialist classes and the disreputable element. There are conflicting stories as to the origin of the trouble. One report is to the effect that the respectable Jews tired of hearing the members of their race called keepers of disorderly houses, thieves and usurers and other opprobrious names, and resolved, as the police were receiving bribes for protecting disreputable houses and per-

sons, to take the matter into their Another report says that Jewish roughs, in the guise of members of the Bund, were levying blackmail on shopkeepers, thus enraging the socialists. In any case, the socialists seem ingly determined on a crusade against the undesirable persons of their own race, with the result that crowds of men and boys are now systematically rulning the disreputable houses.

Wreck Palaces of Vice.

Extraordinary scenes were witnessed late Thursday night, when the crowds visited the better section of the city and demolished apartments filled with costly effects. Wardrobes, planes and mirrors were thrown out of the windows. The mob in the streets left open spaces for the falling articles and then completed the work of destruction. In one place a quantity of jewelry was taken out and smashed with stones.

The whole affair was carefully organized. The leaders were supplied with the addresses of the owners of disreputable houses and scarcely a single resort in Warsaw escaped destruction.

MISS WATSON WEDS WOODRUFF

Racine Girl Among Bridesmalds of Eugenie Watson of Columbus,

Columbus, Ohio, dispatch; The wedding of John Eastman Woodruff, son of Timothy L. Woodroff, former lieutenant governor of New York, and Miss Eugenie Gray Watson, took place at the Hotel Hartman, Rev. B. L. McElroy officiating. Arthur Havemeyer of New York was the best man, bridesmalds were Miss Jeannette Bull of Racine, Wis., Miss Gladys Painter of Plitsburg and Miss Evelyn Turney of Columbus.

FIND PRINCESS LOUISE IS SANE

Experts in Paris Again Examine Mental Condition of Titled Woman.

Paris cablegram: The two doctors who were appointed at court to examine into the mental condition of Princess Louise of Saxe-Coburg have handed in their report, the conclusions of which are clearly favorable to the princess. This is the second time that the princess has been examinod by physicians appointed by the French tribunals and declared

To Compromise Bryan Claim. New Haven, Conn., dispatch: Judge

Cleaveland announces that the attor neys for the Rennett heirs and coun sel for William J. Bryan have had another conference and will endeavor to reach an agreement regarding the account without further examination of Mr. Dryan.

The average consumer of baking powder does not know that a reaction PURGE WARSAW occurs in the process of baking. Food prepared with a cream of lartar baking powder does not contain any occurs in the process of baking. Food cream of tartar. A loaf of bread made from a quart of flour leavened with cream of tartar baking powder contains forty-five grains more of Rochelle Salts than is contained in one Seidlitz powder. Some eminent Boston physicians testified against the healthfulness of Rochelle Salts.

WORTH KNOWING.

Therefore, why should the consumer pay forty-five or fifty cents per pound for the cream of tartar or Trust baking powders when the best baking powder in the world can be made to retail at twenty five cents per pound (the price asked for Calumet Baking Powder) and leave a fair manufactur-

er's profit? The manufacturers of Calumet Baking Powder have for years made a standing offer of One Thousand Dollars for any substance injurious to health found in food prepared from It. Bread made from Calumot Baking Powder is entirely free from Rochelle Saits, alum, lime or ammonia.

An Item of Strength. George Ade was talking about some

buildings that had collapsed half-fin-Ished in Chicago,

"They were put up," said Mr. Ade, by builders of a type too familiar to us in America.

"I once heard of two of these builders who, over a glass of beer, met and talked logether like this: "'Jones, you always have better

lock than me.' " 'Better luck? How so?"

"Why, how else do you account for my new houses blowing down in last week's wind, while yours weren't harmed? All were built the samesame woodwork, same mortar, everything."

"'Yes,' said the other builder, 'but you forget that mine had been pa-

ULCERS FOR 30 YEARS.

Painful Eruptions From Knees to Feet Seemed Incurable-Cuticura Ends Misery.

Another of those remarkable cures by Cuticura, after doctors and all else had failed, is testified to by Mr. M. C. Moss of Gainesville, Texas, in the following letter: "For over thirty years I suffered from painful ulcers and an eruption from my knees to feet, and could find neither doctors por medicine to help me, until I used Cuticura Soap, Ointment and Pills, which cured me in six months. They belped me the very first time I used them, and I am glad to write this so that others suffering as I did may be saved from misery."

Just Like the Old Folks.

"Gracious, Elsie!" exclaimed the little girl's mother, "why are you shouting in that horrible fashion. Why can't you be quiet like Willie?" "He's got to be quiet, the way we

are playin'," repeated Elsie. "He's papa coming home late and I'm you."

Mother's Devotion

To her children is one of the most beautiful things in life. When they are sick, the wise mother, who has taken the pains to study their best interests, promptly gives them Caldwell's (laxative) Syrup Pepsin. It quickly relieves pain and fever, and can never do anything but good.

One Day Equals One Cent.

Weary Walker-Say! Don't yer wish dat time wux really money, like dey say it is. We got lots of time.

Harvard Hasben-I guess time is money, all right; anyway, I got thirty days once and it made mo feel like 30 cents.

Insist on Getting It. Some grocers say they don't keep Defiance Starch. This is because they

have a stock on hand of other brands containing only 12 os in a package, which they won't be able to sell first, because Defiance contains 16 oz. for the same money.

Do you want 16 oz. instead of 12 oz.

for same money? Then buy Defiance Starch. Requires no cooking. Merely on a Shopping Tour. First duke-Well, do you think Miss

Van Bullion intends to buy you? Second duke-My dear boy, I don't know. Some days I think she does. At other times I fear she is merely shopping.

in a Pinch, Use ALLEN'S FOOT-EASE. A powder. It cures painful, smarting, nervous feet and ingrowing pails. It's the greatest comfort discovery of the age. Makes new shoes easy. A certain cure for sweating feet. Sold by all druggists, 25c. Trial package FREE, Address A. S. Olmsted, Le Roy, N. Y.

On the square, don't you often wonder what the waiter thinks of you for tipping him too much in order to retain his respect?

Why It Is the Best is because made by an entirely different process. Defiance Starch is like any other, better and one-third more for 10 cents.

When a girl has a corn that causes

her to limp she always apologizes by saying she must have twisted her Lewis' "Single Binder" straight & igar. Made by hand of ripe, thoroughly

enred tobacco, which fusures a rich, satis fying smoke. You pay 10c for cigars not so good. Lewis Factory, Peoria, Ill. The woman nover lived who hasn't

to write an anonymous letter. All Up-to-Date Housekeepers use Deliance Cold Water Sturch, because it is better, and i oz. more of it

aor same money. New York has revived "Tribly. Now for the bicycle.

LIFE POLICIES TO BE ASSESSED

Attention of Wisconsin Legislature Is Now Turned Toward Insurance.

PLAN TO DISTRIBUTE SURPLUS

Measure Before Senate to Compet Mutual Companies to Declare Dividends at Least Once in Every Five Years Likely to Pass.

Madison, Wis., dispatch: Among the most important bills remaining before the legislature are those affecting life insurance. From the number of these bills introduced it appears that nearly every member has offered at least one sweeping change in the regulation or taxation of these interests and some members have introduced a great many such measures.

One of these measures is particuarly advocated by the state depart ment of insurance, being the bill to require all companies operating in this state under the mutual, tontine or "deferred dividend" plan to disribute among the policy-holders the surplus funds not less frequently than once in five years. This is designed to correct an interpretation placed by the supreme court on the old statute as passed in the suit between Commissioner Zeno M. Host and the Equitable Life Assurance society of New York.

The stainte says that such companies "may" distribute their sucplus funds among the policy-holders every one, two, three, four or five years. Commissioner Host declared that meant not loss frequently than once in the longest period named-five years. The supreme court held otherwise and declared that the word 'may" could not be held to mean "must." The bill has been passed by the assembly and stands a fair show to go through the senate. Would Tax Life Policies.

Another important matter that is

receiving a large share of legislative attention is that of taxing life insurance business. Numerous members ROOSEVELT GREETING have the idea that life insurance is exceedingly profitable, "when companies can live in marble palaces in New York and pay their officers salaries of \$100,000 a year, to say nothing of giving \$40,000 dinners." These members want to levy revenue-producing taxes. One of these members is Assemblyman A. H. Dahl of Vernor county. He has caused the assembly committee on finance, banks and insurance to introduce a bill as a substitute for No. 434 A, providing that each policy of insurance shall be assessed for its net value, as reported by the companies in sworn statements, the rate of taxation being equal to the average rate paid by the general property of the state and being the same rate that it is proposed to apply to the property of telegraph, would be united into one great body. telephone, street car and other rail- and the assembly gave its aproad systems, in accordance with the ad valorem law passed two years ago. and bills pending in the legislature this season. This bill is strenuously opposed by representatives of the

large old-line companies and others. Dr. William A. Fricks, former state insurance commissioner of Wisconsin, terlan channels. The report recomwho has been mentioned in dispatches as a possible compromise choice for president of the Equitable, is in Madison looking after the interests of varions companies. He said in an interview that the bill was a vicious and drastic one.

Holds It Unjust to Companies.

operating in this state equivalent to 7 per cent on the gross premium recelpts in the state. It would mean the Sablath. that the companies that cannot get away would have to pay the tax in WOMAN KILLS OHIO POLITICIAN addition to the retaliatory tax that would immediately be levied on the Wisconsin companies by other states. The Northwestern Mutual of Milwaykee would have to pay about \$2,105,-000 a year.

The bill intends to tax life insurance policies on the same basis as other property, the basis being the reserve in addition to the surplus that may be apportioned to the policy, this to determine the net value of the policy. The best companies and the fairest and most liberal and secure would be taxed severely. The Connecticut Mutual Life, an old conservative company, would be taxed about 14 per cent of its gross premium receipts in Wisconsin, while less conservative companies would not be taxed heav-

The bill is unjust and was not written manifestly by people familiar with the great question of life in-Shitance.

