WNIT Soon To Broadcast

EDUCATIONAL TELEVISION PROGRESS REPORT

By Thomas Zoss

WNIT-TV, the new educational television station which is scheduled to go on the air in this area in the near future, is approaching its financial and equipment goal in fine fashion, according to Tom Brubaker, General Manager.

The public channel was requested by Michiana area representatives several years ago, but the inaction of past years has been replaced by a surge in recent months as a fund raising drive produced nearly 75% of the needed pledges for funding by mid-December. The present pledges of \$377,433 include \$20,215 from Marshall County, which is within the coverage area of the new station. Such public support, on a continuing basis, will be needed to keep the station alive since there will be no commercials, a prime source of revenue for other television broadcasters.

In addition to Mr. Brubaker, the station's new General Manager, other staff members have been hired to assure quality programming and broadcast engineering. Gary Weinstein, a South Bend native, has been hired as Program Director, coming from a California position of responsibility with a

SNOW REPORT

Thursday, December 20, 1973

The Osborn Seed Company sent two men and a snow plow uptown in Burr Oak who plowed out the alleys and main streets. The snow had drifted to a depth of three feet around some buildings. It was the worst snow in several years.

commercial outlet in the San Francisco area.

In addition to a full six day schedule which will begin in January (if no unforeseen technical problems arise), several adjustments will be made in the programming of other area stations. The most obvious will be the shifting of the award-winning children's program "Sesame Street," which will leave WNDU to appear on WNIT-TV, the new educational station.

The broadcast facilities are located in Elkhart, but the license covers the South Bend-Elkhart area. The signal will reach homes on UHF channel 34.

WNDU had presented the "Sesame Street" telecasts since February, 1970, as a public service to the community. They were carried without commercial interruption, winning Channel 16 a special Achievement Citation for presenting the series in an area not served by public television.

The gap in WNDU's morning broadcast schedule will be filled by Leave It To Beaver, Gentle Ben, Dinah's Place, and Baffle in the 9:00 A.M. to 11:00 A.M. spot.

CCHS CHEERLEADERS (and friends) entertain basketball crowds with their famous "disappearing pyramid" trick during a recent basketball game. The basketball season has more games yet to come, so on those cold winter nights don't forget to support your Culver Cavaliers. CITIZEN photo

Three Books Given To Library

IN MEMORY OF ART HUGHES

Three books have been placed in the Culver Public Library as memorials to the late Arthur Hughes, past president of the Library Board.

Two of the books are published by American Heritage Press—THE ARTISTS' AMERICA, and THE WRITER'S AMERICA.

The first presents a history of art in America with biographical material on each artist. This includes a presentation of folk art to surrealism and out of the ordinary pop art, scanning the range from Audubon to Andy Warhol.

The second book includes

essays, poems, novels and plays, from Captain John Smith to Norman Mailer. In 1787, Royall Tyler wrote America's first play, a patriotic comedy. Quotations from major works are used throughout the book to demonstrate the writers' styles and to set the mood of the times.

Both works include hundreds of illustrations from each period of our history.

Roger Manvell edited the third volume, THE INTERNATIONAL

ENCYCLOPEDIA OF FILM, a magnificent book with thousands of illustrations in black and white and full color. There are over a thousand biographies, with the text covering more than six thousand films.

Mr. Hughes had always felt a deep interest in libraries. He served on the Board of the Culver Public Library from January, 1966 to the fall of 1971, when he was forced to resign because of ill health.

GILL PROMOTED AT MCGILL'S

Mr. Donald Hamilton, Plant Manager at McGill Manufacturing Company, Inc., in Culver has announced the promotion of Mr. Donald Gill to Foreman of Maintenance and Janitorial Services effective last November 12, 1973.

Mr. Gill joined the McGill work force at the Valparaiso plant in 1962, and served as an Electrician AA until his recent promotion to the Culver plant. Before coming to McGill, he was employed by Inland Steel for five years, and served with the United States Air Force as a radar technician before that, serving a tour of duty in the South Pacific.

Gill is a native of LaPorte, graduating from LaPorte High School in 1951. He received special training at the Honeywell Factory Instrumentation and Control School in Philadelphia, and the Industrial Controls School at Berkheimer in Gary.

Gill and his wife, Sue, reside in LaPorte with their four sons.

GUEST DIET

Note: Frank Heinemann is a regular columnist for the LaGrange Standard, and has given The Citizen permission to reprint one of his latest contributions:

HERE IT IS, FOLKS: THE HEINEMANN DIET

By Frank Heinemann

After being subjected to a solid week of comments on the Today television program about fat and obesity I figure it's time for me to clear the whole thing up.

