SINGULAR POISONING

Husband and Wife Taken Violently III After Eating Home-Made Sauer Kraut

Mr. and Mrs. Eckman were the victims of ptomaine poisoning last week.

The case was not only serious but rare-in fact unheard of heretofore.

Mr. and Mrs. Eckman ate kraut at their midday meal on Thursday and at 9 o'clock Mrs. Eckman was in the old house. Mr. and Mrs. taken with stomach pains which Morris have occupied the place for continued throughout the night. perfectly well, called a doctor. Mrs. Eckman was confined to the bed Sunday and is still weak from

Mr. Eckman's attack did not come on until 4 o'clock Friday afternoon, but its appearance was sudden and severe. He was prostrated by the most excruciating pains which almost attained the character of convulsions, and during the night his condition was serious. Like his wife his recovery has been slow and he is still weak.

The kraut was home-made from home-grown cabbages and there was nothing in its appearance to indicate any unusual condition of the article. The kraut was made last fall and put into a stone jar which was covered with two thicknesses of cloth tied down tightly. The theory is that a fermentation, poisonous in its character, formed and thoroughly permeated the kraut.

Almost every family uses more or less kraut, many families making it by the barrelful, but a case of sickness resulting from it has never been reported before. has "ore

THE CULVER CITIZEN.

ANTHUR B. HOLT, Publisher. INDIANA . CULVER.

Interesting Wives of Sordid Men. Occasionally one comes in contact with a number of ladies who are much more interesting than their husbands. They know more outside of the sordid and dull buniness of moneymaking. I know a farmer and his wife, writes a correspondent of Montreal Herald, who hardly seem to live in the same world. The farmer is a trict. nice fellow, but his interest in things is bounded by the fences of his farm, with a hazy-eyed look occasionally at party politics. His wife, on the contrary, is an intellectual force in the neighborhood. She has made reading of the better sort popular within her sphere of influence; and there are few subjects of human interest upon which she has not formed an intelligent opinion. It is not that her original education was any better than her husband's; but that she has had more time since to supplement it, or at all events has taken more time. In many cases it is opportunity which gives the wife the better educationthe higher culture. The hushand is so busy manipulating stocks or handling his business that he has no time or mental force for the study of art, the reading of good literature or the cultivation of a musical taste. His wife, on the other hand, is put by his efforts in so happy a financial position that she enjoys considerable leisure; and she spends it on mental culture instead of taking an empty course of "afternoon functions" and keeping up to the latest thing in fashion and gossip. Europe is full of traveling tourist wives who are both interested and interesting, touching all that makes up the culture of that continent, while their husbands will only run over occasionally for its curiosities and amusements. For the vast majority who cannot go to Europe there is the home culture of the library.

Rubies and Diamonds.

Heirs to the dream of the alchemists, who sought to transmute base metals into gold, many scientists today are striving to unite the cheap elements which make up proclous stones, and so black us jeweis while we walt. Practically, the difficulty us 18 counterfeiting that welding point of heat and pressure which existed when the molten earth was cooling is very great. Apparently it can be done. Whoever fuses alumina with chromium oxide in the oxy-hydrogen flame may obtain a veritable ruby. The diamond is a tougher opponent, but Molsman points out the road to success. By saturating molten iron with carbon in the electric furnace at a temperature of 3,500 degrees, and then suddenly cooling the mass, he produced the pressure necessary to crystallize the carbon, and obtained minute but real diamonds. Lately Sir Andrew Noble obtained a world's record temperature of 5,200 degrees from the pressure of cordite expleded in closed vessels of iron, and in the residue of the explosion chamber small diamonds were found. In the near future, perhaps, methods will be found of producing all crystals in the size, homogeneity of texture, and coloring which make them precious stones. No longer, then, says Collier's, will the blood-stained gems of Indian princes glow in the pages of sixth-rate novels. In our childron's children, it may be, the tales of the "Arabian Nights" will wake no visions of unearthly wealth, and the adventure of Mowgli with the Bandar-Log of the Forgotten City will have to be explained. Appearances are deceitful at times in regard to a person who is supponed to be dead. We have had several instances of the sort of late. A woman who took poison woke up and told the undertaker not to be so rough. A man supposed to be dying in a New York hospital jumped out of bed and whipped another man. A woman in that city, after her husband had shot her, made her husband think that she was dead so that he wouldn't shoot her again.