PROTECTS THE PAPER TRUST

Witness in Federal Suit Refuses to Reveal Company's Profits.

Milwaukee, Wis, dispatch: change of witnesses in the suit of the United States against the General Paper company falled to change the policy of the defense. When W. Z. Stuart, former general sales agent of the company, was asked questions at some time in her life bown tompted by Aftorney Kellogg Herron on the profils of the company and the sales of the individual mills he was instructed by counsel not to answer. He did say, however, that the General Paper company made contracts with lobbers all over the country to whom paper was shipped direct by the mills.

G. A. R. VOTES TO RETURN CONFEDERATE FLAGS

Illinois Veterans Decide in Favor of Relinquishing War Trophies to Heads of Southern States.

Rockford, Ill., special: Members of the G. A. R. adopted a resolution to return the Confederate flags captured by litinois troops during the civil war which are now in possession of the state at Springfield. There was a warm fight over the resolution, which was presented by James II. Davidson of Ulysses S. Grant post of Chicago and had the inforsement of Commandor Robert Mann Woods. It took the Christian talk of Bishop Samuel Fallows to win over the necessary. Following is the result of the elec-

tion of officers: Commander-John C. Smith, Chl-

Senior vice commander-E. H. Buck, Rock Island.

Hotchkiss, Oak Park. Medical director-E. P. Murdock, Chicago.

Junior vice commander-Z. P.

Chaplain-Roy. James H. Moore, Pole.

Resolutions were adopted commending President Roosevelt for naming Vespasian Warner as pension commissioner, and the county board of supervisors of Winnebago were highly commended for being the first in the state of Illinois to appropriate money for a memorial hall such as this county has.

The women of the G. A. R. had a warm time in electing officers, a contest being waged for each place, with this result:

Department president-Mrs. Bessie Howells, Austin. Senior vice president-Mrs. Emma

Slick, Aurora. Junior vice president-Miss Jennie

. Koehler, Bloomington. Treasurer-Mrs. Lillie Stewart, Chicago

The Women's Relief corps elected hese officers: Junior vice president-Mrs. Anna

Patterson, Mattoon. Treasurer-Mrs. Lucy M. Renich, Woodstock.

After appointing C. A. Partridge of Chicago assistant adjutunt general the encampment adjourned.

FOR PRESBYTERIANS

President Sends Message That Brings Forth Approval of the Laymen in Applause That is Prolonged.

Winona Lake, Ind., dispatch: President Roosevelt sent a message to the Presbyterian general assembly Thurs day night through Henry F. MacFarland, president of the board of commissioners of the District of Columbia. The message was given to the general assembly at a popular meeting for laymen, at which Mr. Mac-Farland spoke.

The president expressed the hope that the day would come when all branches of the Presbylerian church proval in prolonged applause.

The general assembly took up consideration of the affairs of the young people's societies, with especial reference to the problems of how to better stimulate their work and keep their funds more directly in Prosbymended that instead of withdrawing the societies for the general Christian Endeavor movement that organization should be encouraged.

The committee appointed to select the meeting place for next year reported in favor of Columbus, Ohio. but Des Moines received a majority "This bill," he said, "proposes to of the votes and secured the next genlay a tax on life insurance companies eral assembly. A resolution was adopted asking that the postoffice money order department be closed on

Fires Through a Glass Door at a Sup-

posed Tramp.

McArthur, Ohio, dispatch: J. M. Specht a farmer and miller and member of the democratic executive conmilitee of Vinton county, was shot by Mrs. Emma Flynn, formerly of Columbus. Mrs. Flynn was arrested charged with murder. She claims that about 11 o'clock at night she noticed what she supposed to be a tramp looking into her window and and that, seenring a revolver, she fired through the glass and barricaded herself in the house. Spechi's hody was found by his family at 1 o'clock in the morning on the lawn in front of the Flynn bome with a bullet hole through his head over the left eye. Mrs. Specht and Mrs. Flynn are cousins and the families have been on the best of terms.

NO TRUTH IN RUMOR OF BATTLE

Story That Togo Met Defeat at Hands of Russians Lacks Procf. London cable: There is not the

least confirmation of the reports of a battle between the Russian and Japanese fleels. Disputches from Tokio profess no knowledge of the location of the Baltic fleet. The belief is still largely held in Tokio that part of the ficet is at the island of Habian, while is main strength is to the Pacific. There was a thick fog on Thursday in Tusushima strait.

A Japanese correspondent at Manila says Rear Admiral Train is unable to ect confirmation of the reported prescoce of the Russians in Philippine waters, but he immediately sent the erulser Cincinnati to investigate.

EVERY WALK IN LIFE.

A. A. Boyce, a farmer, living three and a half miles from Trenton. Mo., says: "A severe cold settled in my kid; neys and de-

veloped son quickly that I was obliged to lay off work on account of the aching in my

back and sides. For a time I was unable to walk at all, and every makeshift I tried and all the medicine I took had not the slightest effect. My back continued to grow weaker until I began taking Doan's Kidney Pills, and I must say I was more than surprised and gratified to notice the backache disappearing gradually until ft finally stopped."

Doan's Kidney Pills sold by all dealers or by mail on receipt of price, 50 conts per nox. Foster-Milburn Co., Buffalo, N. Y.

Had Observed It.

There had been a brilliant company at the home of a society leader, a woman whose husband, while a very worthy man, was rated rather for his wealth than for his mental attain-

"Well, Abner," she said after the last visitor had gone and they had sat down to talk it over, "it was a complete success, wasn't It?" "Sure," replied her husband.

"Did you notice Prof. Muchman?" "He was the men with the bandage around his neck, wasn't ho?"

"Yes. You heard him talk, didn't you?" "Oh, yes, I heard him."

"What an astonishing vocabulary he "Well, that may be what it is," said Abner, doubtfully, "but from the way

he held his head I should judge it was a carbuncle."-Youth's Companion.

The Uses of Evil.

"Say, ma wants two pounds of butter. She wants it just exactly like what you sent the day before yesterday, an' if it ain't that same kind she don't want any at all." The small boy had bolted in, dis-

rand, pausing now only for breath. But the grocer, taking down the order of a new customer, dld not mind the interruption. "You see, Madam, how it goes," he said pleasantly. "My customers are

particular, and it is my pleasure to get

charging himself abruptly of his er-

them exactly what they demand. Yes, sonny," blandly to the boy, "you shall be attended to at once." "Ma says don't fergit to send the same kind of butter," reiterated the boy. "Some of pop's relations has just come to visit, and ma says that if they

stay long it won't be her fault," Leopold at Outs With Daughters.

Leopold at Outs With Daughters. King Lcopold, harassed by family litigation, is reported to have completely altered his testamentary dispositions. He regards his daughters much as Lear regarded Regan and Goneril when he came to know them. King Leopold's fortune is estimated at about \$10,000,000. Most of this he is expected to bequeath to the Relgian people for works of public utility. His daughters will get no more than \$40.

000 a year apiece. BOOK OF BOOKS.

Over 30,000,000 Published. An Oakland lady who has a taste for good literature, tells what a happy time she had on "The Road to Well-

ville." She says: "I drank coffee freely for cight years before I began to perceive any evil effects from it. Then I noticed that I was becoming very nervous, and that my stomach was gradually losing the power to properly assimilate my food. In time I got so weak that I dreaded to leave the housefor no reason whatever but because of the miserable condition of my nerves and stomach. I attributed the trouble to anything in the world but coffee, of course. I dosed myself with medicines, which in the end would leave me in a worse condition than at first I was most wretched and discouraged-not 30 years old and feeling that life was a failure!

"I had given up all hope of ever enjoying myself like other people, till one day I read the little book "The Road to Wellville." It opened my eyes, and taught me a lesson I shall never forget and cannot value too highly. I immediately quit the use of the old kind of coffee and began to drink Postam Food Coffee. I noticed the beginning of an improvement in the whole tone of my system, after only two days' use of the new drink, and in a very short time realized that I could go about like other people without the least return of the neryous dread that formerly gave me so much trouble. In fact my nervousness disappeared entirely and has never returned, although it is now a year that I have been drinking Postum Food Coffee, And my stomach is now like iron -nothing can upset it!

"Lust week, during the big Conclave in San Francisco, I was on the go day and night willout the slightest fatigue; and as I stood in the immense crowd watching the great parade that lasted for hours, I thought to myself, This strength is what Postuin Food Coffee has given me!' " Name given by Postum Co., Battle Creek Mich

Thore's a reason. The little book "The Road to West ville" may be round in every pkg.

CHAPTER XVII .- Continued.

The Captain, upon the landlord's telling him that there was no other outlet from the cellar, called his men I have a request to make of you," she and proceeded to drink to their success. When they had satisfied their thirst, bound up their scratches, and laughed a little over little incidents in the affray, they began to parley with the prisoner, Quentin Waters by

The man being promised safe conduct back to jall, came forth, a grin on his dare-devil face. Doubt's began to flit from one to another that they had spent their strength in taking the wrong man. They questioned He knew nothing of the prisoner or his friends, denied being Quentin Waters of Long Haux; hooted at the idea. He was Anthony Bryne, a tinker, on the way to London in search of work. He had bappencd in at the inn for a bite of supper, and had only seen the men as they rushed out of the house to meet the Guards. When the men had pounced upon him he had in desperation defended himself with his cudgel.

he said. Consternation came upon them. One of the men said that about town, and that the hoor could not possibly be he. To clap the climax, another one asserted with positiveness that the fellow was not the prisoner wanted, for he had seen Quentin Waters often about London. and that he was at least two inches taller, and also of a darker complexion.