I have worked out a special diet which can be used by anyone with or without an examination by their doctor. One of the worst troubles about diets is that they always include a lot of foods that are either unobtainable or too expensive. I have, therefore included substitutes for each of the items which might fall into one of these categories.

BREAKFAST

Small glass of orange juice. (Substitute tomato juice, pineapple juice, cider or beer)

Small dish of low-calorie cereal. (Substitute grits or home-fried potatoes)

One boiled egg. (Substitute two fried eggs)

One slice lean bacon. (Substitute four slices bacon, lean or otherwise)

Cup black coffee. (Substitute coffee with sugar and cream)

LUNCH

Cup of beef broth. (Substitute bowl of clam chowder, oyster stew, or one or two martinis.)

Meat sandwich on dry toast. (Substitute grilled hamburger with onion and plate of beans on the side)

Salad with salt and vinegar dressing. (Substitute mashed potatoes, but go easy on the gravy)

Glass of skimmed milk. (Substitute coffee, whole milk or beer)

DINNER

Thin soup. (Substitute almost anything you like)

Lean pork chop. (Substitute porterhouse steak)

Half cup of rice. (Substitute french fried potatoes)

Cup of spinach. (Substitute another order of french fries)

Glass skimmed milk. (Substitute-see lunch substitutes)

Half cup fruit. (Substitute pie ala mode)

LATE SNACK

Three saltines and glass warm skimmed milk. (Substitute for a late snack try a lobster salad with some hot biscuits. For dessert you can have another piece of pie, but without ice cream. Ice cream tends to give you nightmares. It is well to top this off with one or two ponies of brandy unless you tend toward gout.)

As you can see, this diet is considerably more flexible than those ordinarily given you by your doctor. Mostly the ones he gives you come from some pharmaceutical house and include one or more of the things that particular house

sells so they don't want much flexibility.

According to that television show practically all of the information they have is still in the experimental stage. They are not sure about anything except death and taxes. My diet, too, is experimental. I can assure you of one thing, though.

Even if you don't lose much weight, you'll enjoy my diet more than you will those ridiculous things the doctors give you.

There are, in literature, two quotes which may afford you some consolation.

Agatha Christie, the creator of Hercule Poirot and Alice Marple, once said that she never knew anyone in her life who was both skinny and happy. Think about that as you step on the scale.

Then there is an old limerick (anonymous) which seems to apply:

There once was a fellow named Sidney

He drank 'til he ruined his kidney.

It shriveled and shrank

As he drank and he drank.

But he had a good time at it, didn't he?

EXPECTANT PARENT CLASS

Pre-natal care, problems of pregnancy, labor, delivery, and care of the newborn baby for prospective parents (both of you) will be included in the class offered by the Marshall County Red Cross.

Any expectant parent is invited to join the class which begins at 7:30 p.m. Tuesday, January 8th, at the Red Cross office, 105 North Michigan Street, Plymouth.

The class will meet once a week for five or six weeks and will be taught by Jane Roush, Director of Nurses at Parkview Hospital, and Wanneta Reichert, School Nurse at Triton School System.

Pre-registration is asked - call the Red Cross office at 936-3928 or 936-4311 by January 7th. There is no charge of any kind.

The expectant father needn't feel neglected any more, because he will be included in the preparation and coming excitement. However, if the father works evenings and cannot attend the classes, expectant "Mama" should come and share with him what she has learned. It may even be the other way around. In that case, the father may share his knowledge!

An important part of the course will be the movies "Phenomena" and "Normal Birth."

It does not matter what hospital you plan to have the baby in.

May God bless you all. A happy and prosperous New Year to you all.

Forecasting

Important Documents For 1974

Personal banking documents and books suggested here will be important records,— highly personal records of your achievements, hopes and aspirations — and, in a very real sense, they will be your own "best document of the year" for 1974.

You will be the planner, the author. Though they will not relate your 1974 year in words, the figures, the balances, will significantly record your finances, your savings, your deposits.

The New Year will soon be with us. With it will come renewed hopes and plans. We hope it will be our privilege, as it is for so many throughout the area, to have a service role in these vital and most personal activities. We hope, too, that they will be successful and satisfying records for you and yours.

Our business is people serving people. This is the season of the year when this spirit permeates everything we do in a complete range of banking services.

