## RESIDENTS REPORT ODOR

Town Clerk Marizetta Kenney reported Tuesday that several residents in the area of the Sewage Treatment Plant have noticed an objectionable odor in recent days.

Mrs. Kenney reports that the odor will probably continue for about a week, since the aerator is now working on saturating the sludge with air. Once the sludge is fully aerated, Mrs. Kenney said, the problem should be permanently solved. Town officials apologize for the inconvenience in the meantime.

## ORGAN PERFORMANCE AT ACADEMY WEDNESDAY

The South Bend Chamber Orchestra, Seymour Rubinstein conducting, with Murray J. Foreman, Academy organist, will perform two concertos in the Culver Memorial Chapel at 8:15 p.m. Wednesday, April 10th.

The "Concert of Celebration" marks the renovation of the Fleet Pipe Organ, originally installed in 1951 and renovated last year. A gift of Maj. Reuben H. Fleet, a 1906 Culver graduate, the chapel organ consists of 2,837 pipes controlled by 58 speaking stops. Renovation of the organ was made possible by the Fleet family.

The public is invited and admission is free for the performance, which will feature Handel's Organ Concerto, Opus 4, No. 4, and Poulenc's "Concerto for Organ and Strings." The program will be preceded and followed by carillon music with Robert L. Kamrow, carillonneur. Following the concert, a tour of the Culver Chapel bell tower will be available for those interested.

## LIBRARY BOARD PLANS MAINTENANCE WORK

Several topics were discussed at the Library Board meeting held Monday night at 7:30 p.m. in the Culver Public Library.

Arrangements are being made to have the outside trim of the building painted as soon as the weather permits. Mr. Donald Kline of Maxinkuckee has been scheduled to do the work with the aid of one assistant.

Replacement of several windows is needed and because of the high price of materials the board decided to take bids. Mrs. Scroggs, the librarian, will soon contact all available local sources for bids. The idea of using glass blocks was raised as a less expensive way to replace the windows. This in return brought out that the architecture would be changed if the blocks were used.

The board unanimously approved the installation of a bicycle rack on the west side of the building. Board members are in hopes that some local organization will help sponsor this project.

During 1974 some of the shelving on the top floor is to be replaced. Mrs. Scroggs is gathering information from several library furnishing firms and will report on this at a future board meeting.

Since a new 1974 edition of Americana Encyclopedia has been received, an older set for 1962 will be for sale. A very low price of \$20.00 for the 30-volume collection was set by the board.

The next board meeting will be held Monday, April 29th at the library at 8:00 p.m.

### JUNIOR WOMEN LEARN ABOUT THE KIDNEY FOUNDATION

The Maxinkuckee Junior Women met Monday evening in the home of Mrs. Michael Overmyer. The evening's program was presented by Mrs. Linda Rozanski, Secretary, Mr. James Nolen, Vice President of the North Central Chapter, Indiana Kidney Foundation, and Mrs. Nolen. Mr. Nolen is a kidney transplant recipient and told the group of the problems and needs of patients on dialysis machines, kidney transplants, and the need for more kidney detection programs.

Mr. Nolen reported that kidney disease is the fourth major health problem in America. In Indiana, 1,700 people die yearly of kidney disease. In 1972, 61 patients received kidney transplants and about 250 are waiting for a transplant. He also noted that over 75% of the functions of the kidneys can be lost before detection is made. It is the hope of the local club to sponsor a detection clinic in the near future for Culver area residents. This is a project of the Federated Women's Clubs.

It was voted by the club to make a contribution to this chapter of the Kidney Foundation.

In another club project, Mrs. David Kelly, Conservation Chairman, reported that 250 trees will be planted in the club's nature lab at the high school to replace those lost during the winter.

The club voted to purchase a gift for the county home and to aid the grade school in the measles vaccine to be given soon.

There were twenty-seven members present and two guests were introduced, Sue Shroyer and Linda Keane. Co-hostesses for the meeting were Mrs. John Benedict and Mrs. John Babcock. The next meeting will be April 8th at the home of Mrs. Roy Shepard.

ENERGY INFORMATION AVAILABLE BY PHONE

The public can now dial a new telephone number and receive round-the-clock energy information. Second District Congressman Earl Landgrebe reported.

The new number is 202-634-7610. According to Landgrebe, it can be dialed from any point in the country, and is staffed by a team of information specialists to answer questions on the allocation program and FEO fuel rules and regulations. The public and industrial and business leaders are also directed by the service to potential sources of help on complaints about price gouging and other practices.

The Telephone Inquiry Section was established late last year to provide businessmen and the general public with 24 hour-a-day energy information. Since then, more than 27,000 calls have been recorded by the Telephone Inquiry Section. The number of calls has so taxed the present facilities that the new number set-up was instituted. Its 16 rotary lines, it is hoped by Federal Energy officials, will better be able to serve both the business community and the general public.

