Foreword and Appreciation

WE take this means of expressing our appreciation to all the people of the community who have by their efforts and financial support helped to make this issue of the *Maxinkuckee* a success.

We want also to commend the school officials of Union Township for supplying the community with such a fine school building and making it possible for us to have one of the best schools in the country.

Place: In the Superintendent's office at the Madison High School.

Time: Ten years hence.

Someone has just knocked at the office door and the superintendent is seen going to the door.

"Why, Frances Marsh, when did you come?" Miss Snyder exclaimed.

"Oh, I just happened to pass through your town on my way to New York, so thought I would stop and see you," was Frances' reply.

"Well, I am certainly glad you did."

"How is your school progressing?" Fern asked, after they were comfortably seated in the office.

"Quite well, but do you know the young people of today are so much different than they were when we went to school. Some times I simply can't understand their actions."

"Yes I have noticed the same thing in my school work," Fern remarked.

"My how well I remember the good times we had when we were in High School," Frances said with a sigh. "Do you remember when we were Freshmen, we all went together to the reception to avoid any tricks being played on us?"

"Indeed I do, and we had an enrollment of thirty-four."

"Then when we were Sophomores. Miss Reed was our class adviser. We had a Hallowe'en party at her home, didn't we?" Frances questioned.

"That's right, we did, and entertained the Freshies. It looked just like story land that night for there were witches, fairies and ghosts and even little Bo-Peep was there."

"Yes, we did have great times and especially when we were Juniors. Who was our class adviser that year? Miss Overmyer, wasn't it?"

"The first party we had that year was at Park Wickizer's, if I remember correctly," Frances said.

"Yes, and I'll bet the man in the moon couldn't keep from laughing that night at the way we acted," Fern added.

"I wonder if Clifford would remember the party we had at his home, when we ran across fields, climbed fences, and bumped into a pig. Such a time."

There was a rippling laugh rang out through the open window of the office.

"When we were Seniors we had splendid times too. That was a wonderful hike we had when we went to Yellow River," Fern offered.

"Yes, it was such a wonderful moonlight night and the river flowed so quietly as we roasted our weenies and boiled our coffee on our improvised stove." Frances' eyes had a far away look as she described this picture.

"Yes and to end it all Roy spilt the box of sugar just as we were ready to leave.

"By the way, Frances, here is a clipping from the Citizen about that party we held at Samuel Shearer's."

The Class Will

WE, the class of '22, being still of sound mind, even after our last years' of trials and tribulations, in order that the remaining student body may be fully aware of our self recognized superior merit and significance and having studied in the said institution for an unlimited number of years, feel it our highest and most sacred duty to bequeath our talents to our younger and more unfortunate schoolmates, who, we feel sure, will need them all for several years to come. To the Freshmen we leave a large supply of high-chairs and go-carts, in order that they may be able to see the top of the study-hall platform.

To the dignified (?) Sophomores we leave our superfluous amount of knowledge and good looks in hopes that they will use these noble assets to the best advantage.

To the Junior Class, who in the near future will take our place, we leave our very best wishes for a bright and happy New Year!

To every member of the faculty we leave our most sincere thanks and appreciation for the patience and pains in bringing us through our four years of "readin', writin' 'n arithmetic". We did not realize, as we do now, the reasons for, the value of their disciplinary methods, and in our last words we want to thank them sincerely.

After a great amount of meditation and deliberation, we have finally decided upon the following items which we feel are sadly needed by the students named. We urge them to read and re-read in order to derive the greatest benefits from their legacies:

I, Helen Chivington bequeath all my superfluous hair-pins to Mary Reed.

I, William Cooper, bequeath my good marks in deportment to Helen Wills.

I, Russell Currens, bequeath my extremely tall figure to Cecil Crabb.

I, Harold Easterday, bequeath my dramatic ability to Wesley Wade.

I, Ruth Hawk, after due consideration, bequeath my popularity to Violet Overmyer who wishes to have a suitor at her service morning, noon, and night.

I, Chester Hosimer, bequeath my faculty for keeping wide awake in spite of late hours to Clurel Mikesell.

I, Norman Lain, after due consideration, bequeath my Marshmallow hair to Chloe Burkett.

I, Eve Long, bequeath the many happy hours that I have spent with Jesse Pettis to Mr. Burns and Mildred Stabenow.

I, James LaMunion, bequeath my ability to get Mr. Graham to talk on everything but the subject to the future Civics Class.

I, Frances Marsh, bequeath my brilliant gift of "gab" to Merle Crabb—he sure needs it.

I, Verl McFeely, bequeath my faculty for keeping a cool head under all conditions to Mr. D. E. Walker.

I, Clifford Overmyer, do, after much meditation, will my tendency to mischief to Mac Warner, "the teachers pet".

