CULVER, INDIANA, OCT. 25, 1906.

Oppose Free Seeds.

The free distribution of seeds by congress was frowned upon in a resolution adopted by the Farmers' National congress at Rock Island last week. It recommended that money thus spent be devoted to investigating agricultural methods in foreign lands and introducing them through agricultural schools.

Officers Elected.

Following are the officers of the Marshall County W. C. T. U., elected for the coming year at the annual convention held in Bourbon: President, Mrs. A. R. Shedd; vice-president, Mrs. E. W. League of Plymouth; corresponding secretary, Mrs. Stella Jordan of Bourbon; treasurer, Anna Ditty of Bremen.

No Game But Ducks.

Z. J. Sweeney, Indiana commissioner of fisheries and game writes to the Logansport Pharos: "Replying to yours of October 7, would advise that from October 1 to November 10 there is an entirely closed season against everything except ducks and other wild water fowl. This is made to prevent lawbreakers from having an excuse to kill quail."

It is definitely settled that there will be no reduced rates on account of Thanksgiving day, Christmas or New Years. In fact no holiday will be on a low-rate schedule unless the Central Passenger association withdraws from its present position.

The new pure food and drug law will mark it on the label of every cough cure containing opium, chloroform, or any other stupefying or poisonous drug. But it passes Dr. Shoop's Cough Cure as made for 23 years, entirely free. Dr. Shoop all along has bitterly opposed the use of all opiates or narcotics. Dr. Shoop's Cough Cure is absolutely safe even for the youngest babe and it cures, it does not simply suppress. Get a safe and reliable cough cure by simply insisting on having Dr. Shoop's. Let the law be your protection. We cheerfully recommend and sell it. T. E. Slattery, druggist.

IN MARSHALL AND ADJOINING COUNTIES

Dr. Alfred H. Robbins, aged over 80 years, for 70 years a resident of Fulton county, died recently at Rochester.

Sam Wisler and Adam Hartman, living north of Nappanee, sold their crop of peppermint at the rate of \$2.40 per pound, the deal amounting to about \$4,000.

Unknown persons started a fire in the Twin Lake school house, resulting in a loss of \$200. They broke down the door and after piling books and charts in the middle of the floor set fire to them.

George Garrison, aged 14, east of Akron, was accidentally and perhaps fatally shot by his younger brother in a friendly scuffle for a loaded rifle. The ball passed through the boy's body below the heart.

The fine three-story brick building in Bremen, owned and occupied by the Huff & Co. hardware firm, caught fire at midnight Wednesday, seriously damaging the interior. The structure was put up in 1902 by J. F. Weiss, recently of Culver.

The North Judson News, one of the Citizen's wideawake exchanges, issued a highly creditable souvenir edition in commemoration of the harvest jubilee. It was packed full of halftone pictures of citizens and buildings, besides any amount of good descriptive matter.

John H. Fox of Argos, who has the bridge painting contract for the county, and who has been working on the bridges in this vicinity, returned to his home on account of unfavorable weather. He has eleven bridges to paint—nine over the Yellow river and two over the Tippecanoe.—BremenEnquirer.

A stone dam, 200 feet long and 18 inches above the present level of the water, is being constructed across the outlet at the south end

of Bass lake. The work is in charge of the Bass Lake Improvement association. All differences between the lake people and the adjacent land-owners have been amicably adjusted, and now the permanence and beauty of the lake seem assured. The people generally rejoice in this settlement of a controversy which for a time threatened injury to our beautiful lake.—Knox Republican.

North Judson has a citizen, A. A. Sphung, who for twenty-three years has been in the frog and turtle business. During this time he has shipped an average of 100,000 dozen frogs and about 20,000 pounds of turtles per year from North Judson. From the two places, North Judson and Winnacoonne, Wis., he shipped a total of 150,000 dozen frogs during the past year. This is the only industry of the kind in this part of the country.

Ever Hear of This?

The Indiana state board of health has passed upon the question of burning leaves accumulating in the streets, and has decided that the practice is the cause of eye and throat trouble among children, as well as being a nuisance and annoyance. Hence it is that the local health officers throughout the state are giving notice to the people not to burn the leaves as heretofore.

When the tip of a dog's nose is cold and moist, that dog is not sick. A feverish dry nose means sickness with a dog. And so with the human lips. Dry, cracked and colorless lips mean feverishness, and are as well ill appearing. To have beautiful, pink, velvet-like lips, apply at bedtime a coating of Dr. Shoop's Green Salve. It will soften and heal any skin ailment. Get a free trial box at our store and be convinced. Large nickel capped glass, 25 cents. T. E. Slattery, druggist.