At this the captain wanted to know why in h-ll he hadn't said so before. gested. The soldier replied that he hadn't been near enough to get a good look at him. So with crimination and recrimination, they were like to have a small fight among themselves when the captain hot-mouthed remembered his dignity, and put the still smiling fellow under arrest.

It being now too late to go in search of the man, and a heavy fog about, they returned to London a sorry lot.

CHAPTER XVIII.

The Loan of a Locket. Lady Felton and I left the ivygrown south wall, the deep-throated

'Is there anything I would not do for you, consistent with my honor?"

"Then in earnest of what you say

whispered. "Dear Rosemary, I beg of you not to besitate." I pleaded.

"I would borrow the locket you wear upon your breast," she said co-

quettishly. I raised my hand and felt of the locket she desired. Yes, it was safe and hung by its rosetie of ribbons. Truly a little enough request to grant, yet I knew not what to say; for what she coveted was a locket with a jeweled front and mirrored back, such as gentlemen of fashion used to see If their wigs were on straight. This one of minc had a space between the jeweled front and the mirror, and in that space I had hidden the letter given me by my father. Intricately concealed in the rim was a spring, which when pressed opened the

I thought at first of telling her about the paper; how Lady Dwight had been my father's first wife, and He told his story well, and mine that Raoul Dwight was my halfbost of the Tabard corroborated what | brother. But something held me; respeet for Lady Dwight, who should be the first one seen, and her wishes re-Quentin Waters was a gentleman garding her son. She wight still not wish him to know that Lord Waters was his father. I was pondering these things when she spake:

"I have a desire to wear it at the hall to-morrow night-on my breast. It is very prelly. It will look well among the ruffles of my new gown."

"To show another scalp at your girdle, as they say the red men in America number their victims," I sug-

"Tush, sir!" she cried. "Your comparlson is odious."

"But what matter it?" I continued; I would all the world might know am your lover."

Certainly she should wear the lock et; I hesitated not a moment upon that point. It was a small thing to do for Rosemary-and I would take the paper out. Upon second thought I decided to let it remain where it was. She had guarded the other bit of paper so successfully, she should have the guarding of this one also. The spring was so cunningly concealed she would never know that it

"You-you?" I said. "Pretty Alice Lynson?"

behind us and rode toward the open

The tog thickened. We rode close. My knees touched her horse's helly. I bethought me in such a fog there was no need to go in a roundabout

"No one will be able to recognize us in this fog," I said, "we will ride for the bridge; we shall have time to cross it before the guards will have reached it and can station men there -trust Gil for that."

"Yet an I were you," she returned, "I would cover my face when we do pinned the rosette upon her bosom. cross it, for who knows who may be flashing lights about."

"I shall be cautious, never fear," I said: "for your sake it would not do for me to be recognized."

On a sudden there rang out through the gloom a ripple of laughter. It was as startling and as lovely as if a alghtingale had burst into song at my bead. It was Rosemary laughing in the very abandonment of life and love and joy.

"Pleasant thoughts come to you, sweet." I said; "may I partake of them?"

"It is naught of consequence," she replied. "I am fey at times-and now there came before me the picture of Aunt Elaine's face an she should want to see her niece to-night. An compty bed-a scandal-she will be God forgive me! I have not wasted horror-stricken-poor dear!" Again she laughed.

"I sincerely hope the fates will keep her from your room to-night until you are safe at home and snuggled in your bed." I said quite devoutly. "Oh! you must know that Aunt

Elaine loves me dearly." she explained. "I can twist her about my flagers as I can one of my rings." "As you do all who come near you,"

1 affirmed. "Not so," she quickly retorted; "you yourself are not so amenable." "1?" I questioned in astonishment.

We reached the bridge. There were lighted flambeaus at its entrances, but we passed over unmolested, as ordinary wayfarers.

I dismounted her at the stables of the Bow Street mansion, where I had difficulty in arousing the hostler. Then we walked to the side entrance of the house. The key of this door Rosemary had taken the precaution to slip into her pocket, so as to be able to let herself in without awakening any one.

Before I bade her good bye, I

"Take care of it, sweetheart," I said; "it was my mother's. For that reason I value it highly, but the setting is too old fashloned to suit me; I shall have it reset when I returnwith the other jewels to deck my

"You are going?" she questioned. "To Long Haut on a sorrowful errand-to bory my father," I said. "Your father is dead!" she exclaimed in an awe-stricken voice.

"Yes." I roplied, "I only learned the sad news to-night from Gil. I never knew my father as a well man -God rest his soul! After I have faid him to rest among his ancestors in the old church of Long Hant, I will return, yes in five days I shall be here to finish a task, over which my energy." Then after a slight pause: "It is late (GI) will be waiting, poor fellow; I have taxed his strength to the utmost)-although I long to stay with you, I must be on my way-Good bye, good bye, sweet!"

I took her in my arms and this time she did not deny me: I kissed her lips. I watched her into the house and waited until I heard the door close and heard her say, "Oh, Moffet! how you frightened me!" Then I turned and remounting my horse rode slowhigh pillars of stone at its entrance, Ibalers."

A light was swing before my eyes. I heard a whisper, "'Tis he," A thousand colors flashed before me. I clutched at something-anything to save myself from falling. Then I knew no more.

CHAPTER XIX.

Pretty Alice Lynson. Buzz-buzz-buzz sounded throughout he room. What fretted me most was that the noise kept time to the heatings in my temples.

"Master Arnold," I muttered, "'tis i fine way to treat your guests-drink em under the table-first time in life -your wine's too newly drawn-too new I say. Oh, my head's as heavy as a laggard's feet-No, no, my lord,

the game is mine, mine, I say." So murmuring I awakened, I was dreaming 1 was at the lodge, and with Lord Felton was again playing that memorable game, in which I had won the hand of Lady Fellon.

I turned me over and tried to raise myself upon an elbow. My head fell back on the pillow. I was dropping off into sleep again when the noise which I have before mentioned aroused my ire.

"Gil, for God's sake," I cried out pctulantly, "stop your clatter, You make more noise than a lot of fish

wives chaffering at a country fair." The noise did not abate, but a figure raised itself from a chair at the

foot of the bed whereon I lay. "You idiot," I stormed, "will you

keep still?" The figure came tip-toeing to my side. I yawned, and then rubbed my eyes. It was "pretty Alice Lynson,"

as you please. "You-you," I said wonderment in my voice. "Pretty Alice Lynson, on my life 'tis-pretty Alice Lynson," I

repeated dryly, "what do you here?" "Ob, sir, sir," she blubbered, and with the tail of her gown she wiped away the tear from her eyes. "God in heaven but I am glad-I never thought to hear you speak rationally

again." I looked at her inquiringly. "Kind sir," she said, "you have been most grievously hurt."

"Hurt," I repeated. "Yes," she nodded. "Struck upon the head. For five days you have been unconscious; even at death's

door.' I raised my hand and felt of my head-it was sore to the touch, and

about it there was a cloth. "But how came you here?" I ques-"Here?" she repeated. " "Tis but a

poor room that I rent from day to "I see," I said whimsically, "I

should have said how came I here?" "It is a long tale," she began, "and I am afraid the chirurgeon will not want me to talk to you for fear of your fever coming back."

"Never mind the chirurgeon," said I "I am more like to die of impationce if you keep me long waiting. But first ask Gil to stop his jabbering there in the corner-tell bim to come here-why doesn't he come hereperhaps I can induce him to satisfy my curlosity, since you are so refuctant."

She did not move from my side. "Gil, Gil," I cried. I marveled that

my voice gave out so small a sound "Oh, sir," she said. "I'm afraid you will do yourself harm. Drink this, please, and then I will tell you what know." She took a cup from among the bottles on a chair near the bed, and put it to my lips. I meekly drank, It contained a nasty concection of drugs.

"Your pardon," I begged, for while she had my head raised I had peered more closely into the dingy corner. 'My head is not very clear, and I thought 'twas Gil humming as he oft does one of his outlandish verses to himself. Where is the fellow any way?" I added polulantly,

(To be continued.)

TELL THE COMING WEATHER.

Observant Persons Need Never Be Caught Napping.

"If the chickweed and searlet pimpernel expand their tiny petals, rain need not be expected for a few hours," says a writer, "Bees work with redoubled energy just before a rain. If the flies are unusually persistent either in the house or around stock there is rain in the air. The cricket sings at the approach of cold weather. Squirrels store a large supply of nuts, the busks of corn are unusually thick and the buds of deciduous trees have a firmer protecting coal if a seyere winter is at hand. If the poplar or quaking asp leaves turn up the under side rain will soon follow.

"If the camphor bottle becomes rolly it is going to storm. When it clears settled weather may be expected. This idea has seemingly been utilized in the manufacture of some of our cheap barometers. The main trouble is, they seldom foretell the change until about the time it arrives.

"Last, but not least, the rheumatics can always tell it 'in their bones' when a storm is approaching, and of this prognostication the octogenarian of to-day is as firm an advocate as were his forefathers."

A Financier.

Dismarck had to confer with the Iron Cross on a hero in the ranks one day and, thinking to try his humor, which was of the elephantine order, on the man, he said:

"I am authorized to offer you, instead of the cross, a hundred thalers. What do you say?" "What is the cross worth?" quietly

asked the man, "About three thalers."

"Very well, then, your Highness, ly out of the grounds. I passed the [17] take the cross and ninely-seven

In Women's -

In all Shades and Colors.

