The town council has ordered all
walks along Goner Avenue and
Main street on both sides of their
entire length, and Scott from Main
street west to be built of cement
or brick. All those who have not
already built walks must do so at
an early date. We move to amend
that all property owners in town
be ordered to clean up the streets,
alleys and vacant lots and keep
them clean.

Union township is not up to the
standard of Starke and Fulton
counties in the matter of good
gravel roads. While we are favor-
ed with a good market for every-
thing the farmer can raise, our
merchants are having a better
trade each year, and our mechanics
and laboring men have steady em-
ployment, yet our school and road
interests are sadly neglected.
There is a short piece of road just
north of town, in fact a part of it
is inside the corporation, that is
almost impassable. Another piece
west adjoining the Moses Menser
farm needs attention.

The ice cream social given by
the Culver Athletic Club in the
Vandalia Park on Wednesday even-
ing was well attended and a gener-
al good time was had. The Culver
Band made things lively for the
boys and was the means of attract-
ing a number of outside peo-
ple. The proceeds were about \$30.

THE BIG FULTON COUNTY FAIR

Will Begin Wednesday, Sept. 6th
and Continue Until the 9th.

The big and only Fulton County
Fair will begin the sixth of Sep-
tember and continue until the
ninth.

The Fair has been a success in
past years. The management is
promising better and more attrac-
tions than ever before, improve-
ments are being made throughout
every department and when the
doors are opened to the public on
September 6th, the fair ground
will present the appearance of
beauty, comfort and stability. The
speed list will be complete in every
detail. Many horses with a record
for speed and gameness will be en-
tered. The aerial flight, in one of
the largest balloons in the world
will be taken by a lady, who will
drop in a parachute, from the dizzy
heights above the clouds.

A free dog show will be one of
the many attractions. The dogs
perform marvelous feats of daring,
and display almost human intelli-
gence and reasoning powers.

The fraternal order of Eagles
will have charge of the attraction
on Friday Sept. 8, and are making
arrangements to make this a great
day at the fair. Every day will
have its special attractions, Satur-
day will be Red Men's day and every
day during the fair will be a day of
deep interest to the farmer, who
can compare the products of his
own farm with the best products of
Fulton and adjoining counties.
Don't miss the Fulton County
Fair. It is an educator, affords
amusement and gives you an op-
portunity to meet and mingle with
friends from all parts of the county.

A covered wagon belonging to the tribe of Israelites of Benton Harbor, Mich., having two men and one woman as occupants, passed through town Friday. They gave a lecture on the public street but made no converts. Their statement, that the word of God was revealed unto them only and the rest of mankind is groping in darkness, was not well received by our people.

Valparaiso University, Valparaiso, Indiana, will open its 33rd year Sept. 5th. This is one of the largest and most prosperous institutions of learning in the country, and is doing more for young people than any other school. The work is of the highest order and the equipments the best. It offers without additional expense to the student, two new departments for the coming year, Dentistry and French.

Maud Osborn and Olive Bolen have returned from their trip east. While there they visited Providence, Newport, Oyster Bay, Boston, Guilford and New Haven. They returned to Providence and took an ocean steamer to New York City, from there they went to Coney Island by the way of Brooklyn, crossing the Hudson river to Hoboken N. J. They returned by the way of Buffalo and Niagara Falls. While on their trip they traveled in nine states.

Peace and the President.

In every civilized land there is general rejoicing today over the news that peace is assured between Russia and Japan. The world has had its fill of the horrors of war, and its first emotion is one of profound thankfulness for humanity's sake.

Nor is it too much to say that throughout all nations the sentiment of gratitude is causing a deep realization of humanity's debt to one man—THEODORE ROOSEVELT. Proud as the people of this country always have been of the President, their pride will now be increased tenfold. For in his consecration to a noble cause he has burst through precedents that were like heavy chains, exercised a perfect tact, evinced a dauntless resolution and an all-conquering optimism amid many severe discouragements, and in the end snatched a glorious victory from defeat.

In the excitement of the last few days his earlier struggles may have been forgotten, and they are now well worth recalling. While we were all engrossed with the stories of the battle on the Sea of Japan he took the bold initiative that has led to the present result. He had conference after conference with the representatives of the contending powers of which many dismal reports were sent out. But though the discussions were long and full of difficulties, his splendid enthusiasm never permitted him to waver. Thus the way was prepared for that ever memorable dispatch to Japan and Russia:

The President feels that the time has come when in the interest of all mankind he must endeavor to see if it is not possible to bring to an end the terrible and lamentable conflict now being waged. With both Russia and Japan the United States has inherited ties of friendship and good will. It hopes for the prosperity and welfare of each, and it feels that the progress of the world is set back by the war between these two great nations. The President accordingly urges Russia and Japanese governments, not only for their own sakes but in the interest of the whole civilized world, to open direct negotiations of peace with one another.

Truer or better words for the purpose could not have been chosen, nor can too much be said in praise of the President's conduct from the moment that his first efforts were crowned with success. He had suggested that the negotiations be conducted directly between the belligerents, but offered his assistance if it were required in arranging the preliminaries. When this country was chosen as the meeting place for the plenipotentiaries he not only saw to it that every official courtesy was extended to them but helped personally and skillfully to bring them together upon the amicable terms. It was not his purpose at any time however to thrust himself forward, and only his profound sense of the tremendous issue at stake compelled him finally to act as an intermediary when all seemed lost. Then in a crisis such as no man had faced and overcome he rose to his full stature and triumphed when others were in despair. During three or four days of suspense, when heard nothing but deadlock, when proud governments, it appeared, might reject all suggestions of conciliation and compromise, his incessant energy, activity and moral earnestness did not once falter, and he worked out the compromise plan that broke the deadlock and brought the warring powers into agreement.

This great achievement will be celebrated as long as history is written, and we shall realize its greatness more and as time goes on.

This from the Chicago Record Herald voices the sentiment of every true American.