In the Spirit of the Season we are grateful for this opportunity to extend

Best Wishes For A HAPPY NEW YEAR

ORDER OF EASTERN STAR

Worthy Matron Mrs. Max Geiger welcomed all the Emily Jane Culver Chapter, Order of Eastern Star members present for the Christmas meeting with a reading "Just A Symbol." The chapter was decorated with many miniature trees shining brightly, sleighs, and candles, and Santa had left a gift for everyone with the help of his "elf", Mrs. Geiger.

With Mrs. E. W. Carter at the piano, all joined in singing some favorite Christmas carols, and, as is getting to be a tradition, Mrs. Carter played "Star of the East." The worthy matron closed with "Why Christmas Bells Are Ringing." Refreshments were served by the officers in the social room, with Mrs. Allen Cornett presiding at the table decorated with a "Christmas Around the World" arrangement. Places at the tables were marked with miniature candy canes.

KMIOTEK RETIRES

Inland Steel Company has announced the retirement of nine veteran employees from its Indiana Harbor works.

Included in the list of retirees in Joseph Kmiotek of Culver, who served that company for 34 years.

SENIOR CITIZENS MEETING

The Culver Senior Citizens group met at Zion Hall of Grace United Church of Christ on December 18th at 1:00 p.m. Members came from Argos and Culver for an afternoon of games. Refreshments were served by Mrs. John Kowatch and Mrs. Fred Stromminger.

YOUR DEFENSE AGAINST AGGRESSIVENESS

If you were seized against your will and no human assistance was at hand, God could bring about your complete deliverance.

Broadcast this week over many stations including: WSBT 960 kc Sunday 9:15 a.m.

the TRUTH that HEALS

A Christian Science series

Thoughts

From The Living Bible

Before anything else existed, there was Christ, with God. He has always been alive and is himself God. He created everything there is — nothing exists that he didn't make. Eternal life is in him, and this life gives light to all mankind. His life is the light that shines through the darkness — and the darkness can never extinguish it. God sent John the Baptist as a witness to the fact that Jesus Christ is the true Light. John himself was not the Light; he was only a witness to identify it.

John 1:1-9

Religious Heritage of America

GOD

Hear ye the word of the Lord. Jer. 21:11 is the Golden Text of the Lesson-Sermon on God in Christian Science.

We gain an understanding of God as we study the synonyms: Mind, Spirit, Soul, Principle, Life, Truth, Love. The Christian Science Textbook by Mary Baker Eddy says— "Divine Mind rightly demands man's entire obedience, affection and strength. Obedience to Truth gives man power and strength. There is no power apart from God. Omnipotence has all-power, and to acknowledge any other power is to dishonor God."

You are lovingly invited to attend the services at First Church of Christ, Scientist, at Plymouth. Sunday school for pupils under 20 years, and the church service is at 10:30 a.m.

MISS HELEN M. DALTON DIED IN INDIANAPOLIS

COMMUNITY GRIEVES

Was Teacher of English and History
in High School Here
Last Year.

The students at the high school and many of her friends in the community were astounded and sorrowful to learn of the death of Miss Helen Dalton who taught English and History in the local high school last year.

An account of her death, which appeared in the Bedford Democrat, is given herewith:

The death of Miss Helen Martha Dalton, aged 24 years, 7 months and 21 days, only daughter of Mr. and Mrs. John Dalton, of this city, which occurred at 3:40 o'clock Thursday afternoon in the Norway sanitarium in Indianapolis, cast a broad shadow of sorrow throughout this community and was learned of with deepest regret.

For several days her condition had been extremely critical and her parents, brother and other relatives were at her bedside when the end came.

Brain Fever Caused Death.

Brain fever caused her death, having developed several days ago after she had been placed in the Indianapolis sanitarium following a nervous breakdown which came on Sunday evening, November 25th, at Coldwater, Ohio where she was engaged as a teacher of English and History in the Coldwater city schools this year.

Immediately after she suffered the attack an effort was made to remove her to her home in this city, a trained nurse accompanying her. On

POSTAL CLERK EXAMINATION

The United States Civil Service Commission announces that an open competitive examination will be held Jan. 19th, in this city for the position of clerk in the local post office. No vacancies now exist but examination is given for the filling of any vacancies which might occur in the future. Persons who desire to take this examination should consult with the local secretary, C. D. Behmer, for further information.

WINAMAC APACHES LOST TO CULVER ATHLETICS

HAD FAST TEAM-WORK

Culver Quintette Showed Best All-Around Form of the Season and Smothered Winamac 46-15.