SENATOR ALGER DIES SUDDENLY

MICHIGAN STATESMAN PASSES AWAY AT HIS HOME IN WASHINGTON.

Funeral Will Be Held Saturday-Secretary Taft, in General Order to the Army, Pays a Tribute to His Predecessor.

Washington, Jan. 25 .- United States Senator Russell A. Alger of Michigan died suddenly at his residence in this city at 8:45 o'clock Thursday morning, following an acute attack of oedema of the lungs, with which he was stricken shortly after eight o'clock. Although Senator Alger had not been in good health for some time, his death was most unexpected. The senator Wednesday night was apparently in his usual health. During the day he transacted considerable business and was at the war department up to a late hour Wednesday afternoon. At the bedside when he passed away were Mrs. Alger and their son, Capt. F. M. Alger, and wife.

Funeral on Saturday. The funeral services will be held at two o'clock Saturday afternoon at the family residence in this city. The body will be taken to Detroit, Mich., for burlal.

Gen. Alger had suffered for a good many years with chronic valvular diseases of the heart, but of late he seemed to be a good deal better.

When the president was informed of Senator Alger's death, he addressed a note of condolence to Mrs. Alger and accompanied it with a floral offering. Secretary Taft's Tribute.

The formal announcement of Senator Alger's death was made to the army by Secretary Taft in the following order:

The secretary of war announces with deep sorrow the death of Hon. Russell Alexander Alger, which occurred on the 24th instant at his residence in this city.

"Gen. Alger was secretary of war during the administration of President McKinley, from March 5, 1897, to August 1, 1899; a period during which the administration of the war department was brought into great prominence through its activity in connection with the war with Spain and the military operations in the Philippines that succeeded it.

"Gen. Alger was patriotic, earnest and most devoteed to the interests of the army, and especially considerate of the welfare of enlisted men. He was a gentle, kindly man with great confidence in his friends and associates, and was much beloved by his subordinates. He was the subject of unjust criticism because of the country's lack of preparedness for war when war came although for this he

BRING COOD HEALTH

Dr. William' Pink Pills, Used After the Grip, Arrest Fatal Decline and Rebuild the System.

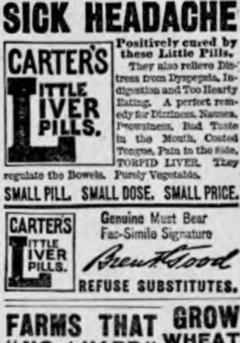

Any bodily weakness caused by # deficiency in the blood can be cured by the use of Dr. Williams' Pink Pills because these pills actually make new blood. After attacks of the grip the blood is generally run down and the patient continues to decline.

'About three years ago," says Mrs. Jennie Cowan, of 718 N. Henry Street, West Bay City, Mich., caught a severe cold, which ran into the grlp. I was confined to my bed for two weeks. At the end of that time I was able to be about, but was completely run down. I was so weak I could hardly stand, my cheeks had no color and I felt faint. My heart would flutter and it was difficult for me to breathe at times. Neuralgia settled in the back of my head and stomach and I suffered from rheumatism in my shoulders.

"I had the care of the best doctor in town but became no better until a friend told me one day how she had been cured by Dr. Williams' Pink Pills and I decided to try them. I soon felt better and continued using them until I was entirely cured. They built me up again to perfect health and I use them now whenever I feel at all sick and they always help me."

Dr. Williams' Pink Pills are invalunable in such cases, as well as in other blood diseases, because they not only drive off the germs of the disease but build up the system. The pills have cured annemia, rheumatism, after-effects of fevers, neuralgia and many other severe disorders.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

With an air of captor, daintily flerce, she led him toward the house and up to the door, which she pushed open before him.

"Come softly, your mother may be still asleep-no, your father is talking -listen!"

A querulous voice, rough with strong feeling, came from the inner room.

He broke off, for the girl came leading in the son, who, as soon as he naw the white-haired old man with his open book, sitting beside the wasted woman on the bed, flew to them with a glad cry.