Elaborate blouses-some so elaborlace and embroidery and fragile stuff. caught together in involved ways, go with the more elaborate linen suits and with those stunning little white mohair and voile and serge suits that will be so much in evidence all summer. Ninely-nine out of a hundred are white-probably even a higher percentage than that; the bundredth the palest seashell tint of pink or blue

The blouses, colored ones, if so dellcate a tint could be called color, usually depend upon haml embroidery and apon the most exquisite of hemstitched plaits and they hand-run tucks for trimming. Broderie Anglaise ideas have invaded the realms of these delicate stuffs-not to a great extent, but just a few eyelets are flung here and there in the blind designs to accentuate the fineness of the work. Fewer drawn-work blouses are seen, except those wonderfully fine ones-Japanese straight through, from the flat, broad embroidery to the curious little patches of drawn work done in the inimitable oriental way.

Handsome Costume.

A handsome dress seen at a fashlonable jeweler's was made of pale meuve veiling, the full skirt hooped at the bottom with a wide hand of guipure. The bodice was made with a jacket offect, the square-cornered basques cut sharply away from a pointed vest of flowered silk, the background of which was a silvery white grosgrain. The large, flat jacket collar covered the shoulders and was garnished with lace and tucking. It showed at the throat a high lace collar banded with manye velvet. The short sleeves turned back above the elbows in shallow cuffs from which issued lace flounces. They were met by the long. white gloves that have now become one of the extravagant items of outdoor costume.-Chicago Tribune.

In Pale Gray Etamine.

Among the pretty and dainty ideas which amateur dressmakers can utilize is a shirtwaist suit of pale gray etamine. The skirl may be plaited all around, a plait coming down each seam and one in the middle of each gore. The middle of the front gore may be left plain and embroidered in the Hardanger work which came from abroad last summer. The stitching is done in white linen floss, and thus offers a pleasing contrast to like material. The strap under which the walst buttons in front, the cuffs, and a fancy collar, are all done with the same embroidery. Besides this fancy collar there can be two others that are less claborate and some white linen etamine ones which wash to look like new and wear extremely well.

Long Lines Still Popular.

evidence upon a large proportion of rose-pink gauze, that cases a most bethe thin summer frocks, they are not coming glow upon the fair face hethe rule, and some of the finest lin- negth, and the stick is one of those line is unbroken save by flat or inset trimming, horizontal, vertical or in handle, in which a powder puff is medallions such as we have already finishes both the tip and the handle described the set in at intervals around of the umbrella, some lingerie skirts, just above the hem.

Coat Suit of White Duck.

The severe tight-fitting failor coat in half and three-quarter length demands a maker of ability and a wearer of excellent figure, but given this combination it is an exceedingly smart and elegant garment. In the above model the skirt is laid in small plaits at intervals over hips, forming

a panel front, and on the coat there are plaits on each side, running from shoulder to bottom. A similar treatment is given to the otherwise plain sleeve. Green taffeta is used for the flat collar.

Black Silk Shirtwaist Suit. Excellent for a standby is a black

silk shirtwalst suit, because it can be brightened with a face shoulder collar for dressy wear or with fancy neck collars. If well made the skirt may be worn with all sorts of dressy usefulness.

A most attractive design for the waist of such a suit has a fitted lining ate that they are nothing but bits of and is made of lustrous china silk. It is tucked in one-eighth inch tucks to form a yoke and to make the caps for the sleeves; the latter are tucked to tightness at the op and flow in graceful fullness o the waist, where the fullness is confined in a band. An infinite variety of collars and stocks may be worn with this waist and thus fit it for all but the dressiest occasions. The tuck idea can be carried out in a yoke for the skirt.

> Severe Linen Frock. A pretty suggestion for a linen frock has a panel front heavily stitched and

strapped just below the waist line in round scallops, held in place with pearl buttons. The same effect is carried out on the front of the blouse, and the unique sleeve fastens from elbow to wrist with buttons matching those on the skirt and bodice.

Girdles of different shades are worn if desired, but those of white kid are in better laste. The turnover on stock is Hardanger embroidery.

For the Summer Girl.

For wear with wash frocks, that are to have things pretty nearly all their own way this summer, there are charming parasols in linen, plain and embroidered, that are as practical as they are pretty, and that is saying a great deal. The frame has the wires enameled in white and then thickly wound with a white silk floss, while the tips are each a small pearl bead. The openwork eyeletted embroidery covers the entire frame, and for border there are three shaped rows of While ruffles and flounces are in the sheerest linen. The lining is of gerie models have skirts whose length long alpenstock affairs in corkwood, with irregular carvings and a knob separate motifs. Valenciennes framed | deftly inserted. A rosette of the linen

Blouses for All Occasions.

Repeated prophecies have been made regarding the passing of the lingerie blouse, but it still remains one of the essential features of a woman's wardrobe. The newest models blouse very slightly. There never were so many simple little blouses worn, por so many elaborate ones; but for vasily different occasions. The blonses trimmed with the least bit of embroidery and lace or with tucks and the tiniest French beadings are worn for mornings and shoppings, in place of the stiffer waists of a year or two ago.

As Fashion Dictates.

That the elbow sleeve and the sleeve with the long, close cuffs are established for the season no one questions, and that a broader shoulder line than that of last year is accepted as also a definite fact, but the Year that we were on the way to the once popular gigot monstrosities seems to have been without grounds, and those hardy ones who pushed forward audsclously along the indicated path must needs retrace their steps if they would be in the height of the mode.

For the Children.

Soak half a teacupful of bread crumbs in milk and beat up light with a fork. Grease a cup with butter, add a lightly beaten egg to the bread crumbs and sweaten very slightly. Pour the mixture in a cup and steam for twenty minutes.

Panama Cloth Is the Thing.

Panama cloth, first launched as a plain material, now shows small selftone figures in some cases, though the plain Panama so far has the prefer-

The Panama cloth is midway 'twixt cloth and canvas-wirler and harsher than the former, closer and firmer than the latter, and in all colors it is greatly in demand. For white tailored coar and skirt costumes it leads the woolens, and indications are that it is to be the street suit material of the season, although that does not mean waists and thus enlarge its aphere of that other materials will not have fore building the crate. their innings.

Creamery Stock.

The question is now being discussed as to whether the stock of cooperative creameries should be owned by others than the men that are supplying milk or cream to the creamery. Some take one side of the controversy and some the other, but the strongest arguments seem to be in favor of the stock being cept entirely in the bands of the farmers that are directly interested in the success of the creamery. As much of such stock does not pay interest, it is evident that the outside owners of stock might in time come to feel that they could no longer let the creamery have their money without some returns, and would begin an agitation to turn the co-operative creamery into a stock company creamery. In some co-operative creameries only one share is held by one person, and that one share so credited to the farm, not the man. When he sells his farm the share goes, too. That prevents the trading in shares.

Corn Cultivation.

Use good seed corn. To obtain it, go through your cornfield as soon as the silk is black and select the best ears. Hang it up in the garret or barn. Break up your corn land, disk it in the spring and plant it as soon as the ground permits, using no less han three grains and no more than five in a hill. A week after planting, harrow it with a slanted, fine-toothed harrow made for that purpose. Harrow a week later, and again when your corn is four inches high. This will keep the weeds out of the hills. If your land is rich, plant it three feet by six inches. Keep away from the hill when cultivating, but cultivate deep until after July 4; then bring some soil to the corn, but have your cultivation more shallow.

Barrels or Boxes.

The apple sellers in the vicinity of Three Rivers, Quebec, were polled by the American consul there as to their preference for barrels or boxes for packing apples. The consensus of opinion was that more apples of a fancy class could be sold in boxes, but that common apples should be sent in barrels. The boxes require more handling, as it takes three boxes to equal one barrel, and during the rush season it is doubtful if the same quantity of apples could be handled in boxes as in barrels without the employing of increased help. One experienced apple handler said: "We like some fancy apples and fruit of an extra quality for holiday seasons in boxes, but we prefer the average apple in barrels."

The Soy Bean.

The soy bean (glycine hispida), also known as soja bean and coffee berry, is a native of southhas been cultivated for centuries in China and Japan. In those countries it is one of the important articles of food, but as such has never found favor in the United States. In the countries mentioned it has developed many different forms and varieties. This plant was imported into England about 100 years ago, but received there no attention, and no one considered it a food plant for man or beast. It was grown for a long time in the Southern states before it attracted attention, but finally its great worth was recognized. Now it is famous.

Feeding Spring Pigs.

Our pigs are now large enough to need very little milk from the sows and they are geiting little. We are feeding them a good deal of skimmilk, and in a few days when we turn them out on pasture even this will be reduced. We have a good blue grass pasture, and we depend on the blue grass to help balance the ration of soaked corn that we begin to feed about this time. The balancing process is much helped by the skim-milk they get. Later we will begin to feed new corn and then will not need to soak the old. It is my experience, however, that the soaking does a great deal of good and makes the corn more fully digestible.-John Bean, in Farmers' Review.

Temperature of Soil.

The temperature of the soil has much to de with the success or fallure of the planting operations. Sometimes what is charged to poor seed is really due to low temperature of the soil. One lot of seed was planted in soil at a temperature of 55 degrees. Cold weather came on and rain and the seed rotted. Then the atmosphere cleared and the sun came out warm and in two days raised the temperature of well-drained land to 65 degrees. The second lot of seed was sown and soon came up. It was the temperature that did it. You can't farm by the almanac. Even the thermometer is safer than that.

The Swine Crate.

The crate in which the pig is to be shipped must be made strong, but it must be also as light as possible. Where many pigs are to be sold during the year it is best to keep on hand a supply of light and tough crating material, which will then have a chance to season. Elm is regarded as one of the best crating materials that can be found. Measure the pig carefully be-

CULVER, INDIANA, JUNE 1, 1905.

A minister at Monticello was making a forenoon call on one of his parishoners. During the visit he asked Tommie if he knew what a miracle was. "O yes" said Tommie "Dad said it would be a miracle if you had sense enough to go home before dinner." The inference is that a miracle happened.

