Kids Win Coveted Prizes and Have Fun In Annual Program

"It was the biggest and most colorful parade in the history of Kiddies Day," officials of the Summer Recreation Program and members of the Lions Club committee, which had charge of the affair, declared following the close of the annual event last Thursday.

There was plenty of enthusiasm in the competition for prizes in the various games and events of the day and everyone seemed to have lots of fun. The kids really outdid themselves in preparing for the parade making it most difficult for the judges to select prize winners.

The judges announced the following prize winners:

Parade Prizes

Pets: Most unusual pet, Toby Warner; Largest hamster: Jill Hunter; Best dressed dog: Susan Moore; Largest dog: Fred Saunders; Smallest dog: Janet Rosenbaum and Richard Studebaker; Most attractive cat: Bonnie Hicks; and Largest animal: Alice Aylesworth.

Dolls: Best doll house, Virginia Reed; Best decorated cab with doll, Judith Witham; and Largest doll, Betty Jean Zechiel.

Bicycles and floats: Best decorated bicycle, Richard Vories; Best decorated tricycle, Bobby Ogden; Best decorated scooter, Ricky Witham; and Best decorated wagon, Billy Oberlin.

Most unusual entry: Larry Seese.

Best Costume: Greta Hughes and Bradley Harris.

Handicraft Prizes

Trays: Elaine Warner, Lucinda Piersol, Patty Shockome, Virginia Piersol, and Diana Behmer. Mats: Tom Ott, Tommy Boswell, Beverly McGaffey and Billy Oberlin.

Raffia Purses: Arlene Baker, Susan Moore, Linda Bodey, Bobby Taylor, Virginia Reed, and Barbara Jane Rust.

Vacation Time to End Next Week

A week from Friday, or to be more specific, at 1 p. m. on September 1, summer vacation time for some six hundred students of the Union township schools will officially close as registration for the 1950-51 term takes place. Actually classes are not scheduled to begin until Tuesday following Labor Day, September 5.

Buses will pick up the students at 1 p. m. on September 1. In addition to registration, plans call for students to receive book lists and room assignments.

SCHOOL BOOK STORE HOURS

The school book store will be open daily Wednesday through Saturday, August 30 to September 2, from 9:00 a. m. to 5:00 p. m. Students and parents are urged to secure books and supplies at this time in order to avoid the rush.

Farm Bureau Meeting

The Farm Bureau annual weiner roast and pot luck supper will be held at the J. Dick Newman home, Thursday, August 31, at 7:00 p. m.

William Kepler was dismissed from Parkview Hospital, Plymouth on Saturday.

Mishawaka Dentist Hurt In Plane Crash

Outboard Regatta Marine Events Thrill Spectators

A splendid variety of marine activities with an outstanding array of talent matching their skills for coveted laurels, featured the sixth annual Outboard Regatta here last Sunday. The rather cool, brisk winds were in keeping with the thrilling events and although the crowd was somewhat smaller than that of previous years, the Regatta was in many ways one of the most successful to be staged here.

Financially the gross receipts are not expected to reach the high figures of past years, Lions Club officials explained today. It was expected that net receipts would be in the neighborhood of \$500.

Statistically the races attracted the largest number of entrants in the history of the event; the fastest times were recorded in the races; and a number of highly talented water ski experts thrilled the large audience. Many of the leading outboard pilots in the middle west competed for the regional championship awards.

Water Ski Show

The first Indiana water ski championships attracted plenty of spectator interest with the demonstration in the afternoon providing a highlight of the day's activities. Spectators generously approved each event as they were constantly thrilled by the cleverly executed water ski and jumping demonstrations. The rather rough water conditions failed to daunt the performers.

Bill Kelly of Terre Haute won the men's all around skiing championship while Tommy Perine placed second. Jackie Kendall of Miami, Florida, won the women's all around championship and Babs Blackburn placed third. Joe Lyell of Culver won the men's jumping championship and Jackie Kendall copped the women's ski jumping crown. Gold, silver and bronze medals were awarded to winners of individual events.

Failure to get the landing gear down, together with high grass and soft ground, proved a blessing in disguise to Dr. Joe Wright, 34, of Mishawaka, Ind., as his plane belly crash-landed in a field just north of the Gene Drudge farm home on the Fred Triplet farm, one mile north and west of Hibbard Sunday morning.

Dr. Wright, a dentist, was taken to the Plymouth Parkview Hospital by the Easterday ambulance, where he was treated for head and back injuries. Later he was taken to the St. Joseph Hospital in Mishawaka. CAA officials, who visited the scene of the crash, stated that the plane was demolished.

Flying alone with a group of fourteen persons in other planes, Dr. Wright was on a breakfast flight from the Chain of Lakes Airport to Culver. According to eye witnesses of the crash Dr. Wright was headed south towards Culver when the plane motor sputtered. Mrs. Gene Drudge stated that he turned back north. Mrs. Fred Triplet and her daughter, both eye witnesses stated that the plane was flying very low. Mrs. Triplet said that the motor stopped completely then started again before the crash landing. Junior Triplet was the second person to reach the scene of the crash. The high grass and soft ground prevented the plane from overturning causing it to come to a stop within 25 feet of a heavy wooded area.

Dr. Wright was able to get out of the plane where he was assisted by members of the Culver Fire Department who were called to the scene of the accident.

LAKE ASSOCIATION TO HOLD ANNUAL MEETING

The annual meeting of the Lake Maxinkuckee Association, Inc., will be held in the assembly room of the State Exchange Bank, Tuesday evening, August 29, at 8:00 p. m.

Any property owner on the Lake who is interested in the Association is invited to attend.

SORRY

In listing the names of those who provided cars to convey the sixty-five boys to the Cards-Cubs Game in last week's Citizen the name of Dale Davis, of Leiters Ford, who drove one of A. R. Mc Kesson's cars should have been included instead of Dale Jones.

Circulate Petitions Protesting Rise In Local Assessments

Petitions are being circulated this week in protest to the recent order by the State Board of Tax Commissioners to raise the Real Estate Assessment in Marshall County. The Order by the Tax Board directed that the County Auditor increase the assessment on all city lots and farm lands by 10 per cent and also the Improvements by 10 per cent.

Taxpayers numbering 522 persons last Monday signed a remonstrance against this increase and petitioned the State Tax Board for a hearing to be held in this County.

The petitions now being circulated are in response to the numerous requests received by local County Officials that others be allowed to express their disapproval.