The Apaches, Winamac's independent basketball team, were out to scalp the Culver palefaces last Thursday night, but the invaders repeated history and completely tamed the Apaches by the count of 46-15 on the Winamac court.

The game opened with a burst fast floor work by both teams and a hot evening was prophesied, but superior passing and shooting by the Culver five soon made themselves evident and a lead was gained that was never overtaken through the remainder of the struggle.

First Half 16-3.

The passing and fast floor work of the entire Culver team were spectacular, and left the Winamac guard vainly pawing the air. At the end of the first half the boys from Lake Maxinkuckee led by the comfortable margin of 16-3.

WANTS OLD PAPERS

The Citizen is offering a reward for some old papers. It needs them badly for its files. It wants the issues which were printed on the following dates: Sept. 5th, Vol. 21, Number 19; July 25th, Vol. 21, Number 13; and August 14th, Vol. 21, Number 14. The Citizen is very anxious to have these numbers right away and will only want a limited number. Therefore, the first to present the copies will get the money.

JUNIOR CLASS TO GIVE "THREE-IN-ONE" PLAYS

EXPECT FULL HOUSE

Actors and Actresses are Busy Preparing Plays for Next Thursday.

"Three-In-One" is the way the way the junior class of the high school tells of the evening of entertainment which it is putting on Thursday night, Jan. 10, in the auditorium. Three plays in one evening is bound to draw a house full.

The actors and actresses of the junior class have been planning and working on the evening of fun for several weeks now. They are coming along fine and the three short plays will undoubtedly be well done.

Two Comedies and a Tragedy.

The first play of the evening will be "That Rascal Pat." It is a comedy and is said to be a scream from start to finish. "The Game of Chess," a tragedy, will be the second. The word tragedy would indicate that it was entirely sad, but it has its amusing places and is highly entertaining. "Pa's New Housekeeper," another comedy, is equally as

REPORT LARGE SALE OF SEALS AND BONDS

EXCEEDS LAST YEAR

Holiday Sticker Sale Makes Possible
Wider Anti-Tuberculosis Program in 1924.

Reports from ninety-two Indiana counties are being received at the headquarters of the Indiana Tuberculosis Association in Indianapolis, telling of a phenomenal sale of Christmas Seals and Health Bonds throughout the state in the annual campaign for anti-tuberculosis funds which is just closing. Apparently the state as a whole will exceed the sale of the little holiday stickers that has been made in any previous year, according to estimates made by Murray A. Auerbach, Executive Secretary of the State Association.

Bigger Program for 1924.

Mr. Auerbach said today that indications are that a wider anti-tuberculosis program throughout Indiana will be possible in 1924 than in any previous year because of the generous support of the Seals which has been given by citizens in practically every county of the state.

"Apparently the educational campaign to eradicate tuberculosis in Indiana has become one of the chief interests of the people of the state at Christmas time," Mr. Auerbach said. "Tentative reports which are coming in from all over the state show that purchases of the Christmas Seals and Health Bonds, from the proceeds of which all anti-tuberculosis work in Indiana is financed, have been heavier this year than in any previous year. This will allow a wider diffusion of health activities in 1924 than we had hoped for.

Indiana at Head of List.

in safety. This was done but following her return home her condition continued to grow worse and later she was returned to the Norway sanitarium where specialists exhausted their knowledge in effort to successfully conquer the disease which proved fruitless.

Change Came Last Sunday.

Last Sunday evening a sudden change for the worse resulted in her parents being called to her bedside and they have since remained with her.

Helen Martha Dalton was born in this City on May 6, 1899, one of two children that blessed the union of John and Catherine (Heltger) Dalton. She attended St. Vincent de Paul, a parochial school in this city and following graduation there entered Bedford High School and finished the course of study offered there with the class of 1918. The following year she entered St. Mary's of the Woods at Terre Haute and graduated from that school in 1921.

Taught in Culver Last Year.

In 1922 she accepted a position as teacher of English and History in the schools at Culver, Indiana, and this year went to Coldwater, Ohio, to teach the same branches in the city schools of that place.

She was a devout member of St. Vincent's Catholic church throughout her life.

Surviving are the parents, one brother John Dalton of Bedford, the grandparents, Mr. and Mrs. George C. Heltger, of Bedford, and numerous other relatives.

START BUS LINE JAN. 10

Plymouth Company Will Make Two Trips to South Bend Daily.

The Indiana Motor Bus Company with headquarters in Plymouth will begin the bus line to South Bend January 10th which is somewhat earlier than they had planned. The first car will leave Culver at 7:10 a. m. next Thursday.