They embraced him and smoothed and patted him, tremulously, feebly, with broken thanks for his safe return. The mother at last fell back upon her pillow, her eyes shining with the joy of a great relief, while the father was seized with a fit of coughing that cruelly racked his gaunt frame and left him weak but smiling. The girl had been placing food upon

"When we reached the building where Joseph's store was, they led me up-stairs to a small room and sent down to the store for the Prophet. When he came up they introduced me and left me alone in the little room with him. Their actions had seemed queer to me, but I remembered that this man had talked face to face, with God, so I tried to feel better. But all at once he stood before me and asked me to be his wife. She stood flushed and quick-breathing when the door had shut, he bending toward her with dark inquiry in his eyes. "I need not think of it. Surely you know my love. You know I could not do that. Indeed I have heard at last that this doctrine so long gossiped of is a true one. But I have been away and am not yet learned in its mysteries. But this much I knowand it is the very cornerstone of my life: Peter, James and John ordained Joseph Smith here on this earth, and Joseph ordained the twelve. When the truth is taught me of this doctrine you speak of, I shall see it to be right for those to whom it is ordained. And meantime, outside of my own little life-my love for you, which would be always single-I can't measure the revealed will of God with my little moral foot-rule. Joseph was endowed with the open vision. He saw God face to face and heard His voice. Can the standards of society in its present corruption measure and pass upon the revelations of so white-souled a man?"

If one fancies, the flanas dainty a garment as its summer cousin of lawn and lace. The flannelette gown is especially suited for home-making, but the design should be attractive.

This really pretty gown requires only five yards of material, four yards of insertion and two yards of wide spaced beading, with some soft wash ribbon for the neck. All bulky and fuszy decorations are quite out of place in any such gown as this; so that there is entire absence of small delicacies and intricate details in the pleture. This lessens the work so that one could make three of these gowns in the space of time it would take to manufacture one dainty summer one.

The insertion is formed into a square yoke, both back and front, and from it the material hangs with five rather big tucks each side. Straps of the insertion are laid down over the shoulders, with excellent effect, and it appears again, as a border to the frills on the sleeves. BAILEY ELECTED AGAIN

TEXAS LEGISLATURE SENDS HIM BACK TO SENATE.

Shelby Cullom Is Named in Illinois-Senatorial Elections in Several Other States.

Austin, Tex., Jan. 23.- Joseph W. Bailey was Tuesday reelected United States senator from this state by a vote, in the two branches of the state legislature, of 108 to 45. In the senate the vote was 19 in favor of Senator Bailey and ten against him, and in the lower house he received 89 votes and 35 against him.

Springfield, Ill., Jan. 23 .- Senator Shelby M. Cullom was given the majority vote of both branches of the Forty-fifth general assembly Tuesday in separate sessions, insuring his formal re-election to succeed himself as senior senator of Illinois to succeed himself for the fifth time when the legislature will meet in joint session to-day to canvass the vote.

Salem, Ore., Jan. 23 .- Fred W. Mulkey (Rep.), of Portland, was elected Tuesday to the United States senate for the short term, and Jonathan Bourne, Jr. (Rep.), of Portland, for the long term. The legislature Wednesday, in joint session, will ratify the election.

Columbia, S. C., Jan. 23. - Both houses of the legislature Tuesday reelected B. R. Tillman to the United States senate. The election will be confirmed Wednesday in joint session.

St. Paul, Minn., Jan. 23 .- Both houses of the Minnesota legislature voted for Knute Nelson to succeed himself as United States senator from this state Tuesday. Four Democratic senators voted for Senator Nelson, saying their districts were overwhelmingly for Nelson.

Montgomery, Ala., Jan. 23 .- The Alabama legislature, in joint session, Tuesday, reelected Senators John T. Morgan and Edmund W. Pettus for another term. There was no opposition and they received the unanimous vote of both houses.

St. Paul, Minn., Jan. 24.-In the Ramsey county district court Wednesday Judge Oscar Hallam signed an order enjoining James J. Hill and other officials of the Great Northern Railway company from making the proposed increase of \$60,000,000 worth of additional stock of that company "or issuing the same or part thereof during the pending litigation without first making an application in writing therefor to the Minnesota railroad and threads are drawn in the usual man- effect is sometimes tucked on heavy warehouse commission and securing its approval thereof, as provided by section 2,872 of the revised laws of 1905 of Minnesota." This is a complete victory for the state in the action brought last month hy Attorney General Young and his assistant, R. A. Stone, to compel the railroad to recognize the state railroad and warehouse commission before issuing the stock. The laws provide that before a railroad can issue an increase of its capital stock it must make application to the railway and warehouse commission and make a showing of the necessity for such an issue.

CREAM FOR CREAMERY.

Some General Rules Which Should Be Observed on the Farm.