A spokesman for the local Board of Review said today that these petitions would be presented to the State Tax Board at the Hearing. To date no notice has been received setting the time for the Hearing.

He also stated that these increases ordered will not bring about a corresponding reduction of the tax rates, since only real estate and not personal, railroad and utility property is affected by these changes.

Any taxpayer other than those who pay Poll Tax only may sign the petition. Husband and wife may both sign, if Real Estate is held jointly.

Petitions are available locally at: State Exchange Bank, Culver City Grain & Coal Co., Culver Citizen Office, Culver City Drug Store, Currens Grocery, Burr Oak and Myers Grocery, Green Township.

LOCAL 4-H CLUB MEMBERS PICTURED

Pictures of the Marshall county 4-H fair at Argos carried in the South Bend Tribune last Friday, featured several local 4-H club members. One photo pictured Jim Davis, Beverly Thessin and Jean Curtis of the Culver Club.

O. T. Goss has returned from Memorial Hospital, South Bend, after being confined there for the past few weeks.

Records Fall at 1950 4-H Fair; Local Club Members Win Laurels

The twelfth annual Marshall county 4-H fair which closed Saturday at Argos broke several records, it is believed. The entry list was said to have been the largest in the history of the fair.

The animal classes ranged from one to thirty entries per class, and a new record was set in the sale of 4-H beef, with an average of over 30 cents per pound.

A large number of persons from this area joined the crowds which witnessed the special features of the 1950 fair.

There was spirited bidding at the annual auction sale of 4-H beef on Friday evening. The grand champion steer, a Hereford, weighing 960 pounds, was sold to the State Exchange Bank of Culver and Argos at a top price of 80 cents per pound. The purchase price was \$784. It was the second straight year that the local bank had purchased the top 4-H steer. Last year the State Exchange Bank purchased the grand champion for 72 cents per pound.

The bank was also the successful bidder on the reserve champion steer, also a Hereford, weighing 1095 pounds and bringing 55 cents per pound, making the purchase price \$602.25.

New county 4-H champions were established with coveted awards going to the winners. There was an excellent representation of local 4-H club members among the winners.

Larry Lindvall of Union township showed the grand champion purebred Jersey. Lindvall also claimed a lions share of other awards in the Jersey class, being awarded a reserve championship, three firsts, and a second.

Dwight Newman showed the grand champion purebred Holstein (Continued on page 11)

Gun Accident Fatal To Oak Grove Youth

Wounds received while playing with a gun on Monday evening proved fatal to Kenneth Esch, 15, son of Mrs. Anna Esch of Oak Grove. Rushed to Parkview hospital at Plymouth, he died about 9 p. m. The accident occurred while he played with neighborhood youths in the road about one mile south of Oak Grove.

It was believed that the accident occurred as he tried to remove a .45-calibre automatic pistol shell from a Spanish American War Springfield rifle. The shell is believed to have jammed in the rifle. The bullet went through his upper lip. The coroner gave a verdict of accidental death.

Born in Chicago, May 19, 1935, he came to Oak Grove ten years ago. He attended grade school at Ober and would have been a sophomore at Knox High school this fall. He attended the Salem church and was a member of the Starke county 4-H club and F. F. A.

He is survived by his parents, Mrs. Anna Esch of Oak Grove, and John Esch of Coleman, Mich., and his grandmother, Mrs. Frank Albert of Oak Grove.

Funeral services will be held tomorrow, Thursday afternoon, at 2 p. m. at the Brethren church, two miles west of Burr Oak, with Rev. Ben Cross officiating. Burial will be in the Burr Oak cemetery. Friends may call at the Easterday Funeral Home.

Mrs. Phyllis Goff, 1902 Pa Ave., Indianapolis, Indiana, is not able to go about her housework less than it takes to talk about that is, of course, since Mrs. Goff has been taking wonderful HADACOL. Mrs. Goff had been suffering from a deficiency of Vitamins B₁, B₂, Niacin, and Iron which HADACOL contains.

Now full of pep and energy Mrs. Goff is able to give this statement: "It's pretty bad when you are in a run-down condition when you are only 32. That includes headaches, loss of sleep. I was also terribly nervous all the time. Then I heard about the wonderful results other folks were getting from HADACOL. After taking a few bottles my nerves were calmed. I got a good night's sleep, and I gained fifteen pounds. I think HADACOL is wonderful. I recommend it to my friends."

This is another one of the statements the fine folks who have been taking HADACOL gave me. Yes, there are thousands and thousands of people all over the country who are getting blessed relief from wonderful HADACOL when they needed Vitamins B₁, B₂, Iron, and Niacin.

Let HADACOL Help You

... if you are suffering from stomach distress, nervousness, insomnia, constipation, aches and pains of neuritis, or a general run-down condition, caused by such deficiencies. Remember, it will cost you nothing if HADACOL doesn't help you. Forty-One Head of PUREBRED HOLSTEIN CATTLE

The milking herd consists of 19 cows that run in age from 2 to 7 years old. Five of them have been fresh in last two months and balance have been averaging two cows per month in freshening.

Herd was started in 1917 with foundation cows from the Kline and Shilling herd of Culver and none but the best of sires and high producing dams kept in building the herd. Five heifers were kept out of this mating each year.

We have never been bothered with mastitis or abortion although we have never blood tested, but have everything vaccinated in the herd of four years or less.

Cows are of the large type, well colored kind with nice udders and quarters, best of disposition and not a bad quarter or udder in the herd.

This is a high producing herd having returned an average of \$300.00 per cow for the last three years with a butterfat average of approximately 3.7. Average does not include the calves.

Five two-year-old heifers to freshen in Dec. and Feb. that weigh about 1,000 pounds each. Five yearling heifers, nine heifer calves from one month to six months old, two yearling steers and a 21 month old bull of exceptionally good breeding.

Dr. Frank Kelly's Tatyping Research Provides Headstart on Atomic Warfare

Wars and rumors of wars are serving to sharply point up the continuous battle of men against death, and recently Chicago papers were headlining a "new" front in that battle.

The Chicago Tribune carried a front page story of a campaign to blood-type that city's millions and to permanently identify each person's blood type by tattooing a symbol on the body.

The Chicago story is not a new one; it began after the start of World War II when Argos' Dr. Frank H. Kelly, concerned about the time and effort involved in locating donors for blood transfusions, delved deeply into research to develop a system which would immediately identify a patient's blood type and aid in calling suitable donors.

Medical science had long known that blood of different types would not mix and that death was the inevitable result of any attempt to mix unmatched types.