CANDIDATES' ANNOUNCEMENTS

Nominees of the Republican Party Present Their Claims for the Support of Marshall County Voters.

(PUBLICATION PAID FOR)

NATHAN HOYT SHEPPARD, nominee for Auditor on the Republican ticket, is well known in Union township. He is a hard-working man, pushing with all his might whatever he undertakes. He believes an officer of the county should be a man who will be as faithful in public as he is in his own affairs in private life. He is the Christian minister at the churches at Maxinkuckee, Culver and Plymouth. He intends to do everything that is honest that he possibly can to be elected and he believes he will triumph on Nov. 6.

(PUBLICATION PAID FOR)

JOEL FRANK MARTIN, Republican nominee for Clerk of the Marshall Circuit Court.

The above is a good picture of J. Frank Martin, republican nominee for county clerk. He is a druggist at Bourbon, where he has lived and carried on that business for the past eighteen years. Mr. Martin was nominated without his knowledge and the honor was conferred because of the high esteem in which he is held. He is a man of intelligence, a splendid

TEMPERANCE MEETING.

A Rousing Rally in the Interests of Temperance in the Schools.

The meeting of the W. C. T. U. Sunday p. m. was unquestionably a grand success. The children showed an interest and it was evident that Miss Rose Moss, the president of the W. C. T. U., had not wasted time in training them in recitation and song.

Miss Butler read a very interesting paper written by Frances E. E. Willard on Scientific Temperance which contained many noble thoughts throughout the paper.

The question of Scientific Temperance as Taught in the Public Schools was discussed by Harley Davis, Miss Duddleson, Mrs. C. Stahl and others. Miss Moss urged that the patrons visit the schools and see for themselves what is done there. She says that since she has been a teacher in the schools of Culver but one patron has visited the room in time of school work and that was Mrs. Emma Porter before they moved to Plymouth. Patrons, wake up, look around you and see what you can do. Go to the school once in a term at least and encourage the pupil and teacher in obtaining a proper education. Too much is said in regard to what the teacher is doing or not doing, and not enough to encourage the pupil to grasp what the teacher is trying to teach in the way of scientific temperance.

Miss Edna Stahl read the Indiana law on scientific temperance

NORTH BEND NOTES.

Mrs. Jane Castleman, Correspondent.

Wheat looks fine in this vicinity. Fall work is progressing rapidly. J. E. Demout and Thos. Chapman harvested and delivered a portion of their potato crop last week. Marion Drake was united in marriage to Miss Eva James of Ora on Monday of last week. On Tuesday following the young people were entertained by the parents and friends of the groom. Good substitutes for Mrs. Jane Castleman in school during the latter's stay in Arkansas. W. P. Castleman woke Friday night about midnight and remembered the potatoes he had dug that day and left in a pile about a mile from the house. Taking note of the change in the temperature he made up a pack of blankets and hiked out to his potatoes and covered them. He was glad he had done so when he saw the frost the next morning. During the trip his dog treed and killed a coon. And coon meat is right good, he says.

MONTEREY MORSELS.

(From the Winamac Democrat.)

Joseph Keller lost several of his fine calves last week by drowning in the big dredged ditch that runs through his farm. N. Hammes and wife welcomed the fifteenth child into their home last Thursday when a fine girl baby made her appearance. Mrs. Wesley Hiland is in the midst of a severe case of smallpox, and at present is the only person having it. The disease is not exterminated, and may linger in the community for months. Frank Houin has rented his father-in-law's farm at Plymouth and will move there next spring, leaving his farm here in charge of Joseph Keller Jr. who has lived on the Gesey farm since Mrs. Gesey died. A. M. Kleckner and wife will leave in a few days for Philadelphia to visit Mr. Kleckner's daughter, Mrs. David Williams. Anthony Bender's condition continues to grow worse day by day, and he himself has given up all hope of recovery. Dr. Overmyer pronounces the disease quick consumption, and sees no cure. Postmaster I. D. Young and wife were called to Westville Saturday owing to the death of Mrs. Young's brother, Charles Hamilton, the man who captured the famous car barn bandits a couple of years ago. Mr. Hamilton's death is a mystery, as he was found on the railroad right of way in an unconscious condition.