The cream separator should be handled as follows: Read the book of instruction sont out by the separator firm. Insist on the separator and all the utensils that come in contact with the mlik being cleaned every time they are used. One of the reasons why so much poor cream is delivered is because the farmer has not a suitable place to keep it.

The following plan has worked satisfactorily. It requires an oil barrel considers the plan for a cow stall, burned out, placed in the milk house shown in the cut, as one of the best or between the pump and the stock watering tank. Between the first ent of Farm Journal. The cow stands and second hoop drill six or eight oneon planks that are matched and inch holes at equal distances. Just

below the second hoop drill one 11/2inch hole. The water pipe from the well to enter at this point. On the inside of the barrel place a wooden trough to carry the water to the bottom of the barrel. In the side of the barrel, nets to the water tank, and above the third hoop, drill a two-inch hole and connect this with a pipe to earry the water to the tank. A tight box can be used in place of the bar-

rel. An arrangement of the above description will hold all the cream produced upon an average farm and the cream will be in a fairly good condition for a four-day per week delivery -providing that all the water needed for the stock has been passed through this barrel.

We often underestimate the importance of frequent deliveries. The average producer of milk has not the facilities to keep the cream more than Some Ways in Which Germs Get Into three days and even then in a number of cases the cream is not in a fit condition to be made into butter of good quality. It is true that the cost of

Mud Fever.

Mud fever in colts is caused from allowing them to run in lots not properly drained. The best means of preventing this, says Orange Judd Farmer, is to provide a dry lot, clip the hair from around the pastern, wash off the mud at least once a day and carefully dry the skin. "Our little girl, one year and a half old, was taken with eczema or that was what the doctor called it. We called in the family doctor, and he gave some tablets and said she would be all right in a few days. The eczema grew worse and we called in doctor No. 2. He said she was teething, as soon as the teeth were through she would be all right. But she still grew worse. Doctor No. 3 said it was occema. By this time she was nothing but a yellow, greenish sore. Well, he said he could help her, so we let him try it about a week. One morning we discovered a little yellow pimple on one of her eyes. Of course we 'phoned for doctor No. 3. He came over and looked her over, and said that he could not do anything more for her, that we had better take her to some eye specialist, since it was an ulcer. So we went to Oswego to doctor No. 4, and he said the eyesight was gone, but that he could help it. We thought we would try doctor No. 5. Well, that proved the same, only he charged \$10 more than doctor No. 4. We were nearly discouraged. I saw one of the Cuticura advertisements in the paper and thought we would try the Cuticura Treatment, so I went and purchased a set of Cuticura Remedies, which cost me \$1, and in three days our daughter, who had been sick about eight months, showed great improvement, and in one week all sores had disappeared. Of course it could not restore the eyesight, but if we had used Cuticura in time I am confident that it would have saved the eye. We think there is no remedy so good for any skin trouble or impurity of the blood as Cuticura. Mr. and Mrs. Frank Abbott, R. F. D. No. 9, Fulton, Oswego Co., N. Y., August 17, 1906."

PENSION AGENCIES TO BE ABOLISHED

HOUSE VOTES TO CONSOLIDATE THE EIGHTEEN OFFICES IN WASHINGTON.

Pension Bill Is Passed-Military Affairs Committee Favors Permitting Wives of Enlisted Men to Be Burled with Their Husbands.

Washington, Jan. 25 .- The house Thursday voted to abolish all the penrion agencies throughout the country. 18 in number, and contralize the payment of pensions in the city of Washington. This action was taken on the pension appropriation bill after spirited opposition on the part of those having pension agencies in their states.

By a vote of 55 to 114 an amendmont offered by Mr. Dalzell, of Pennsylvania, restoring the number of agencies to 18 as at present, was defented, and then an amendment offered by Mr. Gardiner, of Michigan, consolidating all the agencies in one, was adopted without division.

Pension Bill Passed.

The pension appropriation bill carrying \$138,000,000 in round numbers, was passed.

A meanage from the president was read relative to insurance and at 2:30, out of respect to the memory of the late Senator Alger, of Michigan, the house adjourned.

The house committee on military affairs decided Thursday to make a favorable report on a bill permitting the wives of enlisted men to be buried in the same graves with their husbands in national cemeteries. This measure was strongly urged for several years by Mrs. Tanner, wife of "Corporal" Tanner. Mrs. Tanner was killed in an automobile accident last summer. Since her death "Corporal" Tanner has worked for the measure and he is largely responsible for its progress.