This is the same company which operates between Rochester and South Bend. The cars which leave here will connect with the cars going both ways out of Plymouth. It will be necessary for Culver passengers to change cars at Plymouth with a ten minute wait since this is a branch line of the company.

The stations in Culver are at San-der's Restaurant and the Lake Shore Garage.

the score-keepers were kept busy chalking up the additions.

Hosimer High Scorer.

Hosimer led the Culver team in scoring by making twenty-one of his teams points. The rangy center slipped in eight field goals in the second half, aided by the accurate passing of Shaw and Snyder. Burns, Shaw, and Snyder also took part in the scoring just to relieve the monotony and to show the Winamac gathering that all the Culver players were dangerous around the goal. Bartlett finished in Wade's place after the latter was removed on personal fouls. Close guarding by Wade and Burns took the win out of Winamac. The Pulaski County team was able to slip in only one field counter in the first reel.

MRS. WARREN IS FIRST

Two Numbers in Koontz's Contest are Still Unclaimed.

A one-hundred pound sack of sugar was won by Mrs. Amanda Warren last Monday night when she held lucky number 578 at the Koontz's prize contest. Mrs. John Milner took the fourth prize, a Universal Vacuum bottle, with number 401. The lucky holders of the second prize number 589 and the third prize number 418 have not yet made their claims. These people have until closing time next Monday evening to make their claims. Otherwise, the prizes will be given to second best numbers.

A good crowd was at the store Monday night to hear the results of the drawing. The numbers were in a sealed tin box. They were shaken up well and then a little girl picked out the lucky numbers. The two winners as announced above were in the store at the time of the drawing.

CHARLES MOORE DEAD

The funeral services of Mr. Chas. Moore, for five years a resident of Culver, was held at the home of Mr. and Mrs. W. H. Fisher last Tuesday afternoon, Rev. Walmer of the Evangelical church officiating. Interment was made in the Culver Cemetery.

Miss Bess Easterday has returned after spending several days visiting in Chicago.

Mr. H. T. Rollins of Detroit, Mich. visited his parents over the week end.

One car that is known of went over the curb with some serious results at the bad curve on the hill east of the depot. Other cars skidded into one another at several places although no serious damages have been reported.

Two Cars Hit Curb.

Last night at about 8:30 o'clock, two cars went over the curb on the bad curve east of town. One was driven by Clarence Banks and the other was said to be driven by John Walter. The Banks car was being driven at a moderate rate of speed but the ice on the bricks made it almost impossible to turn the corner. The car skidded over to the curb and turned completely over. Banks was not injured. The car was badly damaged, however.

The Walter accident was not at all serious according to C. A. Shorb who was in the car at the time. He said that the car merely turned completely around with no serious results.

Is a Bad Corner.

The corner spoken of above is very dangerous and should be taken care of by the city at such times when it is slippery. An out-of-town car whose driver was not familiar with the circumstances might lose control of the vehicle with some serious results. Ashes which townspeople pay to have hauled away might well be used on a place of that kind at such dangerous places.

ENJOY ANNUAL FEAST

About Eighty Attended Masonic Banquet and Installation.

About eighty members, wives and friends of the Masonic Lodge gathered around the banquet board in the K. of P. hall last Thursday evening. It was said to be one of the best affairs that the masons have ever put on.

The first part of the evening was taken up with the public installation of the newly elected officers. After that ceremony, some fine talks were given by different members including Col. C. C. Chambers, Col. H. F. Noble and Gen. L. R. Gignilliat.

The banquet was served by a committee from the lodge members and consisted of two courses of good things to eat.

Mr. and Mrs. Ben Scott and family of Mishawaka spent the holidays with relatives in Culver.

Three Weeks of Listening to Both Sides Fails to Convince Jurors.

The Osborn case which has been attracting so much attention over the county will have to be retried in another term of the Circuit Court for the reason that the jury failed to agree. The case occupied three weeks time in the court to no avail. The jury made the decision after having deliberated over the matter from Saturday until Monday morning.

Four Children Brought Suit.

The suit was started by four children of the late "Uncle Billy" Osborn to break his will. The two older sons, Amos of Culver and Wesley of Ober, were the only children remembered in the will disposing of the \$40,000 estate. The four left out by the terms of the will are John and George of Culver, Leonard of South Bend and California and Mrs. Della Overmyer of Culver.

The breaking of the will is sought by the four younger children on the ground that their father was of unsound mind when he made it. He was 93 years old when he made his last will.

Jury Overstepped Rights.