In the north there lived a farmer whose sense of humor failed him on his wedding day. He lived at some distance from his brideelect, and on that eventful morning he set off for the station in good time, but he met one friend after another, with the result that he missed the train. Naturally he was very much upset, but bethought himself of the telegraph. This was the message he sent: "Dont marry till I come-Will-

A. M. Chittick of Flora, Ind. is the owner of a remarkable horse Owing to its many traits which resemble those of Jim Keyes, the educated horse that was on exhibition at the World's Fair, the Flora horse has been named Jim Keyes II. The horse is only four years old. It is not satisfied with corn, oats and hay for food, but, insistently neighs for beefsteak. bread and butter, gravy, onions, pickles, tea and crackers. It is also fond of ice cream and chews tobacco with a relish. The horse has attracted much attention among the horsemen. Mr. Chittick has been offered a large sum of money for the animal, but says it is not for sale.

Sprained Aukle, Still Neck, Lame Shoulder,

These are three common ailments Balm is especially valuable. If promptly applied it will save you time, money and suffering when troubled with any one of these ailments. For sale by T. E. Slattery.

A Living Monument.

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city,

What a remarkable recorda breathing, thinking, moving monument, composed of human lives,-that for which every other earthly possession is sacrificed.

The Miles Medical Co. receive thousands of letters from these people like the following: these people like the following:

"I feel indebted to the Dr. Miles' Heart Cure for my life. I desire to coult the attention of others suffering as I did to this remarkable remedy for the heart. For a long time I had suffered from shoriness of breath after any liftly exertion, palpitation of the heart; and at times terrible pain in the region of the heart, so serious that I feared that I would some time drop dead upon the street. One day I read one of your circulars, and hunsefulled went to my droggist and purchased two bottles of the Heart Cure, and took it according to directions, with the result that I am entirely cured. Since then I never miss an opportunity to recommend this remedy in my friends who have heart trouble; in fact I am widely known in this locality."

Manager of Lebanon Democrat, Nasiville, Tenn.

The laxative effect of Chamber lain's Stomach and Liver Tablets is so agreeable and natural that you do not realize it is the effect of a medicine. For sale by T. E.

After the memorial services at Poplar Grove last Sunday the Maxinkuckee band went to the residence of Mr. Nathan Thompson and entertained him for some time with music which was appreciated very much.

The following from an exchange

will be appreciated by home trading business men and others as well: "It is really a sin that you buy your salt on the wholesale plan and dont give me a chance to han dle the tin." Then hied bim back to the grocery store and quickly an order sent for a few choice hama for the family use and a box of lish for Lent. Said the clothing man to the hardware man: "You cer tainly don't do right when you get a suit of an eastern home, with my big stock in sight." But the clothier wanted a new steel range, and it came as his neighbors knew in a box that he tried to hide in the barn, and marked "Gee, Hawbuck & Co." The business men then called a meeting to see where the trouble lay, and they all agreed 'twas the editor and not the devil to pay. Why don't be roast the department stores and peddling fakirs instead, and stand by them who patronize him and give him daily bread? So they drew up a contract long and strong for the editor to peruse, and waited on him with aspect grim, as he solemply dug for news, but the editor laughed a big borse laugh till the gang all took to the woods, for 'twas written on "axle grease" letter-heads that came with a bill of

Have a Look! Have a Look!

The Clean Sweep

This celebrated Loader is now on exhibition at the Agricultural Warerooms on East LaPorte Street, Plymouth. You should call and examine this machine before placing your order this season.

A Few Special Features of the "Clean Sweep"

1. The "Clean Sweep" will divide a swath.

The "Clean Sweep" works well after a tedder.

3. The "Clean Sweep" is a smooth worker on the swath.

The "Clean Sweep" does not pound or thresh the hay.

The "Clean Sweep" does not bunch, wad, or tangle the hay. The "Clean Sweep" does not kick itself to pieces in a season.

The "Clean Sweet," carrier can be raised as the load enlarges.

The "Clean Sweep" handles windrows of reasonable size perfectly.

The "Clean Sweep" is one of the greatest labor savers of the century.

The "Clean Sweep" does not elevate trush and manure with the hay.

The "Clean Sweep" is the best loader made for use after side delivery rakes. 12. The "Clean Sweep" may be detached from the rack by the men on the load.

13. The "Clean Sweep" works on ground hilly or level; in wind or in calm weather.

14. The "Clean Sweep" carries is easily removed to make machine compact for storing. 15. The "Clean Sweep" is simple in construction, light running, easy to operate, compact

16. The "Clean Sweep" does not cause you heavy repair bills; it has no \$8.00 crank shaft to break once or twice a year. This is a point well worth remembering.

17. The "Clean Sweep" in dozens of field trials has demonstrated its superiority over all

other loaders for clean work and great adaptability to different conditions of ground and hay. 18. The "Clean Sweep" will pay for itself with the savings of the first year's use-many times it will pay for itself in one day in the amount of hay saved, which might otherwise be damaged by rain.

PLYMOV CH. IND., March 25, 1801.

DEAR SEE I am very much pleased with the Clean Sweep
Hay Londer I bought of you last season. It takes the bay
from the worth just as clean as it can be raked with a force
ruse, without rathering up the obt weeds und truth uses to
the ground. One can drive from the heaviest weather to the
hartest swath, and without the least adjusting will take it up
weetherly clean. At the exhibite of the first highest swath, and without the least adjusting will raise it up perfectly clean. As the cyloster of the Clean Sween Leader revolves in such a way as to place the bay on the carrier with out taking it meet no car of the cyloster, no long is left scarfered along as other long londers do, reputially when leading light bay or straw from the swath. It rectingly has 11 to 15, tone per aeres a lond can be longled from the worth in Irona 12 to 50 minutes, and from the windrow in as short a time as it would be possible to lond it, us the honder has the enqueity of carrying all the hay that can be handled on the lond. Two averages hot houses will lead the largest kind of a lond, as the loader does not materially increase the deaft. Asymmetricing to my a londer will find the Clean sweep e-past and in many prime superior, to any loader on the market.

F. E. JACOES.

Ancas, 12n., April 10, 1904.
C. D. Kyser, Plymouth, Ind.
Dive Sig. That Clean Sweep Hay Londer bought of you tast year is all right. I did think once they would have make a hay houser that would be any good, until I bought the? Isan Sweep, I find that one team can lead a load of hay analy. We haden to loads of hay in 5 hours, and if we had not had so far to boul we could have loaded 30 loads in 5 hours. I can pink my hay and load one too in tem minutes. You know where we live and any time there is hay he make we can show anyhouly that what I have said is true.

JOHN S. C. GEERIC,

PLYMOUTH, IND., April 19, 1956.

C. D. KYSER, Plymouth, Ind.

DEAR SIR—The Clean Sweep Hay Londer bought of you have year it all right. Detakes the hay from the swath may use the and show not wather up the old weeds and stubbles like the horse rule. One can drive from the lightest to the heaviest hay willowl the light adjusting. It is the best hay loader I have even usel-show really butter than it was represented to me. Anyone deads ing these words can be thoroughly convinced by confine to my farm next laying, and anyone wishing to buy a loader will find the Clean Sweep equal, and in many points in present to any other loader on the market,

V. A. LIDECKER.

ARGOS. 15 D. April 25, 1935.

C. D. Kyser, Plymouth, Ind.

DEAR Siz.—I will say that I am very well pleased with the Clean Sweep Hay Loader that I bought of you. If a man will try on, he will buy it. I can load a load of hay in from 12 he is minutes, depending on the hay. My two little buys and I made my hay and did it so easily we burdly realized we were ut work.

T. W. IRWIN, R. P. D. No. 12, Argos. Led.

Previoure, the Control of the Contro

Property, Person April 20, 1905.

C. D. Kvane, Plymouth, Ind.

Dear Sthe-In poly to yours of recent date would say that the Clean Sussey. Hay Leader save rightly caused, for it does to work perfectly, whether in early is heavy to high, it cleans it all up. I consider it one of the constant bine saving machines a farmer can have on all farm. A make hay burved is not dreaded with a Clean Sweet Hay Leader of the farm. From I p. in. the 32 p. r., with Carrennen and two hear twelve years of use, we put up It londs of hay, and the nearest paint of the field to the mach was three-fourthy of a mile. One of the man mouse like bury away in the bury and one toy drive the team on the hay burt. The other boy drive the team in the Beth. I think it is the greatest labor saving machine I have on my farm.

Curver, Ind., April 5, 1246.

C. D. Kinsen, Plementh, Ind.

Diant Ster. I am very more pleased with the Clean Sweep flay Leader I bought of you last senson. It takes the hay from the wath just as clean as it can be enced with a loose rake. You don't get any old words and trach sent to the ground. One can drive from the bearing windows to the lightest swath and without he bear adjusting it takes it up perfectly clean. I did not try to see how many leade. I could take in one day, but I think it a big interpretation over the old way. I got my hay away before I realized that I had bardly started, and it does not take near as many bands and come late faster.

PHILLIF SICKMAN.

Proceeds, 1876. April 16, 1965.

Diag San-1 are year much pleased with the Clean Sweep flag Loader I lamant of you last year. It is a grown saver, by Clean Sweep Hay Loader will pay for a self to two years in saving sired hole. Two years ago it can be soft to make my hay; had year it cast me Si. I made warry the same constant of buy as the year belove. I will I do not want in hay leader, for come of them would do satisfactory work, but when the Clean Sweep came in the reprise and I have it work. I bought one immediately. They are epicodate and merber it all ways, light in death, take the may applicable and merber it all ways, light in death, take the my applicable on the work as you want it to come. It more chaps up to heavy buy. My Clean Sweep Lamber never consecution to the velocities of the major means the sound minutes trouble or the carry for epicic during the sound. On account of being an applicable, well made and desirable machine there is an region why it will not have a man force years if taken care of not shedded when not be used.