Accept Salary Increase.

Washington, Jan. 24 .- The senate Wednesday accepted the proposition of the house representatives to increase the salaries of senators, members and territorial delegates to \$7,500 annually, and those of the vice president, the speaker of the house and the ribbon; if there should be room: \$12,000,rs of the president's cabinet to

This action was taken by a vote of 53 to 21, and followed a discussion of nearly three hours. An amendment conlining the increase to cabinet officers and the presiding officers of the senate and house was voted down, as was also a proposition to postpone the increase until 1913. President Rootevelt gave his views in advocacy of ship subsidy in a special message, which was read in both houses.

Five Weeks in Bed With Intensely Painful Kidney Trouble.

Mrs. Mary Wagner, of 1367 Kossuth avenue, Bridgeport, Conn., says: "I

was so weakened and generally run down with hidney disease that for a long time I could not do my work and was five weeks in bed. There was continual

headaches and at times dirry spells when everything was a blur before me. The passages of the kidney secretions were irregular and painful, and there was considerable sediment and odor. I don't know what I would have done but for Doan's Kidney Pills. I could see an improvement from the first box, and five boxes brought a final cure." Sold by all dealers. 50 cents a box. Life Without Mind.

The possibility of life without mind, while not subject to positive proof, is a theory that has gained considerable strength recently through its advocacy by Dr. L. Laloy, librarian of the Academy of Sciences, Paris. He believes that many of the smaller living organisms, such as insects, are mere moving machines, having no more intelligence than may be ascribed to plants. He refers to the well known fact that insects are attracted by light, often to their own destruction, and ascribes it to the same cause that inclines the plant to grow toward the

Japanese Hot Baths.

In Japan hot baths are used at a temperature of 104 degress. Fahrenheit. Immediately they leave this the bathers plunge into perfectly cold water. A European doctor who has spent many years in Tokio declares that, after a bath of this heat and the subsequent douche, he used to feel warm all day in the coldest winter weather, while in summer the bath had the exactly contrary effect, and was most cooling and refreshing.

Oratory in the House.

Wednesday was a day of oratory in the house, the pension appropriation hill affording opportunity to a number of representatives to make speeches, not only in behalf of the hill itself, but on the tariff and the San Francisco school incidents. On the latter subject Mr. Hayes of California insisted that all California desired was to be permitted to continue American, and that the Chinese exclusion law should be made to apply to Japanese coohes.

The agricultural appropriation bill, carrying \$8,125,790, was reported to the house by Chairman Wadsworth of the house committee on agriculture. This bill does not include meat inspection, for which \$3,000,000 is appropriated in other bills.

The river and harbor appropriation bill, which will be reported to the house Thursday, will carry an appropriation aggregating \$83,466,138. Of this sum, \$34,631,612 is appropriated cash, to be available July 1, 1907, and July 1, 1908, and \$48,834,526 is authorized for continuing contracts, no time limit being fixed as to when it shall be expended.

"In the year 1887 I gave out from overwork, and until 1901 I remained an invalid in bed a great part of the time. Had different doctors but nothing seemed to help. I suffered from corebro-spinal congestion, female trouble and serious stomach and bowel trouble. My husband called a new doctor and after having gone without any food for 10 days the doctor ordered Grape-Nuts for me. I could eat the new food from the very first. mouthful. The doctor kept me on Grape-Nuts and the only medicine was a little glycerine to heal the alimentary canal.

"When I was up again doctor told me to eat Grape-Nuts twice a day and no white brend for two years. I got well in good time and have gained in strength so I can do my own work again

"My brain has been helped so much. and I know that the Grape-Nuts food did this, too. I found I had been made ill because I was not fed right, that is I did not properly digest white bread and some other food I tried to live on.

"I have never been without Grape-Nuts food since and eat it every day. You may publish this letter if you like so it will help someone else." Name given by Postum Co., Battle Creek, Mich. Get the little book, "The Road to Wellville," in pkgs.

WOMEN SUFFER

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance.

How many women do you know who are perfectly well and strong?

The cause may be easily traced to some feminine derangement which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, dragging sensations, flatulency, nervousness, and sleeplessness.

These symptoms are but warnings that there is danger ahead, and unless heeded, a life of suffering or a serious operation is the inevitable result. The best remedy for all these symptoms is