The jury in preparing what they called a "sealed verdict" in which they merely said they had agreed to disagree, overstepped their rights, attorneys say. Unless the jury arrived at a verdict for the plaintiffs or against them they had no right to leave the jury room, until called by the judge.

The fact that they did leave their room and dispersed without arriving at a verdict was a wrong action. Attorneys in the case had the docket entry say that there was a disagreement in regular form.

CADETS RETURN MONDAY

Academy employees will be kept busy again the first part of next week when the cadets will be returning to the academy. It is said by those in authority at the institution that the entire corps will return after vacation period. The first semester ends February 10th.

Miss Mildred Stabenow left on Wednesday evening to resume her studies at the University of Illinois.

George Helvey returned to Wabash College on Wednesday after spending his Christmas vacation in Culver.

automobile accident which occurred last Monday night near the Ralph Houghton farm on the Burr Oak road. Floyd Jones and Glenn Vories, two other occupants of the car were only slightly hurt. Lamunion received severe bruises and suffered a wrenched shoulder and sprained ankle.

Hit the Fresh Gravel.

The three boys were driving south on the road at a good rate of speed when they hit some new gravel. The car swerved and partially turned over throwing the boys some little distance. Lamunion was knocked unconscious and remained in that condition for about twenty minutes. Floyd Jones was fortunate in that he only received a few little bruises and scratches. Glenn Vories was hit in the mouth and two teeth were knocked out and a bad cut in the lip was suffered.

Some people who lived in the community went to help the boys and sent them in to town where their injuries were dressed. The car was in a badly demolished condition as the top, body, one wheel and the radiator were totally demolished.

The accident happened so quickly that the boys scarcely knew just what had happened. Jones and Vories are both attending school.

ATHLETICS VS WINAMAC

Locals Will Try Taking the "Win" From Winamac Here Tuesday.

The return game with the battling Winamac Apaches will be held in the high school gym Tuesday evening. The Culver Athletics have improved their quality of playing in the past few weeks and are ready to show the local fans a real brand of basketball. Winamac has a team that fights every minute of the game and will offer stiff resistance to the fast traveling locals.

The Culver Athletics go to Bremen Friday night for what is expected to be the toughest game of the year. Bremen has been giving a good account of themselves this year and the Culver independent five will have to show their best to down them.

May Warner spent Sunday and Monday with the Rev. O. L. Chivingtons in Royal Center.

Mr. and Mrs. Samuel Buswell Jr. have moved into Mrs. LaBounty's house.

stand, instructor at the high school and director of the plays, will take one of the parts. The other parts will be by the following: Norman Heminger, Charles Banks, Josephine Cook, John Bigley, Mary Reed, Rebecca Emigh, Chole Burkett, Morris Schumaker, Donald Behmer, and Jack Speyer.

Speciality Acts Provided.

Inasmuch as there is considerable time required between each play to change scenery and costumes, the management has provided speciality acts for in-betweens. This also will be an interesting feature of the program.

Reserved seats will be on sale at the Slattery & Shilling Drug Store and people are urged to take advantage of this in order to be assured of a seat. The program will begin at eight o'clock.

PLAY PLYMOUTH FRIDAY

Double Header to be Staged Here With County Seaters.

The most important game of the local high's schedule will be staged on the local floor next Friday night when Plymouth High will battle with the Culver quintette.

Two games are on the docket for the evening. A curtain-raiser will be played by the girls teams of the two schools. This will be the second game of the season for the Culver girls and pre-game dope gives them a favorable chance of annexing the contest.

The boys game should be the hardest battle of the season. The county seat team has been playing in top form and mowing down opposition with skill. The Culver speedsters will enter the fray with the knowledge that they will have to play forty minutes of real basketball. Coach Burns has pointed his team for this game and a real battle is in store.

ENJOY THE HOME NEWS

A letter from Mr. and Mrs. Roy E. Warner of Los Angeles and formerly of Culver, to The Citizen says that they enjoy receiving the paper each week because it gives so much of the home news. They say it receives first place in their reading time after it arrives. The letter was written Dec. 19th and up until that time, they had had but one frost and they enjoy open air meetings every day in perfect comfort.

sible by the generosity of Indiana's citizens. This work apparently is growing in favor with each year in the state. In 1922 the sale of Seals put Indiana at the head of the states in the Mississippi Valley, and this year apparently she is to retain her place. It is, therefore, reasonable to suppose that the death rate in this state from tuberculosis will continue to be reduced in 1924, at perhaps a more definite rate than heretofore.

