IT'S A LONG WAY DOWN—Members of the Maxinkuckee Junior Women's Club survey the task ahead of them...a gully caused by crosion of the embankment along the shore of Lake Maxinkuckee at the Town Park. The Junior Women spent last weekend filling several gullies such as this along the slope with black dirt and planting crown vetch in the areas to stop further crosion. As you can see from the pictures here, the job meant a long weekend's work and sore hack muscles Monday, but Nancy (Mrs. Kenneth) Thomas, Connie (Mrs. Michael) Overmyer, and Mary (Mrs. Robert) Radawski don't CITIZEN Photo

THE FIRST STEP in stopping the erosion is black dirt—lots of it! The dirt is used to fill in the guilles; it is then smoothed, the vetch is planted, and the planting is covered with straw and anchored to prevent wind erosion while the plants take root. Above, Jackie (Mrs. Larry) Berger, Rosalie (Mrs. James) Bonine, Lorraine (Mrs. Norman) DuMaine, Connie Overnoyer and Linda (Mrs. John) Deery watch while a dump truck deposits a generous load of dirt in one of the guilles. CHRISTIAN SCIENCE IS a religion which provides today, its adherents believe, a logical, provable explanation of the words and works of the Bible, including the spiritual healing of sickness and other discords.

THERE ARE Christian Science churches in communities throughout the world. The church in Plymouth is at 428 S. Michigan St., with Sunday services at 10:30 a.m., Sunday School at that same hour for young people up to the age of twenty, and Wednesday evening meetings at 7:45.

TO HELP INFORM the public about Christian Science and its teachings, churches of the denomination from time to time sponsor lectures by members of the Christian Science Board of Lectureship. The Plymouth Lectureship. The Plymouth church is offering such a lecture next week.

New telephone directories for Culver and vicinity will begin arriving at homes and business places next week.

Rodney Lubeznik, Indiana Bell manager, said about 2,800 of the new books will be delivered to Bell customers. Most of the directories will be delivered by mail. The books will come with a label bearing the customer's name and address, similar to the way magazines are presently mailed. The wrappers used in previous years will be discontinued in an effort to conserve paper.

The new directory cover sports a full-color picture of two men walking on a colorful carpet of leaves deep in a Hoosier forest.

Contained on the inside back page is a personal mini-directory. It is designed to save telephone users time by making space available for them to list personal emergency and frequently called numbers. Regular emergency numbers are listed on the inside front cover.

Also contained in the book are easy-to-use charts showing time periods when reduced rates for long distance calls are in effect, and directions for using directory assistance for obtaining numbers not listed in the directory.

Practice For "500" Starts Monday

Practice in preparation for the 58th annual Indianapolis 500-mile race on May 26 is expected to get under way at a much quicker pace than ever before when the track is made available to all 68 entrants for the first time this year on Monday, May 6.

The customary 160 miles an hour speed limit probably will be lifted for all veteran drivers after only two or three hours of "shake down" runs because the curtailed 1974 schedule permits only five days of practice prior to the traditional speed battle for the coveted pole position on May 11.

This has been done to comply with guidelines established several months ago by the Federal Energy Office and Speedway officials also have announced that the usual two Sundays of time trials have been eliminated. Sat urday, May 18, will be the second time trial day

Five former Indianapolis win ners, 24 other veteran drivers and 13 rookies already have been assigned to cars with the other 26 still open. A. J. Foyt (1961-64-67), Al Unser (1970-71), Bobby Unser (1968), Mario Andretti (1969) and Gordon Johncock (1973) will be trying to repeat their previous triumphs,

Tom Sneva, Bill Simpson, Tom Bigelow and John Cannon-A Canadian now living in California-top the rookie contingent. Sneva has attracted more than ordinary attention by finishing 12th in the California 500 in March, leading the field at one stage of the Phoenix 150-miler turning in the second-fastest qualifying speed for the Trenton

Crew Chiel Grorge Bignotti (left) and Driver Gordon Johncock will be trying to duplicate their 1973 victory in the 58th annual Indianopolis 500-mile race of Sunday, May 26.

"200" last month

Many changes have been made in the Speedway facilities since last year's race for the safety and convenience of spectators as well as participants.

Interior roads have been resurfaced; the outer retaining wall has been raised to a uniform height of 32 inches; two of ground-level seats front of Grandstand A and the Paddock have been eliminated: 3,600 seats have been added to the Northwest Vista on the No. 4 turn: the pit area has been lengthened 856 feet and widened

five feet: the safety apron on the No. 4 turn has been widened; and a new entrance to the pit area also has been constructed. Adding to the "new look" will be a two-level tower on the outer edge of the track at the startfinish line for race officials.

Practice hours at the track be-ginning May 6 will be from 11 a.m. to 6 p.m. daily with a gate admission of \$1. Admission on time trial days will be \$2.

Blind Corner

Alex dutifully halted his car at the stop sign. At that point, which was about 30 feet back from the corner, his vision of the intersection was blocked by some high bushes. Nevertheless, he moved briskly into the crossing. Result: a collision with a car

coming along the other street.

Was Alex guilty of negligence? He insisted that he was not, pointing out in a court hearing that he had brought his car to a full stop at the sign. "That's all the law requires, looked, and

"That's all the law requires, said. "I stopped, looked, and bounded place." listened at the designated place." But the court found him guilty of negligence anyhow. The court said a "blind" corner imposes an extra duty on motorists-regard-

The law does recognize, how ever, that caution is a matter of degree. For example:

Another man also entered an intersection that he could not see because of shrubbery. But this because of simubery. But this time, the man edged forward at a snail's pace, glancing in both di-rections. Even though he still got in the way of an oncoming car and caused a collision, a court ruled afterward that he could not be held legally liable.

"The law does not require the impossible," wild the court. "One cannot be held guilty of negligence because he is unable to see through impenetrable objects or to bend his vision around them." his

What about the responsibility for making the intersection blind in the first place? Unless a special statute so provides, the local gov-ernment ordinarily cannot be held liable for this kind of hazard. However, courts have occasio

ally placed the blame on a private property owner who has brought such an obstruction into existence. Liability has been based on the theory that the condition of his premises could foreseeably cause some luckless motorist, some day, to get hurt.