Plasma Supply

WWII gave terrific impetus to the development of blood banks for both whole blood and the plasma. When the Armed Forces drew so heavily on the supplies of plasma it again became a problem to properly match types of whole blood for the civilian population.

Worried lest the war subject our cities and towns to ruthless and wholesale bombings as had happened in Europe and Asia, and thereby making tremendous demands on blood bank facilities which in actuality did not exist, Dr. Kelly devoted many months of patient research to his private war against death for our people.

Success crowned his efforts only after much work and many heartbreaking disappointments. In April, 1943, Kelly announced that his system was ready for use.

The announcement attracted nation-wide interest and US publications carried thousands of words of the dramatic story of Dr. Kelly's triumph.

The Kelly story is simple enough. Starting from the four basic blood types, A, B, AB and O, Kelly developed his own coding and with the aid of interested officials of the Burgess Company of Chicago designed a special machine to mark indelibly the type in this code.

Mark Types

The success of the Kelly system which came to be known as Tatyping, is attested by the several hundred people in the Argos area who bear one to four tattooed dots, just below the elbow on the inner surface for men and just above the knee for women

and girls.

But the very simplicity of the Kelly story belies the many difficulties and obstacles which had to be met and overcome.

Tattooing was an obvious answer to the making of a permanent mark. But it was a known fact that tattooing was the frequent cause of infection. Therefore it was necessary to develop a sterile ink. A machine had to be designed and built which would be simple in operation and maintenance and which would make the required symbols painlessly and quickly. Kelly can type and process 700 patients per hour.

The advent of our Atomic Age has emphasized the need for some system as that developed by Dr. Kelly; a system which could care for hundreds of thousands of bomb victims quickly and efficiently.