"Prevention and cure of the disease already are being planned by many counties in greater amount than has been possible heretofore. The newspapers of Indiana were largely responsible for the splendid sale of Christmas Seals which took place this year throughout the state. Volunteer workers in practically every county gave time and money to the success of the sale and this widened interest in disease prevention should tell definitely by the end of this year in lowered death rate everywhere."

IS COLLEGE PRESIDENT

Former Culver Boy Rises to High Position.

It will interest many people of Culver and vicinity to learn of the election of Rev. Evert Jones to the presidency of Buena Vista College, a Presbyterian institution located at Storm Lake, Iowa. Evert Jones is remembered here as the "grasshopper boy" because as a lad he made his first money to go away to high school, selling grasshoppers for fish bait to the summer residents of Lake Maxinkuckee.

After completing the eighth grade at the Washington school, southeast of the lake, he attended high school at Terre Haute, was licensed to preach by the Evangelical Association and went to the state of Oregon as a home missionary for that church. He graduated at Albany College in the latter state and attended the San Francisco Theological Seminary of the Presbyterian church. He has since taken post graduate work at the University of Chicago and at Columbia University in New York and has been pastor of churches in Spokane, Chicago and Philadelphia.

Mr. and Mrs. William Warner of Louisville, Ky. visited relatives in Culver Tuesday and Wednesday.

1973 Good Year For Schools

A Message From School Superintendent A. F. Allen

The Year 1973 allowed for many accomplishments in the Culver Community Schools. It is the intent and purpose of the Superintendent and School Board to serve the School Community by acting responsibly to maintain the school facilities and to improve the quality of education for all the school age residents of the corporation.

Early in 1973, we were able to have the final inspection and approval of the revised heating system in the high school building. The distribution of heat throughout the building is now acceptable.

The athletic field has been properly drained. Much help was given the school on this project by the Marshall County Soil and Water Conservation and a special vote of thanks goes to Mr. Dean Manchester for his efforts on this project. Also a vote of thanks goes to the McGill Manufacturing Corporation for donating the top soil which was used in crowning the football field. The athletic field has been re-graded, the football field has been re-worked, crowned and seeded.

The School Building Holding Corporation paid the costs of the work on the athletic field and also for the paving of a portion of the parking lot at the high school and for the new tennis courts that are fenced and lighted. Tennis will be added to the sports schedule beginning with the 1974-75 school year.

A new roof was installed on the Central Office Building, on the Gym at the Aubbeenaubbee School and also at the Monterey School.

New entryways have been installed at the southeast corners of the Elementary-Junior High Building in Culver. This has been a much-needed improvement for some time.

A new outside basketball court has been added to the playground at the Monterey School. Most of this was a gift from Monterey

Parent-Teacher Organization in the community. The playground equipment at all three elementary-junior high schools has been repaired and repainted. The Culver Jaycees donated the labor for much of this repair work. The Culver Jaycees gave a new merry-go-round to the Culver Elementary-Junior High School. The Maxinkuckee Junior Women's Club gave the Culver Elementary-Junior High School a jungle-jim. The efforts of all these groups is recognized and very much appreciated by the school.

Three new 66-passenger school buses were purchased and some added consolidation of bus routes was made in order to make for the greatest economy in the transportation program.

The Phase-Selective Approach to the teaching of English was endorsed by the Board and put into operation with the opening of the 1973-74 school year. This program is undergoing constant evaluation to make it an effective means of teaching English.

Fourteen new IBM electric typewriters were purchased as replacements for older typewriters in the business education department. This step will enable students to continue to receive training on electric machines as well as on the manual typewriter. New classroom furniture and/or cafeteria tables and chairs were purchased for replacements of some very old furniture in some areas at all three elementary-junior high schools.

The junior high school students in all three buildings were introduced to mini-courses for the first time this school year. The mini-courses afford the junior high students with opportunity to participate in activities and course work not heretofore possible. Boys can choose home economics, girls can choose shop, etc. during the mini-course period — an opportunity not available before.

A new media center has been approved for the high school library which will greatly enrich and enlarge the learning opportunity

for our boys and girls. A large amount of learning material and some teacher-made lectures on key sections of work, will be placed on tape and made available to the student at the student's convenience for more in-depth study and exploration.

Equipment has been purchased to set up a power mechanics class in the industrial arts department to expand and improve the vocational training approach for our students in this department.

Elementary physical education is being taught for the first time this year in grades 1-5. Listening labs have been provided for all three elementary-junior high schools. The Fine Arts has been broadened at the junior high level. By adding one staff member, the art program was enriched, the English curriculum improved and the physical education program enlarged.