Should you desire further information inquire of the following named parties who own and operate the "Clean Sweep": Mark Vanvactor, Plymontia R. F. D.; Hayes Munn, Donaldson, R. F. D.; Byron Carpenter, Argos, R. F. D.; Jos. D. Hiser, Culver, R. F. D.; Eben Parish. Plymouth, R. F. D.; Mich. Crauthers, Plymouth; Henry Crauthers, Plymouth.

THE WRONG WAY TO WALK

Inelegant and Slovenly Gait Noticed All Too Frequently.

and beneficial exercises-is well dist that in this vital process lies the cussed in Good Housekeeping:

Very stout or slouchy people allow the abdomen to "lead." Brain workers, worriers, all nervous and physically uncultivated people, let their heads lead; the head is further advanced than any other part of the person. Dyspeptics whose thoughts are consciously lead with the walst line Ocjust over the offending organ. easionally a weak-willed person permits the knees to lead. When a thin, bad walker moves rapidly, there often snows to be a race between nose and knees, and you watch to see which will arrive at the goal first.

When a young woman's skirt and a young man's trousers show a balging shape over the knees, their owners are leading secentary lives or have never learned to walk correctly. This part of the lower limbs should be kept straight, and the ball of the foot, not the heel, should touch the ground first. When the head is bent for long hours over sewing machine or ledger or onion bed, it is not an easy matter to pull it back to ks proper position and make it stay there, and it seems so much more easy and comfortable to let the chest sink than to hold it up to its right place; but the demands of health and beauty are identical in the matter of a head held easily, not egoristically, back, and a chest kept in the highest and most advanced mosttion.

It is a striking tact that this ailltude of bead and enest is expressive, not only of health and grace, but of the finer mental qualities. The embarrassed boy drops his head; if he would hold his head up, his nervousness would disappear. The shy girl thinks that every one in the room is looking at her, and her chest sinks; but if she would hold it up-assume the attitude of courage, though she have it not-she wouldn't care whether they looked or not. The self-consclous person who knows he is stiff and awkward, and who knows that his stiffness and awkwardness are the direct results of his self-consciousness, should imagine that a strong string is attached to the upper part of his chest and held by an invisible hand above him. All he has to do is to let his body depend from that string and keep his head well back of it, and his mind and body will alike become easy and free. The most graceful walker I ever knew told me that she habitually walked by the aid of this invisible cord.

Tooth Brushes,

Dr. S. H. Arnold gives some lateresting facts and good advice in regard to that daily friend, the tooth brush:

Nearly all brushes are made from bristles taken from the wild hogs of Russia or China The handles are common beef bones. They are made mostly in Japan, France, England and Germany, and by one firm in the Probably English United States. brushes are the best made and worst patient. shaped. The French are next in quality, but far ahead in form. Germany end Japan are generally imitators. Some of the most expensive English are made in factories under more or less sanitary conditions, but the cheapor grades, including all German and Japanese brushes, are made in the huls of the peasants, where cattle, dogs, swine, fowls and humans are berded in common. The bristles and bone are given out by the dealer and taken into the country, where they are assorted by the aged and young children and diseased persons, the strongor members of the family working at more remunerative employment.

These cheap brushes are often in the most unsanitary and wretched surroundings imaginable, and it is a sig- and that is that any physical derangenificant fact that after being made they are soldom sterilized before malng.

The English brushes are generally very much too large to be officient. The French are better shaped, but are we frequently hear the remark made apt to be too long of head, making concerning one who has recently much waste to the brush, and are too long of bristle.

A wide brush is not advisable because it limits the movement possibly longitudinally to the tooth. Long bristles are not the best, because they bend when the brush is thrust back between cheek and teeth, and stay bent till the brush is withdrawn, thus much in need of cleaning. Soft bristles become softer when wet, and utterly fail to enter the spaces at all. If the surface of the bristles is concaved longitudinally to fit the lablal curve of the teeth, then when the brush is reversed and used on the Unbrush engage the teeth; beace, more teeth are missed than cleaned, and the user is deceived into thinking be has cleaned his teeth because he has

prushed them. Studying the brush over and what is required of it, it would seem that the brush hest adapted to use in the hitman mouth should have a short narrow head, with short, rather stiff bristles, trimmed straight longitudinally of bristles may come successively into use as the brush is rotated.

Breathing for Strength.

Instead of the above heading might be written. "Breathing for life." Por that is really what we do. And strated, it is strange that we have much.

Walking-one of the most popular | not more quickly and fully discovered secret remedy for a thousand ills, if not "the table fountain of immortal youth." Men have fixed weeks without eating, days without drinking, and nights without sleeping; but how long can we live without breathing? Twenty ounces of food and a few pints of water will supply the body centered on their stomachs, often un- one day; but, upon a low estimate, it requires thirty thousand pints of air in the same length of time.

The delicate machine which this volume of air enters is said to contain over 700,000,000 air cells, or little workshops. into the walls of these there flows, like the sewerage of a great city, the foul, venous blood of the body. In these remarkable workshops it is quickly transformed into a rushing red torrent filled with lifegiving oxygen from the air. What a wonderful invention! What a miraculous process! And yet you are trusted with operating one of these instru-

Would you note its magical effect under proper conditions? Then stand crect. Open the doors and windows; oc, if you are sick in bed, have them opened. Lift your chest and chin, and breathe the invigorating air of heaven, till the muscles of your abdomen fairly bound with joy. Now, isn't that a tonic. Then take it many times a day. You can repeat the dose often. Even as I write the fresh air tickles my finger lips; for when we breathe deeply, it goes to all parts of the

To "The Sufferin' Neat."
There was a little woman
In a very sorry plight:
For. strange to tell, this woman
Distilled to dwell with light.

She closed her blieds up tightly. Then craped the windows o'er, For fear the blessed sunshine For fear the blessed sunshine Would spoil her wails and floor.

This dainty little woman Grew very pale and thin. Just like the weak potato sprouts In cellars deep and dim.

Ab, silly little woman! You have faded out of sight. Recause you would not let in The sweetness of God's light. —Farm and Fireside.

Consumption Can Be Conquered. The universal interest in the Anti-Tuberculosis movement is shown in every convention held to consider this work. The discussions are practical, not theoretical. The audiences are popular, not merely professional. The

whole people are intercied. In a session just closed at Atlanta, Georgia, many Important and Interesting phases of the prevention and cure of consumption were considered. Dr. C. P. Ambler gave a concise review of the duty of the physician in charge, to the patient and family. His paper was enthusiastically received and adopted as the sense of the League on this subject.

His points were as follows: First, Tuberculosis is not the fatal disease commonly believed.

Second-While communicable it can be made practically harmless by the proper course on the part of the

Third The chief cause of the high mortality is late diagnosis.

Fourth-Late diagnosis is caused by indifference of the patient to early and Freuch, and all American brushes. Symptoms and carelessness on the part of the physician consulted.

Fifth-By thorough, systematic instruction of the patient better results can be accomplished than by medica-

Sixth-lestruction of nationt family and friends, and close observance on their part of the rules laid down will practically rob the disease of its method and means of extending,

Items that Count. There is one important fact that

should be indelibly fixed in the mind

of every thinking, reasoning being, ment, no matter how slight, leaves its impress on the system, and that the individual can never be exactly the same as before. We know this is contrary to the opinion generally held, for passed through a slight sickness: The doctor says he is as sound as a bell now!" This is optimism, pure and simple, on the part of the physician, and it does good by establishing confidence in the mind of the whilom patient; but, in really, it is not so. No disturbance of the normal course of the functions can pass away and missing the interproximal spaces so leave things exactly as they were. A permanent damage has been inflicted. and although it is not appreciated at the time, Nature is a right bookkeeper. and these apparently triffing dobts to her are duly entered against the individual, and you may rely upon it that sooner or later the bill will be pregoal surfaces, only the ends of the sented. It is the sum total of these minor injuries that become formida-

WOULD CURTAIL SUPPLY OF BEER

Agitation Regarding Princeton Inn Stirs Presbyterians at Winona Lake,

LAYMEN ASSIST THEOLOGIANS

Alumni Join Hands to Stop Scandal Arising Out of the Sale of Malt Beverage at Famous University Hostelry.

Winons Lake, Ind., dispatch: The scandals growing out of the Princeton Inn at Princeton, N. J., which have time and again agitated those of the Presbyterian faith, may be taken up by delegates to the general assembly of the Presbyterlan church now in session here.

The alumni of Princeton university and theological seminary are agitating the subject and a number of laymen are rallying to their assistance. Their object is to stop the sale of beer to Princeton students at the Princeton Inn.

The steps now under way are toward getting a clause into the report of the permanent committee on temperance, through Chairman William C. Illly of Pittsburg, urging that the sale of beer at the inu be stopped. It is probable the effort will succeed.

Foreign Missions.

The assembly took up the subject of foreign missions. The report of the board was read by Dr. G. N. Lacock of Chicago. It showed the expendilures for the work in Africa, China, India, Japan, Korea, Mexico, Persia, the Philippines, Siam, Lagos, South America and Syria,

The receipts for the year ended in April were \$1,184,778; disbursements, \$1,188,420. A deficit of \$41,000 in 1904 has been reduced to \$30,762. The total receipts from churches, ladies' auxiliaries, young people's societies, gifts and legacies were \$128,123. From 1870 to 1904 inclusive the board has received from the woman's board and the various societies \$7,695,661.

The report urged special Christmas and New Year's contributions from Sabbath schools and asked for \$1,500,-000 for foreign mission work next year. A new church in Korea was recommended.

The board asked that the election of Dr. Alexander Henry of Philadelphia as secretary be confirmed, that the old members whose terms expire be re-elected, that a church journal be printed in the Bohemian language for miners in Pennsylvania and that a mission station be established at Ellis Island, N. Y., to meet immi-

Predicts Day of Reckoning.