Widespread Use of System

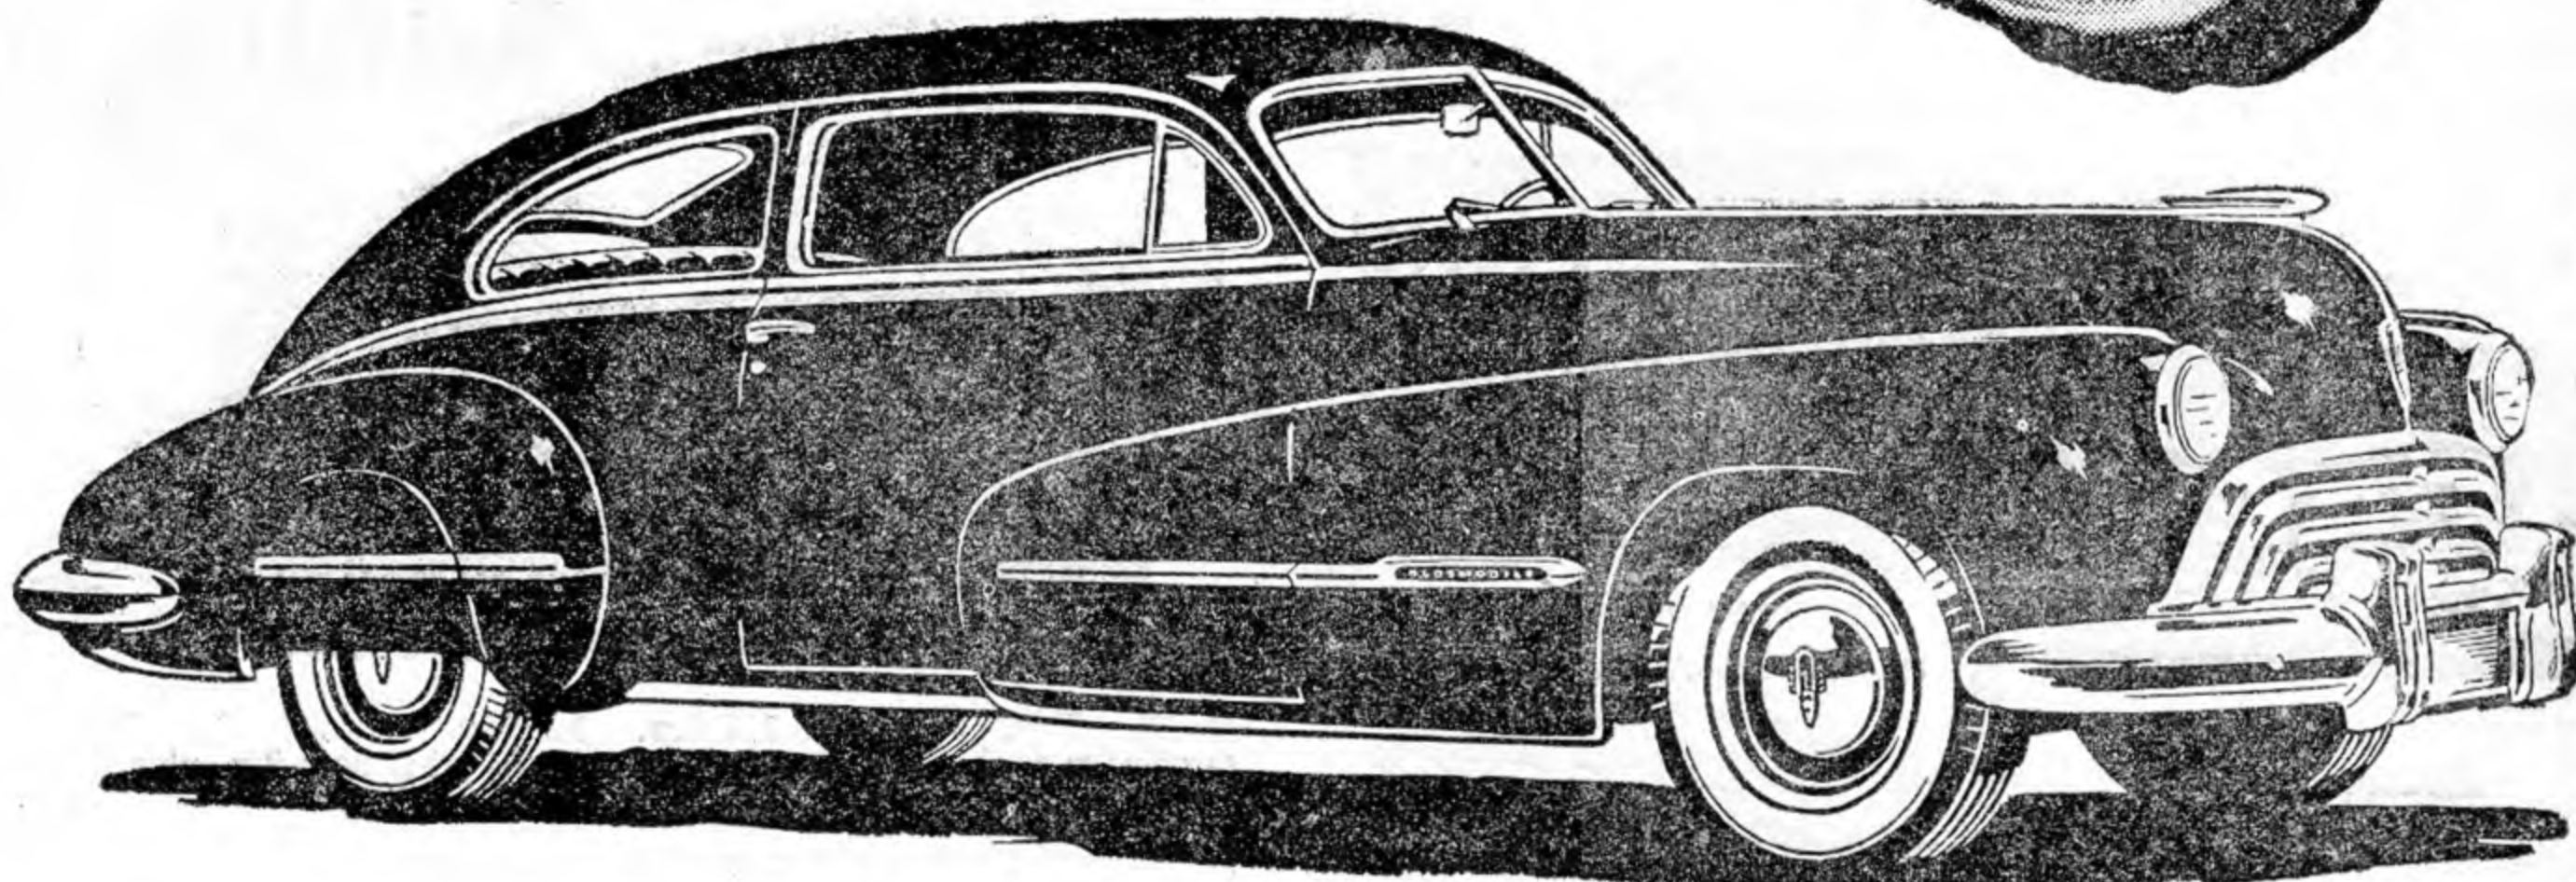

Already Michigan has set in motion a plan to type the blood of the state's residents. . . . Chicago has instituted a similar campaign which will be only a slight variation on Kelly's Tatyping.

Indiana University and Notre Dame have asked that the full details of Dr. Kelly's Tatyping be made available to them.

A sort of footnote to Marshall County medical history: Dr. Kelly gave his Tatyping equipment and facilities to the Starke County Memorial Hospital free of any charge.

Popular Playhouse To Close Sept. 3; Two Plays Remain

Paul Rutledge and Martin Tahse, managers of the Maxinkuckee Playhouse announced this week that the popular Playhouse will close its first season of summer theatre productions one week earlier than had originally been announced.

This means that the closing production of the highly successful season will be "Golden Boy" and the final performance will be staged on September 3 instead of September 10 as had been originally planned. "You Can't Take It With You," originally scheduled as the last production, has been put on the bill for next season. Playhouse officials have announced.

With the early closing, only two plays remain for the enjoyment of the summer theatre's audiences. Currently, theatre-goers are enjoying the second mystery play of the season, "Portrait in Black." The play, an English import caused a stir along Broadway two seasons ago and which has never been released in this area until now, will remain on the Playhouse stage through Sunday.

The large cast includes Margit Friedlander, Paul Laumann, Herb Johnson, and Nancy Todd. And another Culver person makes his stage debut on the Playhouse stage. Coke Smith, son of Mr. and Mrs. A. Coke Smith, will be seen in the very important role of Peter. Mr. Smith has been re-

Tickets for "Portrait in Black" are still on sale at Oberlin's Electric Store, or reservations may be made by phoning Culver 203. All seats are reserved, and the curtain rises every evening at 8:30.

In the announcement by the Playhouse, the directors request that any person desiring to suggest a play for next season's bill should send a card or letter to the theater. Tentatively scheduled are such plays as Harvey, Dream Girl, Summer and Smike, and Beyond the Horizon. Next year's season will run as long as did this year's, with the Playhouse presenting a summer of ten plays.

Mr. and Mrs. Jack Davis of Hammond were guests of Mr. and Mrs. Charles White and his mother, Mrs. Esther White, August 13. The following day Mr. and Mrs. Walter Medbourne of Logansport, made a brief call at the White home. Mr. and Mrs. Charles White were guests at a birthday party Friday evening for Mrs. Emma Casper at the home of Lila Kaley at Bass Lake. It was her 80th birthday. Saturday evening Mr. and Mrs. White and Mr. and Mrs. Matt Hoogland and daughters attended a shower given for baby David Nyle Davis, son of Mr. and Mrs. Fenton Davis of South Bend. Mrs. Reva Moore, Phyllis Davis and Mrs. Eldonna Bauer were hostesses. The Whites were Sunday dinner guests of the Hoogland's, the occasion celebrating the third birthday anniversary of Mary Ann Hoogland.

The daily milk production of many herds reaches the peak during May and June then drops during the next two or three months to 40 to 50 per cent of the season's high. This lowers the net income and is not necessary in many herds. Lack of sufficient feed is the cause in many cases. Three or more separate pastures should be provided for each herd. When the grass in one area becomes short, the herd should be changed to a new field. Clipping stimulates new growth. In 3 to 4 weeks new growth usually will be ready for grazing again.

RABIES A MENACE

Persons bitten by animals, particularly dogs, run the risk of contracting rabies, a disease that is always fatal. If there is contact of broken skin with saliva of any animal known or suspected of having hydrophobia, medical attention should be given at once and the health officers notified.

The length of time in which symptoms develop is influenced by the severity of the wound and its location in relation to the brain. In man, it may take the virus 50 to 60 days to reach the brain and produce symptoms. In animal the symptoms may develop within 15 to 30 days.