I, Roy Overmyer, bequeath my Ford to someone who can keep it in the road, (for instance, Mary.)

Sixteen

I, Jesse Pettis, bequeath my aristocratic appearance and bearing to Donald Behmer.

I, Orin Sautters, willingly will my natural blooming cheeks to all girls who find difficulty in obtaining theirs to look natural.

I, Nellie Shively, will my beautiful indigo hair dress that only his eyes love to gaze upon to Margaret Koontz.

I, Samuel Shearer bequeath my deep interest in other towns to Alvin Crump.

I, Fern Snyder, after careful weighing of the subject do bequeath my far-reaching wisdom and dignity to Paul Robinson.

I, Margaret Speyer, bequeath my good grades to all those who find difficulty in making two credits per semester.

I, Park Wickizer, bequeath my beautiful raven hair and deep manly voice to any one who wishes to resemble Mr. Snapp.

I, Hobert Baker, bequeath my abundant supply of "hot air" to the next year janitor in aiding him to keep the school house warm.

Therefore after due consideration and careful weighing of the matter, we, the United Senior Class of '22, do hereunto subscribe our name this twenty-first day of April, A. D. 1922, Culver, Indiana.

THE SENIOR CLASS.

On this twenty-first day of April, 1922, Culver, Indiana, we, the faculty, declare this to be their last will and testament and we, at their request and in the presence of each other, do hereunto subscribe our signature as witnesses.

We further certify that at the time this will was made we believe these students were of sound mind and good memory.

The Spirit of Culver

Of Culver High School we sing;
To Culver High School praise we bring,
For this dear school staunch devotion
In anything for her promotion.

The Culver spirit urgeth growth
In love divine and learning both.
The Culverite rejoiceth ever,
Her loyalty can nothing sever.

The Culver "soul" will ever live,
And to the student courage give,
A greater Culver we shall see;
The life and growth will wondrous be.

The Junior Basketball Girls

This is our coach—So, so!
She'll make you play—my-O!
She furnishes the pep
And keeps up our rep—
This is Miss Gause—Ho-Ho!

See our jump center—O-jump!
She makes them say—"O-hump".
Watch her with ball
When the whistle does call—
This is Helen Wills—O-jump!

A fast little team—Look out!
See that little goal?—Do shout!
They're here every time,
They're worth many a dime—
They are the Juniors—Look out!

Sophomore History

❧ ❧

OUR Class started in the year of 1912 with about forty members but there are only four out of these forty who have been in the class all of the ten years. These pupils are: Bessie Bush, Zelta Duddleson, Grace Henderson, and Maurice Baker.. Each year there were some entering and some moving away. There were several who skipped a grade and caught up with our class. When we entered the Freshman year of High School there were nine of us graduated from eighth grade of Culver School. There were a number of pupils who joined us from the "Big Schools" of Hibbard, Burr Oak, Washington, Maxinkuckee, Poplar Grove, Kelly and Santa Anna, also two more from the "Little Schools" of South Bend and Indianapolis. This making the total of thirty-three. On account of sickness, marriages, etc., several have left us.

When we entered the Sophomore class there were five new ones added. These were Dollie Reed, Nomi Patesel, Glen Voreis, Howard Flath and Donald Behmer. During this year there also were three who dropped out, making at the present time a total of thirty. We hope that these thirty and also new ones will be in the Junior Class next year.

The Freshmen

I.

The little Freshmen gathered all
The first day in the assembly hall.
They were as green as green could be,
Did not know a comma from an apostrophe.

II.

They thought they were as big and great
As any lawyer in the state.
They talked and whispered all they could,
And never could be understood.

III.

They laughed and played the whole day long,
And when the grade cards came along
My, what an awful, awful sight!
They worried and dreamed about it all night.

IV.

Fifties and twenties were the best,
(A grade never could be much less.)
And said, "We'll get this hard old junk."
They gathered up a little spunk

V.

The Freshman days will soon be gone,
And Sophomores they will in turn become,
And Oh! how nice it all will be
To think of things that are past you and me.

VI.

O, Freshmen, gather round your class,
Don't think this school day is the last.
A whole lot more books to unload
As you and I traveled down life's road.

CLASS SONG

Class Song (Tune Margie)

We are the Eighth grade,
 The Class of 'Twenty Six
 The Eighth grade,
 The class that Culver picks
 We'll make our school work
 One Grand Success.
 We'll have the Sophs and Freshies
 Looking on in awe.
 The Eighth grade the best of any class
 And that's the best of all.
 Now when all is said and done,
 There is really only one
 The Eighth grade, Eighth grade
 That's All!
 Look out for the class of '26
 Our Goal is "the finish"
 We're on our way
 We're Earnest! We're Honest!
 We need no tricks.
 We're climbing the ladder day by day.