Secretary A. W. Halsey of the hoard spoke on the report. He said not half of the enormity of the atrocilies on the Congo river was known and that a day of reckoning was coming for the king of Belgium.

The assembly adopted all the recommendations of the foreign missions board and decided that the fitness of a candidate for a foreign mission should be determined by his presby-

The assembly sustained the board against a charge coming from Brooklyn that last year the board had sent out as missionaries two heretics.

The general assembly decided to investigate the project of Justice Harlan for a Presbyterian minister or central church at Washington, D. C. The committee to which the question had been referred brought in a divided report. Justice Harlan made a vigorous speech in defense of the plan for a great central church at the capital.

BRIBE IN THE WHITEMAN CASE

Juror's Wife Is Sent \$50 as Husband's Pay for Delaying Trial.

Buffalo, N. Y., dispatch: Owing to the continued illness of a juror, the trial of Alonzo J. Whitoman has been put over for the term. After the case had been disposed of information that an altempt had been made to bribe a juror to remain away from the trial was given out. Assistant District Attorney Ryan said Juror Faling had submitted a letter addressed to Faling's wife and containing \$50. Faling was asked in the letter to accept the \$50 for remaining away from the court as long as he had and he was offered \$50 more if he would stay away another day. Whiteman had been on trial on a charge of obtaining \$750 from the Fidelity Trust company on an alleged raised check.

Pittsburg, Pa., Mspatch: Mrs. Floronce McRac of Chicago was awarded \$13,000 damages against the Monongahela Valley Street Rallway comnamy for damaging property owned by her in Duquesae borough, Allegheny county. She appealed the case alleging the award too smail, which was

Shoot Woman From Ambush,

Winfield, W. Va., dispatch; Mrs. William Lark, living near Winfield. was shot from ambush while riconing with her husband from their burn ing house. They were awakened by wounded in the foot.

HISTORIC CHICKAMAUGA PARK ABLAZE WITH ILLUMINATION,

United States System of Lighting Milltary Post Pronounced Gratifyingly Successful-Six and One-Half Miles of Mains-Sixty-Five Street Lights.

Chiekamauga Park Ga., May 31 .--The United States government has here in operation one of the largest acetylene gas plants in the world. The military post at the entrance of the historical Chickamauga battlefield where thirty thousand Union and Confederate soldiers were lost in the memorable battle of Sept. 19 and 20, 1863, contains about one hundred buildings, the seventy-five principal ones of which are lighted with acetylene. To accomplish this six and one-balf miles of mains and two miles of service pipes are in use, while sixty-five street lamps brilliantly illuminate the avennes of the post.

In 1903 the War Department installed a test acetylone plant at Fort Meyer, Virginia. The results were so gradifying and the superiority of the illuminant so evident that the government, March 20, 1904, placed the contract for the Chickamanga plant, in which every citizen of the United States should have his pro rata of pride.

But the government has not confined its acceptance of acetylene to this military post. Since becoming satisfied of the efficiency, superiority and economical advantages of this particular illuminant, the United States has installed a number of plants in Indian schools and other government institutions.

Acctylene gas is one of the simplest as well as the most perfect of artificial lights. It is made by the contact of water and carbide, (a manufactured product for sale at a nominal price), is absolutely safe and gives a beautiful white light soothing to the eyes and nerves. It can be produced anywhere-in the farm home, the village store, the town hall, the church-and is so easily maintained as to be practical for all classes.

It is a matter for national congratulation that in beautifying so historic a spot as Chickamanga, nothing but the best, including the lighting system, has been deemed good enough for the American people.

New Field for Business Woman.

Women, especially widows, drift into strange lines of work to make a living for themselves, but there are few who have chosen a stranger occupation than a Mrs. Harris of this city.

Last winter, when, deserted by her husband she found that she must earn a living for herself and children or become dependent upon relatives who could ill afford to provide for her. Her husband had kept a large force of men busy in the boiler cleaning business. His principal patrons were steamboat owners and captains. Mrs. Harris took charge of her absent husband's office. in search for clews to his whereabouts, and in the mail she found many orders to clean steamship boilers.

The work was urgent; there was no lime to waste, so she called her hus bami's employes together and told them she was going to continue the business, and asked their loyal co-operation, which they were glad to give. inasmuch as they knew their own livelihood in a measure depended upon her success. She made one of the men foreman, and then proceeded to the wharf, where she met the captain of a blg steamship, and, after closing a contract, set her men to work. The plucky young woman, after several months in business says she never had so much money in her life."-Philadelphia Record.

Are the Packers Receiving Fair Play? When the Garfield report on the business methods of the packers appeared, after eight months' investigation, it was severely criticised and roundly denounced. After three months of publicity it is significant that those who attempted to discredit it have failed to controvert the figures contained in that exhaustive document. The public is beginning to notice this omission, and the feeling is rapidly growing that the sensational charges out of which the "Beef Investigation" arose were without foundation. If the official statements of the report are susceptible of contradiction, a good many people are now asking why the facts and figures are not furnished to contradict them.

The truth seems to be that most of be charges contain unfounded sensational assertions. A flagrant example of this appeared in a recent article in an Eastern magazine, to the effect that "forty Iowa banks were forced to close their doors in 1903-4 by the Beef Trust's manipulation of cattle prices." Chief Clerk Cox, of the banking department of the Iowa State Auditor's office, has tabulated the list of banks given in the magazine article and has publicly denounced the statement as utterly untrue. He gives separately the reasons for each failure mentioned and officially states that they have been caused by unwise speculations and by reckless banking methods. It may be well to suspend judgment upon the packers until the charges against them are proved.

Fairchild as a "Chaser."

Lee Fairchild tells of a bit of unconscious humor displayed by a chairman of a political rally in the recent campaign. Fairchild was to be the last speaker. The hour was late, Congressman Daizell and Senator Kean having spoken. Consequently, as the chairman rose, he said:

"It is time you were all on the way home-so I will introduce Mr. Fairchild."- New York Times.

SAVANNA MAN, SUSPECTED OF MURDER, ENDS HIS LIFE.

Had Been Under Great Mental Strain Since the Killing of Daniel S. Berry on the Morning of May 22-Suicide Not Unexpected.

Bothwell Pulford, the richest man in Savanna, Ill., whose name has been most prominently mentioned in connection with the murder of Daniel S. Berry, killed himself early in the morning of May 25 in the hay loft of his born. His death makes the second tragedy in the town of Savanna in which the names of the murdered man and the wife of the suicide have been closely connected.

Pulford arose carly as usual in the morning and went to his store. He appeared to be working under a great strain. He reached his store at 7. o'clock and after opening the doors of the store and of the safe he placed the money in the cash register and was leaving by the back door when a news paper correspondent stopped him.

"Mr. Pulford, I would like to ask you one question in regard to your revolvers," he said.

"I can't talk to you now," said Pulford. "I am going to the house to get breakfast, but I will be back in just a

"I only want to see you just a moment," said the correspondent.

Mr. Pulford, however, appeared to he in haste and turned quickly and walked toward his home. Fifteen minutes later there was a report heard in the street and when an investigation was made Pulford was found dead.

He had ended his life with a single bullet. He went into the barn in the rear of W. T. Law's residence, half a block from his own home, at 7:20 o'clock. It was in this barn Pulford kept his two driving horses.

Climbing to the loft of the barn he stood near the west window, pressed the muzzle of his revolver against the right side of his forehead, fired and fell back dead.

The report of the revolver broke the morning silence of the quiet town. Neighbors rushed into the barn and rushed out again. Miss Carrie Law was the first to find the lifeless form. "'Bot' has killed himself," she

screamed through the barn window. The news spread like wildfire. Two minutes later it was known at Pulford's residence at the next corner. Mrs. Pulford became hysterical and

her screams and wailing could be heard on the main street. When the neighbors reached the house she was seated in her chair weeping, her two daughters, Pearl and Hazel, at her In the meantime Dr. J. B. Schref-

ter, the coroner, had heard the news and hurried to the barn. When he reached the place he found Pulford past all medical aid. Pulford's death is declared to be

the climax of five years of domestic unhappiness, in which the names of Mrs. Pulford and Daniel S. Berry were freely linked together by every one in the fown of Savanua.

For two months "Bot" Pulford has shown signs of the terrible mental strain under which he labored.

When Daniel S. Berry was killed in Pulford's opera house May 22 and the authorities began to question Pulford it was evident to those who knew him best that Pulford's mind was giving way,

"He is not mentally sound," said Chief of Police C. C. Parker. "I am atraid he will kill bimself. If I had my way I would advise that he be taken to some sanitariom."

Parker's prediction came true. The condition of Pulford's mind is Indicated by a remark he made to his elerst. Edward Bahlwell, five weeks ago. In the five years Bahlwell had worked for Pulford his employer had never mentioned a word of his family trou-

On the morning referred to be walked up to Bahlwell. "They were out again last night," he said. Then he seemed to realize that he had inadvertently revealed the secret which he had been carrying in his heart for years and he heavily walked to his desk back of the prescription coun-

"He has not been the same man since,' said Bablwell. "He has been worrled, we know, and some who did not know him as well as I did thought it was due to his fluancial troubles, but I knew toat his financia! affairs did not worry him."

Dog Saved the Mail.

While the son of the postmaster at East Norton, a youth named James Neale, was taking the mails to the railway station for conveyance to Leicester, he was attacked by two men, who knocked him down and attempted to make off with the bass.

A dog which was accompanying Neale promptly seized one of the wouldbe robbers by the leg, and this and the fact that the youth was shouting lustily for help so terrified the men that they took to their heefs, leaving the mails intact. London Daily Mail.