NEW GOVERNMENT

PUBLICATION IS BEST SELLER

The American people are principally interested in children, aviation, and gardening, as disclosed by sales figures of U. S. Government publications, but officials of the Government Printing Office today made ready to add a new best seller to its list as purchasers lined up at the Government Printing Office Book Store in Washington, and mail orders began arriving from all over the country for the new Atomic Energy Commission publication entitled "The Effects of Atomic Weapons."

This publication contains previously unpublished details on atomic explosions and is of primary interest to persons engaged

in civilian defense, the building trades, and all others vitally interested in what happens when an atom bomb explodes.

The book, prepared by the Atomic Energy Commission from non-confidential, scientific, and technical information, presents the most informative and authoritative data that can be disclosed and is now for sale to the public by the Superintendent of Documents, Government Printing Office, at \$1.25 a copy.

TIME TO AWAKE

The awakening has not yet come. The average American—shall we say Joe Smith—does not yet realize that we are at war. Listen to Joe, or talk to him, and you will quickly see that this is true.

Again, no bombs have been dropped on our cities. No great destruction has been wrought in our own country, so Joe thinks we are not at war.

Well, declaration or no declaration, we are at war. Men are being killed. They are not dropping off into a peaceful dream-sleep as the poets would have it. They are dying in agony and pain. They are Americans.

Our leaders are moving slowly. They are being careful, for they say they do not want war. They can not be blamed for this. But what else is it when men take guns and shoot each other, and kill.

Joe says no. He says it cannot be for he was in the service and it was terrible. He does not want to go back in. As the boys said in the last war, "I'll hide in the hills first."

But Joe is wrong. It does not have to be patriotism. It can be a plain, unadorned struggle for survival. They are killing the boys in Korea, and soon, if they are not stopped, they will kill Joe. If necessary they will come over here and kill Joe, for this war may not be fought in one spot or be limited in scope.

It is time for Joe to realize how serious this matter is. It is time for Joe to realize that this is a war, complete with the trimmings of war; death, poverty, misery and destruction.

It is time for this country to do everything that it can in its power to bring the quickest end possible to what has been little short of a massacre so far. Joe may want to be left alone, but he may once again have to fight for peace.—The Daily Student.

"PAY AS WE GO" BASIS

The Board of Directors of the Los Angeles Chamber of Commerce believes that every thinking American should call upon Congress to place the United States on a "pay-as-we-go" basis for the duration of the Korean crisis. The statement issued by the Board follows:

"Since we demand our troops in the field display the greatest fortitude, it should be obvious to all that at least some measure of fortitude should be displayed on the Home Front.

"By postponing the day of fiscal reckoning for costs of World War II, those of us who remained at home during that war have succeeded in transferring a share of the burden to the men and women who bore more than their fair share of the costs by fighting the war for us.

"We should not permit this to happen again. If we have courage, we will embark on a pay-as-we-go policy and at the same time avoid needless controls by:

1. Immediately reducing all non-defense expenses. We are convinced we are wasting billions on non-essentials.
2. Immediately setting up substantial increases in taxes sufficient to pay for this new mobilization program. Let us acknowledge that national defense costs money. Let us start paying for it now.

"We are now being threatened with dictatorial economic controls. These controls would erect mountainous road-blocks of red tape at every strategic production intersection. They would regiment our daily life needlessly.

"The basic arguments presented in favor of such regimentation are that economic controls would prevent a runaway inflation and would assure availability of materials for military purposes.

"First, let us point out that in existing laws the President already has all the powers he needs to assure military production. The Selective Service Act alone authorizes the President to mobilize the manpower, the factories, and the materials needed to fight a Korean war or pack some weight into "peace offensives" elsewhere.

"Second, inflation cannot be prevented by controls. The evil effects of inflation are only postponed unless the causes are removed. These causes are not connected with controls. The primary cause is the creation of new credit by government printing of money and issuing of bonds.

"Inflation has followed every war in our history because we have not paid our way as we went. No matter how many controls we adopt, inflation will follow this mobilization if we follow the same easy path of deficit financing.

"The point that escapes too many is this: there is no easy way to fight a war. Wars cost lives and money. Postponing payment of the costs has never made it easier to pay. We should have learned this lesson within the decade. Every American should insist that we pay-as-we-go.

It seems that some persons are trying to buy up a lot of necessities before the hoarders buy them all.

The trouble with child psychology is that you can never get children to understand it.

Too many men spend too much time sitting around dame dreaming.

Sidelights On The Lions Club Outboard Regatta

Lions Club officials and the race committee in particular deserve hearty congratulations for an excellent job in conducting and managing the myriad of details in planning and carrying out the race. Co-chairmen Don Mikesell and Earl D. Overmyer headed a group which cooperated fully in handling the crowd and staging of the marine events. It's a big job with plenty of worries and hard work. Some of the persons are veterans having worked on every race day since 1945.

-o-

Members of the Ski Club were loud in their praise of the ski-jump which was built by Wilfred "Bud" Craft. One of the ski performers who has taken the jumps at various shows throughout the nation declared that the board built by Craft was better than the ones at the famed Cypress Gardens in Florida.

-o-

Net proceeds from the Regatta will be utilized by the Lions Club for their Community Betterment Program in 1950-51. Last year the Lions spent \$2485.

-o-

Race drivers who were competing for the first time at Maxinkuckee were highly complimentary of the facilities and the conduct of the race. Even though it was a regional championship most drivers were amazed at the number of entries in each race.

-o-

A preliminary report on the race will probably be made tomorrow evening at the annual Lions Club Corn Roast at the Don Davis farm home. Several members of the club have not yet turned in their unsold tickets and officials are hopeful that every member will check in so that a complete financial accounting can be made.

Article Features Services of Local Bank in Telling of New Banking Trend

"Banking is becoming everybody's business," and our own State Exchange Bank along with several other Hoosier financial institutions are making valuable contributions towards extending greater service to the public, according to an interesting article which appeared in last Sunday's Indianapolis Star Magazine.

Titled "The New Look in Banking," the illustrated article called attention to the various types of service which some banks are making toward rendering greater customer service and in the developing of a new phase of public relations. Pictures of the State Exchange lunch counter and basement facilities are shown.

The article in part follows:

"In the old days, a bank was usually a cold looking place, perhaps presided over by an equally cold, mechanical individual, a master at saying "no", who might accommodate with a small loan if the borrower would please leave his right arm for security on the way out. Banks in those days were principally interested in big business, the fellow who started talking in four or five figures. The little man didn't have much chance.

But today the bank customer is increasingly the little fellow; the man who wants to buy or repair a house, purchase a car or refrigerator or to refurnish his home. Latest survey shows 156 Indiana banks making consumer credit loans. They have more than \$62,500,000 in the hands of borrowers.