Curricula—1921-22

Two High School Courses

Academic (a)—General (g)
For purposes of organization the student body is divided into two groups: (1) Group A, those students who, we suppose, expect to go to college and for whom the Academic, or Course A, is planned. (2) Group G, those students who do not expect to enter college, but who desire the advantages of a liberal high school education and for whom the general, or Course G, is suggested.

With such a classification the High School undertakes to serve all students who come under its tuition by offering a wide range of subjects suitable to each course.
About forty-seven credits of work are offered from ten different departments of knowledge, and from these the school presents for election two well organized courses of prescribed studies with the privilege of much variation in the choice of electives. Each student may thus elect his whole high school course.

Basketball

§ §

WE never fail to put out a basket ball team that is a credit to a school our size and this year has been no exception to the rule. Russell Burns, a former Culver boy and later a member of Purdue's varsity squad, was secured as coach. He has proven himself to be a coach of the first rank and the school is proud of his work. The team has made an excellent record this year, having won 23 out of 28 games. Winning the County Championship in a walk and loosing the District Championship to the fast Atwood five in the final tourney game by a scant 3 point margin.

Starting with only one player of last year's five Coach Burns developed the best aggregation we have had in years. Much credit is due him for the showing made and the school appreciates the time and effort he has put into his work.

Overmyer, the only experienced player on the squad, and captain of the team, has been the backbone of the Culver ogensive play. He is fast on his feet for a heavy man and his accurate basket shooting at long range has won several closely contested games.

Sautter, a former Culver boy who played with Plymouth last year, returned to his home school last fall and since the Christmas vacation has been the high point man for the maroon and white. His accurate foul throwing and heady floor work has made him one of Culver's most valuable men. He was selected on the all-district team.

Wade was the find of the season. Starting the play by jumping at center and then dropping to back guard he has developed into one of the best guards in the country. His guarding at the district meet was the talk of the entire crowd and won him a place on the all-district team. He should be a wonder next year.

Mikesell and Crump have alternated at the other guard position all season with the result that both of them have developed into excellent players and should be in fine shape for next year.

Speyer, Whitted anl Bartlett have filled the forward position opposite Sautter and as all of them have another year in school they should handle the scoring end of the team in good shape.

Track

❧ ❧

We have always had a track team that could give a good account of itself at the Annual County Meet. The greatest handicap we have is that the meets are held after our school has closed. It is hard to keep the boys in training and arrange for regular practice unless the school is in session.

We have some very promising material and Coach Burns is spending a great deal of time and effort to develop a winning squad. Plymouth usually has things much her own way at the annual meet but we hope to make her work for all the points she gets this year.

❧ ❧

Baseball

❧ ❧

Our school closes too early in the spring to make it possible for us to do much with baseball. Some of the other schools play fall baseball but we have never tried it. Coach Burns caught on the Purdue Varsity last year and has spent what time he could from track work helping to develop some material looking forward to trying out fall baseball next September. A few schools have asked dates this spring but it is doubtful whether we will be able to meet them.

C. H. S. Alumni Association

❧ ❧

The Culver High School Alumni Association was organized Sept. 29, 1911. The purpose of the association was to get the graduates of the school together in a social way. This aim has been realized each spring by the banquet given by the Alumni for the graduating class.

The Lighter Vein

* *

The world is old, yet likes to laugh;
New jokes are hard to find.
A whole new editorial staff
Can't tickle every mind.
So if you meet some ancient joke,
Decked out in modern guise,
Don't frown and call the thing a fake,
Just laugh, don't be too wise.

* * * *

Shaw: Why is a beaver's house like a Baptist church?
Park: You have to go under water to get in.

* * * *

Miss Moss: Give me a sentence illustrating the three tenses.
Park: Don't think of the future until the present is past.

* * * *

Bernice: Does the moon effect the tide?
Park: No, the untied.

* * * *

Jokes

* *

Mr. Walker—(asking for a donation of books before the Assembly): The Hibbard school house has burned down and the books have burned up.

* * * *

Roy O: Would you like to go to the show tonight?
Ruth: I'd be delighted.
Roy: Well, I hope someone asks you then.

* * * *

Graham (opening a window): Do you feel that air?
William (looking up absently): That 'ere what?

* * * *

In English XII Miss Moss asks Ruth to analyze a sentence.
Ruth: Signal is a noun used as the object of the preposition is.

* * * *

Miss Moss: Have you been doing any outside reading?
Carl Andrews: No, its been too cold.

* * * *

Wanted: Something new to stumble over. I've fallen over everything in the school house.—Crump.

* * * *

As Miss Shively was going shopping down town to buy her new spring coat, she met Mr. Mikesell who accompanied her.