Souvenir Had Quick Sale. When Rev. George R. Palmer pre-

sented himself at the meeting of the New England Methodist Historical Society the other day he carried with him two chips from the mast of Peary's ship Roosevelt. One of these he gave to Bishop Mallallen, who said that the receipts from its sale would go to start a church in Texas. The sum of \$50 was required to furnish the doors and windows for the little church in question, and a member present immediately paid the bishop that sum for the souvenir.

GOVERNMENT LIGHT. PULFORD A SUICIDE ATAXIA IS CURAB

REPORTED CURE STANDS TEST OF FULL INVESTIGATION.

A Former Victim of Locomotor Ataxia Now Free from Suffering and

Actively at Work, "Yes," said Mr. Watkins to a reporter, "it is true that I have been cared of ataxia by Dr. Williams' Pink Pills."

ataxia ??? "The doctors themselves told me so, Besides I recognized the symptoms." "What were they?"

"Are you sare you had becamotor

"Well, the first judications were a stiffness about the knee joints that came on about four years ago. A few months after that appeared, my walk got to be uncertain, shaky-like. I lost confidence in my power to control the movements of my legs. Once, when I was in the cellar, I started to pick up two scuttles of coal, and my legs gave way suddenly, and I tumbled all in a heap in a basket. I couldn't close my eyes and keep my balance to save my life. Then I had fearful pains over my whole body and I lost control over my kidneys and my bowels."

"How about your general health?" "Sometimes I was so weak that I had to keep my bed and my weight fell off twenty pounds. Things looked protty bad for me nutil I ma across a young man who had been cured by Dr. Wilhams' Pink Pills and who advised me to try them."

"Did these pills help you right away?" "I didn't see much improvement until I had used six boxes. The first benefit I noticed was a better circulation and a picking up in strength and weight. I gradually got confidence in my ability to direct the movements of my legs, and in the course of seven or eight months all the troubles had disappeared."

"Do you regard yourself as entirely well now?"

"I do the work of a well man at any rate. I can close my eyes and stand up all right and move about the same as other men. The pains are all gone except an occasional twitch in the calves of my legs.'

Mr. James H. Watkins resides at No. 72 Westerlo street, Albany, N.Y. Dr. Williams' Pink Pills can be obtained at any drug store. They should be used as soon as the first signs of locomotor ataxia appear in a peculiar numbness of the feet-

Colorado Cliff Dwellings.

The most remarkable rulns in Amerlea are the Colorado cliff dwellings. These queer old constructions of a now extinct race are hereafter to be protected from wantom destruction by tourists and professional curio bunters. They are safe so far as the Ute Indians are concerned, who stand in superstitious awe of them, believing them inhabited by the spirits of the dead. The two principal and most easily accessible of the roins are the so-called "Spruce Tree House" and the Balcony

House." They are in the Ute reservation. The southern "Spruce Tree House" or village is so called from a large red fallen spruce by means of which the ruin is reached. It is composed of a number of connecting square houses, and it is supposed to have contained about 120 separate rooms. The builders evidently understood the use of the right angle, the plumb line and circle, for the walls are true, the corners correct, and the ground plan of the towers and "estufas" perfect circles.

BEAG ENTAFE.

Artenian water for irrigation in Southwest Texas, is of recent discovery; this added to be one citmate and fertile soil and short mild winters, whill make it the leading truck growing section of the Union, sure. represent the pieces used. Every pos-

sible move is studied for its effect

on the general result by skilled traf-

tic managers. A false move in the

making of freight rates may mean the

ruin of a city, of a great manufactur-

ing interest, of an agricultural com-

munity. Railroads strive to build up

all these so that each may have an

equal chance in the sharp competi-

tion of business. So sensitive to this

rivalry are the rallroads that in order

to build up business along their lines

they frequently allow the shipper to

practically dictate rates. Rate mak-

ing has been a matter of development;

of mutual concessions for mutual

benefit. That is why the railroads of

the United States have voluntarily

made freight rates so much lower in

this country than they are on the

government-owned and operated rail-

ways of Europe and Australia that

they are now the lowest transporta-

He Was Somebody. "Aphasia is a cur'ous thing, and is o respecter of persons," said Dr. William J. Morton, in commenting on the number of absentminded persons safering from the strain and stress of modern life. "Frequently it has a tragic ending, but a case in which the comic was strongly blended came to my attention a few days ago." he continued.

"The victim, in this instance, was subsequently identified as an up State merchant who had come to New York and had completely forgolden his name and address. I saw him a few minutes after he arrived, by a roundabout way, at a private sanitarium. He was cheerful, even humorous, in fact, that when asked his name he searched through his pockets and produced an expansive roll of bills, but nothing to identify himself.

"'Doctor,' he at length said, T've completely forgotten my name and where I live, but, by jimminy, I must be somebody somewhere to be carrying as much money as this around, -New York Times.

In Record Time.

Piney Flats, Tenn., May 29th .-(Special)-Cured in two days of Rhenmatism that had made his life a torture for two years, D. S. Hillon of this place naturally wants every other sufferer from rheumatism to know what cored him. It was Dodd's Kidney Pills.

"Dodd's Kidney Pills are the grandest pill on earth" says Mr. Hilton, I would not take any sum of money for what they did for me. For two years I had what the doctors called rheumatism. I could hardly walk around the house. It seemed to be in my back and hip and legs. I tried everything but nothing helped me till got Dodd's Kidney Pills."

Two days after I took the first dose all pain left me and it has never come back since. I can't praise Dodd's Kidney Pills too much."

Rheumatism is caused by urlc acid in the blood. Healthy kidneys take all the Uric Acid out of the blood Dodds' Kidney Pills make healthy

A Force for Good.

In the last week of March the Salvation Army celebrated the twentyfifth anniversary of its establishment. It has outlived most or much of the prejudice originally felt against it. says Everybody's Magazine. "By their fruits ye shall know them." The success of its American farm colonles has brought Mr. Rider Haggard to the United States to study its methods. It provides 3,000,000 beds a year for the poor. In the cities it reaches and relieves portions of the population that bardly anybody olse seems to be able to deal with It inculcates self-supto deal with and hopefulness, port sical and moral cleanliness. It "gets right hold" of people and tries to lift them up. The suspicion or contempt with which it was looked upon has passed away. The work of its more than 3,600 workers speaks for itself. People know it is no humbug, Its success is something that all of us

Both Symptoms of Organic Derangement in Women-Thousands of Sufferers Find Relief.

How often do we hear women say: "It | Dear Mrs. Pinkham: seems as though my back would break," or "Don't speak to me, I am all out of

will sooner or later declare itself. It may be caused by diseased kidneys or some uterine derangement. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Comwomen. It has been the standby of flatulence), general debility, indigesintelligent American women for twenty years, and the ablest specialists agree that it is the most universally success- faintness, lassitude, excitability, irritaful remedy for woman's ills known to medicine.

The following letters from Mrs. ham has received this your from those whom she has relieved.

Surely such testimony is convincing. Mrs. J.G. Holmes, of Larimore, North Dakota, writes:

Dear Mrs. Pinkham:-"I have suffered everything with backache and womb trouble—I let the fromble run on until my system was in such a condition that I was unable to be about, and then it was I commenced to use Lydia E. Pinkham's Vegetable Compound. If I had only known how much suffering I would have saved, I should have taken it months sooner—for a few weeks' treatment made me well and strong. My backaches and headaches are all gone and I suffer no pain at my menstrual periods, whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain."

Street, New York City, writes:

" I feel it my duty to tell all suffering women or "Don't speak to me, I am all out of sorts?" These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which the system requires attention.

By the compound I suffered everything with backaches, headaches, menstrual and ovariant troubles. I am complete ly curved and enjoy the best of health, and I own tall to you." owe it all to you

When women are troubled with irregular, suppressed or painful menstrustion, weakness, lencorrhiea, displacement or alceration of the womb, that pound instantly asserts its curative bearing down feeling, inflammation of powers in all those peculiar ailments of the ovaries, buckache, bloating (or tion and nervous prostration, or are beset with such symptoms as dizziness, bility, nervousness sleeplessness, melancholy, "all gone" and "want-to-be-left-alone" feelings, blues and hopeless-Holmes and Mrs. Cotrely are among ness, they should remember there is one the many thousands which Mrs. Pinkham's Vegetable Compound at once removes such troubles.

> No other medicine in the world has received such widespread and unqual-fied cudorsement. No other medicine has such a record of cures of female. troubles. Refuse to buy any substitute.

FREE ADVICE TO WOMEN.

Remember, every woman is cordially nvited to write to Mrs. Pinkham if there is unothing about her symptoms she does not understand. Mrs. Pinkbam's address is Lynn, Mass., her advice is free and cheerfully given to every ailing woman who asks for it. Her advice and medicine have restored Mrs. Emma Cotrely, 109 East 12th to health more than one hundred thousand women.

Save the Babies.

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Promotes Digestion Cheerful ness and Rest. Contains neither

Opnum, Morphine nor Mineral. NOT NARCOTIC.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Ma., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."

Dr. E. Down, of Philadelphia, Pr., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my nations."

Dr. J. R. Waggoner, of Chicago, 16., saya: "I can most hearfily recommend your Castoria to the public us a remedy for children's complaints. I have reled at and found it of great value." Dr. Edward Parriab, of Brooklyn, N. Y., says: "I have used your Castoria in own household with good results, and have advised several patients to use it its mild laxagive effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Baylog during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend us use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Casteria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Casteria is an exception for conditions which arise in the cave of children."

Dr. J. A. Parker, of Kansas City. Mo., says: "Your Castoria holds the esteem of the medical profession in a manner hold by no other properties preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile aliments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

Dr. Norman M. Geer, of Cleveland, Obio, says: "During the last fwelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of purents and very effective in relieving children's disorders, while the case with which such a pleasant preparation can be administered is a great advantage."

Dr. F. H. Kyle, of St. Pool, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and new endorse year Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."