There has been a new surge of school spirit and school morale throughout the district. The school officials are pleased with 1973 and are geared and ready to enter 1974 to make it another good year.

KAPPA KAPPA KAPPA GIFT TO DEAF

Officials of the Tri Kappa sorority presented a teletypewriter machine acoustically coupled to a telephone for use in instant remote communication with deaf people to the Mental Health Association in Indiana last month in Indianapolis.

This equipment will enable the Association to expand its program of services to the mentally ill deaf.

Mrs. Robert R. Batton, Council president of Tri Kappa Sorority, said at the presentation that, "Tri Kappa is delighted to be able to play a small part in making this miraculous service available among the mentally ill deaf. One handicap is difficult enough for any individual to learn to overcome, but when multiple disabilities besiege a person, it is time for his more fortunate friends to try to share his burden. Tri Kappa is lucky to be able to help these handicapped Hoosiers."

Photographers: Set Your Sight On Kohoutek

FOR BEST COMET PHOTOS, FOLLOW HAYDEN PLANETARIUM INSTRUCTIONS:

1: Load 35mm. camera with fast film. GAF 200 Color Slide Film is recommended for accurate color with time exposures.

NEW YORK (ED) — The most exciting celestial display of the century is lighting up the sky this winter. The phenomenon is Comet Kohoutek, named for the Czech-born astronomer who discovered the giant comet when it first entered our solar system last March.

Kohoutek holds special excitement for both professional and amateur observers, because it is a "sun-grazer." That means it will come within 13 million miles of the sun (the earth-to-sun span is 93 million miles). This close proximity to powerful solar rays will make the comet glow so brightly that it will be readily visible to the naked eye. Before December 28, early risers can spot it in the southeast quarter of the pre-dawn sky. After that date, look for Kohoutek just after sunset, to the west southwest.

Because it will be visible while there is still light,

2: Open lens to widest aperture. Use normal or wide-angle lens. Focus camera on infinity. Use tripod or steady surface.

photography buffs who want to record this awesome visitor's appearance should capture the spectacle on color film. An amateur with a 35-millimeter camera can photograph the white streak of the comet at its most dramatic—against the brightly-colored dawn and twilight sky. Hayden Planetarium scientist Allen Seltzer suggests you'll need the following: an adjustable camera that allows you to vary shutter speed and lens opening; a sturdy tripod; fast film (GAF 200 Color Slide Film is recommended because it will give you a good black sky; the result will be color that is accurate over the long exposure time astrophotography requires).

With equipment at hand follow these simple steps:

1. Set camera on tripod or steady surface.

2. Open lens to widest aperture. (Normal or slightly wide-angle lenses should be used.)

3: Set shutter speed to "T" or "B" setting for time exposure. Vary exposures from 1/2-1 1/2 minutes, for finest results.

3. Set shutter speed to "T" (Time) or "B" (Bulb) setting for time exposure.

4. If possible, use a cable release. (A cable release is attached to the camera. It allows you to trip the shutter without touching the camera. Result? No vibration.)

5. Position camera on comet.

6. Focus lens to infinity.

7. Trip shutter.

8. Expose film from between 30 seconds and 1 1/2 minutes, depending on the amount of twilight. Vary exposures over several shots.

Astronomers all over the world are getting ready for Comet Kohoutek. Amateur stargazers can share in the excitement of this spectacular event. But if you want to keep a picture of Kohoutek for posterity, you'll have to follow the above camera measures. Shooting a comet requires attention to detail. Kohoutek, here we come!

PREVENTING HOME ACCIDENTS

Most accidents happen at home . . . and most are preventable. To keep your house as accident-proof as possible, follow these suggestions.

IN THE KITCHEN: Keep cooking utensil handles, turned inward on the stove, out of reach of small hands. Knives should be put away immediately after use — out of sight and out of reach.

IN THE BATHROOM: Keep radios, electric heaters, hair dryers and other electric equipment out of the bathroom.

IN ALL ROOMS: Keep matches, scissors and all poisonous substances out of children's reach. Be sure scatter rugs have non-skid backsand. Keep stairs and passageways free of clutter.

A well-stocked medicine cabinet is a must in any home. If there are small children in the home, make sure all medicines are locked safely away from inquisitive hands. Few medicine cabinets come equipped with locks, but there are special ones available that can easily be installed.

Follow these suggestions from the new 1974 St. Joseph Family Almanac Calendar, available free at participating pharmacies, and you'll avoid an accident-prone home.