Clerk—(to Mr. Mikesell): About how much would you care to pay, sir?

Forty

Roy—(dining with his lady love): Will you have a little lobster?
Mary: Oh, Roy, this is so sudden.

* * * *

Noble by birth, noble by deeds—Junior Class.

* * * *

Miss Starkey: A fool can ask many questions that wise men cannot answer.
Mike: Then that explains why so many of us flunked in History.

* * * *

Graham: Excuse me, William.
William: You're welcome.

* * * *

Much Ado About Nothing—Junior Class Meetings.

* * * *

Harold: I'm a little stiff from bowling.
Graham: Where did you say you were from?

* * * *

Hervy B: You're quick, aren't you?
Hobart: I say I am. I can turn out the light, cross the room, and be in bed before it gets dark.

* * * *

Suitable Classics

* *

Freshman: Comedy of Errors.
Sophomore: As You Like It.
Junior: Much Ado About Nothing.
Senior: All's Well that Ends Well.
Alumni: Lest We Forget.

* * * *

Suitable Stones

* *

Freshman: Emerald.
Sophomore: Blarney.
Junior: Grindstone.
Senior: Tombstone.

* * * *

Eve: When I get to Heaven, I'm going to ask Shakespeare if he wrote those plays.

Jesse: Maybe he won't be there.
Eve: Then you ask him.

* * * *

Mr. Graham: I passed your house last night.
Miss Gause: I hope you always will, Mr. Graham.

* * * *

Phys. Geog.-Shaw: Who are the enemies of men?
Wade: Women.

* * * *

The boy with the sleepy walk—Chester.

Forty-one

The Maxinkuckee

Miss Moss: Mildred, parse the word kiss.
 Stab: This is a noun, but usually known as a conjunction. It is never declined, and is more common than proper. It is not very regular in that it is usually used in the plural. It agrees with me.

* * * *

Lookout, Clifford, Sharkey's eagle eye is upon thee.

* * * *

For Sale: Twenty-three wads of gum located under Mary Frances' desk. Almost as good as new. Hardly been used.

Student's Dictionary

* *

Bulletin Board—a trysting place.
 Superintendent—chief of police.
 Lake Shore—cupid's highway.
 Principal—desk sergeant.
 Glee Club—a noisome Pestilence.
 Theme—cribbings from several authors.
 Senior Play—a play given by Freshmen.
 Orchestra—a brilliant bunch of uniforms.

* * * *

Even the wisest and keenest minded men cannot foresee the consequences of women going into industry. Why, even I can't—Graham.

Don'ts For Underclassmen

* * * *

Don't think you know as much as the Seniors.
 Don't eat. Your stomach may get out of order.
 Don't drink. You'll get thirsty again.
 Don't worry—let the other fellow do it.
 Don't go to the office until your name has been called three times before the Assembly. Student body will think you popular.
 Don't work. It is very bad for the health to tire yourself.
 Don't be on time at your recitation. Less chance of being called on so often.
 Don't say anything when you talk. It consumes brain power.
 Don't explain absences until required. It's impolite.
 Don't study; it may affect your eyesight.
 Don't grumble. Take what you can get. If you can't get it, take it anyhow.
 Don't ever be displeased. If you get D on your report card, be thankful it wasn't worse.
 Don't take advice—give it. You'll be better loved.
 Don't snore in the Assembly. Starkey might hear you.
 Finally, when you accidentally kiss a girl, don't do it at a class party before everyone; it might embarrass the young lady.

The Maxinkuckee

Mr. Graham: Roy, do you know how to drive a Ford with one hand?
 Roy: Don't ask me, ask Mary.

If you are interested
in Poultry—and if
you have Chickens

C

I want you to get started Right
this year for your
success!

TO begin with please con-
sider *quality* feed, be-
cause it is the cheapest
in the long run and you will
actually save money by con-
sidering only highest quality
feeds at all stages of poultry
production.

These Sincerity Buttermilk Feeds
will guarantee you sure success
and I know that your chicks will
not die on you if they get the
right feed, fed in the right way.
You can buy "Cheap" Feed but
you will lose half your flock.
Now, I am right here to serve you
all year around and I want you to
start right so you can make a big
success.
Come in and see me or call up and
get my lowest prices on these
great feeds—I'll save you money
too!

Education and study in feeding
knowledge has developed many
things we never knew before. By
correct feeding you can get twice
as many eggs because the first es-
sential is the body requirements
to develop the hen and what is
left goes into the egg. Now, if
you are only feeding hard grains
you are merely supplying the bird
with maintenance food value and
nothing left over to develop the
egg within the hen. That's why
you should feed Mash Feed all the
time for heavy egg yields.