COLLEGE CHORALE TO SING AT CCHS APRIL 5TH

The Oregon Bible College Chorale will present a concert of choral works at the Culver Community High School next Friday, April 5th, at 7:30 p.m. in the high school auditorium. The program is sponsored by the Burr Oak Church of God, and everyone is welcome without admission charge.

The Oregon Bible College is located in Oregon, Illinois, and was organized in 1939 to train young men and women for full-time work in Christian service. The Chorale was organized in 1970 to provide specialized study and performance opportunities for vocally qualified students who are chosen from the student body.

The chorale performs both accompanied and unaccompanied works of both ancient and modern composers. The Chorale presents about 35 concerts a year before churches, high school assemblies, and on television.

Dale Ramsey, director of the Chorale, is an instructor of music at Oregon Bible College. He also directs the OBC Choir and has charge of the Christian Service program at the college.

Lesson-Sermon

Unreality is the lesson studied in Christian Science this week, Rom. 13:11 - Now it is high time to awake out of sleep, is the Golden Text. It includes many references about sleep and dreams and the story of Lazarus from John 11. Jesus awakens him out of the sleep of death.

Mary Baker Eddy has written in the Christian Science Textbook, Science and Health with Key to the Scriptures: We must learn that evil is the awful deception and unreality of existence. Evil is not supreme. There is but one primal cause. Therefore there can be no effect from any other cause, and there can be no reality in aught which does not proceed from this great and only cause.

All are welcome to all services, and to use the Reading Room, where the Bible and all Christian Science literature may be read, borrowed or purchased.

# The Home Restaurant Opens Soon

## RESTAURANT TO OPEN FOR EASTER BUFFET

This year, Easter Sunday will bring more than the traditional festivities and treats to Culver. A special treat comes that day to Culver in The Home Restaurant, located at 113 South Main Street.

Marje and Bill Rinehart have so named their new enterprise in recognition of the history behind the building they now occupy. For years in Culver, the Home Theater was a place of entertainment, showing the "moving pictures" that captivated the first generation of moviegoers.

The Rinehart family has been busy preparing for Opening Day since the middle of February, and will open their doors to the public for breakfast at 7:00 a.m. Easter Sunday morning, followed by a noon buffet.

The Home Restaurant will be open from 6:00 a.m. to 7:00 p.m. daily except Tuesdays, and will feature a complete breakfast and luncheon menu, including a luncheon special and "soup of the day." A dinner menu will also be available.

Marje has a lot of experience in the restaurant business, having been active in one aspect or another of the trade since the age of thirteen. She was employed at Sperry's Restaurant after the

family moved to town over a year ago, and was also employed by Pinder's Restaurant. She has been employed at The Kelly Shop for the past ten months.

With the venture being the "family affair" that it is, as

children, husband, and even granddaughter Deanna help Marje "set up," the restaurant may very well seem like "Home" to her!

We wish the Rinehart family all the best in their new business.

**SPATULA IN HAND,** Marge Rinehart, owner of The Home Restaurant, shows the beautiful equipment that will be used to serve her customers fine food. Several weeks of cleaning and renovation have put the restaurant in an excellent condition of readiness to open for business on Easter Sunday.

**BAYH ASKS TO SEE OIL CONFERENCE TRANSCRIPTS**

Senator Birch Bayh disclosed in Indianapolis last Saturday that he had written to the Federal Trade Commission asking that under the provisions of the Freedom of Information Act he be allowed to see transcripts of prehearing conferences the Commission is conducting with oil companies which the FTC last summer accused of anticompetitive practices.

Those conference transcripts have been withheld from public view by the FTC at the request of the oil companies. The companies invoked a provision of FTC rules that stipulate prehearing conferences "shall not be made public unless all parties so agree."

Bayh said the Freedom of Information Act supersedes the Commission rule and added that he

was prepared to file a lawsuit in order to receive copies of the transcripts if his original request, made by letter March 20th, is not honored.

Speaking at a seminar on the press and media sponsored by Indiana Central College in Indianapolis, Bayh said, "One of the main purposes of the Freedom of Information Act, of which I was an original supporter, was to provide the media - and thus the public - with access to government proceedings in which the public had an obvious and important interest."

He told the Indiana Central students and college and professional newswomen attending the seminar, "Elected officials and the media have a shared responsibility to fight government secrecy."

**EDUCATORS WILL MEET IN INDIANAPOLIS**

Ray, Indianapolis, recording secretary; Mrs. Clifford Grigsby, Shelbyville, corresponding secretary; Miss Ruth Shanks, Guidance Counselor, Culver Community High School, treasurer; Mrs. Charles Guion, Terre Haute, executive secretary; Mrs. Myrtle H. Wilson, Indianapolis, parliamentarian; and Mrs. E.F. Bowman, Indianapolis, immediate past president.