"With this about face toward the customer, a new concept of public service has swept banking circles and the bank today is a public institution in a new and broader sense.

Many banks, in the past five years, have converted their lobbies into warm, inviting rooms with modernistic furnishings and less emphasis on heavy metal and bulletproof glass protection.

In many Hoosier towns and cities the bank also is a community meeting house, a restaurant, a movie theater, sponsor of latest agricultural practices through contests and dinner meetings, a source of financial and market information and a convenient place to meet the wife and kids after a hard morning's shopping separates the family.

"One of the most striking examples of this new outlook in banking is in Culver. This institution is the State Exchange Bank, whose bold policies cause fellow bankers to watch in wonder, although not always with approbation.

"The State Exchange Bank may be Indiana's extreme but it signifies a trend now firmly entrenched. What is more, there is no question about the bank's success. It can point with justifiable pride to its \$14,000,000 on deposit and its \$6,900,000 loaned and prove that its methods work successfully. At least one downtown bank in Indianapolis can't match this record, nor can many a county seat city much larger than Culver, which is a non-county seat of only 1,600.

The bank's brick and stone exterior is impressive but not pretentious. The lobby is neat and businesslike, but not imposing. But behind the teller's cages, the new trend begins to unfold.

"Latest type accounting ma-

chines fill the bank's main floor and overflow into the bookkeeping department, which occupies an attractive, birch-paneled basement room, far from the distractions of the lobby. The bank levies no service charges, pays the maximum 2 per cent interest on savings deposits and insures all borrower against death during the period of the loan.

"Next to the bookkeeping department, a well-guarded vault contains what is probably Indiana's strangest assortment of bank valuables. This is the pantry that supplies the snack bar, the bank's contribution to employee convenience and the public's desire to meet and eat. Customers sometimes drop in for a bite of food or cup of coffee, too.

"Adjoining the snack bar and its comfortable lounge, a 150-seat auditorium is available to employees and the public. Sometimes social or civic groups book it two months ahead. Comfortable chairs, soft, indirect lighting overhead and an asphalt tile floor underfoot make the room a favorite in Culver. Equipment includes a piano and a movie projector and screen. A separate outside entrance for public use of the building and storage of cash compatible.

"Culver is by no means the exception in this trend toward greater public service for other banks are offering a wide variety of services to their customers.

The length of a cow's dry period exerts considerable influence in milk production. If a cow stands dry more than 8 or 10 weeks, it tends to lower production and lactation. If the rest period is only a few weeks, production that year may be increased but the lack of rest is likely to carry over and reduce the dry milk flow the following year. A dry period lasting as near eight weeks as possible gives best results year after year.

Your Life Insurance

Exactly what are your own particular needs for life insurance? Just how would your life insurance money be used? How much cash would there be in a lump sum, in event of your death, for outstanding debts, doctor and hospital bills and other final expenses? How much monthly income would your wife have toward the minimum she needs, and how long would it last? Would there be funds to pay for your children's education? And for you, for your retirement, if you live, how much money will your insurance provide toward the life income you will require?

Mr. and Mrs. Gerald Markley left today for Oklahoma City. They will return to Champaign, Ill., soon where Mr. Markley will take up his new work on the staff of the University of Illinois.

Capt. and Mrs. Arthur Hughes entertained fifty guests at open house on Tuesday honoring Mr. and Mrs. Gerald Markley who have been visiting here.

ACCIDENTS INCREASE DEATH RATE AMONG PRE-SCHOOL CHILDREN

Deaths from communicable diseases of childhood have been almost eradicated, but, meanwhile, death by accident is increasing among pre-school children. Fifty years ago the combined death rate from measles, scarlet fever, whooping cough, diphtheria, and meningitis was 75 per 100,000.

Now it is less than 2 1/2, a reduction of 97 per cent.

Every year about 5,000 children between the ages of one and four are killed by accident—one fourth of the deaths from all causes combined in this age group.

Two main classes of injury account for the majority of deaths by accidents among children. Motor vehicle mishaps are responsible for more than a third of all accidental deaths of children. Burns, fires, and explosions account for another third of the deaths. Next in rank come drownings, falls and poisonings.

Four out of five drownings in the one-to-four age group have been among boys, and these drownings took place largely in and around home. Falls from windows and porches take many lives during the first four years.

Aside from conflagration, carelessness in the home accounts for the most deaths from scalds and burns. Small victims upset fluids on themselves or fall into scalding water.

Often the production of cows is lessened because they fail to receive enough water. The amount of water cows will drink depends on their size, the yield of milk, the air temperature, and the amount of water in the feed they eat. The average daily consumption per cow is usually 100 to 125 pounds, but for those producing a large flow of milk, it often runs as high as 200 to 250 pounds.

Unemployment Drops To New Low in State

A 1,000 drop in jobless insurance claims for the week ending August 12 brought the total down to 12,894, one-fourth that of the year-ago figure, the Indiana Employment Security Division has reported. The steady decline is due to fewer vacation layoffs, a continued increase in production, and the hiring of civilian workers at Army bases and the Naval Depot.

Even though steel was becoming scarcer last week and some layoffs occurred as a result of material shortages, the 2,202 initial unemployment claims received were 28 per cent under those of the week before.

The volume of job seekers continued to lessen with Division offices showing a 7.5 per cent reduction in new job applications. Half of the agency's 29 local offices received more job openings. The Columbus and Marion offices shared 69 per cent of the state-wide gain. Openings in Columbus came both from manufacturing industries in the area and from Camp Atterbury. Food processing plants in Marion were preparing for the bean and tomato packs.

Indiana's supply of qualified workers is diminishing and some firms are beginning to ease up on some worker specifications such as age and experience.