**GREEN GROW THE FLOWERS**

Green is one of the least common colors in the flower kingdom, and yet it is one of the most popular colors with flower gardeners. Green as a color is uncommon because most flowers must contrast with green foliage in order to catch the attention of insects for pollination. For this reason blue is an uncommon color because blue is the color of the sky, and black is almost non-existent, although some scabiosa and pansies are almost black. White, yellow and red are most common as flower colors.

Gardeners like green flowers mainly because of their decorative value indoors. The two most famous garden flowers with green coloring are Bells of Ireland (growing long, slender flower spikes surrounded by

cup-shaped flower clusters) and Envy Zinnia (a lime green dahlia-flowered zinnia). Both are extremely easy to grow.

Bells of Ireland are best direct-sown into the ground after all danger of frost in an open, sunny position, and Envy Zinnia likes the same. Both will mature in mid-summer to help create stunning flower arrangements.

**TOWN BOARD DISCUSSES NEEDED REPAIRS**

The Culver Town Board met in regular session Monday evening, April 1st, at 7:30 p.m. at the Town Hall. All board members were present, as well as several town employees, twenty members of the Culver Community High School Government class, and the Township Trustee.

Culver-Union Township Fire Chief Don Overmyer reported that a siren on the south end of town had stopped. Repairs will be made soon. Street Superintendent Veri McFeely reported that the sewer tile on Academy Road had been cleaned for a length of about 500 feet, and that a tile at the west end of East Washington Street was clogged and needed to be cleaned. The board approved the cleaning job, as well as approving the seeking of estimates on the cost of cleaning the large lift well that extends to the sewage treatment plant. Mr. McFeely reported that new front tires were needed for the tractor the town uses, and the board approved purchase of the tires.

Police Chief Richard Woodward inquired about the possibility of having a center line painted from the corner of S.R. 10 and 17 through town and past the cemetery. The board said that the job would be done as soon as weather permits, and Chief Woodward agreed to get a revised quote from the source of last year's quote in excess of \$200.

In business from the floor, Bonnie Vorets expressed her appreciation to Mr. McFeely and the Street Department for cleaning the banks along the lake from the viaduct south.

Under old business, Chief Overmyer reported that a fire truck made by Universal Fire Equipment Company had been inspected by Fire Department officials. Overmyer felt that the truck had several weaknesses, among which that the motor had to be revved very hard to pump water effectively. The board will advertise for a re-bidding for the truck.

The board has received no word from NIPSCO on the cost of replacing the town's incandescent street lamps to the mercury-vapor type.

In other business, it was reported that trucks that deliver ferric chloride to the sewage treatment plant, were having

trouble getting in the gate to deliver the 40,000-lb. lots of the chemical. The board agreed to work on the problem.

Mr. Everett Easterday submitted records of expenditures for labor and equipment connected with repairs to the sewage treatment plant, received from Clyde E. Williams Co., engineers for the plant. The papers from Easterday Construction, contractors for the plant, mean that the sewage treatment plant is ready for the final inspection required by the Federal government prior to receiving the balance of funds due the town for the expenditure. 75% of the cost of the plant is being borne by state and federal grants, and 25% was raised by a bond issue. The aerator for the plant now has a blower and heater attached, the absence of which rendered the aerator unusable during winter months. The board announced that it was planning an Open House of the completed facility sometime in May. More specific dates will be announced later.

Easterday Construction was asked to inspect the roofs on various town buildings for repair needs. Easterday's did the original roofing work on a number of the town buildings.

There being no further business, the meeting adjourned to the signing of claims.

To The Culver Citizen

Saturday I was more than glad to give the two smiling faced girls a donation to help the members of the band on their trip to Holland, Michigan. But I would have been much more eager had they asked if I had any paying chore for them to have earned it, for aren't we suppose to help them to be self reliant?

Some years back they were earning money for new uniforms so I wrote them a note telling them I would give them \$25.00 and a chili supper to all that came and raked our large lawn. I never received a note. (my yard needs it again this spring)

There are many windows that will go unwashed, flowers unfertilized, onions set out, cars unwashed, and storm windows left on simply because us oldies can not do it. We are sorely in need of a competent and trustworthy youth for assistance and I am sure there are many youngsters who need to have something to do and needs some extra money. Why not get together.

I may be old fashioned but I always appreciate something much more if I have earned it.

**Eppley Concert**

Singer-guitarist Hal Shane will perform in Eppley Auditorium on the Culver campus at 7:30 p.m. Friday, April 5th, as part of the Academies Concert Theater Series.

A native New Yorker, Hal Shane is equally at home singing English madrigals, Calypso folk songs or popular ballads of today. His vocal selections are interspersed with tantalizing classical guitar solos.

A critic for the Norwich, New York Evening Sun recently stated, "Hal Shane brought the audience to its feet in a standing ovation following the fifth encore. This was the first time this reviewer has ever seen a concert audience so moved."

Shane's lyric baritone voice, his technique on the guitar and an imaginative dance routine give his performance three dimensions. General admission tickets are \$1.00 and will be on sale at the door.