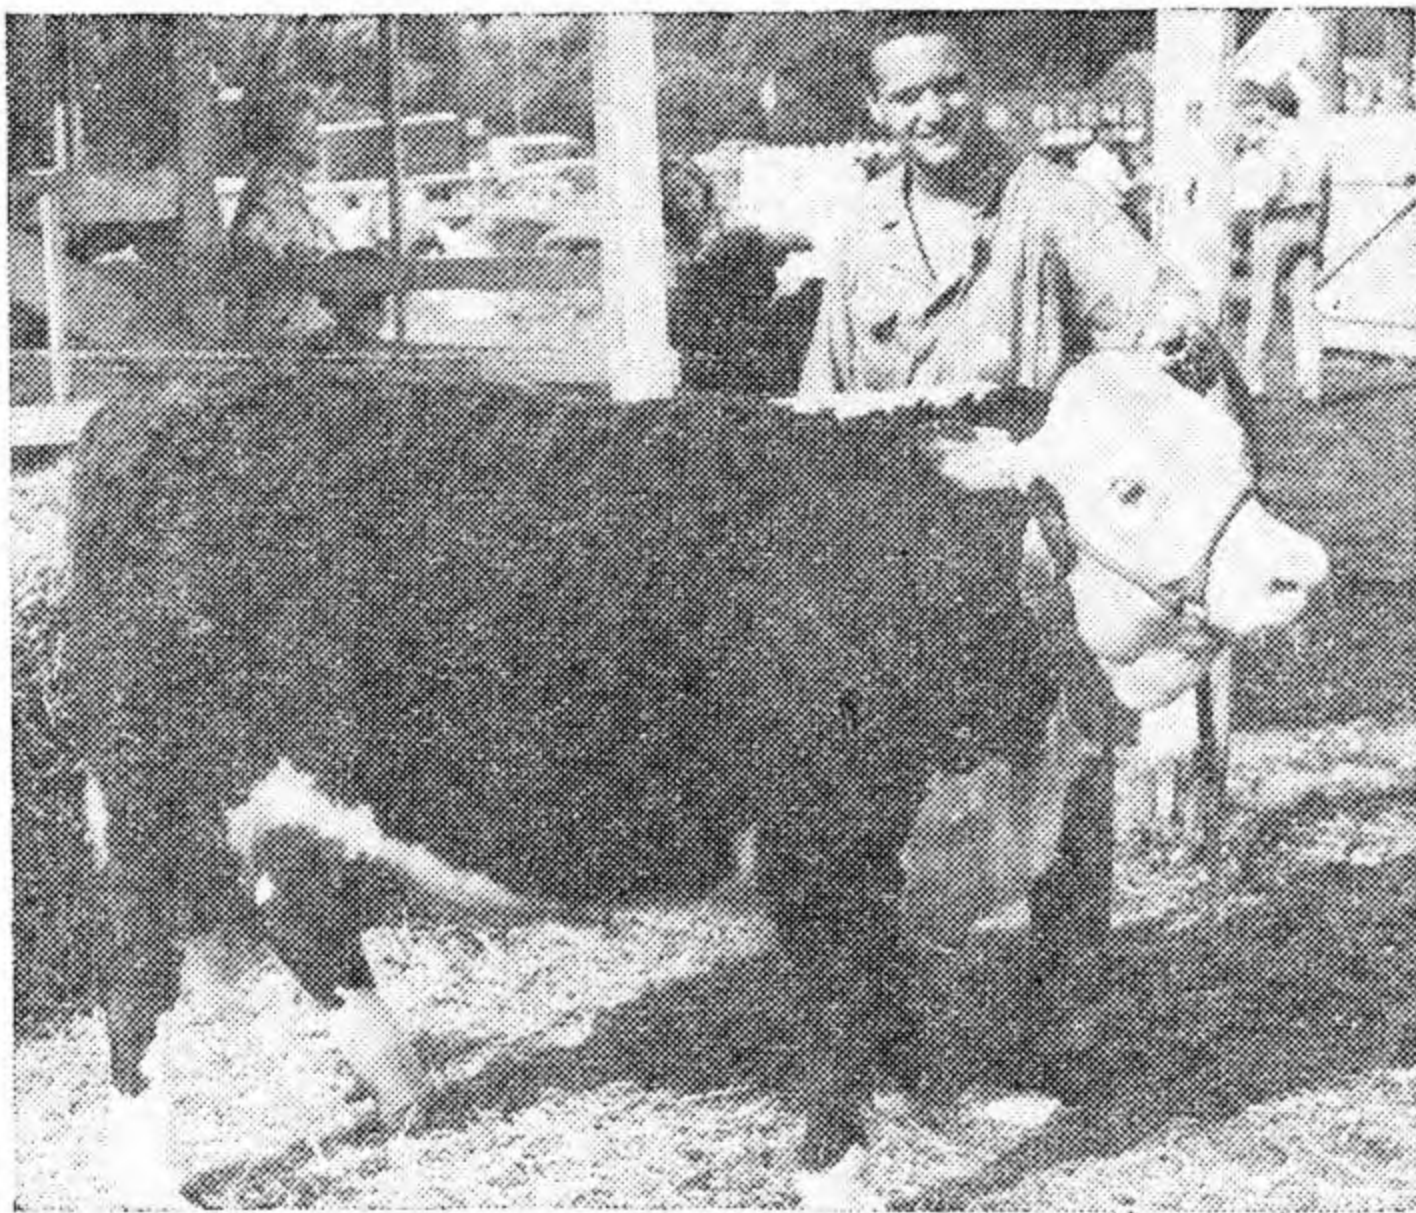

STRAWBERRY IS FROZEN FAVORITE

A near record quantity of nearly 60 million pounds of frozen strawberries moved into storage during June, says the U. S. Department of Agriculture. This, together with large holdings of frozen orange juice concentrate, boosted midyear supplies of frozen fruits to new high records. Other berries, also, went into storage at a high rate in June, but the July 1 supplies of some frozen fruits were lower than last year.

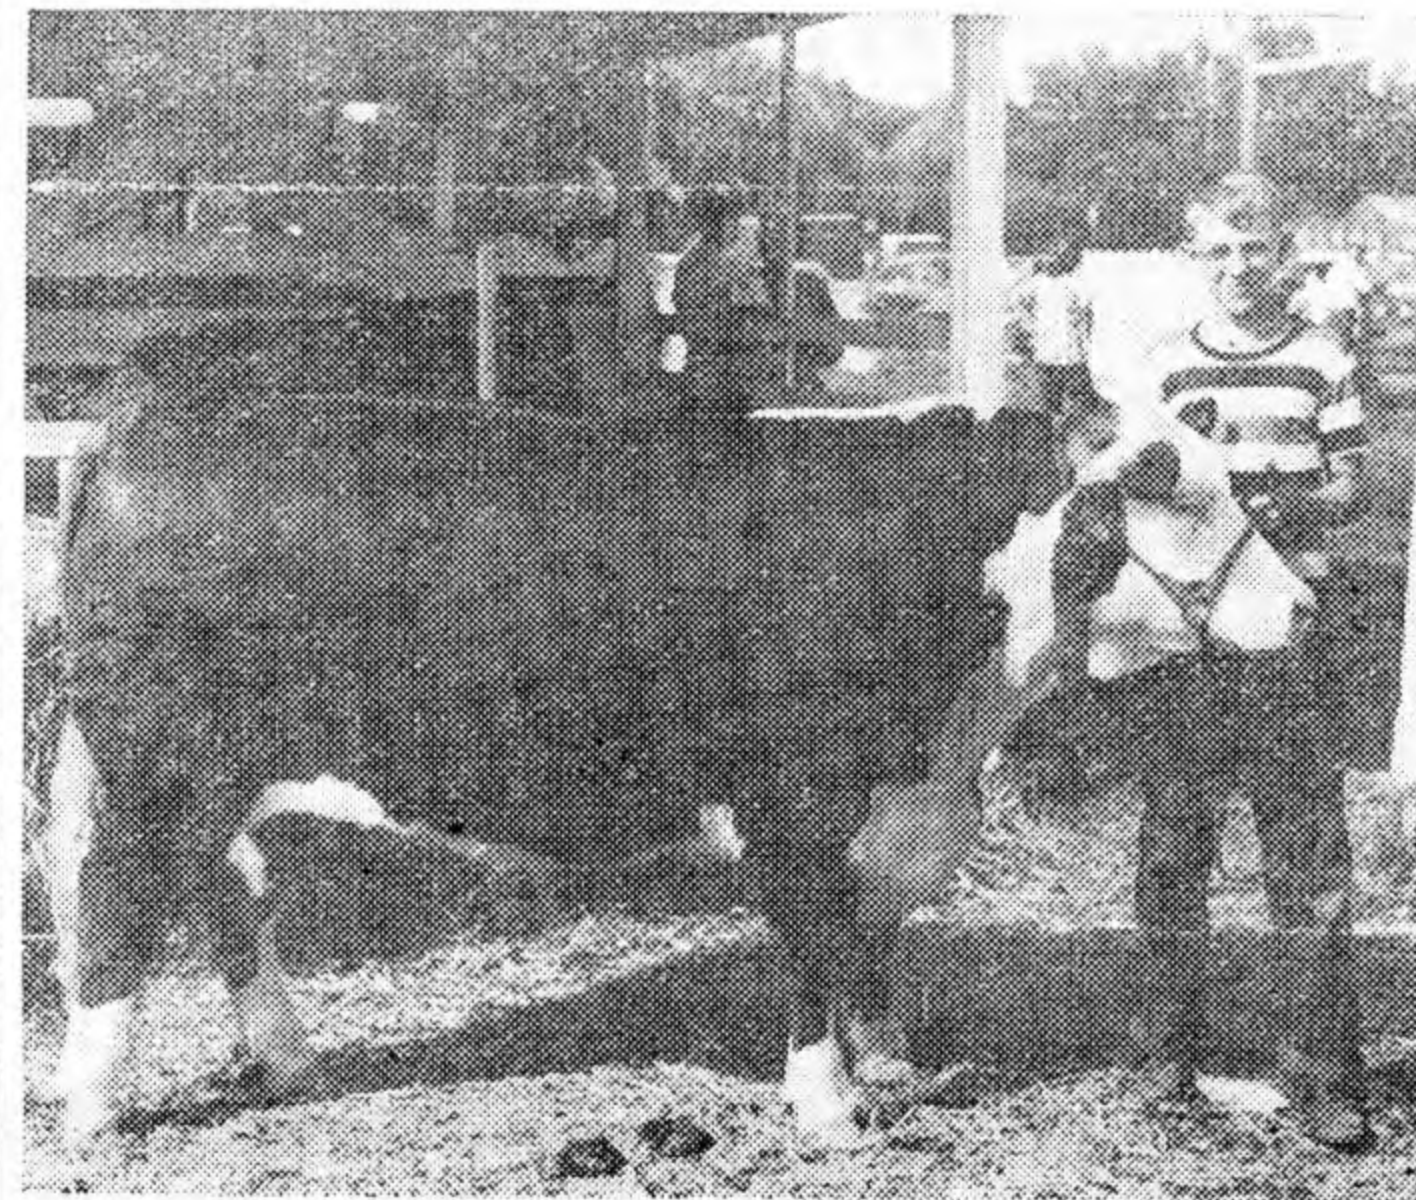

More than 103 million pounds of strawberries were in storage July 1, the cold storage report by the Production and Marketing Administration indicated. This does not include quantities packed and frozen in home freezers and local locker plants. It compares with about 80 million pounds in commercial storage a year ago.

The strawberry is the favorite

State Exchange Bank Purchases Grand Champion and Reserve Champion Steers

MARSHALL COUNTY 1950 GRAND CHAMPION. Judged the top steer in the Keen competition at last week's Marshall county 4-H fair, Robert Lemler of Bourbon township is shown here with his 980 pound Hereford which was purchased by the State Exchange Bank of Culver and Argos at the annual auction held on Saturday evening. The total purchase price paid for the champion was \$784. Arden Butler, assistant cashier of the State Exchange Bank, represented the Bank at the auction.

RESERVE CHAMPION. Marvin Roahrig of Bourbon Township owned the Reserve Champion steer, also a Hereford, weighing 1095 pounds. The Reserve Champion was sold to the State Exchange Bank at the annual auction. The Bank's successful bid was 55 cents per pound. Both photos are published here through the courtesy of the Plymouth Pilot News.

MR. AND MRS. CARTER RETURN FROM SOUTHWEST

Mr. and Mrs. E. W. Carter returned from Albuquerque, New Mexico Friday evening where the latter attended the summer session at the University of New Mexico.

Enroute home they toured a part of Old Mexico, the California and Oregon Coast Highway, including the Giant Redwood Forest, then across the state of Washington to Glacier National Park in Montana where they spent a day. While in San Francisco they were guests of Mrs. Robert Marill and children and in Riverside, California, they spent two days with Mr. and Mrs. Arthur Bloom, the latter being a niece of Mr. Carter.

Word has been received of the death three months ago of Arthur Swigart at Indianapolis. He is survived by two brothers, Roy of Indianapolis and Vernie of South Bend.

NOTICE

To all who are interested in the Burr Oak Cemetery:

"You have a cordial invitation to come and help Saturday, August 26. We urgently need men and trucks to help in our efforts to clean and beautify our cemetery. Only nine responded last Saturday. If it is impossible for you to come on the day set, please come whenever convenient. It is important that everyone take care of their own lot. It will be a great help to the faithful few who are trying so hard to complete this work."

Signed—The Committee
